Construction Innovators Share Their Experience Building Infrastructure During COVID

[Article was originally posted on Autodesk Construction Cloud Blog. <https://construction.autodesk.com/>]

By Grace Ellis,

The last six months have been truly transformative for the construction industry. Infrastructure projects have experienced an array of challenges due to the pandemic, including new safety guidelines and the impact of the economic slowdown.

Still, as essential infrastructure projects carry on, construction firms are innovating at new rates to keep projects moving forward. We recently spoke to some of the incredible people behind some of our nation's transportation projects to learn more about their experience building through a crisis. We've collected their thoughts below:

Jamie Waller, Assistant Director, Tennessee Department of Transportation (TDOT)

TDOT is a multimodal agency with statewide responsibilities in roadways, aviation, public transit, waterways, and railroads. The mission

Celebrating a Year of Firsts: Build California Initiative Marks Big Wins in First Year

[Article was originally posted on www.prnewswire.com]

The Associated General Contractors of California (AGC) and the AGC Construction Education Foundation are proud to announce the one-year anniversary of the Build California Initiative.

Build California was launched in response to industry concerns around a sustained pipeline of qualified craft workers in future generations. It is a comprehensive workforce development initiative created to inspire, engage, and activate the next generation of California's construction workforce. Since its launch, Build California has been successful in informing and inspiring a new generation of construction professionals using a robust mix of outreach and programmatic efforts to engage and activate California's 12 to 24-year olds in ways the industry has never seen. To date, Build California has reached more than 4.4 million people with the rallying call — you, too, can Build A Legacy™ in today's construction industry.

During the last 12 months, these efforts have made strides in preparing future construction professionals for their careers and, ultimately, transforming perceptions about the industry as a whole. Here are a few of the biggest wins in the past year:

- **Coalition Building:** With a diverse network of organizations — from AGC members, public agencies, private owners, associations, unions, apprenticeship programs, non-profits, and more — the coalition provides the voice to support our industry. All of the organizations in the coalition are united by the need for this initiative and are working together to get it done. With a vast network of more

Image by joffi from Pixabay

than 30 organizations, Build California is able to amplify and build influence within all corners of the industry. The initiative has introduced coalition members to eager, young audiences with more than 50 social media features, garnering thousands of impressions through livestream social media events.

- **School Partnerships:** Through this partnership with school districts across the state, Build California is connecting directly with eager students that can be apprenticeship ready as soon as they are able to enter the workforce. This brings awareness to action by providing resources at school activation events that include live demos, virtual competitions, and more, and 24 events have been hosted so far. The initiative is a resource for educators and parents alike as they navigate distanced learning. Build California will continue to build relationships with schools across California and has already reached more than 3,700 students to date.
- **Ambassador Program:** Build California recently launched its ambassador program. To date, the initiative has trained more than

45 construction professionals in virtual presentation techniques and the Build California brand. This diverse volunteer team of ambassadors will work in tandem with the AGC outreach staff to spread the word about the benefits and opportunities available in the industry. They will serve as the face of the industry by providing mentorship and lived experience to tell the story of construction. This type of endeavor is only as powerful as the industry partners that participate, and Build California is empowering industry professionals to share their passion with new audiences for years to come.

- **#IYouWe Series:** The #IYouWe Instagram Live series is revolutionizing the industry to champion diversity, inclusion, and equity like never before. It's reaching people where they are, using digital platforms to meaningfully engage them about topics that have been pushed aside for too long. Using the momentum of online conversations surrounding topics like "Allyship in Construction" and providing a platform for Black leaders in the industry to speak,

How Time Tracking Can Help Contractors Improve Revenue and Productivity

[Article was originally posted on www.constructconnect.com]

By Shawn Sauve,

The introduction of technology into the construction industry has paved way for automated time tracking solutions. However, these time tracking solutions are no longer restricted to their traditional purpose, i.e., calculating work hours and managing payrolls.

Advanced construction accounting and project management software offer solutions like time sheets, which is capable of working on tasks much more than just logging work hours. Time sheets can help construction contractors track all the necessary data related to job progress reports with insights to labor performance, expense management, payroll reporting, and more.

Though time sheets have proven to be a highly capable performance solution for construction contractors, there are many contractors who either resist or have not upgraded to time tracking solutions. However, upgrading to a professional time tracking solution can help construction contractors with so many benefits:

1. It can help project managers save time on manual time entries or verification of labor work hours

2. Improved scheduling to counter inaccurate job reporting or unauthenticated work hours
3. Calculate expenses and generate data that can add to productivity for similar future projects
4. Time theft can be stopped since timesheets cut the scope of forged logging of work hours
5. Improved revenue and job progress reporting, that prevents overpayment to workers and brings an error to the scheduled estimate of an activity/project.

All in all, using time tracking software such as time sheets makes it much convenient for contractors to build an effective business and service. Besides these, there are many other benefits that can be added to the business by switching to a construction accounting and project management software that offers time sheets support.

Driving Business Productivity

When it comes to construction, job labor costs comprise one of the biggest parts of the overall expenses made on the completion of the project. Using time sheets makes it easier to monitor and analyze the profits and allows you to work on budgeting goals.

Moreover, the information available on time sheets can be used to take account of labor productiv-

ity and ensure the timely delivery of the project. In case, there are any discrepancies such as fake entries or routine overworked hours, time sheets could help understand the need for change into the existing work plan to avoid unwanted additions to the project budget and resist loss of revenue.

Transparency with Added Value

The next good reason for which a business must move to a construction accounting software that offers time sheets is the improving scope of opportunities. Time tracking helps contractors to get real-time information of the project and gives them an idea of the routine progress made at the site.

Also, the justification made on the time through time tracking solution as well as progress reporting increases the chances to have a successful bidding strategy for prospective clients. Therefore, it not only helps to improve your relationship with existing clients but also adds value to your business. Moreover, having a record of the project progress and time spent on the development can help avoid any disputes related to billings or delays made through frequent change orders.

Get Rid of Double Entry

Using an integrated software solution to meet your project management related requirements can help keep all the office and site data in sync. This im-

proves the control on all the essential tasks related to accounting, payroll, work orders, resource management, etc. easier. Also, it gives a benefit on time as it doesn't need project managers and supervisors to keep track of numbers using paper-based reports.

The handwritten records possess the risk of time theft, inaccurate reporting, and even inefficient budget reporting. Moreover, it does not need much time to pin the work hours on spreadsheets from the written reports to manage the payroll process. So eventually, using time sheets is always a business productive idea that makes it easier to process payroll, generate quick progress billings, and receive timely payments.

Reducing Unwanted Loss of Revenue

The contractors who have a true record of the project hours and that too for multiple projects, it gets easier to develop estimates for the upcoming projects. Moreover, it helps to build a sense of trust as clients get real-time reports on the existing projects with zero error system generated reports.

Also, using solutions like time sheets, with integrated construction project management software helps to improve overall project planning and delivery schedule. From the labor productivity to the chances of an increase in project completion time, time tracking helps to avoid unwanted business losses made through poor resource management.

Conclusion

All in all, using time sheets with existing construction management software helps project managers and contractors to ensure the smooth running of the project. From routine progress to productivity reports, it helps to get over challenges that office staff and site teams may face with timely and budget-driven completion.

Thus, adopting construction management software that allows you to control time is an effective move in the long run when a contractor needs to unlock potential business opportunities while improving business service that overtakes the competition.

Good Luck!

Ready to Grow Your Business?

How to Get a Business Loan

[Article was originally posted on www.nav.com]

By Linsey Knerl,

No matter what stage of growth your small business is in, there's going to come a time when a little extra cash could come in handy. This may be particularly true right now as many businesses crawl out of the COVID-19 crisis. Many businesses, both large and small, use borrowed capital to fuel growth and fund other business initiatives. Whatever the need, a small business loan is one of the most sought-after methods of funding.

Ready to get started?

1. Learn how banks assess you.

Before you apply for a loan, it's important to understand how any lender is going to evaluate your loan application. Lender profits are based

upon whether or not borrowers will make each and every periodic payment. With that in mind, they consider your personal credit score, business credit history, cash flow, time in business, collateral, industry, and loyalty.

Credit Scores

As a small business owner, in addition to your business credit profile, your personal credit score will likely always be a part of any creditworthiness decision. That's because lenders are trying to determine whether you will make your daily, weekly, or monthly payments now, based upon what you've done in the past. Before you apply for small business financing, it's critical that you understand your credit profile.

Fortunately, there are several places to see what the credit bureaus are reporting. All the major credit bureaus offer you the ability to see your credit scores. Personal bureaus like Experian,

TransUnion, and Equifax all make it possible to monitor your score, either for free or for a small fee. The major business credit reporting bureaus, Dun&Bradstreet, Experian, and Equifax offer the same service. With a Nav account, you can monitor both your business and personal credit in one place for FREE.

Your credit profile will matter—and many lenders will look at your personal credit score as a go-no-go metric before they decide to proceed with your loan application. Most traditional lenders, like banks and credit unions want to see personal credit scores in the 700s, though they will sometimes go as low as 680. The threshold for SBA loans can vary by lender, but 640-680 is typical. (Keep in mind financial institutions may require a personal credit check for each owner with 20% or greater ownership.) Many online lenders will work with borrowers that have

personal credit scores of around 600, but there are some that will work with you if you have a lower score. Merchant Cash Advance (or cash advance) providers, as well as other alternative financing options will sometimes work with a borrower who has a score as low as 500.

In other words, the better your personal credit, the more options you may have looking for a small business loan.

Credit History

Although it is reflected by your scores, the length of your credit history is also a consideration for most lenders. In addition to the length of your history, this detailed explanation of your credit usage, provided by the credit bureaus and other suppliers, shows everything from the age of accounts to how much of each credit line you've

PROJECT SCOPE:

We are requesting bids for the following trades and/or material suppliers:

Brosamer & Wall Inc., is requesting quotes from all qualified subcontractors and suppliers including certified DBE firms for all items of work type, including but not limited to:

- AC DIKE
- AGGREGATE BASE AND ASPHALT PAVING
- CEMENT COMPACTING GROUT
- CLEAN & GRUB
- CONCRETE BARRIER
- CONSTRUCTION AREA SIGNS
- DEMOLITION
- DRAINAGE PIPES
- DRILL AND BOND DOWELS
- EARTHWORK/ROADWAY/STRUCTURAL EXCAVATION
- ELECTRICAL
- EROSION CONTROL
- FENCE
- HIGH DENSITY POLYURETHANE INJECTION
- JOB SITE MANAGEMENT
- JOINT SEAL
- LEAD COMPLIANCE PLAN
- METAL BEAM GUARD RAIL
- PERMANENT STRIPING
- PRECAST CONCRETE
- ROADSIDE SIGNS
- ROCK SLOPE PROTECTION
- SCHEDULING
- STREET SWEEPING
- STRIPING & PAVEMENT MARKERS
- STRUCTURE CONCRETE
- SWPPP
- TRAFFIC CONTROL
- TRUCKING

For the complete list of the Actual Project Bid Items go to:
<http://ppmoe.dot.ca.gov/des/oe/weekly-ads/oe-biditems.php?q=04-269804>

Requirements: Brosamer & Wall, Inc. will work with interested subcontractors/suppliers to identify opportunities to break down items into economically feasible packages to facilitate DBE Participation. Brosamer & Wall, Inc. is a union signatory contractor. Subcontractors must possess a current contractor's license, insurance coverage and worker's compensation for the entire length of the contract.

All subcontractors will be required to sign our standard Subcontract Agreement. 100% payment and performance bonds may be required. If you have any questions regarding this project or need assistance in obtaining/waiving insurance, bonding, equipment, materials and/or supplies please call or email David Aboujudom contact information below.

Plans and specifications can be viewed at our office located at 1777 Oakland Blvd Suite 300, Walnut Creek, Ca. 94596 or at no cost from Caltrans website. B&W will also make plans electronically please email daboujudom@brosamerwall.com for free online link. Brosamer & Wall INC., intends to work cooperatively with all qualified firms seeking work on this project. If you are interested in submitting a subcontractor bid for this project, you may contact DAVID ABOUJUDOM at 925-932-7900 or fax us your quote at 925-279-2269. PLEASE SUBMIT A COPY OF YOUR CURRENT DBE CERTIFICATION WITH YOUR BID. Subcontractors, Dealers/Suppliers and Brokers please provide your designation code to us on or before the bid date. B&W, INC., IS AN EQUAL OPPORTUNITY EMPLOYER.

REQUEST FOR QUALIFIED/CERTIFIED DBE SUBCONTRACTOR AND SUPPLIER PARTICIPATION

Construction on State Highway in Alameda County near Fremont, CA
Caltrans Contract 04-160304
DBE Goal 11%

Bid Date: October 29, 2020 at 2:00 PM

Quotes not received by 12 PM on October 29th may not be reviewed/evaluated.

Flatiron West Inc. requests DBE subcontractor and supplier participation for the following items of work, but not limited to: CAS/Roadside Signage, Bridge Demo, Clear & Grub, Erosion Control, Landscaping/Irrigation, AC Paving, CIDH, Jt. Seal Assembly, Post Tensioning, Rebar, Shotcrete, Soil Nail Walls, Painting/Concrete Staining, AC Dike & Curbs, Underground Utilities, Fencing, Metal Railing, Bridge Concrete Barrier, Roadway Concrete Barrier, Striping & Markings, Minor Concrete, Clean/Treat Deck, Trucking & Aggregates (including: Class 2 & Structure Backfill), Ready Mix, Concrete Pumping Services, Welded Steel Pipe, Misc. Metals/Iron & Steel, Underground Precast & Pipe Products, SWPPP Plan & Materials, Lead Plan, Bridge Bearings, Street Sweeping, Traffic Control and QC Testing.

An Equal Opportunity Employer

W.A. Rasic Construction Company

Our firm is preparing a bid for the following project as a prime contractor and we are interested in receiving subcontractor quotations for items of work or materials required below from interested Disadvantaged Business Enterprise (DBE), Minority Business Enterprise (MBE) and Women Business Enterprise (WBE).

City of San Diego

Morena Conveyance North
Bid No. K21-1848-DBB-3

Bid Date: October 6, 2020 @ 2:00 PM

Engineer's Estimate: \$ 99 Million

Outreach: DBE/ MBE/WBE

Senior Estimator: Mark Setzer

Phone: (562) 928-6111 | Email: msetzer@warasic.com

W.A. Rasic is requesting bids for the following trades and/or material supplies:

Electrical, AC Cold Milling / Demolition, Asphalt Cap Paving & Crack Seal, Traffic Signals & Loop Detectors, Slurry Seal (Type 1,2,3), Minor Concrete, Tunneling, Pre-Construction Video, Landscaping, Street Sweeping, Sawcutting, Potholing, Striping, Welding, Install 30" & 48" WSP, Install Plug Valves, Install Air Vacs and Blow-Offs, Furnish Steel Pipe, Furnish Valves & Appurtenances, Furnish Sand & Gravel, Furnish CSLM / PCC & Asphalt, Traffic Control Signs & Equipment, Cathodic Protection, Trucking, SWPPP Development, Scheduling, Survey, Dewatering, Contaminated Soils (Monitoring, Hauling & Disposal), Geotechnical Instrumentation & Monitoring, Traffic Control Plans, Munitions Survey & UXO Identification, Training & Reporting, Equipment Rental, Shoring Equipment

Plans and Specifications are available at no cost to interested firms by either contacting W.A. Rasic Construction, downloading from the City of San Diego's Planet Bids Portal or by utilizing the following FTP link <https://www.dropbox.com/sh/ynef3bj4en-kxqx/AAA0VkmDXIE3fxiB7R4PHC0a?dl=0>

W.A. Rasic will assist in obtaining bonds, lines of credit, insurance, equipment, supplies and materials upon request. W.A. Rasic will consider each DBE, MBE, and WBE quote, including those that are broken down into economically feasible units as well as arrange delivery schedules to facilitate and encourage maximum bidding participation. W.A. Rasic also encourages a consortium of DBE / MBE / WBE firms when a contract portion is too large to handle individually. Subcontractors must have a valid California Contractors License and must be registered with the Department of Industrial Relations (DIR) as required by Section 1725.5 of the Public Contract Code. Subcontractors will be required to execute W.A. Rasic's standard subcontract agreement and general insurance requirements. A copy of our subcontractor agreement and insurance requirements is available in electronic format upon request. W.A. Rasic reserves the right to require each subcontractor to provide payment and performance bonds in the amount of 100% of the subcontractors bid. Bond Premium will be reimbursed up to a cost not to exceed 2.5%. W.A. Rasic is an equal opportunity employer and Union signatory Contractor.

SKANSKA · TRAYLOR · SHEA

Skanska-Traylor-Shea JV

5055 Wilshire Blvd, Suite 700, Los Angeles, CA

requests sub-bid quotes from all interested firms, including certified DBE's for

Tunnel Trainway Feeder on the Westside Subway Extension Section 1 project.

Owner: LACMTA (Metro).

Contract No. C1045 RFP No. 119WS

Bid Date: October 23, 2020 at 2:00pm.

Plans & Specs can be viewed at our office Monday - Friday 7am to 4pm (call for appointment) or downloaded free at: <https://skanskausa.sharefile.com/i/iec42f4681b74c238>

Online Prebid October 14, 2020 at 10am. Meeting is not mandatory, register before October 23, 2020 at: <http://bit.ly/119WSprebid>

Should you have any questions or desire to quote on this project, please contact Connie Brown, DBE Compliance Administrator at 213-694-3522 or connie.i.brown@skanska.com. Assistance in bonding, insurance, lines of credit or obtaining equipment, supplies and materials is available upon request. This advertisement is in response to Metro's DBE program. Skanska-Traylor-Shea JV intends to conduct itself in good faith with DBE firms regarding participation on this project. More info about this project is available at www.skanska-traylor-shea.com.

Skanska-Traylor-Shea JV is an EEO/AA/Vet/Disability Employer.

NBC Construction & Engineering INC.

as a "GENERAL CONTRACTOR" is requesting proposal on "ALL TRADES" from all subcontractors & suppliers, including DVBE, LBE, DBE, SBE, MBE, WBE firms for the following project:

PROJECT TITLE:

GRADE CROSSING IMPROVEMENTS - CALTRAIN
BID NO. 21-J-C-003

BID DATE & TIME: 10/12/2020 @ 2:00PM

PROJECT LOCATION: 5 Various Locations in 1st, 2nd, and 3rd Ave, San Mateo Glenwood Ave, Menlo Park Oak Grove, Menlo Park

Owner: Samtrans- San Mateo County Transit District
NBC Construction & Engineering Inc.

850 South Van Ness Avenue

San Francisco, CA 94110

Phone # 925-324-2727 • Fax # 800-622-9144

All Bidders are hereby notified that this project includes public works as defined by California Labor Code section 1720. The successful Bidder shall be responsible for the payment of prevailing wage rates, the training of apprentices and compliance with other related requirements. All the Certified Payrolls (CPR) must be reported through Elation System and DIR website. The Invitation for Bids (IFB) Documents are available for download on the Portal. In order to download and respond to posted solicitations, Bidders must register by visiting the Portal. Registration for Bonfire is free of charge. Once registered, download the documents by following these instructions: a) Go to the Portal: <https://smctd.bonfirehub.com> b) Under "Action" column of "Open Public Opportunities" page, click on "View Opportunity" next to desired Project. c) Scroll down to "Supporting Documentation" section to download documents. Attention is directed to the Contract Documents for complete details and bid requirements. Said documents, including bid forms, bonds, and this Notice, shall be considered as a part of any Contract made pursuant to this solicitation. Contract Documents are also available for review in hard copy, through registration with reprographics firm, ARC Document Solutions, 829 Cherry Lane, San Carlos, CA 94070, phone: (650) 631-2310; the cost is payable directly to ARC Document Solutions. Or contact us. Bidder is responsible for all shipping and handling fees.

Please Submit & Fax all proposals to 800-622-9144

For more information, Please call Mike Schalchi at (925)-322-7473

Build California Initiative Marks Big Wins in First Year

Continued from page 1

#IYouWe opens the dialogue on issues that will shape the industry for California's next generation. To date, the #IYouWe series has garnered more than 14.5 thousand impressions and continues to be a major driver of engagement among Build California audiences.

"The only missing piece to a successful career in the trades was exposure, but the construction industry has found a champion in Build California," said Josh Raper, Regional Manager, Southwest Regional Council of Carpenters. "Their team has created an information pipeline to a much-needed future workforce through tech and outreach. This group has improved the industry and changed people's lives through good paying jobs and for that we thank you."

About Build California

Build California is a comprehensive workforce development initiative created to inspire, engage, and activate the next generation of California's construction workforce. By shaping positive perceptions of the construction industry, informing young people and their influencers about the real career opportunities in construction, and connecting them to local training programs, Build California is helping create a steady and skilled workforce pipeline. Visit www.buildcalifornia.com for more information

Construction Innovators Share Their Experience Building Infrastructure During COVID

Continued from page 1

of TDOT is to provide a safe and reliable transportation system for people, goods, and services that supports economic prosperity in Tennessee. Like many other DOTs, TDOT leverages an innovative technology suite to deliver projects safer, faster, and more collaboratively. In her role, Jamie oversees some of the most cutting-edge e-construction projects and initiatives the agency is working on.

“My experience with the Tennessee Department of Transportation (TDOT) in the last five months during this pandemic has been positive. When walking into our buildings, we have our temperature checked, mask on, and run through a questionnaire. I think most people are used to this process now and account for that as far as time goes.”

This pandemic has also given TDOT the little boost needed to make many of our processes more digital. We have changed the way we are taking tickets from material suppliers on site. We have imposed contactless ticketing protocols or e-ticketing options for the contractors. Some of our processing for administering a project such as prequalifying a contractor is becoming an electronic process, too.”

Priscilla Benavides, Central Region Design Manager, NMDOT

NMDOT is a state government organization that oversees transportation in the entire state. The agency has four main focuses—transit, rail, aviation, and highways. NMDOT remains on the leading edge of innovation and embraces new technology and software to better serve its communities. In her role, Priscilla is responsible for ensuring projects are delivered safely and efficiently.

“BIM has greatly assisted with working from home during COVID. Our e-construction project [I-40 Reconstruction] was the only project that didn’t have any unnecessary delays because it is web-based. Everyone had access to the project as long as they had internet access. Eventually, all other projects within my region caught up with the use of Microsoft Teams and the ability to share screens.

As for the new safety protocols, the masks can be a minor annoyance, of course, but we all understand they are necessary. We still have some work to do from a training and development side, especially for entry level CADD

users. I am a firm believer that a hybrid schedule of working from home and at the office – so we could conduct more in-depth meetings and in-person trainings – would be the best for my entire crew in the future.”

Spencer Mullaney, Project Engineer, Shimmick Construction

In his role at Shimmick, Spencer is a lead Project Engineer on the BART Transbay Tube Earthquake Retrofit, managing the mechanical scope team. While the Transbay Tube is structurally sound, the project’s goal is to future proof the important infrastructure system for a potentially rare and devastating earthquake.

“During our shelter-in-place and because my scope of work has not started fieldwork yet, I have only been to the site and the office a handful of times in the last six months. That said, I think initially there was a slowdown as we were one of the first projects [BART Transbay Tube Earthquake Retrofit] in the Bay Area to voluntarily shutdown (a decision I commend our PMs for) when there was a lot of uncertainty about what safety measures should be in place to keep everyone safe. As we’ve established protocols and a program for addressing the COVID-19 pandemic, our work pace has largely returned to normal (it helps that a large part of our work already suggested use of N95 or greater respiratory controls).

Due to some major re-scoping of the project, my work has absolutely sped up, which is partially a function of the push to get back on track from the COVID delay and also just a function of the schedule re-sequence. I think our safety protocols have been largely successful while being felt as minimally invasive. Everyone on our team appears to be on-board and very respectful of the situation’s seriousness at hand. In a scenario like this, it’s crucial as even a minimal lack of buy-in could create big problems. We even had our safety team roll out the use of QR code scanning for contact tracing logs so that we could go to a touchless system. I didn’t even have to suggest that as the resident tech evangelist, they came up with that all on their own.”

Sherrie Kapssof, Project Document Control Manager, Walsh

Sherrie is a part of the OC Streetcar project, a light rail line currently under construction in Orange County, California, running through the cities of Santa Ana and Garden Grove. As a technology-driven initiative, Sherrie has led the charge to centralize a documentation system for the entire project.

“Work-wise, everything has pretty much stayed the same [working on OC Streetcar project]. Being in Document Control, no matter what happens, there is always work, so nothing has changed in that aspect. The workloads have not lessened or grown any differently than a regular day. Being in the office is a completely new world, though. It was difficult to get used to at the beginning of the pandemic, but now it has become second nature. Unlike many non-essential jobs, we are beyond thankful we still have the opportunity to work and support ourselves and our families at home, so if that means we need to wear a mask and practice social distancing, we would gladly choose that.”

Britton Lawson, Director of Construction Technologies, Veit & Company

As one of the Midwest’s leading specialty contracting and waste management companies, Veit & Company, Inc. works on many transportation and infrastructure projects in the region. In his role, Britton supports field teams in their pursuit to collaborate by helping to deploy and advocate for technology solutions.

“Just like anything, there’s good and bad. I’m not in my work office as much as I used to be, especially with a newborn and trying to stay away a little bit. I haven’t traveled as much to our regional offices, which has also been a struggle for me.

I think part of the challenge, too, is our training. We had dedicated a lot to training to bring in our field teams and supervision teams quarterly so that we could sit down for a couple of hours every quarter to work out some of the pressure points and ongoing process improvements. I think that’s the biggest thing that we missed. Training helps drive our standards and to help address things in the moment versus in the wintertime when we’re looking back at what happened.

It has also posed questions for some of our processes, too. Like trucking, we haven’t been able to sign trucks out. We’re thinking, how can we change this process and make it a technology process where we don’t have to interact with a person that we don’t know?

I think one of the successes is that things like preconstruction meetings have become virtual. Before, our crews had to leave the jobsite for them. This makes it easier for them to continue if they don’t have half an hour or a 45-minute commute between the jobsite and the office. So we’ve got a better use of our labor, our workforce, and our leadership. And it helps everybody else be more present.”

Balaji Sreenivasan, CEO & Founder, Aurigo

Balaji is the CEO and founder of Aurigo, an American software company whose mission is to help public sector agencies and facility owners plan, deliver, and maintain their capital projects and assets safely and efficiently. Their flagship software, Aurigo Masterworks Cloud, is behind the scenes of some of the largest and most-visible infrastructure and transportation projects in North America – used to plan and deliver over \$300 billion of capital projects.

“Most notably, the pandemic has accelerated the need for technology deployment for infrastructure owners and contractors alike. We are excited to be at the forefront of this wave. The major shift we have experienced is that Aurigo Masterworks usage has increased substantially, with customers forced to work remotely. Collaboration through Masterworks has become absolutely critical for our customer’s success, regardless of their location at home, in the field, or office. Our tool is delivered in the cloud. It has been a natural and seamless change in how our products have been able to step up to the ‘new normal.’”

How to Get a Business Loan

Continued from page 3

used. Think of your score as a snapshot of this longer, more comprehensive explanation of how you've handled your credit, both business and personal.

Cash flow

Lenders want to confirm that you have the ability to make periodic payments. Your cash flow is a good indication of whether or not your business has the financial ability to make payments on a small business loan. Lenders will look at past sales, expenses, and future reporting, too. Don't be surprised if they want to see things like unpaid invoices or an explainer of what your money situation will look like two years from now.

Many business lenders now will also want to review at least three months worth of your bank statements before they will approve a term loan, a line of credit, or even a business credit card.

Time in Business

Startups may find it a bit tricky to get business financing from many major lenders. These lenders want to see a track record of successfully servicing debt as well as running a business. Traditional lenders will want to see a few years under your belt, but many online lenders only need to see a year in business. Idea-stage startups have the most difficult time qualifying for term loans or lines of credit, with these lenders, but a business credit card could be a good option.

Don't ignore trade credit from your suppliers either, that is one of the most underused types of business credit available to businesses.

Collateral

Traditional lenders, including banks, credit unions, as well as those that make SBA loans, will likely require collateral for most small business loans. (Note, though, most SBA loans can't be declined solely because the applicant doesn't have collateral.) Whether you agree to allow your business assets to be liquidated in case of non-payment, or you put up your personal property to cover a loan, you'll get further in the application process if you can guarantee your loan with real, tangible items. In the truest sense, an unsecured loan doesn't really exist anymore, but many online lenders will secure your loan with a general UCC lien and a personal guarantee.

Because the loan isn't secured with any specific asset or collateral, but rather a general lien, these loans are often referred to as unsecured loans. In reality though, truly unsecured loans are very rare and only offered to a lender's most credit-worthy customers.

Industry

Some industries are more difficult to finance than others. Industry is usually identified by the SIC or NAICS code. While most lenders will offer a loan to any legal, qualified company, some small business lenders have preferences that influence their financing decisions. If your business is in a niche such as gambling, adult entertainment, or unproven tech, your options will be more limited than someone in a more widely-accepted field.

Many lenders publish a list of their restricted industries you can review online before you apply.

Loyalty

If you already bank with a major lender, you could be more likely to have a loan application

approved. We saw this to be true during the first round of the Paycheck Protection Program as many banks approved the PPP coronavirus loan to their current customers before they considered a small business they were unfamiliar with. Consider where you already have existing, well-built relationships when you start choosing lenders. Credit unions, in particular, have favorable terms for their members.

2. Decide what type of loan or financing you need.

Although you don't necessarily need to be a small business financing expert, with so many options available, it's important to become an expert at choosing the type of financing that will best meet your business needs and will accommodate your business' credit situation. The options include:

Small Business Administration (SBA) Loan

SBA loans are available in amounts from \$50,000 – \$5 million, you'll get lower rates and favorable repayment terms. The loan process can take weeks or months, depending on the type of SBA loan you are trying to obtain. Only SBA Disaster Loans are made by the SBA. All others are made by participating lenders.

Traditional Bank Loan

Get a term loan or business line of credit from a bank you already do business with (or a new one) and pay some of the lowest rates of all the options—if you meet the often rigid criteria. Loan amounts vary, and repayment terms range from one to twenty years. Get an answer in less than four months with approved personal or business credit.

Microloan

These lenders don't consider your credit to be as crucial as others, but your credit profile still matters. These lenders are also more inclined to work with younger businesses with loan amounts much smaller (up to \$50,000), hence the "micro" name. Get an answer within three months for these loans with rates that are comparable to the better credit cards.

Non-Bank Online Loan

Because of the quick response to a loan application and the speed with which they can make funds available, online lenders are the first choice for many small businesses today. If you're willing to pay up a higher APR and pay your debt in less than five years, you could possibly get a loan for between \$25,000 – \$500,000. Credit may still count, but revenues are often more important. Many lenders can approve your loan the same day and have funds available in your account within a day or two.

Business/Merchant Cash Advance

Post PPP, a business cash advance will likely be one of the only available financing options for many businesses for the next several months. Available amounts are based upon revenues and can range from \$5000 – \$250,000 or more. Even those with less-than-perfect credit can get approval, provided they have the transactions to justify the advance, and the turnaround time is often within 24 hours.

Cash Flow Loan

As the name implies, cash flow loans are very focused on your cash flow. Although your credit profile will be part of the equation, these lenders want to confirm you have the cash flow you'll

need to service debt. Get approval within minutes from some lenders for amounts of up to \$100,000. Be prepared to pay a minimum of 25% APR and up to 90% APR or more.

Business Credit Cards

Business credit cards are one of the best ways for a younger business to access borrower capital (and are a great tool for mature businesses as well). Pay industry-standard rates of up to 25% for business credit cards that offer between \$1000 – \$25,000. These make good short-term funding solutions, and although your credit profile is a major approval factor, it is often easier to qualify for a business credit card than a term loan or line of credit. Find out if you're qualified within three weeks of applying.

Vendor Financing

One of the most under-rated and often-overlooked options, you can get between \$1,000 and \$100,000 from a vendor you already work with. (Find new vendor accounts at Nav.com/vendors.) Some charge no interest, but the repayment time is short (as soon as ten days.) Those with a good business credit history might get an approval within hours.

It might not be a small business loan, but 30- to 6-day terms are a great way to build or strengthen your business credit profile.

Lines of Credit

One final option for an existing business is the line of credit, which can generally be borrowed against again and again. This is traditionally a popular source of borrowed capital for many business owners, but depending on the lender can be more difficult to qualify for. Credit profile and revenues are often major factors for these loans, which range from \$1,000 – \$100,000 for qualified borrowers.

3. Decide on a Lender

Now that you know what qualifications you'll need to bring to the table—and what loan product is best for your needs—you can start with the next step of picking a lender. Not all lenders provide all of the services mentioned, so you'll want to narrow your search to those that offer the type of financing you are looking for and will be likely to approve your loan application based upon your creditworthiness.

Lenders usually fall into one of the following categories:

Direct Lenders

These are your banks, credit unions, online lenders and investors. You won't go through a third-party intermediary to make your loan application, receive funds, or make your periodic payments.

Lending marketplaces

This option helps you find lenders based on your qualifications. You can enter your information one time and get matched to the best choice for your credit situation and financing needs. These marketplaces exist online and applications are relatively quick compared to more traditional lending scenarios.

P2P

Short for "peer-to-peer," the P2P lending space has been growing in recent years and may be a good option for someone who has been turned down by a traditional lender. Crowdfunding is

an example of P2P lending. Since you have a chance to share your story, explain your case, and get funding from a lender who is genuinely interested in your business, you might be able to find funding even with less-than-perfect credit. Many P2P lenders are also business owners.

Ask the following questions to better determine which lender is right for you?

- Do I have good credit?
- Can I pay the money back right away?
- Do I need access to a continuous line of credit?
- Will I need my funds in cash? Or will credit or charge accounts work?
- Which banks do I have an existing relationship with?
- How much money do I need?
- Am I willing to put up personal or business assets for collateral?

Remember that some lender characteristics are things you can work around, while others will be considered closed doors. A bank only giving loans to those with an 700+ FICO is an actual barrier to getting financing. A bank offering a higher rate of interest than what you ideally want isn't a closed door, but it may not be favorable. Make a list of those things that you can compromise on if you have to, and understand that some factors are non-negotiable.

4. Determine your chances of getting approved.

While some lenders will prequalify you based on basic information, the actual loan application process will likely require a hard inquiry on your credit report. Filter your initial loan applications to those lenders where you are most likely to find success.

If you have personal credit scores of less than 680-700, you probably won't have success at a bank. An online bank with a higher-interest rate, may be more likely to say yes, and could be a good decision based upon what you are borrowing for. Try to understand your odds before you take the time and effort to apply.

Some lenders can tell you your chances within a few brief questions. You'll get a "yes" or "no" within minutes, and then will have to provide additional information to find out how much you'll get and what you'll pay in interest and fees.

Other lenders won't give you any indication of your approval until your months into the process and sign those final papers.

5. Gather your documentation.

In the case of a more formal business loan, including those offered through the SBA, you'll need quite the stack of documentation to get through your approval. Here are just a few of the most common things they'll ask for, but this is not an exhaustive list:

- Business and personal credit scores (note the bank will pull their own copies of these)
- Business bank account statements
- Tax returns and supporting IRS documents for both your business and personal tax accounts

Public Legal Notices

NOTICE OF PETITION TO ADMINISTER ESTATE OF MARY ANNE THOMPSON HINKLE CASE NO. PES-20-303856

To all heirs, beneficiaries, creditors, contingent creditors, and persons who may otherwise be interested in the will or estate, or both, of: **Mary Anne Thompson Hinkle**

A PETITION FOR PROBATE has been filed by **Robert J. Thompson** in the Superior Court of California, County of San Francisco.

THE PETITION FOR PROBATE requests that **Robert J. Thompson** be appointed as personal representative to administer the estate of the decedent.

THE PETITION requests the decedent's will and codicils, if any, be admitted to probate. The will and any codicils are available for examination in the file kept by the court.

THE PETITION requests authority to administer the estate under the Independent Administration of Estates Act. (This authority will allow the personal representative to take many actions without obtaining court approval. Before taking certain very important actions, however, the personal representative will be required to give notice to interested persons unless they have waived notice or consented to the proposed action.) The independent administration authority will be granted unless an interested person files an objection to the petition and shows good cause why the court should not grant the authority

A HEARING on the petition will be held on **October 21, 2020 at 9:00 a.m. in Dept. 204, Room 204** located at +400 McAllister Street, San Francisco, CA 94102, Probate Department

IF YOU OBJECT to the granting of the petition, you should appear at the hearing and state your objections or file written objections with the court before the hearing. Your appearance may be in person or by your attorney.

IF YOU ARE A CREDITOR or a contingent creditor of the decedent, you must file your claim with the court and mail a copy to the personal representative appointed by the court within the later of either (1) four months from the date of first issuance of letters to a general personal representative, as defined in section 58(b) of the California Probate Code, or (2) 60 days from the date of mailing or personal delivery to you of a notice under section 9052 of the California Probate Code. Other California statutes and legal authority may affect your rights as a creditor. You may want to consult with an attorney knowledgeable in California law.

YOU MAY EXAMINE the file kept by the court. If you are a person interested in the estate, you may file with the court a Request for Special Notice (form DE-154) of the filing of an inventory and appraisal of estate assets or of any petition or account as provided in Probate Code section 1250. A Request for Special Notice form is available from the court clerk.

Attorney for Petitioner:
Jim Filippi, Esq.
5701 Lonetree Blvd., Suite 224, Rocklin, CA 95765
Phone: (916) 333-7910

Run Date: 10/01/20 + 10/08/20 + 10/15/20

UNIVERSITY OF CALIFORNIA, IRVINE MEDICAL CENTER

ANNOUNCEMENT TO PREQUALIFIED BIDDERS

University of California, Irvine Medical Center invites sealed bids for a lump sum contract for the **Site Infrastructure & Vehicular Circulation Upgrades, Project No. 994656**.

Description of Work: Scope of work includes: 1) reroute all the utilities in the current overhead canopies, including gas lines, steam supply and condensate return lines, 5KV electrical feeds, chilled water supply and return lines, DI water, fire alarm system wiring, Network IT and Telecom copper and fiber optics, 2) demolish the overhead canopy and parts of the sidewalk, including abatement of the asbestos roofing, 3) relocate storm drain and electrical systems currently running east to west, between buildings 24a and 26, 4) relocate and provide a new sewer, domestic water and fire water connection to building 21, 5) provide new chilled water supply and return lines to building 21 from existing pipes approx. 100 feet away, 6) provide new normal and emergency power, including conduit, feeders, transformers, switchgear and ATSS, from the building 34 to building 21, 7) provide steam supply and condensate return from building 31 to building 21, 8) extend the existing Valet drop off area, currently in front of building 22c, into the current grass area with additional curb and gutter, concrete and asphalt roadway, bollards, sidewalks, benches and landscaping, 9) provide Network IT and Telecom fiber for building 21 from adjacent locations, 10) relocate existing building 22A backflows and water meters for a new building 22A entry, 11) demolish building 80, 12) construct a new road with curb and gutter from the south side of the building 55 parking lot connecting to Service Way South, 13) concrete crosswalks, across the new road with adjacent sidewalks and landscaping, 14) and other work related to the items above.

Project completion time: 200 calendar days

Estimated Cost: \$5,500,000

Bid Documents: Will be emailed to prequalified contractors on Monday, September 21, 2020 by 2:00 pm.

Prequalified Bidders: **2H Construction, Inc.**, Signal Hill, CA, (562) 424-5567; **Cal-City Construction, Inc.**, Cerritos, CA (562) 404-4820; **Control Air Enterprises LLC**, Long Beach, CA 90804, (562) 576-0900; **De La Secura, Inc., dba DLS Builders**, Orange, CA, (714) 998-3790; **Kitchell Contractors, Inc.**, San Diego, CA, (858) 947-5165; **P.H. Hagopian Contractor, Inc.**, Orange, CA, (714) 543-4185; **The PENTA Building Group**, Los Angeles, CA, (213) 784-0010.

License Requirement: Current and active California CSLB "A" General Engineering or "B" General Contractor contractor's license.

Bid Submittal Requirements: Sealed Bids due 2:00 pm, Friday, October 16, 2020 at: UCIMC Planning Administration, Building 27, Room 136, UCI Medical Center, 101 The City Drive South, Orange, CA 92868. Bids will be opened at: **2:05 pm, Friday, October 16, 2020**, Building 27, Room 134, UCI Medical Center. Contract will be awarded to lowest responsive bidder.

Mandatory Pre-Bid Conference & Site Visit: Monday, September 28, 2020 promptly at 2:00 pm at UCIMC Building 22A, Conf. Room 2107, 101 The City Dr. South, Orange, CA 92868. **ONLY** prequalified bidders attending can submit Bids. **Optional Site Visit: Tuesday, September 29, 2020 @ 8am in-front of UCIMC Building 27.**

Required Bid Security: 10% bid security. Surety issuing bid bond shall be an admitted surety insurer (as defined in the CA Code of Civil Procedure Section 995.120) at bid deadline.

Additional Requirements: Successful Contractor and subs must follow nondiscrimination requirements in Bid Docs and pay prevailing wages

at location of Work.

Every effort will be made to ensure that all persons shall have equal access to contracts and other business opportunities with the University, regardless of: race; color; religion; sex; age; ancestry; national origin; sexual orientation; physical or mental disability; veteran's status; medical condition; genetic information; marital status; gender identity; pregnancy; service in the uniformed services; or citizenship within the limits imposed by law or University's policy.

The work described in the contract is a public work subject to section 1771 of the California Labor Code.

No contractor or subcontractor, regardless of tier, may be listed on a Bid for, or engage in the performance of, any portion of this project, unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 and 1771.1.

This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

The successful Bidder shall pay all persons providing construction services and/or any labor on site, including any University location, no less than the UC Fair Wage (defined as \$13 per hour as of 10/1/15, \$14 per hour as of 10/1/16, and \$15 per hour as of 10/1/17) and shall comply with all applicable federal, state and local working condition requirements.

Contact Terri Kalwara at (714) 456-8842, tkalwara@hs.uci.edu or Kim Kerwin at (714) 456-5735, khau@hs.uci.edu.

UNIVERSITY OF CALIFORNIA, IRVINE MEDICAL CENTER

ADVERTISEMENT FOR DESIGN BUILDER PREQUALIFICATION

Subject to conditions prescribed by the University of California, Irvine Medical Center ("UCIMC"), responses to the University's prequalification documents for a Design Build contract are sought from proposers for the following project:

B63 Energy Efficiency Retrofit, Project No. 997605

PREQUALIFICATION OF PROSPECTIVE PROPOSERS: The University's primary objective in utilizing the design build approach is to bring the best available integrated design and construction experience to this project. The University has determined that proposers who submit proposals on this project must be prequalified. Prequalified proposers will be required to have the following California contractor's license:

C-10 - Electrical Contractor & C-20 - Warm-Air Heating, Ventilating and Air Conditioning Contractor

DESCRIPTION OF WORK: UCIMC is soliciting proposals from qualified Design Build (DB) teams for the execution of the Building 63 Energy Efficiency Retrofit project. This project will be delivered as an energy brief design-build (EBDB) project. The DB team should anticipate participating in the full project timeline, with responsibilities to include compiling a complete project design package that meets the performance parameters outlined for each energy efficiency measure. The energy efficiency measures include chiller replacement, installation of a dedicated HVAC system, interior/exterior lighting improvements, retro-commissioning, new variable speed motors, and controls upgrade.

PROCEDURES: The prequalification process will result in the selection of finalists who will be prequalified and will be issued proposal documents for this Project. The prequalified proposers will submit price and technical proposals. The technical proposals will be scored according to an established scoring system. The price will be divided by the score to determine a price per technical point. The prequalified proposer submitting the lowest price per technical point will be the apparent low proposer for the Project.

After receipt of the prequalification documents, the University will review and determine a preliminary point score

for each submittal. Requests for clarifying information and additional data will be made at this time, if required. After receipt and review of the clarifications and additional data each prequalification submittal will receive a final point score.

Scoring of proposers will be determined by the application of an established rating system, requirements of which are contained in the Prequalification Questionnaire.

A proposer who receives 70 or more points out of a possible 100 points based on the established rating system will be invited to participate in the Request for Proposal step

Proposers will be notified whether or not they have been prequalified after the University evaluates the prequalification submittals.

PREQUALIFICATION SCHEDULE

QUESTIONNAIRE AVAILABLE: On Wednesday, September 16, 2020 @ 2:00pm, prequalification questionnaires will be available upon request. Contact Kim Kerwin @ khau@uci.edu.

QUESTIONNAIRE DUE: On September 30, 2020 @2:00pm, completed prequalification documents will be received at: UCIMC, Planning Administration, Building 27, Room 136, 101 The City Drive South, Orange, CA 92868. No prequalification documents will be accepted after 2:00pm on 9/30/2020. However, the University reserves the right to request, receive, and evaluate supplemental information after the above time and date at its sole determination.

PROPOSAL SCHEDULE

Following is the anticipated proposal schedule:

1. Proposal Documents available to the prequalified proposers – 10/07/2020.
2. Proposals received – 10/30/2020.
3. Proposals evaluated and the apparent low proposal determined – 11/13/2020.

The exact dates, times, and location will be set forth in an "Announcement To Prequalified Proposers."

The University reserves the right to reject any or all responses to Prequalification Questionnaires and any or all proposals and to waive non-material irregularities in any response or proposal received.

Proposal Security in the amount of 10% of the lump sum price proposal, excluding alternates, shall accompany each

proposal. The surety issuing the Bid Bond shall be, on the proposal deadline, listed in the latest published State of California, Department of Insurance, list of "Insurers Admitted to Transact Surety Insurance in this State."

All insurance policies required to be obtained by Proposer shall be subject to approval by University for form and substance. All such policies shall be issued by a company rated by Best as A- or better with a financial classification of VIII or better, or have equivalent ratings by Standard and Poor's or Moody's. The Certificate of Insurance shall be issued on the University's form.

Prospective proposers desiring to be prequalified are informed that they will be subject to and must fully comply with all of the proposal conditions including 100% payment and 100% performance bonds.

All information submitted for prequalification evaluation will be considered official information acquired in confidence, and the University will maintain its confidentiality to the extent permitted by law.

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each Proposer may be required to show evidence of its equal employment opportunity policy. The successful Proposer and its subcontractors will be required to follow the nondiscrimination requirements set forth in the Proposal Documents and to pay prevailing wage at the location of the work.

The work described in the contract is a public work subject to section 1771 of the California Labor Code.

No contractor or subcontractor, regardless of tier, may be listed on a Proposal for, or engage in the performance of, any portion of this project, unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 and 1771.1.

This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

The successful Prequalified Proposer shall pay all persons providing construction services and/or any labor on site, including any University location, no less than the UC Fair Wage (defined \$15 per hour as of 10/1/17) and shall comply with all applicable federal, state and local working condition requirements.
