

High-Speed Rail Authority to Receive Record \$3.1 Billion From Biden Administration

[Article originally appeared in <https://hsr.ca.gov>]

In the single strongest show of federal support to date, the US Department of Transportation has awarded the California High-Speed Rail Authority (Authority) nearly \$3.1 billion in grant funding for continued progress on the country’s first electrified 220-mph high-speed rail system.

“California is delivering on the first 220-mph, electric high-speed rail project in the nation,”

said Governor Gavin Newsom. “This show of support from the Biden-Harris Administration is a vote of confidence in today’s vision and comes at a critical turning point, providing the project new momentum.”

This is the largest grant the Authority has received and was made possible by President Biden’s Infrastructure Investment and Jobs Act. This influx of funding will build on the project’s ongoing success which has created over 12,000 good paying union jobs to the region.

“I am proud to champion this historic federal investment for California High-Speed Rail,” said US Senator Alex Padilla. “California has never been afraid to take on big and bold challenges — including the development of the nation’s first true high-speed rail network. Thanks to the Bipartisan Infrastructure Law and President Biden’s leadership, California has a partner in this effort to power our economy, reduce emissions, and connect our communities through high-speed rail.”

“California takes great pride in our ambitious status as the leading edge of high-speed rail in America. With this new \$3.07 billion in federal funding, we take an important leap closer to making high-speed rail a reality in California,” Speaker Emerita Nancy Pelosi said. “An electrified high-speed rail network will dramatically improve the quality of life in the Central Valley and up and down California. These bullet trains will make travel quicker and easier, bring housing closer, create new jobs and economic opportunities that would otherwise be out of reach, secure cleaner air for our children and help save our planet. Thank you to President Biden and Secretary Buttigieg for their recognition of the importance of high-speed rail to California and to our Nation.”

“For decades, I’ve worked to make California’s high-speed rail system a reality. Thanks to the Bipartisan Infrastructure Law I helped pass; we now have significant investment to make major progress. I worked to secure this \$3.1 billion federal grant to ensure continued economic growth and investments in California’s San Joaquin Valley. I want to thank President Biden, Governor Newsom, and our partners. We still have much more work to be done,” said Congressman Costa.

“This historic federal investment sends a clear message that America is serious about high-speed rail, starting right here in California. With

Readout of SBA Administrator Guzman’s Convening of Small Business Lending Summit

[Article originally appeared in www.sba.gov]

On Tuesday, December 12, Administrator Isabel Casillas Guzman, head of the U.S. Small Business Administration (SBA) and the voice in President Biden’s cabinet for America’s 33 million small businesses, hosted a Small Business Lending Summit at the White House alongside the National Economic Council (NEC) to discuss the Biden-Harris Administration’s strong

record on lending to small businesses. The event focused on innovative programs and lending models that the federal government is pioneering, and how the federal government can work with lending partners to close gaps and ensure capital access for all creditworthy small businesses, especially those that are traditionally underserved or hard to reach.

The Summit, which brought together many of the SBA’s largest lending partners, provided

an opportunity for lenders to engage with the Biden-Harris Administration on actions taken to expand small business access to capital in underserved areas and throughout the country, and for Administration officials to learn more about how new and recently reformed policies are being implemented on the ground. In addition, SBA announced the creation of a Small Business Lending Federal Advisory Committee in the coming months to continue hearing directly from lenders and other stakeholders about how to best meet the capital needs of small businesses, especially in underserved communities.

The summit featured two roundtable discussions as well as remarks by Administrator Guzman, NEC Director Lael Brainard, and Council of Economic Advisors Member C. Kirabo Jackson. Participants shared successes for their small business lending strategies and highlighted how recent SBA changes to modernize their lending programs have allowed for a broader and more diverse set of credit-worthy businesses to access

loans, and how their improved processes have accelerated access to capital for small business borrowers. They also discussed strategies and shared best practices for facilitating more equity in small business lending.

Last year, the SBA partnered with lenders to provide a historic \$34 billion in small business loans through their signature 7(a) and 504 loan programs. These loans have helped promote inclusive economic growth, with \$5 billion going to women-owned businesses, a record \$3 billion going to Latino-owned businesses, and loans to Black-owned businesses more than doubling since 2020. Today’s roundtable provided an opportunity for administration officials and lending leaders to discuss strategies to build on these successes to bring small business growth to new heights.

For follow-up interview requests for Administrator Guzman, please contact Rebecca Galanti at Rebecca.Galanti@sba.gov

RACIAL EQUITY

Just Future Summit 2023 is a Wrap!

Dolores Huerta

[Article originally appeared in <https://greenlining.org>]

“What do we have? We have the power! What kind of power? People power!”

That’s how Dolores Huerta kicked off our Just Future Summit. Her affirmation was the whole vibe for the summit which brought together more than 1,150 changemakers and advocates from across the country for two days of movement building here in Oakland, CA.

From the main stage to breakout sessions, we were honored to host the most powerful voices in racial equity. New Gen Z leaders shedding light on emerging issues and strategies, seasoned activists speaking to how we maintain joy and resilience in the face of atrocities at home and abroad, and long-time Greenlining partners and equity practitioners all came together to do the work of driving our movements forward. The Just Future Summit speakers and panelists tapped into our collective impatience for change and shared their essential wisdom on how we keep building a more just future for all.

Our headline speaker was stand-up comedian and Emmy-award winning director W. Kamau Bell who was joined by world renowned activist Alicia Garza for a thought-provoking and hilarious discussion about the U.S.’ relationship with race. Leave it to these two culture-keepers and community-builders to challenge and inspire us, while still finding ways to make us keel over with laughter.

Consumer Financial Protection Bureau Deputy Director Zixta Martinez shared her wisdom and called on us all to show up:

We also had the brilliant Palestinian-American activist Linda Sarsour implore us to tap into our collective humanity and solidarity in the face of the unfolding crisis in Palestine as part of her panel Centering Joy to Sustain our Movements.

One thing is clear: We do not, cannot, and should not do this work alone. Collective liberation requires us to come together to build a more just future where everyone can thrive. And that’s what the Just Future Summit offered.

We’re so grateful to everyone that showed up and showed out for our communities—including our main stage speakers who brought their wit and wisdom to our Just Future Summit: W. Kamau Bell, Dolores Huerta, Olivia Julianna, Alicia Garza, Linda Sarsour, Maurice Mitchell, Solana Rice, Zixta Martinez, Mayor Sheng Thao, Julia B. Chan, Cecilia Lei, Wesley Lowery, Kyra Kyles, Nwamaka Agbo, Quinton Sankofa, and Mia Birdsong.

The powerful conversations continued as participants rolled up their sleeves in equity workshops and breakout sessions focused on everything from participatory budgeting to creating meaningful MOUs—these sessions are where the true equity work happens. We had over 20 breakout sessions on the most pressing issues facing communities of color including equitable wealth building, accountability and transparency in financial institutions, access to clean energy, housing and homeownership, and algorithmic bias. Leaders, experts, and practitioners dove deep into the innovative strategies and holistic solutions they’re exploring to tear down systemic racism and build a just future where race is never a barrier to opportunity.

But fueling a movement takes more than just good conversation! We invited our guests to join us outside for lunch with the delicious food trucks from Off the Grid, to browse the literary offerings from Bandung Books, and take home stunning art from the great Melanie Cervantes of Dignidad Rebelde

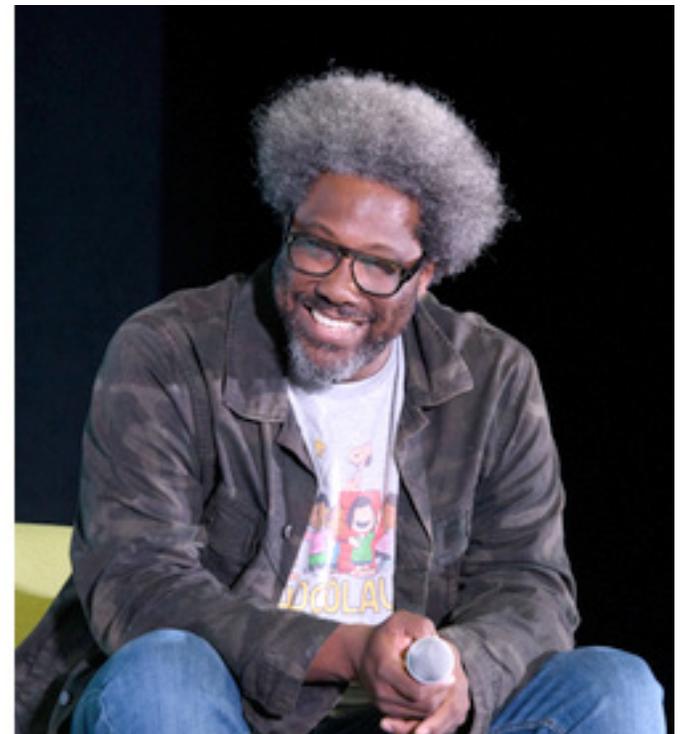

This year’s Just Future Summit wasn’t your average conference. With 2023 marking

Greenlining’s 30th anniversary, we wanted to create a space that truly showcased our gratitude and commitment to our communities with the biggest and best Summit yet. And YOU made that possible!

Did you miss the Just Future Summit? Or are you just missing all the friends you made? No worries, check out our video to relive the best moments.

Our final panel of the conference was aptly titled Dreaming a Just Future into Being. On this panel, Nwamaka Agbo, Quinton Sankofa, and Mia Birdsong reminded us that the work of reimagining our future is hard work. It takes courage, tenacity, and a fortitude to outlast political cycles, social media trends, and swings in public opinion. That’s what the Just Future Summit offered: a place where we came together to dream. Thank you for being a part of our community and building a Just Future with us.

High-Speed Rail Authority

■ Continued from page 1

a federal partnership that's stronger than ever, we are well on our way to delivering fast, clean and reliable high-speed rail service to connect our state's population centers," said California Transportation Secretary Toms Omishakin. "I thank the Biden-Harris Administration and our Congressional leadership for this visionary investment in the future of transportation."

"This record federal grant is a welcomed investment in the future of this transformative project. The Authority is humbled by the expression of confidence and commitment from our federal partner," said High-Speed Rail Authority CEO Brian Kelly. "We look forward to advancing the project, putting more Californians to work and buying new, electrified high-speed trains, all made possible by this grant."

The \$3.073 billion will advance work in California's Central Valley including:

- Fund six electric trains for testing and use
- Fund design and construction of trainset facilities
- Fund design and construction of the Fresno station
- Fund final design and right-of-way acquisition for the Merced and the Bakersfield extensions
- Fund construction in the Central Valley

This most recent, and largest award received from the Biden-Harris Administration was made possible through the Federal-State Partnership for Inter-city Passenger Rail Program (FSP-National). Over the last 12 months, the Authority has aggressively pursued and been successful in receiving federal funding under the Bipartisan Infrastructure Investment and Jobs Act (IIJA). Nearly \$202 million from the federal government was awarded in September to advance critical safety, grade separation work on the project, and in August, the Authority was awarded another \$20 million for the historic Fresno Depot and station site. With this award, the Authority has received more than \$3.3 billion in funding from this historic program.

In the last 12 months, the Authority has showed continued progress statewide. In 2023, ten structures were completed External Link along the first 119-miles of construction and environmental progress has continued with 422 of the 500-mile project now environmentally cleared.

With the southernmost 22-mile stretch of active construction currently on the verge of completion, the Authority continues advanced design work to extend the 119 miles under construction to 171 miles of future electrified high-speed rail from Merced to Bakersfield. The high-speed rail project has created more than 12,000 good-paying jobs since the start of construction, 70% of those going to Central Valley residents.

Fax your bid to (925) 803-4263 to the attention of Estimator David Czech. If you have questions for the Estimator, call at (925) 829-9220. When submitting any public works bid please include your DUNS number and DIR number. For questions regarding registration for DIR use the link at www.dir.ca.gov/Public-Works/PublicWorks.html

If you need DBE support services and assistance in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies or related assistance or services, for this project call the Estimator at (925) 829-9220, or contact your local Small Business Development Center Network (<http://californiasbdc.org>) or contact the California Southwest Transportation Resource Center (www.transportation.gov/osdbu/SBTRCs). DGC is willing to breakout portions of work to increase the expectation of meeting the DBE goal.

At our discretion, 100% Payment and 100% Performance bonds may be required as a subcontract condition. This will be a PREVAILING WAGE JOB. DGC is an Equal Opportunity/Affirmative Action Employer.

Mayor London Breed's Small Business Reforms Approved by Board of Supervisors

[Article originally appeared in <https://sf.gov>]

Mayor London N. Breed's latest round of small business reforms was approved by the Board of Supervisors today. The legislation, which was co-sponsored by Supervisors Joel Engardio,

Matt Dorsey, Myrna Melgar, Catherine Stefani, Rafael Mandelman, and Connie Chan will facilitate easier permitting for small businesses, encourage economic recovery and growth, and fill commercial vacancies in San Francisco.

This legislation builds on the significant small business reforms Mayor Breed has advanced over the last three years including the passage of Proposition H in 2020, the passage of the Small Business Recovery Act in 2021 and opening a new one-stop shop Permit Center.

Under the legislation, over 100 changes to the Planning Code will serve to ease restrictions across five main categories:

- Allow more business uses on the ground floor

<https://ppmoe.dot.ca.gov/des/oe/weekly-ads/oe-project.php?q=04-2Q5704>

Abram McMickin (510)-999-6000; amcmickin@a-bconstruction.net is the estimator for this project and is available to provide assistance or answer questions regarding the project scope of work, bid requirements, bonding and insurance requirements, or any other questions you may have. All proposals/quotes should be emailed to the Estimator or faxed to (510) 982-3636 prior to 10:00 AM on the Bid Date. A & B is willing to breakout any portion of work to encourage DBE participation. All subcontractors are required to execute A & B's standard subcontract agreement and comply with all insurance requirements. A copy of our agreement and insurance requirements are available upon request. At A & B's discretion, 100% payment and 100% performance bonds may be required. A & B is a union contractor and we are signatory to the Laborers, Carpenters, and Operating Engineers unions.

W.A. Rasic Construction is preparing a bid for the following project as a prime contractor and we are interested in receiving subcontractor quotations for items of work or materials required below from interested Disadvantaged Business Enterprise (DBE), Minority Business Enterprise (MBE), and Women Business Enterprise (WBE)

City of San Diego
Alvarado 2nd Extension Pipeline
Bid No. K-24-2005-DBB-3-C
Bid Date: January 8, 2024 @ 2:00 PM
Engineer's Estimate: \$127 Million Outreach: DBE/ MBE/WBE
Senior Estimators: Ben Sebat (562) 928-6111
Email: bsebat@warasic.com

W.A. Rasic is requesting bids for the following trades and/or material supplies:

AC Cold Milling & Asphalt Cap Paving, Traffic Signals & Temporary Detection Systems, Minor Concrete (Flatwork), Sawcutting, Striping, Welding, Install Pipeline, Furnish Welded Steel Pipe, Traffic Control Equipment, Cathodic Protection, Trucking & Disposal, Dewatering, Contaminated Soils (Monitoring, Hauling & Disposal), Trenchless Construction, Compaction Grout, Shoring Rental Services, Plant Establishment Period & 25-Month Revegetation Maintenance / Monitoring, Archaeological & Native American Monitoring

NAICS Codes:

237110, 237310, 237990, 238110, 238190, 238210, 238910, 238990, 331210, 484110, 532490, 541330, 541690, 562910

Plans and Specifications are available at no cost to interested firms by either contacting W.A. Rasic Construction, downloading from the City of San Diego's Planet Bids Portal or by utilizing the following FTP link:
<https://www.dropbox.com/scl/fo/1b8yvp2n9g3mu1kncos/h?rkey=qb5ca4bgihyfb51xsk27o7a&dl=0>

W.A. Rasic intends to seriously negotiate with qualified firms and will assist in obtaining bonds, lines of credit, insurance, equipment, supplies and materials upon request. W.A. Rasic will consider all DBE, MBE, and WBE quotes, including those that are broken down into economically feasible tasks or quantities as well as arrange delivery schedules to facilitate and encourage maximum bidding participation. W.A. Rasic also encourages a consortium of DBE / MBE / WBE firms when a contract portion is too large to handle individually. Subcontractors must have a valid California Contractors License and must be registered with the Department of Industrial Relations (DIR) as required by Section 1725.5 of the Public Contract Code. Subcontractors will be required to execute W.A. Rasic's standard subcontract agreement and general insurance requirements. A copy of our subcontract agreement and insurance requirements is available in electronic format upon request. W.A. Rasic reserves the right to require each subcontractor to provide payment and performance bonds in the amount of 100% of the subcontractor's bid. Bond Premium will be reimbursed up to a cost not to exceed 1.5%. W.A. Rasic is an equal opportunity employer and Union signatory Contractor.

W.A. Rasic Construction is preparing a bid for the following project as a prime contractor, and we are interested in receiving subcontractor quotations for items of work or materials required below from interested Small Local Business Enterprises (SLBE) and Emerging Local Business Enterprises (ELBE)

WESTERN WATER (WW), is seeking quotes from qualified subcontractors and suppliers, including but not limited to San Francisco HRC certified LBE & NPE firms, for the construction of:

Sunol Valley Chemical Facility Improvements
Engineer's Estimate: \$8,500,000
Revised Bid Date & Time: January 11th, 2024 at 2:00 P.M.
Project Location: Sunol, CA

WW has identified the following potential contracting opportunities for qualified subcontractors and suppliers on this project:

General Engineering (A), General Building (B), Reinforcing Steel (C-50), Pipeline (C-34), Electrical (C-10), Plumbing (C-36), Painting/Waterproofing (C-33), Concrete/Related Services (D6), Concrete (C-8), Pipes/Valves/Fittings Supplies

Information regarding bonding, insurance, lines of credit, and any technical assistance or information related to the plans or specifications and requirements for the work will be made available to all interested firms. Plans and specs are available to view at our office and access to digital copies will be provided upon request.

For more information or to provide quotes, please contact:

Western Water, 707 Aviation Blvd, Santa Rosa, CA
Ken Leef, Project Procurement Manager
bids@westernwater.com, Phone: (707) 540-9640, Fax: (707) 540-9641

Subcontractors will be required to comply with all subcontract insurance requirements, which include providing a waiver of subrogation endorsement to their worker's compensation insurance.

The City has a surety bond program, which assists LBE contractors in obtaining bonding and financing for contracts awarded by the San Francisco Public Utilities Commission. For further information contact: Jennifer Elmore at (415) 217-6578.

The SFPUC has adopted a Project Labor Agreement (PLA) which will apply to this Project. All contractors must sign a letter of assent, binding the contractor to the terms of the PLA.

Interested subs and suppliers should complete and submit the attached solicitation form no later than 24 hours prior to bid.

WW is an AA/EEO/Veterans/Disabled Employer - CA License No. 188068

REQUEST FOR Sub-Proposals from Certified DBE Firms
Project Name: Inland Rail Trail Phase 3B Bikeway
Solicitation No. SOL1224667
Owner: SANDAG
DBE Goal: 21%

Subcontractors/Subconsultants/Vendors wanted for:

(Subcontractors) : Electrical, Traffic Signal (Traffic Loop), Asphalt Paving/Dikes, Retaining Walls, Minor Concrete (Structures), Fencing, CMU, Light Weight Cellular Concrete, Clear & Grub/ Tree Removal, Landscape, Signage & Striping, Shotcrete, Reinforcing Steel, CCTV, Surveying, Quality Control, Tree Removal, Sawcutting, Modular Block Wall, Job Coordinator, Street Sweeping, Trucking

(Suppliers): RCP, Ready Mix Concrete, Aggregates, BMP Materials/ Erosion Control, Geogrid, Misc. Metals, CMU Blocks, Shoring, Signage, Catch Basins, Waterworks, Precast Wheel Stops, Truncated Domes, Precast Grade Rings, Trash Receptacles, Welded Wire Fabric, Architectural Liner, PVC

Project Scope:
The work consists in general of constructing approximately 1.1 miles of a Class I bicycle facility, located between Civic Center Drive and Mar Vista Drive, in Vista, CA. The Class I bikeway is an 8-foot to 10-foot-wide multiuse bike path that is located mostly within the existing North County Transit District Right-of-Way, parallel to the railroad tracks. This bike path will connect to existing sidewalks or bike paths. Work will include grading, retaining walls, drainage improvements, cold milling asphalt concrete, crushed aggregate base, asphalt concrete paving, landscaping and irrigation, lighting, black chain link fence and gates, water quality swales, signing, and pavement delineation. The additive alternative work is for the CCTV system.

REVISED BID DATE: January 9th, 2024 at 2:00PST/PDT

Assistance will be available in obtaining bonds, lines of credit, insurance, necessary equipment, supplies, materials or related technical assistance. Plans, Specifications, and Contract requirements can be viewed online at no cost here:

Project: Jenny Lind Water System Tank A-B Water Transmission Pipeline Project
CCWD CIP No. 11088
Owner: Calavera County Water District
Bid Date: January 25, 2024 @ 2:00 P.M.

We are requesting quotes from all qualified Subcontractors and Suppliers but not limited to:

AGGREGATES, ASPHALT, PIPE SUPPLIERS, DRAINING SYSTEMS PIPE SUPPLIERS, CATHODIC PROTECTION, STRIPING, SURVEYING, TRUCKING

Project Description:
The project consists of furnishing and installing approximately 20,000 feet of new 12-inch and 14-inch diameter ductile iron pipeline between existing Tanks A and B. The new pipeline will operate at pressures up to 205 psi and have mechanically restrained joints. In addition, this project includes pressure reducing stations, air relief valves, gate valves, and other appurtenances. Also, the project requires modifying the Tank A pump station outlet piping and Tank B inlet and outlet piping arrangements.

Granite is an Equal Opportunity Employer and will work with any interested subcontractor to identify opportunities to break items into any economically feasible packages. We welcome quotes from qualified Minority Business Enterprise (MBE), Women Business Enterprises (WBE), Small Business Enterprises (SBE), Disadvantaged Business Enterprises (DBE) and other entities defined as socially and/or economically disadvantaged.

Assistance in obtaining bonding, insurance, equipment, materials and/or supplies is available upon request. Additionally, please contact us if you require any technical assistance. Quotations must be valid for same duration as specified by Owner for contract award. Granite intends to work cooperatively with all qualified firms seeking work on this project.

This project has a 21% DBE goal. In addition to request for participation from Certified DBE subcontractors and suppliers, Granite requests Non-DBE subcontractors to provide lower-tier DBE subcontractor and/or supplier participation. Bidders are encouraged to indicate lower-tier DBE participation, as it will be evaluated as part of their quote.

Please include your Contractor License Number and DIR Registration Number on your quote

Granite Construction Company is signatory to Operating Engineers, Laborers, Cement Masons Teamsters and Carpenters unions. Granite may require 100% performance and payment bonds for the full amount of subcontract price. Granite Construction will assist with bonding costs for subcontractors. Additionally, The US Small Business Administration may also assist you in obtaining bonding, for more information please visit them at <http://www.sba.gov/content/contractors#>. Subcontractors must possess a current contractor's license, DIR number, insurance, and worker's compensation coverage meeting Granite's requirements. All quotes are subject to the terms of Granite Construction Company's applicable standard form agreement which is available through the following link: <https://www.dropbox.com/sh/93iswduu5iw13t6/AAcAvS8j7xY7Ja0IH-dL0J-a7dI=0>

Small Business Reforms

Continued from page 4

- Lift restrictions on bars and restaurants
- Incorporate new liquor license for music venues
- Remove certain public notice requirements
- Enable priority processing for nighttime entertainment, bars, and restaurants

Since the City began implementing Proposition H in January 2021, over 3,500 businesses have benefited from the program, which allows more commercial projects to be processed within a shorter timeframe, in what's known as "over-the-counter," when permits applications are processed immediately upon submission.

"We are making it easier to fill vacant storefronts and support small businesses that are essential to our economy and the health of our neighborhoods," said Mayor London Breed. "This latest round of reforms builds on the work we've doing over the last few years to make it easier to open and operate a small business in this city. By getting rid of barriers and incentivizing people to invest their time and energy here, we can build a stronger San Francisco."

In addition to this approved legislation, Mayor Breed's recent budget extended First Year Free, which waives the cost of initial registration fees, initial license fees, first-year permit, and other applicable fees for qualifying businesses. Since the First Year Free program started in 2021, approximately 5,724 businesses have enrolled, with 3,640 of these completely new, and the remainder are existing businesses adding a new location. The City has waived more than \$2.38 million in fees since the program started.

This legislation and extension of the First Year Free program is integral to Mayor Breed's Roadmap to Downtown San Francisco's Future. One of the plan's nine strategies is to make it easier to start and grow a business. Simplifying City processes while reducing cost will encourage more businesses to start and remain in San Francisco.

"We started Wave as an art gallery and events popup in Lower Haight, and after an amazingly positive reception, realized there was a need for it to become a permanent space," said Jamila Keba, Owner and Co-Founder and Wave Collective on Haight Street. "The Flexible Retail use has allowed us to continue building a creative multifaceted community space that is gallery, cafe, workshop and event space."

Legislative Details

Allow more business uses on the ground floor and as principally permitted

Under the legislation, "Flexible Retail" would be principally permitted and expanded to all neighborhoods on the ground floor across the City's commercial corridors. An example of Flexible Retail includes a business that sells both plants and coffee, and then later shifts to selling plants and making small production bags on site. The proposed ordinance will also clarify that multiple uses are allowed in the same business space. Additionally, the legislation will expand the types of businesses that can open in ground floor spaces to create more opportunities to fill commercial vacancies.

Lift restrictions on restaurants and bars

Currently, several commercial corridors have restrictions in place for restaurants and bars, such

as not permitting them, imposing a cap on the number of restaurants that can be established, or requiring a Conditional Use Authorization (CUA). Conditional Use Authorization is a lengthy process for businesses to be granted approval for their plans, including providing public notice and attending hearings – CUA can add months to the process of opening a business.

Under the legislation, those restrictions will be lifted for new restaurants in Chinatown, along Haight Street, and Taraval Street. Likewise, restrictions on new bars will be lifted along Haight Street, Sacramento Street, and Union Street.

Incorporate new liquor license for music venues

The ordinance will incorporate into local Planning Code a new liquor license, Type 90, which was adopted by the State in 2022. This new liquor license type gives venues more options as it allows a music venue to serve beer, wine, and liquor without excluding minors from the business.

Remove the public notice requirement in Eastern Neighborhoods Mixed Use Districts for business changes

In November 2020, voters adopted the "Save our Small Business Initiative" (Proposition H), which reduced the steps a business owner needed to take when they change their business use. Before this, if a clothing store, for example, were to become a café, the change would require that the general public be provided notice about the change for at least 30 days and the business could not receive their Planning Department approvals over-the-counter, even though both types of businesses are permitted in the neighborhood. Under the legislation, these benefits will be expanded to the commercial corridors in the eastern portion of the City.

Enable nighttime entertainment, bars, and restaurants to benefit from priority processing at Planning Department/Commission

Currently, nighttime entertainment venues, bars, and restaurants with full liquor licenses are excluded from participation in the Planning Department's Community Benefit Priority Processing Program (CB3P). Under the legislation, nighttime entertainment venues, bars, and restaurants with full liquor licenses will benefit from expedited Conditional Use Authorization review, which can save a new business from months of waiting for a hearing at the Planning Commission.

"Most bars, entertainment venues, and restaurants seeking liquor licenses are small businesses, yet they have been excluded from programs that enable fast-tracking of permits like other small businesses," said Steven Lee, managing partner of a legacy restaurant and nightclub in Chinatown, and is a board member of the California Music and Culture Association. "The legislation offers exciting incentives for entrepreneurs who are on the fence about opening new entertainment venues or bars in San Francisco given concerns about paying high rent while waiting for local approvals required to operate."

SUCCESS STORIES

Mohammad, Tailoring and Alterations

[Article originally appeared in <https://cameonetwork.org>]

Mohammad fled Afghanistan with his wife and three children in 2010. They stayed in Turkey until they resettled in the United States in 2018. Despite the hardship he initially faced in the first two years, he built a successful family tailoring and alterations business in his new home of Sacramento. Mohammad overcame economic, cultural, and language barriers to find stability and build a home for his family.

Mohammad has two full-time tailors and one sales representative. His business sells traditional Afghan attire and provides tailoring services for modern and traditional clothing and curtains.

In his shop, Mohammad offers free tailoring and alterations training for newly arrived Afghan women. His wife, who works alongside Mohammad, volunteers to train the women to sew modern dresses and traditional attire. She does so in their native languages, Dari and Pashto. She also volunteers weekly at a non-profit organization to teach 15-20 women

stitching and alterations. “My wife and I are fortunate to give back to our community. The women we train here can work from home and make money while caring for their kids,” Mohammad says proudly.

A friend referred Mohammad to Opening Doors’ Micro-Lending Program to enhance his business. He took a \$10,000 loan to expand his business at the Galt Flea Market, which specializes in serving Spanish-speaking clients.

Now working as a manager for both businesses, Mohammad says, “I am living a prosperous life! I have a successful business, and I am actively engaged in social events of my community where I give back.”

Mohammad’s journey is one of the many stories of immigrants paying it forward to their host communities by supporting new arrivals with opportunities to help them find self-sufficiency.

Simple steps for a sustainable future

Rising to the Challenge

The Rising Loafer Café and Bakery’s mission is to “contribute to the well-being of their community.” Their breakfast and lunch menus are prepared with locally grown ingredients to help reduce the business’ carbon footprint and support the local economy. They also started a back-business garden and are a certified Bay Area Green Business.

The Rising Loafer Café and Bakery has reduced their waste over 80 percent by recycling, reusing, and refurbishing materials. They banned Styrofoam™ products and use “real” plates and silverware instead. All animal fats, plastics, cardboard, cans and glass are recycled and tables are made out of old doors. The Rising Loafer installed low flow faucets and toilets and uses energy and water efficient appliances. They also replaced light bulbs with energy saving units and installed timers on equipment.

The owners are recognized leaders in sustainability and regularly share their green restaurant knowledge and experience with other businesses in the community. They are also training young adults in environmentally-friendly operation of restaurants by partnering with the Job Corp of America and the Berkeley Youth Alternative to offer internships.

Business Snapshot:

The Rising Loafer is an eco-minded café and bakery serving traditional sandwiches and Mediterranean specials.

COOLCALIFORNIA BUSINESS OF THE YEAR

Crestwood Healing Center

Pleasant Hill, CA

Community Leaders for a Greener Tomorrow

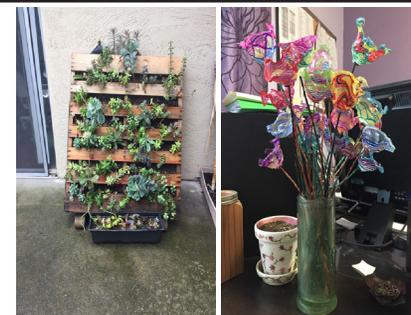

Crestwood Healing Center staff, being presented the Business of the Year award by Richard Corey, Executive Officer of the California Air Resources Board (CARB), and La Ronda Bowen, Ombudsman of CARB.

Crestwood Healing Center is a behavioral health services provider which has gone above and beyond to reduce their carbon footprint and serve as a beacon of sustainability in their community. By implementing a sustainability team and creating a position for a Sustainability Coordinator, they have devised creative strategies to cut waste, reduce energy consumption, improve client satisfaction and have fun while doing it!

Seeing a need for greater environmental responsibility and an opportunity to make a significant impact, Crestwood made numerous operational changes with sustainability in mind. Single-use items such as tableware, napkins, water cups and pill containers have all been replaced with reusable versions. For 2016, staff estimate they avoided sending over 100,000 paper napkins and over 90,000 plastic cups to the landfill, saving almost \$2,000 in the process.

To reduce water usage, the facility identified and repaired all leaks, installed low-flow toilets and shower heads, and replaced faucet aerators.

Crestwood Healing Center is always coming up with creative ways to upcycle their waste products.

Staff even took it upon themselves to design a garden irrigation system using water collected from washing fruits and vegetables. In 2016 alone, water savings were greater than one million gallons.

BUSINESS SNAPSHOT

Crestwood Healing Center has taken a holistic view of their business’ environmental impact and pursued a comprehensive set strategies to reduce their footprint!

Facility Upgrades

- LED overhead lighting
- High-efficiency appliances
- Low-flow toilets, showerheads, and sinks
- Gray water garden irrigation system

Conservation Efforts

- In 2016, the center avoided using:
- 100,000 paper napkins (~\$900 savings)
 - 90,000 plastic cups (~\$1,000 savings)
 - 1.1 million gallons of water (~\$4,500 savings)
