

The Anatomy of a Successful Construction Partnership

[Article originally appeared in Autodesk Construction Cloud Blog. <https://construction.autodesk.com>]

By Nancy Novak

Compass was only a few years old when it committed to changing the way it approached engagement with architectural and design support. We had just lost a significant opportunity to build a data center for a big-name customer. Though Compass offered the most cost-competitive proposal, the prospect chose another provider in the 11th hour because they weren't comfortable with the Compass design.

This loss put the company's commitment to its long-standing ethos 'Humility In, Pride Out' to the test. Leaders had to ask the tough question – do we eat a big slice of humble pie and go back to the drawing board? Or stick with the design we've invested so much time and effort in?

The answer was obvious. This design created a competitive issue with the potential to arise in the future. The team had to admit that they may not represent all the best and brightest thinking and that bringing in partners to challenge assumptions and make bold moves might be uncomfortable and costly but was the right thing to do. This was when Compass resolved to approach engagement with architectural and engineering support differently.

Compass engaged HED five years ago to build a better partnership. Strategically, Compass' leadership set out to reframe the client-service provider relationship, onboarding HED as part of the team in a way that it had never done with previous firms.

Rather than work at arm's length, Compass and HED have developed a relational and collaborative approach to the challenges of building large-scale data centers. Together, they've worked to identify solutions to issues associated with data center construction. By challenging assumptions and the status quo, the collaboration has reworked designs and come up with better ways of doing things, positioning Compass to rise to the challenges of mounting demand for data center development in a cost efficient and environmentally responsible manner.

The fruits of this partnership have been many. The team has made some bold prototype design changes and implemented process improvements to constantly evolve and improve how Compass builds.

Uniformity in design pays dividends

Having to make adjustments in the field is a time consuming and expensive process, with potential to impact the integrity of the structure.

The research by black social commentators That Sister studied 500 technology companies that have been founded and led by African Americans in the past five years, including their headquarters' locations and their total funding to discover the most influential state for African American technology companies

California scores 13.4 out of 20 to grab the second position. The home of Silicon Valley has supported the creation of 79 African American-founded Tech companies, the highest in the US since 2017, which have raked in a combined \$1.4 billion in funding. The state's size means that its company-to-population ratio is not as high as Delaware, coming to approximately 490,000 people per business; however, it does have the highest funding score, with the funds raised by the companies equivalent to \$36 per person. Headquartered in El Segundo, Savage X Fenty is the most

Delaware comes first with the highest influence score of 16.1 out of 20. It has seen total funding of \$22.1 million raised by six companies in the past five years, which means the state is home to one African American tech company for every 168,000 people – the best ratio of people to companies out of all 50 states. The funding raised by the Delaware companies equates to \$22 for each person in the state. The highest-funded company identified in Delaware is Stack Diagnostics, Newark, a provider of genetic diagnostic tests and services, and has received \$18.8 million in total funding.

Commenting on the study, a spokesperson from That Sister said: "We are excited to see the progress of African Americans in the tech space – founding and building companies which are attracting hundreds of millions of dollars in funding and investment. It's fas-

TECHNICAL ASSISTANCE

CalOSBA Announces Small Business Technical Assistance Grant Awardees

[Article originally appeared in <https://business.ca.gov>]

The California Office of the Small Business Advocate (CalOSBA) has announced grant awards to recipients of the California Small Business Technical Assistance Program (SB TAP, formerly named SB Technical Assistance Expansion Program). The state of California allocated approximately \$23 million in grant funding to over 100 Technical Assistance Centers for support of their business consulting and training services for historically underserved business groups, including women, minority, and veteran-owned businesses and businesses in low-wealth, rural, and disaster-impacted communities.

“Support from the CalOSBA Technical Assistance Program has been critical for the growth of the San Diego and Imperial Small Business Development Center Network,” said Danny Fitzgerald, Regional Director of the San Diego and Imperial Small Business Development

Center Network. “With the funding we have received since 2018, over 12,000 businesses have received one-on-one expert advising, 55% of which are business owners of color, resulting in them receiving over \$900,000,000 in capital, creating 5,500 jobs, and obtaining over \$400,000,000 in government contracts.”

Since launching in 2018, the Technical Assistance Centers funded by TAP and its partner program, the Capital Infusion Program (CIP), have served over 560,000 small businesses with free and low-cost training in over 30 languages. These efforts have resulted in over \$4.5 billion in capital infusion to support California small businesses. Training and consulting provided by these programs have helped start over 5,000 new small businesses and aided in the creation of over 35,000 new jobs.

“While everyone is focused on the pandemic and how to make a positive impact on small businesses and entrepreneurs, ongoing support

from programs such as CalOSBA’s TAP provides our Center the opportunity and capacity to continue our efforts to engage, educate and empower small businesses through our technical assistance accelerators and programs,” said Dr. Cassandra Little, President & CEO of the Fresno Metro Black Chamber of Commerce & Chamber Foundation. “The TAP program is crucial for ensuring that our businesses continue to start, grow and sustain despite any crisis we may encounter.”

TAP allocates funding to eligible Centers through a competitive process. This year’s funding supports Centers across the state, including: all five California Statewide Small Business Development Center networks (SBDC), 16 Women’s Business Centers, Five (5) Procurement Technical Assistance Centers, Rural Development Centers, Chambers of Commerce, the Manufacturing Extension Partnership Center Network, and small business-serving local nonprofits. The

grantees will focus on bridging the opportunity gap and increasing economic mobility for underserved small businesses and entrepreneurs, by offering consulting and training services business owners need to launch a business, increase their revenues, and create jobs.

Small Business Technical Assistance Centers are designated by federal and private funding partners to operate small business technical assistance programs throughout the state. These Centers provide one-on-one, confidential consulting, and training to help small businesses and entrepreneurs start, expand, facilitate investment, and create jobs in California. The TAP provides state grant funding to support ongoing and new consulting and training services provided by designated Centers.

WORKFORCE DIVERSITY

How to Support the Hispanic/Latino Construction Workforce

[Article originally appeared in <https://business.ca.gov>]

By Annie Mecias-Murphy

“Hispanic origin can be viewed as the heritage, nationality, lineage or country of birth of the person or the person’s parents or ancestors before arriving in the United States. People who identify as Hispanic, Latino or Spanish may be any race,” according to census.gov.

One out of every five people in the United States is of Hispanic/Latino origin. A total 18.9% of the United States population is of Hispanic/Latino origin. More than half of the Hispanic/Latino population lives in California, Texas and Florida, according to the U.S. Census Bureau in 2021.

According to the U.S. Census Bureau’s American Community Survey of 2021, as of July 1, 2021, the Hispanic population of the United States is considered the nation’s largest racial or ethnic minority.

Hispanics consisted of 30% of the construction workforce in the United States, according to 2020 U.S. Bureau of Labor Statistics. Additionally, 46.7% of construction laborers in the United States are Hispanic.

These statistics show that it is of ever-increasing importance to learn what is important and motivating to Hispanics/Latinos as they become a critical part of the construction industry and workplace.

This workforce group places a high value on family and culture, and they have a strong desire for self-improvement.

The emphasis on family is very important to note. One should consider “small talk” an important element as the employee of Hispanic/Latino background could feel more connected to those at work.

Personal contact is also very common in the Hispanic/Latino community and is considered normal. Greeting one another with a hug and kiss on the cheek is part of interactions on a daily basis.

Because of the strong desire for self-improvement, Hispanic/Latino workers are very self-motivated and appreciate a workplace in which they can be promoted and advanced.

The Hispanic culture embraces specific family and social values that are strong and permeate all family members’ lives. Many research studies emphasize the impact and role that family has on career choices. In “Experiences of Hispanic-American Women in Choosing Their Desired Careers: Family and Cultural Perspectives,” a 2007 study of Hispanic American Women, the findings show that the relationship between career and the participants’ ethnic culture appeared as a significant thread throughout their experiences. The Hispanic culture embraces the value

of the family first.

Although the Hispanic and much of the mainstream culture hold to traditional gender role patterns, all of the participants either were not constrained to these roles growing up or rejected the gender role patterns at a later period. These actions contributed significantly to their abilities to pursue their desired careers. This type of study is important as more women have been entering the construction workforce than ever before. An interesting variable of this study is that it was conducted in Miami-Dade County, Fla. More than 50% of the population in Miami is Hispanic/Latino, which could have an impact on the findings compared to other studies conducted in different parts of the country in which the Hispanic/Latino population is closer to the national percentage

CALIFORNIA SUB-BID REQUEST ADS

An Equal Opportunity Employer is requesting quotations from all qualified Professional services, sub-contractors, material suppliers and trucking including certified DBEs for the following project:

Caltrans 04-4J4904

Route 13 in Oakland from 0.2 Mile North of Lincoln Avenue Overcrossing to 0.2 Mile South of Park Boulevard Overcrossing
Project ID 0415000356--04-Ala-13-6.7/7.2 - Alameda County

Bid Date: December 6, 2022, 2:00 PM

****Bidding Electronically. Quotes need to be received by 11:00am on bid day****

CONTACT:

Debby Pannell

Brosamer & Wall Inc.

1777 Oakland Blvd, Suite 300, Walnut Creek, California 94596

PH: 925-932-7900 • FAX: 925-279-2269 • estimating@brosamerwall.com

PROJECT SCOPE:

Construct Concrete Barriers and Barrier Slab, Cold Plane and Overlay
Brosamer & Wall Inc., is requesting quotes from all qualified subcontractors, suppliers, and truckers including certified DBEs on all items of work type listed below, including but not limited to:

Remove Asphalt Concrete Dike; Rumble Strip; Aggregate Subbase; Alternative Crash Cushion System; Alternative Pipe Culvert; Bar Reinforcing Steel/Rebar; Cold Plane Asphalt Concrete Pavement; Concrete Barrier; Construction Area Signs; Demolition/Remove Portion of Retaining Wall, Remove Guardrail; Electrical; Erosion Control; Fencing; Hazardous Waste (Treated Wood Waste, Yellow Thermoplastic Traffic Stripe); HMA & RHMA Paving; Imported Borrow; Landscaping; Lead Compliance Plan; Minor Concrete; Misc. Iron & Steel; Pavement Marker; QC/QA Testing; Remove Concrete; Roadway Signs; Roadway Excavation; Street Sweeping; Structural Concrete; Structure Excavation; SWPPP; Temporary High-Visibility Fence; Thermoplastic Traffic Striping & Marking; Temporary Traffic Stripe (Paint); Traffic Striping & Marking; Traffic Control; Underground

Please Contact Brosamer & Wall Inc. at the email listed below for the complete list of the Actual Available Project Bid Items.

Requirements: Brosamer & Wall, Inc. will work with interested subcontractors/suppliers to identify opportunities to break down items into economically feasible packages to facilitate DBE. Brosamer & Wall, Inc. is a union signatory contractor. Subcontractors must possess a current contractor's license, insurance coverage, valid DBE certification if applicable, DIR (Department of Industrial Relations) registration number for public work projects, and worker's compensation for the entire length of the contract and must be active at time of bid. All subcontractors will be required to sign our standard Subcontract Agreement. 100% payment and performance bonds may be required. If you have any questions regarding this project or need assistance in obtaining/waiving insurance, bonding, equipment, materials and/or supplies please call or email Debby Pannell.

Plans and specifications can be viewed at our office located at 1777 Oakland Blvd Suite 300, Walnut Creek, Ca. 94596 or can be accessed for free at the Caltrans website: <http://ppmoe.dot.ca.gov/des/oe/weekly-ads/all-adv-projects.php>. B&W will also make plans & specs available electronically. Please email Debby Pannell at dpannell@brosamerwall.com for a free online link. Brosamer & Wall Inc. intends to work cooperatively with all qualified firms seeking work on this project. ****Submit ALL Bid/Quotes via email to estimating@brosamerwall.com or via fax at 925-279-2269 and if applicable submit a copy of your CURRENT DBE CERTIFICATION by 11am on bid day.** Please Include your CSLB License Number, DIR Registration Number, and if applicable DBE Certification Number on all bid/quotes. Subcontractors, Dealers/Suppliers and Brokers please provide your designation code to us on or before November 28, 2022. B&W, INC., IS AN EQUAL OPPORTUNITY EMPLOYER.

Sub-Bids Requested from qualified DBE Subcontractors and Suppliers For:

RAS PIPE REHABILITATION PROJECT

CIP #9120

Owner: Silicon Valley Clean Water (SVCW)

Location: Redwood City, CA

Bid Date: December 1, 2022 @ 10:00 A.M.

667 Brea Canyon Road, Suite 30 • Walnut, CA 91789

Phone: (909) 595-4397, Fax: (909) 444-4268

Contact: Lori Olivas, lori.olivas@jfshea.com

J.F. Shea Construction, Inc. is soliciting your participation in the preparation of this bid.

We are particularly interested in bids from subcontractors/suppliers for the following work items:

Demolition, Ready-Mix Concrete, Reinforcing Steel, Structural Steel, Miscellaneous Metals, Painting & Coatings, Equipment, Electrical & Instrumentation

Plans and Specifications: Email your request to elizabeth.pettus@jfshea.com.

J.F. Shea is an equal opportunity employer and intends to negotiate in good faith with interested DBE firms and intends to utilize the lowest responsive bidder. J.F. Shea expects potential subcontractors to be bondable. J.F. Shea will pay for up to 1% for subcontractor bond costs. Subcontractors and Suppliers are expected to bid per plans and specifications, including requirements for warranties. Standard manufacturer's warranties, if not in conformance with owner's specifications, will not be accepted.

The Anatomy of a Successful Construction Partnership

Continued from page 1

Early in the development of facility prototypes, the HED-Compass collaboration ran into an issue installing our power centers. Since Compass has multiple prototypical designs that utilize a kit of parts that are interchangeable from one prototype to another, neutralizing the interface for all long-lead equipment (like the power center) to avoid a disconnect between the pre-cast wall and the power center was critical. Otherwise, the precast provider would have to make new cuts which opens up room for errors. There were cascade effects on the electrical side as well.

To avoid future field adjustments, which throws timelines and budgets off, the team reexamined the design specifications for all prototypes to implement a uniform method of power center installation. This change made it possible to plug-and-play equipment from different locations, which is paying dividends now with supply chain challenges. This lesson on uniformity was then applied to the offsite fabrication and onsite installation of plenums which has sped up and prevented bumps in the road during future plenum installs no matter the building type.

Design grouping for efficient change management

With multiple prototype designs, when a change needed to be made, the team was chasing it through multiple different designs and projects. While a lot of the detailing is the same, if there is a detail in need of modification based on a lesson learned in the field, the team was having to go through every step for each of the different prototypes.

The solution was to “lean-up” the process. HED carved out from the design documents a “common detail package” where all typical details that are shared across all prototypes live. This made it possible to provide one set of site- and building-specific documents and one common detail package. Now, there’s an orderly and efficient process for making adjustments on a quarterly basis and rolling those out to active projects and the prototypes. The team isn’t going project by project to adjust multiple different building-specific packages. This structure has created huge time savings when site-adapting any of the prototypes to allow for mass customization without “breaking our design” for all of our clients.

Taking time to save time

Reviewing hundreds of contractor submittals had become onerous, to say the least. By standardizing specifications and prioritizing what and how submittals are reviewed, Compass is saving the internal, HED-Compass team, as well as contractors, significant time on the front-end and bringing projects to fruition faster. Working together, the HED-Compass team overhauled the submittals and review process.

Using a standardized design means many aspects of the prototype share the same parts, construction processes and products. While each facility is tailored to the customer and site, the core elements of each remain the same and are executed in a repeatable manner. Repetition creates opportunity to streamline and prioritize contractor submittals and reviews.

As part of the effort to bring uniformity to specifications, Compass and HED grouped required system components by sub-contractor – architectural, structural, mechanical, electrical. For each group, they assessed every submittal type and determined whether it required full, limited or no review (for boilerplate specifications that will be the same from project to project).

While time consuming on the front end, this process revealed that almost half of the more than 800 submittals required for one facility fall into the pre-approved or boilerplate category. In addition to significantly narrowing down the volume of required submittals, this overhaul eliminated conflicts, duplications and ambiguity on the specification.

Production scheduling drives down labor hours and improves safety

Super sizing data centers after the post-pandemic building boom required a rethink on traditional, dated construction methods. Compass and HED took a deep dive on process and procedure to identify opportunities to drive down labor hours and build a better facility without compromising safety.

CALIFORNIA SUB-BID REQUEST ADS

Portrait Construction, Inc.

**INVITATION TO BID FOR
Jordan Downs S4
Los Angeles, CA**

Portrait Construction, Inc., General Contractor, is seeking qualified Subcontractors to submit bids. **This project is subject to Residential State and Federal prevailing wages.**

Scope of work: Includes, but is not limited to **New Construction of:**

a. Phase S4

- (2) New Four Story, Type VA Comprised of Building A and Building B
 - o Building A: (33) Units
 - o Building B: (57) Units
- (90) Multi-Family Residential Units
 - o (20) One Bedroom
 - o (38) Two Bedroom
 - o (27) Three Bedroom
 - o (4) Four Bedroom
 - o (1) Five Bedroom
- Sixty-Eight (68) Parking Stalls
 - o Private Courtyard, Surface space parking
- Property Management Office ~1,240 Sq. Ft (Conference Room, Kitchenette, Reception Room, Private Office, File Room, Copy Room, Package Room, Waiting Room)
- Three (3) Elevators
- One (1) ~ 1,460 Sq. Ft. Community Room (Case Management Office and Conference Room, Social Service Office, Storage and Copy Rooms)
- 4th Floor Open Terraces with Gardens, (1) Per Building
- On-site Drywell Stormwater Management features
- Off-site improvements
- Gray Water System
- Photovoltaic Panels & Battery Storage

a. Building Assembly: TYPE: V-A

b. Code Compliance: CBC, Title 24, City of Los Angeles amendments, etc.; compliant with UFAS (accessibility), sprinklered and alarmed

c. LEED/Sustainable Design: LEED Gold; integration of solar PV system with Battery Storage (including virtual net metering if possible). Gray Water System

d. Building Commissioning (CX): Michaels may retain the services of a Commissioning Agent, HERS rater, or other advanced rating, verification, and commissioning consultant. The Contractor Team is responsible for full support and interaction with the CX effort. The CX quality assurance process is not a substitute for the Contractor Team's own quality assurance & testing.

e. Site Work – LID including onsite drywells for stormwater management; improvements to 102nd Street (including but not limited to Tract 82633-02, and B-Permit requirements)

Schedule

Construction is expected to commence around May 2023.

Davis-Bacon and Prevailing Wage Requirements

This project is subject to **SB-854** - proof of registration with DIR is required to be submitted with your bid to be considered.

For more information visit: <http://www.dir.ca.gov/public-works/PublicWorksSB854.html>

Subject to State and Federal, higher or most stringent of the two.

Section 3 Local Hire

This project is subject to section 3 local hire. All Section 3 businesses are encouraged to bid.

Phase S4 will have the following numerical goals:

1. 30% of all new hires to the project are Section 3 individuals
2. 10% of the Section 3 individuals on the project also meet the difficult to employ/disadvantaged worker criteria
3. 10% of all construction subcontracting are to Section 3 certified businesses
4. 25% of total labor hours worked by Section 3 Workers and 5% of total labor hours worked by Targeted Section 3 Workers (this is the new HUD rule)

Items 1-3 are HACLA and 4 is HUD for more information please visit [HACLA](#) & [HUD](#)

Affirmative Action

This project must comply with AA per county of Los Angeles affirmative action requirements and packet.

DUE DATE: Bids are due on or before Monday, December 5th, 2022

RFI's: RFIs are due by Noon on Monday November 21st, 2022

RFI responses will be issued to all bidders on Thursday December 1st, 2022

Send Bids to: Christian Vidrio at vidrio@portraitconstructioninc.com

Prevailing Wage Questions: Jennifer Provost at JProvost@portraitconstructioninc.com

PLANS/SPECS: Via download link upon request.

Bid assistance is available, if needed, by request.

Portrait Construction, Inc. is an equal opportunity employer. Applicants are considered for positions without regard to race, religion, sex, national origin, age, disability or any other consideration made unlawful by applicable federal, state, or local laws.

W.A. RASIC CONSTRUCTION
GENERAL ENGINEERING CONTRACTOR

Our firm is preparing a bid for the following project as a prime contractor and we are interested in receiving subcontractor quotations for items of work or materials required below from interested Disadvantaged Business Enterprise (DBE), Minority Business Enterprise (MBE), Women Business Enterprise (WBE), and (OBE) Other Business Enterprise

**Los Angeles Department of Water & Power
Western Trunk Line Project – Phase 1 • Invitation for Bid (IFB) No. 7972**

Bid Date Change: December 8, 2022 @ 2:00 PM

Engineer's Estimate: \$60 Million - \$72 Million Fair Share Objective: 28% DBE/MBE/WBE/OBE

Senior Estimator: Mark Setzer Phone: (562) 928-6111

Email: msetzer@warasic.com

W.A. Rasic is requesting bids for the following trades and/or material supplies:

Materials: Steel Pipe, Kubota Pipe, Waterworks Supply (Valves, Flow Meter, Appurtenances), Ready Mix Supply (Concrete, Slurry), Aggregate Supply (Asphalt, Base), Precast Concrete (Vaults, Shafts)

Professional: Shoring Engineering, SWPPP Plan, Geotechnical Instrumentation & Monitoring, Inspection Services, Survey

Supplies: Traffic Control Equipment, Shoring Equipment, Field Offices, Tunneling Equipment

Subcontractors: Trucking & Disposal, Sawcutting, Grind & Cap Asphalt Paving, Striping, Minor Concrete (Sidewalk & Curb), Ground Treatment for Tunnel, Tunneling, Shafts, Cathodic Protection, Pipeline Disinfection, Electrical / Instrumentation

Plans and Specifications are available at no cost to interested firms by contacting W.A. Rasic Construction during normal working hours of 8:00 am – 5:00 pm Monday thru Friday.

W.A. Rasic will assist in obtaining bonds, lines of credit, insurance, equipment, supplies and materials upon request. W.A. Rasic will consider each DBE, MBE, WBE, and OBE quote, including those that are broken down into economically feasible units as well as arrange delivery schedules to facilitate and encourage maximum bidding participation. W.A. Rasic also encourages a consortium of DBE / MBE / WBE firms when a contract portion is too large to handle individually. Subcontractors must have a valid California Contractors License and must be registered with the Department of Industrial Relations (DIR) as required by Section 1725.5 of the Public Contract Code. Subcontractors will be required to execute W.A. Rasic's standard subcontract agreement and general insurance requirements. A copy of our subcontractor agreement and insurance requirements is available in electronic format upon request. W.A. Rasic reserves the right to require each subcontractor to provide payment and performance bonds in the amount of 100% of the subcontractors bid. Bond Premium will be reimbursed up to a cost not to exceed 2.5%. W.A. Rasic is an equal opportunity employer and Union signatory Contractor.

Inland Empire Utilities Agency • Carbon Canyon Water Recycling Facility (CCWRf)

Asset Management and Improvements Project

Project NO. EN17006.00

Invitation for Bid (IFB) IFB-RW-22-013

Bid Date: January 10, 2023 @ 2:00 PM

Engineer's Estimate: \$ 25,500,000

Outreach: DBE/MBE/WBE/SBE/SBRA/LSAF/HUB

W.A. Rasic is requesting bids for the following trades and/or material supplies:

Subcontract Trades: Sawcutting, Asphalt Paving, Electrical, Instrumentation, Demolition, Masonry, Fencing, Grading, HVAC, Survey, Structural Concrete, Concrete Flatwork, Reinforcing Steel

Materials: Asphalt, Concrete, Aggregates, Water Works, Mechanical Bar Screens, Slide Gates

Plans and Specifications are available at no cost to interested firms by downloading from the following site:

<https://www.dropbox.com/scl/fo/kipa0ilyzxcibe7yb8ctt/h?dl=0&rkey=64w92a486612nvmldot12dtff>

W.A. Rasic will assist in obtaining bonds, lines of credit, insurance, equipment, supplies and materials upon request. W.A. Rasic will consider each DBE, MBE, WBE, SBE, SBRA, LSAF, and HUB quote, including those that are broken down into economically feasible units as well as arrange delivery schedules to facilitate and encourage maximum bidding participation. W.A. Rasic also encourages a consortium of DBE/MBE/WBE/SBE/SBRA/LSAF/HUB firms when a contract portion is too large to handle individually. Subcontractors must have a valid California Contractors License and must be registered with the Department of Industrial Relations (DIR) as required by Section 1725.5 of the Public Contract Code. Subcontractors will be required to execute W.A. Rasic's standard subcontract agreement and general insurance requirements. A copy of our subcontractor agreement and insurance requirements is available in electronic format upon request. W.A. Rasic reserves the right to require each subcontractor to provide payment and performance bonds in the amount of 100% of the subcontractors bid. Bond Premium will be reimbursed up to a cost not to exceed 2.5%. W.A. Rasic is an equal opportunity employer and Union signatory Contractor.

Minority & Women-Owned Subcontractor/Supplier Bids Requested For:

**East Bay Municipal Utility District (EBMUD)
Upper San Leandro Water Treatment Plant Maintenance and Reliability, and Upper San Leandro and So-
brante Water Treatment Plants Chemical Systems Safety Improvements
Specification No. 2128
BIDS DUE: Wednesday, December 14th, 2022 at 1:30pm**

Email quotes to jmiranda@shimmick.com

Shimmick is requesting quotes from certified minority & women-owned subcontractors and suppliers in the following scopes of work:

Construction Area Signs; Traffic Control System; Plane Asphalt Concrete; Remove Concrete; Concrete Pumping; Seal Coat; Asphalt Concrete; Paving Asphalt; Furnish Precast Concrete Member; Reinforcing Steel; Air-Blown Mortar; Waterproofing; Steel Structures; Clean & Paint Steel; Filter Fabric; Welding Contractor; Sewer Manhole; Concrete Curb & Sidewalk; Saw Cutting; Paint and Stain Concrete; Fencing; Temporary Fencing; Lighting; Message Signs, Lighting & Sign Illumination; Construction Engineering & Inspection Services; Building Inspection Services; Electrical Engineers; Land Surveyor; SWPPP Planning; Building Construction; Dry-wall Construction; Crane Work; Lathing; Plastering; Roofing; Fire Protection; Painting Structures; Low Voltage Electrical Systems; Water Meter & Temp Facilities; Heating & Air Conditioning; Hardware (Rough); Coring; Concrete Cutting; Aerial/Photogrammetric Mapping Services; Trucking; Safety Equipment Supplier; Landscaping & Nursery Supplier; Landscaping Materials; Sand & Gravel Supplier; Asphalt Supplier; Concrete & Cement Supplier; Reinforcing Bar Section Supplier; Steel Supplier; Doors & Frames Supplier; Lumber Supplier; Pipe Supplier; Drainage Systems Supplier; Storm Water Systems Supplier; Fencing Supplier; Pavement Markers Supplier; Electrical & Signals Supplier; Building Material Supplier; Tools Supplier; Construction Staking Supplier

Plans are available free of charge on EBMUD's website at <https://construction-bids.ebmud.com/>. Shimmick / CEC JV can also provide a download link at your request. You may schedule an appointment via WebEx to discuss the documents during regular business hours. To make an appointment for viewing or to receive the download link, please contact Jamie Miranda at jmiranda@shimmick.com.

Should you require any assistance, please contact our estimator Brian Guerini at bguerini@shimmick.com.

All items of work listed above are made available, even items of work normally performed by Shimmick / CEC JV ("JV"). Please contact the lead estimator listed above for assistance with breaking down items of work into economically feasible units, with assistance obtaining equipment, supplies, materials, bonding, insurance, estimating, or related assistance. 100% Performance and Payment bonds with a surety company subject to approval of the JV are required of subcontractors for this project. The JV will pay bond premium up to 1.5%. Subcontractors will be required to abide by terms and conditions of the AGC Master Labor Agreements and to execute an agreement utilizing the latest JV Long Form Standard Subcontract incorporating prime contract terms and conditions, including payment provisions. The JV's listing of a Subcontractor is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with the Subcontractor's price quote. The JV requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation. For assistance with bonding, insurance or lines of credit contact Devin Nordhagen at devin.nordhagen@shimmick.com.

We are signatory to Operating Engineers, Laborers, Cement Masons, Carpenters and Pile Drivers Unions. Non-signatory subs will be required to sign an agreement for trades covered under our union agreements. Flatiron intends to work cooperatively with subcontractors and suppliers for all bid items you are licensed and qualified to perform. Bid items can be split to facilitate participation from all certified firms. Flatiron will reimburse for bond premium up to 2%. **Firms must possess and provide current contractor's license number and DIR Registration number on the quote.** Firms must possess insurance and workers compensation coverage meeting project requirements. Waiver of Subrogation is required. Please contact Flatiron for any assistance required by your firm. Subcontractors/Suppliers will be required to execute our standard agreements and agree to the standard general terms and conditions. Copies are available for review on our Box.com ftp site upon email request.

Project documents may be downloaded from the EBMUD website or they may also be downloaded for FREE from our Box ftp site. Please send an email request to NORCALBIDS@flatironcorp.com Due to Covid-19 & social distancing requirements still in place in some areas, we are not currently scheduling appointments to review project docs or meet with estimators in our office. When all pandemic restrictions are lifted, we will offer these services again in our office by appointment only. Thank you for your understanding.

WA's state budget forecast grew \$762M despite recession worries

[Article originally appeared in
<https://crosscut.com>]

By Joseph O'Sullivan

When the state budget forecasters look at the economy, they see the uncertainty of the present moment: rising inflation and interest rates, global fallout from Russia's invasion of Ukraine, tech company layoffs, potential railway and dockyard strikes and a slowing housing market.

Meanwhile, Washington's projected tax collections have continued to roll in higher than expected.

The numbers released Friday by the Washington State Economic and Revenue Forecast Council provide key information as state lawmakers and Gov. Jay Inslee prepare to write a new two-year state budget. That spending blueprint funds schools, parks, prisons, public lands, the state's mental health system and other social services.

Overall, projections for the current two-year budget cycle came in almost \$762 million higher than expected, according to the council. The state is also projected to bring in about \$681 million more than anticipated for the coming 2023-2025 budget cycle – the budget lawmakers and Inslee are tasked with drafting during the legislative session that begins in January.

That sets up the Democratic-controlled Legislature and Inslee with roughly \$66.2 billion for the coming two-year budget cycle, which begins next July. Lawmakers are likely to consider more education spending, mental health services and ways to address Washington's housing affordability crisis, among other issues.

In Friday's council meeting, lawmakers and others expressed cautious optimism – but they're not convinced revenue growth will last. Steve Lerch, director of the forecast council, pointed to rising interest rates, concerns about a recession, and layoffs by technology companies like Amazon and others, which could potentially hurt growth.

"We still do believe that things will slow down," Lerch added later.

State revenue projections are improving partly due to strong collections in the state's sales and Business & Occupation taxes. But just as in the City of Seattle, the state homesellers' tax is coming in a bit below expectations as the housing market starts to cool.

UNIVERSITY OF CALIFORNIA, IRVINE MEDICAL CENTER

Subject to conditions prescribed by the University of California, Irvine Medical Center, sealed bids for a Lump-Sum Contract are invited for **B63, 5th Fl, IT Consolidation, Project No. 994673.**

ESTIMATED CONSTRUCTION COST: \$900,000

PROJECT DURATION: 100 calendar days

GENERAL DESCRIPTION OF WORK: Renovate ~11,500 SF of empty and occupied space for UCI Health IT department on the 5th Fl at 200 Manchester, Orange, CA 92868. The renovation will consolidate 3 existing suites into 1 large continuous space to create multiple shared/private workstations, offices, training room and revamp the existing conference rooms. This project will include, but not limited to, minor demolition, wall construction, MEP improvements and finishes upgrade.

PROCEDURES: Bid documents are available beginning on **Tuesday, November 29, 2022 at 2:00 p.m.** upon request to Kim Kerwin @ khau@hs.uci.edu.

BIDDER QUALIFICATIONS: The successful Contractor will be required to have the following California contractor's license (s): active at the time of submission of the Bid:

B - General Building Contractor

Bidders will be required to submit a completed Statement of Qualifications for themselves and their MEP subcontractors. Bidders that do not submit a completed Statement of Bidder's Qualifications or do not meet the University's requirements for relevant project experience, financial ability to complete the project, safety record and professional conduct will not be eligible for award.

MANDATORY PRE-BID CONFERENCE: The Pre-Bid Conference (Electronic copy ONLY) and Job Walk will be conducted on **Tuesday, December 6, 2022 at 10:00 am** in the lobby of Building 63 at 200 Manchester, Orange, CA 92868. Contractors arriving after **10:00 am** will not be eligible to participate in the bid process as a General Contractor. Only bidders who participate in the job walk in its entirety will be allowed to bid on the Project as General Contractors.

BID SUBMITTAL REQUIREMENTS: Sealed bids will be received only at: UCI Medical Center, Planning Administration, Building 27, Room 136, 101 The City Drive South, Orange, CA 92868, on or before **2:00 pm** on **January 5, 2023.**

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each Bidder may be required to show evidence of its equal employment opportunity policy. The successful Bidder and its subcontractors will be required to follow the non-discrimination requirements set forth in the Bidding Documents and to pay prevailing wage at the location of the work.

The work described in the contract is a public work subject to section 1771 of the California Labor Code.

No contractor or subcontractor, regardless of tier, may be listed on a Bid for, or engage in the performance of, any portion of this project, unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 and 1771.1.

This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

The successful Bidder shall pay all persons providing construction services and/or any labor on site, including any University location, no less than the UC Fair Wage (defined as \$15 per hour as of 10/1/17) and shall comply with all applicable federal, state and local working condition requirements.

For additional information: **Kim Kerwin**, Project Governance Manager at (714) 456-5735 or khau@hs.uci.edu.

OAKLAND UNIFIED SCHOOL DISTRICT DEPARTMENT OF FACILITIES PLANNING AND MANAGEMENT

ADVERTISEMENT AND NOTIFICATION FOR ANNUAL PREQUALIFICATION

2022 - 2023

Notice is hereby given that the governing board of the Oakland Unified School District ("District") is prequalifying certain contractors on the District's state-funding eligible lease-leaseback projects.

It is mandatory that all of the following contractors who intend to submit a bid or proposal for District Projects, fully complete the District's prequalification questionnaire, provide all materials requested therein, and be approved by the District to be on the final prequalified contractors list. If a contractor has been prequalified by the District within the past three (3) years, that contractor may complete the District's "renewal" prequalification questionnaire for a total of three (3) years. The District will notify contractors of their three (3) year anniversary date in the contractor's prequalification letter.

This prequalification requirement applies to the following contractors:

- A contractor with an A, B, C-4, C-7, C-10, C-16, C-20, C-34, C-36, C-38, C-42, C-43, and/or C-46 license(s) that intends to bid as a contractor (prime contractor) directly to the District for design-bid-build and lease-leaseback projects.
- A contractor with a C-4, C-7, C-10, C-16, C-20, C-34, C-36, C-38, C-42, C-43, and/or C-46 license(s) that intends to submit proposals as a first-tier subcontractor to a general contractor (prime contractor) that is bidding directly to the District for design-bid-build and lease-leaseback projects.

Contractors must complete the District's form. No other prequalification documents submitted by a contractor will meet the District's requirements and all forms must be submitted on the most recent respective forms. **Certified Local/Small Local Resident Business Enterprise contractors shall be prequalified pursuant to the District's Prequalification for Prospective Certified Local/Small Local Resident Bidders. PLEASE NOTE: A PRIME CONTRACTOR FOR WHICH THEY HOLD THE APPROPRIATE LICENSE IS AUTOMATICALLY QUALIFIED TO BE PLACED ON THE SUB LIST.**

All contractors shall submit completed prequalification documents as follows:

Location	Date
Oakland Unified School District 955 High Street Oakland, CA 94601 Attn: La Juana Lewis, Administrative Assistant La Juana.Lewis@ousd.org	First-Tier Subcontractors and General (Prime) Contractors and Certified Local, Small Local and Small Local Resident Business Enterprise Subcontractors must be submitted by: December 31, 2023

Prequalification packages are available for pick-up at the following location: Oakland Unified School District, 955 High Street, Oakland, CA 94601. Prequalification packages can also be obtained from the District's website at: www.ousd.org, by going to: "Offices & Departments > "Facilities Planning & Management Department" > "Opportunities" > "Contracts & Opportunities" See Pre-qualification applications to the right side.

The District will notify each contractor that submits a prequalification package if it meets the prequalification requirements. Prequalified contractors will be eligible to bid on the District's projects that are within a contractor's bonding and financial capacity. Contractors will be placed on the District's Qualified Bidders List for one (1) calendar year following the date of initial prequalification. The District reserves the right to request any contractor update its prequalification forms on an annual basis and/or the right to revoke, suspend, or rescind a contractor's prequalification status due to a contractor's change in status or the failure to update information. The prequalification questionnaire answers and financial statements submitted by contractors are not public records and are not open to public inspection. All information provided will be kept confidential to the extent permitted by applicable law.

California Is The Second Most Influential State For African-American-founded And Led Tech Companies

Continued from page 1

inating to see which states are home to the most successful new African American-led tech businesses, and hopefully in future they will be joined by many more start-ups across the US."

The study was conducted by That Sister, which provides fun, interesting & educational articles for positive black people and fans of the culture.

SUCCESS STORIES

Ginger Elizabeth Hahn, Ginger Elizabeth Chocolates

[Article originally appeared in <https://cameonetwork.org>]

Fascinated with chocolate and its beautiful and complex characteristics, Ginger Elizabeth Hahn had always dreamed of opening her own chocolaterie.

A formally trained American chocolatier, Ginger Elizabeth began learning her craft at age 16

at a truffle class in Sacramento at the Learning Exchange. From there, she took classes at the Culinary Institute of America in Napa while in high school. She went on to study in New York, working for two world-renowned chocolatiers: Jacques Torres and Daniel Budd.

Hungry for more knowledge on the subject of chocolate, she headed to Chicago and got a job at

the Ritz-Carlton, working for En-Ming Hsu, the top pastry chef in the world at the time.

Her perseverance and a keen love for the art of chocolate was the driving force in her quest to open her own couture chocolate shop, which had its grand opening in January 2008. As a result of California Capital's guarantee on a small business loan made by Bank of Sacramento, Ginger

Elizabeth Hahn is enjoying the success of her business, Ginger Elizabeth Chocolates.

In addition to adding employees, Ginger is adding frozen hot chocolate and outdoor seating.

Three Sisters Reinvent the Family Farm into a World Class Cheese Producer

[Article originally appeared in www.sba.gov]

After nearly 100 years of dairy farming along the Northern California coastline, the Giacomini family dairy farm had reached an impasse. The farm had grown to its limits at the same time that profitability for dairy farms nationally had fallen, and its owner, Robert "Bob" Giacomini, was in his 60s. Also, his daughters, who had grown up on the farm, had all moved away to start their own careers in different industries around the world.

Faced with this situation, Bob called in the family in 2000 and asked the daughters if they would like to help re-envision the farm. The daughters, Diana Hagan, Lynn Stray, and Jill Basch, weren't passionate about the dairy operation they had always known, but they were united in a common love for fine food and sustainability. That was enough for the sisters to leave their careers and come home, where one of the early decisions they made was to pivot

the family business from milk production to environmentally sustainable, artisanal cheesemaking.

They started off slowly, using the cash flow from the dairy operation to build the cheese business around just a handful of well-produced cheeses. By 2015, the sisters' business had both successfully gained the love and admiration of cheese lovers nationally and throughout the bay area, but the farm also plateaued in its ability to grow larger.

"We had to decide at that time if we wanted to grow more or not," said Lynn Stray, "And that was not an easy decision to make because it would mean moving cheese production off of the farm and into a facility." After a significant amount of soul searching and getting the buy-in and support from their employees for the decision to grow, the three sisters drafted a plan to take the Point Reyes Farmstead Cheese Company to the next level.

Central to that new plan was the construction of a new \$7.8 million creamery and distribu-

tion facility in Petaluma, CA, which was made possible through the SBA 504 loan program and approved by Capital Access Group, a local 504 lender. At over 20,000 square feet, the facility offers enough room for the family-owned business to quadruple its space for aging pasteurized cheeses and manufacturing large batches of their new flagship Toma-style cheese.

"I am so pleased that Point Reyes Farmstead Cheese was able to take advantage of the SBA 504 program's low down payment and low, fixed interest rate to purchase a new facility to grow their business," said Julie Clowes, U.S. Small Business Administration District Director, San Francisco District Office. "We know it's not easy to run a business, so we are happy to offer resources, like the 504 program, to help support business growth and expansion."

Point Reyes Farmstead Cheese Company currently employs 85 individuals across their new creamery, farm, and culinary and event center located on the farm. They've already begun to

export their cheeses to Hong Kong, where demand for fine cheese has been rising.

"With our immediate and future growth plans in place, we have a real opportunity for leadership... in specialty cheese, in North Bay agriculture and maybe most-importantly, as a successful, women-owned business," said Jill Basch. "We're excited for the many ways we can make a difference through cheese."
