

The Next Generation in Construction: A Spotlight on 6 Young Industry Innovators

[Article originally appeared in Autodesk Construction Cloud Blog. <https://construction.autodesk.com>]

By Kellyanne Mahoney

Construction is a vibrant industry full of innovative and talented professionals. But its future relies on the minds and passions of our youngest generations.

At Autodesk, part of our mission is to create a better industry for today and tomorrow. Through our Make It Real program, we encourage young people to engage with their communities by applying the design thinking process to real problems related to construction and the built environment. Two key initiatives include:

- **“Make It Modular” Scholarship Award:** We challenged high school students to up-cycle materials and reuse waste in the design of a structure that meets a need in their community and could also be repurposed in the future. Winners of the contest earned scholarship prizes totaling \$50,000 to support educational expenses such as tuition, books, room and board, transportation, and childcare.
- **Building Changemakers Microgrant Application:** This \$500 grant is intended for students ages 17-22 in the U.S. who are

Continued on page 14

In response to the Make It Modular scholarship award contest, student innovators applied design thinking skills and an engineering mindset in addressing issues like affordable housing, healthier learning environments, and Covid-era community spaces.

California Awards \$96 Million for Climate Projects in 10 Frontline Communities

[Article originally appeared in www.gov.ca.gov]

The state today approved \$96.2 million in grants to support 10 disadvantaged, unincorporated and tribal communities across California to plan and implement neighborhood-level projects that reduce greenhouse gas emissions, improve public health and the environment and expand economic

opportunity for residents.

Combined, the 10 projects approved today will reduce greenhouse gas emissions by 64,000 metric tons, equivalent to taking 14,000 cars off the road for one year.

“California is empowering communities on the frontlines of the climate crisis to tackle pollution and build resilience in their own neighbor-

hoods,” said Governor Gavin Newsom. “This innovative support for community-led projects across the state will bring environmental, health and economic benefits to Californians for decades to come.”

The California Strategic Growth Council voted unanimously today to approve this grant funding through the Transformative Climate Communities (TCC) program, which has awarded a total of \$230 million in 26 communities since 2016. In total, the state has allocated \$661 million to the TCC program since 2016. The program is an important component of the Governor’s multi-year \$54 billion California Climate Commitment to advance economic opportunity and environmental justice in communities across the state.

The current round of TCC grant funding will support seven planning grants and implementation of three climate resilience infrastructure proposals. Planning grants provide pre-con-

struction support to communities to successfully apply to future funding rounds though TCC or other funding sources, while implementation grants fund affordable housing, transit access, energy efficiency, building electrification, water and waste management, green infrastructure, air quality, workforce training, anti-displacement programs and more.

The TCC grants approved today will support projects in disadvantaged, unincorporated and tribal communities across the state:

- \$35,000,000 Award to South Los Angeles Eco-Lab
- \$35,000,000 Award to Richmond Rising
- \$24,165,510 Award to City of Stockton, Stockton Rising
- \$300,000 Award to County of San Diego – Spring Valley S.E.E.D.S.(Sustainable

WORKFORCE DEVELOPMENT

Small Businesses Find Solutions to Workforce Challenges in Criminal Justice Reform

[Article originally appeared in <https://smallbusinessmajority.org>]

Small Business Majority released new polling revealing bipartisan support for criminal justice reform, including implementing Clean Slate policies to create workforce diversity and expanding candidate pools.

The poll, conducted in six states – Georgia, Illinois, North Carolina, Ohio, Pennsylvania, and Texas – found that 84% of small business owners agreed that Clean Slate policies would open up a pool of job applicants that deserve a second chance. Regardless of political affiliation (30% of respondents identified as Republican, 37% of respondents identified as Democrat, and 27% of respondents identified as Independent), small businesses shared support for policies that can help boost labor recruitment. Given the ongoing workforce challenges hindering small business growth, the poll results confirmed widespread backing for policies that seal or expunge qualifying criminal records from background checks.

“Enacting policies that help us tap into a larger pool of candidates only makes sense,” said John

Arensmeyer, Founder & CEO, Small Business Majority. “Our new opinion poll reveals that small business owners are optimistic about their business conditions despite rising inflation, ongoing supply chain disruptions, and daunting hiring and recruiting labor needs. However, 63% of respondents say it’s hard to find quality candidates. Smaller firms widely support legislation that improves second-chance hiring opportunities for justice-impacted individuals, opening the candidate pool to those eager to contribute to their local economy and community. We are happy to join coalitions like the Workforce and Justice Alliance to help drive national change while also supporting small businesses seeking to engage in criminal justice reform efforts.”

For many small business owners, criminal justice reform is more than laws passed on Capitol Hill. One in three American adults has some form of criminal or arrest record, which can negatively impact families and communities. Even a minor criminal record can create lifelong barriers to employment, and communities of color are disproportionately affected. Small Business

Majority network members have often anecdotally shared that although they’ve had positive experiences with second-chance hiring, stigma can sometimes impede efforts to tap into this pool of applicants. The poll reveals that small businesses are aware of the inequities in the U.S. criminal justice system and agree with the following sentiments:

- 83% agree one way to expand the productivity and diversity of our nation’s workforce is by making it easier for employers to recruit from underused candidate pools.
- 79% agree that removing barriers to employment for people with criminal records will save tax dollars by reducing recidivism and the need for long-term government assistance.
- 71% agree that the U.S. criminal justice system disproportionately impacts people of color, leading to employment barriers and economic mobility.

“America is a nation of possibilities, but too often those possibilities are thwarted by stereo-

types and prejudices,” said Jonathan Summers, Founder, Sage Leadership Academy, Riverside, Calif. “As a small business owner and a formerly incarcerated person, I know what it means to open doors for others and give people a second chance. By doing that, I’ve learned that people are more similar than dissimilar, and most people are genuine at heart. This attitude has served my business well. I implore other small business owners to get past their personal fear and employ justice-impacted individuals because they could become your business’s rockstars.”

This report outlines support for policies that can help address our country’s hiring challenges. Utilized on federal and state levels, the poll findings make the case for stronger legislation that can help to reduce barriers to a diverse labor pool created by inequities in the criminal justice system.

ACCESS TO CAPITAL - READY TO GROW YOUR BUSINESS?

A Practical Guide to Funding Your Small Business with Business Loans and Beyond

[Article originally appeared in www.uschamber.com]

By: Sean Ludwig, Contributor & Lauren Wingo, Contributor

Here’s a detailed guide on how to fund your business, whether you’re just beginning or you have a few years under your belt.

Whether you’re just starting your business or growing an existing one, there are a multitude of options for small business funding to help meet the needs of your unique situation. To help you understand how to fund a small business, this guide will detail startup necessities, outline

funding options, and walk through what to consider when selecting a funding option.

Startup necessities

You should go into seeking funding for a new business armed with some information. First, decide what’s on your “need” list and what’s on your “it can wait” list. Pose the question this way: What is the bare minimum required you need to get your venture off the ground?

At the same time, you can’t skip on the necessities. This will, of course, be a major investment. So, if—when thinking through your new business venture—you put something on the “it

can wait” list, check with other areas that may be affected if that area doesn’t get funded.

Here are some common business expenses and the questions surrounding them to consider before trying to secure funding:

- **Payroll** — How many employees do you have, what are you paying them, and how many employees will you have in the next six months? Startup and small businesses don’t always stay small, so think about how many people you will need to start, but also how many you may need before you start making a profit. Also, consider how you’re going to pay yourself. As the founder of the

small business, you need to live, too.

- **Insurance** — Is your business prepared if disaster strikes? Will you be offering health insurance to your employees?
- Licensing, permits, and taxes — Doing business costs money and you want to make sure you won’t be running into any legal trouble. How much capital do you need to cover licenses, permits, and taxes?
- Rent and utilities — If you’re moving your business into a physical space, make sure you can afford your lease and utility costs

Minority & Women-Owned Subcontractor/Supplier Bids Requested For:

East Bay Municipal Utility District (EBMUD)

Upper San Leandro Water Treatment Plant Maintenance and Reliability, and Upper San Leandro and So-

brante Water Treatment Plants Chemical Systems Safety Improvements

Specification No. 2128

BIDS DUE: Wednesday, December 14th, 2022 at 1:30pm

Email quotes to jmiranda@shimmick.com

Shimmick is requesting quotes from certified minority & women-owned subcontractors and suppliers in the following scopes of work: Construction Area Signs; Traffic Control System; Plane Asphalt Concrete; Remove Concrete; Concrete Pumping; Seal Coat; Asphalt Concrete; Paving Asphalt; Furnish Precast Concrete Member; Reinforcing Steel; Air-Blown Mortar; Waterproofing; Steel Structures; Clean & Paint Steel; Filter Fabric; Welding Contractor; Sewer Manhole; Concrete Curb & Sidewalk; Saw Cutting; Paint and Stain Concrete; Fencing; Temporary Fencing; Lighting; Message Signs, Lighting & Sign Illumination; Construction Engineering & Inspection Services; Building Inspection Services; Electrical Engineers; Land Surveyor; SWPPP Planning; Building Construction; Drywall Construction; Crane Work; Lathing; Plastering; Roofing; Fire Protection; Painting Structures; Low Voltage Electrical Systems; Water Meter & Temp Facilities; Heating & Air Conditioning; Hardware (Rough); Coring; Concrete Cutting; Aerial/Photogrammetric Mapping Services; Trucking; Safety Equipment Supplier; Landscaping & Nursery Supplier; Landscaping Materials; Sand & Gravel Supplier; Asphalt Supplier; Concrete & Cement Supplier; Reinforcing Bar Section Supplier; Steel Supplier; Doors & Frames Supplier; Lumber Supplier; Pipe Supplier; Drainage Systems Supplier; Storm Water Systems Supplier; Fencing Supplier; Pavement Markers Supplier; Electrical & Signals Supplier; Building Material Supplier; Tools Supplier; Construction Staking Supplier

Plans are available free of charge on EBMUD's website at <https://construction-bids.ebmud.com/>. Shimmick / CEC JV can also provide a download link at your request. You may schedule an appointment via WebEx to discuss the documents during regular business hours. To make an appointment for viewing or to receive the download link, please contact Jamie Miranda at jmiranda@shimmick.com.

Should you require any assistance, please contact our estimator Brian Guerini at bguerini@shimmick.com.

All items of work listed above are made available, even items of work normally performed by Shimmick / CEC JV ("JV"). Please contact the lead estimator listed above for assistance with breaking down items of work into economically feasible units, with assistance obtaining equipment, supplies, materials, bonding, insurance, estimating, or related assistance. 100% Performance and Payment bonds with a surety company subject to approval of the JV are required of subcontractors for this project. The JV will pay bond premium up to 1.5%. Subcontractors will be required to abide by terms and conditions of the AGC Master Labor Agreements and to execute an agreement utilizing the latest JV Long Form Standard Subcontract incorporating prime contract terms and conditions, including payment provisions. The JV's listing of a Subcontractor is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with the Subcontractor's price quote. The JV requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation. For assistance with bonding, insurance or lines of credit contact Devin Nordhagen at devin.nordhagen@shimmick.com.

PLANT

TO ALL POTENTIAL DVBE & SBE SUBCONTRACTORS

Plant Construction Company, L.P. has been awarded and is requesting bids for the following trade packages for the CA State Visitor Center project below. **Certified Small Business Enterprises (SBE's) and Disabled Veteran Business Enterprises (DVBE's) are highly encouraged to bid especially those with certifications from CA Department of General Services (DGS).** There is a mandatory 3% DVBE requirement and a "good faith" requirement of 25% for SBE's.

**California State Capitol Visitor Center
Plant Project Number: 2019070
Owner: Joint Rules Committee, State of California
Owner's Representative: MOCA Systems**

Bidding is getting underway. Current Design-Build Bid Package 2a will be due on 11/14/22 at 12pm. See below.

Project Description: Project is the construction of a new underground Visitor Center building on the Capitol grounds west of the State Capitol Building (the "historic West Wing" building), facing 10th Street, between "N" St. and "L" St. Plant Construction is currently under contract as the designated Design-build entity for the Visitors Center project. For clarity, the Visitors Center construction is to the west of the historic West Wing, and is separate project from the new Capitol Annex Building (NCAB) project to the east of the West Wing, which Turner Construction is currently engaged on. Both projects are being undertaken with overlapping schedules. The following scopes are, but not limited to:

**Bid Package 02a: Design-Build Fire Protection, Plumbing, HVAC, Electrical and Low Voltage Electrical
Bid Package 02b: Design-Build Façade Entrances (automatic doors); design-build skylight system.**

Link to the Bid Documents:

Bid documents/drawings will be released after execution of a project NDA. We require subcontractors to sign and return the NDA to Plant before releasing any documents through our Building Connected portal. Subcontractors will also need to be prequalified with Plant to be awarded a contract. Please contact Richard below for more information.

To be added to our Subcontractor List for this and other project opportunities subcontractors are requested to contact Plant Construction Company, L.P.'s Preconstruction Coordinator: Richard Mak at (415) 550-5952 or by email at Richardm@plantco.com
• Plant Construction Company, L.P. is an equal opportunity employer.

ANVIL BUILDERS INC.

1550 Park Ave. Emeryville, California 94608.
Phone: 415-285-5000 • Fax: 415-285-5005

**Request for DBE's Subcontractors and Suppliers for
Project: As Needed Water Service Line Replacements
Contract No: WD-2889
Bid Date: December 1, 2022 • Bid Time: 2:00 PM**

The objective of the project is to provide permitting, excavation, traffic control, and restoration support for CDD crews to replace existing 2-inch and smaller galvanized water service lines with new copper services at various locations in San Francisco on an As Needed Basis. The work is to be performed in San Francisco, California. The Engineer's estimate is \$27,000,000.

Seeking all trades (but not limited to): Traffic Control, Sawcutting, and other required work and trades.

Plans, specifications, and requirements can be viewed at our office or by using the link below.

The complicated process of recycling batteries in Washington state

[Article originally appeared in
<https://crosscut.com>]

By Hannah Weinberger

At first glance, you might think Phil Currie is holding the world's least appetizing bar of chocolate. But the damaged computer battery — glossy, dark and segmented into bulging squares within a large Ziploc — presents a much bigger health risk than a Hershey's.

"We can't put these with other batteries because it might cause a fire," said the environmental field site specialist, standing amid drums and boxes full of battery waste at the North Seattle Hazardous Waste Facility. The collection site on Stone Avenue North, sandwiched between Aurora Avenue North and Haller Lake and decorated with whimsical frog statues, is one of four sites in King County where county residents can regularly drop off hazardous waste, including batteries.

More people are using batteries as battery-powered tools become bigger parts of our lives, from laptops to electric vehicles promising to release us from the grip of fossil fuels. But anything that holds a charge will ultimately need to be carefully disposed of. Rechargeable batteries like

nickel, lithium-ion, and lead batteries can be recycled into silverware, pots and pans, stainless steel and even new batteries. Single-use alkaline and lithium batteries can also be recycled into steel, with the former ending up in products as varied as road asphalt and sunscreen.

This creates more opportunities for people to dispose of batteries improperly, polluting the environment and putting waste processors' health at risk.

Many batteries can be recycled with the help of people like Currie and his colleague Diana Doyle. Recycling enables the reuse of metals and critical minerals such as lithium, cobalt and nickel that are in increasingly short supply and often inhumanely acquired.

"I see people wanting to do the right thing, often," Doyle said. "A lot of times they'll bring, literally, bless their heart, one battery in... from five miles away."

But many people don't know how, or don't have the resources, to dispose of batteries correctly. People involved in King County recycling and hazardous waste management as well as environmental advocates worry that the existing county and state systems and voluntary manufacturer take-back efforts just can't keep up with

demand in a safe way. Consumers need more help to dispose of their batteries safely, cheaply and equitably.

"We're making all these really amazing strides to help us and to improve our environment. And we're now realizing that those strides have some consequences, such as we really don't have a system set up to handle all these battery-containing products that we are now creating," said Tristen Gardner, who works on battery policy for the county.

A big boost in battery use — and potential harm

King County collects hazardous waste from at least 2.1 million residents and 60,000 businesses across 38 cities, unincorporated areas and two tribal nations, and has collected batteries for at least 15 years. In 2019, the Hazardous Waste Management Program collected 90,000 pounds of batteries from households and 4,000 pounds from businesses. Household batteries make up nearly 18% of King County's hazardous waste collection.

Gardner said about 200,000 pounds of batteries were properly disposed of in 2020. It's tough to say how many batteries are used in King County, which would give a better idea of proper disposal rates.

The county estimates 914,000 pounds of household single-use and rechargeable batteries were sent to Cedar Hills Regional Landfill in 2019 — about three times as much as in 2011, when 296,000 tons were sent there.

At the state level, the Department of Ecology reports that between 2016 and 2021, hazardous waste facilities working with households and small businesses collected 31% more batteries. "The amount of batteries in the waste stream is too small to detect any trends. But we know the use of batteries in consumer goods is growing exponentially," said Ecology's Dave Bennett.

That increase puts battery management "close to the top" of concerns for people thinking about recycling and product stewardship, said Adrian Tan, policy and market development manager for the King County Solid Waste Division. Based on what his colleagues see at landfills, people aren't disposing of batteries well.

PUBLIC LEGAL NOTICE ADVERTISEMENTS

GOLDEN GATE BRIDGE HIGHWAY & TRANSPORTATION DISTRICT

NOTICE INVITING BIDS

The Golden Gate Bridge, Highway and Transportation District (District) is soliciting bids from qualified firms for **Contract No. 2022-B-084, Suicide Deterrent System Rescue Training Net**. Bids must be uploaded to the District's Procurement Portal: <https://ggbhtd.bonfirehub.com> by December 6, 2022, at 2:00 p.m., Pacific Time, at which time bids will be publicly opened and read online.

Hard copy submissions will NOT be accepted. Hard copies received will be returned (unopened) to Bidders without consideration.

The bid opening will be conducted online only, and the District will be utilizing Microsoft Teams to conduct the meeting. Below is the Microsoft Teams Meeting information for Bidders who wish to participate in the bid opening. If you have not used Microsoft Teams before, please refer to the link: Join a Meeting in Teams prior to the meeting to ensure that you are able to join without technical difficulties. On the date and time of the meeting, press Ctrl+Click on the hyperlink, "Join Bid Opening." This meeting is specifically for the bid opening relative to the above Contract. Bidders may also call the telephone number and enter the Conference ID number provided below. Click here to join the meeting

Meeting ID: 221 729 857 109 Passcode: BZ8iWt
Download Teams | Join on the web

Join with a video conferencing device

Or call in (audio only)

+1 628-212-0729,,802017605#
United States, San Francisco

Phone Conference ID: 802 017 605#

This public works project consists of, in general, furnishing and installing net support frame, install District furnished stainless border cables, District furnished stainless steel net and District furnished hardware; existing concrete wall removal, furnishing and installing wood deck, furnishing and installing steel railings and guard rail; and all other related work items as required to complete the project titled , as shown on the Con-

tract Drawings and as specified in the Contract Documents.

A pre-bid conference will be held on **November 16, 2022 at 10:00 a.m.**, Pacific Time, at the Administration Building, Golden Gate Bridge Toll Plaza, San Francisco, CA, 94129. A job site tour will be conducted immediately after the conference. While attendance at this conference and the job site tour is not mandatory, the District highly recommends you attend. Due to the COVID-19 pandemic, bidders are notified that all state and local public health orders will be followed during the pre-bid conference. Depending on such requirements then in force, wearing of face masks and social distancing may be required. Parties interested in attending either the pre bid conference or the bid opening shall notify the District 24 hours prior to attending either event by contacting dmoore@goldengate.org.

Bidders bidding as the prime contractor shall possess a valid State of California Class A, General Engineering Contractor's License with a minimum experience of three (3) similar projects in scope and size, and three (3) public works projects in the past five (5) years at the time of Contract award. All subcontractors, if any, shall be properly licensed by the State of California to perform

specialized trades and shall have a minimum experience of three (3) similar project in scope and size and one (1) public project in scope and size in the past five (5) years at the time of Contract award. Pursuant to Public Contract Code Section 4104, each Bid Proposal must include the name and location of the place of business of each subcontractor who shall perform work or service, or install work for the prime contractor in excess of one-half of one percent (1/2 of 1%) of the bid price.

Bids must be accompanied by a deposit either in the form of cash, a certified or cashier's check, or Bidder's Bond, as described in the Contract Documents, which shall be applied to damages sustained by the District if the successful Bidder fails or refuses to enter into a contract awarded to it.

Bids shall be submitted on the District's Proposal Forms, including all attachments, and uploaded to the District's Procurement Portal: <https://ggbhtd.bonfirehub.com> and plainly marked with Bidder's name.

The District reserves the right to reject any and all bids or to waive any irregularities or informalities in any bid or in the bidding procedure. No Bidder may withdraw its bid for a period of ninety (90) days after the date of opening bids. Within two (2) working days of bid opening, a summary of Bidders' quotes will be available at the District's Procurement Portal website. To review the bid results, go to the District's Procurement Portal website: <https://ggbhtd.bonfirehub.com>

and look for Contract No. 2022-B-084. Each Bidder will be notified of award, if award is made.

The successful Bidder shall furnish a Performance Bond and a Payment Bond in amounts equal to one hundred percent (100%) of the total price of the Contract. District will retain five percent (5%) from each invoice/billing statement submitted in connection with the Contract. Pursuant to Public Contract Code Section 22300, the successful Bidder may submit certain securities in lieu of the District withholding funds from progress payments (retention) during the Project.

The District hereby notifies all Bidders that it is the policy of the District to ensure nondiscrimination on the basis of race, color, national origin, or sex in the award and administration of contracts.

Bidders are strongly encouraged to obtain Disadvantaged and Small Business Enterprise (DBE/SBE) participation on this Project. **DISADVANTAGED BUSINESS ENTERPRISES (DBEs) ARE, BY DEFINITION, CONSIDERED TO BE SBEs, AND ARE COVERED BY THE REFERENCES TO SBEs IN THIS DOCUMENT.** In order to achieve such participation, the District has developed procedures to remove barriers to DBE participation in the bidding and award process and to assist DBEs to develop and compete successfully outside of the DBE Program. These procedures include the establishment of a SBE Element of the District's Diversity Program for Contracts. The District has evaluated subcontracting opportunities for this Contract and determined that such opportunities exist and has established an SBE contract-specific goal of 9.2%. Bidders must meet the contract-specific SBE goal or demonstrate good faith efforts to do so. Bidders are encouraged to attend the pre-bid meeting to better understand the applicable DBE/SBE requirements. For DBE/SBE assistance, contact Artemisé Davenport, DBE Program Administrator, at (415) 257-4581.

In accordance with Section 1720 et seq. of the Labor Code, the general prevailing wage rates, as established by the Director of the California Department of Industrial Relations, will apply to this Contract. Information about prevailing wage rates for this Project is set forth in the Special

Provisions. The prevailing wage rates established by the California Department of Industrial Relations are available at <http://www.dir.ca.gov/DLSR/PWD>. Hard copies can be viewed at the District's Engineering Office or requested by mail, addressed to: Prevailing Wage Unit, Division of Labor Statistics and Research, Department of Industrial Relations, P.O. Box 420603, San Francisco, CA 94142.

Minimum wage rates for this Project, as determined by the U.S. Secretary of Labor, are set forth in Section 7-1.11E. If there is a difference between the minimum

wage rates determined by the Secretary of Labor and the prevailing wage rates determined by the State for similar classifications of labor, Contractor and its subcontractors shall pay no less than the higher wage rate.

Contractor and subcontractors must be registered with the California Department of Industrial Relations pursuant to Labor Code Section 1725.5. This Agreement is subject to monitoring and enforcement by the DIR pursuant to Labor Code Section 1771.4. The Contractor must post job site notices, as prescribed by regulation. The Contractor shall furnish the records specified in Labor Code Section 1776 directly to the Labor Commissioner, monthly in a format prescribed by the Labor Commissioner.

Bidders' attention is directed to the requirements of the Occupational Safety and Health Administration of the U.S. Department of Labor, which requirements shall apply to all work to be done under this Contract.

Bid documents are available at no charge on the District's Procurement Portal at <https://ggbhtd.bonfirehub.com>. In order to download and respond to posted solicitations, Bidders are required to register on the District's Procurement Portal. Once registered the documents may be downloaded. Click on the "Open Public Opportunities" page, click View Opportunity next to the desired project.

Any revision to the Bid Documents will be made by a written addendum and be available on the District's Procurement Portal for download at no charge. Such addendum will become a part of the Bid Documents and be binding on all Bidders. Bidder's receipt of the addendum shall be acknowledged and so noted by each Bidder in the space provided on the Proposal Form. It is the responsibility of Bidder to check the District's Procurement Portal website for any Addenda that may be issued relative to this Contract.

Questions regarding technical information and clarifications shall be submitted in the District's Procurement Portal by clicking on the Opportunity Q & A tab of the message section of the project page. Such submissions shall be sent no later than eight (8) calendar days before bid opening. Note that only written clarifications issued by the District are binding on the District. The District will post all pre-bid questions and the District's responses on the District's Procurement Portal website under Reference Number 2022-B-084. Bidders are encouraged to check the procurement portal website regularly.

Ewa Z. Bauer-Furbush, P.E., District Engineer

Dated at San Francisco, this 25th day of October 2022

SMALL BUSINESS EXCHANGE

A Practical Guide to Funding Your Small Business with Business Loans and Beyond

Continued from page 2

to keep things running. Make sure you clearly understand the terms of a commercial lease before signing a contract.

- **Equipment** — Do you need computers, phones, machinery, or other forms of equipment? Is renting or leasing equipment a possibility? Can you get equipment used? How much personal protective equipment (PPE) do you need to buy to protect worker and/or customer health?
- **Inventory and upcoming orders** — Do you have enough raw product to make your business continue to operate? If you don't, should you be investing in more?
- **Advertising and website** — You have to let people know you exist, and this doesn't happen without advertising and a good

website. Perhaps you will buy social media ads, rent billboards, put an ad in a local magazine, or optimize your site for the best search engine results. All of this costs money.

- **All the extras** — Will you or your employees need to travel? Are there consultants in your field you should pay for some advice? Will you need a lawyer on retainer or to handle any sort of small business matter such as obtaining a copyright or trademark?

Types of small business funding

There is no "right" way to fund your business, whether you're looking for startup funding or to maintain or grow your existing business. Some types of funding work better for different stages of your business, and sometimes the right answer might be a combination of funding types.

Here are some common ways to fund your business:

Traditional loans

If you are a new business, you might not have a credit history. In that case, traditional lenders will look at your personal credit when deciding whether to give you a loan. Your credit history is the track record of how promptly you pay your bills and is used to determine how risky it is to lend to you. Traditional lenders, like banks, are cautious with their money. If your credit score is below 680, there may not be many options for you in the traditional lending arena. On the other hand, if your business is more established (two or more years in operation) and you have good credit and at least \$100,000 a year in revenue, you'll probably find very good interest rates from a traditional lender.

Online lenders

If your credit score isn't up to par or you don't have much time in business, you might look at popular online lenders for a loan. According to a recent Small Business Credit Survey by the Federal Reserve, 22% of the businesses surveyed applied for funds through online lenders.

Personal loans

If you have a new business but your personal credit score is high, you might consider taking out a personal loan for funding. Be aware, though, that if your business fails, this will seriously impact your personal credit.

PUBLIC LEGAL NOTICE ADVERTISEMENTS

OAKLAND UNIFIED SCHOOL DISTRICT DEPARTMENT OF FACILITIES PLANNING AND MANAGEMENT

NOTICE TO BIDDERS DOCUMENT 00 11 11

Notice is hereby given that the Oakland Unified School District (hereinafter referred to as "Owner") will receive sealed bids prior to the date and time stated for the Bid Opening for the award of a contract to construct the ("Contract"), **Project No. 22135**

Oakland High School Security Improvement 1023 MacArthur Blvd, Oakland, CA. 94610

Project consists of:

Scope of work includes but not limited to Installation, replacement, and repair of surveillance cameras at Oakland High School including approximately 4 new, 102 replacements and 5 repairs. Scope also includes installation of door entry intercom system including Cisco CP-8865 Desk Station, Aiphone IX-DV series Video Door Station, Assa Abloy HES 9600 electric door strike, IXW-MA network relay, power supplies, conduit, wiring, programming, and training. All cameras, including the Aiphone door station, shall be programmed and integrated into Milestone XProtect software. The successful bidder shall have at least 5 years K12 experience, Milestone certification prior to bid opening, and in-house networking staff. Oakland Unified School District will provide servers if required, as well as Milestone licenses. Typical camera unit to be installed shall be Hanwha Wisenet QNV-8080R.

Engineer's Estimate: \$215,000

Project Manager is Kyle Brower, who can be reached at: kyle.brower@ousd.org and/or: 510-459-1809.

"The most qualified responsible responsive lowest bid shall be determined on the amount of the base bid." The Owner reserves the right to add or deduct any of the additive or deductive items after the lowest responsible and responsive bidder is determined. The lowest bid shall be determined by the amount of the base bid.

This Contract is not subject to prequalification pursuant to Public Contract Code section 20111.6.

This Contract is subject to the District's Project Labor Agreement.

The full version of OUSD's latest Project Labor Agreement can be found by going to the OUSD home page: ousd.org > Offices and Depts > Facilities Planning & Management Department > Opportunities > Project Labor Agreement > 2021 PLA

Bid Documents will be available on or after November 7, 2022, for review & pick-up at **East Bay Blue Print, located at 1745 14th Avenue, Oakland, CA 94606**. All requests should be addressed Attention: Sandy Petty. Plans can be ordered by:

Ph: 510-261-2990 Fax: 510-261-6077

Email: ebbp@eastbayblueprint.com,

Attn: Sandy. Online using the Plan Command System at www.eastbayblueprint.com or plans can be delivered to a place of business, at requester's own expense. Payment for plan sets must be made with East Bay Blue Print and are **NON-REFUNDABLE**

In addition, Contract Documents are available for bidders' review at the following builders' exchanges:

Builder's Exchange of Alameda County
McGraw Hill Construction Data
San Francisco Builder's Exchange
Reed Construction Market Data
Contra Costa Builder's Exchange
Marin Builder's Exchange

Public works projects shall be subject to compliance monitoring and enforcement by the Department of Industrial Relations. For all projects over Twenty-Five Thousand Dollars (\$25,000), a contractor or subcontractor shall not be qualified to submit a bid or to be listed in a bid proposal subject to the requirements of Public Contract Code section 4104 unless currently registered and qualified under Labor Code section 1725.5 to perform public work as defined by Divi-

sion 2, Part 7, Chapter 1 (§§1720 et seq.) of the Labor Code. For all projects over Twenty-Five Thousand Dollars (\$25,000), a contractor or subcontractor shall not be qualified to enter into, or engage in the performance of, any contract of public work (as defined by Division 2, Part 7, Chapter 1 (§§1720 et seq.) of the Labor Code) unless currently registered and qualified under Labor Code section 1725.5 to perform public work and proof of registration is provided.

The Contract Time shall be **90** calendar days, and liquidated damages for delay shall accrue. The deadline for Completion is TBD. See Article III of the Agreement for details.

Bids must be sealed and filed in the Business Office of the Owner at:

**Front Desk
Facilities Planning & Management
955 High Street, Oakland, CA 94601**

on **November 17, 2022, before 2:00 p.m.**, on the clock designated by the Owner or its representative as the bid clock, after which time the bids shall be opened. No bid will be accepted by the Owner after this time. Facsimile (FAX) copies of the bid will not be accepted. PLEASE NOTE: DUE TO COVID-19 BIDS WILL NOT BE OPENED. BID RESULTS WILL BE MADE AVAILABLE VIA EMAIL.

A voluntary pre-bid site visit will be held on **November 9, 2022, at 2:00 p.m.**, at Front entrance of the Oakland High School site. Bidders who will be attending the site visit will be asked to sign in.

Bids must be accompanied by a bidder's bond, cashier's check, or certified check for at least ten percent (10%) of the amount of the base bid and made payable to the Owner, as detailed in the Contract Documents.

Owner, or its designee, has determined that certain materials, services, products or things designated by specific brand or trade name shall not be subject to Public Contract Code section 3400(a) in order that a field test or experiment may be made to determine the product's suitability for future use; in order to match other materials, services, products or things in use on a particular Owner public improvement either completed or in the course of completion; in order to obtain a necessary item that is only available from one source; and in order to respond to an emergency declared by Owner.

Pursuant to the Contract Documents, the successful bidder will be required to furnish a Payment (Labor and Material) Bond in the amount of one hundred percent (100%) of the Contract Sum, and a Faithful Performance Bond in the amount of one hundred percent (100%) of the Contract Sum.

The successful bidder will be allowed to substitute securities or establish an escrow in lieu of retainage, pursuant to Public Contract Code Section 22300, and as described in the Agreement Between Owner and Contractor and General Conditions.

The Owner will not consider or accept any bids from contractors who are not licensed to do business in the State of California, in accordance with the California Public Contract Code, providing for the licensing of contractors. In accordance with Section 3300 of said Code, the bidder shall have a **C7 – Low Voltage Systems and/or C10 – Electrical Contractors license and Milestone Certification** license and shall maintain that license in good standing through Completion of the Contract and all applicable warranty periods. For all projects over Twenty-Five Thousand Dollars (\$25,000), the bidder shall state the public works contractor registration number on the Designation of Subcontractors form for each subcontractor performing more than one-half of one percent (0.5%) of the bidder's total bid.

The Director of Industrial Relations of the State of California, in the manner provided by law, has ascertained the general prevailing rate of per diem wages and rate for legal holidays and overtime work. The Contractor must pay for any labor therein described or classified in an amount not less than the rates specified. Copies of the required rates are on file at the Owner's business office and are available on request.

OAKLAND UNIFIED SCHOOL DISTRICT DEPARTMENT OF FACILITIES PLANNING AND MANAGEMENT

NOTICE TO BIDDERS DOCUMENT 00 11 11-CUPCAA

Notice is hereby given that the Oakland Unified School District (hereinafter referred to as "Owner") will receive sealed bids prior to the date and time stated for the Bid Opening for the award of a contract to construct the ("Contract"), **Project No. 22141 & Project No. 22153**

A Voluntary pre-bid site visit will be held on **November 2, 2022, at 2:00 p.m.**, at Front entrance of the Rudsdale/Sojourner Truth site and Skyline High School to follow. Bidders who will be attending the site visit will be asked to sign in.

Bids must be accompanied by a bidder's bond, cashier's check, or certified check for at least ten percent (10%) of the amount of the base bid and made payable to the Owner, as detailed in the Contract Documents.

Owner, or its designee, has determined that certain materials, services, products or things designated by specific brand or trade name shall not be subject to Public Contract Code section 3400(a) in order that a field test or experiment may be made to determine the product's suitability for future use; in order to match other materials, services, products or things in use on a particular Owner public improvement either completed or in the course of completion; in order to obtain a necessary item that is only available from one source; and in order to respond to an emergency declared by Owner.

Pursuant to the Contract Documents, the successful bidder will be required to furnish a Payment (Labor and Material) Bond in the amount of one hundred percent (100%) of the Contract Sum, and a Faithful Performance Bond in the amount of one hundred percent (100%) of the Contract Sum.

The successful bidder will be allowed to substitute securities or establish an escrow in lieu of retainage, pursuant to Public Contract Code Section 22300, and as described in the Agreement Between Owner and Contractor and General Conditions.

The Owner will not consider or accept any bids from contractors who are not licensed to do business in the State of California, in accordance with the California Public Contract Code, providing for the licensing of contractors. In accordance with Section 3300 of said Code, the bidder shall have a **C7 – Low Voltage Systems and/or C10 – Electrical Contractors license and Milestone Certification** license and shall maintain that license in good standing through Completion of the Contract and all applicable warranty periods. For all projects over Twenty-Five Thousand Dollars (\$25,000), the bidder shall state the public works contractor registration number on the Designation of Subcontractors form for each subcontractor performing more than one-half of one percent (0.5%) of the bidder's total bid.

The Director of Industrial Relations of the State of California, in the manner provided by law, has ascertained the general prevailing rate of per diem wages and rate for legal holidays and overtime work. The Contractor must pay for any labor therein described or classified in an amount not less than the rates specified. Copies of the required rates are on file at the Owner's business office and are available on request.

PUBLIC LEGAL NOTICE ADVERTISEMENTS

OAKLAND UNIFIED SCHOOL DISTRICT DEPARTMENT OF FACILITIES PLANNING AND MANAGEMENT

NOTICE TO BIDDERS DOCUMENT 00 11 11- CUPCCAA

Notice is hereby given that the Oakland Unified School District (hereinafter referred to as "Owner") will receive sealed bids prior to the date and time stated for the Bid Opening for the award of a contract to construct the ("Contract"), **Project No. 22140 and Project No. 22152**

Security Improvement Projects
Fremont High School – Project No. 22140
4610 Foothill Blvd, Oakland, CA. 94601
and
Street Academy – Project No. 22152
417 29th Street, Oakland, CA. 94609

Project consists of:

Scope of work includes but not limited to installation, replacement, and repair of surveillance cameras at two sites - Fremont HS and Street Academy. Fremont HS includes approximately 32 new, 14 replacements and 37 repairs. Street Academy includes approximately 13 new and 3 repairs (no replacements). All cameras shall be programmed and integrated into Milestone XProtect software. The successful bidder shall have at least 5 years K-12 experience, Milestone certification prior to bid opening, and in-house networking staff. OUSD will provide servers if required, as well as Milestone licenses. Typical camera unit to be installed shall be Hanwha Wisenet QNV-8080R.

Engineer's Estimate: Fremont High School - **\$100,000.00**

Engineer's Estimate: Street Academy - **\$25,000.00**

Project Manager is Kyle Brower, who can be reached at: kyle.brower@ousd.org and/or: 510-459-1809.

"The most qualified responsible responsive lowest bid shall be determined on the amount of the base bid." The Owner reserves the right to add or deduct any of the additive or deductive items after the lowest responsible and responsive bidder is determined. The lowest bid shall be determined by the amount of the base bid.

This Contract is not subject to prequalification pursuant to Public Contract Code section 20111.6.

This Contract is subject to the District's Project Labor Agreement.

The full version of OUSD's latest Project Labor Agreement can be found by going to the OUSD home page: ousd.org > Offices and Depts > Facilities Planning & Management Department > Opportunities > Project Labor Agreement > 2021 PLA

Bid Documents will be available on or after November 2, 2022, for review & pick-up at **East Bay Blue Print, located at 1745 14th Avenue, Oakland, CA 94606**. All requests should be addressed Attention: Sandy Petty. Plans can be ordered by:

Ph: 510-261-2990 Fax: 510-261-6077
Email: ebbp@eastbayblueprint.com,
Attn: Sandy. Online using the Plan Command System at www.eastbayblueprint.com or plans can be delivered to a place of business, at requester's own expense. Payment for plan sets must be made with East Bay Blue Print and are **NON-REFUNDABLE**

NOTICE TO BIDDERS DOCUMENT 00 11 11

Notice is hereby given that the Oakland Unified School District (hereinafter referred to as "Owner") will receive sealed bids prior to the date and time stated for the Bid Opening for the award of a contract to construct the ("Contract"), Project No. 22155

Havenscourt/Lockwood Campus Window Replacement

Havenscourt Middle School
1360 66th Avenue, Oakland, CA. 94619

Lockwood STEAM Academy
6701 International Blvd., Oakland, CA. 94621

Project consists of:

New Window Specification for the Havenscourt and Lockwood School Campuses. Demolish existing windows, patching, and painting of openings inside and out as needed. F&I new three sectional windows, top section stationary, two lower sections operable, awning type, with four-inch opening restrictors (1st floor only), dual pane low E rating tinted glass, window guards, rest room panes to be obscure, dark bronze finish frames. Shop drawings are required for approval. Havenscourt Campus Building M - 95 windows - approximately 3' x 7' high, bidders to verify. Lockwood Campus Building E - 48 windows - approximately 3' x 7' high, bidders to verify. The Lockwood Kindergarten Building B - 91 windows of different sizes - This building has a variation of different type and size windows on all nine sides of the building and during the pre-bid walk the different designs will be explained awning, fixed and or hopper. However, the classroom windows will have awning type with four-inch opening restrictors in the middle of the frame and fixed windows top and bottom. Bidders to include for each of the buildings - dollar amounts, estimated time for performing the work after approval of shop drawings to final installation. Based on the dollar amount of each building the District will decide on which building(s) to select for the work. All new windows for the Havenscourt Building M and Lockwood Building E to match existing windows on the Havenscourt School's 66th Avenue Street elevation. Site improvements include, but not limited to, underground utilities, retaining walls, play structure, landscaping, hardscape,

bioswale, artificial turf playfield and public right-of-way improvements.

Engineer's Estimate:
Havenscourt Campus Building M - **\$1,222,000.00**

Engineer's Estimate:
Lockwood Campus Building E - **\$663,730.00**

Engineers' Estimate:
Lockwood Kindergarten Building B - **\$1,114,270.00**

California Awards \$96 Million for Climate Projects in 10 Frontline Communities

Continued from page 1

Environments & Engaged Development Strategies)

- \$299,922 Award to Karuk Tribe – Panámnik, sákriiv nukyâavish! (Orleans, we are making it strong!)
- \$299,113 Award to County of Monterey – Climate Prosperity for Pájaro Valley
- \$217,000 Award to Chicken Ranch Rancheria
- \$299,967 Award to Allensworth Progressive Association
- \$300,000 Award to Native American Environmental Protection Coalition
- \$299,800 Award to Wiyot Tribe

"Yóotva (thank you) to the State of California for bringing Tribes into the room and having access to this opportunity. The Karuk Tribe is the second largest Tribe in California and our native communities, like Orleans, are going to be some

Photos from the Transform Fresno project, which received a \$66.5 million TCC grant in Round 1 of the program

of the most impacted environmentally and economically due to new climate realities. With this planning effort we can get ahead of the crisis," said Russell Attebery, Tribal Chairman of the Karuk Tribe.

"Community groups like SAJE, SCOPE and TRUST South LA have advocated for almost a decade for climate investments to come to the community of South Los Angeles and to consider the needs of existing community members," said Marie Patiño Gutierrez, Director of Policy and Research at Strategic Actions for a Just Economy and community leader with South LA Eco-Lab. "An investment of this size will greatly benefit our neighbors and support strong tenant and small business protections and policies for our communities in the long term."

7 Mistakes a Seasoned Estimator Knows Not to Make

[Article originally appeared in
Autodesk Construction Cloud Blog,
<https://construction.autodesk.com>]

By Nate Coombs

Construction is an industry with razor-thin margins. It's important not to overlook the importance of comprehensive budgets and estimates when companies are working under immense pressure to get work done on time and for a profit.

Overlooking cost variances may lead to big hits to your profit margin. That's why the most experienced and tenured estimators across the industry handle their projects differently, focusing on cost certainty and leveraging all the tools at their disposal. They use data to their advantage and spend their time increasing accuracy and reducing errors, until they have a high level of confidence their project will fall inside the upper and lower limits of their estimate.

As an estimator, there are things you need to be picky about. There are also sand traps that you need to avoid. Fortunately, with a few small changes, you can more often avoid potential mistakes and improve your estimates in the long term.

1. Spreadsheet reliance

Spreadsheets may sometimes be a bit of a necessary evil – you may need them sometimes, but overreliance can hinder the estimation process. Working solely or primarily out of spreadsheets leaves your estimates prone to error. Manual inputs and human error, accidentally deleting a spreadsheet, or not having all the spreadsheets you need in one place can all lead to damaging errors.

Consider using cloud-based construction estimating software to reduce your reliance on spreadsheets. Rather than going back and forth between different spreadsheets, you can keep all the little details you need in one place. As an estimator, a cloud-based cost estimating solution can help keep your company competitive, because you can create realistic bids faster.

2. Not using templates

When you have a template, it's much easier to make sure you have consistency across project bids. Not starting from scratch every time is a good way to save time, yes, but it also means you're less likely to omit important information.

With templates, you can prefill vital information, such as your business's contact information, contract terms, and other details that could influence the value of your bid or the work you're doing. You want a good template that has all the agreed-upon rates printed clearly for yourself and your clients.

3. Not performing adequate risk analysis

Risk analysis is simply a part of the job for you, because not realizing all the potential risks could mean that you put together an estimate for a project that is just too low. From bespoke and niche designs that add time and additional ma-

Image credit by <https://worldestimating.com>

terial costs to not factoring in material cost increases, you could run into trouble if the risks end up coming to fruition.

When you're assessing a new project, take the time to really get to know it. Take a spin in the model, ask the VDC manager or project manager for an overview, any familiarity you can gain will benefit you in the long hall. If there is any part of the project that is a high risk, keep digging until you understand the possible downsides of that part of the build.

4. Not using available models

2D and 3D models are an essential part of creating an accurate estimate. The best estimators know how and when to leverage models to get the most benefits out of them.

As mentioned under #3, models help you better visualize a design or the plans for a project, so you have a real grasp of the full scope of the project. With the right model, you'll be able to generate a more accurate takeoff, faster. Keep in mind, too, that having instant access to model quantities for items that are tedious or hard to count accurately in 2D will save you time and reduce the risk of omissions and miscalculations.

5. Not using the right pricing

Not using the right pricing causes issues. Remember that you must account for changes in the cost of labor or materials in different regions. You may even need to calculate different pricing based on the time of year or changes in the economy.

For the most accurate estimate, you'll at least need pricing that you can change automatically based on the region you're working in. You should be able to access transparent pricing information, including the current prevailing wages and private wages in the area. Using a construction cost database helps you start out your bid with the right cost information available at your fingertips.

6. Not checking your work

According to a survey by Quickbooks, 1 in 4 construction companies would go out of business if they made just two or three inaccurate estimates. Double checking your work is of the utmost importance to avoid errors that could hurt your business's bottom line.

The last thing you want is to see that you won a fixed-price-contract but undershot the actual estimate by 5, 10, or even 20% of its true value.

7. Not counterchecking subcontractor proposals

Subcontractors submit project bids for different jobs, and it's your job to go through the proposals to see what is or is not included. You need to make sure that the subcontractors didn't miss part of their scope or omit it from the bid.

When you dig through these proposals, you're giving yourself the opportunity to countercheck the subcontractors' work and to make sure they're not overquoting the price.

Improve Your Estimates and Make Better Bids

Improving your estimates is possible if you use the right software. Construction cost databases, construction takeoff software, and construction estimating software all help you be sure you have the right numbers to make decisions about your project.

With the right information, you'll reduce the likelihood of underbidding and minimize the chances of errors of omission. Consider trying ProEst construction estimating software and Autodesk Takeoff to take your project from bid to takeoff more quickly and easily than before.

Additionally, if you want to learn how you can accelerate your estimating, 2D and 3D takeoff workflows, you may want to check out our MasterClass for Estimators.

If you think a demo would be helpful, please contact us. We'd be happy to show you around and answer all your questions.

A Spotlight on 6 Young Industry Innovators

transitioning from high school into an apprenticeship or additional vocational training in the building trades. It may be used to cover expenses to support training such as tuition, books, safety equipment, uniforms, lab fees, transportation, certification fees, or childcare. This program will run until November 7, 2022, or until the \$50,000 in funds allotted for this program run out.

So far, we've had some incredible winners for our scholarship award and microgrants. We recently had the opportunity to speak to six of our winners to discuss more about what inspired them to enter the awards or challenge, and what's needed to build a better future for the industry. Read their insights, below!

["Make It Modular" Scholarship Award Winners](#)

Sophia DiLoreto, Senior,
Wachusett Regional High School, Massachusetts

Tell us about your submission. What inspired you to enter the design challenge?

My submission was for a design challenge in which a shipping container was to be repurposed into something greater. I decided to design an outdoor classroom that could be sent out after a natural disaster, to be used during construction, etc. What inspired me to get involved in the design challenge was the challenge itself. Designing an entire classroom made out of a shipping container is a grand feat. I wanted to push my creative ability and produce something I was truly proud of. Looking back, I realize that my design has the potential to be used in the real world.

What impact do you think the scholarship will have on your future?

I believe that this scholarship has given me a huge step into the computer drafting and design field. If students are looking for a good resume builder, the Instructables challenges are great for it! A prize or placement is not necessary for colleges or future employers to see dedication and creativeness. Not only that, but this scholarship has given me confidence in my creations. After putting hours and days into my design, I started to see the things I was capable of.

Why are you inspired to pursue a career in the AEC (architecture, engineering, and construction) industry? What impact do you hope to make in the industry?

I am interested in pursuing a career in the engineering industry because I feel as though it has the greatest impact on communities and people's personal lives. I've always found the engineering field fascinating as there are so many different opportunities to try. I hope to bring new ideas and processes into the engineering field. I

believe the engineering industry has the chance to make people's everyday lives a little bit easier and make their quality of life better.

Michael Hidalgo of Florida,
Freshman, Miami Dade College, Florida

Tell us about your submission. What inspired you to enter the design challenge?

From the moment I learned about the challenge, I knew I wanted to enter. I was presented with a platform to share my solution to the increasing homeless population and cost of living. On my way to school, I would notice how the homeless would live by an intersection for days or weeks at a time before they would find something more stable. Next to this intersection, there's also a large parking lot that is never at capacity. I thought it would be effective to create inexpensive self-sustained modular home units that could be placed and relocated where needed. That was easier said than done. The research took time, and it was often discouraging.

The more I researched the more hurdles I encountered and that required me to research even more. I wanted this project to be feasible and creating a completely self-sustaining home out of a 20' x 8' x 9'6" container without spending too much money was difficult. Everything from space to plumbing to electricity to cooling to withstanding the elements was a challenge. Allocating my time between the design challenge and my other responsibilities was difficult. I spent almost a month gathering information and creating different potential plans before I started designing. Once I started designing, I very quickly realized I had no idea how to digitize my ideas. I had to do more research and learn how to use the software.

The entire process was a back-and-forth between an idea popping up, researching the viability, and figuring out how to put it into my digital model. This was all very frustrating because there was a challenge at every step, but I had to overcome them. Exceptionally frustrating were the renderings, I collectively spent over a week with my computer on day and night rendering, and it was heartbreaking when my computer would crash, or I'd notice I should make a change and must redo a series of renders.

Creating the physical prototype was straightforward after the digital model had been completed but it posed some challenges because I hadn't done anything like it. I knew a 3D printer would make the entire process much easier, but I didn't have access to one, so I made the best of what I had. Almost everything I did on the physical model was an application of the basic principles I had learned in my art classes. Scoring cardstock was an example that allowed me to create

the exterior walls. Everything took much longer than I had anticipated, both for the physical and digital models.

If I were to give advice, it would be to start early and don't get discouraged because you can do it even though it may not initially seem like it.

What impact do you think the scholarship will have on your future?

The Autodesk Construction Solutions Scholarship Award has given me hope. Since completing my entry, I've enrolled in a two-year community college because of the high cost of universities. Now that I've been awarded the scholarship, the ability to use it for housing has freed me to explore state universities across Florida and possibly out of state. However, the most valuable thing this scholarship has provided me is hope. I had never thought I could earn a \$10,000 scholarship. This whole experience has come as a shock to me and has encouraged me to continue pushing myself.

Why are you inspired to pursue a career in the AEC industry? What impact do you hope to make in the industry?

From a young age, I've always wondered how tall buildings, highway overpasses, and bridges are designed and built. I always had a curiosity, but I didn't necessarily see it as a career path. It took me a while to learn that civil engineering was what I wanted to study. I didn't have any college graduates in my family, nor did I know any engineers. Through research, clubs, and job shadowing that connected me with people in the industry, I was able to solidify this was the industry I wanted to be in.

In our country, our infrastructure is aging even though we continue increasing our reliance on them. Infrastructure is falling into disrepair and instead of preventing what we have from deteriorating, we only react once it is too late. In the AEC industry, I hope to implement ways to save our current infrastructure and create a more resilient and robust future.

I first learned about the Make It Modular design challenge through the ACE Mentor Program, a club that I was a part of during high school. I thought that this design challenge would be a great way to practice the many skills that I picked up from ACE Club and my school courses.

[Building Changemakers Microgrant Winners](#)

Rilee Irby, Senior,
Olathe North High School –
Olathe Advanced Technical Center, Kansas;
Building Changemakers Microgrant winner

What are some problems that the building industry is facing right now?

The lack of non-traditional employees. For example, the lack of diversity when it comes to females in this industry. When you think of

construction, most of the time you think of an industry dominated by males. Why though? Females are just as capable of completing a job to the same standards, if not better than most men.

How can you help build a better future through your work in the trades?

I will show great leadership through my passion to continue to perfect my skills.

What do you need right now to get started? Or, how will you use the microgrant funds?

Right now, as a high school senior, I am using the funds to purchase equipment to further my construction abilities.

Jared Costlychong, Senior,
Dearborn STEM Academy, Massachusetts
Building Changemakers Microgrant winner

What are some problems that the building industry is facing right now?

The industry is in dire need of more people of color and women to enter the trades. There is a gap of information that is being broadcasted to those in the younger generation to know about the trades and the benefits. Trades are often seen as a backup plan instead of a pathway to success.

How can you help build a better future through your work in the trades?

My goal is to become an electrician and come back to my high school at Dearborn STEM Academy and promote the industry through its guest speakers' series, or other career exploration opportunities. If I did not participate in these activities, I myself would not have been exposed to the industry.

What do you need right now to get started? Or, how will you use the microgrant funds?

I will use the funds to help purchase a computer in order for me to be successful in my training.

Connor Jasper, Senior,
Olathe South High School, Kansas;
Building Changemakers Microgrant winner

How can you help build a better future through your work in the trades?

By taking pride in my work and inspiring and leading others to do the same.

SUCCESS STORIES

Denise Doss, Niecy's Delight

[Article originally appeared in <https://cameonetwork.org>]

Meet Denise Doss the owner of Niecy's Delight. She specializes in production of a pound cake recipe developed by her 103-year-old Grandmother, Carrie Doss of Littlerock, Arkansas. She currently produces three flavors, Pure Vanilla, Classic Lemon, and Forever Pineapple.

NEW-WBC was instrumental in helping Denise with her business, from business start-up, particularly on licensing, permitting, and marketing her business.

Denise came to NEW-WBC with a dream of producing her grandmother's delicious pound cake recipes that were popular with friends and family. She had been selling them, but not as an official business so she enrolled in our 6-week cottage food program. There she attended webinars and received one-on-one guidance for our Cottage Food Consultant, Sonia Chang. She then was able to create her business plan, incorporate her business, and obtain local and state licenses. She said Sonia was extremely helpful with helping her to develop her branding, packaging, and labeling. She recently started selling at her first Farmer's Market in Altadena, Ca.

Denise said, "The program was instrumental in her establishing a viable business and she

really enjoyed the collaboration with other diverse home-based business owners that shared their insights in the webinars and networking events. There was so much support from the NEW WBC team. It made it feel like I had a strong network to rely on during my journey. I

was not expecting to get a college level education on this small facet of the food business. It was wonderful and gave me confidence."

Rob Robinson Former Client of Bay Area Legal Services

[Article originally appeared in <https://bals.org>]

I am a disabled veteran who has experienced a long declining state of health and career for ten years. After a severe storm flooded and destroyed my home, I was left living there, still with my four old border collies. We lost everything. However, in a box, I found a 12-year-old camera I had forgotten I'd bought (more on that later). Eventually, the city condemned the property, and I moved myself and the pups to a very small slum rental in South Tampa.

While I was there, the owners changed several times, and while HUD-VASH was working to help relocate us, a new owner emerged and tried to evict us. Bay Area Legal Services stepped in and intervened on my behalf, which gave time for our relocation to be completed.

Initially, using my own photos from that camera, I started writing stories. One page evolved into a fully-accredited photo-journal that supports shelters and Florida dog activities while advocating for full active lives for veterans and their dogs.

Jorge Ochoa, Leonora Goat Dairy

[Article originally appeared in <https://cameonetwork.org>]

Meet Jorge Ochoa, owner of a goat dairy farm called Leonora Goat Dairy. Jorge grew up in Mexico where his family has a rich history of working with animals on a farm. When he came to the United States, he wanted to carry on his family's legacy and start a farm of his own. He heard about our services on the radio, and reached out to us to be a co-pilot in his new venture.

Our team at FTHF is determined and committed to facilitating the dreams of immigrants, women, and people of color in the food industry. We strive to meet our borrowers where they are, and give them the right tools to be successful. Even though Jorge's first language is Spanish, it was not a barrier to his goals. Juan, our Fresno loan officer, worked one on one with Jorge, communicating through his native language, Spanish, every step of the way towards securing his loan.

Learn more about our support services and other borrowers here: <http://www.feed-hunger.com>

SOURCE: <https://cameonetwork.org/success-story/jorge-ochoa-leonora-goat-dairy/>

JJ Lee & Chris Lord, Overtone Productions

[Article originally appeared in <https://cameonetwork.org>]

JJ Lee and Chris Lord enrolled in the Individual Development Account program with CAMEO member Koreatown Youth and Community Center (KYCC) in Los Angeles with the goal of launching a music production company. Upon completion of their required savings and education trainings, they were able to secure capital for equipping their home-based production studio.

Overtone Productions started as a formal partnership in March of 2005. Overtone provides music for many purposes, including music for movies, television, commercials, corporate presentations, video games and other multimedia.

Their recent production credits include original music for "Blind Ambition", "Communication", video games "Orchida" and "Drop Cast", and a number of scores and theme music for television production.

They have also received additional credits for such Hollywood hits as "Ant Bully", "Evan Almighty", "Charlie Wilson's War", and "The Great Debaters." They have been selected as top 10 semi-finalists in the 8th Annual Young Film Composers Competition, as well as awards from the Society of Composers and Lyricists Mentor Program, and the 5th Annual Game Audio Network Guild.

Revised Bid Date: November 15, 2022, @ 2:00pm PST

Request for DBE sub-quotes

Kiewit Infrastructure West Co. ("Kiewit") is seeking quotes from qualified Disadvantaged Business Enterprises (DBE) to perform as subcontractors, material contractors, and suppliers. DBE must provide evidence of certification by the U.S. Department of Transportation.

Kiewit will be requesting quotes for various areas of work listed in, but not limited to, the scopes of work below. **Aggregate – geosynthetic – trucking and hauling – asphalt paving – curbing and gutter – fencing – landscape contractors – ready mix supplies – concrete reinforcing installation – tracking and rails - striping**

Firms interested in receiving a bid package for this project must contact us at the e-mail address noted. Responding firms will be issued an "Invitation to Bid" through Kiewit's electronic use of SmartBid system (at no cost to bidder) with project information and bid instructions. Plans and specifications will also be available for review at the address listed below if requested.

This project is subject to Project Labor Agreement, Labor Compliant and prevailing wage rates. The project is partially funded by a U.S. Department of Transportation MARAD FY 2019 PIDP (CFDA No. 20.823) Grant No 693JF72040020 and is subject to federal funding requirements including, but not limited to the DBE Program requirements, and the California Labor Code.

Responsive bidders must possess a valid California Contractor's license (as appropriate) and provide acceptable insurance. Responsible subcontractors and material contractors may be required to provide bonding for 100% of their contract value. Kiewit will reimburse bond premiums. Firms performing any onsite work is signatory to collective bargaining agreements with the carpenters, laborers, cement masons, ironworkers, operating engineers, and teamsters. Kiewit will consider quotes from any, and all bidders who demonstrate an ability to foster and maintain labor harmony on the Project. Kiewit intends to conduct itself in good faith with all DBEs regarding participation on this project. For further information regarding this project, licensing, insurance or bonding, equipment, supplies, materials, or related assistance or services or project schedule, please contact the Lead Estimator listed below. **"Kiewit Infrastructure West Co. is an Equal Opportunity Employer. Employment decisions are made without regard to race, color, religion, national or ethnic origin, sex, sexual orientation, gender identity or expression, age, disability, protected veteran status or other characteristics protected by law."**

W.A. RASIC CONSTRUCTION
 GENERAL ENGINEERING CONTRACTOR

Our firm is preparing a bid for the following project as a prime contractor and we are interested in receiving subcontractor quotations for items of work or materials required below from interested Small Local Business Enterprises (SLBE) and Emerging Local Business Enterprises (ELBE)

City of San Diego
Montezuma/Mid-City Pipeline Phase 2 and
70th Alvarado to Saranac Sidewalk
Bid No. K-23-1821-DBB-3-A-C
Bid Date: November 30, 2022 @ 2:00 PM
Engineer's Estimate: \$ 47 Million Outreach: SLBE/ELBE
Senior Estimator: Ben Sebat
Phone: (562) 928-6111 Email: bsebat@warasic.com

W.A. Rasic is requesting bids for the following trades and/or material supplies:

Welded steel pipe supply, Waterworks supply, Tunneling, Casing insulators, Annular grout, Electrical/instrumentation, Permeation grouting, Minor concrete, Asphalt paving, Asphalt cold milling, Sawcutting, Cathodic protection, Welding, Trucking and disposal, Chlorination/de-chlorination, Geotechnical instrumentation/monitoring, Asbestos pipe removal/disposal, Fiber optic conduit, Landscaping/tree removal, Traffic signal, Traffic striping, Traffic control, Sewer bypass, Paleontological monitoring, Archeological monitoring, Native American monitoring, Survey, Street sweeping, Community liaison, SWPPP, Waterline Relocation, Metals supply, FRP grating, Reinforcing steel, Ready mix concrete, Aggregate supply, Geotextile.

Plans and Specifications are available at no cost to interested firms by contacting W.A. Rasic Construction during normal working hours of 8:00 am – 5:00 pm Monday thru Friday or by downloading from the City of San Diego's Planet Bids Portal.

W.A. Rasic will assist in obtaining bonds, lines of credit, insurance, equipment, supplies and materials upon request. W.A. Rasic will consider each SLBE, ELBE quote, including those that are broken down into economically feasible units as well as arrange delivery schedules to facilitate and encourage maximum bidding participation. W.A. Rasic also encourages a consortium of SLBE and ELBE firms when a contract portion is too large to handle individually. Subcontractors must have a valid California Contractors License and must be registered with the Department of Industrial Relations (DIR) as required by Section 1725.5 of the Public Contract Code. Subcontractors will be required to execute W.A. Rasic's standard subcontract agreement and general insurance requirements. A copy of our subcontractor agreement and insurance requirements is available in electronic format upon request. W.A. Rasic reserves the right to require each subcontractor to provide payment and performance bonds in the amount of 100% of the subcontractors bid. Bond Premium will be reimbursed up to a cost not to exceed 2.5%. W.A. Rasic is an equal opportunity employer and Union signatory Contractor.
