

U.S. Department of Transportation Advances America's Infrastructure with Expanded Regional Grants

[Article originally appeared in www.transportation.gov]

The U.S. Department of Transportation announced another step forward in advancing critical transportation infrastructure projects across the United States by expanding the Regional Infrastructure Accelerators (RIA) program to 24 accelerators receiving \$24 million in new funding from the Bipartisan Infrastructure Law. Administered by the Build America Bureau, the RIA program accelerates project delivery and clears barriers for credit-worthy projects by funding and encouraging best practices in project planning, studies and analysis, preliminary engineering, and design.

“We are pleased to expand the Regional Infrastructure Accelerator program to 24 regions, helping communities build capacity and get much-needed transportation projects underway,” said U.S. Transportation Secretary Pete Buttigieg. “DOT partners with these regions to help them secure financing and develop in-house expertise for innovative delivery of regionally significant projects.”

“Building capacity at the regional level to use innovative delivery and financing options is critical to addressing America’s infrastructure challenges,” said Build America Bureau Executive Director Morteza Farajian, Ph.D. “The RIA

program is a novel approach that enables the Bureau to help our partners deliver more good projects faster.”

These awards result from the spring solicitation for projects for the RIA program. The Bureau received 21 applications requesting \$66 million in funding. The program, created by the Fixing America’s Surface Transportation (FAST) Act, is designed to inform future work by measuring how different regional models can expedite the development and delivery of transportation projects. The RIA program is part of the federal Thriving Communities Network, an interagency effort to coordinate technical assistance, planning and implementation support to ensure infrastructure investments funded by the Bipartisan Infrastructure Law and Inflation Reduction Act create long-term benefits nationwide.

The RIA program previously awarded grants in 10 regions that are already accelerating transportation projects, including:

- The Pacific Northwest Economic Region (PNWER) RIA supporting Washington, Alaska, Idaho, Montana, and Oregon communities utilized its previous \$1.235 million RIA grant and hands-on technical assistance to support project development for the Pine Road highway and rail grade

The selected Fiscal Year 2023 Regional Infrastructure Accelerator awardees:

Applicant	Award
California DOT (Sacramento, California)	\$2.00M
Metropolitan Atlanta Rapid Transit Authority (Atlanta, Georgia)	\$1.75M
Pacific Northwest Economic Region* (Seattle, Washington)	\$2.00M
State of Louisiana Executive Office (Baton Rouge, Louisiana)	\$2.00M
Montgomery County Department of Transportation (Rockville, Maryland)	\$2.00M
Regional Transportation Commission of Southern Nevada (Las Vegas, Nevada)	\$2.00M
Centralina Council of Governments (Charlotte, North Carolina)	\$1.75M
City of Tampa (Tampa, Florida)	\$1.75M
San Diego Association of Governments* (San Diego, California)	\$1.75M
Central Puget Sound Regional Transit Authority (Seattle, Washington)	\$1.75M
Fresno Council of Governments* (Fresno, California)	\$1.75M
Bay Area Rapid Transit District (San Francisco, California)	\$1.75M
City of Fort Lauderdale (Fort Lauderdale, Florida)	\$974K
County of Bernalillo (Bernalillo, New Mexico)	\$974K
* Prior grantee receiving additional funding	

Biden-Harris Administration seeks input on innovation for clean and efficient commercial buildings

[Article originally appeared in www.gsa.gov]

As part of President Biden’s Investing in America agenda, and through the Green Proving Ground (GPG) program, the U.S. General Services Administration (GSA), in collaboration with the U.S. Department of Energy (DOE), announced a new request for information (RFI) about technologies that can enable energy efficiency, electrification, and decarbonization in commercial buildings and contribute to a more

efficient electric infrastructure. With \$30 million in funding from the Inflation Reduction Act (IRA)—the largest climate investment in history—this RFI will result in more than triple the number of technologies in the program.

Earlier this year, GSA announced that it will invest \$30 million from the Inflation Reduction Act, in collaboration with DOE, to increase the sustainability of federal buildings by testing novel technologies through the GPG program. The funding allowed the program to increase

its capacity and take steps to advance President Biden’s goal to achieve a net-zero emissions federal buildings portfolio by 2045, per Executive Order 14057 and the Federal Sustainability Plan.

GSA’s GPG program leverages GSA’s real estate portfolio to evaluate innovative building technologies. Technologies selected to participate in this program will be piloted in one or more federal buildings and/or private sector facilities for evaluation by DOE national labs. The program enables GSA to make sound investment decisions in next-generation building technologies based on their real-world performance. Technology companies receive third-party evaluations facilitated by the federal government which can help scale their technology and grow their business, which strengthens U.S. competitiveness, the economy and creates jobs.

“The GPG program is one way we’re creating the technical foundation for long-term, transformational changes,” said GSA Administrator Robin Carnahan. “We’re aiming for a triple win: more good American jobs, cost savings to tax-

payers from reduced energy consumption, and a healthier future for all Americans.”

This year’s RFI is focused on emerging and sustainable technologies that support:

- Deep Energy Retrofits.
- All-Electric Buildings and Vehicle Fleets.
- Net-Zero Operations.
- Healthy and Resilient Buildings.
- Building Commissioning and Control.

Submissions should be early-or underutilized-commercial technologies ready for evaluation in occupied, operational buildings. Technologies will be considered for GSA’s Green Proving Ground (GPG) program (for federally owned facilities), and/or DOE-facilitated voluntary partnership programs (for privately owned facilities).

The RFI will be open for submissions until Friday, December 8, 2023. Parties interested in submitting an application can review the

SBA Administrator Guzman and Business Leaders Reaffirm Support for 8(a) Program

[Article originally appeared in www.sba.gov]

Business leaders across the country are joining the U.S. Small Business Administration (SBA) in voicing support for the agency's 8(a) Business Development Program, the federal government's premier business development program helping socially and economically disadvantaged small business owners expand their footprint in the federal marketplace through training and contract support. In light of a United States District Court ruling in *Ultima Servs. Corp. v. Dept. of Ag.* affecting how participants establish eligibility, the SBA issued interim guidance to participants and stakeholders and announced the reopening of the application portal on Sept. 29.

Statement from SBA Administrator Isabel Guzman:

"Though the administration of the 8(a) Program has been impacted by a recent court injunction and order, the program is open for business. In the weeks since the injunction, the SBA has reviewed or recertified thousands of current 8(a) participants through a process consistent with the court's order. Now the SBA has reopened the

8(a) application portal to new participants – ensuring a vast, talented pool of vendors are available to federal agencies.

"The SBA's 8(a) Program has more than a 50-year track record of making contracting with the U.S. government more accessible for thousands of small businesses who in turn provide critical products and services to advance agency missions. Leveling the playing field not only provides entrepreneurs from historically underserved communities the opportunity to grow their businesses, create jobs, and contribute to their local economies – it is also crucial to enhancing performance across our federal government.

As we await a final ruling, the SBA and Biden-Harris Administration remains committed to supporting the 8(a) Program and standing up for the small business owners who have helped drive America's historic economic growth. We will not let attacks from those who seek to take us backward chill our efforts to promote equity, expand access to the American Dream, and ultimately strengthen our country's industrial base."

Statements from leaders in the business community:

"The 8(a) Program is one of the federal government's most effective tools for establishing and growing minority-owned businesses," said **Chris James, President and CEO of The National Center for American Indian Enterprise Development.** "I have witnessed its impact firsthand, both as a former SBA official and as the leader of an organization that has worked with countless 8(a) companies at all stages of their development. I applaud the SBA and Administrator Guzman for their unyielding support for the 8(a) Program and look forward to working with them to ensure minority-owned businesses have access to resources that will help them succeed."

"We are pleased to see the 8(a) Program reopening its doors to new applicants," said **Justin Nelson, Co-Founder and President of the National Gay and Lesbian Chamber of Commerce (NGLCC).** "This represents a significant opportunity for the diverse business community to thrive and succeed. The NGLCC looks forward to working closely with the Small Business Administration to ensure that LGBTQ and other diverse-owned businesses that have faced discrimination in their entrepre-

neurial journey can share their experiences and be a part of the program. The 8(a) Program is not just about federal contracting and training; it's about empowering socially and economically disadvantaged small business owners to reach their full potential and contribute to a more inclusive, prosperous economy."

"The SBA 8(a) Program is a powerful tool that affords Native Hawaiian Organizations (NHOs) the opportunity to improve economic stability while providing resources to address the specific needs of the Native Hawaiian community," said **Cariann Loo, President of the Native Hawaiian Organizations Association.** "Native Hawaiians fall significantly behind in economic and socioeconomic indicators and face systematic inequalities that have been detrimental to our overall well-being. Since first participating in the SBA 8(a) Program in 2004, NHOs have successfully cultivated self-sufficient economic ventures that have created jobs, spurred innovation, and built community capacity. Unfortunately, Native Hawaiians are still plagued with considerable challenges. As Chairperson of the Nakupuna Foundation and President of the Native Hawaiian Organizations

State Law That Will Create Transparency On Issues Impacting California's Communities of Color

[Article originally appeared in <https://greenlining.org>]

The most pressing threats we face from climate change and the rise of AI decision-making in government disproportionately impact communities of color due to systemic racism, economic barriers, and past policies like redlining that led to widespread disinvestment from these communities. This year, The Greenlining Institute supported California legislation that establishes transparency into these threats to pave the way for accountability and the development of more equitable solutions. Greenlining's co-sponsored bills – Senate Bill 253, authored by Senator Scott

Wiener and Assembly Bill 302, authored by Assemblymember Chris Ward – have been signed into California law by Governor Newsom.

"We are immensely grateful to everyone that made this achievement possible – to Governor Newsom, bill authors Senator Wiener and Assemblymember Ward, our co-sponsors and coalition partners, and all the legislators that supported these bills, playing a role in making equity real for California's communities of color," said Debra Gore-Mann, President & CEO at Greenlining. "For decades, communities of color endured the worst of systemic and institutional injustices because existing policies led to inequitable impacts and failed to pri-

oritize their needs. To develop equitable and effective policy solutions to climate change and AI bias, we need to understand these problems better. Data and transparency are critical to gaining insight into the lived experiences of communities of color that are most impacted by the societal threats we face. These two bills are a step in the right direction," Gore-Mann continued.

"The signing of SB 253 and AB 302 reaffirms California's leadership role in developing and implementing cutting edge, and far reaching climate and tech solutions. Transparency into corporate emissions through SB 253, and the ways government use of AI impacts our lives through

AB 302 is essential to hold lawmakers accountable to our communities," said Alvaro Sanchez, Vice President of Policy at Greenlining. "It is our duty as lawmakers, advocates, businesses, and residents of California to work towards a future where communities of color can thrive. These bills will help make that future more possible."

"California leads this nation by passing policies directed at supporting the diverse residents that make up this great state, and we build from the ground up. By shedding a sobering light on the drivers of climate change, like corporate emissions, and uncertainty around emerging technol-

Pure Water Project Las Virgenes-Triunfo
Location: 30800 Agoura Road, Agoura Hills, CA
RFP is due November 06, 2023

The project includes the design and construction of an Advanced Water Treatment Facility (MF, RO, UV/AOP) and Reverse Osmosis Concentrate (ROC pipeline); the project will be designed with a focus on Workplace Quality and Safety, Reliability, and Resiliency.

Scope of Services requested in support of this project include Phase 1 Preconstruction Services required for the design, permitting, and GMP development of the AWPF Project and ROC pipeline; engineering, architecture, traffic design, geotechnical services, mapping, underground utility location, civil scopes, etc.

Additional outreach requests for statements of qualifications for scopes associated with Phase 2 and the Construction of this project would come at a later date.

We encourage **DBE/MBE/WBE/SBE/DVBE/OBE** subcontractors to submit. We will provide additional information, Request for Proposals and related project documents as required.

We are willing to assist all **DBE, MBE, WBE, SBE, DVBE, OBE** subcontractors in obtaining bonds, lines of credit, and/or insurance.

For additional information about this project or to submit qualifications please contact Curtis Horner at chorner@mcCarthy.com.

If interested in being considered to provide equipment, supplies, professional or construction services on our team, please submit a line card, capabilities statement, and rate sheets to the McCarthy team by **Wednesday November 1st, 2023**.

Kiewit Infrastructure West Co.
4650 Business Center Drive • Fairfield, CA 94534
Attn: Julie Bradhurst at norcal.bids@kiewit.com

Requests quotes/bids from qualified Subcontractor, Service Providers, Consultants, and/or Suppliers seeking to participate for the following project in Sunol, CA:

Sunol Valley Water Treatment Plant Ozonation
Contract No. WD-2897

Owner: City & County of San Francisco, San Francisco Public Utilities Commission
Bid Date: **November 30, 2023 @ 2:00 P.M.**

Quotes NO LATER THAN November 29th, 2023 at 2 P.M.

Kiewit requests CMD certified San Francisco Micro and Small-LBE's and SFPUC Micro & Small-LBE's, Disadvantaged Business Enterprise (DBE), Minority Business Enterprise (MBE), Women Business Enterprise (WBE), Small Business Enterprise (SBE), Small Business in a Rural Area (SBRA), Labor Surplus Area Firm (LSAF), or Historically Underutilized Business (HUB) Zone Businesses for the following scopes, but not limited to:

AC & Concrete Paving • Acoustical Panel Ceiling • Aggregates • Architectural Louvers • Bi-Folding Door • Bird Control Devices • Building Mechanical & Controls (HVAC) • Building Specialties • Canopies • Casework • Cast-In-Place Concrete • Cathodic Protection • Ceramic Tiling • Clearing & Grubbing / Tree Removal • Concrete Pumping • Concrete Repair • Concrete Sealer Flooring Systems • Concrete Supply • Countertops • Davit Crane & Monorail Hoist • Demolition • Dewatering • Doors & Hardware • Drilled Concrete Piers • Dump Fees • Electrical • Erosion Control • Fences & Gates • Final Cleaning • Fire Alarm • Fire Suppression • Framing & Drywall • Hydroseeding • Joint Sealant & Firestopping • Landscaping • Mechanical Equipment • Minor Concrete • Misc Metals & Structural Steel • Painting and Coating • Pavement Markings • Photographic Documentation • Piping and Valves • Plumbing • Potholing / Vacuum Truck • Precast Concrete Utility Structures • Quality Control • Rebar • Resinous Flooring Systems • Roofing • Sawcutting / Core Drill • Shoring • Signage • Site Furnishings • Soldier Beam Retaining Wall • Storefront & Glazing • Survey • Sweeper Truck • SWPPP Consultant • Tanks (FRP) • Trucking & Hauling • Water Truck • Waterproofing • Welding

- Non-LBE firms are encouraged to contract with a group of lower tier LBEs or individual LBEs. For more information on certification, go to <http://www.sfgov.org/cmd>
- Non-DBE firms are encouraged to contract with a group of lower tier DBE's or individual DBE's. DBE's certified thru, but not limited to, any of the following agencies: www.mdba.gov; www.epa.gov; www.sba.gov; dot.ca.gov
- Plans are available for viewing through SmartBidNet (SBN). All subcontractors that are registered in our SBN database will receive an invitation to bid. Please email norcal.bids@kiewit.com to register your company to be able to receive bidding information, Plans and Specifications. Please note, prior to receipt of any documents, a Confidentiality Agreement must be completed.
- This Project is subject to compliance monitoring and enforcement of prevailing wage requirements by the California Department of Industrial Relations including compliance with Davis-Bacon requirements.
- Subcontractors must possess & provide current California contractor's license number & DIR Registration number.
- This Project implements a Project Labor Agreement. Kiewit is a union contractor, signatory to various trades. Please contact Kiewit for more information on the unions concerned.
- Performance and Payment Bonds may be required for Subcontractors, and Supply Bond for permanent material Suppliers on this project. Bond requirement can be waived on a case-by-case basis. Please contact Kiewit for more information. Bond premiums are reimbursable by Kiewit.
- Please contact Kiewit for any assistance in bonding, insurance, equipment, materials and/or supplies.
- This project is funded fully/partially by Drinking Water State Revolving Fund/Water Infrastructure Finance and Innovation Act ("DWSRF/WIFIA"), where the following requirements are applicable:
 - American Iron and Steel (AIS)
 - Disadvantaged Business Enterprises (40 CFR Part 33)
 - BUILD AMERICA, BUY AMERICA ACT (BABA)

Local Business Enterprise (LBE) and Disadvantaged Business Enterprise (DBE)
Subcontractor/Supplier Bids Requested For:

San Francisco Public Utilities Commission (SFPUC)
Sunol Valley Water Treatment Plant Ozonation
Project No. WD-2897

BID DATE: Thursday, November 30th, 2023 at 2pm

LBE Requirement: 8%

DBE Fair Share Objective Goals: 3.1% MBE, 2.4% WBE

Email quotes to jmiranda@shimmick.com. Please submit your quotes no later than November 29th @ 5pm.

Shimmick Construction Company, Inc. is requesting quotes from DBE and CMD certified San Francisco Micro & Small-LBE and SFPUC Micro & Small-LBE subcontractors and suppliers in the following scopes of work (including, but not limited to):

Sheet Metal; Welding; Structural Steel; Metal Railing & Products; Asphalt; Concrete & Cement; Cast-In-Drilled-Hole Concrete Piling; Concrete Curb & Sidewalk; Reinforcing Steel; Electrical; Earthwork & Paving; Drywall; Insulation/Acoustical; Carpentry, Cabinets & Millwork; Tile Installation; Pipeline; Fencing; Landscape; Erosion Control; Tree Service; Irrigation; Sanitation Systems; Solar; Hazardous Materials; Plumbing; Painting/Waterproofing; Fire Protection; Boiler/Hot Water/Steam Fitting; Roofing, Retaining Walls; Drilling; Piling; Coring; HVAC; Doors, Gates & Activating Devices; Scaffolding; Pumping Plant Electrical Equipment; Engine Generator Set; Instrumentation Equipment; Lighting Supplies; Lumber EQ & Supplies; Communications Equipment; Safety & Personal Protection Items; Security & Fire Alarm Systems Equipment & Supplies; Drainage Pumping Equipment; Security Guard Services; Trucking; Seismic Engineering; Asbestos Abatement; Building Moving Wrecking Contractors; Construction Clean-Up

Plans and specifications for this project are protected by a Confidentiality Agreement.
Please visit the SFPUC website at <https://webapps.sfpuc.org/bids/bidDetail.aspx?bidid=4456>
or contact Jamie Miranda at jmiranda@shimmick.com for more information.

Should you require assistance with your bid, please contact our lead estimator
Erin Brosnan at ebrosnan@shimmick.com.

All items of work listed above are made available, even items of work normally performed by Shimmick. Please contact the lead estimator listed above for assistance with breaking down items of work into economically feasible units, with assistance obtaining equipment, supplies, materials, bonding, insurance, estimating, or related assistance. 100% Performance and Payment bonds with a surety company subject to approval of Shimmick Construction Company, Inc. are required of subcontractors for this project. Shimmick Construction will pay bond premium up to 1.5%. Subcontractors will be required to abide by terms and conditions of the AGC Master Labor Agreements and to execute an agreement utilizing the latest SCCI Long Form Standard Subcontract incorporating prime contract terms and conditions, including payment provisions. Shimmick Construction's listing of a Subcontractor is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with the Subcontractor's price quote. Shimmick Construction requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation. For assistance with bonding, insurance or lines of credit contact Devin Nordhagen at devin.nordhagen@shimmick.com.

Funding for this project may be provided in full or in part through an agreement with the State Water Resources Control Board ("SWRCB"). California's Drinking Water State Revolving Fund ("DWSRF") is capitalized through a variety of funding sources, including grants from the United States Environmental Protection Agency ("EPA") and state bond proceeds. Funding for this project may also be supplemented by the Water Infrastructure Finance and Innovation Act ("WIFIA"). American Iron and Steel requirements, Davis-Bacon Act prevailing wage requirements, Build America, Buy America ("BABA") requirements, and Disadvantaged Business Enterprises (40 CFR Part 33) apply to this project.

REQUEST FOR DBE SUBCONTRACTORS AND SUPPLIERS FOR:

Construct two Aux lanes, concrete barrier, and modify electrical systems
Hwy 99 Elk Grove
Sacramento County
Caltrans #03-1H6304

REVISED BID DATE: December 13, 2023 @ 2:00 PM

We are soliciting quotes for (including but not limited to): Trucking, Temporary and Permanent Hydroseed and Erosion Control Measures, QC/QA Testing, Lead Compliance Plan, Construction Area Signs, Develop Water Supply, Traffic Control System, Type III Barricade, Plastic Traffic Drums, Portable Changeable Message Sign, SWPPP, Storm Water Annual Report, Sweeping, Treated Wood Waste, Biologist, Fencing, Clearing & Grubbing, Planting & Irrigation, Tack Coat, Cold Plane AC, CIDH Concrete Pile, Structural Concrete, Minor Concrete, Drill and Bond Dowel, Bar Reinforcing Steel, Sign Structure, Trash Net, Underground, Misc. Iron & Steel, Pavement Marker, Roadside Signs, Guardrail Systems, Transition Railing, Concrete Barrier, Striping & Marking, Electrical, and Construction Materials

Jean Sicard (510-809-3411 jsicard@ocjones.com) and Bill Jensen (510-809-3432 bjensen@ocjones.com) are the estimators on this project and are available to provide assistance or answer questions regarding the project scope of work including bid requirements, break out of bid items, plan or spec interpretation, bonding or insurance requirements, and other bid assistance. Plans and specs are available to review at our Berkeley office or can be sent out via Building Connected. Plans are also available under the Advertised Projects tab at the Caltrans website at: <http://ppmoe.dot.ca.gov/des/oe/contract-awards-services.html>. PDF format quotes should be emailed to the estimator or faxed to 510-526-0990 prior to 12:00 PM on the date of the bid. Quotes from DBE Subcontractors, Suppliers and Truckers are highly encouraged. OCJ is willing to breakout any portion of work to encourage DBE participation. Subcontractors must possess a current DIR, Contractors License, and insurance and workers compensation coverage including waiver of subrogation. OCJ may require Performance and Payment bonds on subcontracts. OCJ will pay the bond premium up to 2% of the contract value. Please contact OCJ for any assistance required by your firm in obtaining bonding or insurance. The US Small Business Administration may also assist you in obtaining bonding - please see the following site for information: <http://www.sba.gov/content/contractors>. Visit the California Access to Capital Program Financing Solutions website for additional resources for your small business - http://www.calbizfinance.org/cal_cert_biz_program.html. OCJ is available to help obtain necessary equipment, material and/or supplies. All subcontractors are required to execute OC Jones' standard subcontract agreement, comply with all insurance requirements, and name OCJ as additional insured. Copies of our agreement and insurance requirements are available upon request. OCJ is a Union contractor, and we are signatory to the Operating Engineers, Laborers, Teamsters, and Carpenters. OCJ is an Equal Opportunity Employer.

TO ALL POTENTIAL LBE SUBCONTRACTORS

Plant Construction Company, L.P. is requesting bids for the following trade packages for Mission Phase 2 project. **Local Business Enterprises (LBE's) certified by Contract Monitoring Division (CMD) are highly encouraged to bid. There will be a 20% LBE goal on the entire project.**

Mission Inn Phase 2
Plant Project Number: 2023004
Owner: Mission Housing Development Corp

Project Description: The Mission Inn project (Block/Lost 7098/012) is located at 5630-5638 Mission St in San Francisco. It was formerly a Tourist Hotel called Mission Inn. The site consists of a u-shaped building. One leg of the U shape is 4 stories consisting of 3 stories of units over tucked under parking, mechanical spaces, and a laundry room. The 4 story leg is the only part of the complex served by an elevator. The rear of the u-shaped building is two stories at Mission Street level, with one story tucked under garages facing Ellington Avenue. The third leg of the u-shaped building is two stories at Mission St level. Located centrally in the courtyard formed by the U shaped building is a free standing two story building that served as Motel Offices and Manager Residences. All ground floor units are accessed directly from walkways at grade. Units on the second story of the two story wings are accessed by stairs and exterior exit walkways. The units in the four story wing are accessed by elevator and/or two stairs and exterior exit walkways. The ground level of the 4 story building will require a Change of Use from S (parking/garage) to B (Offices for Property Management and Resident Services). The central building will maintain the B Occupancy use within offices, but add an A-3 Occupancy use for a resident community space. Office/meeting room rooms on the 2nd story are duplicated on the ground floor to provide equal facilitation. All of the 51 (Tourist Units) will have a classification change to R-2. Six of the units will be renovated to become mobility units that are ADA/Ch. 11B compliant. All of the new uses at the ground floor and the re-use of an existing laundry room will have accessible paths of travel.

Plant is seeking qualified LBE's for the following trade packages, but not limited to the following excluding Fire Protection: Selective demolition, concrete, wood framing, finished carpentry, plastic fabrications, roofing, flashing & sheet metal, doors & frames & hardware, windows, exterior plaster, drywall & framing, tiling, acoustical ceilings, resinous flooring, carpet flooring, painting, miscellaneous specialties, signage, toilet partitions & bath accessories, appliances, window coverings, plumbing, HVAC, electrical, earthwork, site concrete, striping, fencing & gates, landscaping, and utilities.

TO ALL POTENTIAL LBE SUBCONTRACTORS

Plant Construction Company, L.P. is requesting bids for the following trade packages for Casa Esperanza project. **Local Business Enterprises (LBE's) certified by Contract Monitoring Division (CMD) are highly encouraged to bid. There will be a 20% LBE goal on the entire project.**

Casa Esperanza
Plant Project Number: 2023008
Address: 3055-3061 16th Street San Francisco, CA 94103
Owner: Mission Housing Development Corp

There will be a site walk on 10/27/23 at 10am. Please contact Mike Cashman at mikec@plantco.com for more details.

Project Description: The current development consists of 25 studios on floors two and three and a group kitchen, a former retail space on the ground floor, and a basement level with mechanical and electrical equipment. The building does not have an elevator, all levels are accessed by stairs. The rehabilitation scope is limited to the ground floor only to include a new lobby, mail area, small retail area, management and services offices, a new stair to the basement, all gender bathroom, exercise room and staff kitchen, and trash room. The scope includes new mechanical and electrical work in the ground floor. The scope also includes a new deck at the rear yard. The rehabilitation includes one new exterior opening and painting the building. The rehabilitation does not include site work in the public right of way. Construction Type is assumed V-B wood framed with steel seismic braces at the basement and ground floor. The rehabilitation scope also includes adding a fully current code compliant sprinkler system to the ground floor which is a Design Build (Delegated Design) scope. The rehabilitation scope also includes adding any Fire Alarm upgrades to the building which is a Design Build (Delegated Design) scope. The residential floors of the building have sprinkler systems.

Plant is seeking qualified LBE's for the following trade packages, but not limited to the following excluding Fire Protection: Selective demolition, concrete, wood framing, finished carpentry, plastic fabrications, roofing, flashing & sheet metal, doors & frames & hardware, windows, plaster, drywall & framing, tiling, resinous flooring, carpet flooring, painting, miscellaneous specialties, signage, toilet partitions & bath accessories, appliances, window coverings, plumbing, HVAC, and electrical.

REQUEST FOR CERTIFIED DBE/SBE SUBCONTRACTORS & SUPPLIERS
Eastridge to BART Regional Connector (EBRC) Project
Santa Clara Valley Transportation Authority (VTA), San Jose, CA
Contract No. C20120

REVISED Bid Date: November 2, 2023 @ 2 PM EE \$300M to \$350M 8% SBE Goal

Quotes not received by noon on November 1st may not be reviewed or evaluated.

The Contract is subject to VTA's Small Business Enterprise (SBE) Program. The EBRC Project will extend light rail service approximately 2.4 miles along Capitol Expressway from the existing Alum Rock Light Rail Station South to the Eastridge Transit Center and 1.6 miles North from Alum Rock Station. The EBRC extension will operate primarily in the median of Capitol Expressway. The EBRC scope of work includes the construction of an aerial guideway (with Wall approaches), trackwork (direct fixation and ballasted tie), two passenger stations, systems (including two traction power substations), and minor road widening. **Bid Form 4 will be required from all DBE/SBE Firms. Bid Form 5 will be required from all listed Subs.**

Non-DBE/SBE Subs & Suppliers: You will be expected to carry a proportionate percentage of 2nd-tier DBE/SBE participation with your quote. 2nd-tier DBE/SBE participation will be evaluated with your price.

Flatiron requests DBE/SBE subcontractor, supplier & services participation for the following items of work, but not limited to: Construction Area Signs, Clearing & Grubbing, Demolition, Shoring & Excavation, Glazing, Street Sweeping, Carpentry & Drywall, Fencing/Gates, Metal Railing, Ladders & Stair Nosing, Landscaping/Irrigation, Electrical & Street Lighting, Traffic Control, Station Canopies & Sheet Metal, Elevators, Post Tensioning, Plumbing, F&I Mechanical/HVAC Equipment, Roofing, Traffic Signals, Utilities, Water & Sewer Line Construction, Surveying, Erosion Control, Precast Piles, CIDH, Operated equipment, Ready Mix Concrete, Rebar, Concrete Pumping, Striping & Markings, Roadway Signage including Station and Track Signs, Signal & Communication Systems, MSE Material, VTA Track & Rail, including Tie-in, VTA Systems, Walkway/Combined Trough, Duct Banks, OCS, TES, PTFE/Bridge Bearings and Pads, Joint Seal Assembly, Grading, AC Paving, AC Dike, Asphalt Crack Sealing, Minor Concrete, Curb/Gutter and Sidewalk, Underground & Drainage, Misc. Construction Material Supplies, QC Testing & Laboratory, SWPP Plan & Materials, Geotextile Materials, Trucking & Water Trucking, Supply & Erect Structural Steel, Painting/Concrete Staining, Welding, Asphalt Membrane Waterproofing, Steel Pipe Pile, Welded Steel Pipe, Underground Pipe for Storm & Sewer, Underground Precast, Misc. Metals, Iron & Steel, Formliner, Sheet Pile Installation, Dewatering, Ballast (VTA), Tire Shred Vibration Damping Layer, Vibration Mitigation/Monitoring, Noise Mitigation/Monitoring. **See Specifications for additional scopes of work in Divisions 6, 7, 8, 9, 10, 13, 14, 15, 21, 22, 23, 26, 27, 28, 32, 33 and 34.**

100% performance/payment bonds will be required for the full amount of the subcontract price. Please contact Flatiron for any assistance to this solicitation, including obtaining bonding, insurance, equipment, materials and/or supplies. Provide subcontractor/supplier scopes/quotes as early as possible to enable estimators to perform a thorough evaluation of all quotes received. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Quotes must be valid for the same duration as specified by the Owner for Contract Award. We are signatory to Operating Engineers, Laborers, Cement Masons, Carpenters and Pile Drivers Unions. Non-signatory subs will be required to sign an agreement for trades covered under our union agreements. Flatiron intends to work cooperatively with subcontractors and suppliers for all bid items you are licensed and qualified to perform. Bid items can be split to facilitate participation from all certified firms. Flatiron will reimburse for bond premium up to 2%. **Firms must possess & provide current contractor's license number & DIR Registration number on the quote.** Firms must possess insurance and workers compensation coverage meeting project requirements. Waiver of Subrogation is required. Please contact Flatiron for any assistance required by your firm. Subcontractors/Suppliers will be required to execute our standard agreements and agree to the standard general terms & conditions. Copies are available for review on our Box.com ftp site upon email request.

Project documents are available for **FREE** download at the VTA's eProcurement website <https://secure.procurenow.com/portal/vta> To download documents for this solicitation, Register as a vendor and sign up for notifications for your North American Industry Classification System ("NAICS") business codes at <https://secure.procurenow.com/signup> Please check your email inbox and follow the instructions to activate your account. There is no charge for downloading these documents. Click on the name of the solicitation that you are interested in.

Project documents may also be viewed in our office by appointment only, or downloaded for FREE from our BOX ftp site. Please send an email request to NorCalBids@flatironcorp.com to view/access plans & specs for FREE from Flatiron BOX ftp site, or to set-up an appointment to view and meet with an estimator.

Please send all quotes by email to NorCalBids@flatironcorp.com or to our BID FAX at 707-746-1603.

Please email ALL Scopes/Quotes to: NorCalBids@flatironcorp.com

CALIFORNIA SUB-BID REQUEST ADS

Glosage Engineering Inc.

GENERAL ENGINEERING CONTRACTOR

Glosage Engineering Inc.
590 S 33rd St. Richmond, CA 94804

DBE Subcontractor Requested For:

Oro Loma Sanitary District

Sewer Collection System Pipeline Rehabilitation and Replacement Project Phase 7
Project No: 45-146.07

BID DATE: Thursday, December 7th, 2023 at 2:00 pm.

Email quotes to guzmancrp@outlook.com or guzmancrp@yahoo.com

Project Description:

PHASE 7: the replacement of 16,540 linear feet of 6 and 8-inch vitrified clay pipe (VCP)

with 8-inch high density polyethylene pipe (HDPE); 1,344 linear feet of 8-inch VCP with 10-inch HDPE pipe; 324 linear feet of 10-inch VCP with 12-inch HDPE pipe; 614 linear feet of 12-inch VCP with 14-inch HDPE pipe; 174 linear feet of 14-inch VCP with 16-inch HDPE pipe; and the reconnection of all laterals and re-channelization of all manholes, as shown on the plans and specifications.

Glosage Engineering Inc is requesting quotes from qualified DBE subcontractors and suppliers in the following scopes of work: Saw cutting and drilling, removal of hazardous waste, concrete flat work.

Plans are available to download on <http://engr.oroloma.org/projects/download.asp>. You may contact Luis Guzman at 510-815-4505 or guzmancrp@outlook.com to get on our subcontractor list. Should you require assistance with bid or have any question please feel free to reach out.

INVITATION TO BID

Clark Construction, an equal opportunity employer, is seeking bids from all subcontractors, including Disadvantaged Business Enterprises (DBE), CMD Certified SF and SFPUC Micro and Small Local Business Enterprises (LBE), Minority Business Enterprises (MBE), Women Business Enterprises (WBE), and Other Business Enterprises (OBE).

Your bid is due to Clark on or before November 29th, 2023 @ 12:00PM PST.

Project Description:

SFPUC SUNOL WATER TREATMENT PLANT OZONATION PROJECT:

This project includes the full scope of work to install a new raw water Ozonation system at Sunol Valley Water Treatment Plant. It includes major scopes of work such as demolition, excavation, yard piping, foundations/CIDH, structural/architectural/site concrete, structural steel, architectural metals and finishes, specialty water treatment equipment, electrical, instrumentation and controls, process mechanical, landscaping, etc.

The work is located at the Sunol Valley Water Treatment Plant at 8635 Calaveras Road, Sunol, California, 94586. The Engineer's Estimate for the project is \$183,000,000.

INFORMATION ABOUT PLANS AND SPECIFICATIONS

Drawings, Specifications, and Scope Information May Be Obtained From:

Ray Wang at raymond.wang@clarkconstruction.com (949-566-1428)

Bid documents can be viewed at: Clark Construction Group – California, LP, 180 Howard Street, Ste 1200, San Francisco, CA 94105 and online at our Building ConnectedTM website.

Trade Packages Include: Testing & Inspection, Field Engineering, Demolition, Concrete Reinforcement, CIP Concrete, Structural Steel, Miscellaneous Metals, Rough Carpentry, Waterproofing, Roofing, Fireproofing, Joint Sealants, HM Doors, Access Hatches, Glass & Glazing, Louvers, Drywall/Framing, Painting, Signage, Fire Suppression, Plumbing, HVAC, Process Mechanical, Earthwork, Asphalt, and Site Concrete.

MONTEREY & MWH CONSTRUCTORS, A JOINT VENTURE

An Equal Opportunity Employer

Is requesting bids from qualified LBE and DBE subcontractors and suppliers for
SFPUC SUNOL VALLEY WATER TREATMENT PLANT OZONATION
CONTRACT NO. WD-2897

Monterey Mechanical & MWH Constructors, a Joint Venture, is requesting sub bids and material quotes from CMD certified San Francisco Micro and Small-LBEs and SFPUC Micro & Small LBEs and Agency Certified DBEs for the following scopes of work: Tree removal, Security, Yard piping, Electrical, Concrete work, Reinforcing steel, Drilled piers, Janitorial services, Surveying, Misc. metals, Pre-engineered canopies, waterproofing, Insulation, Roofing, Doors, Glazing, Drywall, Flooring, Painting, Signage, Casework, Fire protection, Plumbing, HVAC, Excavation and grading, Paving, Fencing, Landscaping, Pipe materials/valves, Photographic documentation, SWPPP consultant, Welding, Portable toilets, Process equipment installation.

An electronic form of the bidding forms, contract specifications, drawings and available project information are available by request. To request these materials, email qbd@sfwater.org with this Contract No. WD-2897, the firm name, full address, email address, phone number, copy of contractor's license or business card, and a copy of a government-issued identification. Visit <https://webapps.sfpuc.org/bids/> for updates. Please be advised that prior to receiving these materials, all requestors will be required to complete, sign and comply with a Confidentiality Agreement.

Bidders are advised that this project is covered by a Project Labor Agreement (PLA) of which a copy is provided in the contract documents. All bids must be in accordance with plans and specifications, any deviations must be clearly shown as an alternate. 100% Performance and payment bonds may be required. Assistance is available. Estimated start of the project is early 2024 and completed within 50 months.

We encourage firms bidding large portions of work to partner with LBEs and DBEs for smaller portions of work within their specialty. We also encourage LBEs and DBEs to joint venture if their specialty is too large to bid individually.

Please email your bid to the estimator listed for your scope of work on **November 30th, 2023, or before 9am on Bid Day.**

Turner

Request for Qualification (RFQ)

RFQ Period: October 26, 2023 – November 21, 2023

Turner Construction Company (Turner) and the University of California, Berkeley
are seeking qualified Bidders for the following project:

Moffitt Library – University of California, Berkeley
UCB Project No. 12738A

Turner Construction Company has been selected as the Construction Manager for this project. The project is designed by BNIM Architects and MEP by Introba. Turner and UCB are facilitating an early release bid package that will be administered through Turner and contracted with UCB directly. This project is located at the heart of the campus, bounded by University Drive to the North, California Hall to the South, and Memorial Pool to the East. The Moffitt Library is a popular hub for undergraduates with the focus to cultivate a welcoming and inclusive environment. This project is an interior renovation of levels 1, 2, & 3 to create new spaces for students to study as well as upgrading aging HVAC and life safety systems within the entire building.

This RFQ will be limited to early purchase of Electrical and HVAC equipment only by vendors/ manufacturers.

Turner is currently seeking proposals for the following:

Bid Package #	Trade Package
23.00	HVAC EQUIPMENT
26.00	ELECTRICAL EQUIPMENT

Pre-Bid Meeting will be held on **November 7, 2023**. Pre-Bid RFI's will be due **November 10, 2023 at 3:00pm PST**. Vendor/Manufacturer proposals will be due no later than **November 21, 2023 at 3:00pm PST**.

Turner has a 20% UBE [MBE/WBE/DVBE/LGBTQ+] goal for this project.

University Project Reference: <https://www.lib.berkeley.edu/about/news/moffitt-fall-2022>

For information on the RFQ, please contact Chelsea Wong – Subject: UCB Moffitt Library Renovation Equipment Procurement at the following email address: cwong@tcco.com

California's Communities of Color

Continued from page 2

ogies, like artificial intelligence, we can act with urgency to ensure communities of color aren't left behind," said Melanie Morelos, California Strategy Senior Program Manager at Greenlining.

Senate Bill 253 (Senator Scott Wiener) – Climate Corporate Data Accountability Act

SB 253, The Climate Corporate Data Accountability Act, requires US-based corporations with operations in California and annual gross revenue of \$1 billion USD or greater to disclose their full greenhouse gas (GHG) emissions footprint to the public. Research has found that corporations have an outsized impact on our climate due to excessive GHG emissions. The disclosure required by SB 253 allows the public to hold corporations accountable for their role in the climate crisis.

With The Climate Corporate Data Accountability Act, California will be the first state in the nation to demand climate pollution transparency,

recognize the right of communities to know how and if corporations are working to reduce their emissions, and address the importance of verifying corporate claims of sustainable leadership.

Communities of color bear the brunt of environmental degradation and extreme weather events due to historical and ongoing injustices. Transparent data on emissions and their sources enables policymakers and the public more broadly to make informed decisions. It helps in the development of effective regulations, policies, and incentives that address climate change while considering the equitable distribution of resources and benefits to communities. Transparency empowers communities, especially those disproportionately affected by pollution, to advocate for their rights and demand cleaner, healthier environments. It allows them to participate actively in the decision-making process regarding nearby industrial activities and their environmental impact.

Las Virgenes Municipal Water District on behalf of the Las Virgenes - Triunfo Joint Powers Authority – Advanced Water Purification Facility Progressive Design-Build Procurement (Phase 1 – Preconstruction Services)

Project Location: 30800 Agoura Road, Agoura Hills, California

Pipeline Installation through Various Cities Between Agoura Hills and Camarillo, CA

REQUESTING PROPOSALS FROM ALL DBE FIRMS IN ACCORDANCE WITH TITLE 40 CFR PART 33.

Walsh Construction Company II, LLC (Walsh) is proposing on, as the Prime Contractor on a Design Build Entity (DBE) team, the Advanced Water Purification Facility Progressive Design-Build Procurement Project as put forth by Las Virgenes Municipal Water District on behalf of the Las Virgenes - Triunfo Joint Powers Authority. This project is being procured as a Progressive Design Build Project and the selection process is currently in process. The fundamental plan is to build an AWPFF to treat tertiary effluent from the Tapia WRF for IPR, and convey the purified water to the Las Virgenes Reservoir. The main technologies that will be installed are Micro/Ultra-Filtration, Reverse Osmosis and UV Disinfection Vessels, all to be housed within a new Facility.

At this time, Walsh is seeking proposals from eligible DBE firms to incorporate in our proposal, which will be submitted in response to the District's Request for Proposals (RFP) for this project. We are soliciting proposals for the following services and are willing to discuss breaking out any portion of the work into economically feasible units to facilitate DBE participation: LOCAL OUTREACH EFFORTS, SITE UTILITY INVESTIGATION, CONSTRUCTION PHOTOGRAPHY/VIDEOGRAPHY, PERMITTING ASSISTANCE, LABOR COMPLIANCE, STORMWATER POLLUTION PREVENTION, CONSTRUCTION NOISE MANAGEMENT, DRILLING, SURVEYING, ENGINEERING DESIGN and GEOTECHNICAL SERVICES.

Proposals must be valid for 90 Days. Conditions or exceptions on Subcontractor's proposal are expressly rejected unless accepted in writing. **Subcontractor proposals including any conditions or exceptions are required 1 week prior to the Proposals submission deadline, which is November 6, 2023 at 3:00PM,** to allow proper evaluation. For more information on this opportunity, please contact our office at (858) 715-7200 or socalwaterestimating@walshgroup.com.

WALSH CONSTRUCTION COMPANY II, LLC IS AN EQUAL OPPORTUNITY EMPLOYER AND STRONGLY SUPPORTS WORKFORCE DIVERSITY.

CLEVELAND, OHIO SUB-BID REQUEST AD

J.F. Shea Construction, Inc.
BIDDING OPPORTUNITY
City of Cleveland with the following certifying authority:
NEORS D MBE/WBE/SBE and Ohio EPA WPCLF

Inviting qualified contractors, specifically firms within City of Cleveland, to contact J.F. Shea Construction, Inc. (Prime Contractor listed below) regarding subcontracting services and material supply opportunities in connection with the upcoming tunnel and shafts project.

The Work under this contract is in Village of Cuyahoga Heights, Village of Newburgh Heights and the City of Cleveland, Ohio. The Work consists of:

SOUTHERLY TUNNEL AND CONSOLIDATION (SOTC)
Owner: Northeast Ohio Regional Sewer District
3900 Euclid Ave., Cleveland, OH 44115
BID DATE: November 30, 2023 at 1:00 PM

667 Brea Canyon Road, Suite 30 • Walnut, CA 91789
Phone: 909-594-0990 • Fax: 909-869-0827

Send Inquiries/Certifications to Aimee Remo: aimee.remo@jfshea.com

Opportunities to participate exist in the following specific areas of soil excavation, hauling, excavation support systems, deep foundation system (slurry walls or secant piles, soldier beams), dewatering systems, structural steel, engineering, survey, geotechnical instrumentation and monitoring services, materials testing, demolition and site preparation, tree removal, aggregates and fill, traffic control, sewer tap and sewer bypass pumping, A/C paving, environmental investigation, utility relocation, paving, fencing and gates, planting and seeding, retaining wall, cured in-place concrete structures, cast-in-place pipe lining, reinforcing steel, ground stabilization, shotcrete, concrete finishing, miscellaneous metals, mechanical steel pipe, ventilation HVAC, precast concrete shaft covers, temporary office buildings/ services, Temporary electricians, waterproofing, service utilities, grouting, electrical/I&C, River bank stabilization, drilled shaft, pest control, IT services, waste disposal, cleaning services, and security.

Any business seeking to participate as an MBE, WBE, SBE, or Ohio EPA WPCLF MBE/WBE in the Contract that is not currently certified as set forth above review **40 CFR 33.204-33.205, certified by EPA Teree Henderson at 202-566-2222 or 13 C.F.R. Part 121 Northeast Ohio Regional Sewer District, Business Opportunity Program (BOP) or NEORS D/OCC at neorsd.org** to obtain current certification.

J.F. Shea Construction, Inc. has an FTP site where you can view all plans, specifications and addendums for your convenience. Please contact Aimee Remo at (909) 594-0990, aimee.remo@jfshea.com, to receive instructions on accessing the FTP Site.

Cavs-Clinic Riverfront building is big, evolving

[Article originally appeared in www.cbctc.org]

By Ken Prendergast

Planning Commission input to shape Bedrock's plans

More illustrations were made publicly available this week, showing the large size of a new facility planned next to the Cuyahoga River in downtown Cleveland for the Cleveland Cavaliers' basketball practice facility and Cleveland Clinic's sports health-related medical services. Kansas City-based architectural firm Populous submitted the plans for what would be Bedrock Real Estate's first new building in its ambitious \$3.5 billion riverfront development to the City Planning Commission's Design Review Committee.

Although still in the early stages of design, the Cleveland Clinic Global Peak Performance Center is proposed to be a large, first-of-its-kind interdisciplinary training facility that would bridge over Eagle Road in what's called Flats South. Conceptual massings, which lack exterior textures and are provided to show scale and interior programming, demonstrate that size. They will

be scrutinized by the design review committee starting tomorrow with give-and-take continuing for at least a month or two.

But what those massings do show is that the new facility will be large, measuring nearly 250,000 square feet. They are technically two buildings in one, connected by a bridge building over Eagle. The larger of the two sites is proposed to be about 186,000 square feet and the smaller roughly 61,500 square feet. The larger structure will contain the Cavaliers' practice facility wrapped by offices atop 105-110 parking spaces in an enclosed space.

The smaller site will contain a Cleveland Clinic sports health facility. The bridge structure will contain what is termed a Cleveland Clinic "performance space." There will be a rooftop space for staff overlooking the river on the Cavs building. Site preparation work is already underway to rebuild aging riverside bulkheads that would support the future riverwalk and building.

Visit the link below for the full article:

Reaffirm Support for 8(a) Program

Continued from page 2

Association (NHOA), I look forward to continuing to work with SBA to ensure NHOs can continue to use the 8(a) program to address the disparities in our community through economic opportunities."

"The SBA's 8(a) Business Development Program has helped thousands of businesses prepare to take on federal contracts, helping them scale, grow their networks, and fuel job creation in their communities," said Chiling Tong, President and CEO of the National Asian/Pacific Islander American Chamber of Commerce and Entrepreneurship. "The National Asian/Pacific Islander American Chamber of Commerce and Entrepreneurship (National ACE) is optimistic that under updated SBA guidance, the 8(a) Program will continue to be a strong tool for underserved businesses preparing to pursue federal contracts. We were encouraged by the SBA's announcement that the 8(a) program is accepting new applications again, and we look forward to helping AAPI businesses access resources needed to apply to the program. In addition, we applaud the swift action by the SBA to ensure that the 8(a) program continues to be available to underserved businesses. National ACE looks forward to continuing our work with the SBA toward advancing our shared goal of increasing equity within the small business community."

"The SBA 8(a) Business Development Program serves as a crucial stepping-stone for thousands of small businesses entering the contracting and procurement space," said Angela Dingle, Chair of the Board for Women Impacting Public Policy.

"I am very impressed by the thought and responsiveness of the SBA in addressing the impacts of the recent ruling related to the valued 8(a) Program," said Pamela Prince-Eason, President and CEO of the Women's Business Enterprise National Council.

SMALL BUSINESS EXCHANGE

Innovation for clean and efficient commercial buildings

Robin Carnahan, Administrator of the U.S. General Services Administration (GSA).

Continued from page 1

RFI on sam.gov, available directly at Solicitation #FY24RFI101623. Please direct inquiries regarding the RFI to gpg@gsa.gov.

GSA's Green Proving Ground program works with third-party evaluators to test innovative early commercial building technologies in federally owned buildings. To date, following favorable evaluation results, 32 GPG-evaluated technologies have been deployed in more than 700 facilities in GSA's real-estate portfolio resulting in more than 116,000 tons annual CO2 reduction, \$28 million dollars of annual savings and \$375 million in lifecycle cost avoidance.

Mayor London Breed Announces New Proposed Activation of the Fillmore Heritage Center

[Article originally appeared in
<https://sf.gov>]

Mayor London N. Breed announced that the City is beginning lease negotiations with a new operator for the Fillmore Heritage Center, located at the corner of Fillmore and Eddy Streets in the Western Addition neighborhood of San Francisco.

After a competitive bidding process coordinated by the Mayor's Office of Housing and Community Development, Human Rights Commission, and Office of Economic and Workforce Development, the City is beginning lease negotiations with Westside Community Services, in partnership with the San Francisco Housing Development Corporation (SFHDC) and Fleming Development, for the activation and operation of the commercial portions of the Fillmore Heritage Center.

The proposed uses for the various commercial portions of the Fillmore Heritage Center include a premier destination restaurant of the African diaspora, programming of a diverse range of musical acts, a food hall and commercial kitchen, a visual art gallery focused on the African diaspora, along with space for meetings, corporate events, film festivals, and neighborhood events.

"This is an important step in our work to ensure the Fillmore Heritage Center returns as a place for the community to gather and celebrate our culture," said Mayor London Breed. "Our goal is to deliver a space that is active, exciting, and reflective of the community that has long made the Fillmore the amazing neighborhood we all know it to be."

"The next phase in this process represents a commitment from the City to celebrate, recognize, and invest in the rich culture and history of the Harlem of the West," said Sheryl Davis, executive director of the Human Rights Commission. "Moving forward, we will work with community to incorporate the magic of the past as we build out the innovations of the future."

"Our collective team is honored to engage in leasing discussions for the Fillmore Heritage Center. We deeply recognize and respect the Center's rich history and its immense potential, and we understand its pivotal role as a catalyst for economic, entrepreneurial, and creative growth in the Fillmore community and surrounding areas," said Mary Ann Jones, CEO of Westside Community Services. "Successful

Image credit by <https://hoodline.com>

lease negotiations will enable us to work hand in hand with Fillmore community stakeholders. Our vision is to transform the Center into a premier destination for performing arts and culinary excellence. We envision it as a shining symbol of Black prosperity that will inspire and uplift many generations to come."

Built in 2007, the Fillmore Heritage Center was developed as a multi-use facility with the goal to both revitalize the commercial corridor and honor the cultural heritage of the neighborhood. Once considered the "Harlem of the West", the Fillmore neighborhood is known for its vibrant community of African American residents and a center for Black-owned businesses, many of them music and entertainment establishments.

Today, the Fillmore District remains a vibrant community that continues to build on its Black heritage, while embracing its proximity to nearby neighborhoods, such as Japantown. The Fillmore continues to be a destination for live music and entertainment and has become a central location for annual festivals and events attracting thousands of attendees to partake in the entertainment, food, and history of the neighborhood.

"This is a victory," said the Rev. Dr. Amos C. Brown, pastor of San Francisco's historic Third Baptist Church in the Fillmore District. "This is an opportunity to build a world-class watering hole that celebrates the culture and the history of this community. This is a historic moment focused on revitalizing the Harlem of the West."

Westside Community Services, San Francisco Housing Development Corporation (SFHDC), and Fleming Development were selected as the Fillmore Heritage Center's operators through an open and competitive Request for Proposals process issued in February 2023. The City aims to finalize the lease for the Fillmore Heritage Center by March 2024, after Board of Supervisors approval. The performance space and gallery space are anticipated to be activated in Fall 2024. The proposed food hall and new flagship restaurant are anticipated to open in early 2025. City representatives will facilitate a community meeting in the coming weeks as lease negotiations commence.

SUCCESS STORIES

Livie & Luca's - Children's Shoes

[Article originally appeared in www.transportation.gov]

Website: <https://www.livieandluca.com>

I proudly share a 2-decade journey that started with a pair of shoes and transformed into a thriving, women-owned enterprise with a multi-million-dollar footprint.

It all started back in the early 2000s when I was a new mom. I had found an enchanting collection of children's shoes through a friend and we began selling them in our local communities. Our grassroots efforts gained traction and within a few months, we became business partners. This set the stage for a transformative journey that redefined my path and built me into the woman and leader I am today.

I didn't come from a business background; no prestigious MBA, no legacy of generational entrepreneurship. What I had was an independent spirit and an innate desire to carve my own path.

I saw the opportunity for freedom, flexibility, and the exciting challenge that this business opportunity could provide. This combined with sheer determination and a healthy dash of practicality, I embarked upon the path of entrepreneurship.

Our modest e-commerce venture quickly turned into a full-fledged shoe design & manufacturing enterprise, with a flourishing wholesale division and robust e-commerce presence with global reach. I soon recognized the need to embody the essence of a strategic and forward-thinking CEO while remaining authentic and true to the vision of the business I wanted to create.

It was then that I began working with the San Diego SCORE chapter. I started by attending an in-person workshop.

A pivotal moment occurred when the SCORE presenter emphasized the importance of the business owner's ability to replace themselves; to be able to work on the business and not just in

it. This principle stayed with me and was important until the very end of my tenure at the company, and continues to this day.

Motivated by the desire for growth, I also sought one-on-one mentorship through SCORE. A serendipitous match, my mentor brought in-depth shoe industry and manufacturing expertise.

With 10,000 SCORE volunteers around the country, this alignment epitomized SCORE's remarkable knack for connecting entrepreneurs with mentors who often have specific experience in their industry.

My one-on-one SCORE mentor and I met frequently over an extended period of time. He was instrumental in helping me connect with shoe manufacturers in Mexico, where the company began producing shoes with the most exquisite of leathers available.

With the help of SCORE, I was able to diversify the company's supply chain, take on the mind-

set of a successful business owner (strategic and true to my values), and also receive important help with budget creation and financial forecasting. Beyond the balance sheet, I was also instilled with an ethos of empowerment and resilience, values that were key to the success of the business.

Now, as a SCORE volunteer who supports others, I particularly enjoy supporting women business owners to elevate results through one-on-one clarity-building sessions. I find deep fulfillment in fanning the flames of their potential, fostering their growth while preserving their well-being.

My advice to aspiring and established entrepreneurs: Take advantage of the SCORE opportunity.
