WHATEVER THE CHALLENGE

Highways, Bridges, Roadways and More - We Meet the Challenges

Our company loves challenges. We build infrastructure... highways, bridges, overpasses, barrier rail, walls, and concrete roadway systems. But all that's just the end result. What we really do is meet challenges.

We build when the window of opportunity is small, and the work days are long... when the job seems impossible, and the clock is ticking. Whatever the challenge, we will rise to meet it.

Not every project is an emergency, but to us every project is critical, because it helps you get from here to there faster, safer, and easier.

We get the job done... whatever the challenge.

We are a bridge builder, with significant civil engineering skills, Western states highway construction company, road paving company, transportation contractor and more. We are the people who love challenges!

RESOLUTION 242-12

On June 28, 2012 San Francisco Board of Supervisors designated the Small Business Exchange newspaper as a minority outreach newspaper for the following communities for FY 12-13:

• AFRICAN AMERICAN • CHINESE • HISPANIC

AECOM provides on-the-ground solutions for U.S. Air Force

In Afghanistan, AECOM's team — including quality assurance and project management specialists — provided design, engineering, planning and construction support services.

AECOM's designers and engineers contribute vital services supporting people and missions at major U.S. Air Force installations worldwide, meeting the needs of the Air Force Civil Engineer Center's (AFCEC) programs for the past 25 years.

That help includes program management and contract execution services for programs such as installation master planning, designing and constructing facilities, protecting the environment and establishing energy-management techniques.

AECOM's Sally Macon, vice president, federal programs, government technical services, and client manager for AFCEC, explains,

"AECOM has greatly evolved its partnership with the AFCEC — moving from providing environmental services to providing full-spectrum, architectural engineering services in almost every corner of the world.

"These projects are rewarding because they require collaboration across AECOM's capabilities and geographies. The interaction and exchange of ideas encourage innovation and build on our expertise."

Transforming a barren landscape

AECOM's work in Afghanistan for AFCEC began in 2009 out of an office in Camp Bastion and is now nearing completion. The

company is providing engineering, planning, design and construction support services.

"When our team arrived at Camp Bastion, which is a main operating base in Afghanistan for U.S. Marines, it was a barren desert landscape," says AECOM's Wayne McDermott, senior project manager. "We helped provide concept designs and construction oversight for more than US\$700 million in new facilities. Our fast-track response was critical to the military mission and our design of the runways, aircraft maintenance and support facilities became the model in the region."

Reducing the demand for resources

Focused on sustainability, AECOM's teams across multiple business lines and geographies identified opportunities to reduce energy and water demand at three air bases in Europe. AECOM also performed sustainable infrastructure assessments at six bases located in the eastern United States — assessing space utilization; water; lighting; heating, ventilation and air conditioning; and process energy systems.

"AFCEC has to meet energy and water use reduction goals — and extend the life of facilities at bases worldwide," says AECOM's Annika Moman, program manager, energy. "We brought in 20 technical experts, who spent two weeks gathering data and walking more than 2 million square feet [186,000 square meters] on each base. There is a massive need for data to gauge facility conditions and opportunities for savings. When our experts finish an assessment, each facility manager has a checklist of sustainability measures to program and plan for over a seven-year period, and some which can be implemented immediately."

Small Business Preparation For Health Care Reform

By Darryl K. Henderson, J.D.

[Visit the news section of our website to read Part 1 of this article - www.sbeinc.com]

This article is Part 2 on the topic. See Part 1, which includes details on the definition of a covered employer under the Patient Protection and Affordable Care Act of 2010 ("PPACA").

There is an estimated 30 million uninsured Americans, out of a total population of 313.9 million, including 143.1 million employed and 12.2 million unemployed.

A covered employer under PPACA is referred to as a "large employer".

When calculating the number of full-time

equivalent employees to determine employer coverage, the owner of a business, as well as the family members of the owner who work in the business, must be included in the calculation.

"Affordable" means, an employee's health care insurance premium must be less than 9.5% of his/her household income. There are at least 3 ways to determine this; perhaps the simplest is, make sure that the employee share of annual health insurance premiums, for the lowest-cost coverage option that also meets the minimum value requirement, does not exceed 9.5% of the amount reported in Box 1 of Form W-2 for an employee (the "W-2 Safe Harbor"). Apply this calculation to the lowest paid full-time employee.

"Minimum value", at this point, means, the employer must pay at least 60% of the total allowed costs of benefits under a health insurance plan, considering such factors as deductibles and co-pays. A minimum value calculator will be made available in the future by the IRS and U.S. Department of Health and Human Services.

A large employer must offer health care insurance coverage to at least 95% of its full-time employees and their dependents. A "dependent" is defined as the children of an employee (up to 26 years of age), but does not include the employee's spouse. Therefore, a large employer must offer dependent coverage, but is not obligated to offer family coverage.

The offer of coverage should be made, even if the employer is aware that a full-time employee is covered under his/her spouse's

health plan at another company.

Generally, an employer will be required to offer health insurance coverage within three (3) months of a full-time employee's hire date. The customary 90-day probationary period for new hires is allowed under PPACA.

The U.S. Department of Labor has postponed the requirement that all employers must provide employees and new hires with written notice that a state-based health insurance Exchange is an available option. This written notice requirement has been postponed from **March 1, 2013 to the summer or fall of 2013**. More details are forthcoming.

The rules and regulations to implement PPACA are evolving. For questions, speak with a human resources consultant, health insurance agent, or employment lawyer.

CALIFORNIA SUB-BID REQUEST ADS

**Broadway Sansome Apartments –
Special Inspections & Testing RFP
(255 Broadway Street, SF)**

Broadway Sansome Associates, L.P.,

a California Limited Partnership is soliciting proposals for only **SPECIAL INSPECTIONS & TESTING** for the construction of an affordable housing development located at the corner of Broadway and Sansome.

This project, located at 255 Broadway Street, has a mat slab and 2 concrete podiums with 1 floor of metal stud framing and 7 floors of wood framing. When complete, the building will contain 75 residential units comprised of studios, 1, 2 and 3 bedroom units. The basement and level 1 will contain some common area, retail space, and offices. There will be roof decks at levels 6 and 7 and an exterior courtyard at level 1. Total area is approximately 88,000 SF.

This project is funded in part by the MOH/HRC. As such, the HRC's LBE, Constructon Workforce and Prevailing Wage Policies apply.

Voluntary Pre-Bid Meeting

**1100 Ocean Avenue - Request for Bid
(San Francisco)**

Cahill Contractors, Inc. is requesting bids for the 1100 Ocean Ave Multi-Family Housing project from **ALL TRADES except** for the following (which have already been bid out):

**Geo Piers, Exterior Building Maintenance System, Elevator, Fire Sprinkler,
Solar Hot Water System**

The project consists of 5 stories of wood framing on a concrete podium. The area of the building is approximately 85,000 sf. The ground floor includes a community room, commercial shell space, offices and parking. The upper levels will contain 71 units (studios, 1, 2 and 3 bedroom units). There is 1 three-bedroom manager's unit on the ground floor. The 2nd floor podium includes an outdoor courtyard space.

The project is slated to break ground in May/June 2013 and be complete by October / November 2014 (18 Month Schedule).

This project is funded in part by the MOH/HRC. As such, the HRC's LBE, Constructon Workforce and Prevailing Wage Policies apply.

SKANSKA

is interested in soliciting in Good Faith all subcontractors as well as certified DBE companies for the following project:

For Construction on Route 62 in San Bernardino County near Twentynine Palms and Rice from Gopher Grove Lane to 11 miles East of Ironage Road and from 0.8 mile West of Colorado River Aqueduct to 3.8 miles East of Cadiz Road
District 8 on Route 62
Contract No.: 08-ON1204
DBE Goal: 6%
Bid Date: Feb. 28, 2013 – 2:00PM

Quotes requested for contractors, suppliers and service providers include, but are not limited to: Construction Site Management, Storm Water Pollution Plan, Street Sweeping, Construction Area Signs, Traffic Control System, Temporary Traffic Stripe, Portable Changeable Message Signs, Hot Mix Asphalt, Tack Coat, Thermoplastic Pavement Marking, Thermoplastic Traffic Stripe, Pavement Marker, Asphalt Trucking.

Plans and Specifications are available for view at our main office in Riverside, on the Caltrans website: http://www.dot.ca.gov/hq/esc/oe/weekly_ads/index.php or by calling (916) 654-5266.

Skanska is interested in soliciting in Good Faith all subcontractors as well as certified DBE companies for this project. All interested subcontractors, please indicate all lower tier DBE participation offered on your quotation as it will be evaluated with your price. Please call if we can assist you in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies. Skanska will also review breaking out scope packages and adjusting schedules to help permit maximum participation.

Subcontracting Requirements: Skanska's insurance requirements are Commercial General Liability (GL): \$1M ea. occ., \$1M personal injury, \$2M products & completed operations agg. and general agg., \$1M Auto Liability; \$5M Excess/Umbrella and \$1M Workers Comp. Endorsements and waivers required are the Additional Insured End., Primary Wording End., and a Waiver of Subrogation (GL & WC). Other insurance requirements may be necessary per scope. Subcontractors may be required to furnish performance and payment bonds in the full amount of their subcontract by an admitted surety and subject to approval by Skanska. Skanska will pay bond premium up to 1%. Quotations must be valid for the same duration as specified by the Owner for contract award. Conditions or exceptions in Subcontractor's quote are expressly rejected unless accepted in writing. Skanska is signatory to the Operating Engineers, Laborers, Cement Masons, Carpenters Unions and Teamsters. Subcontractors must provide weekly, one original and one copy of all certified payrolls, including non-performance and fringe benefit statements if required by law or by the Prime Contract. Subcontractor scope (including any conditions or exceptions) is required 24 hours prior to bid deadline to allow proper evaluation.

Skanska is an Equal Opportunity Employer

SAN FRANCISCO BAY AREA

Moscone Expansion District gets final approval

By: Laurie Armstrong

New hotel assessment will provide two thirds of cost of convention center expansion

The San Francisco Board of Supervisors today approved the creation of the Moscone Expansion District (MED) which will provide the majority of funding for the expansion of the City's convention center.

In a unanimous vote, the Board passed a resolution approving the establishment of the MED and three additional measures that will help finance the expansion through issuance of Certificates of Participation and allow the project to move forward in the environmental review process.

Hotel assessments from the MED will provide two thirds of the funding for costs of the expansion project. The other third will come from a continuation of funding from the City's General Fund. Project costs are estimated to be \$500 million.

The expansion of Moscone Center will add approximately 350,000 to 400,000 square feet to the convention center, including 80,000 or more square feet of contiguous exhibit, essential for attracting larger conventions.

"San Francisco Travel is proud to be continuing and expanding our public/private partnership with our City partners to transform the Moscone Center into a state-of-the-art facility that will be even more competitive in attracting conventions to our city," said Joe D'Alessandro, president and CEO of the San Francisco Travel Association.

"San Francisco has already lost meetings representing \$2.057 billion in direct spending as a result of space limitations for meetings with dates between 2010 and 2019. The existing three-building configuration of Moscone Center is effectively filled to capacity," D'Alessandro continued. "Therefore, it is impossible to significantly grow the San Francisco convention market without providing additional meeting and exhibit space –

especially contiguous exhibition space."

"Investing in the expansion of our world class Moscone Center is absolutely essential for San Francisco because tourism dollars generated by activities at the convention center ripple into every neighborhood of the City through jobs, local purchases and taxes paid by visitors," said Mayor Edwin L. Lee. "The City is proud to partner with the hotel and tourism industry to make this investment which will help grow our recovering economy and create jobs."

Moscone Center currently hosts 1 million visitors each year and generates more than \$1.6 billion in visitor spending. This spending contributes millions of dollars to the City's General Fund and supports thousands of jobs.

Tourism is San Francisco's major industry, generating almost \$8.5 billion in economic activity, supporting more than 71,400 jobs, and contributing \$524 million to the General Fund to help support neighborhood services such as police protection, parks, roads maintenance and firefighters.

The planned expansion of Moscone Center will benefit the City in many ways:

- It will create 3,424 long-term jobs (in addition to construction jobs).
- It will induce \$713 million in direct spending in the first seven years after expansion opens.
- It will contribute \$320 million more in incremental hotel tax revenues to the General Fund over the life of the District.

The district will begin collecting revenues in July Of 2013 and construction of the expansion is anticipated to begin November 2014 with completion anticipated in 2018.

The San Francisco Travel Association is the official tourism marketing organization for the City and County of San Francisco. CALIFORNIA PUBLIC LEGAL NOTICE

Request for Proposal Anderson Dam Seismic Retrofit Project Design Phase Services

The Agency: Santa Clara Valley Water District (District) is the water resource management agency that meets the watershed stewardship needs of, and provides reliable wholesale water to, Santa Clara County's 1.8 million residents.

The Project: The District is soliciting proposals from qualified design consultants able to provide professional engineering services for the design of the Anderson Dam Seismic Retrofit Project (Project). The design consultant is responsible for development and preparation of basis of design and contract documents including technical memoranda and reports, cost estimates, and plans and specifications to meet the objectives of the Project. Upon completion of the design phase, a contract amendment may be negotiated with the design consultant for additional engineering support services during the construction phase.

Anderson Dam and Anderson Reservoir are located in the hills above the City of Morgan Hill. The reservoir is a critical water supply facility for the District, and is presently restricted to 67% of its capacity to prevent an uncontrolled release of water resulting from a major earthquake. Planning, design, and construction of the dam retrofit will be completed by 2018, returning the reservoir to optimum operating capacity.

Qualified design consultants will propose multi-disciplinary teams with expertise in dam retrofit design, including but not necessarily limited to facilities consisting of zoned earth fill embankments, intake structures and outlet conduits, and gated and ungated spillways. Expertise in hydraulic, civil, geotechnical, structural, mechanical, electrical, and instrumentation and controls engineering is required.

Pre-Proposal Meeting: A pre-proposal meeting and site visit – mandatory for prime firms – will be held on the date, time, and location specified in the RFP Schedule posted in the District's Contract Administration System (CAS). Interested parties are required to RSVP for the pre-proposal meeting at least 24 hours prior to the meeting and to provide the name and contact information of those planning to attend. All attendees must bring valid photo identification to gain entry to the Project site. For complete and updated information on this Request for Proposal (RFP) requirements and deadlines, please go to the District's web portal at <http://cas.valleywater.org>.

Pre-Proposal Meeting: Proposing firms must submit proposals electronically in CAS by the date and time specified in the RFP Schedule. Prior to submitting proposals, all firms must be registered in CAS. This can be achieved by going to the web address noted above and following the instructions to create an account. When creating an account in CAS, select the expertise code "CV11 - Dams, Levees, and Appurtenances" and add contact information as necessary. For assistance with creating a CAS account, please call (408) 630-2992, or e-mail questions to ContractAdministration@valleywater.org.

Contact: General questions regarding this RFP are accepted by email to Emmanuel Aryee, Engineering Unit Manager, at: earyee@valleywater.org.

CALIFORNIA PUBLIC LEGAL NOTICES

CITY & COUNTY OF SAN FRANCISCO DEPARTMENT OF PUBLIC WORKS

**Contract No. 2187J
(ID No. OCE13081)**

VARIOUS LOCATIONS ON-CALL OVERHEAD CONTACT SYSTEM (OCS) SERVICES

Sealed bids will be received at 1155 Market St, 4th Flr, San Francisco, CA 94103 until **2:30 p.m. on February 27, 2013**, after which they will be publicly opened and read. Digital files of Bid Documents, Plan Holders Lists, and Addenda may be downloaded at no cost from the Department of Public Works (DPW) Electronic Bid Documents Download site at www.sfdpw.org/biddocs, or purchased on a CD format from 1155 Market Street, 4th Floor, San Francisco, California 94103, telephone 415-554-6229, for a non-refundable \$15.00 fee paid by cash or check to "Department of Public Works". Please visit the DPW's Contracts, Bid Opportunities and Payments webpage at www.sfdpw.org for more information. Notices regarding Addenda and other bid changes will be distributed by email to Plan Holders.

The work is performing Overhead Contact System (OCS) support services, if needed, during or prior to/ending of pavement renovation and/or sewer replacement construction work at various locations throughout the City and County of San Francisco. The contract term is 2 years with an option to extend up to 1 additional year. The Engineer's estimate is in excess of \$1,250,000. For more information, contact the Project Manager, Steven Lee at 415-558-5226.

Pursuant to San Francisco Administrative Code (SFAC) Section 6.25, "Clean Construction" is required for the performance of all work.

The Specifications include liquidated damages. Contract will be on a Lump Sum Bid Items With Unit Prices basis. Progressive payments will be made.

Bid discounts may be applied as per SFAC Chapter 14B. Subcontracting goal is **25% LBE**. Call Selormey Dzikunu at 415-558-4059 for details. In

accordance with SFAC Chapter 14B requirements, all bidders, except those who meet the exception noted below, shall submit documented good faith efforts with their bids and must achieve 80 out of 100 points to be deemed responsive. Bidders will receive 15 points for attending the pre-bid conference. Refer to HRC Form 2B for more details. Exception: Bidders who demonstrate that their total LBE participation exceeds the above subcontracting goal by 35% will not be required to meet the good faith efforts requirements.

A pre-bid conference will be held on **February 12, 2013, 10:00 a.m.** at 30 Van Ness Ave, 5th Flr Main Conference Rm.

For information on the City's Surety Bond Program, call Jennifer Elmore at (415) 217-6578.

A corporate surety bond or certified check for ten percent (10%) of the amount bid must accompany each bid. SFAC Sec. 6.22(A) requires all construction contracts awarded by the City and County of San Francisco to include performance and payment bonds for 100% of the contract award.

Class "C-10" license required to bid.

In accordance with San Francisco Administrative Code Chapter 6, no bid is accepted and no contract in excess of \$400,000 is awarded by the City and County of San Francisco until such time as the Mayor or the Mayor's designee approves the contract for award, and the Director of Public Works then issues an order of award. Pursuant to Charter Section 3.105, all contract awards are subject to certification by the Controller as to the availability of funds.

Minimum wage rates for this project must comply with the current General Prevailing Wage as determined by the State Department of Industrial Relations. Minimum wage rates other than applicable to General Prevailing Wage must comply with SFAC Chapter 12P, Minimum Compensation Ordinance.

Right reserved to reject any or all bids and waive any minor irregularities.

SMALL BUSINESS EXCHANGE

GOLDEN GATE BRIDGE HIGHWAY & TRANSPORTATION DISTRICT

NOTICE INVITING SEALED BIDS

The Golden Gate Bridge, Highway and Transportation District (District) seeks bids for **Contract No. 2013-FT-9, San Francisco Ferry Terminal Gangway and Floats Service Life Extension**. Interested Bidders must submit sealed bids to the Office of the Secretary of the District on **Tuesday, February 26, 2013 by 2:00 p.m., PST**, at which time bids will be publicly opened and read.

The District seeks bids for service life extension to the gangways and floats at the San Francisco Ferry Terminal.

A non-mandatory pre-bid conference will be held at the San Francisco Ferry Terminal, 1 Ferry Plaza, San Francisco, CA on **Friday, February 1, 2013, at 10:00 a.m. PST**.

This is a Public Works Contract. The general prevailing rates of per diem wages and the general prevailing rates for regular (straight) time, holiday and overtime work in San Francisco County for each craft, classification and type of worker needed to execute the Contract shall be set forth in the current General Prevailing Wage Determinations made by the Director of Industrial Relations pursuant to California Labor Code Part 7, Chapter 1, Art. 2, Sections 1770, 1773, and 1773.1 and any amendments

thereof. The current General Prevailing Wage Determinations are incorporated into the Contract, and are available at the California Department of Industrial Relations' website (www.dir.ca.gov/dlsr/DPre-WageDetermination.htm). Should the general prevailing wage rates not specify a wage determination for a particular craft classification or type of worker, attention is directed to 8 CCR 16202(b) regarding petitioning the Director of the California Department of Industrial Relations for a special wage determination. The District has made no request for such determination as the District does not know the specific craft classifications or type of workers intended by Contractor for this project. The District has not established a labor compliance program. Responsibility for labor law enforcement remains with the Division of Labor Standards Enforcement.

The successful bidder shall furnish a performance bond and a payment bond.

The Bid Documents are available for download on the District's web site. To download the Bid Documents, go to the District's web site home page at <http://www.goldengate.org>, click on Contract Opportunities, scroll down to Ferry Division and look for Contract No. 2013-FT-9.

To inspect and obtain Bid Documents or for additional information, please contact the Office of the Secretary of the District, by telephone at (415) 923-2223, by email at districtsecretary@goldengate.org, or by facsimile at (415) 923-2013.

SMALL BUSINESS EXCHANGE

UC IRVINE

NOTICE INVITING CONTRACTOR PREQUALIFICATION

The **University of California, Irvine (UCI)** requests the qualifications of Contractors with General Building (B) and/or Electrical (C-10) licenses wishing to submit **DESIGN BUILD** proposals for the **MESA COURT HOUSING WALKWAY LIGHTING REPLACEMENT, PROJECT NO. 996265WL**.

Prequalification questionnaires will be accepted from Contractors with General Building (B) and/or Electrical (C-10) licenses teamed with an Electrical Engineer that have completed comparable projects as described in the questionnaire.

DESCRIPTION: Replace 118 existing high-pressure sodium walkway lighting fixtures at the Mesa Court Housing complex with LED lighting including:

- Replace 93 fixtures with new LED fixtures, poles, bases, and wiring
- Retrofit 25 metal halide lamp fixtures with LED fixtures, retaining the existing housings, poles, and bases
- Replace existing time clocks with new astronomical time clocks with battery backup
- Design the lighting layout to comply with code-mandated light levels while preventing light trespass into dormitory rooms

PROJECT DELIVERY: Design Build

ESTIMATED DESIGN AND CONSTRUCTION COST: \$340,000 - \$600,000

PROCEDURES: Prequalification questionnaires will be available electronically at 2 PM on 2/13/13 from UCI Design & Construction Services.

A **Mandatory Prequalification Conference** will be held at **10:00 AM on 2/20/13** at UCI Student Center, Doheny A Conference Room, Building 113 on Campus Map, corner of West Peltason Drive and Pereira Drive, Irvine, CA 92697.

Prequalification questionnaires must be received by **2 PM on 3/6/13** only at UCI Design & Construction Services, 101 Academy, Suite 200, Irvine, CA 92697.

UCI reserves the right to reject any or all responses to this notice, to waive non-material irregularities, and to deem Contractors prequalified to submit proposals for the project. To prequalify, Contractors must agree to comply with all proposal conditions including state prevailing wages, 10% bid bond, 100% payment and performance bonds, and insurance requirements. A contract will be awarded to the contractor/engineer team ("design builder") who offers UCI the best value.

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Contractors may be required to show evidence of its equal employment opportunity policy.

Contact David Donovan (949) 824-6582, ddonovan@uci.edu for the questionnaire.

CALIFORNIA PUBLIC LEGAL NOTICES

UCLA

ADVERTISEMENT FOR PREQUALIFICATION (GENERAL CONTRACTOR)

Subject to conditions prescribed by the University of California, Los Angeles, responses to the University's prequalification documents for a lump sum contract are sought from prospective general contractor bidders (hereafter "bidders") for the following project:

HITCH SUITES RENOVATION Project Number 946485.02 UNIVERSITY OF CALIFORNIA, LOS ANGELES

PREQUALIFICATION OF PROSPECTIVE BIDDERS: The University has determined that bidders who submit bids on this project must be prequalified.

Prequalified bidders will be required to have the following California contractor's license(s):

B License (General Building)

DESCRIPTION OF WORK: This Project renovates the 324 bed Hitch Suites undergraduate residential complex. The Project renovates and repairs the four 3-story residential buildings comprising 76,200 gsf, and replaces the existing 1-story 1,300 gsf service building with a 4,700 gsf commons building. Work includes provision of the following.

Renovation of Wood Frame Structures:

1. Exterior Work: Replace existing wood shingles with cementitious siding; replace windows, gutters and railings; replace exterior exit corridor shingles with cement plaster; add exit signage.
2. Infrastructure Work: Provide fire sprinklers, fire alarms, and standpipes; replace domestic water supply piping; replace cooling units in hub

rooms.

3. Interior Work: Renovate bathrooms, bedrooms and living rooms in the suites. Replace fixtures, casework, fittings, shower stalls, mirrors, exhaust fans, lighting, accessories, carpet, resilient flooring, and paint finishes; replace baseboard heaters, light fixtures and ceiling fans; remove most surface wire mold; add occupancy sensor switches. Upgrade five existing disabled access suites to meet disabled access codes. Replace kitchen casework and appliances and add dishwashers and washer/driers in two Faculty in Residence ("FIR") units. Upgrade one FIR to comply with disabled access codes.

Structural Upgrades:

1. Replace existing gypsum shear panels with plywood, and add new shear panels; provide drag struts and hold-downs.

Commons:

1. Construct a new 4700 gsf concrete and steel frame building with communal cooking and dining, a study area, a multi-purpose space, a shared laundry room, administrative offices, restrooms and vending.

Site Improvements:

1. New domestic water and fire water services; new electrical power supply from campus high voltage network; relocation of existing fire hydrants and add new fire department connections.
2. Site improvements include new retaining walls, ramps, and stairways at select locations; replacement of existing walkways with new paving throughout. Re-grade to achieve compliant slopes. New landscape elements, irrigation systems, fencing, site furnishings, and signage. Specified existing landscape elements shall be protected during construction. New exterior lighting on emergency power.
3. Two new full sized basketball courts and two mini-basketball courts. The mini-courts also function as a fire truck turnaround.

PREQUALIFICATION SCHEDULE: On February 5, 2013, prequalification documents will be available to intending bidders online at www.capital.ucla.edu and will be issued at no cost at:

Contracts Administration
University of California, Los Angeles
1060 Veteran Avenue, Suite 125
Box 951395
Los Angeles, California 90095-1395
310-825-7015

MANDATORY PRE-QUALIFICATION CONFERENCE: A Mandatory Pre-Qualification Conference will be conducted on February 12, 2013 beginning promptly at 10:00 a.m. Only general contractor bidders who participate in the Conference in its entirety will be allowed to submit prequalification documents and, if prequalification is achieved, bid on the Project as general contractors. Participants must arrive at or before the above-specified time. Persons arriving later than said time will not be allowed to submit prequalification documents or submit bids as general contractors. Participants shall meet at Capital Programs Building, 1060 Veteran Avenue (follow signs to the meeting room), UCLA campus (refer to the online UCLA Campus Map at www.ucla.edu/map). For further information, contact Eric Heggen at 310-267-4823.

NOTES:

1. Attendee shall be a staff member of the general contractor bidder's firm who will be actively involved in responding to this Prequalification, and who is highly knowledgeable of the firm's potential response to the prequalification criteria.
2. Attendees are advised that parking may be difficult. Attendees must allow ample time to drive to the above location in heavy traffic, find a parking space, walk to the building, and arrive in the designated Meeting Room prior to the required time. It is currently anticipated that the Conference will last at least 1 hour.

On February 20, 2013, the completed Prequalification Questionnaire and associated documents will be received at the above-specified address.

The Prequalification Questionnaire and associated documents is due on February 20, 2013 at 3:00 p.m.

Any person or entity not satisfied with the outcome of the prequalification must file a writ challenging the outcome within 10 calendar days from the date of the University's written notice regarding prequalification determination. Any assertion that the outcome of the prequalification process was improper will not be a ground for a bid protest. However, the University reserves the right to accept late submissions and to request, receive, and evaluate supplemental information after the above time and date at its sole determination.

The dates, times, and location set for receiving and opening of bids will be set forth in an Advertisement for Bids.

The University reserves the right to reject any or all responses to Prequalification Questionnaires and to waive non-material irregularities in any response received.

All information submitted for prequalification evaluation will be considered official information acquired in confidence, and the University will maintain its confidentiality to the extent permitted by law.

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each Bidder may be required to show evidence of its equal employment opportunity policy. The successful Bidder and its subcontractors will be required to follow the nondiscrimination requirements set forth in the Bidding Documents and to pay prevailing wage at the location of the work.

The work described in the contract is a public work subject to section 1771 of the California Labor Code.

THE REGENTS OF THE UNIVERSITY OF CALIFORNIA

(Visit our website at: <http://www.capital.ucla.edu>)

UNIVERSITY OF CALIFORNIA SAN FRANCISCO

ADVERTISEMENT FOR BIDS

Subject to conditions prescribed by the University of California, San Francisco, sealed bids for a lump sum contract are invited for the following Work:

MISSION BAY 2ND PARCEL SURCHARGE AND INFRASTRUCTURE PHASE 4 AND PHASE 5-REBID

Project No.: **M8408** / Contract No.: **L00434**

DESCRIPTION OF WORK:

The contract scope of work consists of surcharging two areas on the campus and the construction of a parking lot on a portion of Block 18. The contractor will coordinate with PG&E to have electrical service disconnected in the surcharge area and reconnected to serve the campus.

The surcharge work includes demolition of existing concrete and asphalt concrete pavements, demolition and removal of the existing Site Development Trailer, clearing and grubbing, site preparation, installation of prefabricated vertical wick drains, monitoring instrumentation, construction of site grading fill and surcharge fill embankments. The contract scope of work will be divided into two phases, Phase 4 and Phase 5, to be constructed over a 12 to 18 month period ahead of proposed Campus utility and building projects. Approximately 395,000 linear feet of wick drains will be installed within the surcharge areas.

The parking lot will require construction of an access road, lighting, fencing, and the import of aggregate base-rock.

BIDDER QUALIFICATIONS: To be eligible for consideration of award, bidders must have the minimum experience set forth in the Supplementary Instructions To Bidders. Bidders must submit qualification documents as an attachment to the Bid Form.

PROCEDURES:

Bidding Documents will be available at **10:00 AM, February 4, 2013** and will be issued only at:

UCSF Documents, Media & Mail (UCSF-DMM)
1855 Folsom Street, Room 135
San Francisco, CA 94103
Contact Persons: Ben La (415) 476-5030 (9:00 AM – 5:00 PM)
Customer Service Line (415) 514-2054 (before & after working hours)
Fax No. (415) 476-8278
Log into <http://www.cpfm.ucsf.edu/contracts/index.htm>
Click on the UCSF Documents, Media & Mail button

A mandatory Pre-Bid Conference and mandatory Pre-Bid Job Walk will be conducted on **February 8, 2013** beginning promptly at **10:00AM**. Participants shall meet at **UCSF / Minnesota St. Finance Service Center, 654 Minnesota Street, 2nd Floor, Tivoli Conference Room, San Francisco, CA 94107**. Only bidders who participate in both the Conference and the Job Walk in their entirety will be allowed to bid on the Project as prime contractors. For further information, contact University's Project Manager **Mark Smolley** at (650) 815-5840.

Bids will be received and opened only at Minnesota St. Finance Service Center, University of California, San Francisco, 654 Minnesota Street, 2nd Floor, San Francisco, CA 94107. Phone: (415) 476-5343. Bid Deadline: Sealed bids must be received on or before **3:00 PM, February 11, 2013**.

Every effort will be made to ensure that all persons shall have equal access to contracts and other business opportunities with the University, regardless of: race; color; religion; sex; age; ancestry; national origin; sexual orientation; physical or mental disability; veteran's status; medical condition; genetic information; marital status; gender identity; pregnancy; service in the uniformed services; or citizenship within the limits imposed by law or University's policy.

The successful Bidder will be required to have the following California current and active contractor's license at the time of submission of the Bid:

LICENSE CLASSIFICATION:
General Engineering

LICENSE CODE: **A**

Any subcontractor or General Contractor bidding as a Joint Venture must hold a valid General Contractor's license at the time of bid – no exceptions will be permitted.

ESTIMATED CONSTRUCTION COST:
\$2,200,000 - \$2,500,000

CALIFORNIA PUBLIC LEGAL NOTICES

UNIVERSITY OF CALIFORNIA SAN FRANCISCO

RE-ADVERTISEMENT FOR DESIGN BUILDER TEAM PREQUALIFICATION

Subject to conditions prescribed by the University of California, San Francisco (University), responses to the University's prequalification documents for a Design Build contract are sought from proposers for the following project:

MISSION BAY GENENTECH HALL 5TH FLOOR LAB CAV TO VAV CONVERSION Project No.: M0552

UNIVERSITY OF CALIFORNIA, SAN FRANCISCO

BIDDERS WHO SUBMITTED COMPLETED QUESTIONNAIRES IN RESPONSE TO THE PREVIOUS REVISED ADVERTISEMENT FOR PREQUALIFICATION IN JANUARY, 2013 ARE INVITED TO RE-SUBMIT.

PREQUALIFICATION OF PROSPECTIVE DESIGN BIDDERS:

The University's primary objective in utilizing the design build approach is to bring the best available integrated design and construction experience to this project. The University has determined that proposers who submit proposals on this project must be prequalified. Prequalified proposers will be required to have the following California contractor's licenses:

B - GENERAL BUILDING AND

C20 - WARM-AIR HEATING, VENTILATING AND AIR-CONDITIONING (HVAC)

The Design Build contract will require the successful Design Builder, hereinafter referred also as "Bidder", to provide both engineering design and construction services in an occupied research laboratory. The Design Build Team must consist of the following: General Contractor (Bidder) who holds both General Contractor's Class B and C20 license and State of California licensed Mechanical Engineer of Record who is an employee of the Bidder. Furthermore the team must have control system design and integration capabilities, laboratory equipment installation, electrical and architectural capabilities and Testing and Air Balancing capabilities. The team proposed must have worked on similar projects together. The bidder must have the capability of modeling existing building conditions as well as new construction in BIM. In addition, the firm must comply with the laws of the State of California applicable to such firms. All information required herein shall be submitted within the following parameters: (1) the Proposer shall hold all required licenses; and (2) the Bidder shall be the financially responsible entity for bonding and insurance.

GENERAL DESCRIPTION OF WORK:

The project is to modify the chemical fume hood system from constant air volume to variable air volume. The project is located on the UCSF Mission Bay Campus, Genentech Hall north side of the 5th floor in the following spaces: Wet Chemistry Laboratory Room numbers N514, N516, N574, and N576 and the associated ancillary lab support rooms that adjoin the main labs. The total project area is 14,200 GSF and houses 72 constant volume chemical fume hoods.

The project site is occupied and fully operational.

The scope of work includes but is not limited to the modification and/or addition of exhaust air valves and controls, supply air valves and controls and integration with existing air handling supply and exhaust fans and the existing building management system. The Work includes new ductwork to be added and existing ductwork will be rerouted and modified as appropriate while limiting disruption to existing architectural and structural elements. The electrical scope of work is to provide power and infrastructure as needed for the new control systems. The electrical scope may also include light fixture relocations. The project modifies the existing 8' chemical fume hoods with horizontal/vertical sash combinations from constant volume operations to variable volume operation, adds zone presence sensors to fume hoods to reduce face velocity when hoods are

unoccupied. The Work includes air balancing to rebalance the laboratories, support spaces and all other spaces and systems affected by the work and confirm operations at each chemical fume hood (max and min) and labs (max and min).

The building's automation system is propriety using the Invensys Building Systems (IBS) a Schneider Electric company. The Work includes control's configuration that requires system integration.

Bridging documents prepared by UCSF to illustrate the University's program and performance goals for the project will be provided with the proposal documents.

Design Build example projects for this prequalification will be considered to meet 'similar scope and values' if the projects include design and construction of a VAV fume hood project and associated controls involving the retrofit or installation of at least 20 fume hoods. Each example project should have a total construction cost of \$500,000 or greater at time of completion.

The estimated construction cost is approximately \$1,000,000. The maximum acceptance cost will be established when the Request for Proposal (RFP) is issued. The tentative start dates for the design and construction are as follows:

Design – start June 2013

Construction – start July 2013; 3 months duration

The start dates, durations and maximum acceptance cost will be further clarified in the RFP.

UCSF PROJECT GOALS:

UCSF is utilizing the design build approach to bring the optimal available integrated design and construction experience to this project. UCSF have identified the following goals on which this project will be deemed successful.

1. Deliver an energy efficient project with safe laboratory operation.
2. Ensure there is minimum disruption to existing laboratories during design and construction phases and maintain a functioning HVAC system with required controls during the construction phase.
3. Provide seamless air balance and commissioning phase with minimum disruption to laboratory occupants ensuring project area is properly balanced maintaining required pressurization between spaces and does not change or effect overall building pressurization.

PREQUALIFICATION PROCESS

The prequalification process will result in the selection of finalists who will be prequalified and will be issued Request for Proposal (RFP) documents for this Project. The prequalified proposers will submit price and technical proposals. The technical proposals will be scored according to an established scoring system. The price will be divided by the score to determine a price per technical point. The prequalified proposer submitting the lowest price per technical point will be the apparent low proposer for the Project.

PREQUALIFICATION SCHEDULE:

Prequalification Documents will be available beginning **February 4, 2013 at 10AM** by requesting via e-mail to prequal@ucsf.edu with the following information: Company name, address, phone and fax nos. Please reference Project No. M0552 in the subject line.

An Optional Prequalification Information Meeting will be conducted on February 7, 2012 beginning promptly at 10AM. Participants shall meet at UCSF Minnesota Street Finance Service Center, 654 Minnesota Street, 2nd Floor, Paramount Room, San Francisco, CA.

Any questions or requests for clarification or interpretation of the Prequalification Documents must be submitted in writing to Conor Neville, Construction Manager – Facilities Management, UCSF Facilities Management, at email address (Conor.Neville@ucsf.edu) by **5:00 PM, February 8, 2013**. Questions received after the above-noted deadline may be answered at the discretion of the University.

Any person or entity not satisfied with the outcome of the prequalification must file a writ challenging the outcome within 10 calendar days from the date of the University's written notice regarding prequalification determination. Any assertion that the outcome of the prequalification process was improper will not be a ground for a bid protest. However, the University reserves the right to accept late submissions and to request, receive, and evaluate supplemental information after the above time and date at its sole determination.

Prospective proposers shall submit **Four (4) sets** of the completed Prequalification Questionnaire and required attachments in a **sealed envelope** identified with the Project name, Proposer's name and address to the office of UCSF Minnesota Street, Finance Service Center, Attn: Contract Services, 654 Minnesota Street, 2nd Floor, San Francisco, CA 94143-0894 (use 94107 if not sending by US Mail) by **3:00 PM, February 19, 2013**.

No Prequalification documents will be accepted after **February 19, 2013, 3:00 PM**. However, the University reserves the right to request, to receive, and to evaluate supplemental information after the above time and date at its sole determination.

The exact dates, times, and location will be set forth in an **"Announcement To Prequalified Proposers"** as to when the Proposal Documents will be available and when proposals will be received.

PREQUALIFICATION POLICIES

The University reserves the right to reject any or all responses to Prequalification Questionnaires and any to waive non-material irregularities in any response received.

Proposal Security in the amount of 10% of the lump sum price proposal, excluding alternates, shall accompany each proposal. The surety issuing the Bid Bond shall be, on the proposal deadline, an admitted surety insurer as defined in the California Code of Civil Procedures Section 995.120.

Prospective proposers desiring to be prequalified are informed that they will be subject to and must fully comply with all of the proposal conditions including 100% payment and 100% performance bonds.

The successful proposer and its subcontractors will be required to follow the nondiscrimination requirements set forth in the proposal documents and to pay prevailing wage rates at the location of the work.

This project will be insured under an University Controlled Insurance Program ("UCIP") providing workers' compensation and employer's liability insurance coverage, commercial general liability insurance coverage, and excess liability insurance coverage for Work performed on or at the Project site ("UCIP Coverages"). All insurance policies required to be obtained by Proposer shall be subject to approval by University for form and substance. All such policies shall be issued by a company rated by Best as A- or better with a financial classification of VIII or better, or have equivalent rating by Standard and Poor's or Moody's.

All information submitted for prequalification evaluation will be considered official information acquired in confidence and the University will maintain its confidentiality to the extent permitted by law.

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each Bidder may be required to show evidence of its equal employment opportunity policy.

AECOM: The Bridge Builder

San Francisco-Oakland Bay Bridge
Bay Area, California
USA

Suspension

Client:

California Department of Transportation

Services:

Construction
Engineering
Inspections

AECOM provided construction engineering inspections and supervision of new construction for this iconic, self-anchored suspension bridge. The 525-foot-tall (160-meter-tall) steel tower is composed of four legs struttled together. The 1,854-foot (565-meter) suspended span includes a 1,263-foot (385-meter) main span and a 591-foot (180-meter) side span comprising twin steel box girders. The team's assistance included inspections of the foundations, temporary works, steel fabrication and welding, as well as supervision of field welding and bolting.

Solutions for U.S. Air Force

■ Continued from page 2

Envisioning a path forward

The AFCEC employed AECOM's master-planning expertise for future development of Joint Base San Antonio (JBSA) in Texas, United States, which encompasses five geographically separate bases in the San Antonio area. The client's vision was to consolidate the planning efforts for the five U.S. Army and Air Force installations, spanning more than 55,000 acres and supporting 53,000 military personnel.

"Our team provided comprehensive site modeling and created a web-based, long-range plan — optimizing land use allocation, improving operational efficiencies, and meeting future transportation and infrastructure needs," says AECOM's Komal Dewan, principal, buildings + places, and principal-in-charge for JBSA. "The master plan encompasses an innovative approach to planning to include Core Mission Districts (CMDs), which create functionally focused areas tied to mission and future growth. These CMDs allow JBSA to make function-based investment decisions regardless of location."

Building homes for Air Force families

AECOM provided Title 2 construction services for two Pacific-region installations, overseeing more than US\$200 million in housing renovations at Misawa and Kadena air bases in Japan.

"The Air Force selected AECOM for its application of leading-edge technology in base housing reconstruction," says AECOM's Bill Wanner, Pacific District construction manager, water. "We combined our construction management and information technology expertise to provide online concentric project management tools via customized websites. After brief on-site training, the air base staff, designers and Japanese contractors were 'flying high' with paperless workflow routing and document

tracking. The increased efficiency resulted in on-time housing deliveries to Air Force personnel and their families."

Cleaning up our environment

AECOM continues supporting AFCEC environmental programs by leading multi-million dollar, performance-based cleanup efforts across the United States — including March Air Reserve Base in California and Point Lay Air Station and Clear Air Force Station in Alaska. Work ranges from landfill removal in the remote Arctic to implementing innovative groundwater treatment technologies.

"AECOM's technical approach and expertise in site closure and life cycle cost reduction are primary decision factors in awarding performance-based contracts," says Tim Green, vice president, federal accounts, environment, and program manager. "AECOM has technical experts at the Performance Based Contracting Center of Excellence, who develop the best technical solutions for the most challenging of sites."

"The AFCEC is an evolving organization that continues to expand its role in managing Air Force engineering and environmental programs," concludes Macon. "As the AFCEC transforms, AECOM will continue to anticipate and meet its changing needs."
