

Making the Case for Digital Transformation in Construction

Construction worker using a VR headset

[Article originally appeared in Autodesk Construction Cloud Blog. <https://construction.autodesk.com>]

By Cliff Cole

The challenges in today’s construction landscape are well documented, from supply chain issues and rising inflation to workforce shortages and a potential economic slowdown. Digital transformation is an essential catalyst to counterbalance these challenges and provide the construction industry with opportunities to increase efficiency, productivity, and design. However, adopting new technology alone will not solve our problems. Contractors must leverage a multi-functional digital transformation strategy focusing on innovation and organizational change to improve business value and solve their most challenging problems.

The main goal of digital transformation is to streamline business operations, increase productivity, and reduce costs while providing a safer jobsite for all and quality projects for clients.

What is digital transformation in construction?

Gartner defines digital transformation as anything from IT modernization (for example, cloud computing), to digital optimization, to the invention of new digital business models. However, to advance digital transformation in construction, we must expand that definition to include leveraging innovative solutions that improve the industry’s efficiency and effectiveness. The approach needs to involve changes in the way

construction companies operate and interact with stakeholders, such as clients, suppliers, and regulatory bodies and include the implementation of digital communication tools, such as project management software, and the adoption of collaborative processes, such as integrated project delivery (IPD) and lean construction. For examples, research from McKinsey shows that collaborative contractual relationships result in an 8% to 9% improvement in productivity and a 6% to 7% improvement in cost savings.

Current state of digital transformation in construction

According to the McKinsey Global Institute, digital innovation and transformation can significantly improve productivity (about 15%) and reduce costs (around 6%). While the construction industry has made significant strides in digital transformation, industry fragmentation, the complexity of projects, and lack of standardization are a few factors that are contributing to slower adoption. However, advancing digital transformation is imperative to stay competitive in today’s fast-paced, technology-driven world. By embracing technology and optimizing operations, construction companies can reduce costs, improve productivity, and deliver better project outcomes.

Key pillars to a successful digital transformation

People, process, and technology are the three key pillars that are critical for a successful digital transformation.

Biden-Harris Administration Invests \$30 Million to Advance American-Made Clean Energy Technologies and Accelerate Push for Net-Zero Federal Buildings

[Article originally appeared in www.gsa.gov]

During remarks at the American Institute of Architects’ annual conference in San Francisco, Robin Carnahan, Administrator of the U.S. General Services Administration (GSA), today announced that GSA, in collaboration with the U.S. Department of Energy (DOE), will invest \$30 million from the Inflation Reduction Act to

increase the sustainability of federal buildings by testing novel technologies through the Green Proving Ground (GPG) program.

The GPG program evaluates emerging and sustainable technologies in real-world settings and will accelerate the agency’s efforts to achieve net-zero emissions in federal buildings while creating good-paying clean energy jobs. These new, American-made technologies will help in-

crease federal electric vehicle supply equipment, protect air quality, reduce climate pollution, and enhance building performance.

This year the GPG program has selected 20 emerging and sustainable technologies for real-world evaluation in GSA’s real-estate portfolio, a four-fold increase over previous years thanks to funding from the Inflation Reduction Act. This includes enabling the GPG program, which typically evaluates 4-5 technologies per year, to increase its capacity and take other steps to advance President Biden’s goal to achieve a net-zero emissions federal buildings portfolio by 2045.

“This significant expansion of the Green Proving Ground program is a prime example of how President Biden’s Investing in America agenda is driving the next generation of clean energy jobs and innovation,” said Administrator Carnahan. “Across the country, we’re turning federal buildings into testbeds for clean

energy innovation - which will mean more good jobs, savings for taxpayers, and a healthier planet for our kids.”

“GSA’s Green Proving Ground program helps unlock the technologies and cost savings we need to meet President Biden’s Federal sustainability goals, including achieving net zero emissions by 2050,” said Federal Chief Sustainability Officer Andrew Mayock, with the White House Council on Environmental Quality. “Today’s announcement is the latest action demonstrating how the Federal Government will lead by example on climate.”

This year’s GPG program focuses on seven technology areas:

1. **Electric Vehicle Supply Equipment (EVSE)** technologies are critical to supporting the transition to an all-electric fleet by 2035. Four EVSE technologies will be

DEI & WORKFORCE DEVELOPMENT

Racial Equity Benefits All Americans

[Article originally appeared in
<https://home.treasury.gov>]

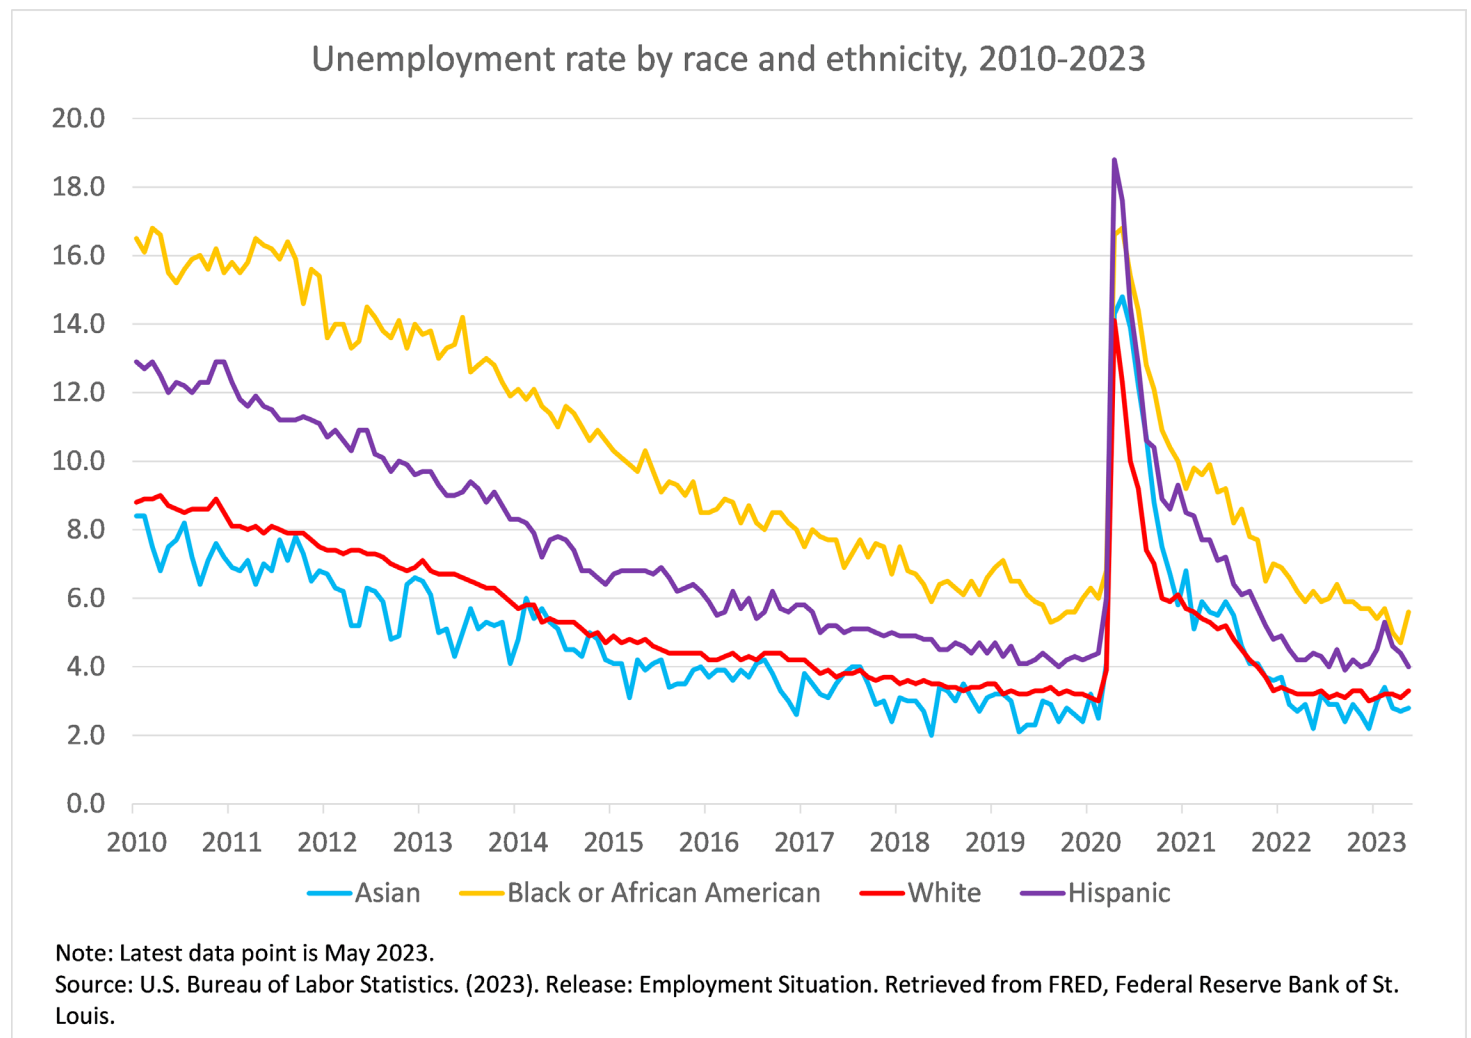

By: Wally Adeyemo,
 Deputy Secretary of the Treasury

Treasury Department will host the third meeting of the Treasury Advisory Committee on Racial Equity (TACRE). TACRE is comprised of 25 experts drawn from academia, business, nonprofits, philanthropy, and other fields who help the Treasury Department ensure we are thinking about how our policies impact racial equity and hold us accountable for the commitments we've made. With June-teenth approaching, this week's TACRE meeting is an ideal time to take stock of our work to date.

As I look back at the last two-and-a-half years of the Biden-Harris Administration, I am proud of the way our actions have advanced racial and economic equity, from the American Rescue Plan Act (ARP) enacted in the early days of the Administration to the ways we have implemented the Inflation Reduction Act (IRA) over the past few months. We have seen historic gains in employment and wages among Black and Hispanic workers, as well as on other key economic metrics.

To name just a few, both Black unemployment and the gap between Black and white unemployment recently reached their lowest levels on record. From 2019 to 2022, median weekly earnings increased 4 percent for Black workers and 2.4 percent for Hispanic workers after accounting for inflation.[1] And the Black and Hispanic supplemental child poverty rates—which account for government benefits—reached their lowest levels since 2009.[2]

But an underappreciated aspect of these policies designed to support those often left behind by economic policy is the impact they have on all working-class Americans regardless of race. All Americans—including rural, white, and other communities—have benefited from the President's focus on equity. In his quest for economic justice, Reverend Martin Luther King, Jr. often spoke of the challenges and experiences shared among poor white people and marginalized Black people and of how detractors sought to sow division between them to prevent unified action. Today, our politics continue to distract us from the fact that working- and middle-class Americans of all races and creeds still face a set of shared economic challenges. In his famous sermon *The Drum Major Instinct*, Reverend King called on us to overcome our instinct to focus on how we or our group can get ahead of oth-

ers and to instead to work toward collective justice for all of those in need.

The economic data from the last two years demonstrates clearly that policies designed to support those in greatest need ultimately benefit everyone. This mirrors what social scientists call the “curb cut effect,”[3] the idea that laws designed to benefit the disabled by requiring curb cuts ultimately benefit a wide variety of groups—both disadvantaged and not—from parents with strollers to workers loading and unloading goods.

Let me highlight how this is true looking at three important indicators of economic wellbeing: (1) employment; (2) access to housing, as measured by eviction rates; and (3) access to high-speed internet, which is essential to small business formation and online education.

Expanding Employment

When President Biden took office, our country was still in the grip of a once-in-a-generation public health and economic crisis, with unemployment peaking at nearly 15 percent. Beginning with the American Rescue Plan, President Biden made it a priority to get Americans back to work. The ARP gave small businesses and governments significant resources to keep Americans on the payroll during the worst stretch of the pandemic and to invest in workforce training and other programs to support American workers in the long run.

I've seen these investments firsthand, on trips across the country to places like Orlando, Florida; Bethlehem, Pennsylvania in the Lehigh Valley; and many other communities. Last year, I met a woman named Diamond who almost lost her home during

the pandemic. Her access to federal eviction prevention funds helped her keep a roof over her head and enabled her to enroll in job training and transition to a new career to better support her family. And there are countless more stories[4] about how the President's response to COVID helped American workers weather the pandemic and ultimately emerge even stronger.

More recently, Treasury has implemented provisions of the IRA that provide bonus incentives for clean energy and manufacturing investments in low-income and former coal communities—helping to generate employment opportunities in these areas and enabling them to participate in the gains of the clean energy transition.

CALIFORNIA SUB-BID REQUEST ADS

401 W A Street, UNIT 1200, San Diego, CA 92101

REQUEST FOR DBE SUBCONSULTANT INTEREST

AECOM is bidding on the following project as a prime contractor:

City of San Diego
As-Needed Construction Management Services – Federal for Engineering & Capital Projects,
Contract Number: H2326236, H2326237 & H2326238
Proposal Due Date: July 20, 2023 (4pm)

AECOM is seeking qualifications from certified disadvantaged business enterprises (DBEs) for the following work:
 Driller: perform geotechnical boring, sampling, monitoring well installation, downhole logging support, and associated services

- NAICS 541380 - Geotechnical (Soils)
- NAICS 541360 - Surveying Services (Not Aerial)
- NAICS 541330 - Engineering Consulting
- NAICS 541330 - Engineering Services, Professional
- NAICS 237310 - Construction Management Services
- NAICS 541990 - Cost Estimating Services
- NAICS 541350 & 237990 - Inspection Services, Construction Type

Experience providing similar services to the City of San Diego and a San Diego County business location is preferred.

This proposal is in alignment with the City of San Diego's DBE Guidelines and certified DBEs are encouraged to respond. The DBE program includes minority- and women-owned business enterprises (MBEs and WBEs).

Interested businesses should email a brief 1-2 page overview of their previous work with the City of San Diego and/or similar experience along with DBE documentation by **Wednesday, July 12, 2023**, to **Kristin Munson** at kristin.munson@aecom.com.

If requested, assistance is available in obtaining any necessary lines of credit or insurance; information related to work requirements; and necessary equipment, supplies materials, or related services. Because this is for as-needed services, no scope of work is provided.

300 South Grand Avenue, Los Angeles, CA, 90071 • Phone: 213-593-8100

Request for Community Business Enterprises (CBEs) for:

County of Los Angeles Department of Public Works
Request for Proposal: On-Call Consultant Services for Strategic Planning & Sustainability Office
RFP No: BRC0000404

Bid Due Date: July 18, 2023

To be considered for this team, please provide information no later than 4 pm, June 23, 2023

- 1) Letter of Interest
- 2) Copy of current certification(s)
- 3) Brief qualifications package (select resumes and experience)

AECOM is seeking interest from certified Community Business Enterprises (CBEs) for the following disciplines/areas of work:

Community Engagement, Public Outreach, Diversity, Equity & Inclusion Audits and Analysis, Financial Accounting, Enterprise Resource Planning, Information Management, Climate Change, Adaptation, and Resilience Planning, Conceptual Design, Cost Estimating, Design Peer Reviews, Environmental (CEQA/NEPA) Documentation, Feasibility Studies/Project Definition, General Engineering Services including Civil, Structural, Mechanical (HVAC), Electrical, and Environmental, Infrastructure Planning, Site Assessment/Evaluation, Solid Waste and Organic Waste Planning, Stormwater Planning, Sustainability/Envision Rating, Transportation and Traffic Planning, Troubleshooting, and Wastewater Treatment Planning.

Experience is preferred with strategic planning, process improvement, performance tracking, sustainability, resiliency, equity, grant writing, and infrastructure planning. Envision Sustainable Professional (ENV-SP) certification also desired, as applicable.

Experience providing similar services to the County of Los Angeles is preferred. This proposal is in alignment with the County of Los Angeles CBE Program requirements and certified CBEs are encouraged to respond. The CBE Program includes business enterprises owned by minority, women-owned, disadvantaged, disabled veteran, and lesbian, gay, bisexual, transgender, queer, and questioning-owned business enterprise by a public agency.

Interested business should email a brief overview of County of Los Angeles experience, along with CBE documentation by 4 pm, June 23, 2023 or before. Please send information to Wei Wei Scott at weiwei.scott@aecom.com. AECOM will also provide copies of the RFP document on request. Be advised that an AECOM representative will contact qualified respondents and request additional information regarding this solicitation that will be **due no later than 4 pm, July 11, 2023**. Thank you for your interest in advance.

Assistance is available in obtaining any necessary bonding, lines of credit or insurance, information related to the requirements for the work and necessary equipment, supplies, materials or related services.

BROSAMER & WALL, INC.

An Equal Opportunity Employer is requesting quotations from all qualified Professional services, sub-contractors, material suppliers and trucking including certified DBEs for the following project:

Agency: Sacramento County
Franklin Blvd Bridge Replacement Over Lost Slough and
Alta Mesa Road Bridge Replacement Over Laguna Creek

Brosamer & Wall Inc., is requesting quotes from all qualified subcontractors, suppliers, and truckers including certified DBEs on all items of work type listed here, including but not limited to: **Asbestos Containing Material (ACM): Bridge Removal; Class 2 AB; Clearing & Grubbing/Tree Removal; Cold Plane Asphalt Concrete Pavement; Construction Area Signs; Drive Pile/Dynamic Pile Monitoring; Drop Inlets; Fencing; Temporary High Visibility Fence; Field Office Trailer; Furnish Precast Prestressed Concrete Slab; HMA Paving; Hydroseeding; Earthwork; Joint Seal; Land Surveyor; Landscaping; Lead Compliance Plan; Minor Concrete(Gutter); Misc. Metal(Bridge); Native Tree Construction Protection/Arborist; Object & Pavement Markers; Paint Existing Bridge Rails; Precast Concrete Bat Habitat; Preconstruction Photographs; Project Information Sign; Quality Control Plan; Railings & Barriers(California ST-75 Bridge Rail; Cable Railing; Transition Railing; Alternative In-Line Terminal System; Quadguard); Rebar(Bridge; Headwall, Retaining Wall; Headed Bar Reinforcement); Roadside Signs; Roadway Excavation; Rock Slope Protection; Storm Drain(Reinforced Concrete Pipe; Headwall; Flared End Section); Striping; Structural Concrete (Bridge, Bridge Polymer Fiber, Bridge Footing, Headwall, Retaining Wall); Structure Excavation/Backfill (Bridge & Retaining Wall); SWPPP; Water Pollution Control; Temporary Creek Diversion/Water Diversion; Temporary Fencing; Traffic Control/Traffic Control Plan; Treated Wood Waste. **Please Contact Brosamer & Wall Inc. at the email listed above for the complete list of the Actual Available Project Bid Items.****

Requirements: Brosamer & Wall, Inc. will work with interested subcontractors/suppliers to identify opportunities to break down items into economically feasible packages to facilitate DBE. Brosamer & Wall, Inc. is a union signatory contractor. Subcontractors must possess a current contractor's license, insurance coverage, valid DBE certification, DIR (Department of Industrial Relations) registration number for public work projects, and worker's compensation for the entire length of the contract. All subcontractors will be required to sign our standard Subcontract Agreement. 100% payment and performance bonds may be required. If you have any questions regarding this project or need assistance in obtaining/waiving insurance, bonding, equipment, materials and/or supplies please call or email Debby Pannell via the contact information above.

Plans and specifications can be accessed for free at the Sacramento County website:

<https://procurement.opengov.com/portal/saccounty/projects/37372> or they can be viewed at our office located at 1777 Oakland Blvd Suite 300, Walnut Creek, Ca. 94596. B&W will also make the project's plans & specs available electronically. Please email estimating@brosamerwall.com for a free online link. Sacramento County Standard Construction Specifications may be downloaded at www.saccountyspecs.saccounty.gov. Brosamer & Wall Inc. intends to work cooperatively with all qualified firms seeking work on this project. Subcontractors, Dealers/Suppliers and Brokers please provide your designation code to us on or before June 22, 2023.

Is requesting quotes from certified and qualified DBE (MBE and WBE) Subcontractors, Suppliers, and Service Providers for the following (but not limited to) work:

SUBCONTRACTORS / SERVICE PROVIDERS

Asphalt Paving, Cable & Hand Railing, Cathodic Protection, CCTV Video Inspection, Cold-Planing, Compaction Grout, Concrete Flatwork, Dewatering, Electrical, Fencing, Ground Penetrating Devices, Hazardous Material Disposal, Hydroseed, Manholes, Manhole/Utility Adjusting, Monitoring of Contaminated Soil, Noise Monitoring, Potholing, Project Scheduler (CPM), Safety Representative, Saw Cutting, Sheet Pile, Shoring, Signage, Slurry Seal, Street Lighting, Street Sweeping, Striping, Survey, SWPPP, Systems Integration, Traffic Control, Traffic Signal, Trenchless Installation, Trucking, Vibration Monitoring, Video Recording of Existing Conditions, Water Treatment, Welding, Welding Inspection

SUPPLIERS

Aggregates, Asphalt Concrete, BMP's, Cathodic Protection, Conduit, Diesel Fuel, Equipment Rentals, Erosion Control, Fiber Optic Cable, Miscellaneous Metals, Pipeline Materials, Precast Concrete Structures, Pump Rentals, Ready Mix Concrete, Shoring, Traffic Control

Morena Pipeline, San Diego, CA

Bid No. K-23-2169-DBB-3-C

California State Water Resources Control Board - Drinking Water State Revolving Fund (DWSRF):

	MBE*	WBE*
1. Construction	2%	1%
2. Supplies	1%	1%
3. Services	1%	1%
4. Equipment (Combined in above)	1%	1%

Note: MBEs and WBEs must be certified by EPA, SBA, DOT or by state, local, Tribal, or private entities whose certification criteria match EPAs in order to be counted toward MBE/WBE accomplishments. MBEs and WBEs are part of the larger universe of DBEs.

REVISED BID DATE: June 27, 2023 at 2:00 p.m.

All Quotes Due Prior

Sukut Construction, LLC

4010 W. Chandler Avenue, Santa Ana, CA 92704

Contact: Robbie Zwick

Phone: (714) 540-5351 • Fax: (714) 545-2003 • Email: estimating@sukut.com

Plans/Specs are available for viewing at our office by appointment, by Sukut FTP, or from Owner. Subcontractors must be prepared to furnish 100% Performance and Payment Bonds and possess current insurance and workers' comp coverage. Sukut will assist qualified subcontractors in obtaining bonds, insurance, and/or lines of credit. Subcontractors/Vendors will be required to sign Sukut's Standard Subcontract/Purchase Order. Copies are available for examination. Please contact Robbie Zwick at Sukut Construction for assistance in responding to this solicitation.

Sukut Construction's listing of a Subcontractor in its bid to the agency is not to be construed as an acceptance of all the Subcontractor's conditions or exceptions included with Subcontractor's price quotes. Quotations must be valid for the same duration as specified by Owner for contract award.

Shimmick Construction Company, Inc.
1 Harbor Center, Suite 200 • Suisun City, CA 94585
Phone (707) 759-6858
An Equal Opportunity Employer

Disadvantaged Business Enterprise (DBE) Subcontractor/Supplier Bids Requested For:

Central Contra Costa Sanitary District
Solids Handling Facility Improvements, Phase 1A
District Project No. 7348

REVISED BID DATE: Thursday, July 13th, 2023 at 2pm

Email quotes to jmiranda@shimmick.com. Please submit your quotes no later than June 12th @ 5pm.

Shimmick Construction Company, Inc. is requesting quotes from DBE subcontractors and suppliers in the following scopes of work. We welcome and encourage quotes from all DBE firms, including SBE, WBE, MBE, SBRA, LSAF and HUBZone certified firms:

Structure Excavation; Structure Backfill; Paving Asphalt; Cast-In-Drilled-Hole Concrete Piling; Minor Concrete Structure; Concrete Curb & Sidewalk; Coring; Cutting Concrete/Excavation; Plumbing; Painting Structures; Low Voltage Electrical Systems; Drywall Construction; Casework; Construction Clean-Up; Demolition; Construction Staking; Land Surveyor; Construction Engineering and Inspection Services; Steel Structures; Misc. Iron & Steel Frame, Cover & Grate; Construction Equipment Rental; Construction Area Signs

Plans are available for viewing and downloading free of charge on PlanetBids <https://pbsystem.planetbids.com/portal/14663/bo/bo-detail/104900#bidInformation> (registration is required).

You may also contact Jamie Miranda at jmiranda@shimmick.com for a download link to view plans and specifications or to schedule an appointment via Teams to discuss the documents. Meetings are held during regular business hours.

Should you require assistance with your bid, please contact our lead estimator Drew Weichert at dweichert@shimmick.com.

All items of work listed above are made available, even items of work normally performed by Shimmick. Please contact the lead estimator listed above for assistance with breaking down items of work into economically feasible units, with assistance obtaining equipment, supplies, materials, bonding, insurance, estimating, or related assistance. 100% Performance and Payment bonds with a surety company subject to approval of Shimmick Construction Company, Inc. are required of subcontractors for this project. Shimmick Construction will pay bond premium up to 1.5%. Subcontractors will be required to abide by terms and conditions of the AGC Master Labor Agreements and to execute an agreement utilizing the latest SCCI Long Form Standard Subcontract incorporating prime contract terms and conditions, including payment provisions. Shimmick Construction's listing of a Subcontractor is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with the Subcontractor's price quote. Shimmick Construction requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation. For assistance with bonding, insurance or lines of credit contact Devin Nordhagen at devin.nordhagen@shimmick.com.

Anticipated funding sources for this Project include State of California's Clean Water State Revolving Fund (CWSRF), which is capitalized through a variety of funding sources, including grants from the United States Environmental Protection Agency (USEPA) and state bond proceeds. American Iron and Steel requirements, Davis-Bacon Act, California prevailing wage requirements, and Disadvantaged Business Enterprises (40 CFR Part 33) apply to this project.

W.A. RASIC CONSTRUCTION
GENERAL ENGINEERING CONTRACTOR

Our firm is preparing a bid for the following project as a prime contractor and we are interested in receiving subcontractor quotations for items of work or materials required below from interested Disadvantaged Business Enterprise (DBE), Minority Business Enterprise (MBE), and Women Business Enterprise (WBE)

City of San Diego
Morena Pipeline
Bid No. K-23-2169-DBB-3-C
Revised Bid Date: June 27, 2023 @ 2:00 PM
Engineer's Estimate: \$ 45.9 Million Outreach: DBE/ MBE/WBE
Senior Estimators: Ben Sebat (562) 928-6111
Email: bsebat@warasic.com

W.A. Rasic is requesting bids for the following trades and/or material supplies:

Electrical, AC Cold Milling / Demolition, Asphalt Cap Paving, Traffic Signals / Loop Detectors & Signal Modifications, Slurry Seal (Type 1,2,3), Minor Concrete, Pre-Construction Video, Temporary Highline, Sawcutting, Potholing, Striping, Welding, Install 12", 15", 16" & 36" Pipeline including Appurtenances, Furnish Welded Steel & PVC Pipe, Furnish Waterworks Supply, Furnish Sand & Gravel, Furnish Ready Mix Concrete and Asphalt, Traffic Control Signs & Equipment, Cathodic Protection, Trucking & Disposal, SWPPP Development, Dewatering (Hazardous & Non-hazardous), Contaminated Soils (Monitoring, Hauling & Disposal), Chlorination/De-Chlorination, CCTV, Hazard Control Plans / Engineering, Equipment Rental, Camera Inspection, Shoring Equipment

NAICS Codes:

237110, 237310, 238110, 238190, 238210, 238910, 238990, 331110, 334290, 484110, 532490, 541330, 541690, 562910

Plans & Specifications are available at no cost to interested firms by either contacting W.A. Rasic Construction, downloading from the City of San Diego's Planet Bids Portal or by utilizing the following FTP link:

<https://www.dropbox.com/scl/fo/62dsmpacyemtlcwnwkc/h?dl=0&rkey=g61cyookpk8v9s550yeeekl6q>

W.A. Rasic will assist in obtaining bonds, lines of credit, insurance, equipment, supplies and materials upon request. W.A. Rasic will consider each DBE, MBE, and WBE quotes, including those that are broken down into economically feasible units as well as arrange delivery schedules to facilitate and encourage maximum bidding participation. W.A. Rasic also encourages a consortium of DBE / MBE / WBE firms when a contract portion is too large to handle individually. Subcontractors must have a valid California Contractors License and must be registered with the Department of Industrial Relations (DIR) as required by Section 1725.5 of the Public Contract Code. Subcontractors will be required to execute W.A. Rasic's standard subcontract agreement and general insurance requirements. A copy of our subcontractor agreement and insurance requirements is available in electronic format upon request. W.A. Rasic reserves the right to require each subcontractor to provide payment and performance bonds in the amount of 100% of the subcontractors bid. Bond Premium will be reimbursed up to a cost not to exceed 1.5%. W.A. Rasic is an equal opportunity employer and Union signatory Contractor.

W.A. RASIC CONSTRUCTION
GENERAL ENGINEERING CONTRACTOR

Our firm is preparing a bid for the following project as a prime contractor, and we are interested in receiving subcontractor quotations for items of work or materials required below from interested Community Business Enterprises (CBE). CBE's are defined as Minority/Women/Disadvantaged/Disabled Veteran/Lesbian/Gay/Bisexual/Transgender, Queer, and Questioning owned Business Enterprises (M/W/D/DVBE/LGBTQQ)

Los Angeles County Department of Public Works
Alamitos Bay Pump Station Discharge Line Replacement
Project ID NO. FCC0001218
Bid Date: June 20, 2022 @ 11:00 AM
Engineer's Estimate: \$ 3.6M -5.4M
Outreach: CBE, (M/W/D/DVBE/LGBTQQ)
Senior Estimators: Mark Setzer (562) 928-6111 |
Email: msetzer@warasic.com

W.A. Rasic is requesting bids for the following trades and/or material supplies:

Electrical, Shoring (Cofferdam), HDPE Pipe Supply, Sound Barrier, Rebar, Structural Steel, Trucking & Disposal (export), Painting & Coatings, Check Valve Supply, Steel Roof Deck, Bridge Crane, Pump Station Building

NAICS Codes:

237110, 238120, 238210, 238310, 238990, 484110

Plans and Specifications are available at no cost to interested firms by either contacting W.A. Rasic Construction, downloading from the Los Angeles County Public Works website or clicking on the below link: <https://www.dropbox.com/scl/fo/xp03pnc80ru9it85iq8z/h?dl=0&rkey=pydisxgj4015rwqh7lmb9ad2z>

W.A. Rasic will assist in obtaining bonds, lines of credit, insurance, equipment, supplies and materials upon request. W.A. Rasic will consider each CBE, M/W/D/DVBE/LGBTQQ quote, including those that are broken down into economically feasible units as well as arrange delivery schedules to facilitate and encourage maximum bidding participation. W.A. Rasic also encourages a consortium of CBE, M/W/D/DVBE/LGBTQQ firms when a contract portion is too large to handle individually. Subcontractors must have a valid California Contractors License and must be registered with the Department of Industrial Relations (DIR) as required by Section 1725.5 of the Public Contract Code. Subcontractors will be required to execute W.A. Rasic's standard subcontract agreement and general insurance requirements. A copy of our subcontractor agreement and insurance requirements is available in electronic format upon request. W.A. Rasic reserves the right to require each subcontractor to provide payment and performance bonds in the amount of 100% of the subcontractors bid. Bond Premium will be reimbursed up to a cost not to exceed 1.5%. W.A. Rasic is an equal opportunity employer and Union signatory Contractor.

REQUESTING BIDS FROM CERTIFIED DBE, MBE, WBE, SBE, LSAF, SBRA, HUBzone Subcontractors and Vendors

Project: Chet Harritt Pump Station and Clearwell Effluent Flow Meter, Lakeside CA

Reference: CIP 21008 and CIP 22004

Bid Date: 07/06/2023 @ 10:00am

Owner: Helix Water District

Orion Construction Corporation is bidding the above referenced project as a Prime Contractor and is requesting bids for the following trades and/or material suppliers:

SUBCONTRACTORS: Surveying, Concrete Flatwork, AC Paving, Chain Link Fencing, Concrete Structures, Reinforcing Steel, Masonry, Roofing, Sheet Metal, Roof Specialties and Accessories, Doors and Hardware, Miscellaneous and Structural Metals, Overhead Coiling Doors, Acoustical Panels, Thermal Insulation, Painting and Coatings, Monorail Hoists, Plumbing, HVAC, Electrical and Instrumentation.

MATERIAL SUPPLIERS: Precast Concrete Vaults, Pumps, Fabricated CMLC Steel Pipe, Fabricated Stainless Steel Pipe, Piping Materials.

Plans and specifications can be obtained from: Please use link to: https://orionconstructiongcc-my.sharepoint.com/personal/anjelica_puch_orionconstruction_com/_layouts/15/onedrive.aspx?id=%2Fpersonal%2Fanjelica%5Fpuch%5Fonionconstruction%5Fcom%2FDocuments%2FCHPS%20CEFM%20NIB%20DOCUMENTS&ga=1 - Or, You may contact Orion Construction Corporation with any questions or for assistance via email to Jose Rivera at estimating@orionconstruction.com.

Additional notes: Please submit bids at least one day prior to bid date and include your DIR registration number and any certification you may have. Orion Construction Corporation is willing to break items of work into smaller increments to assist DBE/WBE/MBE/SBRA/LSAF/HUBzone Contractors and Suppliers in obtaining work on this project and encourages contracting with a consortium of DBE's when a contract is too large for one firm to handle. 100% Performance and Payment bonds may be required, and Orion Construction Corporation will pay up to 3% bond premium. Subcontractor's must possess a current contractor's license. Please contact us for details, or with any questions. Please call if you need assistance in obtaining: bonding, insurance, equipment, materials, and/or supplies. Include with your bid the Time required for Performance of your work and any Delivery Schedules so that we can establish a Flexible Timeframe for your work. Please note that Water Infrastructure Finance and Innovation Act program of the EPA has statutory requirements commonly known as "American Iron and Steel" that requires all of the iron and steel products used in the project to be produced in the United States.

McCarthy Building Companies
515 S. Flower St | Ste. 3600 | Los Angeles, CA 90071 | 213-655-1100 | License #411173

Subcontractor Solicitation of Interest
Kenneth Hahn Hall of Administration - Base Isolation Seismic Retrofit
Los Angeles, CA

McCarthy Building Companies, Inc., working as the Construction Manager at Risk in conjunction with the Department of Public Works for Los Angeles County, is soliciting interest from qualified subcontractors to participate in the bidding for award phase of the project. The Scope of Work includes a Design-Build Earth-Retention Shoring System with Shotcrete as a sub-component of the system. This specific package does not include the temporary load-bearing shoring and hydraulic jacking.

Project description:

The Hall of Administration Base Isolation Seismic retrofit project consists of the installation of seismic isolators under the foundation of the existing building. Hydraulic jacks and temporary load-bearing shoring will be installed in phases to support and transfer the gravity loads from the existing columns/walls to new support foundations. Seismic strengthening of the superstructure using new concrete shear walls is required at selective locations. A moat gap will be constructed around the building perimeter using earth-retention walls. Shoring and earthwork operations will require demolition and reconstruction of the existing site around the building. The M/E/P scope consist of adjustments, alterations, temporary offsets, and new replacements to accommodate for the new structural systems and seismic movement of the building. All underground utilities will be modified with flexible connections where the utility lines pass through the perimeter moat gap. This project will be performed at an active site where the building is occupied during typical work hours. Temporary provisions of various sorts will be accommodated so as not to disrupt the occupants of the building.

Project Location: 500 West Temple Street, Los Angeles, CA 90012

Work categories include: Shoring & Underpinning, Shotcrete, Rebar

Key Subcontractor Qualifications: Design-Build experience for: Earth-retention Shoring Systems; bondable and prequalified with McCarthy Building Co.; experience completing base isolation seismic retrofit projects using deep permanent and temporary, free standing, earth retention systems using tiebacks, soil nailing or other strategies of similar scope.

Key Dates: Request for Proposals (RFP) issued to Subcontractors - 06/26/23 via Building Connected; Proposals Due to McCarthy - 07/24/23

This project requires:

- Prevailing Wages
- Traditional Insurance
- Design and oversight services by a qualified, licensed California Professional Engineer in collaboration with the existing Design & Engineering Team.
- Community Workforce Agreement

McCarthy is an equal opportunity employer and encourages qualified Small Business and Minority Business participation. All qualified applicants will receive consideration for employment without regard to race, religion, sex, or national origin.

Please contact us if you have any questions regarding project specifics:

McCarthy Building Co., Inc.

Owner: Central Contra Costa Sanitary district
Revised Bid Date: July 13, 2023 @ 2:00 PM
Subcontractor and Supplier Scopes are due July 4, 2023, and Quotes NO LATER THAN July 12, 2023 at 5 PM.

Kiewit requests Disadvantaged Business Enterprise (DBE), Minority Business Enterprise (MBE), Women Business Enterprise (WBE), Small Business Enterprise (SBE), Small Business in a Rural Area (SBRA), Labor Surplus Area Firm (LSAF), or Historically Underutilized Business (HUB) Zone Businesses for the following scopes, but not limited to:

Access Flooring • Demolition • Doors • Drilled Concrete Piers and Shafts • FRP Modular Building • Glass & Glazing • HVAC • Joint Sealants • Mechanical Equipment • Metal Roof Decks • Metal Stud Framing and Drywall • Millwork • Minor Concrete • Misc. Metals & Structural Steel • Painting & Coating • Pipe Cleaning and Disinfection • Pipe Insulation • Piping & Valves • Quality Control • Rebar • Resilient Flooring • Roof Access Doors and Hatches • Sawcut and Core Drilling • Shoring • Signage • Sludge Dewatering & Removal • Storefronts • Survey • Trucking • Vinyl Flooring

Certified thru, but not limited to, any of the following agencies:
www.mdba.gov; www.epa.gov; www.sba.gov; dot.ca.gov

Non-DBE firms are encouraged to contract with a group of lower tier DBEs or individual DBEs.

Plans are available for viewing through SmartBidNet (SBN). All companies already registered in our SBN database will receive an invitation to bid. Please email norcal.bids@kiewit.com to have your company added to our SBN database to be able to receive bidding information, Plans and Specifications.

Contract Documents and related Supplemental Project Information Available to Bidders can be downloaded from PlanetBids:
<http://www.planetbids.com/portal/portal.cfm?CompanyID=14663>

Performance and Payment Bonds may be required for Subcontractors, and Supply Bond for permanent material Suppliers on this project. Bond requirement can be waived on a case by case basis. Please contact Kiewit for more information. Bond premiums are reimbursable by Kiewit. Please contact Kiewit for any assistance in bonding, insurance, equipment, materials and/or supplies.

Subcontractors must possess & provide current California contractor's license number & DIR Registration number.

Subcontractors and Suppliers will be required to execute Kiewit standard agreements and agree to Kiewit standard general terms and conditions. Copies are available for review through our SmartBidNet (SBN) site.

BUILDOUT CALIFORNIA FOUNDERS DAY GALA AND DINNER, LOS ANGELES 2023

By Käto Cooks

The downtown Los Angeles Intercontinental Hotel experienced STELLAR!!! on Thursday, June 1st. That was the day – and night – that BuildOUT California (boc-founders-day.com) showed up and showed out for its Second

Annual Founders Day Gala and Dinner. Led by its president, the always elegant Paul Pendergast, of Pendergast Consulting Group, the event celebrated the activists and standard bearers of diversity, inclusion, and belonging in the LGBTQIA+ community. The day began with panel discussions covering the depth and breadth

of ALLYship related to construction contracting. The afternoon closed with a VIP Reception and aptly titled Golden Pitches by emerging LGBTQIA+ companies. And, then, there was the Founders Day Awards Gala, which illuminated the event.

Käto Cooks is the California State Coordinator for the American Contract Compliance Association (www.accaweb.org) and the founding executive director of the Construction Contractors Alliance, Inc.

The awardees were:

Patrick Otellini,
Swinerton Builders:
Built Community Impact Award

Patrick Otellini is the National Affordable Housing Director with Swinerton and leads their affordable housing efforts company wide. Prior to joining Swinerton, he served as the Chief Resilience Officer for the City and County of San Francisco under Mayor Edwin Lee and was responsible for the creation and implementation of the city's resilience strategy: Resilient San Francisco – Stronger Today, Stronger Tomorrow. Mr. Otellini, along with his colleagues at Swinerton Builders, have created a national model of LGBT, Minority and Women business utilization on affordable housing projects which was launched with the construction of the fifteen-story OpenHouse project which will provide affordable housing for LGBTQ and Economically Disadvantaged seniors in San Francisco.

He also serves in the current Newsom administration as a member of the California Earthquake Authority Advisory Panel.

Kabri Lehrman Schmid,
Hensel Phelps: Built Community Impact Award

Kabri Lehrman Schmid has a 16-year career portfolio showcasing her depth of skill across all project phases on highly-phased, active campus projects totaling over \$1.9B work in place. She is valued by clients and trade partners as a talented controller of building strategy and an attentive coordinator of construction teams - outcomes rooted in the mutually beneficial relationships she maintains. Recognized as one of ENR's 2023 Top 20 Under 40 national honorees and Construction Business Owner's 2019 Outstanding Women in Construction, Kabri is also the recipient of AGC of Washington's 2022 inaugural Rising Star award, and Washington Women in Trades' 2019 Workplace Leader Award.

Jacqueline Pruitt,
Marvella Steel Placers:
President's Award of Achievement

Marvella Steel Placers was established in February 2016 by President and CEO Jacqueline Pruitt. Ms. Pruitt began her career in early 2009 as an Apprentice Ironworker for Local 416. With the odds against her, she made it her everyday task to learn and implement the skills needed to become a successful field Journeyman Ironworker. In her 3rd year as an apprentice, she was given the chance to be a Lead Ironworker on projects such as; Berth 200 in the Port of Los Angeles, the Automated Container Movers in the Port of Long Beach, freeway lane additions, bridges, abutments, miles of retaining walls and barrier rail on the 91 freeway, and slab on metal decks for the famous Wilshire Grand High-rise.

Shortly after achieving her Journeyman status, she was given the opportunity to be Foreman and built the Hollywood Park Casino on time and under budget.

Jacqueline sits on the L.A. Metro Transportation Business Advisory Council as an alternate for the National Association of Minority Contractors of Southern California. She also sits on the California High-Speed Rail Business Advisory Council as a delegate, representing the Construction Contractors Alliance, Inc., for which she serves as the founding president.

Dixon Lu,
MAD Architects: Built Community Impact Award

Dixon is Associate Partner at MAD Architects' Los Angeles Office. This is Dixon's second stint with MAD, having acted as Head of Operations for their Beijing office from 2008 to 2011. Dixon helped to conceptualize and organize the firm's installation in partnership with Olafur Eliasson, "Feelings are Facts" at UCCA. Since returning to MAD in 2014, Dixon has project managed the firm's first US Project, Gardenhouse, a mixed-use complex with luxury condominiums in Beverly Hills. He is the Los Angeles office's leader, managing operations, projects, and overall strategy for MAD in North and South America.

Mischa Haramia,
Henderson Engineers: Groundbreakers Award

Mischa Haramia has over 35 years of experience in the Architecture, Engineering and Construction industry, focusing for the last 23 years on entertainment and sporting venues. During that time, she is fortunate enough to have worked on a number of iconic venues, such as SoFi Stadium and YouTube Theater. In her current role at Henderson Engineers as Entertainment Practice Director, she uses her love of live music to help bring these venues to life and create an experience that won't be forgotten. In addition to performing arts and concert venues, she also works on esports, experiential/movie theaters, casinos, amusement parks, and production studios, bringing a variety of project types to her portfolio.

With a passion for diversity, equity, and inclusion, Mischa stays involved with many industry and community organizations. Through speaking, presenting, advocating, and volunteering, she hopes to spread awareness of the importance of diversity, equity, and inclusion in all facets of life. In her spare time, she enjoys running, painting, and exploring the mountains, beach or California's many wineries.

Title 24:
2022 Code Changes

PROGRAM SUMMARY

Join us for a webinar on the latest changes to Title 24, the California Energy Code. This webinar will share the updates to the code and how they will impact the construction industry. The webinar will also address common questions and concerns regarding compliance with the updated code, as well as provide insights into how builders and designers can optimize their projects for maximum efficiency and sustainability. Whether you are a builder, designer, or building owner, this webinar is a must-attend event for anyone involved in the California construction industry. Don't miss out on this opportunity to stay up-to-date on the latest changes to Title 24.

Learning Objectives:

- Understand changes to the Title 24 Energy Code and its impact on construction.
- Learn compliance strategies to meet current code requirements.
- Know about PV and storage system requirements and options for code compliance.
- Learn about mandatory, prescriptive, and performance code requirements.

SPONSORSHIP LEVELS

\$750 - Platinum - Includes 4 Tickets
 \$500 - Gold - Includes 3 Tickets
 \$250 - Silver - Includes 2 Tickets

CONTINUING EDUCATION CREDITS AVAILABLE

\$30 Million to Advance American-Made Clean Energy Technologies

Continued from page 1

2. **Germicidal Ultraviolet** technologies use next-generation LEDs and Far-UVC light to disinfect air without increasing ventilation. The GPG program will evaluate technologies that support healthier buildings while reducing energy use from Far UV Technologies, R-Zero and PURO (subsidiary of Applied UV Inc.) with the Academy Energy Group.
3. **Greenhouse Gas Accounting** technologies are essential to achieving 24/7 carbon-free electricity and net zero operational emissions. Cambio AI and nZero will aim to go beyond annual greenhouse gas reporting to operationally focused carbon management, including near-real-time 24/7 carbon-free electricity insights and impacts.
4. **Grid-Interactive Efficient Buildings** deliver cost savings by leveraging technologies and strategies that provide continuous demand management and load flexibility. The energy management platform from COI Energy aims to optimize energy use through machine learning.
5. **High-Performance** technologies help reduce operational and embodied carbon emissions. The GPG program will evaluate automated aerosol-based duct sealing from Aeroseal; an Internet-of-Things (IoT) lighting system from Signify North America Corporation; and bio-engineered, low-embodied-carbon concrete from Biomason. DOE will seek commercial partners to validate Toggled, a plug load control solution, and a thermostatic radiator cover and hybrid electrification solution from Kelvin.
6. **Onsite Renewables** are essential to meeting the Administration's net zero opera-

tional emission goals. The GPG program will evaluate an energy storage technology from Yotta Energy that is the size of a large laptop and installed in place of ballast beneath a rooftop photovoltaic system. The program will also pilot a wind turbine from Accelerate Wind that can be installed at the edge of the building roof and complement rooftop solar.

7. **Window Retrofit** technologies help improve the performance of a building's exterior envelope. The GPG program will evaluate three technologies: (i) vacuum-insulated glazing from Pilkington; (ii) R14 interior window retrofit system from Vitro Architectural Glass; and, (iii) a secondary window framing system from Indow.

Some of these technologies will be tested at GSA's Applied Innovation Learning Labs to identify replicable combinations of technologies that deliver netzero operational emissions.

The GPG program leverages GSA's extensive real estate portfolio to evaluate innovative build-

ing technologies in real-world settings. The evaluations are intended to validate the technical and operational characteristics of the technologies and their potential for future wide-scale adoption. GSA anticipates that the results of this year's evaluations will be available in 2025. Evaluation results help GSA make sound investment decisions in next-generation building technologies. Since 2011, GPG has evaluated 104 technologies, 23 of which have been deployed across more than a third of GSA's federally owned portfolio, avoiding 116,000 annual tons of CO₂ and delivering \$28 million in annual cost avoidance. For more information, visit gsa.gov/gpg.

Reference above to any specific commercial company, product, technology, or service by its trade name, trademark, manufacturer, or otherwise, does not constitute or imply its endorsement, recommendation, or favoring by the federal government or any agency thereof.

PUBLIC LEGAL NOTICE ADVERTISEMENTS

OAKLAND UNIFIED SCHOOL DISTRICT DEPARTMENT OF FACILITIES PLANNING AND MANAGEMENT

REQUEST FOR QUALIFICATIONS AND PROPOSALS (RFQ/P)

Construction Program and
Project Management Software

June 7, 2023 (Issued)

Responses must be received
June 29, 2023 no later than 2:00 p.m.

The Oakland Unified School District ("District") is requesting proposals from experienced firms, partnerships, corporations, associations, persons or professional organizations ("Consultants") to provide a Construction Program and Project Management Software that would efficiently support the program projects through their entire lifecycle (i.e., planning through closeout) and satisfy the various reporting requirements.

Interested firms are invited to submit a Statement of Qualifications ("SOQ") and a detailed Fee Proposal (collectively "RFQ/P Packet") as described below of the requested materials with a cover letter addressed to:

Oakland Unified School District
Kenya Chatman, Executive Director of
Facilities
Department of Facilities Planning and Man-
agement
955 High Street, Oakland, CA 94601

Oral, telegraphic, facsimile, or telephone RFQ/P Packets will not be accepted. RFQ/P Packets received after this date and time will not be accepted. The District reserves the right to waive any informalities or irregularities in the RFQ/P Packets. The District also reserves the right to reject any and all RFQ/P Packets and to negotiate contract terms with one or more Respondents.

Due to the circumstances caused by the Covid-19 pandemic, the District will only accept electronic Proposals sent via email in lieu of hard copies. Proposals received by the District no later than 2:00 PM (Pacific Time) on June 29, 2023 via email will be accepted (to Juanita Hunter at juanita.hunter@ousd.org and the contact persons below).

If you have any questions regarding this RFQ/P and/or submitting proposal electronically, please email Kenya Chatman at kenya.chatman@ousd.org and cc: to Colland Jang at colland.jang@ousd.org

LOCAL, SMALL LOCAL AND SMALL LOCAL RESIDENT BUSINESS ENTERPRISE PROGRAM

District Modification: Based on the availability analysis conducted for this specific RFQ/P, the District had waived its mandatory Local Business Utilization Policy requirement for LBE/SLBE/SLRBE certifications.

FULL OPPORTUNITY

The District hereby affirmatively ensures that Disadvantaged Business Enterprises ("DBE"), Small Local Business Enterprise ("SLBE"), Small Emerging Local Business Enterprise ("SELBE") and Disabled Veterans Business Enterprise ("DVBE") firms shall be afforded full opportunity to submit qualifications in response to this notice and will not be discriminated against on the basis of race, color, national origin, ancestry, disability, gender, transgender status, political affiliation, or religion in any consideration leading to the award of contract. No qualified disabled person shall, on the basis of disability, be excluded from participating in, be denied the benefits of, or otherwise be subjected to discrimination in any consideration leading to the award.

AKRON, OHIO SUB-BID REQUEST AD

J.F. Shea Construction, Inc. BIDDING OPPORTUNITY

City of Akron EDGE/DBE/MBE/WBE/SBE/VBE with the following certifying authority:

Ohio Department of Administrative Services/Unified Certification Program or
Northeast Ohio Regional Sewer District or the USEPA DBE Utilization Program

Inviting qualified contractors, specifically firms within Summit County, to contact J.F. Shea Construction, Inc. (Prime Contractor listed below) regarding subcontracting services and material supply opportunities in connection with the upcoming tunnel and shafts project.

The Work under this contract is in Akron, Ohio. The Work consists of:

NORTHSIDE INTERCEPTOR TUNNEL

Owner: City of Akron

166 South High Street, Room 701 Akron, Ohio 44308

BID DATE: JUNE 22, 2023 at 11:00 AM

667 Brea Canyon Road, Suite 30 • Walnut, CA 91789

Phone: 909-594-0990 • Fax: 909-869-0827

Send Inquiries/Certifications to Aimee Remo: aimee.remo@jfshea.com

Opportunities to participate exist in the following specific areas of soil excavation, hauling, excavation support systems, deep foundation system (slurry walls or secant piles, soldier beams), dewatering systems, structural steel, engineering, survey, geotechnical instrumentation and monitoring services, materials testing, demolition and site preparation, tree removal, aggregates and fill, traffic control, sewer tap and sewer bypass pumping, A/C paving, environmental investigation, utility relocation, paving, fencing and gates, planting and seeding, retaining wall, cured in-place concrete structures, cast-in-place pipe lining, reinforcing steel, ground stabilization, shotcrete, concrete finishing, miscellaneous metals, mechanical steel pipe, ventilation HVAC, precast concrete shaft covers, temporary office buildings/ services, Temporary electricians, waterproofing, service utilities, grouting, electrical/I&C, River bank stabilization, drilled shaft, pest control, IT services, waste disposal, cleaning services, and security.

Any business seeking to participate as an EDGE, DBE, MBE, WBE, SBE, or VBE in the Contract that is not currently certified as set forth above review **40 CFR 33.204-33.205, certified by EPA Teree Henderson at 202-566-2222 or Ohio Unified Certification Program DOT.SDBE@dot.ohio.gov 614-466-2878 or NEORS/OCC at neorsd.org** to obtain current certification.

J.F. Shea Construction, Inc. has an FTP site where you can view all plans, specifications and addendums for your convenience. Please contact Aimee Remo at (909) 594-0990, aimee.remo@jfshea.com, to receive instructions on accessing the FTP Site.

U.S. Conference of Mayors Adopts Mayor Horrigan's Resolution to Boost Skilled Immigration and Welcome Immigrant Entrepreneurs

[Article originally appeared in
www.akronohio.gov]

The United States Conference of Mayors adopted a bipartisan resolution sponsored by Akron Mayor Dan Horrigan with Oklahoma City Mayor David Holt, Cleveland Mayor Justin Bibb, South Bend Mayor James Mueller, Hartford Mayor Luke Bronin, and Mesa Mayor John Giles calling on federal policymakers to create a "Heartland Visa," which would help to reinvigorate communities and boost local economies nationwide by attracting more skilled immigrants and immigrant founders.

"Immigrants have long been a key part of the fabric of Akron's economy, but federal immigration policy is falling short when it comes to communities like ours," said Mayor Horrigan. "Mayors are united in their desire for Congress to do more to help attract talented and entrepreneurial immigrants to welcoming communities across the country like Akron, where they strengthen our local economy and help to generate opportunity for our residents."

Wherever they settle, highly skilled immigrants contribute to the local tax base, start

new businesses, and create jobs for local residents—all of which are crucial to communities in need of economic revitalization. Federal immigration policy, however, currently channels an outsized portion of highly skilled immigrants to America's largest, fastest-growing, and most prosperous cities. A Heartland Visa program would help a wider array of cities attract skilled immigrants to boost economic development, strengthen their workforce, and fuel local innovation and entrepreneurship.

Immigrants contribute billions of dollars to the Ohio economy each year and fill critical jobs in industries such as health care and manufacturing. To learn more about the critical role of skilled immigration for local economic development, you can view the text of the US Conference of Mayors resolution here - https://legacy.usmayors.org/resolutions/91st_Conference/proposed-review-list-full-print-committee-individual.asp?resid=a0F4N00000S4vR2UAJ

PUBLIC POLICY

Top 4 Takeaways: Governor Newsom's Proposals to Build More, Faster Heard in the Legislature

[Article originally appeared in www.gov.ca.gov]

This week, Governor Gavin Newsom's ambitious infrastructure permitting and project review reforms to build California's climate resilient future were heard by both the Assembly and Senate.

The Administration made a clear case: without reforms, California will risk funding for critical infrastructure like safe drinking water and clean energy.

Here's U.S. Secretary of Energy Jennifer Granholm in California yesterday discussing the need for permitting reform:

"A lot of environmental activists have used these [environmental] laws, of course, to protect the environment, and used it for the purposes of delay. But now we know what has to happen... We spent \$165 billion as a nation last year just cleaning up after these extreme weather events, it is on our doorstep, so we can no longer delay. The very environmental species that we are seeking to protect with these laws are going to be damaged by climate change if we do not act with alacrity. So, bottom line is: I think every state — including California — and the federal government, have to get our act together to realize that you will protect the environment if you act on climate."

Here are the top 4 takeaways from the four legislative hearings:

1. THE GOVERNOR'S PROPOSALS ARE URGENT.

"The proposals that the Governor brings forward, we don't bring forward lightly into the budget

process but because we have to take action now," said California Natural Resources Secretary Wade Crowfoot. "It is reasonable for us to expect that the more punishing drought is just around the corner or the more damaging flood or the more destructive wildfire. From our perspective, this isn't the case of reforming our systems over years or months, the urgency we bring to this is weeks."

"Whether it's housing, whether it's transportation, whether it's public works, whether it's critical water infrastructure, whether it's renewable energy — almost all of that is going to run through our department for some permitting purpose," said California Department of Fish and Wildlife Director Chuck Bonham. "Every day we delay permitting renewable energy projects is compounding our ability to achieve our goals."

"We're in strong support because water and other infrastructure upgrades are urgently needed," said California Chamber of Commerce Policy Advocate Brenda Bass. "Projects like canal repairs, water treatment facilities, water storage options, groundwater recharge projects will all benefit from streamlining. Projects need to move in a timely manner to save taxpayer dollars."

2. \$180 BILLION IS ON THE LINE.

"Over the next decade the state will have the opportunity to invest \$180 billion over the next 10-years and create as many as 400,000 jobs across the state — a level of construction and investment not seen since the Governor Pat Brown era," said Senior Counselor to the Governor on Infrastructure and Clean Energy Finance Gayle Miller. "These bills will in fact make a difference as to the timing

and delivery of projects—we have seen the broad-band planning and delivery decrease from 33 to 11 months by implementing many of the proposals you will see here today."

"The Governor's infrastructure package represents another ambitious effort and aims to maximize taxpayer dollars and deliver results while creating hundreds of thousands of good jobs and working towards achieving California's world-leading climate goals. This package would expedite a number of transportation projects, from routine highway maintenance and safety projects to innovative and complex transportation improvements that take years," said California State Transportation Agency Secretary Toks Omishakin. "Contracting out more quickly accelerates projects, shows the state's readiness and makes them more competitive for federal grant funding through notices of funding opportunity."

3. CREATES GOOD PAYING JOBS.

"We represent 70,000 hardworking men and women in California and when we build these construction projects in California, we pull people of color, women, and second chancers into the middle class," said California State Council of Laborers Executive Director Joe Cruz. "We need to accommodate all new growth, we need to accommodate big projects that keep our state competitive, but more importantly we got to change people's lives and we want the opportunity to talk about what those projects mean to everyday people."

"Infrastructure is actually the fabric that holds us together. Right now, California's infrastructure is broken, which includes roads, highways, water,

bridges, energy — and of course, the human element of our workforce, which is not to be understated in the infrastructure discussion," said California Manufacturers and Technology President and CEO Lance Hastings. "We really are at that tipping point and if federal dollars are going to be the thing that brings us all together, we can't underestimate that."

4. STATE MUST BUILD MORE, FASTER TO REACH CLIMATE GOALS.

"Housing is a crisis and that's where we are with climate — and you have to stop letting perfect be the enemy of good," said Scott Wetch, on behalf of the State Association of Electrical Workers (IBEW), the California State Pipe Trades Council, the Western State Council of Sheetmetal Workers, California Coalition of Utility Employees and the Elevator Constructors Union. "This is an opportunity that you cannot fumble so we would absolutely urge your aye vote."

"We believe this is just the first step and more reforms are needed on the front and back end of CEQA including local land use constraints to get us to 86 gigawatts of clean energy online by 2045 to meet our climate and energy goals," said Cara Martinson, on behalf of Large Scale Solar Association. "We share the sense of urgency and believe projects that reduce GHG emissions should be expedited."

PUBLIC LEGAL NOTICE ADVERTISEMENTS

UNIVERSITY OF CALIFORNIA, IRVINE MEDICAL CENTER

ADVERTISEMENT FOR DESIGN BUILDER PREQUALIFICATION

Subject to conditions prescribed by the University of California, Irvine Medical Center ("UCIMC"), responses to the University's prequalification documents for a Design Build contract are sought from proposers for the following project:

B63 Energy Efficiency Retrofit-REBID, Project No. 997605

PREQUALIFICATION OF PROSPECTIVE PROPOSERS: The University's primary objective in utilizing the design build approach is to bring the best available integrated design and construction experience to this project. The University has determined that proposers who submit proposals on this project must be prequalified. Prequalified proposers will be required to have the following California contractor's license:

C-10 - Electrical Contractor & C-20 - Warm-Air Heating, Ventilating and Air Conditioning Contractor

DESCRIPTION OF WORK: UCIMC is soliciting proposals from qualified Design Build (DB) teams for the execution of the Building 63 Energy Efficiency Retrofit project. This project will be delivered as an energy brief design-build (EBDB) project. The DB team should anticipate participating in the full project timeline, with responsibilities to include compiling a complete project design package that meets the performance parameters outlined for each energy efficiency measure. The energy efficiency measures include chiller replacement, installation of a dedicated HVAC system, interior/exterior lighting improvements, retro-commissioning, new variable speed motors, and controls upgrade.

PROCEDURES: The prequalification process will result in the selection of finalists who will be prequalified and will be issued proposal documents for this Project. The prequalified proposers will submit price and technical proposals. The technical proposals will be scored according to an established scoring system. The price will be divided by the score to determine a price per technical point. The prequalified proposer submitting the lowest price per technical point will be the apparent low proposer for the Project.

After receipt of the prequalification documents, the University will review and determine a preliminary point score for each submittal. Requests for clarifying information and additional data will be made at this time, if required. After receipt and review of the clarifications and additional data each prequalification submittal will receive a final point score.

Scoring of proposers will be determined by the application of an established rating system, requirements of which are contained in the Prequalification Questionnaire.

A proposer who receives 70 or more points out of a possible 100 points based on the established rating system will be invited to participate in the Request for Proposal step

Proposers will be notified whether or not they have been prequalified after the University evaluates the prequalification submittals.

PREQUALIFICATION SCHEDULE

QUESTIONNAIRE AVAILABLE:

On Wednesday, June 14, 2023 @ 2:00pm, prequalification questionnaires will be available upon request. Contact Kim Kerwin @ khau@uci.edu.

QUESTIONNAIRE DUE: On July 7, 2023 @ 2:00pm, completed prequalification documents will be received at: UCIMC, Planning Administration, Building 27, Room 136, 101 The City Drive South, Orange, CA 92868. No prequalification documents

will be accepted after 2:00pm on 7/7/2023. However, the University reserves the right to request, receive, and evaluate supplemental information after the above time and date at its sole determination.

PROPOSAL SCHEDULE

Following is the anticipated proposal schedule:

1. Proposal Documents available to the prequalified proposers — 6/14/2023
2. Proposals received — 07/07/2023.
3. Proposals evaluated and the apparent low proposal determined — End of July.

The exact dates, times, and location will be set forth in an "Announcement To Prequalified Proposers."

The University reserves the right to reject any or all responses to Prequalification Questionnaires and any or all proposals and to waive non-material irregularities in any response or proposal received.

Proposal Security in the amount of 10% of the lump sum price proposal, excluding alternates, shall accompany each proposal. The surety issuing the Bid Bond shall be, on the proposal deadline, listed in the latest published State of California, Department of Insurance, list of "Insurers Admitted to Transact Surety Insurance in this State."

All insurance policies required to be obtained by Proposer shall be subject to approval by University for form and substance. All such policies shall be issued by a company rated by Best as A- or better with a financial classification of VIII or better, or have equivalent ratings by Standard and Poor's or Moody's. The Certificate of Insurance shall be issued on the University's form.

Prospective proposers desiring to be prequalified are informed that they will be subject to and must fully comply with all of the proposal conditions including 100% payment and 100% performance bonds.

All information submitted for prequalification evaluation will be considered official information acquired in confidence, and the University will maintain its confidentiality to the extent permitted by law.

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each Proposer may be required to show evidence of its equal employment opportunity policy. The successful Proposer and its subcontractors will be required to follow the nondiscrimination requirements set forth in the Proposal Documents and to pay prevailing wage at the location of the work.

The work described in the contract is a public work subject to section 1771 of the California Labor Code.

No contractor or subcontractor, regardless of tier, may be listed on a Proposal for, or engage in the performance of, any portion of this project, unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 and 1771.1.

This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

The successful Prequalified Proposer shall pay all persons providing construction services and/or any labor on site, including any University location, no less than the UC Fair Wage (defined \$15 per hour as of 10/1/17) and shall comply with all applicable federal, state and local working condition requirements.

SUCCESS STORIES

Natural Behavioral Solutions

[Article originally appeared in <https://calosba.ca.gov>]

Location: Northern California – Hercules

Small Business Featured: Natural Behavioral Solutions

Assistance Received: Dream Fund Grant, Training

Natural Behavioral Solutions is an Applied Behavioral Analytical (ABA) company which uses naturalistic approaches to learning in order to teach children and adults ages 1 through 22 years-old with disabilities or behavioral concerns achieve independence in their home, school, and community.

This quote by Brooke Hampton on the Natural Behavioral Solutions website captures the spirit of their approach:

“Speak to your children as if they are the wisest, kindest, most beautiful and magical humans on the Earth, for what they believe is what they will become.”

Amanda Messina-Godfrey, Founder, Executive Director, and Board-Certified Behavior Analyst (BCBA) therapist received small business guidance from the Renaissance Entrepreneurship Center to help her business grow.

In Contra Costa County, Amanda found that there is both a large market for behavioral services and a shortage of ABA providers. She felt

there was an opportunity to bring her unique approach to Hercules and Contra Costa County. Built on the philosophy that every child is unique and is owed a support system that helps them grow and thrive, Natural Behavioral Solutions provides behavioral assessments, 1-on-1 in-home behavioral intervention, tele-health behavioral intervention, parent and caregiver education, and social skills groups.

“Renaissance helped me reignite my passion for getting my business moving forward. What was most beneficial was the Start Smart training and the 1:1 consulting to revamp my financials. When I consulted with Tatiana (Renaissance’s Program Manager), she recommended the Dream Fund to help me acquire the funding needed to get my business to the next step. I am excited to continue getting the training I need from Renaissance,” said Amanda.

Amanda has been a BCBA therapist since 2018 and has been in the field since 2015. She started her business in 2020 but was unable to take on clients due to a lack of funds (most of her services require a 3-month reimbursement period from the insurance companies) and had been operating at a loss. Amanda enrolled in Renaissance East Bay’s Start Smart training and was able to develop a strong Business Model Canvas that defined her mission statement, target market, need for capital, and growth plans.

Amanda explained that she enjoyed taking the Start Smart course but gained the most from the 1-on-1 time with her consultant. Since Amanda came to Renaissance having already opened her business but having no sales and operating at a deficit for two years, the Start Smart class and the personalized consultations provided the knowledge, skills, and new ideas she needed to pivot her plans and determine how to move forward profitably. In addition, after consulting with Renaissance’s Program Manager, Amanda applied to the Dream Fund and was thrilled to receive a \$5,000 award.

With the knowledge she gained from the Smart Start program, she plans to launch her clinic in Hercules, CA in the next few months including hiring two full-time and one part-time behavioral technicians to assist with therapeutic services as prescribed by the clinical team. The clinic will be open for in-person, in-home, and online virtual sessions to assist those needing therapeutic services. Amanda’s company has been operating at a loss for the past two years, but with the training, 1-on-1 consultations, five-year plan, and the Dream Fund, she is excited to soon be providing Contra Costa County residents with the help they need.

Buzzbox

[Article originally appeared in <https://calosba.ca.gov>]

Location: Southern California - Indio

Small Business Featured: Buzzbox

Assistance Received: Access to Capital; Training

Rod Vandenbos had an idea for a cocktail line, so he took his idea to the Orange County/Inland Empire SBDC Network for assistance to get the idea off the ground. From this idea, buzzbox was born!

Rod focused on sustainable business practices for his packaged, pre-mixed cocktail line from the onset. Rather than using cans, the company opted to use cartons, which use as much as 69% less packaging material than cans do and cut carbon dioxide from shipping by as much as 60%. Learn more about the buzzbox sustainability commitment and the environmental impact of this recyclable packaging choice here.

For your next holiday event look for buzzbox cocktails at your local retailer, or order on the buzzbox website here: www.buzzbox.com

Homewatch CareGivers of Oakland

[Article originally appeared in www.score.org]

Location: Oakland, California

Formed in: 2016

Website: www.CareOakland.com

My successes.

The Blooms were able to obtain funding for their franchise in Oakland from the Small Business Administration (SBA) loan program. They also worked with the Oakland Business Development System and Main Street Launch. Their business continues to generate jobs for caregivers and eldercare experts.

How SCORE helped.

An MBA prepared Benjamin to run a business, but his SCORE mentor, Jim Carlson, helped him secure a loan. SCORE also encouraged the Blooms to network and to further develop their marketing plans. “I used to feel like I had something to prove and that asking for help meant I had failed,” says Benjamin. “But, a mentor wants you to succeed. They’re in your corner, and if you succeed, they succeed.”

How Did Your Business Get Started?

Homewatch CareGivers of Oakland provides comprehensive health and eldercare services to California’s Bay Area. Owners Benjamin and Leah Bloom manage personalized care programs for patients including physical therapy, prescription management, and nursing. In addition to quality healthcare, employees will work with clients in their own homes in order to increase their quality of life and independence. Homewatch CareGivers has proven to be a touchstone within the community with a caring, experienced staff.

Art de Luz

[Article originally appeared in <https://calosba.ca.gov>]

Location: Southern California – San Diego

Small Business Featured: Art de Luz

Luz Maria Clayton reached out to the International Rescue Committee Small Business Development Center (SBDC) for guidance and technical assistance to develop her business. Together, with the SBDC’s expertise and Luz’s drive to build this business from the ground up, she now has a thriving shop and is available for commissioned artwork.

“Without the SBDC, we would not be open today,” said Luz.

Luz is available to create designs for other small business owners for their shops, including t-shirts and other gift ideas.

Luz’s mom, Linda, can often be seen in the shop and does crochet work. There might even be a live crochet lesson, depending on the day.

Making the Case for Digital Transformation in Construction

Continued from page 1

People: The people component of digital transformation focuses on the skills, knowledge, and culture required to adopt new technology and processes. Digital transformation requires a shift in mindset, and people are at the center of this change. Companies must invest in training and development programs to upskill employees and ensure they have the necessary skills to adopt and use new technology effectively.

Process: The process component of digital transformation focuses on optimizing workflows and business processes to increase efficiency, reduce errors, and improve outcomes. Companies must review their existing processes to identify inefficiencies and areas where technology can improve productivity. Adopting digital technology requires redesigning current processes to take full advantage of the technology's capabilities.

Technology: The technology component of digital transformation focuses on the tools and platforms required to achieve the desired outcomes. Companies must identify the right technology solutions that align with their business objectives and provide the most significant value. Once the technology is selected, companies must ensure they have the necessary infrastructure and support to implement and maintain the technology effectively.

Overall, people, process, and technology are interdependent and must work together to achieve a successful digital transformation. Digital transformation is not just about adopting new technology; it's about creating a culture of innovation and continuous improvement that leverages technology to drive business outcomes. A successful digital transformation requires a holistic approach that considers all three elements. Companies that embrace these three pillars will be well-positioned to succeed in the rapidly evolving digital landscape.

Steps for a successful digital transformation

Define the objectives and goals of the digital transformation

- The first step in any digital transformation is to define the objectives and goals. Why are you looking to change? This process involves identifying the business areas that need improvement and the technologies that can help to achieve those improvements. Some common goals for digital transformation in construction include improving efficiency, reducing costs, improving safety, and enhancing collaboration.

Identify the technology solutions that are appropriate for your business

- Once the goals and objectives are defined, the next step is to identify the appropriate technology solutions for your business. Many technology solutions are available in the market, and selecting the solution(s) that align with your goals and objectives is essential. Some examples of standard digital technologies used in construction include Building Information Modeling (BIM), 3D printing, drones, augmented and virtual reality (AR/VR), artificial intelligence (AI), and Internet of Things (IoT) devices.
