

How to Bid Like You've Already Won the Job

[Article originally appeared in Autodesk Construction Cloud Blog. <https://construction.autodesk.com>]

By Grace Choi

Your approach to bidding, especially in comparison to the competition, will be reflected in your hit ratio. The bid-hit ratio should be balanced, and you want the number of hits to be as high as possible. For example, if your bid-hit ratio is 3:1, it means that you get a third of the jobs you bid on. That's good, but the goal would be to get to a 1:1 ratio and get every job you want.

More jobs equals more referrals, additional opportunities to bid, and winning additional bids for future projects.

So, how can you get your bid-hit ratio up? Here are a few winning practices to improve your bidding process.

4 Practical Tips for Bidding

There are a few tips you can use to bid as if you've already gotten the job and make your bid more successful.

1.) Keep Everything Centralized

The first thing you need to do is to keep everything you need for your bid centralized. Many subcontractors already have flooded inboxes with bid invitations which can be overwhelming and challenging to keep organized. This often leads to missing bids, deadlines, and emails from

important clients. A centralized bid board makes it easier to keep track of all incoming bids in addition to the ones you are already working on.

Furthermore, a centralized system cuts down on the time you need to spend on the information you put on every bid, like addresses, names, or nonspecific quotes. Your online bid board will populate with the information you want to use automatically, saving you time and preventing errors.

Another reason for a focus on centralization is because it prevents duplicate files and consolidates all information in one place. Since you may have multiple bids to work on, having them centralized helps you manage them more easily. On a cloud-based system, you'll have access from anywhere. You can filter through where the bids are coming from and who's working on them, as well.

As an added benefit, if you combine your bidding system with a synchronized calendar, you'll reduce the likelihood of missing out on work or deadlines.

2.) Use Historical Data to Your Advantage

The nice thing about historical data is that it shows you what does or does not work. You probably already have this data available, but are you actually leveraging it to your advantage?

FRA Launches Notice of Funding Opportunities for the Federal-State Partnership for HSR Projects

[Article originally appeared in <http://www.ushsr.com>]

The Federal Railroad Administration has published the FY22 notice of funding requirements for the Federal-State Partnership for Intercity Passenger Rail Program, a key funding opportunity that could finally make high-speed rail a reality for millions of Americans.

According to the notice, which initiates the application process for the FY22 funding

cycle, the program “will support projects that improve safety, economic strength and global competitiveness, equity, climate and sustainability, and transformation.”

High-speed rail projects check every one of these boxes, making the growing number of electric bullet train projects across America highly competitive for funding from the \$12 billion program. High-speed trains have cut oil demand and air pollution around the world

by providing an electrified alternative to short-haul flights, single-occupancy vehicles, and highway and airport expansions.

The Biden Administration has identified high-speed rail projects as a key eligible use of these funds. In an August 2, 2021 fact sheet about the Bipartisan Infrastructure Law, the White House mentioned that the law includes “\$12 billion for partnership grants for intercity rail service, including high-speed rail.”

Transportation Secretary Pete Buttigieg told a House Appropriations subcommittee in May he plans to use funds from the Bipartisan Infrastructure Law to demonstrate high-speed rail in 2 or 3 geographies, pointing to the Federal-State Partnership Program as a likely source of funding for these projects.

“We deserve better passenger rail in this country,” Buttigieg said on October 19. “But for the long run we also do need to be preparing and investing in high-speed, because that’s the

standard that most people in developed countries are getting used to. It makes no sense to me why Americans should settle for a standard of speed and convenience on the rails that’s inferior to what a citizen could expect if they live in Germany, or Japan, or Italy, or even Turkey, or Morocco. We should have the best in America when it comes to any form of infrastructure.”

America has become a global laggard when it comes to high-speed rail. In 26 nations across the world, high-speed trains collectively carry billions of passengers every year. China has built 25,000 miles of high-speed rail since the mid-2000s and is on track to grow its network to 43,000 miles by 2035.

High-speed rail is a necessity because America’s polluting, fly-and-drive status quo is reaching its breaking point. Our highways are full and building more of them will not fix the

Secretary of the Treasury Janet L. Yellen at Inaugural Meeting of Treasury Advisory Committee on Racial Equity

[Article originally appeared in <https://home.treasury.gov/>]

Secretary of the Treasury Janet L. Yellen delivered opening remarks at the first meeting of the Treasury Advisory Committee on Racial Equity (TACRE). The first-of-its-kind committee aims to provide advice and recommendations to Secretary Yellen and Deputy Secretary Wally Adeyemo on efforts to advance racial equity in the economy and address acute disparities for communities of color.

As Prepared for Delivery

Good morning, everyone. Welcome to the Treasury Department. And welcome to the first meeting of the Treasury Advisory Committee on Racial Equity.

I'd like to thank you for being here today, and for the work that you've graciously agreed to do. The formation of this committee is a milestone in Treasury's racial equity agenda. This committee will bring a wide set of outside perspectives to advise me, the Deputy Secretary, and other Treasury officials on how we can bolster our equity efforts.

The inaugural members of the committee come from a broad range of backgrounds – from academia to business to local government. But you

all share a commitment to building an economy that works for everyone. I want to thank Mayor Nutter for chairing this committee, and Felicia Wong for serving as vice chair. And I want to thank Janis Bowdler, my Counselor for Racial Equity, and her team for their hard work.

Let me speak briefly about how the committee fits into our work on racial equity.

Since taking office, President Biden has made clear that our Administration's work to recover and rebuild must be inclusive and equitable. Even before the coronavirus hit our shores, we knew our economy had not worked as well as it should for too many people of color. And we knew that this did not just have a negative impact on underserved communities. Economic inequality is a drag on our economy as a whole.

In fact, I have spent the last few months on the road to lay out our "modern supply-side" agenda. This agenda – reflected in the President's economic plan – recognizes that some of the best opportunities for growth come from investing in people and places that have been overlooked. I believe that investments in disadvantaged communities often result in higher relative returns on investment. And they can boost top-line growth by enabling us to tap all our resources.

At Treasury, we have been guided by this principle in our work. Our first job was to foster a post-pandemic recovery that did not leave any Americans behind. We centered equity in our implementation of the American Rescue Plan – from our housing programs to our aid to state and local governments. Today, economic data indicates that our recovery has been the most equitable in recent history, with record drops in unemployment for many communities of color.

We are also making investments that will drive the future growth of our economy. Over the past year, the Biden Administration has made three historic investments in the long-term strength of our economy: the Bipartisan Infrastructure Law, the CHIPS and Science Act, and the Inflation Reduction Act. Treasury is playing a particularly significant role in the implementation of the Inflation Reduction Act's historic climate change investments – nearly three-quarters of which are estimated to be delivered via tax incentives. You'll hear an update today from Lily Batchelder, our Assistant Secretary for Tax Policy, about our efforts there. And you'll also hear from Counselor Natasha Sarin about our efforts to modernize the IRS and ensure that all Americans are playing by the same rules. I believe that these laws provide a transformative opportunity to advance economic fairness.

The Treasury Advisory Committee on Racial Equity will play a major role in our effort. Over the coming months, you will inform our policymaking in areas from tax fairness and capital delivery systems to Treasury's internal efforts to reflect America's diversity in our workforce. And you'll keep us accountable: to make sure we're focused on our North Star of fostering an economy that unlocks everyone's economic potential – including people of color, rural communities and those most affected by climate change. Our entire economy benefits when all Americans reach their full potential.

The work of this committee will make a difference for many Americans. I'm looking forward to hearing your perspectives in this meeting. And I'm looking forward to working together to ensure communities of color and other underserved communities benefit from – and participate in – the economic growth and investments enacted by this Administration.

Again, thank you for all you are doing. Mayor Nutter, I'll turn it over to you.

How to Bid Like You've Already Won the Job

Continued from page 1

A data-driven bidding strategy can help you make better decisions about what you want to bid on. For instance, use your historical data to review information such as which general contractors are inviting you to bid on their projects and see what your win rates are with them. It's also just as important to know which GCs you're bidding with but not winning to determine if it's worth your resources to continue pursuing.

To start, you need a system that consolidates and aggregates bid management data, because while you can have data on a static board or spreadsheet, drawing meaningful insights can be challenging and highly manual. Seeing different trends lets you make decisions about how to

spend your time on the bids you are invited to make. This helps you reduce the number of bids you make when you are unlikely to win and increases the likelihood of winning the bids you do make. Beneficially, a detailed reporting system helps you be transparent, sharing details with your team, stakeholders and others.

3.) Bid On and Bid Out Work From One Place

Specialty contractors usually need to solicit bids from other subcontractors. The process can be long and complex, requiring them to re-enter the same data multiple times, send numerous emails with the right files, track everything in spreadsheets, and so on.

With this complexity comes the risk of losing information and making errors, which can be

damaging to the bid. Once again, a centralized bid management system can help here. The right platform allows you to manage and keep track of all bid invites that come in and are sent out. All information is kept in the same place, so you don't have to worry about missing files or redundant data entry, all while saving you hours of time. It's as easy as switching from bidding on work to soliciting bids for the same project so you can get bids out the door faster.

4.) Add Your Business Enterprise Certifications

Owners are increasingly contractually required to award a certain percentage of project costs to specific business enterprises. The disadvantaged business enterprises (DBE) program is a prime example of this, along with other subcategories,

such as Minority Business Enterprise (MBE), Women-Owned Business Enterprise (WBE), and more.

If you're a specialty contractor and belong to any of the groups mentioned above, it's important to get certified and promote your credentials so you can win more work.

With bid management software solutions like BuildingConnected, you can add your business enterprise certificates to your company profile. This enables you to get invited to relevant jobs where you'll have an edge on the competition.

Please contact the lead estimator listed above for assistance with breaking down items of work into economically feasible units, with assistance obtaining equipment, supplies, materials, bonding, insurance, estimating, or related assistance. 100% Performance and Payment bonds with a surety company subject to approval of Shimmick Construction Company, Inc. are required of subcontractors for this project. Shimmick Construction will pay bond premium up to 1.5%. Subcontractors will be required to abide by terms and conditions of the AGC Master Labor Agreements and to execute an agreement utilizing the latest SCCI Long Form Standard Subcontract incorporating prime contract terms and conditions, including payment provisions. Shimmick Construction's listing of a Subcontractor is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with the Subcontractor's price quote. Shimmick Construction requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation. For assistance with bonding, insurance or lines of credit contact Devin Nordhagen at devin.nordhagen@shimmick.com.

*LSBs are defined as firms that are listed in the California Department of General Services (DGS) database for small businesses whose principal place of business is within Alameda, Contra Costa, or San Francisco counties.

FRA Launches Notice of Funding Opportunities for the Federal-State Partnership for HSR Projects

Continued from page 1

problem of ever-increasing congestion. Transportation planners have known for decades that widening and building new highways reliably draws ever more cars onto the road, creating a vicious cycle of aimless road building that fails to alleviate congestion or address the climate emergency.

The aviation system, too, is hitting the limits to growth. Since communities understandably resist the expansion or siting of major airports in their neighborhoods, the U.S. hasn't built a major new airport in 27 years. As travel demand increases, airports are running out of space to accommodate the growing air traffic.

Electric bullet trains attack the root cause of the congestion crisis by significantly expanding the transportation system's total carrying capacity. While there are 5 seats in the average car and 125 seats in the average plane, there are 900 seats in a standard high-speed train.

"Americans have had it with inefficient, delayed, and congested transportation systems," said Andy Kunz, President of the U.S. High

Speed Rail Association. "This program presents a once-in-a-decade opportunity to finally bring high-speed rail to the American people."

Once high-speed rail is available, decades of experience from across the world shows that millions of inter-city travelers will opt for high-speed trains instead of flying and driving, reducing the strain on our whole transportation system and slashing carbon emissions and air pollution across the transportation sector.

About USHSR

The U.S. High Speed Rail Coalition mobilizes leading unions, businesses, and public servants to advocate for investments that will finally make high-speed rail a reality in America. Former U.S. Department of Transportation Secretaries Ray LaHood and Anthony Foxx also serve as Coalition Co-Chairs.

The mission of USHSR is to build widespread public, business, and political support for a major investment in a national high-speed rail network.

Shop local this holiday season at 21 Seattle art markets

[Article originally appeared in <https://crosscut.com>]

by Margo Vansyngel

Our end-of-year gift-giving advice is the same as ever: Shop local, shop small — and shop art. Retail foot traffic remains below pre-pandemic levels and e-commerce reigns supreme, so artists and independent artisans could use a boost. In Seattle, our eggnog cup runneth over with holiday markets, pop-ups and end-of-year art shows. Which means there are plenty of opportunities to shop for artist-made pottery and jewelry, locally designed homewares and paintings that won't break the bank.

For the fine-art appreciator

Despite headlines about million-dollar art auctions, a painting or small sculpture doesn't have to set you back thousands of dollars. At the indie gift and apparel store Capitol Thrill, all artworks by local artists — from photos to abstract paintings to small prints — in a pop-up holiday exhibit (through Dec. 31) will be priced at or under \$150.

Ballard's Get Nice Gallery (which opened in 2021 in a former flower shop) is opening a four-

person end-of-year show titled HOW ARE YOU DOING, featuring slightly surrealist digital photo prints by local artists Max Moyer, Maayan Haim, Debi Boyette and Lance McMullan, with prices ranging from \$45 to \$450 (already framed, a nice bonus). Gallery owner Graham Franciose will also open his adjoining art studio to sell more than 100 prints from his whimsical watercolor and gouache series "Morning Coffee Paintings" for \$35 each.

For the connoisseur of curiosities

After 15 years, Ghost Gallery's annual mini art exhibit (Dec. 9 - Feb. 6, 2023, also online) is a holiday tradition. It's the best, and maybe the only, place to find art pieces sized between 1 and 64 square inches, priced between \$20 and \$300 and handmade by more than 80 local and international artists. Taking the prize for tiniest work this year is Seattle artist Yi Du, who makes tantalizing polymer clay dessert pendants.

Visit the link below for the full article:

PUBLIC LEGAL NOTICE ADVERTISEMENTS

GOLDEN GATE BRIDGE HIGHWAY & TRANSPORTATION DISTRICT

NOTICE TO CONTRACTORS

NOTICE IS HEREBY GIVEN that sealed bids will be received by the Office of the Secretary of the District, Golden Gate Bridge, Highway and Transportation District (District) either by U.S. Postal Service addressed to its mailing address, P.O. Box 29000, Presidio Station, San Francisco, CA 94129-9000, or by courier or personal delivery to its office at the Administration Building, Golden Gate Bridge Toll Plaza, San Francisco, CA, on **Tuesday, January 10, 2023, by 2:00 p.m., Pacific Time**, at which time bids will be publicly opened and read in the Board Room of said building for the following:

**CONTRACT NO. 2022-B-104
GOLDEN GATE BRIDGE TOLL PLAZA
ADMINISTRATION BUILDING
DOOR AND WINDOW
REHABILITATION PROJECT
CITY AND COUNTY OF SAN FRANCISCO,
CALIFORNIA**

This public works project consists of, in general, retrofitting existing steel framed single fixed paneled windows and modernization of an existing automatic sliding glass front door system at the District's Administration Building, Golden Gate Bridge Toll Plaza, San Francisco, CA, 94129.

The scope of work includes removing and disposing existing fixed glass window panels and replacing the single glass panel with a top and bottom fixed glass panel and a middle operable awning style window panel, removing an existing automatic sliding door system and replacing with a new automatic sliding door system, and all other related work items as required to complete the project titled Golden Gate Bridge Toll Plaza Administration Building Door and Window Rehabilitation Project, as shown on the Contract Drawings and as specified in the Contract Documents.

A pre-bid conference will be held on **December 20, 2022, at 10:00 a.m., Pacific Time**, at the Administration Building, Golden Gate Bridge Toll Plaza, San Francisco, CA, 94129. A job site tour will be conducted immediately after the conference. While attendance at this conference and the job site tour is not mandatory, the District highly recommends you attend. Due to the COVID-19 pandemic, bidders are notified that all state and local public health orders will be followed during the pre-bid conference. Depending on such requirements then in force, wearing of face masks and social distancing may be required. Parties interested in attending either the pre-bid con-

ference or the bid opening shall notify the District 24 hours prior to attending either event by contacting dmoore@goldengate.org.

Bidders bidding as the prime contractor shall possess a valid **State of California Class B, General Building Contractor's License or a State of California Class A, General Engineering Contractor's License**, with a minimum experience of three (3) similar projects in scope and size, and one (1) public works project in the past five (5) years at the time of Contract award. All subcontractors, if any, shall be properly licensed by the State of California to perform specialized trades. If a subcontractor will be responsible for the window and door renovation work, the subcontractor shall have a minimum experience of three (3) similar projects in scope and size and one (1) public works project in the past five (5) years at the time of Contract award. If a subcontractor will be responsible for the window renovation work, the subcontractor shall possess a valid State of California Class C-17, Glazing Contractor license. Pursuant to Public Contract Code Section 4104, each Bid Proposal must include the name and location of the place of business of each subcontractor who shall perform work or service, or install work for the prime contractor in excess of one-half of one percent (1/2 of 1%) of the bid price.

Bids must be accompanied by a deposit either in the form of cash, a certified or cashier's check, or Bidder's Bond, as described in the Contract Documents, which shall be applied to damages sustained by the District if the successful Bidder fails or refuses to enter into a contract awarded to it.

Bids shall be submitted on the District's Proposal Forms, including all attachments, in a sealed envelope and plainly marked with Bidder's name, and contract name and number.

The District reserves the right to reject any and all bids or to waive any irregularities or informalities in any bid or in the bidding procedure. No Bidder may withdraw its bid for a period of ninety (90) days after the date of opening bids. Within two (2) working days of bid opening, a summary of Bidders' quotes will be available at the District's Procurement Portal website. To review the bid results, go to the District's Procurement Portal website: <https://ggbhdt.bonfirehub.com> and look for **Contract No. 2022-B-104**. Each Bidder will be notified of award, if award is made.

The successful Bidder shall furnish a Performance Bond and a Payment Bond in amounts equal to one hundred percent (100%) of the total price of the Contract. District will retain five percent (5%) from each invoice/billing statement submitted in connection with the Contract. Pursuant to Public Contract Code Section 22300, the successful Bidder may submit certain securities in lieu of the District withholding funds from progress payments (retention) during the Project.

The District hereby notifies all Bidders that it is the

policy of the District to ensure nondiscrimination on the basis of race, color, national origin, or sex in the award and administration of contracts.

Bidders are strongly encouraged to obtain Disadvantaged and Small Business Enterprise (DBE/SBE) participation on this Project. **DISADVANTAGED BUSINESS ENTERPRISES (DBEs) ARE, BY DEFINITION, CONSIDERED TO BE SBEs, AND ARE COVERED BY THE REFERENCES TO SBEs IN THIS DOCUMENT.** In order to achieve such participation, the District has developed procedures to remove barriers to DBE participation in the bidding and award process and to assist DBEs to develop and compete successfully outside of the DBE Program. These procedures include the establishment of a SBE Element of the District's Diversity Program for Contracts. The District has evaluated subcontracting opportunities for this Contract and determined that such opportunities exist and has established an **SBE goal of 9.6%**. Bidders must meet the contract-specific SBE goal or demonstrate good faith efforts to do so. All bidders must document their efforts to achieve this goal. Bidders are encouraged to attend the pre-bid meeting to better understand the applicable DBE/SBE requirements. For DBE/SBE assistance, contact Artemisé Davenport, DBE Program Administrator, at (415) 257-4581.

Contractor and all lower-tier subcontractors and suppliers performing covered work shall be required to submit certified payroll and labor compliance documentation to the District electronically using LCP Tracker software.

In accordance with Section 1720 et seq. of the Labor Code, the general prevailing wage rates, as established by the Director of the California Department of Industrial Relations, will apply to this

Contract. Information about prevailing wage rates for this Project is set forth in the Special Provisions. The prevailing wage rates established by the California Department of Industrial Relations are available at <http://www.dir.ca.gov/DLSR/PWD>. Hard copies can be viewed at the District's Engineering Office or requested by mail, addressed to: Prevailing Wage Unit, Division of Labor Statistics and Research, Department of Industrial Relations, P.O. Box 420603, San Francisco, CA 94142.

Should the general prevailing wage rates not specify a wage determination for a particular craft classification or type of worker, attention is directed to 8 C.C.R. 16202(b) regarding petitioning the Director of the California Department of Industrial Relations for a special wage determination. The District has made no request for such determination, as the District does not know the specific craft classifications or type of workers intended by Contractor for this Project.

Minimum wage rates for this Project, as determined by the U.S. Secretary of Labor, are set forth in the Spe-

cial Provisions, Section 10.10. If there is a difference between the minimum wage rates determined by the Secretary of Labor and the prevailing wage rates determined by the State for similar classifications of labor, Contractor and its subcontractors shall pay no less than the higher wage rate.

Contractor and subcontractors must be registered with the California Department of Industrial Relations pursuant to Labor Code Section 1725.5. This Agreement is subject to monitoring and enforcement by the DIR pursuant to Labor Code Section 1771.4. The Contractor must post job site notices, as prescribed by regulation. The Contractor shall furnish the records specified in Labor Code Section 1776 directly to the Labor Commissioner, monthly in a format prescribed by the Labor Commissioner.

Bidders' attention is directed to the requirements of the Occupational Safety and Health Administration of the U.S. Department of Labor, which requirements shall apply to all work to be done under this Contract.

Bid documents are available at no charge on the District's Procurement Portal at <https://ggbhdt.bonfirehub.com>. In order to download and respond to posted solicitations, Bidders are required to register on the District's Procurement Portal. Once registered the documents may be downloaded. Click on the "Open Public Opportunities" page, click View Opportunity next to the desired project.

Any revision to the Bid Documents will be made by a written addendum and be available on the District's Procurement Portal for download at no charge. Such addendum will become a part of the Bid Documents and be binding on all Bidders. Bidder's receipt of the addendum shall be acknowledged and so noted by each Bidder in the space provided on the Proposal Form. It is the responsibility of Bidder to check the District's Procurement Portal website for any Addenda that may be issued relative to this Contract.

Questions regarding technical information and clarifications shall be submitted in the District's Procurement Portal by clicking on the Opportunity Q & A tab of the message section of the project page. Such submissions shall be sent **no later than eight calendar days before bid opening**. Note that only written clarifications issued by the District are binding on the District. The District will post all pre-bid questions and the District's responses on the District's Procurement Portal website under Reference Number 2022-B-104. Bidders are encouraged to check the procurement portal website regularly.

Ewa Z. Bauer-Furbush, P.E., District Engineer

Dated at San Francisco, this 6th day of December 2022.

Oakland port gateway \$175 million modernisation gets green light

[Article originally appeared in www.calmatters.org]

By Margherita Bruno

The 7th Street Grade Separation East Project is a joint effort between the Alameda County Transportation Commission (Alameda CTC), CTC and the City and Port of Oakland.

Reconstructing a key access into the port will relieve truck and vehicle congestion, increase safety, and provide flexibility for seaport cargo operations according to the port authority.

This in turn will also contribute to reducing greenhouse gas emissions by curtailing trucks dwell time.

"We would like to thank the state for approving \$175 million to advance the 7th Street Grade Separation East Project," said Alameda CTC Chair John J. Bauters.

"The project will improve port operations and safety, and provides a new high-quality bicycle and pedestrian pathway connecting the community to the waterfront and recreational facilities.

"The project includes greening requested by the West Oakland community to reduce impacts of goods movement and improve public health."

Alameda CTC will manage the project with financial and engineering support from the Port of Oakland.

Other project partners include the Federal Highway Administration, the California Transportation Commission, the California Department of Transportation, Union Pacific Railroad, BART, the Metropolitan Transportation Commission, the City of Oakland and several utility agencies.

The project will commence the construction phase in 2023.

The Port of Oakland witnessed a rise in full imports and exports compared to both last month and October 2021 volumes.

The port handled 145,868 TEU last month compared to 137,776 TEU in October 2021, a 5.9 per cent year-on-year growth.

San Francisco Breaks Ground on New Community and Recreation Center at Sunnydale HOPE SF

[Article originally appeared in <https://sf.gov>]

Mayor London Breed joined community leaders to celebrate the groundbreaking of the Sunnydale Community Hub, a joint development comprised of a childcare center operated by Wu Yee Children’s Services, a Boys & Girls Clubhouse, vibrant community spaces, and a full-service recreation center serving residents of Sunnydale, Visitacion Valley, and surrounding communities.

The Sunnydale neighborhood is home to one of the highest concentrations of young people in San Francisco, as well as one of the highest concentrations of poverty. The Sunnydale Community Hub will provide safe and accessible space to families, children, and youth for sports, recreation, and cultural events, as well as health and wellness programs and activities.

“Every young person in San Francisco, regardless of where they live, should have access to modern recreation and learning spaces close to home”, said Mayor London Breed. “The Sunnydale Community Hub will be vital to the development of children and youth in this neighborhood and is the perfect example of the great things we can accomplish when we make significant investments and work collaboratively to provide our residents with facilities that foster a thriving community.”

The \$72 million joint development is made possible by a combination of funding sources including the Mayor’s Office of Housing and Community Development (MOHCD), San Francisco’s 2020 Health & Recovery Bond, Governor Gavin Newsom’s 2022 Budget Act, federal and state funds secured by Speaker Nancy Pelosi and Senator Scott Wiener, and pledges from community donors.

“Today’s groundbreaking is a vital step toward ensuring every San Franciscan has the resources and facilities they need to thrive in the neighborhood they call home,” Speaker Nancy Pelosi said. “The Sunnydale Community Hub will serve as a beacon of the values that our City holds dear – empowering this beautiful community to flourish by forging closer bonds between neighbors, expanding children’s horizons and opening new doors to economic opportunity for all. As a proud Representative of San Francisco, it was my privilege to help secure \$1.5 million in federal funding for the Community Hub’s new Herz Recreation Center, and I will continue fighting alongside our City leaders to ensure this bold vision soon becomes a reality for Sunnydale.”

“The Sunnydale Community Hub will provide an amazing space for Sunnydale residents to gather, learn, play and make connections,” said Senator Scott Wiener. “I’m proud to have brought home \$5 million in state funding for the Hub. It’s going to be a fantastic addition to the neighborhood, and I can’t wait to see it in action.”
