SBA Launches Operation Boots to Business Training for Transitioning Veterans

Image Credit: Benetrends, Inc.

Operation Boots to Business: From Service to Startup to Help Them Start Businesses and Create Jobs

The U.S. Small Business Administration (SBA) has joined with the Department of Veterans Affairs (VA) and the Department of Defense (DoD) to launch a training program for transitioning service members and veterans to help them become entrepreneurs and create jobs.

Operation Boots to Business: From Service to Startup is a national initiative that will be piloted with the U.S. Marine Corps. The announcement was made today by U.S. Small Business Administrator Karen Mills and U.S. Marine Corps representatives at Quantico, VA.

Shoestring MARKETING by Alf Nucifora

Grab A Slice Of The Government Pie

For anyone who has ever perused the Federal Budget, it becomes obvious that the U.S. Government acquires a vast quantity of goods and services. In 2001, Federal contracting totaled approximately \$215 billion covering the waterfront from diapers to nuclear reactors. In fact, there are 1,140 categories (or codes) of goods and services that the government contracts to buy, at least one of which probably fits the product offering profile of most American small businesses. The codes are derived from the North American Industrial Classification System and are known in government-speak as NAICS (pronounced “nakes”). The best place to locate the NAICS listing... www.naics.com.

As a review of the top 20 NAICS categories reveals, research and defense-related spending are the biggest ticket items chewing up more than 40% of the available contracting pie. Yet it's the less exotic, more mundane categories that offer hidden opportunity for the average business next door. For example, a contracting pool of approximately \$26 billion is available for such services as “facilities support,” “computer systems design,” “custom computer programming” and “commercial and industrial buildings.” In the latter case, the Federal Government requires massive facilities support simply because it's the largest holder of commercial and industrial property in the country.

Despite the common perception that the promised land of government contracting is the exclusive and private domain of a relatively small cadre of large corporate insiders or “beltway bandits,” the truth is that small-to-medium sized enterprises are currently active suppliers to a full range of government agencies. In 2001, small businesses accounted for about 20% or \$43 billion in direct contracting dollars. Interestingly, the government departments most accepting of small business participation were not the heavyweight spenders such as the Departments of Army, Navy and Air Force, but the less visible entities such as Public Buildings Services, U.S. Coast Guard, Agricultural Marketing Services, Forest Service, DEA, and National Park Services. Which raises the question, is there room in your revenue stream for a piece of the government spending action?

Not As Impenetrable As It Seems

Although there are more than 30 million small businesses filing tax returns in the U.S., most are discouraged from the bidding process because of lack of knowledge of the opportunity itself, or because of the perception that the bidding process is both complex and resource-intensive resulting in a situation where only the experienced and well-connected can succeed. It is undeniably true that the bidding process is infected with politics, excessive paperwork, long decision cycles and abstruse contracting rules. In many cases, it's impossible to determine where the final decision is made and who makes it. And many so-called open bid competitions are already a fait accompli even before the RFP hits the street.

Yet according to Matt Nussbaum, Principal of Thomas Associates International, a consulting firm that provides assistance to businesses seeking partnerships and opportunities in both the government and private sectors, “government contracting need not be as daunting a process as many believe. Federal and many state programs have explicitly mandated pro-

curement procedures that are intended to favor small business.”

How It Works

In general, a company can identify itself as a small business (either directly or as a subcontractor) through a simple process of self-certification. As Nussbaum notes, many Federal contracts may have small business participation requirements, but the only demonstration of a small business credential takes the form of checking a box and appending a signature on the big proposal documents. Only in the case of a subsequent challenge would a small business have the need to further document its small business status.

In its efforts to promote small business participation in government contracting, the Federal Government has also established additional programs that provide mandated benefits to small businesses but require more paperwork and the meeting of stricter certification requirements in order to partake in the programs. The Small Disadvantaged Business (SDB) and the (8A) are two such programs. Both favor small disadvantaged businesses that meet specific criteria with respect to size and disadvantaged status.

Nussbaum also points out that large contractors should not be ignored as a source of government largesse. These contractors actively seek small business subcontractors in order to satisfy their own small business participation requirements, also known as “set asides.” Notes Nussbaum, “Subcontracting to the larger prime contractors can be an excellent way for a small business to enter the government arena because the main burden of the bid preparation and submittal process is typically born by the prime contractor. A good prime may also mentor the small business contractor through the preparation of its own bid materials.”

Admittedly, seeking a piece of the government pie is not for everyone. But, the truth is that there are enormous dollars at stake, especially if State and Municipal contracts are factored into the equation. In these tough times, when traditional revenues streams have dried up, now may be the time to learn the ropes, fill out the paperwork and endure the pain in applying for some of that government money. It's going to be spent and if you don't get it, somebody else will.

Empowered UCLA Extension Reinvents Education and Career Counseling for Today's Job Market

New Career Development and Certificate Program to Close the Skills Gap; 89 percent of HR hiring managers surveyed say certificates can help in changing careers

Empowered UCLA Extension – a collaboration between UCLA Extension and Empowered Careers – announced today the launch of a new career development program available nationwide starting this fall, specifically designed

for baby boomers seeking to make a career change, get ahead professionally or get back into the workforce.

Empowered UCLA Extension also announced the results of a recent survey of HR managers and recruiters across the country indicating that certificate programs are widely viewed as a viable way to close the skills gap and teach adults relevant job market skills.

UCLA Extension partnered with Empowered Careers – which was founded by the Sherry Lansing Foundation, Creative Artists Agency (CAA) and Silicon Valley entrepreneur Steve Poizner – to address the growing skills gap in America and significantly enhance online education for busy adults. Empowered UCLA Extension provides job-centric,

SAN FRANCISCO BAY AREA

PROFILE:

NAOMI KELLY - City Administrator, City and County of San Francisco

Background

On February 7, 2012, Naomi M. Kelly was sworn in by Mayor Edwin M. Lee to serve as the City Administrator for a five year term for the City and County of San Francisco. As City Administrator, Ms. Kelly oversees the City's General Services Agency consisting of 20 departments, divisions, and programs including the Department of Public Works, Department of Technology, Administrative Services, Office of Contract Administration/

Purchasing, Real Estate, County Clerk, 311, Fleet Management, Convention Facilities, Animal Care and Control, Medical Examiner, Treasure Island, and more. The General Services Agency has an annual budget of over \$450 million and approximately 2,100 employees. In this capacity, Ms. Kelly's objective is to ensure responsible fiscal management and accountability to those who pay taxes for our local government to provide essential services.

SGJV is an equal opportunity employer

MARTIN LUTHER KING, JR. MEDICAL CENTER
MULTI-SERVICE AMBULATORY CARE CENTER (“MACC”)
LOS ANGELES, CA
INVITATION TO PREQUALIFY AND BID PACKAGE #8

McCARTHY BUILDING COMPANIES, INC. is accepting competitive sealed bids for the following work categories: 54. Imaging 55. Dental-Sinus Imaging 56. Central Sterile 57. Dental Equipment & Cabinetry 58. Ophthalmology Equipment & Cabinetry

Project Scope: The proposed project includes construction of a new, fully built out 4-level, 138,000 square foot Multi-Service Ambulatory Care Center building. The new MACC Building will be physically connected on the ground floor to the existing North Support Building (NSB) to provide connectivity between the patient accessible support services in the NSB and clinical functions in the new MACC. The existing NSB is 51,700 square feet. Approximately 34,000 square feet of tenant improvements will be performed in the NSB to provide space for various MACC departments. There are also minor tenant improvements in the South Support Building (SSB). McCarthy received Notice to Proceed (NTP) from the County of Los Angeles on January 9, 2012. Early construction activities are in progress and the Project will have an approximate remaining duration of fourteen (14) months from bid date.

Bid Proposals will be received until 2:00 P.M. on Thursday, August 9, 2012 at:
McCarthy Building Companies, Inc., Attn: Mr. Jon Quigley
12021 S. Wilmington Ave., North Support Building 2nd Floor, Los Angeles, CA 90059
Emailed and faxed copies are acceptable.

At bid time all bidders, for any bid over \$100K, will be required to provide a 15% Bid Security (on the McCarthy Bid Bond Form provided in the Front Ends). Along with the Bid Bond, the following documents will be required at Bid Time: Bid Proposal completed on McCarthy’s Bid Form, completed McCarthy Pre-Qualification Questionnaire, Bid Bond on McCarthy provided form. A 100% Performance and Payment Bond from an admitted surety will be required upon award of contract.

Bid documents are available from Davis Blueprint:
Main Office: 3205 N. Main Street, Los Angeles, CA 90031 | **T:** 323.225.7483 | **F:** 323.225.2622
Bid Documents may also be viewed online at <http://www.biddox.com/pnonline/>
Project Password: MLKMCCBP8 (case sensitive)

All bidders must have been prequalified by McCarthy for this project. Having prequalified for other McCarthy projects does not count. The Subcontractor’s Pre-qualification Statement is specific for this project and is required at bid time. In addition to the Subcontractor’s Pre-qualification Statement, all Subcontractors must have Tier 1 prequalification approval prior to entering into a subcontract with McCarthy, please go to <https://prequalification.mccarthy.com/> to start the Tier 1 prequalification process upon receipt of this notice.

Do not contact the County, Architect or any Consultants. All questions will be sent to Jon Quigley via email at: jquigley@mccarthy.com.

* -This is a best value selection. (i.e. award will be based upon price, qualifications, experience, schedule, claims history, safety, qualified Small Business Enterprise participation, and adherence to the architectural room layout/floor plan, medical equipment structural support, electrical, plumbing, and mechanical basis of design criteria). Should the bidder’s submitted equipment require additional revisions or modifications than what is currently shown in these documents the cost to perform such modifications will be included in the analysis of the bidder’s proposal.

* - This is a Prevailing Wage Project. There is also a Community Workforce Agreement (CWA) in place.

* - A 100% Performance and Payment Bond from an admitted surety will be required upon award of contract for all trades.

* - McCarthy is signatory to union agreements with the Carpenters, Laborers, and Cement Masons. Subcontractors will comply with such labor agreements for all of Subcontractor’s Work falling within the jurisdiction of such labor agreements. Subcontractor agrees to require its subcontractors and their subcontractors, if any, to be bound in a like manner.

* - McCarthy is an equal opportunity employer and encourages qualified Community Business Enterprises (CBE) which includes business enterprises owned by disabled veterans, disadvantaged business enterprises, and minority and women-owned business enterprises. McCarthy also endeavors to hire Local Small Business Enterprises (Local SBE) businesses and Local Worker Hiring.

For assistance in obtaining bonds, lines of credit, or insurance, please visit the Los Angeles County Office of Small Business – Procurement Technical Assistance Center at laosb.org

CALIFORNIA PUBLIC LEGAL NOTICES

UNIVERSITY OF CALIFORNIA DAVIS HEALTH SYSTEM

ADVERTISEMENT FOR BIDS

Subject to conditions prescribed by the University of California, Davis Health System, sealed bids for Prime Trade Contract are invited for the following work:

PROJECT NO. 9559110-REBID RADIOCHEMISTRY RESEARCH AND TRAINING FACILITY

The Radiochemistry Research and Training Facility Project will be constructed by multiple prime trade contractors, each working under a separate contract or contracts with the University. This procurement is for a prime contractor to perform the work identified in the Bid Package listed below. The contractor who is awarded the contract will be referred to as a "Prime Trade Contractor." License requirements are stated in the Bid Package in accordance with California State Law.

Bid Package:

BP-01: General Construction (BR-1)

Estimated Construction Cost: \$500,000

License Class: B – General Building Contractor
Bidder Qualifications: To be eligible for consideration of award, bidders must have the minimum experience set forth in the Qualifications Questionnaire included in the bid documents. Bidders must submit the qualification documents as an attachment to the Bid Form.

A Mandatory Pre-Bid Conference and Job Walk will be conducted on Tuesday, July 31, 2012, at 11:00 AM.

Bids will be received only at: Facilities Design and Construction.

Bid Deadline: Sealed bids for bid package must be received on or before 11:00 AM, Friday, August 10, 2012.

As described in more detail in the bidding documents, significant features of this multiple prime contract method of constructing the project are as follows:

The University will award separate prime trade contracts to the various trades necessary to construct the entire project. The Prime Trade Contractor will be required to work at a project site

shared by other Prime Trade Contractors and contractors ("Separate Contractor") hired by the University, to cooperate with such other contractors, and to coordinate its work with the work of the other contractors.

The Prime Trade Contractor will be required to perform its work in accordance with a Master Project Schedule to be developed, updated, and maintained by the University Representative after award of the Prime Trade Contract. The Prime Trade Contractor will be required to provide specified scheduling information necessary for the development, updating, and maintenance of the Master Project Schedule by the University Representative.

The Prime Trade Contractor will be required to commence its work on or after 08/31/2012.

The Prime Trade Contract must be fully completed on or before 07/05/2013.

The Radiochemistry Research and Training Facility Project is the addition of a Radiochemistry Laboratory to an existing occupied laboratory building located at 2921 Stockton Boulevard on the University of Davis Medical Center Campus. The project is also known as Phase 3B.

Phase 3B is an approximately 6000 SF laboratory suite that consists of an open laboratory area with laboratory support spaces which include: cell culture, equipment/microscope, and fume hood rooms. Also, included are several "Hot" Rooms: Training Hot Cell Room, Hot Cell Room, QC Laboratory and Radioisotope Fume Hood Room. The Office support spaces will include: an open office, post doctorate area with coffee bar and two private offices. The work includes removal and replacement of the existing roofing, and some minor demolition and repair of an exterior wood frame and stucco facade.

Bidding Documents will be available to Bidders beginning on **Friday, July 20, 2012** and will be issued only at:

**Facilities Design & Construction
4800 2nd Avenue, Suite 3010,
Sacramento, CA 95817
Tel: 916-734-7024; Fax: 916-734-7751
www.ucdmc.ucdavis.edu/facilities/**

Checks for a non-refundable fee will be required in the amount of **\$50.00** per set of Bidding Documents. Checks are to be made payable to **"The Regents of the University of California."** The bidding documents are not to be returned.

Bids will not be accepted after the date and time stipulated above for Bid Package.

Bid Security in the amount of 10% of the Lump Sum Base Bid, excluding alternates, shall accompany each Bid. The Surety issuing the Bid Bond shall be on the Bid Deadline, **an admitted surety insurer (as defined in the California Code of Civil Procedure Section 995.120).**

All **Pre-Bid Conference and Job Walk** participants shall meet at Facilities Design and Construction, 4800 2nd Ave., Suite 3010, Sacramento, and must be present no later than the scheduled start time for the pre-bid conference and job walk in order to bid as a Prime Bidder. Bidders must attend both the Conference and the Job Walk in their entirety. For further information, contact University's Representative, Eduardo Avellaneda at 916-734-4712; efavellaneda@ucdavis.edu.

PARKING INSTRUCTIONS: Pre-Bid Conference and Job Walk attendees should plan to arrive at least 45 minutes prior to scheduled meeting time to arrange for parking. Limited 2-hour free parking is available (on a first-come, first-serve basis) in the front of the Facility Support Services Building (FSSB) located at 4800 2nd Avenue, Sacramento. Additional free parking is available at the Contractors Parking Lot on 2nd Avenue.

The successful Bidder and its Subcontractors will be required to follow the nondiscrimination requirements set forth in the Bidding Documents and to pay prevailing wage rates at the location of the Work.

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each Bidder may be required to show evidence of its equal employment opportunity policy.

Empowered UCLA Extension

■ Continued from page 6

twelve-month certificate programs designed for real-world employment needs, integrated with personalized career counseling.

The offering is an end-to-end solution, all provided online, that combines UCLA Extension professional education from a live instructor, who is an expert in his or her field, with hands-on, personalized career counseling. The program is delivered through a groundbreaking Empowered iPad app, which places a community of instructors, peers and career counselors, all just one tap away. To ensure maximum quality and interaction, individual class sizes are limited to approximately one instructor for every 25 students.

“Addressing the jobs crisis by closing the skills gap is the leading issue in our country today, and we have developed technology to help tackle this problem on a large scale,” said Empowered co-founder and CEO Steve Poizner. “We are pleased that UCLA Extension chose to partner with us to help people start over without starting from scratch – a new and better way towards career empowerment and success.”

Online classes will begin on September 24, 2012, in 10 certificate programs designed for areas of job growth, including Global Sustainability, Health Care Management, Nonprofit Management, IT Management, Patient Advocacy, College Counseling, Project Management, Financial Planning, Human Resources and Marketing & New Media. Classes are designed to be flexible to enable working adults to complete the program within 12 months. Additional certificate programs will be added next year.

Statistical data shows that hiring managers are becoming increasingly comfortable with applicants seeking to change or enhance their careers through completion of certificate programs.

In fact, in a recent study done by Impulse Research Corp, 82 percent of Human Resources managers and recruiters said that obtaining a certificate is one of the best ways for professionals to keep current or upgrade their job market skills and 89 percent said that obtaining a certificate is a helpful step in changing careers. Additionally, 75 percent of HR managers stated that if a job candidate cannot find work in a related field, they would consider a certificate program a good alternative for gaining related work experience.*

“In an extremely challenging job market where the old rules no longer apply, Empowered UCLA Extension is a quick way for people to gain relevant knowledge and practical tools needed to be successful in today’s workforce,” said Cathy Sandeen, Dean of UCLA Extension.

The competitive job market has placed increased demands on job seekers to update their skills. Many members of the baby boom generation — generally those born between 1946 and 1964 — are unable to retire due to financial constraints, thus increasing the need for education. Other boomers wish to move in a different direction, to establish an “encore” career in order to pursue a passion or to make a contribution in the education, health care or nonprofit sectors.

Importantly, Empowered UCLA Extension offers one-on-one, personalized career guidance and counseling integrated within the curriculum. Once enrolled, students are able to meet with their career counselors as often as they like, via face-

to-face video chats, phone calls, email and group webinars. Students participate in a personalized 15-module Career Empowerment Program, including resume building, interview preparation, network building and other necessary career building skills. Dedicated career counselor support extends 24 months from the moment courses begin, to support the career success of students and alumni.

Further setting Empowered UCLA Extension apart from existing online education offerings is the platform through which all coursework and career counseling is delivered – the iPad.

“Using our app, the iPad will transform any adult’s living room into a modern day classroom or transform a park bench into a study group while the kids are at soccer practice,” said Poizner. “Empowered UCLA Extension students will be one tap away from an incredible community of instructors, career counselors and fellow students. We call this social learning. In the process, mid-career adults are engaging and learning to use and enjoy sophisticated technology, like the iPad.”

Empowered UCLA Extension plans to reserve about 20 percent of all seats for full or partial scholarships. Celebrities from film and television have agreed to help promote the scholarship programs for those who need financial support.

“Empowered will arm this generation of Americans with the experience, knowledge and most up-to-date skills sought by employers in the marketplace today,” said Michael Yanover, Head of Business Development at CAA and Empowered Board Member. “With the right tools, a plan and inspiration, these re-educated individuals will have the necessary skills to help accomplish their career goals.”

Empowered UCLA Extension is available nationwide, and enrollment has started for fall 2012. Information on coursework, career guidance and scholarship programs can be found at www.empowered.com or call 1-800-EMPOWER.

ABOUT UCLA EXTENSION

UCLA Extension is the continuing and professional education division of the University of California at Los Angeles. UCLA Extension offers a broad spectrum of courses and certificates for professionals in business, management, engineering, information systems, entertainment studies, public policy, public health, the humanities and many other fields. UCLA Extension is a completely self-supporting enterprise, receiving no state or campus funds. Excelling in its quality, innovation and impact, UCLA Extension is considered one of the top programs of its type in the nation. UCLA Extension was one of the early adopters of online learning for continuing education, and nearly one-fourth of the 90,000 annually enrolled students are receiving their education online through Extension programs and conferences. Find out more at www.uclaextension.com.

ABOUT EMPOWERED UCLA EXTENSION

Empowered UCLA Extension (www.empowered.com) is a unique, new, online educational experience that delivers the world-class professional training of UCLA Extension through Empowered’s groundbreaking iPad app, combined with comprehensive career guidance for adults who need a career boost or change. Three of California’s greatest assets are the academic excellence at UCLA, the technology and innovation of Silicon Valley and the power of the entertain-

ment industry to influence social movements. We bring all three of these forces together to create a new opportunity for the millions of baby boomers and other adults who have been displaced in the workforce, are looking to enhance their current career, or are looking to make their next career move. 1-800-EMPOWER

ABOUT IMPULSE RESEARCH

Since 1982, Impulse Research has been an award-winning full-service communications and marketing research firm with significant experience and expertise in all public opinion research methodologies, receiving the Public Relations Society of America’s Silver Anvil and the American Marketing Association’s Effie Award for research supporting and evaluating public relations and marketing campaigns. (www.impulseresearch.com)

*This survey was conducted via telephone with a random sample of 303 Human Resource professionals and headhunters who work for small and medium/large companies throughout the country. Research was conducted in June and July 2012. All survey work was funded by Empowered Careers.

Vendor Information

The City’s Purchasing Process:

What the City Purchases

The City and County of San Francisco (the City) has an annual operating budget of over 6 billion dollars. In addition to the services that any municipality would provide, the City also operates an international airport and seaport, a public transportation system comprised of buses, trolleys, streetcars, trains and cable cars, a regional water system and a major hospital.

The City’s Office of Contract Administration (OCA) manages in excess of 1,500 active contracts valued at approximately \$10 billion. Each year, we negotiate and award contracts that exceed \$1 billion. We are always looking for qualified new vendors to compete for City business and encourage all vendors to visit our Bids and Contracts database to learn more about what the City is buying at this moment.

How the City Meets its Purchasing Needs

The City purchases a vast array of goods and services to support City operations. The City uses competitive bidding procedures to select vendors and requires that all City vendors comply with City ordinances and other requirements prior to entering into a contract with the City. Therefore, if you are interested in conducting business with the City or you have already submitted a bid in response to a City solicitation please start by reading the How to Qualify to Do Business with the City section. You can view the City’ standard terms and conditions that will be included in your contract here.

In addition to buying onetime services, equipment and supplies (view the Bids and Contracts database), the City meets its reoccurring business needs with over 200 term contracts, which are big-dollar, multi-year contracts that cover a wide variety of goods and services, for which the City has a large and reoccurring need (office supplies, fuel, information technology, janitorial services, and security services are illustrative examples). OCA’s bids for Term Contracts appear

in this category in the database: Equipment, Supplies, and General Services (OCA).

Purchasing Responsibilities

The procurement responsibilities are divided as follows:

- The Office of Contract Administration buys most products and services over \$10,000.
- For professional services, OCA signs the contract after the department using the service has conducted a Request-for-Proposal process to select the vendor and has negotiated the contract.
- Construction and construction-related contracts for architects and engineers are awarded and managed the City’s construction departments.
- All City departments have the authority to purchase products and services valued at \$10,000 and less.
- The Metropolitan Transportation Agency (MTA) has special Charter authority to make all of its own purchases, but the agency submits most of its non-construction purchases to OCA.
- Contracts are administered by the customer department that uses the product or service. The only exception is Term Contracts (office supplies, etc.), which are managed by OCA.
- In all our procurement activities with actual and potential vendors, every effort is made to enhance the City’s reputation of a progressive agency instituting the core values of business integrity and fairness and equity to all vendors in its procurement process.
- For more information regarding the City’s Administrative Code for the Procurement of Goods and Services, please review Administrative Code Chapter 21 Rules and Regulations.

SUB-BID REQUEST AD

C. Overaa & Co
General Building Contractor

200 Parr Blvd., Richmond, CA 94801
510 234-0926, Fax: 510 237-2435 - www.overaa.com

We request bids from all qualified subcontractors and suppliers including MBE/WBE/LBE/SLBE for the following Project:

Peralta Oaks Seismic & Tenant Improvement
Oakland, CA

Bid Date: August 14, 2012 before 2:00 PM
Contact: Bryan Dissman

Project Description: Seismic and tenant improvements of an existing 3 story building and an existing foot bridge. Existing building constructed in 1969 is a concrete framed structure with post-tensioned concrete slab floors. Building will be fully sprinkled as part of this renovation. In addition to code modifications of existing stairs and site improvements, another new exit stair is included in scope.

Trades include, but are not limited to; excavation, asphalt paving, site furnishings, earthwork, fences & gates, concrete, rebar, masonry, structural steel, misc. metals, rough and finish carpentry, woodwork, waterproofing, insulation, flashing & sheet metal, metal roofing, fire stopping, joint sealants, doors, frames & hardware, entrances and storefronts, glass & glazing, louvers, plaster, acoustical ceilings, flooring, tile, painting and coatings, signage, toilet & bath accessories, metal lockers, bullet resistant construction, window coverings, FEC, residential appliances, firing range equipment, laboratory equipment, autopsy and morgue equipment, lab casework, fire suppression, elevator renovation, plumbing, HVAC, mechanical and electrical work.

Enhanced Construction Outreach Program Goals:
MBE 15%, WBE 5%, LBE 60%, S/LBE 20%

The budgetary estimate for the scope of work is \$16,363,600

The time to complete this project is 487 calendar days.

A mandatory pre-bid conference followed by site visit will be held on July 26, 2012, at 2:00pm at 2901 Peralta Oaks Court, Oakland, CA.

Please let us know you are interested in bidding this project. Plans and specifications will be available for viewing for viewing at the office of Shah Kawasaki Architects, 1111 Broadway #1650, Oakland, CA 94607 (510) 663-6090 and at local Builders Exchanges including Alameda, Contra Costa, and also at Small Business Exchange and McGraw Hill Dodge. In our plan room at 200 Parr Blvd., Richmond, CA; online at www.isqft.com, login is required. Please call for additional information about project and/or project documents.

We encourage bids from all Subcontractors/Suppliers including **MBE/WBE/LBE/SLBE/DVBE** bidders. We are an equal opportunity employer. We offer to assist you with bonding, credit, and insurance. Subcontractors will be required to sign the Overaa Standard Subcontract Agreement, which includes the right for Overaa to require subcontractors to furnish a faithful performance and labor bond, in a form and from a surety acceptable to Overaa, in the amount of 100% of the Subcontract price. Subcontractors will be required to comply with all subcontract insurance requirements, which includes providing a waiver of subrogation endorsement to their workers compensation insurance. The Overaa Standard Subcontract Agreement is available for viewing at our website: www.overaa.com. Overaa utilizes the environmentally-friendly Textura electronic invoicing and payment system to streamline and expedite subcontractor invoicing and payment. Please contact our office if you would like more information. We are signatory to both the Carpenters and the Laborers Union Collective Bargaining Agreements.

Operation Boots to Business

Continued from page 1

“Our service men and women have made incalculable contributions and sacrifices for our country, and supporting them as they pursue their dreams to start or grow their own business is one of our highest priorities,” SBA Administrator Karen Mills said. “Through this partnership, we stand ready with support, entrepreneurial training, and resources that are critical tools to help them start businesses, drive economic growth and create jobs for themselves and their communities.”

Entrepreneurship and small business ownership are valuable opportunities for transitioning service members and veterans. Each year, more than 250,000 service members transition out of the military. Transitioning veterans are natural entrepreneurs who possess the skills, experience and leadership to start businesses and create jobs.

Veterans make up a large number of successful small business owners. Nine percent of small businesses are veteran-owned. These 2.45 million veteran-owned businesses employ more than 5 million individuals. In the private sector workforce, veterans are more likely than those with no active-duty military experience to be self-employed.

Operation Boots to Business: From Service to Startup will help support veterans as they grow businesses and create jobs by building on SBA's role as a leader in entrepreneurship training.

SBA will help connect veterans with its resource partner network – Small Business Development Centers (SBDCs), Women's Business Centers (WBCs), SCORE, and Veterans Business Opportunity Centers (VBOCs) – for support throughout the life-cycle of their new businesses.

Through its ongoing collaboration with Syracuse University's Institute for Veterans

and Military Families (IVMF), SBA also will provide comprehensive training materials specifically geared toward transitioning service members.

SBA partners will coordinate training and services at military bases around the country, delivering a face-to-face introductory entrepreneurship course. In addition, an intensive eight-week online business planning training will be provided by Syracuse University and its affiliated university partners for those service members who choose to continue to pursue entrepreneurship after the face-to-face introductory course. Following, service members and veterans will be referred to SBDCs, WBCs, SCORE chapters and VBOCs for counseling and training throughout the lifetime of their business.

The program will pilot in four locations: Quantico, Va., Cherry Point, N.C., Camp Pendleton, Calif., and Twenty-Nine Palms, Calif. It will be expanded across the nation during fiscal year 2013 with the goal of providing entrepreneurial training and awareness to transitioning service members from all branches of the military.

For more information on Boots to Business training program, and on how to take part as a transitioning service member, please visit <http://www.sba.gov/bootstobusiness>.

SBA currently engages veterans through its 68 local SBA district offices, 16 Veterans Business Outreach Centers nationwide, and its partnership with 1,000 Small Business Development Centers and some 12,000 SCORE – Counselors to America's Small Businesses volunteers. Each year SBA helps more than 200,000 veterans, service-disabled veterans and reservists. To learn more about additional opportunities for veterans available through the SBA, please visit the website at www.sba.gov/vets.
