

States With the Most Veteran-Owned Businesses

[Article originally appeared in www.hireahelper.com]

According to the U.S. Department of Veterans Affairs, there are about 19 million veterans living in America. Many of these people who served their country are starting businesses, joining an increasing number of Americans who sought to become entrepreneurs after the onset of COVID-19, according to the U.S. Census Bureau.

Demographic data sheds light on who these veterans are. According to the U.S. Bureau of Labor Statistics, around nine out of 10 veterans are men. The largest cohort is over 60 years old, comprising about a 35% share of the U.S. veteran population. In October 2021, an estimated 8.4 million veterans participated in the civilian workforce, and in 2021, the unemployment rate for veterans (4.4%) was lower than the rate for nonveterans (5.3%).

The rise in overall entrepreneurship seems logical in the face of an undeniable fact: a decreasing number of Americans are realizing the American Dream. According to Pew Research, the U.S. middle class has contracted steadily over the last five decades. In 1971, the share of American adults who lived in middle-class households was 61%. By 2021, that number was 50%. Pandemic-related financial issues impacted lower- and middle-income households the hardest; from 2019 to 2020, median incomes fell 3.0% for

lower-income households and 2.1% for middle-income households. There was almost no change in the median incomes of upper-income households during the same period.

For most business owners (roughly 64% according to the Census Bureau's Annual Business Survey), achieving greater income is one of the primary drivers behind owning their businesses. And that number is fairly consistent across veterans and nonveterans. Interestingly though, when comparing veteran business owners to nonveteran owners across other metrics, there are a few notable differences. Compared to nonveterans, veteran business owners value being their own boss, working for themselves, and wanting to start their own business more heavily. On the other hand, nonveterans are more likely to report having flexible hours and a better work-life balance as primary motivators for business ownership.

While nearly 6% of employer firms overall are owned by veterans, the concentration of veteran-owned businesses varies by industry. Comparing what types of businesses veterans started to overall filings for new businesses shows some divergence. The top industries for entrepreneurs who are veterans include oil & gas, finance, professional services, manufacturing, construction, and transportation. According to the Business Formation Statistics from the U.S. Census

California High-Speed Rail Authority Pursues First Major Award Of New Federal Infrastructure Funds

Seeks Nearly \$1.3 Billion in Federal Funds for MEGA-projects

The California High-Speed Rail Authority has submitted two applications totaling nearly \$1.3 billion in federal grant funding for the nation's first high-speed rail project. The applications are the first major push for a continued federal partnership under the newly enacted Bipartisan Infrastructure Law, signed by President Biden in November, 2021.

"With the state's continued commitment and the Biden Administration's leadership and support,

we are confident we will deliver a project the country will be proud of," said Governor Newsom in his support letter for the grants. "California is the home of innovation, and we are committed to advancing this very innovative project to improve our economy, advance clean mobility and expand economic opportunity for all."

More than 40 letters of support from up and down the state of California accompanied the Authority's grant applications, including letters

from United States Senators Dianne Feinstein and Alex Padilla, members of the Legislature, mayors and other elected officials, business, transportation and labor leaders statewide and nationally.

The Authority's two applications include funding for:

- Constructing the second track for the initial operating segment between Merced and Bakersfield, beginning with the two tracks on the first 119 miles currently being built in the Central Valley.
- Advancing design work for the extensions to Merced and Bakersfield.
- Station development in Fresno and Kings/Tulare.
- Purchasing six fully electric train sets capable of speeds in excess of 200 mph.
- Advancing the next phase of design for two segments into the Bay Area (Merced

to San Jose and San Jose to San Francisco) and into Southern California (Bakersfield to Palmdale and Burbank to Los Angeles).

If awarded by the U.S. Department of Transportation, these grants will help California accelerate progress toward the opening of the nation's first 220 mph, electrified high-speed train system. They will also advance design on crucial segments in both Northern and Southern California that cleared the environmental process in the past year.

California's high-speed rail project is currently under construction in the Central Valley, employing an average of 1,000 men and women on more than 30 active job sites daily. For continued progress information visit www.buildhsr.com

States With the Most Veteran-Owned Businesses

Continued from page 1

Bureau, the top types of overall new businesses from 2020 to 2021 were in retail trade (including e-commerce), professional services, construction, and transportation and warehousing. Veterans are least likely to own businesses in the arts, entertainment, education, accommodation, and food services sectors.

States where the highest number of veterans call home are California, Texas, and Florida, and these three states also have the country's highest total numbers of veteran-owned businesses. Looking at the proportion of businesses that are veteran-owned by state shows a cohort of Eastern and Southern states, ranging from New Hampshire, Virginia, and Georgia to Tennessee, Oklahoma, and Alabama. At the metro level, the concentration of veteran-owned firms mirrors the state-level trends with higher percentages in metropolitan areas located in Eastern and Southern states. These include cities in Maryland, North Carolina, Virginia, Florida, and Georgia.

The data used in this analysis is from the U.S. Census Bureau's 2020 Annual Business Survey and the U.S. Census Bureau's 2020 American Community Survey. To determine the locations with the most veteran-owned businesses, researchers at HireAHelper calculated the share of employer firms (those businesses with paid employees) that are veteran-owned. Researchers also included statistics on the total number of veteran-owned firms, employees and revenue at these firms, and the veteran population share in each location.

The analysis found that in California, 4.2% of all businesses are owned by veterans—a total of 31,432 businesses employing 359,630 workers.

Here is a summary of the data for California:

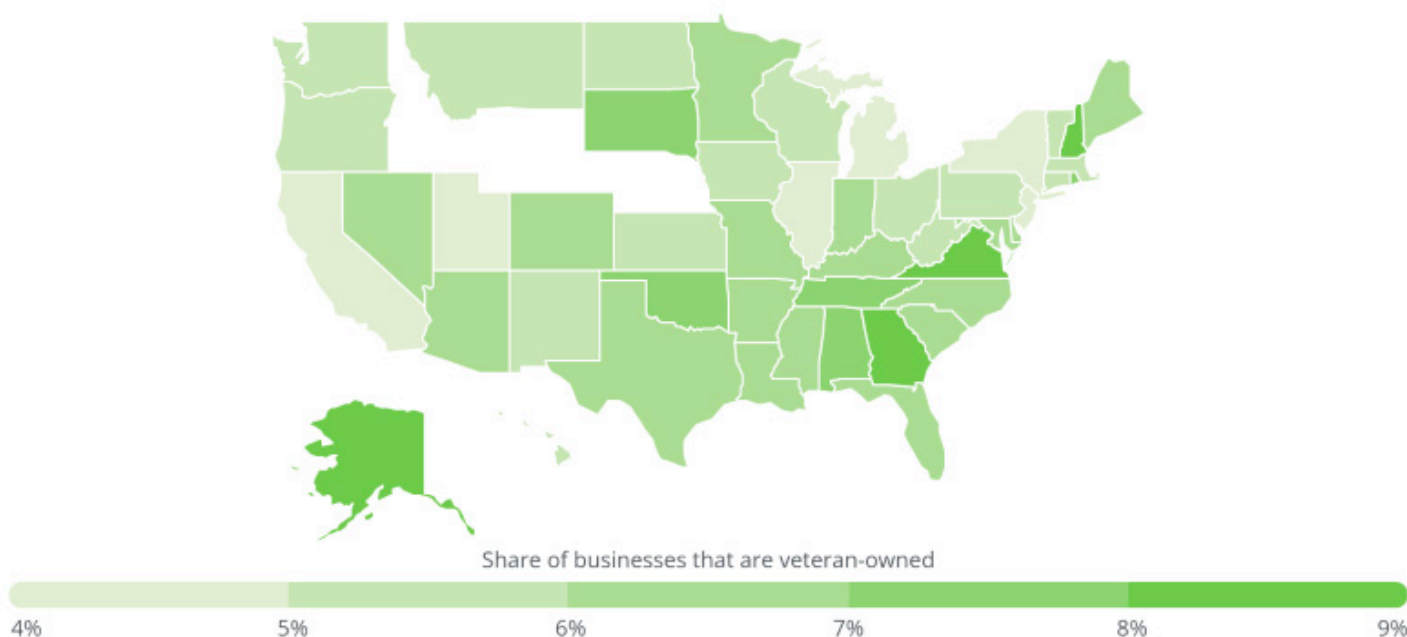

- **Share of businesses that are veteran-owned:** 4.2%
- **Total businesses that are veteran-owned:** 31,432
- **Employees at veteran-owned businesses:** 359,630
- **Annual revenue at veteran-owned businesses:** \$5 billion or more
- **Veteran population share:** 5.0%

For reference, here are the statistics for the entire United States:

- **Share of businesses that are veteran-owned:** 5.7%

CALIFORNIA SUB-BID REQUEST ADS

AECOM

300 S. Grand Avenue, 10th Floor • Los Angeles, CA, USA 90071 • T 1-213-593-8100

REQUEST FOR CBE SUBCONSULTANT INTEREST

AECOM is bidding on the following project as Prime Contractor:

Owner: County of Los Angeles
Request for Proposal No. BRC0000335
On-Call Geotechnical and Related Services
Proposal due date: Wednesday, June 15, 2022

AECOM is seeking qualifications from Community Business Enterprise (CBE) companies for the following supporting services:

- Driller: perform geotechnical boring, sampling, monitoring well installation, downhole logging support, and associated services
- Geotechnical Laboratory: perform in-house geotechnical laboratory testing services on soil and aggregate samples
- Environmental Laboratory: perform in-house environmental testing services
- Traffic Control Service: provide traffic control service and traffic control plan preparation
- Geophysical Survey: perform subsurface survey using geophysical instruments

Experience providing similar services on On-Call Geotechnical and Related Services for the County of Los Angeles is preferred. This Proposal is in alignment with the County of Los Angeles CBE Program requirements and certified CBEs are encouraged to respond. The bid may be downloaded from the LA County website:
<https://camisvr.co.la.ca.us/LACoBids/BidLookup/OpenBidList>

Interested businesses should email a brief firm overview, List of County of Los Angeles or similar experience, and CBE certifications and documentation by **June 10, 2022**, to James Gormley at James.gormley@aecom.com.

Assistance is available in obtaining any necessary bonding; lines of credit or insurance; information related to the requirements for the work; and necessary equipment, supplies materials, or related services.

ANVIL BUILDERS INC.

Request for LBE's Subcontractors and Suppliers for

Project: As-Needed Construction Services for Airport Pavement and Drainage Improvements
Contract No: 11786.50

Bid Date: Wednesday, June 15, 2022 • Bid Time: 2:00 PM

The intent of this Contract is to provide the City with as-needed services through an on-call contractor for the duration of three (3) years to address repair and maintenance work that is beyond the immediate capabilities of the Airport Maintenance staff. The Scope involves rubber removal, storm drainage improvements, and pavement reconstruction and overlays in areas throughout the airfield operations area including runways, taxiways, aprons, and in-field areas inside and outside the runway/taxiway safety areas and object free areas.

Seeking all trades (but not limited to): Concrete, Rebar, Pipeline, Excavation, Asphalt Paving, Demolition, Sawcutting, Grading, Painting and Coating, Runway Rubber Removal, and other required work and trades.

Plans, specifications, and requirements can be viewed at our office or by using the link below.

5. Furnish and install a new well pump and motor.
6. Structural concrete at the Fullerton Main Plant site for the PFAS Water Treatment Plant.
7. Furnish and install epoxy lined and coated above ground piping and epoxy lined and cement mortar coated (CMC) buried pipelines to the Granular Activated Carbon (GAC) system. Install epoxy lined and coated above ground piping and epoxy lined and cement mortar coated (CMC) buried pipeline from the GAC system to the connection to the distribution system.
8. Paving and Site Improvements: Grading, Asphalt Paving, and drainage at the new water treatment plant.
9. Exterior Wall, gate, landscaping, and irrigation.
10. Electrical and Instrumentation: Instrumentation and control systems shall be coordinated with the City's Controls Integrator.

Filanc is accepting quotes for the following scopes: SWPPP, Survey, Aggregates, Demolition, Paving, Curbs & Gutter, Rebar, Metals, Coatings, Process Equipment, Pipe, Valves, Pipe Supports, Electrical and Instrumentation.

Filanc intends to seriously negotiate with qualified SBE/MBE/WBE for project participation, and will assist with obtaining necessary equipment, supplies, materials, bonding, credit lines, and insurance if needed.

Plans and specifications can be obtained at no cost by contacting Adriana Iglesias at: Alglesias@Filanc.com or 760-941-7130.

It is the policy of **Filanc** to encourage equal opportunity in its construction, consultant, material and supply contracts. Bids/proposals from small businesses, minority-owned, disabled, veteran-owned businesses, women-owned businesses are strongly encouraged. **Filanc** encourages larger contracts to subcontract with smaller DBE's and encourages contracting with a group of DBE's when the contract is too large for one firm.

Filanc is committed to equal opportunity and will not discriminate with regard to race, religion, color, ancestry, age, gender, disability, medical condition or place of birth and will not do business with any firm that discriminates on any basis.

CALIFORNIA SUB-BID REQUEST ADS

FLATIRON

REQUEST FOR QUOTES FROM CERTIFIED DBE/MBE/WBE/SBE/SBRA/LSAF/HUB Zone SUBS, SUPPLIERS & SERVICE PROVIDERS

City of Sunnyvale, California
SUNNYVALE CLEANWATER PROGRAM (SCWP)
Secondary Treatment and Dewatering Project
Public Works Project NO. UY-21-07

****This project is CWSRF & WIFIA Funded, EPA forms are required prior to bid day****

Engineers Estimate: \$250M
BID DATE: June 29, 2022 at 3:00 PM

We are soliciting quotes for the following Divisions and items of work: For Divisions 02, 03, 04, 05, 06, 07, 08, 09, 10, 11, 12, 13, 14, 15, 16, 17, including, but not limited to:

AC Paving, Rebar, Electrical, Minor Concrete, Masonry, Welding, Aggregates, Ready Mix, Concrete Pumping, Auger Cast Piles, Welded Steel Pipe, Underground Pipe Products (PVC, DUCTILE), Misc. Metals, Trucking, HazMat Trucking, SWPPP Plan, SWPPP Materials, Underground Precast, Street Sweeping, Sheet Pile Installation, Dewatering, Mechanical Equipment (Furnish & Install), Shoring, Grouting, Concrete Formwork, Structural Steel, Architectural Woodwork, FRP Fabrications, Damp Proofing, Metal Roof, Wall and Soffit Panels, Hollow Metal Doors & Frames, Overhead Coiling Doors, Glazing, Framing & Gypsum Board, Acoustical Panels, Tile, Painting & Coating, Bird Deterrent, Signage, Safety Equipment, Toilet Accessories, Pumps, Slide Gates, Mixers, Blowers, Odor Control, Metal Building Systems Manual/Electric Actuators, Pre-Stressed Concrete Tank, Fire Extinguishing Systems, Bridge Cranes, Hoists and Davit Cranes, Valves, Pipe Supports, Piping Insulation, Plumbing, HVAC, Louvers, Instrumentation/Controls

Non-DBE Subs/Suppliers: You will be expected to carry a proportionate percentage of 2nd-tier DBE participation with your quote. 2nd-tier DBE participation will be evaluated with your price.

100% performance/payment bonds will be required for the full amount of the subcontract price. Please contact Flatiron for any assistance to this solicitation, including obtaining bonding, insurance, equipment, materials and/or supplies. Provide subcontractor/supplier scopes/quotes as early as possible to enable estimators to perform a thorough evaluation of all quotes received. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Quotes must be valid for the same duration as specified by the Owner for Contract Award. We are signatory to Operating Engineers, Laborers, Cement Masons, Carpenters and Pile Drivers Unions. Non-signatory subs will be required to sign an agreement for trades covered under our union agreements. Flatiron intends to work cooperatively with subcontractors and suppliers for all bid items you are licensed and qualified to perform. Bid items can be split to facilitate participation from all certified firms. Flatiron West will reimburse for bond premium up to 2%. **Firms must possess & provide current contractor's license number & DIR Registration number on the quote.** Firms must possess insurance and workers compensation coverage meeting project requirements. Waiver of Subrogation is required. Please contact Flatiron for any assistance required by your firm. Subcontractors/Suppliers will be required to execute our standard agreements and agree to the standard general terms & conditions. Copies are available for review on our Box.com ftp site upon email request.

Project documents may be downloaded from the DemandStar website after you register for access, or they may also be downloaded for FREE from our Box ftp site. Please send an email request to NORCALBIDS@flatironcorp.com Due to Covid-19 & social distancing requirements still in place in some areas, we are not currently scheduling appointments to review project docs or meet with estimators in our office. When all pandemic restrictions are lifted, we will offer these services again in our office by appointment only. Thank you for your understanding.

Please email ALL Scopes/Quotes to: NorCalBids@flatironcorp.com

Project: Contract No. 11-430434 – HMA, structural bridge, polyester concrete overlay, JPCP, & concrete barrier. Construction on State Highway in San Diego County in La Mesa and El Cajon from 0.1 Mile West of Grossmont Boulevard Overcrossing to West Main Street Overcrossing and at Marshall Avenue.
Owner: Department of Transportation (CALTRANS)

Bid Due Date: June 9, 2022 at 2:00 PM

Federal-Aid Project ACSB11M-008-1(330)E

Request for quotes from Certified DBE Subcontractors and Suppliers for the following, but not limited to scopes of work: Aggregate Supply, Asphalt Dike, Asphalt Paving, Bridge Demo, CIDH Pile, Clear and Grub, Cold Plane AC, Concrete Barrier, Concrete Supply, Construction Area Signs, Demolition, Electrical, Erosion Control, Fencing, Grind Existing Pavement, Guardrail, Joint Seal, Landscape and Irrigation, Misc. Iron and Steel Supply, Overhead Signs, PCC Material Supply, Pipe Supply, QC Testing, Railing, Ready Mix Concrete Supply, Reinforcing Steel, Saw and Seal PCC, Street Sweeping, Striping, Traffic Control Materials.

PLEASE SUBMIT QUOTES BY EMAIL TO SOCALBIDS@FLATIRONCORP.COM OR FAX TO (858) 271-1330

Plans and specifications are available, at no cost, from Caltrans <http://ppmoe.dot.ca.gov/des/oe/weekly-ads/specs-ntb.php?c=11-430434> (Registration Required). Additionally, plans and specifications are available to view at Flatiron's San Diego, CA and Chino, CA offices. Please call to make an appointment to view the documents.

This project has a 24% DBE Goal. In addition to request for participation from DBE subcontractors and suppliers, Flatiron requests non-DBE subcontractors to provide lower-tier DBE participation. Bidders are required to indicate lower-tier DBE participation information to be evaluated as part of their quote.

Quotes must be valid for same duration as specified by Owner for contract award. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Flatiron intends to work cooperatively with all firms for scopes of work you are licensed and qualified to perform. Assistance in obtaining bonding, lines of credit, insurance, equipment, supplies and materials is available upon request. Additionally, please contact us if you require technical assistance.

Subcontractors are required to possess and maintain a current contractor's license and must also be registered with the Department of Industrial Relations (DIR) as required by Public Contract Code Section 1725.5. Subcontractors will be required to execute Flatiron's Standard Subcontract Terms and Conditions and insurance requirements. A copy of the document in electronic format is available upon request.

Bond Requirements: Notwithstanding any contrary language in a bid to Flatiron or any prior course of dealing between Flatiron and a bidder, and unless waived in writing by Flatiron, Flatiron reserves the right to require each bidder to provide payment and performance bonds assuring bidder's obligations to Flatiron in the amount of 100 percent of the bid to Flatiron. Flatiron will reimburse the bond premium at actual cost not to exceed 3%. The surety on the bonds must be a California admitted surety.

Mayor London Breed Announces Investments to Support Small Business Recovery in San Francisco's Economic Core

[Article was originally posted on <https://sfmayor.org>]

Mayor London N. Breed announced \$47.9 million in new funding to support the economic recovery of the City's Economic Core that will be part of her proposed budget. This will include new direct support for small businesses, as well as new events, activations, and public space improvements to support areas that rely on workers, tourists, and other visitors. The funding proposal will also continue the City's existing Ambassador programs located in areas like Mid-Market, Union Square, Downtown, South of Market, and along the Embarcadero.

These resources are aimed primarily at funding initiatives that directly support and drive foot traffic to the small businesses in San Francisco's Economic Core, which includes Downtown, South of Market, Union Square, Civic Center, Yerba Buena, and Mission Bay. These areas continue to experience ongoing and significant disruptions to the employee and tourist-based foot traffic that they relied on prior to the pandemic.

"While San Francisco is bouncing back from this pandemic, we continue to see major shifts in our city, and we see that in our Economic Core more than anywhere else," said Mayor Breed. "I've been visiting businesses large and small, and while it's clear we are all committed to adapting and thriving as part of our long-term recovery, our small businesses in these downtown areas cannot wait any longer. They need all of us dedicating our energy and resources to help them in the short-term, as we continue to do the work to get our city back on track."

The Mayor's Budget proposal includes:

- \$10 million for direct grants and loans aimed at helping small businesses launch, stabilize, scale up and adapt business models. New funding will expand programs to serve businesses throughout the City, including businesses within the Economic Core.
- \$10.5 million over the two years for the City Core Recovery Fund to support events, public space and ground floor activations, as well as a city-wide marketing campaign. This funding is envisioned to support community driven ef-

orts to beautify, improve, and activate public spaces and ground floor vacancies throughout the Economic Core.

- \$25.4 million over the next two years to continue the Mid-Market/Tenderloin Community-Based Safety Program, which provides community ambassadors who are focused on creating more welcoming, clean, and vibrant environments for residents, workers, and visitors in the areas around the Tenderloin, Civic Center, and Market Street.
- \$2 million for SF Welcome Ambassadors and Retired Police Community Ambassadors stationed in key transit and tourist nodes such as Downtown BART stations, Union Square, Moscone Convention Center, and along the Embarcadero. These funds will maintain the City's current investment and will allow for a consistent and visible safety presence as well as proactive positive engagement and friendly assistance in wayfinding, making referrals and recommendations, and coordinating with other City departments and community-based efforts to support posi-

tive street conditions and experiences by business owners, employees, residents, and visitors alike.

The specific programming and initiatives created through this funding will be informed by convening key representatives of the industries, businesses, community groups, and other stakeholders in the Economic Core to understand and respond to the immediate needs and challenges those on the ground are experiencing, and to adopt and scale the solutions they are developing.

"San Francisco small businesses are the cornerstone of our economic recovery. Through the leadership of Mayor Breed, these proposed investments are practical solutions that will help bring customers and visitors back into our Economic Core which comprises over 40% of our small businesses," said Kate Sofis, Executive Director of the Office of Economic and Workforce Development. "As the dynamic continues to change and shift on the ground, we want to ensure we stabilize our small businesses, including our local artists, musicians, and performers with new funding and programs that activate and

Mayor London Breed Announces Investments to Support Small Business Recovery in San Francisco's Economic Core

Continued from page 6

create opportunities and a safe and welcoming space for everyone. When our small businesses thrive, our city thrives."

Mayor Breed partnered with Advance SF to create the "Renewing San Francisco's Economic Core Forum," a facilitated conversation with a cross-section of stakeholders from the Economic Core including large and small businesses, arts groups, brokers and real estate representatives, hospitality and entertainment establishments, and community benefits districts, among others. This group began a process to develop a shared vision for supporting the ongoing vibrance of the Economic Core in the post-pandemic economic context and identify immediate needs as well as mid- and long-term initiatives to explore.

Through ongoing dialogue and discussion and in coordination with a broad set of stakeholders, San Francisco will continue to advance strategies that leverage key assets of its Economic Core to support its continued vibrancy and preserve its role in supporting the region's economic well-being.

"Over the last several months, Advance SF has worked with the Mayor's Office to bring private and public sector partners together to develop strategies to restore our Economic Core," said Larry Baer, Co-Chair of Advance SF. "Mayor Breed is laser-focused on San Francisco's post-pandemic recovery and the budget released today sets a clear vision to immediately address our city's most pressing economic challenges," continued Lloyd Dean, Co-Chair of Advance SF.

Prior to the pandemic, 469,745 people commuted to San Francisco for work. According to the most recent report from the City Economist, offices are seeing just 35% of their workforce returning to the office. Between commuters and tourists, the City averaged one million daily visitors prior to the pandemic, and SF Travel does not estimate a full tourism recovery until 2024.

The Mayor's proposed budget prioritizes the urgent needs of the small consumer-facing businesses in the Economic Core. Over 42% of the City's small businesses are in the Economic Core and pre-pandemic, this area generated more than 45% of the City's sales tax. While sales tax indicates that almost all of San Francisco's neigh-

borhoods have recovered the vast majority of the economic activity they generated prior to the pandemic, San Francisco's office and tourist districts, including the Financial District, East Cut, Yerba Buena, Union Square, Mid-Market and SOMA maintain deficits of 20% or more.

"The challenges facing small businesses in San Francisco's Economic Core are immense," said Andrew Chun, Owner of Schroeder's Bar and Restaurant at Front and California Street. "As the rest of the City continues its recovery from the pandemic, it's easy for Downtown small businesses to feel abandoned. The Mayor's new budget highlights the need to proactively invest in a revitalized economic core. We are excited to work with the Mayor and appreciate the efforts of the City and community partners to invest in Downtown's future."

"Bringing foot traffic and business to our restaurants and small businesses in our downtown Economic Core area is critical to the survival and vibrancy of San Francisco," said Laurie Thomas, Executive Director of Golden Gate Restaurant Association. "We continue to work hard with our partner organizations, larger employers and the City to help drive customers to

these businesses so they can keep their staff employed and help their businesses open. We thank the Mayor and her team for prioritizing these restaurants and businesses in her budget and look forward to a continued partnership. We can do this if we work together."

"As an employer with a large employee presence, we see the strain that the pandemic has created for our small businesses. We have worked in partnership with the small business community to ensure that as our employees return to the office, we are maximizing their support of surrounding small businesses that depend on them. With investments such as the City Core Recovery efforts that Mayor Breed has proposed the City can scale efforts like what we piloted with Golden Gate Restaurant Association to the benefit of all," said Rebecca Prozan, Director of West Coast Government Relations and Public Policy at Google.

BUSINESS TOOLKIT

6 Tips to Help You Win More Construction Bids

[Article was originally posted on <https://rockettakeoffs.com>]

A competitive bid proposal is more than just putting some numbers together and hoping for the best. You have to run extra miles to get positive results while bidding on projects and increasing your opportunity to be awarded.

Obviously, the accurate cost-estimates and lower numbers do take part in elevating your chances to converting bids into contracts; but there are few simple tricks that can make your bidding endeavor an all-time success.

Hack the bidding process with these 6 critical components of a strategy that'll elevate your chances of winning more bids.

Ways of Bidding Competitively Feeling intrigued? Let's jump straight in:

#1 Follow up (Is it that easy?)

It is crucial in construction industry jobs that you proactively follow up with potential clients after submitting bid documents. As a contractor, you're always lost in the seemingly endless to-do list and thus it's easier for smaller tasks, like follow-ups, to get lost.

But following up is crucial in closing the loop on your bids and growing your business. It not only gives a signal to the potential clients that you're a good communicator and easier to work with but on top, it helps in improving your relationships in the construction industry.

Even on your follow up you discover that someone else already won the job, the client would be willing to provide feedback that would help you in improving your future proposals with more focused and strategic effort.

So, be more strategic with your follow-up process use a personalized touch throughout. Following up is as easy as tweaking an email or leave a voice mail but have an outright impact on your business.

#2 Know Where Your Bid Lands (Most Contractors Miss This One)

Effective bidding is a thing you can learn tirelessly with a shrewd mind and experience over time. So, in order to hone your bidding skills and increase your chances of getting reasonable profits with your bid; you've got to know where did you land regarding pricing in comparison with other bidders.

Ask this important question in your follow-ups that whether the bid was too high or too low. This information will be handy to adjust your pricing to win the next project.

#3 Build Rapport/Relationships (Oldest Trick in The Books)

Knowing your clients, finding their interests, and anticipating their concerns are some of the ways to relate and build relationships. These rapports are crucial in differentiating your bid because it's easy to get lost in the pile of applications. So,

maintain a good relationship with your client and this would move you up on their mental list of who to recommend or whom to go to first; when they are to undertake a new project.

#4 Wine & Dine (Cliché? Or Necessary?)

Showing up in person with the client in a lucrative way can really make a difference in landing more projects. You don't have to be extraordinary to make connections; you can simply send gifts to their offices like a fruit basket or you can show up in person with breakfast in the office or take them out to restaurants for business meetings.

So, be memorable and stand out from competitions with your knock-on marketing skills.

#5 Be Social when attending events (Don't Just Sit There, Get Talking)

The more clients you know the more the people who can recommend you for work. Another way of standing out in the competition is to be more competitive in understanding your competitors. You've got to know your competitors like what services they are offering, what are their strong points and in which areas they are weak.

So, be social in attending local or national contractor's events and mingle. Learn who are the big companies in the industry, study your competition, get information, and know new people that can help you make connections in the long run.

#6 It's a numbers game (Bid More= Win More)

Do you have bid invitations collecting spider webs in your email box? Another essential of improving your bid-hit ratio is to bid on more projects. The more you bid, the more are the chances to land more contracts. But, at the same time, your bids have to be based on good estimates and smart pricing.

Think about how much would you invest to land a 200k contract or maybe a 1 million dollar contract?

But with an ever-increasingly hectic schedule, it's not easier to spend much of your time in bidding. Besides this, it is expensive to have a full-time estimating professionals inhouse.

But don't worry; we can provide you professional and fast construction takeoff services, so you can focus more on-field managing jobs, follow-ups and what matters even more. Partner up with us and we can help you bid more jobs.

We offer detailed and reliable material takeoff and cost estimation services that can take your business to the next level. So, what you're waiting for? Just send us your plans and get a free quote for the next project.

6 Tips for Dealing With Subcontractor Default

[Article was originally posted on www.constructconnect.com]

Dealing with a defaulting subcontractor can be a real nightmare for general contractors. A nonperforming subcontractor or one that isn't meeting its contractual obligations can wreak havoc on a project.

This can lead to delays in the schedule that impact other subcontractors and can result in costly rework. Having to replace a terminated subcontractor or supplement their work can kill a project. If a subcontractor is experiencing difficulties it is imperative that you work with them to resolve any issues before they escalate and get out of hand.

The first thing to keep in mind is that no subcontractor enters into an agreement with the intention of not performing the work. Subcontractors have to front a substantial portion of the costs on a project before they start getting paid.

This can quickly lead to cash flow problems despite having the capital to handle a project once it began. Subcontractor default often occurs when they overextend themselves by taking on too much work or when a contractor on another project is delaying payment to them.

Prequalify Your Subs

Before you take pricing or solicit bids from subcontractors you need to make sure they are capable of completing the work, both physically

and financially. Review your prequalified subcontractors to weed out those that aren't experienced with the size and scope of the project. You might have a dozen prequalified electrical contractors that you regularly work with but for this particular project only six might be capable of doing the work. Invite those six to bid on the project.

If a subcontractor ever asks why they weren't invited to bid, be as open as possible and explain the situation. You want to maintain a good relationship with all your subcontractors. Just because they aren't right for one particular project doesn't mean you won't need them for future projects.

Be sure to check out post, "Why Not Prequalifying Subcontractors is Still Risky Business," for some pointers on what information you require to properly prequalify your subcontractors.

Know the Signs

Subcontractors might not always be forthcoming when they begin experiencing difficulties. Even if they are performing their work and staying on schedule, trouble could be brewing just beneath the surface. It's important to keep a watchful eye on all of your subcontractors to monitor for any signs that they are experiencing difficulties or at risk of defaulting.

Common signs a subcontractor is running into problems include a sudden decrease in their workforce for a project, change in demeanor, de-

layed materials deliveries and failing to pay their subcontractors or suppliers on time. Be proactive in monitoring your subcontractors if you suspect things might be getting off track.

Don't be fooled. If you start noticing some of these red flags, you should address them immediately with your subcontractor regardless of whether they are performing their work as required. Waiting too long to react to a subcontractor who might be struggling can kick off a chain reaction that can derail the whole project.

Craft a Plan

Whether you discover it on your own or if the subcontractor comes to you about it on their own, you need to sit down and work with them to correct the issue. Once you've determined what the issue is, you need to determine the root cause.

Find out if they are having difficulties with one of their subcontractors underperforming or a supplier not delivering materials on time. If they are having cash flow problems make sure the issue isn't with you not paying them enough or on time for the work completed.

Sit down with your subcontractor and discuss what options are available and what assistance you can provide to help them get back on track. This is typically the easiest and most cost-effective solution.

It could be as simple as supplementing some of their workforce with your own or self-performing some of the work. You may need to alter the subcontract to a labor-only contract to alleviate some of their financial burdens so they can focus on paying their workers and completing the project on schedule.

Put It in a Contract

Make sure your contract includes provisions outlining your rights to supplement work, suspend the subcontractor's performance or terminate the contract. Failing to perform work as required should obviously be covered, but you may want to include other circumstances such as delaying payments to their subcontractors and suppliers. The contract should also include the right to reimbursement for any reasonable costs you incur should you have to step in and take action.

If your subcontractor defaults make sure you follow any notice requirements before you exercise your right to supplement their work or take other action. Typical contract documents require you provide the subcontractor with written notice of default and a deadline for curing the default.

If the subcontractor hasn't cured the default within the specified time, the general contractor can then go in and supplement the work.

SUCCESS STORIES

Ryan Farr, 4505 Meats

[Article was originally posted on <https://cameonetwork.org>]

In 2012, Working Solutions client Ryan Farr, founder of 4505 Meats, sought advice from a Working Solutions mentor for his rapidly expanding business. Ryan was matched with Sean Hutchinson, Founder of Strategic Value Advisors and Working Solutions Financial Mentor. Two years later, Ryan has graduated from his Working Solutions loan, obtained conventional financing, and opened a new barbecue restaurant in San Francisco! Between his many endeavors (packaged food sold in Whole Foods, his butcher shop, and the new restaurant), Ryan had created a whopping 70 jobs in San Francisco and plans to keep on growing!

Working Solutions recently caught up with Ryan and Sean to talk about their experience:

Ryan: The first meeting with Sean was like a smack in the face. Sean's point of view from outsider looking in was an eye-opening experience.

Sean: From when we first met, Ryan is well on his way to a 4-5X increase in revenue and a dramatic increase in profit. All the fundamentals are there now. It's a great story – and it's because of Ryan's willingness to listen, lead, and

act. My advice may have helped – but he did all the work.

Going into the meeting, I knew that Ryan and 4505 Meats had a terrific following and very loyal customers. There was a lot to like about the company and Ryan's leadership. The business was growing fast – a good sign – but the growth was causing some challenges. We talked in detail about those challenges and the need to streamline the business.

Ryan: By taking Sean's advice I realized that as a leader I needed to grow and focus on my skill set as a manager. I needed to focus on specific areas instead of trying to do it all.

Sean: Getting an honest assessment from a relative stranger helped him focus. I think much of what I suggested simply reinforced what he already knew.

Ryan: Last time Sean and I worked together was roughly a month ago when he introduced us to one of his peers that can help us plan our future at a higher level. I plan on staying in touch with Sean as long as I can. He has been a great resource and friend. We are just getting started.

Ryan, a butcher & chef, understands the importance of quality ingredients crafted with care. Our snacks are simply seasoned with the finest spices and nothing more.

Max Aram & Chris Blevins, PickMySolar.com

[Article was originally posted on <https://cameonetwork.org>]

As passionate advocates of solar technology, Max Aram and Chris Blevins want to help residential consumers make smart choices about installing solar energy systems. Their company, PickMySolar.com, is an online marketplace where solar providers bid against each other on residential installations, lowering the cost to homeowners by 25 to 30 percent.

The chaotic state of the solar market hampers widespread adoption of the technology. Residential customers do not know what factors to consider when deciding to go solar. Aram compares the marketing strategy of solar power installers to that of a “used-car-salesman,” which he believes ultimately dissuades homeowners from solar power installation. “I had the idea to create

an online platform to help consumers search for the best deal on solar installation,” Aram says. “But it was just an idea I didn't know how to execute.” He needed help in early 2013, Aram took a course held by the Small Business Development Center at Pacific Coast Regional.

PCR SBDC Business Advisors Martha G. Castro and Harold C. Hart-Nibbrig helped Aram figure out how to monetize his idea, conduct market research, develop a business plan with financial projections, incorporate the business and develop a partnership agreement once Blevins came on board.

Castro showed Aram how to do extensive market research to make sure there was a demand for his idea. “After doing more research in-depth and looking into competitors in the space, we [modified] the business a little bit,” says Aram.

Doing research inspired Aram to add more features to the service, such as the ability for homeowners to upload bids they already have from solar installers outside the PickMySolar system. PickMySolar then provides up to two hours of free consultation to assess whether the bids are fair. “At this point, our service is unique-no one else is doing what we're doing,” states Aram proudly.

After investing \$40,000 of their own money in their startup, Aram and Blevins were able to raise \$100,000 in convertible debt financing from friends and family. They plan to seek additional capital in the next few months to finance marketing, advertising and hiring key personnel. References from the PCR SBDC also helped PickMySolar earn a coveted space in the Los Angeles CleanTech Incubator. Without marketing, PickMySolar has grown solely on word-of-

mouth. Since the beta website launched in January 2014, the company has actively expanded its network of solar installers. Currently, PickMySolar has installers in Los Angeles, Ventura and Orange counties, with plans to expand to all seven Southern California counties by the end of June 2014. Future plans include establishing direct partnerships with financiers to facilitate sales, bringing on taxequity investors to provide their own internal financing options to customers, and expanding to serve the entire state of California by 2015.

CITY & COUNTY OF SAN FRANCISCO DEPARTMENT OF PUBLIC WORKS

Sourcing Event ID No.: 0000006932 911 CALL CENTER RENOVATION - ESER BOND 2020 (PW 911 CALL CNTR RENO)

Bids shall be submitted online via ShareFile until **2:30:00 p.m. on June 29, 2022**, after which the bid opening will be conducted live online via Microsoft Teams. Contract Administration will email the Microsoft Teams meeting information to all Plan Holders approximately 24 hours prior to Bid opening. Digital files of Bid Documents, Plan Holders Lists, and Addenda may be downloaded at no cost from the Public Works Electronic Bid Documents Download site at <https://bsm.sfdpw.org/ContractAdmin/Login.aspx>. Please visit the Contracts, Bids and Payments webpage at <https://bidopportunities.apps.sfdpw.org> for more information. Notices regarding Addenda and other bid changes will be distributed by email to Plan Holders.

Scope of Work: This project is a renovation of the existing 911 Call Center, located on the second floor of 1011 Turk Street. This is a tenant improvement project which involves the demolition, reconfiguration, and reconstruction of walls, floor, ceiling, doors, windows, finishes, and electrical, mechanical, plumbing scope of work per the new floor plan. The project will be completed in two construction phases; the building will continue to be occupied during construction. The 911 Call Center function will be temporarily relocated to the first floor of the building and the call center operation must remain uninterrupted at all times during construction.

The time allowed for completion is 300 consecutive calendar days. The estimated construction cost is approximately \$4,000,000. For more information, contact the Project Manager Lisa Zhuo by phone: (415) 519-9491 or email: Lisa.Zhuo@sfdpw.org.

On July 1, 2014, the registration program under section 1725.5 of the California Labor Code went into effect. The program requires that all contractors and subcontractors who bid or work on a public works project register and pay an annual fee to the California Department of Industrial Relations ("DIR").

No contractor or subcontractor may be listed in a bid or awarded a contract for a public works project unless registered with the DIR as required by Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].

This Project shall incorporate the required partnering elements for Partnering Level 2. Refer to Section 01 31 33 for more details.

Pursuant to San Francisco Administrative Code ("Administrative Code") Section 6.25 and Chapter 25 of the Environment Code, "Clean Construction" is required for the performance of all work.

This Contract is subject to the requirements of Administrative Code Chapter 12X, which prohibits contracting in states with laws that allow discrimination. The City is prohibited from entering into any Contract with a Contractor that has its United States headquarters in a state on the Covered State List or where any or all of the work on the contract will be performed in any of those states on the Covered State List. Administrative Code Chapter 12X and a list of states on the Covered State List can be found at: <http://sfgsa.org/chapter-12x-anti-lgbt-state-ban-list>.

The Specifications include liquidated damages. Contract will be on a Lump Sum Bid Items basis. Progressive payments will be made.

The Contract will be awarded to the lowest responsible bidder.

A bid may be rejected if the City determines that any of the bid item prices are materially unbalanced to the potential detriment of the City.

Bid discounts may be applied as per Administrative Code Chapter 14B. LBE Subcontracting Participation Requirement is 20%. For details, contact Ivan Old-

enkamp by phone at (415) 515-6793 or by email at Ivan.Oldenkamp@sfgov.org. In accordance with Administrative Code Chapter 14B requirements, all bidders shall submit documented good faith efforts with their bids, except those who exceed the above stated LBE Subcontracting Participation Requirement by 35%. Bidders must achieve 80 out of 100 points to be deemed responsive. Bidders will receive 15 points for attending the pre-bid conference, if scheduled. Refer to CMD Form 2B.

An online pre-bid meeting will be held on **Tuesday, June 7, 2022 from 10:00 AM to 11:00 AM** via Microsoft Teams Meeting web conference:

Join on your computer or mobile app

Click here to join the meeting

Or call in (audio only)

+1 415-906-4659,666028187# United States, San Francisco

Phone Conference ID: 666 028 187#

A separate site tour is also scheduled on **Thursday, June 7, 2022 from 2:00 PM to 3:00 PM** at 1011 Turk Street, San Francisco, CA. It is strongly recommended that all bidders attend both the online pre-bid meeting and site tour.

For information on the City's Contractor Development Program, call (415) 986-3999 or email cdp@imwis.com.

A corporate surety bond or certified check for ten percent (10%) of the amount bid must accompany each bid. Administrative Code Section 6.22(a) requires all construction greater than \$25,000 to include performance and payment bonds for 100% of the contract award.

Class "B" license is required to bid.

In accordance with Administrative Code Chapter 6, no bid is accepted and no contract in excess of Threshold is awarded by the City and County of San Francisco until such time as the Mayor or the Mayor's designee approves the contract for award, and the Director of Public Works then issues an order of award. Pursuant to Charter Section 3.105, all contract awards are subject to certification by the Controller as to the availability of funds.

Minimum wage rates for this project must comply with the current General Prevailing Wage as determined by the State Department of Industrial Relations. Minimum wage rates other than applicable to General Prevailing Wage must comply with Administrative Code Chapter 12P, Minimum Compensation Ordinance. In addition, the San Francisco Citywide Project Labor Agreement (PLA) became effective on July 14, 2020. This Contract is a Covered Project and Bidders are advised that the PLA is incorporated into the contract documents. More information about the PLA can be found at: <https://sfgov.org/olse/citywide-project-labor-agreement>.

This Project is subject to the requirements of the San Francisco Local Hiring Policy for Construction ("Policy") as set forth in Administrative Code Section 6.22(g). Bidders are hereby advised that the requirements of the Policy will be incorporated as a material term of any contract awarded for the Project. Refer to Section 00 73 30 of the Project Manual for more information.

Bidders are hereby advised that the Contractor to whom the Contract is awarded must be certified by the Contract Monitoring Division as being in compliance with the Equal Benefits Provisions of Chapter 12B of the Administrative Code within two weeks after notification of award.

If a bidder objects on any ground to any bid specification or legal requirement imposed by this Advertisement for Bids, the bidder shall, no later than the 10th working day prior to the date of Bid opening, provide written notice to the Contract Administration Division, San Francisco Public Works, setting forth with specificity the grounds for the objection.

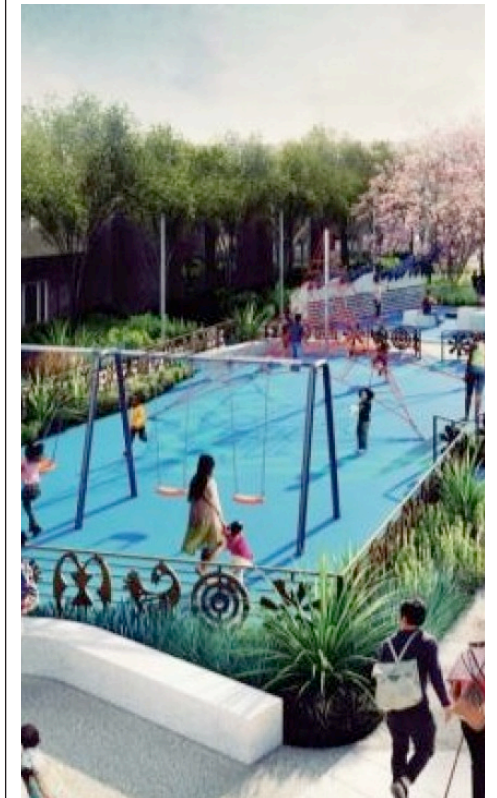

Right reserved to reject any or all bids and waive any minor irregularities.

SMALL BUSINESS EXCHANGE

Creating a Safer, Pedestrian-Friendly Western Addition

[Article originally appeared in
www.sfcta.org]

San Francisco Public Works completed pedestrian safety improvements this month in the Western Addition neighborhood. These improvements include sidewalk widening, bulbouts with ADA curb ramps, and more at Buchanan Street and Golden Gate Avenue, and Buchanan Street and Turk Street. Additionally, 14 new pedestrian lights and 13 upgraded pedestrian lights were installed along McAllister Street, between Fillmore and Webster Streets. These improvements were identified by the community in the Western Addition Community Based Transportation Plan and requested by District 5 Transportation Authority Board Member Dean Preston.

These improvements will better connect the community to recreational spaces including Buchanan Mall and major destinations like the African-American Arts and Culture Center, Ella Hill Hutch Community Center, and Fillmore Street. The Transportation Authority provided funding from the half-cent for transportation sales tax, Prop AA vehicle registration fee, and more to support improvements.

The San Francisco Recreation and Parks Department also has plans to renovate the Buchanan Mall and is working with local residents to plan, design, and build new park enhancements aimed at making the park a safe, green, and well-used center for the neighborhood. On May 13, Mayor London Breed announced the allocation of \$3.9 million in federal funding to fully fund the renovation project. Construction will begin on the first three blocks, from Eddy Street to Golden Gate Avenue, and McAllister Street to Fulton Street, in Spring of 2023. Construction of the remaining two blocks, from Golden Gate Avenue to McAllister Street and Fulton Street to Grove Street, will begin in Summer 2024. Learn more on the San Francisco Recreation and Park Department website.

EPA Announces over \$1.7 million to Pacific Islands, Hawaii and California to Support Water Quality Monitoring for Safe Beach Recreation

[Article originally appeared in
www.epa.gov]

The U.S. Environmental Protection Agency (EPA) is preparing to award up to \$10 million in grants to 38 states, territories, and Tribes to develop and implement beach monitoring and notification programs nationwide. The Pacific Island territories, Hawaii and California will receive \$1,757,000 to support beach monitoring activities, including efforts with an environmental justice focus.

Since 2002 EPA's partners have used nearly \$206 million in BEACH Act grants to protect beachgoers by monitoring beaches for bacteria, maintaining and operating public notification systems, identifying local pollution sources, and reporting results to EPA.

"This investment advances EPA's commitment to environmental justice by supporting our disadvantaged communities along the coastlines of the Pacific Southwest, from Guam to California. Continued monitoring of our beaches helps us to provide safe and equitable beach access to our Pacific Island, Hawaii and California coastal communities," said EPA Pacific Southwest Regional Administrator Martha Guzman. "This funding supports local public health agencies' ability to give communities peace of mind when taking their families to the beach."

Over 51% of EPA Region 9's 2022 BEACH Act grant funding will be awarded to the U.S. Pacific Island Territories, filling a critical need to provide safe beach recreation in disadvantaged coastal communities:

- American Samoa \$302,000
- Guam \$303,000
- Northern Mariana Islands \$303,000

In addition, Hawaii will receive \$324,000 in funding while \$525,000 will go to California.

This funding supports the President's Justice40 initiative, with the goal of delivering 40 percent of overall benefits of relevant federal investments to communities with environmental justice concerns. The beach water data collected directly helps EPA identify where water quality problems may be and recommend priorities for enforcement, wastewater infrastructure projects, and closures of illegal large capacity cesspools.

Under the Beaches Environmental Assessment and Coastal Health (BEACH) Act, EPA awards grants to eligible state, territorial and Tribal applicants to help them and their local government partners monitor water quality at coastal beaches. When bacteria levels are too high for safe swimming, these agencies notify the public by posting beach warnings or closing the beach.

EPA's most recent Beach Report found that beaches on U.S. coasts and along the Great Lakes were open and safe for swimming 92 percent of the time in 2020. Check with your local public health authority on water conditions when making plans to go the beach.
