AMEX and GSW Bring Technology to the Table for Small Business

Photo courtesy of American Express

Panelists, from left, Gunther Bright, Steve Sarver, Daniel Brusilovsky and Kevin Anderson take part in a small business panel discussion about embracing new technology hosted by American Express and the Golden State Warriors on Thursday, April 7, 2016 in San Francisco.

SAN FRANCISCO - American Express and the Golden State Warriors recently co-hosted a panel discussion for small businesses – “Embracing New Technology to create a Winning Experience”. The theme centered on the role that new technology, especially mobile, plays in enhancing customer experience.

The discussion was moderated by Gunther Bright, EVP and General Manager of U.S. Merchant Services at American Express.

Panelists included:

- **Daniel Brusilovsky**, the Digital Initiatives Lead at Golden State Warriors, where his focus is on digital and technology innovation, emerging technology and special initiatives to improve the fan experience.
- **Kevin Anderson**, Vice President of Business Development at Appetize, a mobile and Bluetooth-enabled point-of-sale system that streamlines the

purchase process for both the business and the customers. Appetize currently works with the Warriors.

• **Steve Sarver**, the owner and founder of San Francisco Soup Company, who regularly tests new technologies from beacon to deliver customized notifications to a patron’s mobile device to create a better customer experience.

In anticipation of the panel, American Express conducted a survey of San Francisco small businesses on their outlook on technology and customer experience. Just as the Warriors use technology to get closer to fans, local businesses are tapping into technology to get closer to customers. In fact, 90% believe that living in the Bay Area provides them with an advantage in getting access to the latest technology and 88% plan to invest in technologies that will improve customer experience over the next 12 months. The biggest reason for the investment is that customers

are regularly asking for new technology solutions – the most requested solutions being mobile payments, mobile app and self-checkout. Additional survey insights are available upon request.

According to Gunther Bright, EVP and General Manager of U.S. Merchant Services at American Express: *Listening to your customers and investing in your business are key ingredients for growth. Those small businesses who invested in technology reported a 27% jump, on average, in sales as a direct result.*

Steve Sarver, founder and owner of the San Francisco Soup Company (and among the panelists), attributes technology as a key reason for his business’ ability to engage his customers and retain a loyal customer base. He regularly tests different types of technologies and is focusing these days on mobile technology – delivering customized notifications to customers’ mobile devices. His main piece of advice for other businesses is to “think of the customer first when it comes to technology and make sure it is addressing a true need first. Then find technology that is easy for the customer to understand and use.” Steve said that his customers like to be reached via multiple platforms and it has become his full time job. As the business owner, he has now stepped out of his kitchen to manage these back office issues. “I’m no longer ladling the soup myself.” Also important to think about how this technology will help streamline your business operations. For Steve, he needs a technology that helps get customers through POS as quickly as possible during the lunch rush hour.

Thinking of his customers first and being unafraid to invest in technology has enabled SF Soup Com-

pany to expand significantly since starting the business in 1999 with his wife Jennifer. They now have 17 restaurants throughout the Bay Area.

This was echoed by other panelists:

- Don’t invest in new technology just for the sake of it. Same goes for social media. Kevin Anderson said, “It’s better to be on one channel and manage that well than to be on all and customer queries go unanswered.” He said that if you cannot respond within thirty minutes, you shouldn’t be using that platform of communication for your business.

- Learn from your mistakes and move on quickly. Also valuable to learn from other’s mistakes and not jump onto the bandwagon of every new technology trend. Daniel Brusilovsky, Digital Initiatives Lead at Golden State Warriors says his team learned a lot from Google Glass which at one time was considered to be leading edge and has now fizzled.

Trend predictions: Cashless transactions across the board

Gunter Bright summarized the collaborative’s goal: “By convening business owners and industry leaders, our goal is to leave attendees empowered to implement new learnings that will help them grow their business.”

This panel is just one of the many forums that American Express is working to organize.

City Leaders Launch Reforms To Strengthen Planning Process And Protect Neighborhoods

Mayor Eric Garcetti and the City Council introduced reforms to help guide the City's growth and development, and protect the unique character of our neighborhoods. The Mayor is calling for the update of all of the City's community plans and will include funding in his upcoming budget to support this effort. And in a motion introduced today by Councilmembers José Huizar, Gil Cedillo, David Ryu, Bob Blumenfeld, Mitch O'Farrell and Mike Bonin, and seconded by Councilmember Paul Krekorian, the City Council instructed the Planning Department to report back on overhauling the Community Plan program. They also called for recommendations on ways to increase oversight of the environmental review process, and upgrade outdated technology.

City leaders also called for a new Citywide General Plan, a blueprint that guides responsible growth and lays out a framework for key areas of urban life, including transportation, housing and open space. The General Plan has not been fully updated in more than 20 years.

"We have a responsibility to plan for prosperity and growth in ways that reflect the energy of this great City and protect the character of our neighborhoods," said Mayor Eric Garcetti. "I want Angelenos to have a sense of ownership over the development of their communities and these reforms help us get there. Together, we're creating a blueprint for the Los Angeles of today, and the Los Angeles of tomorrow."

The City's 35 Community Plans lay out guidelines for what can and cannot be built in any given neighborhood. This helps determine the different types of housing that can be developed, the jobs that can be supported in a community and other

key quality of life measures. The City Council motion will be heard in the Planning & Land Use Management (PLUM) Committee.

"As the chair of PLUM, my colleagues and I have been working with the Planning Department to review and improve a myriad of planning processes through ReCodeLA and other efforts," said Councilmember Huizar. "Our 35 Community Plans affect scores of communities, each as distinct and vital as the next, and cover more than 500 square miles across the City. Addressing the backlog and updating our Community Plans is a priority that needs immediate action. Today's collaborative Council action looks to expedite this process so we can bring accountability and transparency back into our General Plan and Community Plan review processes. I thank the Mayor for supporting our Council motion and I am confident that we will have a number of strong recommendations to review in PLUM and the Council in the coming weeks."

Mayor Garcetti pledged to nearly triple the Planning Department's community plan staff, to better ensure all plans are updated in no more than 10 years. The Mayor will include \$1.5 million in new funding for the Community Planning program and General Plan program, as part of his upcoming 2016-17 budget. He also laid out a plan for ongoing funding for the program to ensure updates are completed - start to finish - within 36 months.

Updated plans will provide new guidance and respond to current land use changes, minimizing the need for general plan amendments. Creating a cycle of regular city-initiated updates to Community Plans will ensure these plans are current and

reflect community-driven goals. "Our city, simply does not have adequate housing to meet our current population needs, renters are currently paying more than 30% of their income towards rent," said Councilmember Gil Cedillo. "Our General Plan and Community Plans must be updated to reflect the current population and allow for smart and responsible housing production. These new plans will allow Los Angeles to plan adequately for our current and future housing needs all while keeping the character of each of our communities intact."

The City Council's reform-driven motion requests the Planning Department to report back on options that will improve management over the environmental review process, increasing transparency over the preparation of technical documents including creating a list of professional consultants aimed at streamlining the process.

"Our General Plan and Community Plans set the direction for the future growth and character of the City, and that's why it's crucial to update them with modern standards in line with each community's vision for their area," said Councilmember Bob Blumenfeld. "It's time to modernize our plans, establish more certainty and transparency about those plans, and take advantage of technology to educate and engage people in this work."

"Angelenos deserve a transparent and fair process when evaluating impacts on their residential neighborhoods and to ensure that the city can effectively deliver on its land-use responsibilities," said Councilmember David Ryu. "Today's motion is a step in the right direction to rebuilding trust in the city's planning process."

Paid sick leave for federal contractors: Small Business Administration asks DOL to look at alternatives

The Department of Labor should consider alternatives to its proposal that would require federal contractors to provide paid sick leave to their workers, the Small Business Administration's Office of Advocacy wrote in an April 6 letter.

The proposal, published Feb. 25, could be overly costly for small businesses, SBA stated. According to feedback the agency has received, the rule could cost some small businesses as much as \$70,000 a year in compliance costs - far greater than DOL's estimate of \$472. Many small businesses already

have voiced similar concerns in comments submitted on the rule.

SBA also questioned whether DOL adequately estimated the number of small businesses that could be affected by the rule. Thousands of small businesses that operate on federal property were not included in DOL's estimate of affected employers.

SBA asked DOL to minimize the negative impacts of the rule on small businesses by considering stakeholder-submitted alternatives, such as

exempting certain part-time or seasonal work. The agency also asked DOL to clarify which types of small businesses and workers would be covered under the rule.

The rule, which was prompted by an Executive Order, would require some employers with federal government contracts to allow their workers to earn up to seven days of paid sick leave every year. If promulgated, about 300,000 federal contract workers could, for the first time, gain access to paid sick leave.

Guaranteeing paid sick leave is a growing trend among some states and municipalities. Supporters claim that paid leave improves worker health and performance. At press time, five states and dozens of local municipalities require employers to provide some paid sick leave to workers. Federal legislation expanding paid sick time to most workers has been introduced in the House and Senate, but is unlikely to gain traction in the GOP-controlled Congress.

California High-Speed-Rail Construction Rolling Ahead

By JT Long

As the California High Speed Rail Authority executes multiple contracts for California's \$62.1-billion high-speed-rail line, crews are making headway on the initial 100 miles of track. The efforts comprise a scaled-back initial plan of operation, between San Jose and north of Bakersfield, which could begin carrying passengers by 2025.

Construction commenced last summer on the \$985-million Package 1 to build 29 miles of track in Madera and Fresno counties. After about two years of preconstruction, design-build joint venture Tutor Perini/Zachry/Parsons (TPZP) began work on the Fresno River Viaduct in June. The structure is just one of 52 overpasses to be built in the rail line's first three construction packages.

Support columns for the 1,600-ft-long viaduct section needed to be "supersized," compared to a traditional roadway overpass, because they have to remain stable under the weight of an electrified train traveling at speeds of up to 220 mph, says Whitey Gregory, structures manager for TPZP. Crews place the 12-ft-wide

columns—with bent caps that flare to 17 ft, 6 in.—at approximately 100-ft intervals.

The TPZP team opted to prefabricate the 24-ft wing frames to support the railbed in the staging area and then forklift them into place. "It takes more time in the beginning, but it should make it easier as we go," Gregory says.

Also under construction is the first of two bridges carrying one-way traffic into downtown Fresno. Crews demolished existing overpasses in sections, using a false deck to catch debris. Crews proceeded slowly because the work had to stop every time a train passed, says Toni Tinoco, information officer for the authority.

The first columns are being poured for a higher overpass that will allow for two-way traffic. "This will improve flow to the downtown while preserving the downtown businesses," Tinoco adds.

In January 2015, Dragados-Flatiron Joint Venture (DFJV) won Construction Packages 2 and 3, with a bid of \$1.2 billion for 65 miles in Tulare County. DFJV immediately started utility relocation, surveying and clearing to make way for construction.

Crews demolished 8,000 tons of asphalt and concrete to make way for rail line and infrastructure. All the material will be recycled for the project or elsewhere.

The DFJV team proposed replacing portions of the planned concrete viaduct with earthen embankments, lowering the profile of the train and eliminating a number of crossings—a strategy that reduced the need for some 550 acres of right-of-way.

Additionally, the team revised designs by lowering a proposed station in Hanford from 60 ft high to at-grade. It created some challenges. For example, a half-mile of state Route 198 and two miles of Union Pacific track will be trenched some 30 ft, but DFJV says the change will save \$130 million and a full year of construction time. "The lower profile also enhances the performance of the station in the agricultural setting, making it more convenient for passengers to access the trains," says Lloyd Neal, project director at Dragados-USA.

California Rail Builders in March won Package 4, with a bid of \$348 million for 22 miles in Tulare County. CRB immediately began working to secure right-of-way.

Since the high-speed-rail line cannot include at-grade crossings for safety reasons, 55 freight rail-grade separations will be constructed in the Central Valley, where the corridor parallels freight lines.

Other safety measures include quad gates and positive-train-control intrusion detection along blended corridors. A warning system will be used to detect earthquakes before they happen and automatically stop trains in case of a significant seismic event.

To speed up construction starts, the California High Speed Rail Authority brought on more personnel to negotiate and streamline contracts. In the future, the agency will release RFPs once funding and environmental approvals are in place, with an emphasis on tunneling contracts, due to their longer construction time scales, according to Alan Glen, director of real property, in a board meeting presentation. As of Jan. 29, the authority has acquired 642 of the 1,468 parcels needed for the first three construction packages. This amount was considered "critical mass" for moving forward.

California Sub-Bid Request Ads

Balfour Beatty Construction

2335 Broadway, Suite #300 • Oakland, CA 94612
(510) 903-2054 • Contact: Devin Durborow • ddurborow@balfourbeattyus.com
PROJECT: 500 Folsom, San Francisco (Transbay Block 9)
LOCATION: San Francisco, CA
SUBJECT: Invitation to Bid and Request for Bid Proposal

This Invitation to Bid shall service notice that Balfour Beatty Construction is requesting Subcontractor Bid Proposals on the 500 Folsom St, San Francisco Project.

BID DOCUMENT ISSUANCE DATE: Monday April 4, 2016

PRE-BID MEETING DATE: Monday, April 18, 2016 at 10:00am

PROPOSAL DUE DATE: Tuesday May 17, 2016, 12:00 noon

Location for Pre-Bid Meeting:

The San Francisco Main Library
Koret Auditorium Lower Level (Enter 30 Grove St., proceed down stairs)
100 Larkin St (at Grove), San Francisco, CA 94102

Balfour Beatty requests that your firm submit a Subcontractor and/or Supplier proposal for this project. Documents issued are 90% Construction Documents. Subcontractor awards will be made from this set of plans.

Balfour Beatty will issue Subcontractor Bid Forms that must be completed and signed by all bidders in addition to the Subcontractor's Scope of Work Proposal.

All proposals are to remain in effect for a minimum of 90 days.

TRADES BIDDING

underground utilities; trash chutes & trash management; final cleaning and window cleaning; landscape, irrigation & site furnishings; site concrete work; Masonry; Drywall; Lath & Plaster; cementitious panel (Taktl) rain screen; acoustical insulation; thermal insulation; roofing; waterproofing (below grade, terraces & decks); doors, frames, hardware; appliances; cabinetry; finish millwork; running trim; ceramic tile; countertops; painting; flooring; toilet and bath accessories; mirrors; closet shelving; window coverings; hot tub; accelerometers; bird control; scaffolding; flashing & architectural sheetmetal; miscellaneous steel; roll-up coiling doors; signage; fireproofing; acoustical ceilings; bike racks & lockers; bike fix-it stations; dog wash equipment; storage lockers; fire extinguishers; postal specialties; parking lot striping.

TRADES ALREADY AWARDED (not bidding, being issued documents for confirmation) mechanical HVAC; plumbing; electrical; fire protection sprinklers; surveying; shoring; excavation; dewatering; soil improvements; elevators; building maintenance equipment; structural concrete & reinforcing; stairs; solar PV, exterior glass & glazing systems (curtainwall & metal panels, terracotta, storefront, glass railings, etc).

PROJECT INFORMATION

This project is a residential rental apartment project. The project consists of 6 levels below grade parking, 9 level podium structure, 33 story tower for a total height of 42 stories plus roof.

Approximately 727,500 total gsf. 545 residential units. 283 parking spaces in the below grade garage.

Limited Retail Areas on Ground Level.

SCHEDULE INFORMATION

Project has commenced construction. The construction schedule will be provided with the documents to be issued.

Total project schedule is 39 months. The first 12 months of construction will be consumed by excavation, shoring and ground improvements before the mat can be poured and structure is started. Therefore your work will occur in late 2017 through mid 2020. This allows for adequate and efficient planning of work forces, material procurement, and allows you to secure plans for future work.

REQUESTS FOR INFORMATION (RFI)

Requests for Information will be received until Close of Business Friday April 22. All questions regarding this project are to be addressed to Devin Durborow at Balfour Beatty Construction, ddurborow@balfourbeattyus.com, 510-903-2054. Devin will be responsible for assembly of questions, dissemination of questions to appropriate parties for answers, and dissemination of answers to Subcontractors. All questions are to be submitted directly to Balfour Beatty Construction. No questions will be allowed to be submitted by any Subcontractor or Supplier directly to any member of the Design Team.

DOCUMENT ISSUANCE

Documents will be issued to bidding Subcontractors from Balfour Beatty Construction through Building Connected. For any questions regarding Building Connected, please contact Devin Durborow, ddurborow@balfourbeattyus.com, 510-903-2054.

LOGISTICS

Balfour Beatty will provide a tower crane for construction of the superstructure. Use of the tower crane will be mostly for the structure operation, however will be controlled, coordinated and scheduled through the Project Superintendent. Use of the tower crane during normal business hours 7 am – 4 pm, Monday – Friday will be at no cost to subcontractor. Use of the tower crane beyond these hours will be at the expense of the subcontractor.

Balfour Beatty will provide a construction hoists during construction as required by Cal Osha. It is intended to utilize a dual hoist for the tower from Level 1 through roof, plus an additional single hoist for the podium from Level 1 through Level 9, plus a single hoist for the garage from Level 1 through Level B6. Balfour Beatty will also provide operated inside elevators upon dismantle and removal of the exterior construction hoists. Use of the hoists and elevators will be controlled, coordinated and scheduled through the Project Superintendent. Use of the hoists and elevators during normal business hours 7 am – 4 pm, Monday – Friday will be at no cost to subcontractor. Use of the hoists and elevators beyond these hours will be at the expense of the subcontractor.

SUBCONTRACTOR PREQUALIFICATION

All Subcontractors proposing on this project MUST complete the subcontractor prequalification process required by Balfour Beatty Construction. If you have already prequalified, great, however your prequalification must be current. If not, you must complete this prequalification in order to be considered for work on this project. Please coordinate with Devin Durborow for your prequalification status.

Balfour Beatty Construction

www.balfourbeattyus.com

Under the Partner tab is a drop down menu. Select "Subcontractors", then on the left hand side, select "Pre-Qualification". Should you have any questions about the status of your prequalification with Balfour Beatty Construction, please contact the prequalification department at 214-451-1777. Direct Link: <http://www.balfourbeattyus.com/Partners/Pre-qualification-1>

SIGNATORY REQUIREMENTS

This will be an ALL UNION project.

PRICE ESCALATION

Subcontractors and Suppliers are to include all cost escalations for labor and materials throughout the course of the project.

SMALL BUSINESS ENTERPRISE GOAL

The project is subject to the Office of Community Investment and Infrastructure's (OCII) Small Business Enterprise (SBE) Policy. OCII has established a subcontracting participation goal for this project at 50 % SBE goal with first consideration in the following order: (1) Project Area SBEs/LBEs, (2) San Francisco-based SBEs/LBEs, and (3) Non-San Francisco-based SBEs will be utilized to satisfy the 50% SBE participation goal only if San Francisco-based SBEs/LBEs are not available, qualified, or if their bids or fees are significantly higher.

Balfour Beatty is requesting bids from qualified subcontractors that are certified as a Local Business Enterprise (LBEs) through the San Francisco Contract Monitoring Division (CMD) or as a SBE from another certifying agency.

Fencing, Electrical, Pipeline, Landscaping

At our discretion, 100% Payment and 100% Performance bonds may be required as a subcontract condition. Please call if you need assistance in obtaining bonding, insurance, equipment, materials and/or supplies for this project.

This will be a PREVAILING WAGE JOB.

Plans and specifications may be reviewed at our office located at 11555 Dublin Boulevard, Dublin, CA, or may be downloaded from the District's website at (<http://www.ebmud.com/current-construction-bids>)

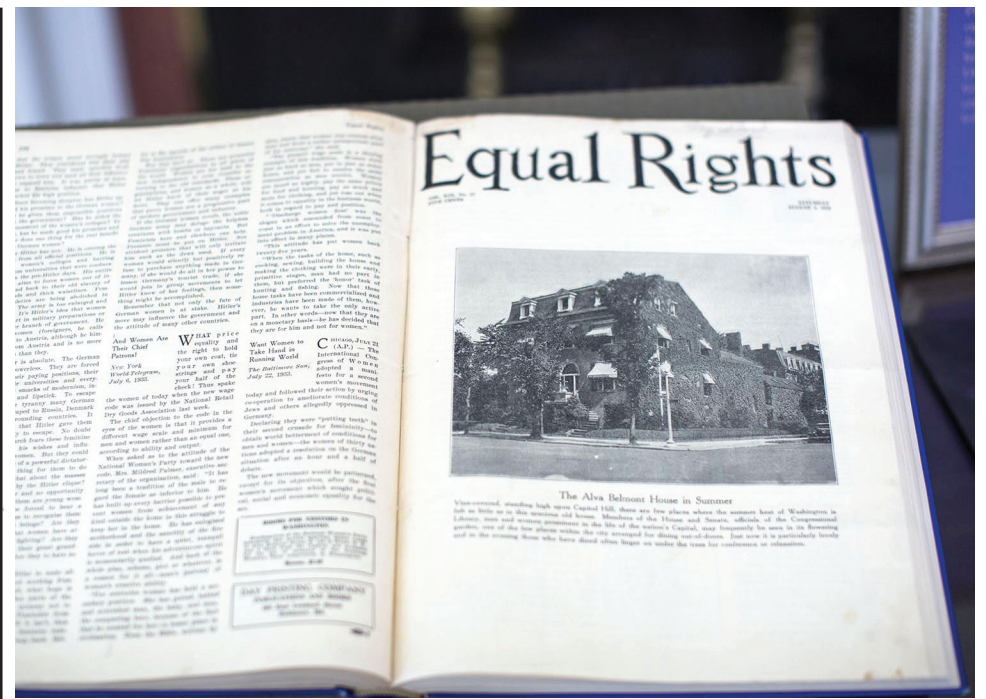

PSEC is willing to breakout any portion of work to encourage White Men, White Women, Ethnic Minorities (Men and Women) and solicit their subcontractor or materials and/or suppliers and trucking quotations as well as increase the expectations of meeting the DBE goal. If you require any assistance, please contact the Estimator, Pete Timmerman email him at ptimmerman@pacificstates.net or call (925) 803-4333. Bids may be faxed to us at (925) 803-4334. When submitting any public works bid please include your DUNS number and DIR number. For questions regarding registration for DIR use the link at: www.dir.ca.gov/Public-Works/PublicWorks.html.

We are an equal opportunity employer.

A National Monument for Women's Equality

Working with private collectors across the country, the Belmont-Paul National Monument has collected items from the history of the equal right's movement, in order to bring them into the public eye. Pictured: a tin bluebird, meant to be hung in windows as an icon of solidarity, a copy of an early map showing where women could vote in the United States, and a gavel that was used at the founding meeting of the National Women's Party in 1916.

Published between 1923 and 1934, "Equal Rights" was a weekly publication chronicling the life and work of members of the National Women's Party. This edition is an original bound copy of a 1933 issue, published shortly before Alva Belmont's passing.

"May it stand for years and years to come, telling of the work that the women of the United States have accomplished; the example we have given foreign nations; and our determination that they shall be—as ourselves—free citizens, recognized as the equals of men."

—Alva Belmont, January 4, 1931

On Equal Pay Day, President Obama will designate a national monument in honor of the movement for women's equality. The new Belmont-Paul Women's Equality National Monument will protect the iconic house, which served as the National Woman's Party headquarters, but it will also serve to elevate and amplify the stories, memories, and accomplishments of the many women who passed through its halls—each profoundly dedicated to securing women's suffrage and equal rights in the United States.

Named for activist and suffragist Alva Belmont, former president of the National Women's Party, and Alice Paul, the Party's founder and chief strategist, the monument was originally acquired in 1929—and quickly became a vital organ in the movement for women's equality. Women filled its rooms daily, working tirelessly to draft petitions, organize protests, write letters, and provide each other with both the physical and emotional support necessary to sustain each other's intense commitment.

Leading these advocacy efforts was Alice Paul, who drafted an updated Equal Rights Amendment text, wrote provisions that were later included in the Civil Rights Act to prevent discrimination on the basis of gender, and worked to get women's equality language incorporated in the U.N. Charter.

"It is incredible to me that any woman should consider the fight for full equality won. It has just begun. There is hardly a field, economic or political, in which the natural and unaccustomed policy is not to ignore women... Unless women are prepared to fight politically they must be content to be ignored politically."

Alice Paul, 1920

The women's companionship in their efforts extended long beyond the work day, though. At night, the house transformed into a hotel and second home for many of its members—some slept over only on occasion, but others stayed for nearly their entire lives. (Alice Paul could still be found there,

greeting visitors, clear into her 80s.) Many came to think of themselves as family.

Today, the National Woman's Party serves as an educational organization, seeking to educate the public about both the history of the monument—and the ongoing women's rights equality movement. In that way, it has played an essential and enduring role in helping the public to follow in the footsteps of women like Alice Paul and Alva Belmont.

That's just one of the reasons its designation as a national monument is so significant.

"When I got to the house the first time and began to understand the decades long body of work and magnitude of what these people had achieved, I was blown away. The rooms are filled with story after story of events that were incredibly significant in American history."

Megan Smith,
White House Chief Technology Officer

Today's designation will also permanently protect one of the oldest standing houses near the U.S. Capitol and help preserve an extensive archival collection that documents the history, strategies,

tactics, and accomplishments of the movement to secure women's suffrage and equal rights in the United States and around the globe.

Efforts to protect this site date back to the early 1970s, and more recent proposals to include the site in the National Park System have garnered Congressional support—including bipartisan legislation introduced by Senator Mikulski—as well as strong support from local elected officials, community leaders, women's organizations, conservation groups and historians.

In addition to protecting more land and water than any President in history—more than 265 million acres—President Obama has sought to protect places that are diverse, culturally and historically significant, and that reflect the story of all Americans. By honoring the history and accomplishments of the movement for women's equality, today's designation will build on this effort towards a more inclusive National Park System and tell the story of women's fight for equality for generations to come. Our national parks and other protected sites that represent America's diverse history and culture and will continue to be an important priority for the Administration as the country celebrates the National Park Service Centennial this year.

"The National Woman's Party purchased the house in 1929, making the building its national headquarters. Today, visitors of the Sewall-Belmont House can learn about the women who dedicated their lives to the struggle for women's rights."

Congresswoman Rosa DeLauro

The designation of the Sewall-Belmont House as a national historical site ensures that its legacy will endure for generations to come.

The accomplishments and history that the Belmont-Paul Women's Equality Monument represent resonate deeply during a time when national conversation is focused more than ever on equal rights. And while today's generation of women have continued to forge ahead, standing on the hard-won accomplishments of the generations before them, there's still more to be done.

Today's designation of the Belmont-Paul Women's Equality National Monument is an important step in solidifying the legacy of the equal right's movement, but—even more importantly—it's a way for us to look forward, into a more equal future for all.

CUPCCAA INVITATION TO BID

1. Notice is hereby given that the governing board ("Board") of the Oakland Unified School District will receive sealed bids for the following: Project No. 15123

**Bret Harte Middle School –
Prop 39 Lighting Upgrade
3700 Coolidge Avenue, Oakland, CA 94602**

2. Sealed Bids will be received until **1:30 p.m., on Monday, May 2, 2016**, at the District Office, located at **900 High Street, Front Desk, Oakland, California**, at or after which time the bids will be opened and publicly read aloud. Any claim by a bidder of error in its bid must be made in compliance with section 5100 et seq. of the Public Contract Code. Any bid that is submitted after this time shall be non-responsive and returned to the bidder.

3. The Project consists of:

Install occupancy sensors at 24 classrooms, delamp existing light fixtures at Building A upstairs hallway and Building B ground floor hallways, replace various MH/HPS/mercury vapor exterior lights with bi-level LED lights, install new lighting control system to replace existing pneumatic thermostat and control system.

4. **Engineer's Estimate: \$110,000.00.**

5. Project Manager for this project is **Kenya Chatman**, she can be reached at **(510) 535-7050**.

6. All bids shall be on the form provided by the District. Each bid must conform and be responsive to all pertinent Contract Documents, including, but not limited to, the Instructions to Bidders.

7. To bid on this Project, the Bidder is required to possess one or more of the following State of California Contractor Licenses:

**Class A – General Engineering Contractor, OR
Class B – General Building Contractor, OR
Class C-10 – Electrical Contractor**

The Bidder's license(s) must be active and in good standing at the time of the bid opening and must remain so throughout the term of the Contract.

8. As security for its Bid, each bidder shall provide with its Bid form:

- bid bond issued by an admitted surety insurer on the form provided by the District,
- cash, or
- cashier's check or a certified check, drawn to the order of the Oakland Unified School District, in the amount of ten percent (10%) of the total bid price. This bid security shall be a guarantee that the Bidder shall, within seven (7) calendar days after the date of the Notice of Award, enter into a contract with the District for the performance of the services as stipulated in the bid.

9. The successful Bidder shall be required to furnish a 100 % Performance Bond and a 100% Payment Bond if it is awarded the contract for the Project.

10. The successful Bidder and its subcontractors shall pay all workers on the Project not less than the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work as determined by the Director of the Department of Industrial Relations, State of California, for the type of work performed and the locality in which the work is to be performed within the boundaries of the District, pursuant to sections 1770 et seq. of the California Labor Code. Prevailing wage rates are available from the District or on the Internet at: <<http://www.dir.ca.gov>>. Bidders and Bidders' subcontractors shall comply with the registration and qualification requirements pursuant to sections 1725.5 and 1771.1 of the California Labor Code.

11. The successful Bidder may substitute securities for any monies withheld by the District to ensure performance under the Contract, in accordance with the provisions of section 22300 of the Public Contract Code.

12. Effective January 1, 2015: The Oakland Unified School District has the duty to notify Department of Industrial Relations (DIR) when awarding a contract for a public works project **over one thousand dollars (\$1,000)**, using the online **Contractor's Affidavit** form. This requirement, found in Labor Code Section 1773.3, now applies to ALL public works projects.

Effective March 1, 2015: NO contractor or subcontractor may be listed on a bid proposal for a public works project unless registered with DIR.

Effective April 1, 2015: NO contractor or subcontractor may work on a public works project unless registered with DIR.

13. A **MANDATORY** pre-bid conference and site visit will be held on **Friday, April 22, 2016, at 10:00 a.m.** at **Front Entrance, Bret Harte Middle School Site**. All participants are required to sign in at the Site Visit. The **Site Visit** is expected to take approximately [1] hour. Failure to attend or tardiness will render bid ineligible.

14. Contract Documents are available on **Friday, April 15, 2016**, for review at **East Bay Blue Print, located at 1745 14th Avenue, Oakland, CA 94606**. All requests should be addressed Attention: Sandy. Plans can be ordered by:

Ph: 510-261-2990 Fax: 510-261-6077 Email: ebbp@eastbayblueprint.com, Attn: Sandy

Online using the Plan Command system at www.eastbayblueprint.com or plans can be delivered to a place of business, at requester's own expense. Payment for plan sets must be made with East Bay Blue Print and are **NON-REFUNDABLE**.

In addition, Contract Documents are available for review at the following builders' exchanges:

Builder's Exchange of Alameda County
McGraw Hill Construction Data

San Francisco Builder's Exchange
Reed Construction Market Data
Contra Costa Builder's Exchange
Marin Builder's Exchange

15. The District's Board has found and determined, pursuant to Resolution 1415-0161, approved and adopted on February 11, 2015 and incorporated herein by this reference, that specific materials, products, things, or services ("Designated Products") shall be used on District projects based on the purpose(s) indicated in Resolution 1415-0161, as applicable. (Public Contract Code section 3400(c).) The Designated Products are designated by specific brand or trade name, as more fully set forth in Resolution 1415-0161, for the following purpose(s):

A. In order to match other products in use on a particular public improvement either completed or in the course of completion; and/or

B. In order to obtain a necessary item that is only available from one source.

16. The District's Board reserves the right to reject any and all bids and/or waive any irregularity in any bid received. If the District awards the Contract, the security of unsuccessful bidder(s) shall be returned within sixty (60) days from the time the award is made. Unless otherwise required by law, no bidder may withdraw its bid for ninety (90) days after the date of the bid opening.

17. **Project Labor Agreement:** The District has entered into a Project Labor Agreement with Building and Construction Trade Council of Alameda County, AFL-CIO.

18. The District shall award the Contract, if it awards it at all, to the lowest responsive responsible bidder based on: The base bid and Allowance amount only.

**CONCESSION OPPORTUNITY
AT SAN FRANCISCO INTERNATIONAL AIRPORT**

San Francisco International Airport is preparing to conduct a Request for Bid (RFB) process for the Snack and Beverage Vending Lease. The Lease is comprised of 20 locations throughout the San Francisco International Airport. The concession is intended for the sale of hot and cold food and drink items customarily sold from vending machines. The proposed minimum acceptable bid amount is \$140,000. Small and local businesses are encouraged to participate.

An informational conference will be held on Tuesday, April 19, 2016 at 10:00 a.m. at San Francisco International Airport, SFO Business Center, 575 N. McDonnell Road. This is a time when Airport staff discusses the desired concept, minimum qualification requirements, address any questions relating to the lease.

Please visit our website at <http://www.flysfo.com/business-at-sfo/current-opportunities> after April 1, 2016 to view and download the Request for Bid and related documents about this concession opportunity. Should you have any questions or need additional information, please contact Sharon Perez Of Airport Revenue Development and Management at (650) 821-4500.

100% Performance and Payment Bonds may be required for full amounts of the subcontract price. Surety company will have to be approved by Gallagher and Burk, Inc. Gallagher and Burk, Inc. will pay bond premium up to 2%. Subcontractors must possess current insurance and worker's compensation coverage meeting Gallagher and Burk, Inc.'s requirements. Please call if you need assistance in obtaining bonding, insurance, equipment, materials and/or supplies. Plans and specifications are available for review at our Dublin office.

An Equal Opportunity Employer

City Leaders

Continued from page 2

"We must approach planning reform in a responsible way that addresses homelessness, increases and preserves affordable housing, and creates jobs to grow our local economy," Councilmember Mitch O'Farrell said, "Our motion strikes the right balance, with a look to legislatively tackle the issue of updating the city's community plans in a more timely manner and effectuate an independent CEQA process, while encouraging the kind of investment and infrastructure improvements that will enhance the quality of life for all Angelenos."

"Since being elected, I've been working hard to reform the City's broken planning process to better protect our neighborhoods," said Councilmember Mike Bonin. "This motion is an important, giant step toward accomplishing that goal."

SUB-BID REQUEST AD

Westside Purple Line Extension Section 2 Project - Design-Build
DBE SUBCONTRACTORS/SUPPLIER BIDS/PROPOSALS REQUESTED
Owner: Los Angeles Metropolitan Transportation Authority (LACMTA)

RFP No.: C1120

DBE Goal: 25% Design & 17% Construction

Subcontractor Proposal Due Date: May 13, 2016 @ 2:00 PM

Bid Proposal Due Date: June 1, 2016 @ 2:00 PM

Website: www.skanska-obayashi.com

Skanska-Obayashi, a Joint Venture (SOJV) is interested in soliciting in Good Faith all subcontractors as well as certified DBE subcontractors related to the scopes of work below for the Westside Purple Line Extension Section 2 Project. Quotes will be requested from Subcontractors, Vendors, Professional Service and Trucking companies. Please visit our website for Project Announcements, Outreach and Contact Information. **All Quotes are due May 13, 2016 at 2:00 PM so that all bids/proposals can be fairly evaluated.**

Requested scopes include, but are not limited to the following and should be based on the C1120 RFP and its amendments.

Subcontractors: Demolition, Clear & Grub, Excavation Earthwork and Support Systems, Shoring & Lagging, Temp. Tunnel Ventilation, AC Paving, Concrete Curbs, Gutters and Sidewalks, Pavement Striping & Marking, Cast-In-Place Concrete, Exposed Concrete Finishes, Arch. Pavers, Stone, Granite, Masonry, Misc. Metal, Welding, Steel Rail, Fencing, Rough Carpentry, Sheet and Pre-Applied Sheet Waterproofing, Painting & Coatings, Fire Protection, Suppression & Stopping, Metal Doors, Frames & Hardware, Glazing, Equipment, Mechanical Piping & Materials, Ventilation Fans & Equipment, Plumbing, Electrical & Electrical Supply, Low Voltage Systems, Hazardous Material Remediation & Hauling, Trucking (Haz Mat & hauling)

Design: Civil, Electrical, Mechanical, Electrical, Plumbing, Architectural, Landscaping

Services/Vendors: Monitoring: Sound, Vibration, Geo, and Air Quality, Security, Office Supplies, Re-prographics, Sweeper Truck, Water Trucks, Jobsite Sanitation, Janitorial, SWPPP, Progress Photography, Catering, QA/QC, Testing & Inspection, Community Relations/Communications, Project Management, Document Control

SOJV will assist qualified subcontractors, vendors, and suppliers in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies. If you are a DBE Company, please provide your certification letter with your proposal. If you are a non-DBE, please indicate all lower-tier participation on your quotation as it will be evaluated with your price. In order to assist DBE subcontractors and suppliers, we will divide total requirements into smaller packages, tasks or quantities and establish delivery and construction schedules which will permit maximum participation when feasible. Performance/Payment/Supply Bond may be required. This project has a PLA and Targeted Hire requirements more information is available at www.metro.net/pla

Access to Capital

How to Get a Small Business Loan

By Jim Malloy

There is nothing quite so exciting to an entrepreneur as starting a new business venture or expanding an existing one. Following your passion and knowing that the success or failure of your business is on your shoulders alone is a great way to start each and every day.

Unfortunately, business requires capital, which means you may need a business loan. Obtaining a loan certainly isn't the most fun aspect of running your business, but it can be achieved with a little work and planning.

Remember: You are your business

As a business owner, you are your business. That means that when you approach your bank for a loan, they will look to you and your personal ability to repay the loan. It is imperative that you have a clear business plan and forecast for the future of your business, as well as a good track record.

Determining your needs and approaching the bank

Before going to the bank, you want to determine what your business needs actually are. Do you really need a larger warehouse? A larger sales force? More inventory? Or are they merely wants? A clear reason for the growth of your business is a requirement. No one can see the future, but you should understand trends and technology and changing economies and how they will affect the

future of your business. Having this understanding will help in securing that business loan.

If you are starting from scratch or buying an existing business, not only will your grasp of the future be important, but your past will be as well. It is essential to exhibit experience in the type of business you are starting or buying. A strong management background will be necessary.

When approaching a bank for a business loan, they will look at your current and projected cash flow, your personal financial situation and the business assets you bring to the table. If you find your bank is not as excited about your business prospects as you are, the Small Business Administration may be able to help. They can guarantee a portion of your loan, which may encourage the bank to take another look at your proposal.

If you find yourself struggling to decide on the appropriate financing option for you and your business, it's important to seek out professional help from a lender so you can learn more about the wide variety of opportunities available. When it

comes to financing options, there are plenty of opportunities that will mirror the direction in which you and your business are headed. Financing options include several different types of loans—for example, there are 7a loans, 504 loans, a line of credit, term loans and more. Each of these loans has specific advantages, so when you're looking for more information about business loans, use some of the aforementioned options as ideas for hashing out the appropriate loan for you.

Chasing your dream and following your passion can be quite satisfying. When in need of a loan to start your own business, begin with traditional banking options such as commercial loans and go from there. With a little thought and sometimes a lot of creativity, you'll find the money you need.
