

Who Owns America's Businesses? Minority Business Ownership Differs by Sector

[Article originally appeared in www.census.gov]

By Lynda Lee

As the U.S. population has become more diverse, so has ownership of the nation's businesses.

There were more Hispanic-owned businesses overall and more minority-owned businesses in various sectors in 2020 than a decade earlier, according to the Census Bureau's 2021 Annual Business Survey (ABS).

The diversity of business owners mirrors the changing profile of the nation's population. The 2020 Census found that the population of nearly all race and ethnicity groups in the United States had grown since 2010 with the exception of the White alone population, which declined during the decade.

The ABS includes annual business statistics and demographic characteristics of employer firms such as owners' race, ethnicity, sex and veteran status.

U.S. Business Ownership

In 2020, there were a total 5,775,258 U.S. firms in all sectors. They employed about 129,363,644 workers and had total annual payroll of \$7.3 trillion.

Approximately 20% or 1.2 million of these employer businesses were owned by minorities.

They employed about 9.9 million employees and had annual payroll of \$357.4 billion.

According to the ABS, business ownership among some racial and ethnic groups was concentrated in certain industries.

Last month, the U.S. Department of Commerce launched the Capital Readiness Program grant competition, which dedicates \$93.5 million to help minority and other underserved entrepreneurs launch and scale their businesses.

This program, administered by the Minority Business Development Agency, marks the largest program of its kind in the history of the Commerce Department.

Hispanic Ownership

Hispanic-owned businesses grew about 8.2%, from 346,836 in 2019 to 375,256 in 2020, and made up about 6.5% of all businesses in the United States in 2020.

In 2020, Hispanic-owned businesses yielded about \$472.3 billion in annual receipts and employed about 2.9 million employees.

The highest number of Hispanic-owned firms was in the Construction sector.

There's nothing clean about offshore wind development unless California tribes are involved

[Article originally appeared in www.calmatters.org]

Frankie Myers, CalMatters

Since colonization began, the impacts of natural resource extraction have devastated Indigenous communities in the United States and across the globe.

In Northern California, gold miners inflicted nearly irreparable damage to the Klamath River, the lifeline of my people. Hydropower dams

spurred the collapse of salmon runs that sustained us since the beginning of time. Industrial timber companies transformed our diverse oak woodlands into pine tree plantations that fuel extreme wildfires, robbing us of acorns and even our homes.

These shortsighted actions are also an assault on our sacred connection to the land, which is fundamental to who we are as Native people.

So when the offshore wind industry tells us about all the great opportunities their projects will provide Native people, we've heard it before.

The Yurok Tribe, the largest in California, will not let another industry commit violence against our people, our ancestral landscape or our cultural viewsheds. During sacred renewal ceremonies, we pray at the summit of high mountain peaks, which offer an unobstructed view of the ocean. These prayer seats represent the last places where we can see the world through the eyes of our ancestors. The ability to focus on our prayers without having to view the destruction wrought by industry is critical to our cultural identity.

The experience is a constant reminder of who we are and where we come from.

The U.S. Bureau of Ocean Energy Management recently selected two multinational corporations to develop large wind projects off our coast. While some bidders met with my tribe, California North Floating and RWE Renewables have not.

This lack of outreach has revived concerns that history is repeating itself. California tribes are worried that these corporations will come in, profit off of our resources and leave our communities poorer for it – as their predecessors did.

Offshore wind developers on the East Coast excluded Native American tribes from participating in project planning and development. To add insult to injury, a now-defunct project off the shores of Wampanoag territory in Massachusetts was ignorantly named the "Mayflower Project." For an industry that proclaims the importance of diversity, equity and inclusion, it is hard to fathom why Native American tribes were completely left out of the decision-making process and instead insulted with a name associated with the beginning of the Native American genocide.

William & Mary's Entrepreneur Scholars Program Guides Veterans from Idea to Startup in Five Weeks

[Article originally appeared in www.military.com]

By Blake Stilwell

The road to starting your own business is a long one, with a lot of bumps and obstacles along the way. The Raymond A. Mason School of Business at Virginia's College of William & Mary has launched a carpool lane for entrepreneurial-minded veterans, the Veteran Entrepreneur Scholars Program.

Over the course of five weeks, the free boot camp-style program helps vets create a workable business idea, develop it into a viable concept and create the conditions necessary to launch their business once the program is over. It also teaches attendees about startup culture, best practices, networking and more.

"It's a five-week, part-time course, so it's meant to integrate into your life," Will Gregory, founder of the Veteran Startup Challenge (VSC), told Military.com. "We've stripped down everything to make sure that our vets hit the ground running with the critical information that they need and can actually apply what they're learning in actionable ways."

Gregory is an anthropologist by training and worked in Silicon Valley's tech startup sector. His appreciation for veterans came when he deployed to Afghanistan in 2011, first with the Army and then with the Marine Corps as an anthropologist, helping Marines make sense of Afghan culture.

When he came home from Afghanistan, he began working with startup accelerator Y Combinator, recruiting veterans. As more veterans began to ask him for help in their

initiatives, he began pooling resources for them to use.

"I knew if something was going down, the Marines I was with were gonna have my back, no matter what," he said. "I had never experienced anything like that: the level of camaraderie and the selflessness of those Marines. So when I came back, I just wanted to try to help them in even a fraction of the way that they helped me."

The result is the Veteran Startup Challenge, funded by William & Mary alumni, and operated by the Raymond A. Mason School of Business, William & Mary's Center for Military Transition and the Alan B. Miller Entrepreneurship Center.

Applicants to the program come in with a clean slate, starting with a new idea, whether they're currently working on a startup or not.

As part of a 10-person cohort, everyone starts from the same point -- thinking like an entrepreneur.

"We want them to go out and start identifying challenges that they experience in their own lives," said Gregory. "Then they find others who experience the same challenges and see if it's a big enough pain point that people would consider a product or service to solve it."

From there, veterans begin applying startup frameworks to their idea, which allows them to streamline processes in getting their potential business to market. It's a startup accelerator program that was originally intended for the tech sector, but Gregory is continually amazed at how creative veterans are when applying the same principles to other businesses.

Minority Business Ownership Differs by Sector

■ Continued from page 1

Other sectors in which Hispanic-owned businesses outnumbered those owned by other minority groups in 2020: Transportation and Warehousing; Administrative and Support and Waste Management and Remediation Services.

Black-Owned Businesses

There were 140,918 U.S. Black- or African American-owned businesses — across all sectors of the economy — in 2020 with annual sales of \$141.1 billion. They employed 1.3 million people.

The Health Care and Social Assistance sector had the highest number (38,319) of businesses with majority Black or African American ownership, making up 27.5% of all Black-owned businesses.

These businesses employed 468,433 workers and had annual payroll of \$12.2 billion.

Asian-Owned Businesses

In 2020, there were 612,194 Asian-owned businesses employing about 5.2 million in the United States, the highest among all minority groups.

William & Mary's Entrepreneur Scholars Program Guides Veterans from Idea to Startup in Five Weeks

Continued from page 2

"It's actually a very straightforward process," he said. "We teach them what frameworks will be helpful to their idea. The ideas have been far and wide, from the medical field to real-estate tech. It's really awesome to see."

Once the boot camp is over, veterans have access to the entire network of alums from past cohorts, which offers guidance and fellowship in the new world of entrepreneurship they are about to enter.

"By being part of this little community, they get to really expand not only their network, but also the scope of their understanding of the startup experience," Gregory said.

Graduates also receive certificates from the Mason School of Business Center for Military Transition and the Veteran Start-up Challenge. Digital credentials for display on social media such as LinkedIn are included, in addition to invitations to select William & Mary alumni opportunities and events as graduates of the certificate program.

Applicants to the program don't need any prior business or startup experience, and it's open to all current service members and veterans. Since the Veteran Entrepreneur Scholars Program is a scholarship to the VSC boot camp, attendance is free, but travel and living expenses are not provided.

"To any veteran wondering if they should apply, if they're not sure that they have the credentials to apply, I say just apply. Let us make that call," Gregory said. "I don't wanna see a vet who is a really good fit for the program hold back from taking that shot. There's a good chance that we're looking for things that are different from what classic educational institutions might look for."

To learn more about the Veteran Entrepreneur Scholars program or to apply for it, visit the program website. There are both in-person and remote cohorts, and applications are accepted on a rolling basis.

CALIFORNIA SUB-BID REQUEST ADS

O.C. Jones & Sons, Inc.
1520 Fourth Street • Berkeley, CA 94710
Phone: 510-526-3424 • FAX: 510-526-0990
Contact: Jason Martin

REQUEST FOR DBE SUBCONTRACTORS AND SUPPLIERS FOR:

Rock slope protection, roadway excavation, guardrails & vegetation control
Hwy 505 Solano County
Caltrans #04-0Q7104

BID DATE: January 31, 2023 @ 2:00 PM

We are soliciting quotes for (including but not limited to): Trucking, Temporary and Permanent Hydroseed and Erosion Control Measures, QC/QA Testing, Lead Compliance Plan, Construction Area Signs, Traffic Control System, Temporary Barrier System, Portable Changeable Message Sign, Alternative Temporary Crash Cushion, SWPPP, Sweeping, Treated Wood Waste, Clearing & Grubbing, Imported Topsoil, Cleaning, Inspecting, and Preparing Culvert, Rock Slope Protection, Guard Railing Delineator, Pavement Marker, Guardrail Systems, Vegetation Control (Minor Concrete), Striping, and Construction Materials

Jason Martin (510-809-3432 - jmartin@ocjones.com) is the estimator on this project and is available to provide assistance or answer questions regarding the project scope of work including bid requirements, break out of bid items, plan or spec interpretation, bonding or insurance requirements, and other bid assistance. Plans and specs are available to review at our Berkeley office or can be sent out via Building Connected. Plans are also available under the Advertised Projects tab at the Caltrans website at: <http://ppmoe.dot.ca.gov/des/oe/contract-awards-services.html>. PDF format quotes should be emailed to the estimator or faxed to 510-526-0990 prior to 12:00 PM on the date of the bid. Quotes from DBE Subcontractors, Suppliers and Truckers are highly encouraged. OCJ is willing to breakout any portion of work to encourage DBE participation. Subcontractors must possess a current DIR, Contractors License, and insurance and workers compensation coverage including waiver of subrogation. OCJ may require Performance and Payment bonds on subcontracts. OCJ will pay the bond premium up to 2% of the contract value. Please contact OCJ for any assistance required by your firm in obtaining bonding or insurance. The US Small Business Administration may also assist you in obtaining bonding - please see the following site for information: <http://www.sba.gov/content/contractors>. Visit the California Access to Capital Program Financing Solutions website for additional resources for your small business - http://www.calbizfinance.org/cal_cert_biz_program.html. OCJ is available to help obtain necessary equipment, material and/or supplies. All subcontractors are required to execute OC Jones' standard subcontract agreement, comply with all insurance requirements, and name OCJ as additional insured. Copies of our agreement and insurance requirements are available upon request. OCJ is a Union contractor, and we are signatory to the Operating Engineers, Laborers, Teamsters, and Carpenters. OCJ is an Equal Opportunity Employer.

CALIFORNIA SUB-BID REQUEST ADS

SKANSKA

Subcontractor/Supplier Bids/Proposals Requested
Owner: California Department of Transportation
Caltrans Contract Number: 08-1C08U4
Proposal Due Date: February 16, 2023 – 2:00 PM
DBE-22%

Skanska USA Civil West California District Inc. is interested in soliciting in Good Faith all subcontractors and suppliers as well as certified DBE subcontractors and suppliers related to the scopes of work below for the

Construction on State Highway 10 In Riverside County from Wiley Well Road to the California/Arizona State Line

Plans & Specs can be accessed and downloaded online at: Caltrans Office of Engineer Contractor's Corner.
<http://ppmoe.dot.ca.gov/des/oe/weekly-ads/oe-project.php?q=08-1C08U4>

Requested scopes include, but are **not limited** to the following and should be based on the Contract and its amendments: Develop Water Supply, Construction Area Signs, Traffic Control System, Striping, PCMS Boards, Radar Speed Feedback Signs, Temporary Railing, Temporary Traffic Screen, Implement BMP, SWPPP, Temporary Erosion Control, Street Sweeping, Asbestos Compliance Plan, Treated Wood Waste, Contractor-Supplied Biologist, Clear and Grub, Roadway Excavation, Shoulder Backing, Structure Excavation, Structure Backfill, Imported Borrow, Erosion Control, Class 2 Aggregate base, Prime Coat, Hot Mix Asphalt, Rubberized Hot Mix Asphalt, Place HMA Dike, Tack Coat, Remove AC Dike, Cold Plane Asphalt Concrete Pavement, Remove Base And Surfacing, CIDH Piling, Structural Concrete, Paving Notch Extension, Drill And Bond Dowel, Joint Seal, Bar Reinforcing Steel, Remove Asphalt Concrete Surfacing, Prepare Concrete Bridge Deck Surface, Furnish and Place Polyester Concrete Overlay, Bridge Removal, Storm Drain, Rock Slope Protection, RSP Fabric, Minor Concrete, Fencing, Guardrail Systems, Roadside Signs, Concrete Barrier, Rumble Strip, Electrical Systems, Trucking, Water Truck, Ready-mix Concrete, Saw Cutting, Rip Rap, Noise Monitoring, Landscape, Remove Asphalt Concrete Pavement, Driven Pile, Prestressing, Shotcrete, Slope Paving, Pre/Post Construction Survey, Isolation Casing, Survey Monument, Anti-Graffiti Coating, Cement, Fly Ash, Admixtures, Concrete Aggregates, Tie Bars, Dowels & Cure.

Requirements: Skanska is an Equal Opportunity Employer and is requesting quotes from all qualified subcontractors and suppliers. Skanska will assist qualified subcontractors, vendors, & suppliers in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies. If you are a DBE Company, please provide your certification letter with your proposal. If you are a non-DBE, please indicate all lower-tier participation on your quotation as it will be evaluated with your price. In order to assist DBE subcontractors and suppliers, we will divide total requirements into smaller packages, tasks or quantities & establish delivery & construction schedules which will permit maximum participation when feasible. Subcontracting Requirements: Skanska's insurance requirements are Commercial General Liability (GL): \$1M ea. occ., \$1M personal injury, \$2M products & completed operations agg. & general agg.; \$1M Auto Liability; \$5M Excess/Umbrella and \$1M Workers Comp. Endorsements and waivers required are the Additional Insured End., Primary Wording End., & a Waiver of Subrogation (GL & WC). Other insurance requirements may be necessary per scope or RFP requirement. Subcontractors may be required to furnish performance & payment bonds in the full amount of their subcontract by an admitted surety & subject to approval by Skanska. Quotations must be valid for the same duration as specified by the Owner for contract award. Conditions or exceptions in Subcontractor's quote are expressly rejected unless accepted in writing. Skanska is signatory to the Operating Engineers, Laborers, Cement Masons, & Carpenters Unions. Subcontractors must provide weekly, one original and one copy of all certified payrolls, including non-performance and fringe benefit statements if required by law or by the Prime Contract. Please note that all Contractors and Subcontractors must register with The DIR (Department of Industrial Relations) in order to bid on public works projects. Include CSLB License Number and DIR Number on All Quotes Submitted.

REQUEST FOR CERTIFIED DBE SUBCONTRACTORS/SUPPLIERS/SERVICES

Caltrans Contract 03-4F6504

Construction on State Highway in Yolo County in and near West Sacramento on Route 80 from 1.7 Miles East of Mace Boulevard Overcrossing to Sacramento River Bridge and Overhead (Bryte Bend) and on Route 50 from Route 80 Junction to Jefferson Boulevard Undercrossing
(General Work Description: CRCP, HMA (Type A), Rdwy Exc, Class 2AB, Fiber Optic Cable Systems)

EE: \$220M DBE Goal 23% Bid Date: January 25, 2023 at 2:00 PM

****This is an Electronic bid submittal****
****Quotes not received by 11:00 AM on bid day may not be reviewed/evaluated****

Flatiron-Teichert, A Joint Venture requests DBE subcontractor/supplier/service participation for the following, but not limited to items of work: Subcontractors: Asphalt Dike, Asphalt Paving, Bridge and Roadway Demo, Clear and Grub, Cold Plane AC, Concrete Barrier, Construction Area Signs, Cured in Place Pipeline, Driven Pile, Electrical, Erosion Control, Excavation and Grading, Fencing, Grind and Groove Pavement, Hydroseeding, Joint Seal, Landscaping and Irrigation, MBGR, Metal Railing, Minor Concrete, Overhead Signs, Polyester Concrete, Rebar, Recycle and Reclaim AC, Remove Unsound Concrete and Patch RSC, Roadside Signs, Saw and Seal PCC, Sawcutting, Striping, Traffic Control, Underground Utilities. Suppliers: Aggregates, Asphalt, Asphalt Oil, Bridge Bearings, Geotextiles, Joint Seal Assemblies, Misc. Iron and Steel, Misc. Metals, PCC Paving Materials, Ready Mix Concrete, Steel Pipe Pile, SWPPP Materials, Underground Pipe (RCP, CSP, SCSP), Underground Precast. Service: Biologist, Concrete Pumping, Equipment Rental, HazMat Trucking, Lead Compliance Plan, QC Testing, Street Sweeping, Survey, SWPPP Plan, Trucking.

Non-DBE Subs/Suppliers: You will be expected to carry a proportionate percentage of 2nd-tier DBE participation with your quote. 2nd-tier DBE participation will be evaluated with your price.

100% performance/payment bonds will be required for the full amount of the subcontract price. Please contact Flatiron-Teichert, A Joint Venture (Flatiron-Teichert) for any assistance to this solicitation, including obtaining bonding, insurance, equipment, materials and/or supplies. Provide subcontractor/supplier scopes/quotes as early as possible to enable estimators to perform a thorough evaluation of all quotes received. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Quotes must be valid for the same duration as specified by the Owner for Contract Award. We are union contractors. Non-signatory subs will be required to sign an agreement for trades covered under our union agreements. Flatiron-Teichert intends to work cooperatively with subcontractors and suppliers for all bid items you are licensed and qualified to perform. Bid items can be split to facilitate participation from all certified firms. Flatiron-Teichert will reimburse for bond premium up to 2%. **Firms must possess & provide current contractor's license number & DIR Registration number on the quote.** Firms must possess insurance and workers compensation coverage meeting project requirements. Waiver of Subrogation is required. Please contact Flatiron-Teichert for any assistance required by your firm. Subcontractors/Suppliers will be required to execute our standard agreements and agree to the standard general terms & conditions. Copies are available for review on our Box.com ftp site upon email request.

To view and download projects docs for FREE from the Caltrans website you will need to "Create an Account" with Caltrans Connect. Use the following link <http://ppmoe.dot.ca.gov/des/oe/weekly-ads/all-adv-projects.php> to enter the Advertised Projects page and scroll to Contract number: 03-4F6504. Sign in is required to access project plans.

To access **FREE** project documents from our BOX ftp site, please send an email request to NorCalBids@flatironcorp.com. You will be provided with a BOX link to view & download plans and specs for **FREE** from our BOX.com ftp site. Due to Covid-19 & social distancing requirements still in place in some areas, we are not currently scheduling appointments to review project docs or meet with estimators in our office. When all pandemic restrictions are lifted, we will offer these services again in our office by appointment only. Thank you for your understanding.

Please send all quotes by email to NORCALBIDS@flatironcorp.com

SKANSKA

Subcontractor/Supplier Bids/Proposals Requested
San Bernardino Valley Municipal Water District
SPEC 22-02
Proposal Due Date February 7, 2023-10:00 AM

Skanska is interested in soliciting in Good Faith with all DBE Subcontractors and Suppliers for the following project:

Enhanced Recharge In The Santa Ana River Basins-Phase 1B Highland, CA

Plans and Specifications are available through registering on our plan site at:
<https://app.buildingconnected.com/public/59b1c0096ab4570007e09292>

Requested scopes include, but are **not limited** to the following and should be based on the Contract and its amendments: **Site Security, Traffic Control, Signs, Fence, SWPPP, Readymix, Concrete Removal, Saw Cutting, Clearing and Grubbing, Excavation, Riprap, Aggregate Base Course, Material Processing, Geotextile, Irrigation, Seeding, Testing & Inspection, Survey, Electrical & Instrumentation, Rebar, Trucking, Equipment Rental, Erosion Control, Reinforced Concrete Piping, Structural Concrete, Surveying, Slide Gates**

Accepted Disadvantaged Business Enterprises specific to this project are:

- Entities owned and/or controlled by socially and economically disadvantaged individuals as described by Title X of the Clean Air Act Amendments of 1990 (42 U.S.C. 7601 note) (10% statute), and Public Law 102-389 (42 U.S.C. 4370d) (8% statute), respectively;
- Minority Business Enterprise (MBE) - entities that are at least 51% owned and/or controlled by a socially and economically disadvantaged individual as described by Title X of the Clean Air Act Amendments of 1990 (42 U.S.C. 7601 note), and Public Law 102-389 (42 U.S.C. 4370d), respectively.
- Women Business Enterprise (WBE) - entities that are at least 51% owned and/or controlled by women.
- Small Business Enterprise (SBE);
- Small Business in a Rural Area (SBRA);
- Labor Surplus Area Firm (LSAF); or
- Historically Underutilized Business (HUB) Zone Small Business Concern or a concern under a successor program

Certifying DBE Firms:

Under the DBE Program, entities can no longer self-certify, and contractors and sub-contractors must be certified at bid opening. Contractors and sub-contractors must provide to the CASRF recipient proof of DBE certification. Certifications will be accepted from the following:

- The U.S. Environmental Protection Agency (USEPA)
- The Small Business Administration (SBA)
- The Department of Transportation's State implemented DBE Certification Program (with U.S. citizenship)
- Tribal, State and Local governments
- Independent private organization certifications If an entity holds one of these certifications, it is considered acceptable for establishing status under the DBE Program

Requirements: Skanska is an Equal Opportunity Employer and is requesting quotes from all qualified subcontractors and suppliers. Skanska will assist qualified subcontractors, vendors, & suppliers in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies. If you are a DBE Company, please provide your certification letter with your proposal. If you are a non-DBE, please indicate all lower-tier participation on your quotation as it will be evaluated with your price. In order to assist DBE subcontractors and suppliers, we will divide total requirements into smaller packages, tasks or quantities & establish delivery & construction schedules which will permit maximum participation when feasible.

Insurance requirements are Commercial General Liability (GL): \$1M ea. occ., \$1M personal injury, \$2M products and completed operations agg. & general agg.; \$1M Auto Liability; \$5M Excess/Umbrella and \$1M Workers Comp. Endorsements and waivers required are the Additional Insured End., Primary Wording End., and a Waiver of Subrogation (GL & WC). Other insurance requirements may be necessary per scope or RFP requirement. Subcontractors may be required to furnish performance and payment bonds in the full amount of their subcontract by an admitted surety and subject to approval by Skanska. Quotations must be valid for the same duration as specified by the Owner for contract award. Conditions or exceptions in Subcontractor's quote are expressly rejected unless accepted in writing. Skanska is signatory to the Operating Engineers, Laborers, Cement Masons, and Carpenters Unions. Subcontractors must provide weekly, one original and one copy of all certified payrolls, including non-performance and fringe benefit statements if required by law or by the Prime Contract. All Contractors and Subcontractors must register with the DIR (Department of Industrial Relations) in order to bid on public works projects. Please include CSLB License Number and DIR Number on all quotes submitted.

BUSINESS TOOLKIT

Advance Your Construction Career with Advice from 17 Industry Professionals

[Article originally appeared in Autodesk Construction Cloud Blog. <https://construction.autodesk.com>]

By Grace Ellis

The start of the 2023 New Year is the perfect time to think about how you can develop your professional career. The career path for those in construction has the potential to be rewarding, but you may find that it is challenging to navigate a constantly changing landscape.

To help make it a little easier to get started in the New Year and to focus on professional development that furthers your career, we've gathered advice and insight from 17 professionals who are thriving in their roles in construction.

Further Your Career By Always Learning

Continuing to learn is essential, according to several leading industry professionals. How can learning impact your career? This is what they had to say.

Stay Engaged

Continuously look to seek out new learnings. Doing this will help you find innovative solutions to problems you may face, and also keep you engaged and relevant in an ever-changing industry."

– Adam Plunkett, Group Manager of Business Technology & Planning at John Holland

Keep Learning

"Never think any task or experience is beneath you. Especially if it's something you are expecting from others who may report to you. Always be a student of the company you work for and the industry you are working in. You are never done

learning and developing. Trust in the experience of the ones who came before you and the fresh perspective of those coming in behind you."

– Matt Allread, Education Manager at Gaylor Electric, Inc.

Embrace Change

"Don't be afraid of change, and always look for ways to improve your skills. When I first started working at MG2 10 years ago, there were not many Revit experts at the time. I took this opportunity to step up and be the expert for my firm. This gave me the tools to tackle complex projects with confidence."

– Maribel F. Barba, Associate at MG2

Leverage Your Experience

"If it is not part of your job, take your time and learn something new. The industry's future will be built on software; learn how to code, build an app, or automate repetitive tasks. Opportunities will arise where these new skills will be leveraged, and your team members, your bosses, and your company will value you more because of it."

– Jacob D'Albora, FMP Director of Digital Building Operations at VIATechnik, LLC

Try New Things

"I'd advise them to experiment and try new things in new ways. Look to other industries to learn from. There are a lot of processes and ideas that the construction industry does well, but there are so many that other industries do better. I'd suggest using whatever previous experience from whatever you have done, be it professionally or as a hobby, to reach the goal you have in your work."

– Kristoffer Flygare, Technology Manager at Bravida Sverige AB

Be Adaptable

"Be willing to adapt quickly to change. Technology in construction is consistently changing, no matter your position, and being able to adjust your processes to keep up with the changes will help any individual grow in their career."

– Kacie Hokanson, Virtual Construction Specialist at Miron Construction Co., Inc.

Grow Your Network

Sometimes, who you know matters when you're looking for work or trying to improve your skills. Keep this advice in mind.

Get a Mentor

"Find an ally, mentor, or sponsor that can help guide you within or outside of your organization. Leverage these people to bounce ideas off, get constructive feedback, or align career goals and opportunities. Don't be afraid to advocate for yourself by keeping track of all that you have accomplished, and be sure to share that with your manager during performance reviews or check-ins. You may not get every role or promotion you apply for, but you won't know unless you try!"

– Danielle O'Connell, Sr. Director, Emerging Technology at Skanska USA Building Inc.

Build Relationships

"Build relationships everywhere you go. Be genuinely interested in what others do in the AEC industry and build relationship capital. By doing so, you'll gain knowledge while also building a network of people who support you throughout your career advancements."

– Breawn Felix, Regional Support Services Manager at Swinerton Builders

Keep Networking

"My advice to someone looking to level up their career is to get involved with as many groups or organizations in the industry as possible. The more networking that you do, the better it will be for your career. Each group can help open different doors or paths that previously were not available. The other piece of advice is to find a mentor. Someone that has been through everything before can be your biggest asset in guiding you down your path."

– Landon Arciero, Senior Project Manager at Largo Concrete Inc.

Share Your Work

"Take advantage of the fact that building things is inherently interesting. Most people, even those who aren't interested in the built world, have a vested interest in the places they live, work, and play in. There's also the added bonus that every new construction project directly impacts the community it's in, so regardless of career path, there will always be an audience for your work. So, my advice is to share it! Take lots of pictures, and tell people about what you're doing."

– Christian Waldo, VDC Manager at Lydig Construction

Use Tech to Your Advantage

Technology is changing, and it's being used more than ever in construction. Here's what industry experts want you to keep in mind about the advancement of technology and digital spaces.

PUBLIC LEGAL NOTICE ADVERTISEMENTS

OAKLAND UNIFIED SCHOOL DISTRICT DEPARTMENT OF FACILITIES PLANNING AND MANAGEMENT

NOTICE TO BIDDERS DOCUMENT 00 11 11

Notice is hereby given that the Oakland Unified School District (hereinafter referred to as "Owner") will receive sealed bids prior to the date and time stated for the Bid Opening for the award of a contract to construct the ("Contract"), **Project No. 70022**

Skylight High School Sewer Replacement 2115 Skyline Blvd, Oakland, CA, 94619

Project consists of:

Remove and replace existing sewer lines. Either excavate and remove the existing sewer lines and replace with HDPE pipe or the trenchless line replacement or pipe burst method with the same piping, using same pipe diameters as indicated on CCTV camera scoping. Reconnection to existing laterals, replacement of manholes as needed, removal of existing tree roots without damage to existing trees, and removal of excess materials from site. If excavation method is used, prior to installation of piping, compaction of existing soil to 95%, installation of 3/4 inch drain rock, 4 inches under pipe, 4 inches on sides, and 12 inch min. on top, remainder to be backfill material compacted to 95%. Testing of the new lines to be included. Existing surface finishes to be restored as was, in its entirety. All of the above work will be under the supervision of the inspector.

Engineer's Estimate: \$410,000

Project Manager is Marcus Board, who can be reached at: marcus.board@ousd.org and/or 510-277-6719.

"The most qualified responsible responsive lowest bid shall be determined on the amount of the base bid." The Owner reserves the right to add or deduct any of the additive or deductive items after the lowest responsible and responsive bidder is determined. The lowest bid shall be determined by the amount of the base bid.

This Contract is not subject to prequalification pursuant to Public Contract Code section 20111.6.

This Contract is subject to the District's Project Labor Agreement.

The full version of OUSD's latest Project Labor Agreement can be found by going to the OUSD home page: ousd.org > Offices and Programs > Facilities Planning & Management Department > For Contractors and Developers > Bids and Requests for Proposals > Bid Information > 2016 PLA – Project Labor Agreement.

Contract Documents will be available for review on or after **January 18, 2023**, at **East Bay Blue Print, located at 1745 14th Avenue, Oakland, CA 94606**. All requests should be addressed Attention: Sandy Petty. Plans can be ordered by:

Ph: 510-261-2990 Fax: 510-261-6077

Email: ebbp@eastbayblueprint.com,

Attn: Sandy. Online using the Plan Command System at www.eastbayblueprint.com or plans can be delivered to a place of business, at requester's own expense. Payment for plan sets must be made with East Bay Blue Print and are **NON-REFUNDABLE**

In addition, Contract Documents are available for bidders' review at the following builders' exchanges:

Builder's Exchange of Alameda County

McGraw Hill Construction Data

San Francisco Builder's Exchange

Reed Construction Market Data

Contra Costa Builder's Exchange

Marin Builder's Exchange

Public works projects shall be subject to compliance monitoring and enforcement by the Department of Industrial Relations. For all projects over Twenty-Five Thousand Dollars (\$25,000), a contractor or subcontractor shall not be qualified to submit a bid or to be listed in a bid proposal subject to the requirements of Public Contract Code section 4104 unless currently registered and qualified under Labor Code section 1725.5 to perform public work as defined by Division

2, Part 7, Chapter 1 (§§1720 et seq.) of the Labor Code. For all projects over Twenty-Five Thousand Dollars (\$25,000), a contractor or subcontractor shall not be qualified to enter into, or engage in the performance of, any contract of public work (as defined by Division 2, Part 7, Chapter 1 (§§1720 et seq.) of the Labor Code) unless currently registered and qualified under Labor Code section 1725.5 to perform public work and proof of registration is provided.

The Contract Time shall be **293** calendar days, and liquidated damages for delay shall accrue. The deadline for Completion is TBD. See Article III of the Agreement for details.

Bids must be sealed and filed in the Business Office of the Owner at:

Front Desk Facilities Planning & Management 955 High Street, Oakland, CA 94601

on **February 8, 2023**, before 2:00 p.m. on the clock designated by the Owner or its representative as the bid clock, after which time the bids shall be opened. No bid will be accepted by the Owner after this time. Facsimile (FAX) copies of the bid will not be accepted. PLEASE NOTE: DUE TO COVID-19 BIDS WILL NOT BE OPENED. BID RESULTS WILL BE MADE AVAILABLE VIA EMAIL.

A mandatory pre-bid site visit will be held on **January 26, 2023**, at 10:30 a.m., at Front entrance of the Skylight School site. Bidders not attending the site visit will be disqualified.

Bids must be accompanied by a bidder's bond, cashier's check, or certified check for at least ten percent (10%) of the amount of the base bid and made payable to the Owner, as detailed in the Contract Documents.

Owner, or its designee, has determined that certain materials, services, products or things designated by specific brand or trade name shall not be subject to Public Contract Code section 3400(a) in order that a field test or experiment may be made to determine the product's suitability for future use; in order to match other materials, services, products or things in use on a particular Owner public improvement either completed or in the course of completion; in order to obtain a necessary item that is only available from one source; and in order to respond to an emergency declared by Owner.

Pursuant to the Contract Documents, the successful bidder will be required to furnish a Payment (Labor and Material) Bond in the amount of one hundred percent (100%) of the Contract Sum, and a Faithful Performance Bond in the amount of one hundred percent (100%) of the Contract Sum.

The successful bidder will be allowed to substitute securities or establish an escrow in lieu of retainage, pursuant to Public Contract Code Section 22300, and as described in the Agreement Between Owner and Contractor and General Conditions.

The Owner will not consider or accept any bids from contractors who are not licensed to do business in the State of California, in accordance with the California Public Contract Code, providing for the licensing of contractors. In accordance with Section 3300 of said Code, the bidder shall have a **Class B-General Building and/or C36-Plumbing Contractor** license and shall maintain that license in good standing through Completion of the Contract and all applicable warranty periods. For all projects over Twenty-Five Thousand Dollars (\$25,000), the bidder shall state the public works contractor registration number on the Designation of Subcontractors form for each subcontractor performing more than one-half of one percent (0.5%) of the bidder's total bid.

The Director of Industrial Relations of the State of California, in the manner provided by law, has ascertained the general prevailing rate of per diem wages and rate for legal holidays and overtime work. The Contractor must pay for any labor therein described or classified in an amount not less than the rates specified. Copies of the required rates are on file at the Owner's business office and are available on request.

California's Film and TV Tax Credit Program Extended for Five Years in Governor's Proposed Budget

[Article originally appeared in
<https://business.ca.gov>]

Governor Gavin Newsom's proposed 2023-24 state budget extends funding for California's Film and TV Tax Credit Program an additional five years (through fiscal 2030-31) and proposes to make credits refundable for the first time since the state launched its incentive in 2009.

The new budget provisions are part of Governor Newsom's ongoing effort to retain and grow production activity across the Golden State. They call for replacing the current third iteration of the state's tax credit program (Program 3.0), which sunsets in 2025, with a new five-year program dubbed Program 4.0. While total funding is proposed to remain at \$330 million per year, tax credits awarded under Program 4.0 will be eligible to be partially refundable to make the program applicable to a broader range of applicants.

"The proposed budget affirms Governor Newsom's leadership in ensuring California's Film and TV Tax Credit Program evolves and continues to deliver on our goal of retaining and growing in-state production," said California Film Commission Executive Director Colleen Bell. "The five-year extension and provision to make tax credits refundable will give industry decision makers more options and the certainty they need to make long-term investments here in the Golden State. This will translate into more production-related jobs, spending and opportunity."

Refundable tax credits will enable applicants to claim a tax refund at a discounted value over multiple years. Credits used to offset in-state tax liability will continue to retain their full value. Under California's current program, credits for feature films and TV projects are non-refundable and non-transferable, while credits for independent film projects are currently transferable but non-refundable. With the proposed budget, all applicants (and therefore all projects) admitted into California's tax credit program could be eligible for refundable tax credits.

Building On a Record of Success

California has earned its long-held status as the world's film and TV production capital due to its superior crews, talent, infrastructure, weather, locations and a host of other factors that promote business and creative success. In recent years, aggressive incentives — mostly in the form of tax credits and rebates — have attempted to lure production away from the Golden State. The impact of such 'runaway production' prompted policymakers in California to respond with the state's own robust tax credit program.

According to the California Film Commission's latest progress report, the current iteration of the state's tax credit program (Program 3.0) launched in July 2020 and is on track to generate more than \$6.2 billion in total production spending statewide during just the first half of its five-year duration. This figure includes \$4.2 billion in "qualified" spending, defined as wages to below-the-line crew members and payments to in-state vendors. Only the qualified portion of each project's budget is eligible for tax credits under California's uniquely targeted program. The \$6.2 billion figure does not include the creation/retention of non-incentivized jobs for performers, producers, directors, writers, composers and music supervisors.

A recent study by the Los Angeles Economic Development Corporation (LAEDC) reported that each dollar allocated by California's Film and TV Tax Credit Program generated \$24.40 in economic output, plus \$1.07 returned to taxpayers in state and local tax revenues.

In addition to bringing production jobs and spending to regions across the state, California's Film and TV Tax Credit Program also promotes workforce training, diversity and inclusion. The Career Readiness requirement mandates that all tax credit projects participate in learning and training programs such as paid internships for students, externships for faculty members, workshops, panels and professional skills tours. The more recently launched Career Pathways Program specifically targets individuals from underserved communities. It is funded directly by tax credit projects and works with partner training programs across the state to reduce the economic, geographic and social barriers to career success. California's tax credit program also requires participating projects to have a written policy for addressing unlawful harassment and submit voluntarily reported above and below-the-line cast and crew employment diversity data. Each production must also provide the state with a copy of its initiatives and programs to increase the representation of women and minorities.

A full summary of Governor Newsom's proposed 2023-24 state budget is available here and a revised proposal with revenue estimates will be released this May. The state's 2023-24 fiscal year begins July 1st.

About California's Film and Television Tax Credit Program

California's film and television production incentive was launched in 2009. In 2014, the California legislature passed a bill that created the second iteration of the state's tax credit program (Program 2.0) and more than tripled the amount of funding from \$100 million to \$330 million annually. Program 2.0 also extended eligibility to include a range of project types (big-budget feature films, TV pilots and 1-hr. TV series for any distribution outlet) that were excluded from the first-generation tax credit program. In addition, Program 2.0 introduced a "jobs ratio" ranking system to select projects based on "qualified" spending (e.g., wages paid to below-the-line workers and payments made to in-state vendors). To spur production statewide, a supplementary five percent tax credit was made available to non-independent projects that shoot outside the Los Angeles 30-Mile Studio Zone or that have qualified expenditures for visual effects or music scoring/track recording. The five-year Program 2.0 went into effect on July 1, 2015 and wrapped its fifth and final fiscal year (2019/20) on June 30, 2020.

The third (current) generation of the California Film and TV Tax Credit Program (dubbed "Program 3.0") was launched on July 1, 2020. New provisions included a pilot skills training program to help individuals from underserved communities gain access to career opportunities. Program 3.0 also added provisions requiring projects to have a written policy for addressing unlawful harassment and enhanced reporting of above and below-the-line cast and crew employment diversity data.

More information about California's Film and Television Tax Credit Program 3.0, including application procedures, eligibility, and guidelines, is available at film.ca.gov/tax-credit/.

SUCCESS STORIES

Strive for Epic

[Article originally appeared in www.norcalsbdc.org]

A young woman with a passion to connect people through yoga saw an opportunity to transform the hobby she loved into a thriving business.

Challenge

Sarah Wallace had practiced yoga for years. As her interest grew, and as more and more friends came to her for advice and instruction, she decided to take her hobby to the next level. She was an expert in many facets of yoga, but was not sure how to go about starting a business.

Gameplan

Sarah contacted the Shasta-Cascade SBDC for guidance. She met with a business advisor who guided her through everything from getting a business license to financial tracking and social media marketing.

Results

Less than two months after meeting with the SBDC advisor, Sarah secured a studio, started her business and was hosting events. She is excited for the future and looking forward to growth and expansion.

She wrote: “[My business advisor] was an amazing catalyst for getting me to officially start my business idea. After meeting with him I felt equipped with knowledge of the exact steps I needed to take to get up and running! I appreciate his consultation and everything the SBDC has to offer.

“I’m very excited to continue with courses and resources the SBDC offers to grow my business education.”

Challenge

Mayela came to the SBDC Programa Hispano just as she was starting her business. She was knowledgeable on her work and how to help her clients, but she needed some assistance in other aspects of the business. Including finding the right building, the right licensing, insurance, and more.

Once she started attending the workshops, she found out how difficult financing, advertising, and marketing could be. Additionally, she had a hard time defining her company; the style, and the best size, including if it would only be local or statewide.

Strategies

Her consultant, Oscar Garcia worked hand-in-hand with Mayela to make decisions in the best interest of her business. Working together, they developed a business plan with Mayela’s ideas and Mr. Garcia’s expertise. She was instructed in how to do research to get the right information for the industry of her business.

In addition to working with consultants, Mayela enrolled more workshops in different areas such as QuickBooks, where she learned how to better manage her finances. With Mayela’s and her advisor’s dedication she was able to overcome all those challenges presented at the beginning.

Bay Hauling

[Article originally appeared in www.norcalsbdc.org]

Juan Vallejos had been operating his business, Bay Hauling, for over a year when he first learned about the Solano-Napa SBDC in 2020.

While the initial pandemic shutdown impacted his Vallejo-based hauling and waste removal company, his business was improving by mid-2020 and he wanted to look at best practices for growth and expansion.

He found himself at the Vallejo Chamber of Commerce, discussing COVID-relief grants and his goals for his business, when he was referred to the Solano-Napa SBDC and its NxLevel entrepreneur training program. The next session was about to begin and Vallejos quickly signed up for the 11-week program.

“NxLevel was like finally being able to build a boat, set it to sail, see where the holes are that we needed to work on, and patch it up,” he said. “It was really powerful for me. I was finally able to put together a mission statement, a marketing plan, all the things that I always thought about but was never in the position to put it on paper until then.”

When the NxLevel course ended after 11 weeks, Vallejos knew he wanted to do more. He began working with multiple advisors on an array of business components. First was human resources, where he learned tips on hiring employees. Then, he focused on finance and QuickBooks training. He connected with an advisor from NorCal PTAC to discuss government contracting.

With his current advisor, Lisa Bishop, he is focused on creating monthly and annual goals for his business. He recently completed an extensive SWOT (Strength, Weakness, Opportunities, Threats) analysis.

He is also an active member of the Vacaville Entrepreneurs Roundtable. He enjoys the monthly

Juan Vallejos

in-person trainings with the group and said that together, they set goals for their businesses and hold each other accountable.

“I am a huge advocate of the SBDC,” Vallejos said. “Whenever I see someone who is motivated and I know they will take advantage of what is available, I refer them.

“I would have never known about this if someone hadn’t referred me,” he added. “It’s a huge resource but it’s also like a hidden secret. I want to see people who are really serious about their business be able to take advantage of this.”

Today, Vallejos’ goals continue to focus on responsible business growth. His eye is on the economy and the possibility of a recession on the horizon has him wanting to build a business that will withstand the challenge.

“I want to see the business grow more organically,” he said. “We’ve built a really good brand that people recognize and I want to focus on leveraging that.”
