

## SF TECH challenged to hire 10,000 in two years

The recent visits by the Rev. Jesse Jackson to shareholder meetings in Silicon Valley are predated by the activities of John Templeton, author of the *Silicon Ceiling* Reports.

The author of *Silicon Ceiling 13* challenged San Francisco's fast growing tech companies to hire 10,000 black computer professionals in the next two years.

John William Templeton noted that there are more than 300,000 with specialized skills nationally (see table) during a panel on housing and economic justice at San Francisco State Saturday.

But despite adding 21,000 tech jobs, San Francisco ranks 44th among American counties for the number of black computer workers.

Templeton told the Black Health and Wellness Expo that lack of equal opportunity employment is a key reason for declining black population in the city.

One way to increase those numbers is to invest in African American innovators. An investor

showcase last week highlighted life science, energy and environmental firms which Templeton sees as ready to achieve large employment gains.

Ironically, San Francisco pioneered modern diversity employment 50 years ago when local employers signed 375 agreements with the United San Francisco Freedom Movement from 1963 to 1965.

"In the 50th anniversary year of the Civil Rights Act, the newest companies should not return to outdated employment segregation," said Templeton. Closed in practices such as bonuses to current workers, automated resume reviews, and restrictive job advertising keep diverse talent from access to jobs locally.

Since 1998, Templeton has compiled the annual report on the African American tech labor force and selected the 50 Most Important African Americans in Technology. The former editor of the San Jose Business Journal is managing director of Venturata, a Miami based hedge fund.

## Sacramento Approves Arena Deal

Sacramento Kings owner Vivek Ranadivé

Sara Molina-Soria

Before a packed council chambers, Mayor Kevin Johnson and the City Council approved plans to build and finance a new Entertainment and Sports Center (ESC) at the Downtown Plaza Mall.

"Tonight's vote is a historic moment for Sacramento and the culmination of years of hard work from so many in our city and our region," said Mayor Kevin Johnson, "Sacramento has had a vision for its future and I am so proud of our community for their fight and resolve to ensure that vision became a reality. I can't wait till groundbreaking in the fall."

Tonight's vote is the culmination of a 15-year community effort to build and finance a new Entertainment and Sports Center. The Sacramento City Council Chambers was filled to capacity with 200 people inside. More gathered outside of City Hall to watch the Council Meeting on a giant

## Turner School of Construction Management Program Graduation

The Oakland office of Turner Construction graduated 31 participants from its 2014 Oakland/SF Turner School of Construction Management (TSCM) classes on Thursday, May 8, 2014. Graduation was held at the EBMUD office in Oakland beginning with a dinner at 6 PM followed by a graduation ceremony.

This free 7-week course is offered annually to a limited number of small, disadvantaged and local businesses in construction and related industries. TSCM classes are led by experienced Turner professionals and industry leaders who volunteer their time. TSCM classes are a great opportunity for local LBE's and SBE's in the construction industry to enhance their business acumen and increase opportunities through networking and education from industry leaders. Class topics include: Contract and Risk Management, Insurance and Bond-

## Silicon Ceiling 13 Equal Opportunity & High Technology

California ranks sixth in employment of African-American computer, mathematics workers

Despite receiving more federal research and development funding than any other state, the Golden State ranks sixth in the number of African-Americans in computer and mathematics occupations, based on 2012 data cited in Silicon Ceiling 13:Equal Opportunity and High Technology.

Author John William Templeton calls on the U.S. Departments of Labor and Justice and EEOC to step up compliance reviews, particularly of new companies and the state's universities, because there is no rational explanation for the disparities, which have the effect of heightening income inequality nationally.

California had an estimated 17,307 African-Americans in computer and mathematics occupations, half the total of the leading state, Maryland, which had 35,324, according to detailed occupation data from the Current Population Survey, used in Silicon Ceiling's annual analysis.

The top five states, Maryland, Georgia, Virginia, Texas and New York, had an estimated 120,000 workers in those advanced specialties.

Since class action civil rights suits against Apple in 1991 and Microsoft in 2001, African-American

# California Sub-Bid Request Ads

Is requesting quotes from qualified SBE/DVBE Subcontractors, Suppliers, and Service Providers for the following (but not limited to) work:

Fence, Drill and Blast Rock, Rock Crushing, AC Pavement, Signs and Striping, Instrumentation, Cement Deep Soil Mixing, Dewatering, Rebar, Well Installation, Rock Anchors, Hydroseeding, Misc. Metal, RCP, PVC Pipe, Ready Mix, Trucking, Survey, QA/QC, Security, Field Office, SWPPP

**Seismic Remediation of Dam Embankment – Perris Dam**

**Riverside County, CA**

**Department of Water Resources**

**Contract No. C51484**

**SBE Goal: 25% with DVBE incentive**

**BID DATE: June 26, 2014 @ 11:00 a.m.**

**Sub & Vendor Bids Due Prior**

**Sukut Construction, LLC**

4010 W. Chandler Avenue, Santa Ana, CA 92704

**Contact: Steve Reiser**

Phone: (714) 540-5351 • Fax: (714) 545-2003 • Email: [estimating@sukut.com](mailto:estimating@sukut.com)

Plans/specs are available for viewing at our office by appointment, or may be obtained from Department of Water Resources. Subcontractors must be prepared to furnish 100% performance and payment bonds and possess current insurance and workers' comp coverage. Sukut Construction will assist Qualified Subcontractors in obtaining bonds, insurance, and/or lines of credit. Please contact Sukut Construction for assistance in responding to this solicitation. Subcontractors/Vendors will be required to sign Sukut's Standard Subcontract/Purchase Order. Copies are available for examination.

Sukut Construction's listing of a Subcontractor in its bid to the agency is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with Subcontractor's price quotes. Quotations must be valid for the same duration as specified by Owner for contract award.

**Sukut Construction, LLC**  
**An Equal Opportunity Employer**

RGW Construction Inc. is seeking all qualified DBE/MBE/WBE (Disadvantaged, Minority and Women Owned Business Enterprises) for the following project:

**Breuner Marsh Restoration and Public Access Improvement Project**

**Phase 1 Grading**

**Contract No. 04-14-496 Project No. 148000**

**Engineer Estimate: \$ 3,600,000 - 70 Working Days**

**Goal: MBE 5%/WBE 4%**

**Bids: May 29th, 2014 @ 2:00 PM**

**Requesting Sub-quotes for (including but not limited to):** Landscaping, Hydroseeding, Erosion Control, Fencing (Construction & ESA Fencing), Surveyor, SWPP Planning, Water Truck, Hazardous Substance Removal and Truckers.

**Scope of Work:** Grading, soil remediation and landscaping at shoreline park to restore marsh habitat.

RGW is willing to breakout any portion of work to encourage MBE/WBE participation. Contact us for a specific item list.

Plans and Specs are available to view and copy at our office or at [www.ebparks.org](http://www.ebparks.org). Contact Dave Czech at 925-606-2400 [david.czech@rgwconstruction.com](mailto:david.czech@rgwconstruction.com) for any questions, including bonding, lines of credit, schedules, insurance or equipment or material suppliers. Subcontractors should be prepared to submit payment and performance bonds equal to 100% of their quotation. For bonding and other assistance, please call.

# City Approves Arena Deal

**Continued from page 1**

LED Screen.

"We want to thank Mayor Johnson and the Sacramento City Council for their leadership," said Kings' owner Vivek Ranadive. "We are humbled by tonight's historic vote and the opportunity to truly transform this great city. Most importantly, I want to thank Kings fans and the amazing people of the entire region for their passion and support. As I've always said, the Sacramento Kings belong to you."

The Sacramento City Council approved five items at tonight's meeting, each by a 7 to 2 margin. Those items include:

- Environmental Impact Report and Planning Entitlements
- Amendment to Sacramento City Code Section 15.148.815 and Adding Section 15.148.965, Relating to Digital Billboards on City-Owned Lands
- Authorize Issuance and Sale of Lease Revenue Bonds Series 2014 in an Amount Not to Exceed \$325 Million
- Terms and Agreements for the 35 Year ESC Partnership
- Deletion of Property from Master Lease Program

**Key details include:**

- The total project cost is \$477 million
- The City's cash contribution to the ESC will be \$223 million and the Kings' will be \$254 million
- The Kings will pay a minimum lease payment that starts at \$6.5 million and will accrue to a

total of \$391 million over the life of the lease

- Repayment sources for the City's lease revenue bonds will be parking revenues, hotel tax revenues and other revenue streams created by the new ESC
- The Kings will agree to stay in Sacramento as anchor tenants of the ESC for 35 years
- The City will make a fixed one-time investment in the ESC financed primarily via revenues from the Kings lease payments, City's parking system, and hotel taxes
- The Kings will cover all additional costs, including cost overruns, predevelopment, capital repairs, and development of City land parcels
- The Kings and City agree to re-finance the existing loan in 2016

**Upcoming important milestones:**

- Demolition to begin in Summer 2014
- Groundbreaking to begin in Fall 2014
- The grand opening is scheduled for October 2016

Additional information about the project, including background reports, development application and final term sheets can be found on the ESC website.

## SacAsian Chamber Lauds City Council for Historic Vote Approving Kings Arena in Downtown Sacramento

The Sacramento City Council approved the Downtown Entertainment & Sports Center (ESC) last night by a vote of 7-2 after four hours of public testimony and deliberation. The vote solidifies the construction plans for the new arena for the Sacramento Kings.

Mayor Kevin Johnson and the other Council Members supporting the measure touted the benefits the project will bring to the city, including an estimated 4,000 new jobs and a revitalized downtown.

"This was the right decision and it paves a positive course for our city," said Pat Fong Kushida, President and CEO of the Sacramento Asian Pacific (SacAsian) Chamber of Commerce. "The approval of the Downtown ESC cements a historic triumph for our city," added Fong Kushida. "I am so proud of everyone who fought to keep the Kings here. Passing this measure not only cements the support of our team but it opens up opportunity for increased vitality and life in our downtown area."

Council Members supporting the measure included: Angelique Ashby, Allen Warren, Steve Cohn, Steve Hansen, Jay Schenirer and Bonnie Pannell. Council Members Kevin McCarty and Darrell Fong voted against the plan.

Kings chairman Vivek Ranadive addressed the crowd after the vote and received roars of support after promising to the crowd, "this is your team,

and it is here to stay." Ranadive also dedicated his team to the pursuit of excellence, and to make the new arena, "the greatest in the world."

The business community stands to benefit from the spark of development throughout the central part of the city. Numerous new restaurants and hotels are in the Kings' plans, in addition to adjacent apartments and new office space.

The \$477 million project is the biggest economic development plan ever brought before a City Council in Sacramento's history.

The Sacramento Asian Pacific Chamber of Commerce working in partnership with the Kings' ownership group is looking forward to building a strong foundation for future economic development by utilizing local small businesses on the construction of the new ESC.

# SFPUC's First Annual Women in Construction Exposition

By Belle Taylor-McGhee

You would be hard-pressed to find anyone in San Francisco these days who won't attest to the construction boom the City is currently experiencing. In fact, according to City officials, San Francisco will invest over \$25 billion dollars in the construction industry over the next 25 years, and approximately \$10 billion will be invested by the San Francisco Public Utilities Commission (SFPUC) alone. That investment, says SFPUC's General Manager Harlan L. Kelly, Jr. is why the agency hosted its first annual Women in Construction Exposition on Friday, May 16, 2014, and why the agency wants to ensure that women in the industry get a piece of the pie.

In a sold-out event, women in construction and women seeking opportunities in the construction trades gathered at the Hotel Whitcomb in San Francisco to learn what the City has to offer and what SFPUC is doing to open up economic opportunities in what has been commonly viewed as a "good ole boys network." SFPUC showcased its lot of women managers running big infrastructure programs and drove home the point that the agency is committed to making a difference in how it can provide greater opportunities for women in construction.

According to SFPUC, in fiscal year 2012 through 2013, Women Business Enterprise firms or WBEs represented 20% of all SFPUC construction subcontracts, and 26% of all SFPUC subcontracts under \$10M. Yet SFPUC Assistant General Manager for Infrastructure Emilio Cruz admits the numbers are far from what the City could aspire and far from where SFPUC hopes to reach.

"Our goal is to make sure that large construction contracts provide small construction firms the opportunity to take part in these larger projects where women in particular have the chance to compete. And our capital improvement projects offer that opportunity," said Cruz.

But getting a shot in the construction industry comes with its special challenges, and no one knows that better than Andrea Weisheimer, Project Director for Webcor Builders and current manager of the Moscone Expansion Project, one of the City's larger construction projects. Ms. Weisheimer told Expo participants that getting ahead in construction is not easy.

"The biggest challenge in being a woman in construction is gaining the respect of male co-workers that you actually understand how to build. Most males found their way into construction pounding nails and working their way up the ladder. They don't think of women as having any experience in the field. But once you show them you understand, you gain that respect," said Ms. Weisheimer.

Weisheimer and other speakers told women that the industry is changing and women are making the difference. SFPUC Expo coordinators say they plan to host the Women in Construction Expo event annually as they do with the agency's annual Construction Contractor's Breakfast.

# Purple Line Extension secures \$1.25-billion federal New Starts grant

Officials from Metro and the Federal Transit Administration signed a pair of agreements this morning in Washington D.C. for a \$1.25-billion federal grant and a \$856-million federally-backed loan to build the first phase of the Purple Line Extension subway under Wilshire Boulevard. We'll post video of this morning's event later.

The agreements clear the way for construction activities to begin later this year on the 3.9-mile addition to the Purple Line, which currently terminates at Wilshire Boulevard and Western Avenue. The first phase of the project will extend the line to the intersection of Wilshire and La Cienega Boulevard in Beverly Hills. Three new stations will be included in the first phase: at Wilshire and La Brea Avenue, Wilshire and Fairfax Avenue and Wilshire and La Cienega.

The first phase of the project is scheduled for completion in 2023 with a project budget of \$2.821 billion. The Metro Board of Directors is scheduled this summer to select a contractor to build the first phase. The subway is one of 12 transit projects funded in part by the Measure R half-cent sales tax increase approved by more than two million voters in Los Angeles County in 2008 (the measure passed with 67.93 percent approval).

Utility relocations are already underway on the first phase and a 75-foot-deep exploratory shaft has already been dug across the street from LACMA in order to validate and learn more about soil conditions in that area. A number of fossils were found, identified and preserved during the excavation of the shaft.

The second phase of the project will extend the line to Century City in 2026 and the third phase to Westwood in 2036. Metro continues to explore ways that the second and third phase of the subway project and other road and transit projects may be accelerated from their original Measure R timelines.

The federal New Starts program is providing the \$1.25-billion grant; the money will be appropriated to Metro on a year-by-year basis by Congress. The New Starts program helps local transit agencies build large and expensive transit projects.

The \$856-million loan is coming from the TIFIA program that helps provide low-interest loans backed by the federal government to build new infrastructure; TIFIA helps reduce interest costs. The TIFIA program was expanded by Congress in 2012 to include transportation projects and is part of Metro's America Fast Forward initiative to expand federal funding for transportation projects.

Metro also secured a \$670-million New Starts grant and \$160-million TIFIA loan earlier this year to help fund construction of the Regional Connector, a 1.9-mile underground light rail line that will connect the Blue Line, Expo Line and Gold Line in downtown Los Angeles to speed trips throughout the county and to downtown.

## Delivering on the Promise of Measure R L.A. Metro receives agreements for nearly \$2 billion in federal grants and low-interest loans for purple line extension project

Marking an historic vote of confidence in Metro Rail subway construction in Los Angeles, The L.A. County Metropolitan Transportation Authority (Metro) today joined federal, state and local elected officials to announce the receipt of a \$1.25 billion Full Funding Grant Agreement (FFGA) from the Federal Transit Administration to help pay for the first nearly four-mile, \$2.821-billion segment of the long-awaited Metro Purple Line Extension Project toward West Los Angeles.

Additionally, the U.S. Department of Transportation simultaneously granted Metro a low-interest loan of \$856 million from a Transportation Infrastructure Finance and Innovation Act (TIFIA) Loan to complete the funding package for the first phase of the project. Combined, the nearly \$2 billion in project commitments represent the single biggest federal transportation investment in the history of Los Angeles County. The remaining \$821 million in project funding includes Measure R, City of Los Angeles, and other existing local and federal funds.

"The federal commitment not only makes the subway extension to the Westside possible, it underscores the confidence of Washington in what we're doing here in Los Angeles on many fronts to deal with the nation's worst traffic congestion," said Metro Board Chair and Lakewood Councilmember Diane DuBois. "L.A. County is on the move. By the end of the year we'll have a record five rail lines concurrently under construction in Los Angeles County, funded in part with about \$3.5 billion in federal grants and low-interest loans. That is an unprecedented federal commitment to expanding transportation infrastructure in the county, and we are overjoyed and grateful."

According to the Los Angeles County Economic Development Corporation, construction of the first phase of the Purple Line Extension will support over 25,000 jobs during its construction.

"Today's signing of the full funding grant agreement for the Purple Line Extension marks a great day for Los Angeles," said United States Senator Dianne Feinstein. "The project will connect the Westside to the region's growing rail network, making it possible to get downtown in just 25 minutes. Securing funds for this \$2.8 billion project was a joint effort, bringing together stakeholders in Los Angeles, Sacramento and Washington. This cooperation will result in not only a vital alternative to L.A.'s busy freeways, but also the creation of more than 25,000 jobs and significant reductions in carbon emissions. This is a great example of what can be achieved when federal, state and local governments work together."

"The federal government's historic funding commitment is a huge down payment for better mobility in Los Angeles," said Los Angeles Mayor and Metro Board Vice Chair Eric Garcetti. "I want to thank our partners in Washington for helping make sure Los Angeles gets the funding it needs to build our transportation improvements and deliver on the promise of Measure R."

With federal funding commitments now in place, Metro will soon recommend the selection of a design-build contractor. Preliminary construction activities for the first segment of the project could begin later this year, with completion of

**The signing of the funding documents.**

**From left, Metro Board Member Ara Najarian, Board Member Pam O'Connor, Metro CEO Art Leahy, Rep. Janice Hahn, L.A. Mayor Eric Garcetti, Board Chair Diane DuBois, Rep. Grace Napolitano, Board Member Zev Yaroslavsky and Federal Transit Administration Chief Counsel Dorval Carter.**

the first subway segment anticipated in 2023. The new segment will add three new subway stations: Wilshire/La Brea, Wilshire/Fairfax and Wilshire/La Cienega.

The Purple Line Extension is a critically important, regionally beneficial transit project to extend L.A.'s subway further west from its terminus at Wilshire/Western in the Mid-Wilshire District. The project was overwhelmingly approved by two-thirds of L.A. County voters in 2008 as part of the Measure R transportation sales tax initiative.

"Our lives in West Los Angeles revolve around traffic. Where and when we travel is largely determined by traffic congestion patterns," said Zev Yaroslavsky, L.A. County Supervisor and Metro Board Member. "Extending the subway will offer commuters an alternative to driving through one of the most congested metropolitan street and highway systems in the nation. We can now see

light at the end of the tunnel as the new subway will begin to serve the Wilshire corridor – one of the densest and most important commercial and residential sectors of our region."

"I am pleased to learn that the Department of Transportation has announced a Full Funding Grant Agreement for the Purple Line extension," said Congressman Henry Waxman. "This federal money will turn years of planning into a reality, linking Downtown to the Westside and LACMA, the La Brea Tar Pits, Restaurant Row, UCLA, and countless other sites. The Purple Line will be a critical transportation alternative, reducing traffic and congestion and when finished, will connect Westwood to Union Station in 25 minutes. This is an important step towards making this project a reality."

Current funding streams require the project to be built in three separate phases. When all phases are

# Policy Development

## California Law Students Seek Redemption for an Asian Lawyer

By Julissa Catalan

University of California, Davis law students have petitioned the state bar—and, soon, the Supreme Court—to credit an Asian lawyer who was initially denied a license in 1890 with posthumous admission to the California State Bar.

Over a century ago, the state of California denied Hong Yen Chang the right to take the bar test because of the Chinese Exclusion Act—a law that prohibited Chinese immigrants from becoming citizens. At the time, a California law also prohibited noncitizens from practicing in the state. The combination of the two made it impossible for Chang to become licensed.

Chang began his law career by attending Yale University through the Chinese Educational Mission, a revolutionary program that was initiated by the Chinese government. He went on to earn a degree from Columbia Law School in 1886 and sat for the New York bar exam by special act of the legislature. The New York Times reported that Chang made history by becoming the first Chinese immigrant admitted to any bar in the United States.

Though Chang was already an accredited lawyer in New York by 1890, his hope was to serve as a lawyer to the large Chinese community of San Francisco.

He went on to focus on a career in banking and diplomacy.

Students belonging to the UC Davis School of Law's Asian Pacific American Law Students Association (APALSA) are behind this petition. They say his admission would “send a powerful message about the legal profession's commitment to diversity and inclusion.”

“Admitting Mr. Chang would be a powerful symbol of our state's repudiation of laws that singled out Chinese immigrants for discrimination,” said Gabriel “Jack” Chin, a professor at UC Davis School of Law and APALSA's faculty advisor on the project. “At the time Chang was excluded from the practice of law in California, discrimination against Chinese persons was widespread. Congress prohibited all Chinese immigration. Even the California Constitution dedicated an entire article to restricting the rights of Chinese residents.”

Representing APALSA is the UC Davis School of Law California Supreme Court Clinic. The clinic is the only one of its kind and centers on pending civil and criminal cases before the California Supreme Court.

“This is a unique situation and we don't know what the Committee of Bar Examiners will do with the application,” said spokeswoman Laura Ernde. The petition is scheduled for review in late June.

Chang's posthumous admittance would not be without precedence. In 2001, the Washington Supreme Court granted admission to the state bar to Takuji Yamashita, a Japanese immigrant who was originally denied admission in 1902. The Pennsylvania Supreme Court did the same in 2010 for George B. Vashon, a Black man who was denied admission to that state's bar in 1847.

Rachelle Chong—Chang's grandniece and a San Francisco resident who is the first Asian-American to serve as a Commissioner of the Federal Communications Commission and of the California Public Utilities Commission—signed and commented on the petition.

“In my generation, our family is extremely fortunate to have three lawyers admitted to the California State Bar: my cousins Suzanne Ah Tye, Kirk Ah Tye and myself,” said Chong. “It would be fit-

ting and right to have my granduncle's exclusion reversed by the California Supreme Court to ensure that justice, albeit late, is done. Our family is honored that the UC Davis APALSA students have taken up the issue of righting a terrible wrong.”

At the time this article was published, the petition had 2,798 signatures.

## Purple Line Extension secures \$1.25-billion federal New Starts grant

Continued from page 8

complete, the Purple Line will extend westward for nearly nine miles with a total of seven new stations. Future planned stations beyond the initial three include: Wilshire/Rodeo, Century City, Westwood/UCLA, and the Westwood/VA Hospital. Under this three-phase scenario, the total project is forecast to cost \$6.3 billion. Measure R funds will pay for approximately three-fourths of the overall project cost. Metro is pursuing alternate funding scenarios that could accelerate subway construction.

“The ‘Subway to the Sea’ is about making Los Angeles work better, making it easier for Angelenos to get to work, and putting Angelenos to work,” said Rep. Karen Bass (D-Calif.). “This subway project is another investment that is building up our great city to connect Angelenos to where they live, work and play. It is expected to create over 25,000 jobs – a needed boost to our local economy, and Angelenos today and for generations to come will benefit from this important project.”

The Purple Line Extension to the Westwood/VA Hospital station will generate about 49,300 daily weekday boardings at the seven new stations. Using a different measure, there will be about 78,000 new daily trips on the full Metro Rail System as a result of opening this line. During peak periods, trains are expected to run every four min-

utes. During off-peak periods, they are expected to run every 10 minutes.

“I am pleased to see that the Full Funding Grant Agreement for the Purple Line Subway Extension in Los Angeles has been signed,” said Speaker Emeritus John A. Pérez. “This project will not only create vital activity in our economy, including nearly 26,000 jobs for the people of Los Angeles, it will further demonstrate our commitment to building a sustainable and healthy economy for every person in our city.”

“Today we are moving forward with the next generation of transit for our next generation and together are transforming Los Angeles County,” said Pam O'Connor, Santa Monica Mayor and Metro Board Member.

“This signing is the culmination of years of consensus-building on the Metro board to unanimously support the design and construction of both the Regional Connector and the Purple Line Extension,” said Ara Najarian, Glendale City Council Member and Metro Board Member. “We would not be here today if the board wasn't pulling for these projects.”

Over 300,000 people travel into the Westside every day for work from throughout the region. More than 100,000 trips leave the area for outside destinations. These numbers are expected to increase over time.

The Purple Line extension will offer improved connectivity to the entire Metro Bus and Rail network, as well as municipal bus lines and other regional transportation services.

### About Metro

Metro is a multimodal transportation agency that is really three companies in one: a major operator that transports about 1.5 million boarding passengers on an average weekday on a fleet of 2,000 clean air buses and six rail lines, a major construction agency that oversees many bus, rail, highway and other mobility related building projects, and it is the lead transportation planning and programming agency for Los Angeles County. Overseeing one of the largest public works programs in America, Metro is, literally, changing the urban landscape of the Los Angeles region. Dozens of transit, highway and other mobility projects largely funded by Measure R are under construction or in the planning stages. These include five new rail lines, the I-5 widening and other major projects. Stay informed by following Metro on The Source and El Pasajero at metro.net, facebook.com/losangelesmetro, twitter.com/metrolosangeles and twitter.com/metroLAalerts and instagram.com/metrolosangeles.

# Rev. Jackson and delegation attend Facebook Annual Shareholder Meeting

Rev. Jesse Jackson and the Rainbow PUSH Coalition participated in the Facebook Annual Shareholder Meeting on Thursday May 22, in Redwood City, CA.

Launching the new Rainbow PUSH Coalition digital inclusion initiative, Rev. Jackson wrote to lading technology companies earlier this year, saying, "Technology is supposed to be about inclusion, but sadly, patterns of exclusion remains the order of the day. When it comes to African Americans on Board – ZERO. C-suites, ZERO. Minority firms in IPO's and financial transactions, advertising and professional services – ZERO. These ZEROES are contrary to the enlightened values exposed by the industry. Rainbow PUSH is seeking meetings with tech leaders to address these ZEROES head on."

Last week, Rainbow PUSH scored a victory in this effort. During Google's shareholder meeting, the company announced that it would voluntarily release its EEO-1 report, which include the race and gender characteristics of its workforce. Rev. Jackson will challenge Facebook and other tech companies to follow suit. It will also inquire if Facebook will consider a by-law change to mandate that qualified minorities and women be in-

cluded in the search process and actively considered for future board seats.

Rainbow PUSH will also be conducting a Inclusion survey of technology companies, ranking them on their policies and practices relating to minority participation on their Boards, C-suites, supplier diversity, workforce composition, financial and professional services and other categories.

## ZERO Blacks on Boards and in the C-suites

Tech powerhouses including Apple, Facebook, Facebook, and new media companies like Twitter and Facebook - have ZERO Blacks on their Board of Directors and C-suites. Facebook is electing eight (8) directors; and includes one woman (including Sheryl Sandberg) among its top six executive officers.

Black Enterprise magazine reported that 75 of the top 250 S&P 500 public companies do not have an African American on their Board of Directors (<http://www.BlackEnterprise.com/tag/black-corporate-directors/>).

Women and minorities have lost ground in America's corporate boardrooms between 2004 and 2010 (Alliance for Board Diversity, Aug 2013).

Facebook included several minority and women-owned firms in its initial IPO.

Tech companies target Black and minority consumers - 24 million are Internet users and 76% visit social media sites, according to Neilson. African-Americans have continued to outpace the total population with smartphone ownership. Facebook Search is the #1 search engine among African-Americans. Yet, of the \$75 billion spent on television, magazine, Internet, and radio advertising, only \$2.24 billion of it was spent with media focused on Black audiences. Few, if any, tech companies utilize African American advertising or marketing agencies.

Rev. Jackson added, "At its best, technology can be a tremendously positive change agent for the world; at its worst, it can hold on to old patterns that exclude people of color and women from opportunity and advancement. Silicon Valley and the tech industry must transform itself to mirror the America it depends upon for talent and customers."

Rainbow PUSH has held productive meetings with Facebook executives, and is seeking meetings with other tech leaders to identify strategies and solutions to expand the participation of African

American and people of color/

## Technology - No Inclusion in Silicon Valley and the Technology Industry

### Some facts and figures

The following information is derived from the Rainbow PUSH Survey (published February 2014) on minority participation in Capital Debt Markets between 2010-Sept 2013:

### No technology companies in Tier 1

#### Tier 2 (IBM)

IBM: Used minority firms in 17 of its 20 debt offerings; 10 with just one; five with two; 5 with three or more.

#### Tier 3 (Microsoft)

Microsoft: In 100% of its 14 debt offerings, Microsoft included a minority firm; 3 with one firm; 8 with two firms; 3 with three of more.

#### Tier 4

Ebay

Included one minority firm in 4 of its last six offering.

## Turner

■ Continued from page 2

ing, Estimating, Scheduling, Accounting, Field Operations, and Sales and Marketing just to name a few.

This year's TSCM classes include partnerships and sponsorships with Union Bank, Bay Area Builders Exchange, EBMUD and Har-Bro. The TSCM program is the longest running community outreach program in Turner's Construction's history. It was initiated in 1969 and soon became an opportunity to develop strategic business relationships with small business enterprises. It is part of Turner's 40 year commitment to the community and a springboard to business growth and opportunities.

For more information, please Contact Elena Anaya at 510-267-8241 or [eanaya@tcco.com](mailto:eanaya@tcco.com).

### About Turner Construction Company

Turner began working in the San Francisco/Oakland area in 1967, building commercial, public, hospitality and retail projects. In 1968 Turner teamed up with Trans Bay Engineers on the Oakland downtown City Center redevelopment project. The partnership was the first major joint venture in the United States between a majority firm and a minority firm and it paved the way for future joint ventures between small businesses and large firms in California and the nation. Turner is currently working on high profile projects in Oakland such as Oakland International Airport, Oakland Army Base, and BART Oakland Airport Connector and the Pier 27 and Transbay Center in San Francisco. For more information, visit Turner's website at [www.turnerconstruction.com](http://www.turnerconstruction.com).

## Silicon Ceiling 13

■ Continued from page 2

employment in the hottest West Coast technology clusters has steadily declined. The three California counties considered part of Silicon Valley--Santa Clara, San Francisco, and San Mateo--home to the most valuable and highest paying global tech firms, rank 40th, 44th and 61st among American counties for African-American computer and mathematics employment.

Yet, those counties have the highest salaries for African American technology workers, which should attract more of them, by conventional economic theory.

The data points to a regional hostile climate to African-Americans, as noted in a Feb. 1 column by San Francisco Chronicle editorial writer Caille Millner, who actively discourages "smart, ambitious" African Americans from moving to the area.

The Civil Rights Act of 1964, celebrating its 50th anniversary in June, requires employers with more than 100 workers to file annual reports on

the equal opportunity performance. It prohibits individual and systemic discrimination in hiring. Federal contractors are also required by executive order to complete and carry out affirmative action plans

## SBA Proposes Revisions to Size Standards for Wholesale Trade and Retail Trade Industries

The U.S. Small Business Administration has proposed increasing small business size standards affecting businesses in 46 industries in North American Industry Classification System (NAICS) Sector 42, Wholesale Trade, and in one industry in Sector 44-45, Retail Trade. If they are adopted, nearly 4,000 more firms will become eligible for SBA's loan programs. The proposed rule was published in the Federal Register today.

The proposed size standards would define the maximum number of employees a firm in these industries could have and still be a small business. The proposed revisions reflect changes in marketplace conditions.

SBA proposed to retain the current size standards for the remaining industries in those sectors.

SBA reviewed all of the employee-based size standards for both sectors to determine whether the size standards should be revised or retained.

The SBA has also proposed to retain the current 500-employee size standard for federal procurement of supplies under its non-manufacturer rule because Wholesale Trade and Retail Trade NAICS codes and their small business size standards cannot be used for procurement of supplies. These proposed revisions primarily affect eligibility for SBA's financial assistance programs.

Comments can be submitted on this proposed rule on or before July 18, 2014, at [www.regulations.gov](http://www.regulations.gov), identified by the following RIN number: (RIN 3245-AG49). You may also mail comments to Khem R. Sharma, Chief, Office of Size Standards, 409 3rd St., SW, Mail Code 6530, Washington, DC 20416.

As part of an ongoing review of all size standards, SBA takes into account the structural characteristics of individual industries, including average firm size, startup cost and entry barriers, the degree of competition, and small business share

## SAN JOSE STATE UNIVERSITY

### NOTICE TO CONTRACTORS

#### REQUEST FOR QUALIFICATIONS FOR CONSTRUCTION MANAGER MULTIPLE SMALL PROJECTS

Project Number: SJSU-299

San Jose State University  
One Washington Square  
San Jose, CA 95192-0010

The Trustees of The California State University (CSU) are requesting Statements of Qualifications (SOQ) from interested and qualified construction managers to provide construction manager services for multiple small projects (CMMSP) for the above-named CSU campus. The Trustees' will select the construction manager using a two-step process: (1) this Request for Qualifications (RFQ) from which Respondents may submit an SOQ to the Trustees, and (2) the resulting shortlisted firms will then receive a Request for Proposals (RFP) from the Trustees. The selected firm will become the Construction Manager. The Trustees' CMMSP process consists of preconstruction phases and construction phases with multiple separate contracts for each phase.

The type of projects are listed in the RFQ.

RFQ Submittal Due Date and Time:  
**Thursday, June 5, 2014 at 2:00 pm.**

Trustees' Construction Budget:  
\$10,000,000.00 maximum award

Contractor License Requirement: **B**

RFQ documents are available online at Planetbids website. Respondents may obtain the complete RFQ by registering and log into planetbids.com at <http://www.planetbids.com/hub/hub.cfm> and search for "Construction Manager Multiple Small Projects, Project Number: SJSU-299". If you have problems viewing this website, contact Sylvia Sosa-Galindo, Senior Contracts Specialist, Phone: 408-924-2246, Email: [sylvia.sosa@sjsu.edu](mailto:sylvia.sosa@sjsu.edu).

Respondents must be prequalified with the Trustees, and shall submit their prequalification application no less than ten business days prior to SOQ submittal due date. For information regarding the prequalification application go to [http://www.calstate.edu/cpdc/cm/contractor\\_prequal\\_bidders.shtml](http://www.calstate.edu/cpdc/cm/contractor_prequal_bidders.shtml).

The Trustees require three percent Disabled Veteran Business Enterprise participation in all construction phase contracts.

This project is a public works project and is subject to prevailing wage rate laws.

End Notice to Contractors

## GOLDEN GATE BRIDGE HIGHWAY & TRANSPORTATION DISTRICT

### NOTICE INVITING BIDS

The Golden Gate Bridge, Highway and Transportation District (District) seeks bids for **Contract No. 2014-BT-12, Santa Rosa Bus Facility Customer Parking Lot Improvements**. Interested Bidders must submit sealed bids to the Office of the Secretary of the District by **Tuesday, June 24, 2014, at 2:00 p.m., PT**, at which time bids will be publicly opened and read.

This public works Project consists of, in general, repaving an existing parking lot and improving the existing drainage at the bus transit building located in Santa Rosa, CA. The demolition work includes removal and disposal of existing asphalt concrete (AC), aggregate base (AB), concrete wheel bumpers, miscellaneous site concrete, pole-mounted ADA signs, an existing irrigation line, and a pipe steel barricade fence. Installation work includes new AB and AC parking lot paving, installation of new wheel bumpers, installation of new steel bollards and ADA signs, installation of a new irrigation line, parking striping, fabrication and installation of a new pipe steel barricade fence, a new concrete walkway, a new addition to the existing concrete bus

pad, a new concrete curb, installation of a French drain, drainage swales, a catch basin, and the trenching and installation of a new pipe drain, and all other work items as required to complete the Project titled **Santa Rosa Bus Facility Customer Parking Lot Improvements**, as shown on the Contract Plans and as specified in the Contract Documents.

A non-mandatory pre-bid conference and a job site tour will be held on **Tuesday, June 10, 2014, at 10:00 a.m., PT**, at the Santa Rosa Bus Facility, 3225 Industrial Drive, Santa Rosa, CA 95403.

**This is a Public Works Contract.** Bidders bidding as the prime contractor shall possess a valid **State of California Class A General Engineering Contractor's License**. All subcontractors, if any, shall be properly licensed by the State of California to perform specialized trades.

The District reserves the right to reject any and all bids or to waive any irregularities or informalities in any bid or in the bidding procedure. No Bidder may withdraw its bid for a period of ninety (90) days after the date of opening bids.

The successful Bidder shall furnish a performance bond and a payment bond in amounts equal to one hundred percent (100%) of the total price of the Contract. Pursuant to Public Contract Code Section 22300, the successful Bidder may submit certain securities in lieu of the District withholding funds from progress payments (retention) during the Project.

**Bidders must meet the contract-specific Small Business Enterprise goal of 8% on this project or demonstrate good faith efforts to do so.**

In accordance with Section 1720 et seq. of the Labor Code, the general prevailing wage rates as established by the Director of the California Department of Industrial Relations will apply to this Contract. The prevailing wage rates established by the California Department of Industrial Relations can be viewed at the District's Engineering Office and are available at <http://www.dir.ca.gov/OPRL/PWD>.

Contract Documents are available for download on the District's web site at <http://www.goldengate.org>. Click on Contract Opportunities, scroll down to Bus Division and look for Contract Number 2014-BT-12. Contract Documents are also available from the Contracts Office, Administration Building, Golden Gate Bridge Toll Plaza, San Francisco, CA 94129-0601, by e-mail at [contractsoffice@goldengate.org](mailto:contractsoffice@goldengate.org), by telephone at (415) 923-2229, or by facsimile at (415) 923-2357. There is a non-refundable purchase price of fifty dollars (\$50) for a set of hard copies of the Contract Documents. Full-sized Contract Plans will be available for purchase for an additional thirty dollars (\$30).

### Tier 5 (Facebook; HP; Apple; Oracle)

HP: Did not include any minority firms in 20 of its debt offerings

Apple: Did not include any minority firms in 6 of its debt offerings; including it's latest \$17Billion debt offering)

Oracle: Did not include any minority firms in its nine debt offerings.

### CEO's, Corporate Boards and C-Suites

Apple, Cisco, Facebook, Facebook, Facebook, HP, Intel, and Twitter and far too many technology companies have ZERO Blacks on their Board of Directors, and in their Executive C-suites.

BET's report indicates that there are 177 Blacks on the Board of Directors of America's 250 largest public companies. There report that there are 75 (30%) of these corporations with no Black Directors. BLACK ENTERPRISE reports that corporate boards have become less diverse over the past several years. According to a report from the Alliance of Board Diversity, in 2010 white men held 74.5% of board seats on the 500 largest publicly traded companies, versus 5.7% for African American men and 1.9% for African American women. By 2012, the percentage of African American male directors declined to 5.5%, while the percentage of African American female directors remained flat. White men continue to hold roughly 95% of board chair positions and 86% of lead director slots.

The Glass Ceiling report observes, "The world at the top of the corporate hierarchy does not yet look anything like America. Two-thirds of our population, and 57 percent of the working population, are female, or minorities, or both." The commission projects that this year, people of color and women will make up 62 percent of the workforce.

### Request for Proposal

## Watersheds Capital Construction Management Project – Consultant Services

Santa Clara Valley  
Water District

### Who:

Santa Clara Valley Water District is the water resource management agency meeting watershed stewardship needs of and providing wholesale water reliability to Santa Clara County's 1.8 million residents.

### What:

The Santa Clara Valley Water District is soliciting proposals from consultant firms to provide construction management services for a series of watersheds projects going to construction in 2014 through 2016. The primary objective of the projects is flood protection for various District watersheds. The consultants will provide construction management services throughout the construction phase of projects.

You are invited to submit a proposal based on your qualifications conducting construction management for projects similar in size and scope to the District's project. The full Request for Proposal (RFP) can be viewed at <http://cas.valleywater.org>.

Please submit your proposals electronically to the District's Contract Administration System (CAS) by the date and time specified in the RFP Schedule. Prior to submitting proposals, all firms must be registered in CAS. This can be achieved by going to the web address noted above and following the instructions to create an account.

### Contact:

If you need assistance with creating a CAS account, please call (408) 265-2607, ext. 2992, or e-mail questions to [ContractAdministration@valleywater.org](mailto:ContractAdministration@valleywater.org).

In addition to submitting proposals electronically through the District's web portal, 12 hard copies of the proposal must be received by the proposal due date and time specified in the RFP Schedule. Please refer to the RFP for detailed hardcopy delivery instructions.

General questions regarding this solicitation will be accepted by email to Afshin Rouhani at [arouhani@valleywater.org](mailto:arouhani@valleywater.org).

# Public Legal Notices

## SWINERTON BUILDERS

### ADVERTISEMENT FOR PREQUALIFICATION OF SUBCONTRACTORS

Subject to conditions prescribed by the undersigned, Subcontractors are invited to prequalify to submit bids for the following project:

**UCSC Coastal Biology Building**  
University of California, Santa Cruz  
UCSC Project Number 4932 //  
Swinerton Project Number 14085006

Swinerton Builders Inc. is the CM/Contractor for this University of California, Santa Cruz project, and is seeking to prequalify subcontractors.

#### DESCRIPTION OF PROJECT:

##### Coastal Biology Building and Associated Greenhouses:

The main component is the construction of the Coastal Biology Building (CBB) which consists of a new two story, 44,000 square foot lab building designed in accordance with LEED Gold Rating Requirements. A 20,000-gallon seawater storage tank would be constructed outside the CBB lab building. An associated greenhouse complex located on the opposite side of McAllister Way which would include five 600 SF greenhouses, a double greenhouse of 1,200 SF, and one 3,300 SF greenhouse research facility all within a fenced, graded yard.

#### Site Improvements including Roads, Infrastructure, Service Yards and Parking:

The project would also provide the backbone of an improved utility system for the Marine Science Campus (MSC) which would include improvements to the wastewater, water distribution and storm water systems. The development of a new centralized Utility Yard including standby generators and centralized electrical distribution, a new modular building for temporary storage of regulated materials, and a staging area and storage yard. This project also includes circulation infrastructure improvements including conversion of existing roads, an integrated 1.2 mile pedestrian and bicycle trail system, new parking, and general improvements to public access to and around MSC.

The Prequalification Schedule is as follows:

#### PREQUALIFICATION PERIOD:

**June 2, 2014 to June 13, 2014 at 4:00 PM**

#### BID PACKAGES: The estimated construction costs for the bid packages are as follows:

1. Infrastructure \$16,000,000
2. Landscape and Irrigation \$2,500,000
3. Foundations including piers \$1,200,000
4. Structural Steel \$2,000,000

#### PREQUALIFICATION DOCUMENTS:

Potential bidders must become prequalified by Swinerton for a value in excess of the noted amount. Prequalification instructions and documentation are available upon request.

Please email Darlene McCombs at [dmccombs@swinerton.com](mailto:dmccombs@swinerton.com) for all required information.

All prequalification submittals must be received by Swinerton Builders as defined in the Prequalification Coversheet by no later than 4:00PM, June 13, 2014.

University of California, Santa Cruz and Swinerton Builders encourages the participation of small, disadvantaged, minority-owned, women-owned and service/disabled veteran-owned business enterprises and are committed to promoting a diverse pool of firms for this project. Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each bidder will require to follow nondiscrimination requirements set forth in the Bidding Documents and to pay prevailing wage at the location of work. The work described in the contract is a public work subject to section 1771 of the California Labor Code.

## CALIFORNIA STATE UNIVERSITY (CSU) OFFICE OF THE CHANCELLOR

### NOTICE INVITING BIDS

**Job Order Contract - Bid No. 4695**  
**Project Name:**

**Immediate Response Job Order Contract**  
**California State University (CSU),**  
**Office of the Chancellor**

**Project Description:** The CSU is seeking qualified contractors for the furnishing of all labor, materials, and equipment to implement and administer a Job Order Contract (JOC) for immediate response mitigation and reconstruction work to be used by campuses within the CSU system.

**Bid Due Date/Time: June 25, 2014 @ 10:00 a.m.**

**(bids must be submitted electronically to the CSU RFP website: <http://Propoers.planetbids.com/CSU-CO/bidsearchform.cfm?StateID=52>). No paper bids will be accepted.**

**Bid Opening Time: June 25, 2014 11:00 a.m.**

**Location:** CSU Office of the Chancellor, 401 Golden Shore, Long Beach, CA 90802, 5th Floor, Attn: Ms. Verna Ale Paniani

**(Contractor License Requirement: B)**

#### Pre- bid Conference Dates

##### 1) Northern location

Date: June 5, 2014 (Thursday) at 11:00 a.m.

Location: CSU Sacramento Campus – Room TBD

##### 2) Southern location

Date: June 4, 2014 (Wednesday) at 1:00 p.m.

Location: CSU, Office of the Chancellor, 401 Golden Shore, Long Beach, CA 90802 (Room TBD)

**Primary Contact:** Ms. Verna Ale Paniani, Contract Manager

**CSU Office of the Chancellor, Contract Services and Procurement**

**Phone: 562 951-4667 or Email: [vpaniani@calstate.edu](mailto:vpaniani@calstate.edu)**

\*Contractor need only attend one pre-bid meeting in either the Northern or Southern location. Sample bid documents are available at the website below. Interested parties must register with Planet Bids to download bid documents, receive addendums, and update notices. There is no cost to register. CD specifications and plans will be available at the pre-bid meetings, June 4th and 5th, 2014 for \$50.00, made payable to the CSU Trustees. The site for planet bids is:

**<http://vendors.planetbids.com/CSUCO/bidsearch-form.cfm?StateID=52>**

The Trustees require 3% Disabled Veteran Business Enterprise participation (no good faith effort will be accepted). This requirement applies to the reconstruction component of this bid, and not for immediate response work. Please contact the Trustees' DVBE Program Advocate Mr. Darryl Dearborn, at 562 951-4581 for additional information.

This project is a public works contract and is subject to prevailing wage rate laws (see Contract General Conditions, Article 4.02-c).

## UNIVERSITY OF CALIFORNIA SANTA CRUZ

### ADVERTISEMENT FOR BIDS

Subject to conditions prescribed by the University of California, Santa Cruz sealed bids for a lump-sum contract are invited for the following work:

**OAKES COLLEGE – RESIDENCE HALL F**  
**SHOWER REPLACEMENT**  
**Project Number: 3700-036**

**Description of Work:** Replace showers in Oakes Residence Hall F with resinous flooring and solid surface surrounds.

Procedures: Bidding documents will be available at 1:00PM Monday, May 26, 2014 from UCSC's Online Planroom web site at [www.ucscplanroom.com](http://www.ucscplanroom.com). Create your Username and Password under the 'Login' heading on the home page to register for a free account.

Bids will be received only at:

**Physical Planning and Construction,**  
**UNIVERSITY OF CALIFORNIA, Santa Cruz**  
**1156 High Street, Barn G, Contracts Trailer**  
**Santa Cruz, CA 95064**  
**831-459-2366 / 831-459-5540**

**Bid Deadline:** Sealed bids must be received on or before **Tuesday, June 3, 2014 at 3:00 PM.**

**Bid Security** in the amount of 10% of the Lump Sum Base Bid shall accompany each Bid. The surety issuing the Bid Bond shall be, on the Bid Deadline, an admitted surety insurer (as defined in California Code of Civil Procedure Section 995.120).

Bidders must attend a mandatory Pre-Bid Conference and Job Walk on **Tuesday, May 27, 2014** beginning promptly at **2:00 PM**. Participants shall meet at the Office of Physical Planning and Construction, 1156 High Street, Barn G, Contracts Trailer Santa Cruz Campus. Only bidders who participate in both the Conference and the Job Walk in their entirety, will be allowed to bid on the Project as prime contractors. For further information, contact University's Representative Kevin Foisie at 831-459-4663.

The successful Bidder will be required to have the following California current and active contractor's license at the time of submission of the Bid: **B – General Building Contractor.**

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each Bidder may be required to show evidence of its equal employment opportunity policy. The successful Bidder and its subcontractors will be required to follow the nondiscrimination requirements set forth in the Bidding Documents and to pay prevailing wage at the location of the work.

The work described in the contract is a public work subject to section 1771 of the California Labor Code.

Estimated construction cost: **\$152,000.00.**

### Bank of America's "Express Your Thanks" Campaign Returns Ahead of Memorial Day, Will Raise up to \$1 Million to Help Service Members and Veterans Transition to Civilian Life

Building on the \$1.4 million Bank of America has raised since 2012 through its "Express Your Thanks" campaign to support transitional programming for service members and veterans, the company announced today that it is bringing the program back for a third year. By asking individuals to share their expressions of gratitude for current and former members of the military, the Bank of America Charitable Foundation will donate up to \$1 million to benefit military nonprofit organizations Welcome Back Veterans and Wounded Warrior Project®. The funds will be used to support employment, education and wellness programs that help service members and veterans succeed here at home.

To participate in the program and help Bank of America reach its goal, individuals simply need to tag messages, photos or videos of thanks on Facebook, Twitter and Instagram with #troopthanks. Alternatively, they can visit the "Express Your Thanks" website at [www.bankofamerica.com/troopthanks](http://www.bankofamerica.com/troopthanks) or participate at select Major League Baseball and NFL games and at certain NASCAR Sprint Cup Series races, where they can also post photos, videos and messages of thanks. Each qualified expression received through Veterans Day will result in a \$1 donation.

"According to the U.S. Government Accountability Office, more than one million service members are expected to transition to civilian life over the next few years, so it's very important that we do as much as possible to help them," said Jeff Cathey, senior military affairs executive at Bank of America. "Express Your Thanks" is one of many initiatives we have in place to ensure that service members are being recognized for their service while also supporting programming that will help them succeed."

As part of Bank of America's effort to illustrate the importance of providing assistance to veterans and service members, the "Express Your Thanks" website will feature photos, videos and interviews

with those who have benefited from nonprofit programs to illustrate how these initiatives have helped them respond to the unique challenges service members face.

"It's rewarding to see, on a very individual and human level, the impact that the WWP programs funded by 'Express Your Thanks' can have on people's lives," said Jennifer Silva, Economic Empowerment executive vice president, Wounded Warrior

Project. "Reintegration can be challenging on the home front and into the workplace, which is why it's so important to have support services available to them. They've sacrificed for our way of life, and the best way to show our gratitude is to tangibly welcome our veterans back home."

Launch of new Military Transition and Careers website

Bank of America's longstanding commitment to and financial support for military service members focuses on housing, education, wellness, and employment. As a leading employer and 2013 Secretary of Defense Employer Support Freedom Award winner, the company continuously looks at new ways to support and educate service members about successful ways to enter or re-enter the civilian workforce.

As part of this effort, Bank of America is introducing a new website dedicated to connecting veterans with tools that can help them build their workplace and business knowledge and search for a career at Bank of America. The Military Transition and Careers site features resources such as tips on resume writing and job interviews. The new site continues Bank of America's efforts in helping service members and veterans find employment. Since 2009, the company has provided more than \$11 million in financial support to nonprofit partners to help address these areas of need. It has also hired more than 4,000 veterans, Guard and Reserve members since 2011 and plans to hire an additional 10,000 over the next several years.

#### Bank of America

Bank of America is one of the world's largest financial institutions, serving individual consumers, small businesses, middle-market businesses and large corporations with a full range of banking, investing, asset management and other financial and risk management products and services. The company provides unmatched convenience in the United States, serving approximately 49 million consumer and small business relationships with approximately 5,100 retail banking offices and approximately 16,200 ATMs and award-winning online banking with 30 million active users and more than 15 million mobile users. Bank of America is among the world's leading wealth management companies and is a global leader in cor-

## CDFI Fund Approves Additional Qualified Issuer for FY 2014 Round of CDFI Bond Guarantee Program

The U.S. Department of the Treasury's Community Development Financial Institutions Fund (CDFI Fund) announced today that it has selected the Wisconsin Housing and Economic Development Authority (WHEDA) as a Qualified Issuer under the fiscal year (FY) 2014 round of the CDFI Bond Guarantee Program. Upon Treasury's approval of a Guarantee Application, WHEDA may issue bonds and make bond loans to Eligible Community Development Financial Institutions (Eligible CDFIs) for investments in low-income and distressed communities across the country. WHEDA joins a pool of three other Qualified Issuers that were previously approved under the FY 2013 round of the CDFI Bond Guarantee Program: Community Reinvestment Fund, Opportunity Finance Network, and TriSail Funding Corporation, a wholly owned subsidiary of Bank of America, N.A.

The U.S. Congress authorized Treasury to guarantee up to \$750 million in bonds through the CDFI Bond Guarantee Program in FY 2014. The CDFI Fund, the administrator of the CDFI Bond Guarantee Program, published the program's FY 2014 Notice of Guarantee Availability in the Federal Register on May 13, 2014. Qualified Issuer Applications are due on June 23, 2014, and Guarantee Applications are due on June 30, 2014. More information about the CDFI Bond Guarantee Program, and the FY 2014 application, may be found on the CDFI Fund's website at [www.cdfifund.gov/bond](http://www.cdfifund.gov/bond).

#### About the CDFI Fund

Since its creation in 1994, the CDFI Fund has awarded over \$1.8 billion to CDFIs, community development organizations, and financial institutions through the CDFI Program, the Bank Enterprise Award Program, the Capital Magnet Fund,

the Financial Education and Counseling Pilot Program, and the Native American CDFI Assistance Program. In addition, the CDFI Fund has allocated \$36.5 billion in tax credit authority to Community Development Entities through the New Markets Tax Credit Program. Learn more about the CDFI Fund and its programs at [www.cdfifund.gov](http://www.cdfifund.gov).

#### About the CDFI Bond Guarantee Program

The CDFI Bond Guarantee Program was enacted through the Small Business Jobs Act of 2010. The program provides Eligible CDFIs with access to long-term capital by providing guarantees of bonds issued by Qualified Issuers. With long-term credit currently at below-market interest rates, the CDFI Bond Guarantee Program is a groundbreaking effort to accelerate community economic growth and development. Bonds will be 100 percent guaranteed by the Department of

the Treasury, including principal, interest, and call premiums. The Federal Financing Bank will be the sole purchaser of bonds issued under the CDFI Bond Guarantee Program. For more information, please visit [www.cdfifund.gov/bond](http://www.cdfifund.gov/bond).

#### About WHEDA

WHEDA is a public body corporate and political created in 1972 by the Wisconsin Legislature that provides low cost financing for housing, small business and agricultural development. WHEDA's mission is to provide housing and economic development financing for low income and underserved communities in Wisconsin. WHEDA reports that since 1972 it has financed more than 68,000 affordable rental units, helped more than 110,000 families purchase their first homes, and made more than 29,000 small business and agricultural loan guarantees.

## SMALL & MINORITY BUSINESS

# Banks Should Diversify Their Supplier Networks

by Orson Aguilar and Richard Chacon

Banks are a major engine of our economy. Besides providing lending and capital, banks purchase tens of billions of dollars each year in goods and services from a variety of suppliers. Diversifying those supplier networks can have a positive impact in the communities they serve and on the economy.

Recently, The Greenlining Institute released a new report, “Escaping the Old Boy Network: The Banking Industry and Supplier Diversity,” and convened bankers, small business representatives, federal regulators and other stakeholders to begin a dialogue on this issue. While others have looked at diversity in the industry, Greenlining’s study – based on data voluntarily supplied by participating banks – is the first of its kind to examine bank data on a detailed, granular level by categories like ethnicity, gender and geography.

Greenlining’s groundbreaking report was the result of strong partnerships with a shared goal of creating opportunities for minority business enterprises. Greenlining invited the top 12 banks in California by deposit market share to participate, and requested feedback on methodology to ensure the report asked the right questions. Eight banks participated and shared their data publicly for this first report – a nearly 70% participation rate. The results of this research were presented and discussed with a variety of stakeholders at a Feb. 24 event in San Francisco.

Once the numbers had been crunched, the results showed there is much work to do. Nationally, contracting with minority-owned firms saw a median spending of 5.96%, compared to California, where median spending was 7.72%.

The voluntarily participation of so many major banks was critical, and while the discussion was at times challenging for everyone involved, we all agree that it was the beginning of a useful and important process. And we came away from the dialogue having found considerable common ground.

We agreed that supplier diversity is a core business initiative. It’s not about quotas; it’s about identifying opportunities across the banks’ supply chains and creating internal systems, transparency and business opportunities. Major corporations are increasingly coming to understand that communities of color are an untapped resource. In

states like California, people of color are already the majority, and the nation is primed to become “majority-minority” by 2043. How major businesses like banks do business with communities of color will affect the health of the entire economy as well as being key to their own future growth.

By buying more goods and services from businesses rooted in diverse communities, banks can build bridges with those communities and expand their customer base. And by expanding their networks of potential suppliers, the increased competition can help banks obtain better quality services at lower prices.

In so doing, banks can also bring jobs and investment to communities in need of both. Our nation still faces a disturbing racial wealth gap: According to the U.S. Census, for every dollar of wealth a white family owns, the median Asian family has about 81 cents. The median Latino family has 7 cents and the median black family has less

than 6 cents. One way major corporations can help reduce that gap, ultimately benefitting our whole economy, is to do business with firms rooted in communities of color.

Supplier diversity is a component of the strategic sourcing process for the banking industry with tangible benefits for banks, customers and the community. To move forward, we agreed that better data and standardized metrics will help a great deal. Research for Greenlining’s report revealed huge differences in what data banks now collect. For example, only three of eight banks currently track supplier data by gender within each ethnic group, and only five of eight track state-level contracting in depth.

The federal Offices of Minority and Women Inclusion, created by the Dodd-Frank financial reform law, can play an important role in establishing uniform measurement standards that will help both the industry and advocates continue this

effort. We look forward to seeing how the OMWIs will compile comments on the recent Proposed Interagency Standards and create reporting criteria for all regulated entities. In the interim, we will all work together to create proactive and strong supplier diversity programs that truly impact both the bottom line of banks, diverse businesses, jobs and the economy.

Perhaps most importantly, we’ve agreed that this first report and discussion were just the beginning. We are committed to having continuing conversations to determine the next steps we all can take, including how to engage other teams within the banks and continue the important progress we’ve begun.

Orson Aguilar is executive director of The Greenlining Institute. Richard Chacon is senior vice president and director, Supplier Diversity and Development, for Union Bank N.A.

## Wounded Warrior Project

The mission of Wounded Warrior Project® (WWP) is to honor and empower Wounded Warriors. WWP’s purpose is to raise awareness and to enlist the public’s aid for the needs of injured service members, to help injured servicemen and women aid and assist each other, and to provide unique, direct programs and services to meet their

needs. WWP is a national, nonpartisan organization headquartered in Jacksonville, Florida. To get involved and learn more, visit [woundedwarrior-project.org](http://woundedwarrior-project.org).

## Welcome Back Veterans

Welcome Back Veterans, an initiative of Major League Baseball Charities and the Robert R. McCormick Foundation, provides grants to university hospitals throughout the country that provide post-traumatic stress disorder (PTSD) and traumatic brain injury (TBI) treatment to veterans and their families in a public/private partnership.

Currently, Welcome Back Veterans is funding programs at Weill Cornell in New York City, The University of Michigan, Rush University Medical Center, Duke University, Emory University, UCLA and the Boston Red Sox’ Home Base Program at Mass General Hospital in Boston. These institutions are developing new programs and strategies to improve the quality, quantity and access to PTSD and TBI treatment for veterans, particularly those returning from duty in Iraq and Afghanistan.

An Equal Opportunity Employer

The R C Foster Corporation is planning on bidding the Water Reclamation Facility No. 2 Tertiary Filtration Project in the City of Corona on Wednesday, June 25, 2014 @ 2:00 PM. We would like to invite you to bid on any portion of the project that you can to us. Please go to our File Transfer Site (FTP://FTP.RCFOSTER.COM) where the Plans and Specifications have been posted.

The following trades are required: Survey, Cathodic Protection, Facilities rentals, Soil Import, Paving, Structural Steel, Miscellaneous metals, Painting & Coating, Electrical and Rebar.

For the user enter "Guest" and for the password, enter "RCFOSTER" both are case sensitive. You will see in the folder "Projects Bidding" the documents for the **City of Corona DWP WRF2 Tertiary Filtration Project**.

This project is subject to requirements set forth under the State Water Resources Control Board's U.S. EPA Assisted Clean Water State Revolving Fund Loan Program which requires Bidders to cooperate with and exercise "Good Faith Efforts" (GFE) to achieve participation of Disadvantaged Business Enterprises (DBEs).

If you qualify as a DBE please fill out form FPA Form 6100-3, found on our FTP site and include it with your bid to us. We will also require a copy of your proof of certification to include with the bid.

**Please let us know if you plan on Bidding.**

If you require any additional assistance, please contact us.

**R C Foster Corporation**
