ACCA Commitment to Equity

The American Contract Compliance Association was established in 1986 as a nonprofit national organization dedicated to ensuring equitable employment and contracting practices within the public and private sectors. It started as the brainchild of members of the Minnesota based Inter-Governmental Compliance Institute (IGCI).

The thought was to foster a national organization which would provide training, standardization of practice, networking, and support to the many affirmative action, contract compliance, equal employment, and human rights workers across the country. In 1989, under the leadership of President Robert Harrison, Vice President Kerry Kirkland, and in association with Boston University School of Social Work, ACCA held the first accredited training institute in Louisville, Kentucky. The week long conference gave 4.2 continuing education credits to registrants that passed each class and test by a score of 85% or more. Later, the "Compliance Administrator" was divided into two training sessions of 21 hours each.

The American Contract Compliance Association continued to grow and serve. Relationships were developed with Senator Parren J. Mitchell, Arthur A. Fletcher, the Minority Business Enterprise Legal Defense and Education Fund (MBELDEF), and the leading attorneys in the field. The organization adopted a fitting slogan for the times it faced. It simply said, "Integrity, Courage, and Commitment". The subsequent federal and local activities and legal mandates proved the need for these new change agents. In living up to the challenge, a conference and public service forum was held in Richmond, Virginia following the case of J. A. Croson vs. City of Richmond (VA). The televised dialogue provided valuable information and insights into the court ruling and requirements. Strategic conferences were also held in Alabama, Texas, Florida, California, Minnesota, Pennsylvania, and Ohio, to name a few key locations. Over the years, the American Contract Compliance Association has served the needs of our country and constituents through strong leaders who were willing to lead.

The Geography of Innovation

By Richard Florida,

Which type of place is more innovative—dense, diverse cities or sprawling, homogeneous suburbs? For most self-described urbanists, the answer would seem obvious. The density and diversity of cities enable all sorts of unique collaborations and chance encounters that foster innovation.

But this popular association between cities and innovation has long been confounded by the prevalence of suburban innovation hubs—the low-slung, car-dependent office parks that Joel Kotkin famously dubbed "nerdistans." This term describes nearly all of the most high-profile tech hubs, including California's Silicon Valley; the Route 128 beltway outside Boston; Seattle suburbs like Redmond where Microsoft is headquartered; and similar collections of office parks

outside Austin, in the North Carolina Research Triangle, and elsewhere.

A recent study by economists Enrico Berkes of Northwestern University and my University of Toronto Rotman School colleague Ruben Gaetani cracks the proverbial code on the geography of innovation. They find that while there is actually a greater amount of innovation (as measured by patents) in suburbs, cities produce far more "unconventional innovations," which require a greater diversity of contributors and have a more disruptive economic impact.

The study examines the locations of patents across thousands of county subdivisions as defined by the U.S. Census. It covers more than a million patents filed between January 2000 and

How to Create Good Jobs

By Mark Funkhouser

In his 2011 book *The Coming Jobs War*, Gallup Chairman Jim Clifton writes that after years of research, his firm had concluded that "what the whole world wants is a good job." That may not seem like much of a revelation, but Clifton's emphasis is on the word "good" -- not the "gig economy," but stable, regular, well-paid employment. The fact that the demand for good jobs far exceeds the supply is a real threat to political stability, Clifton writes, because "whether or not you have a good job defines your relationship with your city, your country and the whole world around you."

Indeed, there aren't enough good jobs -- even though we see plenty of work that needs to be done: infrastructure to be repaired or replaced, affordable housing to be built, and children, the sick and the elderly to be cared for. We frequently hear that jobs are disappearing due to globalization and automation. But their impact on jobs is probably minimal. Trade and technology could create as many good jobs as they destroy if we had the right policies in place, particularly those that impact women, immigrants and small businesses.

A report by McKinsey Global International last year estimated that by realizing the full potential of women in the workforce, every state and local government could add at least 5 percent to its economic output and half of the states could in-

crease their GDPs by 10 percent. Policies that result in the increased availability of paid maternity leave, affordable child care and flexible work schedules would lead to significant increases in women's workforce participation.

We also need to make it easier for people to immigrate to the United States and provide a swift, rational path for them to become citizens. Clifton notes that a great deal of the internet technology boom can be traced back to just a thousand people, of whom more than half were immigrants. "America can't win the coming jobs war," Clifton writes, "without attracting the best talent and helping the talented become American citizens fast."

And we need to make it easier for small businesses to compete by returning to the regulatory policies that, until the early 1980s, limited corporations' market concentration through mergers and acquisitions. Mergers drive declining rates of entrepreneurship. From 1977 to 2013, the number of startups as a share of all firms fell from 16.5 percent to 8 percent, and their share of jobs declined from 5.7 percent to 2 percent.

"Sustainable job creation," Clifton writes, "can't be bought." Yet, despite an ever-growing pile of evidence that chasing jobs with tax incentives and relaxed regulations doesn't work, that's still the default strategy for many state and local government leaders. It might create a few jobs, but

Prop 39 - Where is the money going?

For several years now, California schools have benefited from the availability of Prop 39 funds for school energy projects. Who's spending what, and how do they plan to spend it?

The California Energy Commission provides on-going updates regarding approved plans, as well as the kinds of projects that have been proposed.

Remember, the fact that a plan has been approved does not automatically mean that the companies that will do the work have been selected. The snapshot can also give you insight into what kinds of projects are most likely to be next-round priorities for schools.

[See the charts on the right side for a program snapshot that includes information about the types of projects approved]

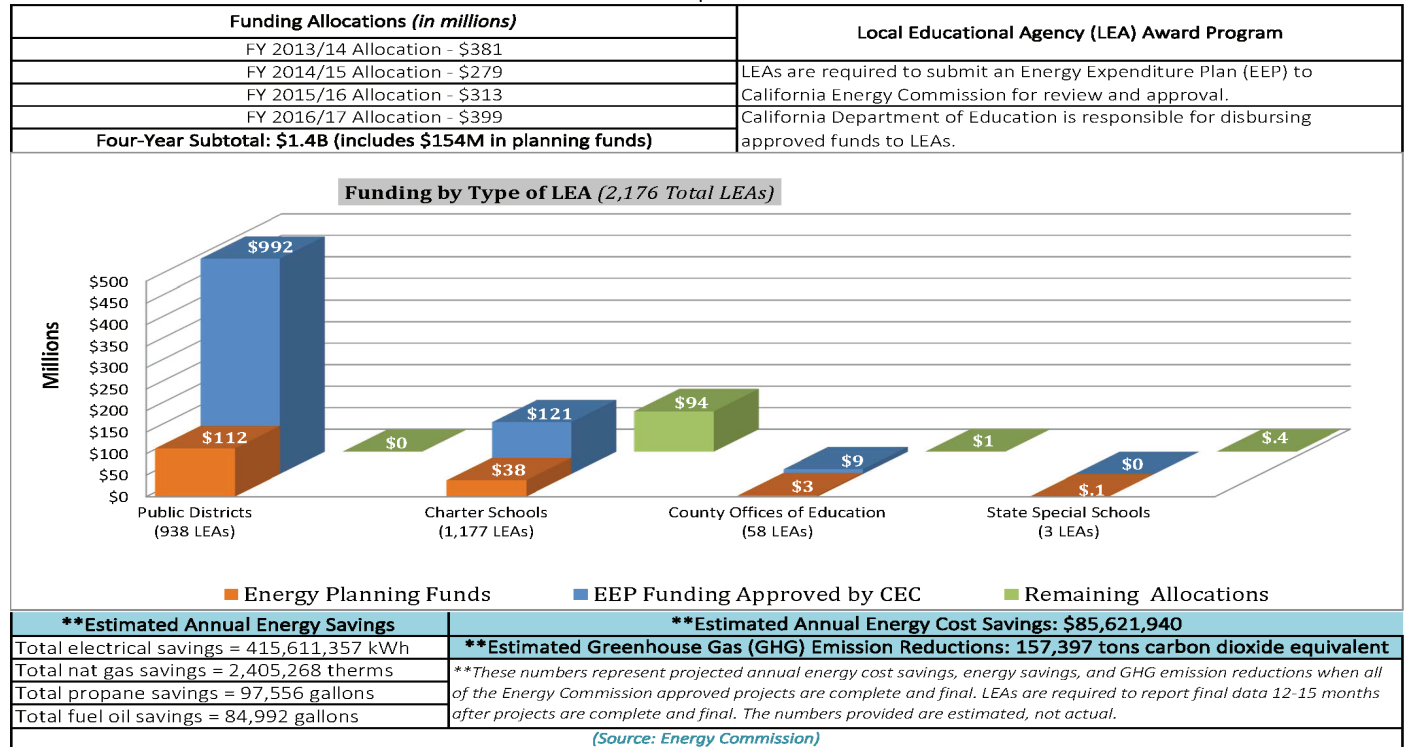

We'll be talking about Prop 39 at the 2017 Green California Schools and Community Colleges Summit, from education sessions to a presentation in the November 28 opening session that will provide insight into recent legislation extending the Prop 39 program and what comes next.

Of course, Prop 39 isn't the only thing bringing energy into California schools. New state funds for construction and renovation are now available, and municipalities are matching these with their own investments. As we've been saying, the sector has come to be very, very busy.

Access to Capital

Money Makes Small Businesses Go Round: Ensuring Access For All

By Geri Stengel,

When diverse perspectives are applied to financing, doors open for entrepreneurs. Last week, I wrote *The Next Business Revolution: Diversity and how it fuels innovation and enhances employee engagement*. This week, I look at how the diverse makeup of one company has created finance options for innovations that might otherwise never get to market ... and why more companies are going to follow their lead.

Entrepreneurial women have been limited in their ability to bring their innovations to market because they are only able to raise about 50% of the capital that men raise. Biases among bankers and venture capital firms limit entrepreneurial success to a few, well-connected people most notably white men.

In 2008, a new form of financing — rewards-based crowdfunding — premiered. With money raised on crowdfunding platforms like Indiegogo and Kickstarter, startups and companies with a new product idea connect directly with potential users for funding. Rather than relying on so-called experts to determine if the new product

has merit, potential customers do. As it turns out, the crowd knows what's it's doing. It's just as likely to fund a product that will be a success as institutional funders.

New products don't pop up out of nowhere. They are the result of unexpected connections based on life experiences. Different life experiences result in different connections or, from a business perspective, in a wider range of products and services. Danae Ringelmann, one of Indiegogo's founders, wanted to help small business owners like her mother and father who faced endless struggles raising money for their company.

Women are the decision-makers for the majority of consumer products. People of color will soon be the majority demographic in this country, noted Julia Nguyen, software engineer at Indiegogo. Many of the most successful products result when someone recognizes a pain point in their own life and sets about creating a solution. "User entrepreneurs" — people who developed a product or service to solve their own pain point, whether personal or business — are more likely to be successful than other entrepreneurs

according Kaufmann research.

Financing has to support these innovators. With crowdfunding, the diverse marketplace can di-

rectly support the entrepreneurs who solve real problems — their problems. As it happens,

Kiewit is seeking sub-quotes from certified Minority Business Enterprises (MBE), Women Business Enterprises (WBE), Small Business Enterprise (SBE), Disadvantaged Veteran Business Enterprises (DVBE) firms; and all other business enterprises to perform as Subcontractors and Material Vendors/Suppliers.

**Project Owner: University of Southern California
Project Name: USC Los Angeles Memorial Coliseum (LAMC)
Renovation - NTB No. - 01
Project Location: 3911 South Figueroa Street,
Los Angeles, CA 90037
Project Bid Date / Time: August 28, 2017 at 2:00pm**

Project Description:

The USC LAMC Renovation project consist of Premium hospitality spaces on south side of coliseum:

- Demolition and excavation of existing coliseum seating and facilities in the footprint of the proposed addition.
- Structural modifications necessary to maintain integrity and life safety of the Coliseum's existing structure to extent required in modified bowl and new construction.
- Modifications to tunnel entries associated with new construction.
- Provide Temporary Press Box for 2018 Season
- Protect Coliseum Historical Registration Components
- Maintain Game Day Access during 2018 USC & LA Rams Football Games
- Premium amenities on the south sideline includes:
 - New public amenity services for lower seating bowl
 - Founder's suites with private adjacent lounge space
 - Standard suites with access to lounge space
 - Outdoor club seating, loge boxes and club lounge
 - Roof deck level with outdoor seating and spectator amenities.
- Vertical transportation to service new addition
- Sports lighting integrated to new structure

Improvements to seating bowl:

- Replace chairs in seating bowl
- Seating improvements where existing on-grade treads and risers are replaced at north & south sidelines:
 - Increase seat width
 - Increase row depth (leg room)
 - Add aisles to reduce number of seats crossed in a row
 - Aisle stair handrails
- ADA seating improvements in the footprint of the new structure and within the portion of the replaced seating bowl on grade.

Kiewit is requesting quotes in the areas described, but not limited to:

Shoring and underpinning, grading, piles & caissons, storm water pollution prevention plan, ready mix supply, concrete reinforcing installation, concrete pumping, structural concrete, shotcrete, concrete drilling and saw cutting, metals, damp proofing and waterproofing and paints and coating.

Responsible subcontractors and material contractors will be required to provide bonding for 100% of their contract value. Bond premium will be reimbursed by Kiewit. Subcontractors performing any on-site work must be signatory to the appropriate union labor agreements that govern its work. Subcontractors, Consultants, Professional Service Firms, and Material Vendors/Suppliers must be able to accept all terms and conditions of the project under its resultant agreement. Plans and specifications are available for review at the address listed above or provided to you through Kiewit's electronic use of SmartBidNet by contacting Kiewit.

For further information, assistance or questions regarding the project, to discuss your specialty or scope of work, project schedule, requirements of the contract, licensing, insurance or bonding, equipment, supplies, materials, related assistance or services, please contact the Lead Estimator listed above.

Compliance Professionals Recruitment Program

CMP DBE/EEO Compliance Professionals Recruitment Program (CPR Program)

Community Leadership Roundtable (CLR) Official Name of Program

CMP's CPR Program was designed to offer a significant opportunity for former DBE and EEO Compliance Managers. CMP realizes that the men and women who have overseen these programs have valuable knowledge that is needed more than ever in this thriving market with tens of billions of dollars of Federally funded projects.

The CPR Program falls under Compliance Management Partners Nationwide Training and Compliance Support Program. The mission is to provide retired compliance managers with the tools and resources to support DBE programs and provide training and project support to projects with federal or state funds.

The CPR Program allows compliance experts to work on their own schedule, assist in directing programs to fit their market and make a percentage of the revenues. The program will act as a co-op that allows all the participants to share in a **percentage of profits** from training and services throughout the country. The CPR Program will provide the following services and training courses:

- DBE Commercially Useful Function (CUF) Training (4-part series)

- DBE Audit Readiness Training
- EEO OFCCP Field Training
- Business Ethics Training
- Effective Good Faith Effort (GFE) Training
- Field Audit Reviews DBE/EEO
- Onsite Compliance Consultants
- DBE Project Management

CMP will develop the core curriculum, and provide you with materials you can use in your local market trainings. We offer processes, templates and presentations to make it easy for you to use your own expertise, and familiarity with your market, in delivering standardized, valuable compliance information. Because you have local market independence, yet all the support materials from CMP, it's like being in business 'for yourself, but not by yourself.'

We look forward to sharing the details of the program with you - please contact us today so that we can discuss your market, your background, and your interest in the program.

Classes Provide ACCA Professionals Tools To Stimulate Future Growth

By Jeffrey McKinney,

As part of a growing national trend, in the construction industry, many diversity compliance programs are moving away from awarding contracts to businesses based on racial and gender preferences.

That at least is one of the areas Ruby Jones, a board member of the American Contract Compliance Association (ACCA), swears is currently a hot topic.

She contends contracting inclusion programs today at the local and state government level, as well as with private companies, are geared toward disadvantaged, local and small businesses.

Jones, the owner of Ruby Jones Consulting, a Raleigh, North Carolina-based national diversity compliance consulting firm, says the shift creates challenges.

"When you look at who is getting the contracts and who is not getting the contracts across the country African American companies are, unfortunately, still at the bottom of the pole," she says.

Fortunately, public agencies across the country are having disparity studies done which can be used as a tool when creating inclusion programs. How do you meet results of disparity studies that show African American companies are not being awarded contracts? How do agencies and major contractors stay within the confinement of the law where you can no longer target businesses based on racial or gender preferences?

The good news is, the answer can be found at the American Contract Compliance Association's 2017 National Training Institute (ACCA). More than 450 participants are expected to attend the six-day event that kicks off Tuesday, August 22, at the Marriott Country Club Plaza in Kansas City, Missouri.

Teaming up with Morgan State University, the institute offers college credits to public and private sector professionals working in fields including contract compliance, economic business development, and affirmative action and labor compliance.

In excess of 2,000 such practitioners have been certified by ACCA since the training institute began. Visit <http://accaweb.org/nti/2017nti.html> for more details.

The theme of this year's event is "Show-Me Compliance: Showing how compliance works to achieve diversity through collaboration."

Jones says states, including California and Washington, have passed legislation that did away with affirmative action programs that were racial or gender based. She says "Equal Employment Opportunity is still the law!" Attendees at ACCA's annual training gain insights on successful strategies and programs practitioners from other states and cities are doing to meet the changing compliance requirements.

"They're going to learn creative ways to be successful in creating and implementing successful inclusion programs which will work to assure

Ruby Jones, President, Ruby Jones Consulting

that all companies, specifically African American businesses, are afforded an equal opportunity in being awarded contracts," Jones says.

All told, nearly 20 different topics will be offered. They will include bonding, minority and disadvantaged certifications, disparity studies, industry legal update, large projects management, leadership development, project labor agreements and project goal setting, to name a few.

Observers pointed out that 2017 training participants will hear about best practices they can use to magnify future opportunities. Those insights will be connected to "Show-Me Compliance: Showing how compliance works to achieve diversity through collaboration," the theme of this year's event.

Here is a glimpse at some of the classes that will be offered:

Update on legal issues impacting affirmative action programs, recent cases, legislative, trends in federal/state courts tied to minority, women and disadvantaged business enterprise programs and employment issues.

Learn about different forms of construction compliance programs and delivery methods, used by local, state, federal and how they apply to construction contractors, structured bid packages/drawings to reduce barriers as well as other related matters.

Gain knowledge of learning about emerging issues in the DBE program nationally, including design build contracts, interstate certification, common misunderstandings, and upcoming initiatives.

Attend a class on project goal setting challenges, including learning about the typical challenges faced when going through that process. Topics will include bonding, geographic limitations, project type (construction, professional services, design/build, CM@R task orders), and work category availability.

OAKLAND UNIFIED SCHOOL DISTRICT

REQUEST FOR QUALIFICATIONS AND PROPOSALS LEASE-LEASEBACK CONSTRUCTION SERVICES FOR CLAREMONT MIDDLE SCHOOL RFQ/P #007-17

Oakland Unified School District ("District") is seeking proposals from qualified persons, firms, partnerships, corporations, associations, or professional organizations to provide constructability review, value engineering, master scheduling, site logistic planning, cost estimating, budgeting and construction services for the development and construction for the Claremont Middle School Kitchen Repair and Synthetic Turf Field ("Project") in accordance with the lease-leaseback structure set forth in Education Code section 17406 et seq.

The Request for Qualifications and Proposals ("RFQ/P"), which includes instructions for its completion, is available at the District website (www.ousd.org) for your consideration. According to the specifications contained in this RFQ/P, Respondents to this RFQ/P shall submit a completed Statement of Qualifications ("SOQ") along with the Proposal (collectively "RFQ/P Packet").

Respondents must mail or deliver five (5) bound copies, one (1) unbound copy, and one (1) electronic copy on CD or USB flash drive of the RFQ/P Packet conforming to the requirements of this RFQ/P to:

OAKLAND UNIFIED SCHOOL DISTRICT
Cesar Monterrosa, Director of Facilities Planning
& Management
955 High Street, Oakland, CA 94601
Re: RFQ/P #007-17

ALL RESPONSES ARE DUE BY 1:00 PM, ON WEDNESDAY, SEPTEMBER 13, 2017. Oral, telegraphic, facsimile, telephone or email RFQ/P Packets will not be accepted. RFQ/P Packets received after this date and time will not be accepted and returned unopened. The District reserves the right to waive any informalities or irregularities in the RFQ/P Packets. The District also reserves the right to reject any and all RFQ/P Packets and to negotiate contract terms with one or more Respondents.

A non-mandatory informational meeting will be conducted on **THURSDAY, AUGUST 17, 2017, at 10:30 AM.** The meeting will be held at the District's Facilities Office, located at 955 High Street, Oakland CA 94601.

Questions regarding this RFQ/P may be directed to Tadashi Nakadegawa, Director of Facilities, at tadashi.nakadegawa@ousd.org with a copy ("cc:") to Cesar Monterrosa, Director of Facilities, at cesar.monterrosa@ousd.org, and Aboudi Kabbani, Project Manager, at aboudi.kabbani@ousd.org. All questions must be submitted on or before **1:00 P.M. ON AUGUST 23, 2017.**

In this RFQ/P, the term Respondent identifies the firm or partnership submitting as the entity to enter into the terms of the Agreements included in Exhibit B. All Respondents must have already been prequalified by the District in accordance with the Public Contract Code section 20111.6. The Respondent is not required to identify electrical, mechanical and plumbing subcontractors but if such subcontractors are identified, they are also subject to the prequalification requirements as required by Public Contract Code section 20111.6.

OAKLAND UNIFIED SCHOOL DISTRICT

REQUEST FOR QUALIFICATIONS AND PROPOSALS LEASE-LEASEBACK MODULAR CONSTRUCTION SERVICES RFQ/P #010-17

Oakland Unified School District ("District") is seeking proposals from qualified persons, firms, partnerships, corporations, associations, or professional organizations to provide design, constructability review, value engineering, master scheduling, site logistic planning, cost estimating, budgeting, and construction services for the development and construction for one or more of the following modular and/or prefabricated projects in accordance with the lease-leaseback structure set forth in Education Code section 17406 et seq. for: Hillcrest Finishing Kitchen, Piedmont Finishing Kitchen, and ELC Renovation Project & Dewey Academy Multipurpose Room and Finishing Kitchen.

The Request for Qualifications and Proposals ("RFQ/P"), which includes instructions for its completion, is available at the District website (www.ousd.org) for your consideration. According to the specifications contained in this RFQ/P, Respondents to this RFQ/P shall submit a completed Statement of Qualifications ("SOQ") along with the Proposal (collectively "RFQ/P Packet").

Respondents must mail or deliver five (5) bound copies, one (1) unbound copy, and one (1) electronic copy on CD or USB flash drive of the RFQ/P Packet conforming to the requirements of this RFQ/P to:

We are an equal opportunity employer.

Ensuring Access For All

Continued from page 3

women are more successful than men raising money from the crowd. Their success has resulted in such innovative creations as different as JIBO, the world's first social robot for the home, and a local artisan cheese bar, Mission Cheese in San Francisco.

It should come as no surprise that a leader in developing the crowdfunding financing model — Indiegogo — would be committed to diversity and inclusion. "Having a diverse product development and sales team helps us better connect with the customer base," said Sangeetha Raghunathan, general counsel for Indiegogo. It's own diversity and inclusion is mission-rooted. The company has a heavily values-based culture and depends on innovation for its own success. "We need to reflect the backgrounds of the people we serve," said Tiahna Harris, an executive assistant at Indiegogo.

Public Legal Notices

CITY & COUNTY OF SAN FRANCISCO
DEPARTMENT OF PUBLIC WORKS

Contract No. 100005850
PW ZSFG BLDG 5 6H SURGE SPACE
“ZSFG BUILDING 5 6H SURGE SPACE”

Sealed bids will be received at 1155 Market Street, 4th Floor, San Francisco, California 94103 until **2:30:00 p.m. on September 6, 2017**, after which they will be publicly opened and read. Digital files of Bid Documents, Plan Holders Lists, and Addenda may be downloaded at no cost from the Public Works Electronic Bid Documents Download site at www.sfpbpublicworks.org/biddocs. Please visit the Contracts, Bids and Payments webpage at www.sfpbpublicworks.org for more information (click on Resources > Contractor Resources). Notices regarding Addenda and other bid changes will be distributed by email to Plan Holders.

The Work to be done under this contract is located at the Zuckerberg San Francisco General Hospital & Trauma Center (ZSFG), Building 5, at 1001 Potrero Avenue, San Francisco, California. The purpose of this project is to demolish an existing vacated Neonatal Intensive Care Unit (NICU) Department located in Ward 6H on 6th floor of building 5, and convert into an office space. In addition to office space, new IDF room is added to serve the Ward 6H and adjacent areas. The time allowed for completion is 240 consecutive calendar days. The Engineer's estimate is approximately \$3,200,000. For more information, contact the Project Manager, Joe Chin at 415-557-4747.

On July 1, 2014, the registration program under section 1725.5 of the California Labor Code went into effect. The program requires that all contractors and subcontractors who bid or work on a public works project register and pay an annual fee to the California Department of Industrial Relations (“DIR”).

No contractor or subcontractor may be listed in a bid or awarded a contract for a public works project unless registered with the DIR as required by Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].

This Project shall incorporate the required partnering elements for **Partnering Level 1**. Refer to Section 01 31 33 for more details.

Pursuant to San Francisco Administrative Code (“Administrative Code”) Section 6.25 and Chapter 25 of the Environment Code, “Clean Construction” is required for the performance of all work.

This Contract is subject to the requirements of Administrative Code Chapter 12X, which prohibits the City from entering into any Contract with a Contractor that has its United States headquarters in a state with laws that perpetuate discrimination against LGBT populations (“Covered State”) or where any or all of the work on the contract will be performed in any of those states. A list of states on the Covered State List can be found at: <https://oag.ca.gov/ab1887>.

The Specifications include liquidated damages. Contract will be on a Lump Sum Bid Items basis. Progressive payments will be made.

The Contract will be awarded to the lowest responsible responsive bidder.

A bid may be rejected if the City determines that any of the bid item prices are materially unbalanced to the potential detriment of the City.

Bid discounts may be applied as per Administrative Code Chapter 14B. LBE Subcontracting Participation Requirement is 25%. Call Selormey Dzikunu at 415-554-8369 for details. In accordance with Administrative Code Chapter 14B requirements, all bidders shall submit documented good faith efforts

with their bids, except those who exceed the above stated LBE Subcontracting Participation Requirement by 35%. Bidders must achieve 80 out of 100 points to be deemed responsive. Bidders will receive 15 points for attending the pre-bid conference, if scheduled. Refer to CMD Form 2B.

A pre-bid conference will be held on **August 17, 2017 at 9:30 a.m.** at Zuckerberg San Francisco General, 1001 Potrero Ave., Building 40, 4th Floor Main Conference Room followed by a site walk.

Building 40 is accessible from the intersection of Utah Street and 23rd Street. Take the first elevator on the left, to the 4th floor. The conference room faces the elevator.

For information on the City's Surety Bond Program, call Jennifer Elmore at (415) 217-6578.

A corporate surety bond or certified check for ten percent (10%) of the amount bid must accompany each bid. Administrative Code Section 6.22(a) requires all construction greater than \$25,000 to include performance and payment bonds for 100% of the contract award.

Class “B” license required to bid.

In accordance with Administrative Code Chapter 6, no bid is accepted and no contract in excess of \$600,000 is awarded by the City and County of San Francisco until such time as the Mayor or the Mayor's designee approves the contract for award, and the Director of Public Works then issues an order of award. Pursuant to Charter Section 3.105, all contract awards are subject to certification by the Controller as to the availability of funds.

Minimum wage rates for this project must comply with the current General Prevailing Wage as determined by the State Department of Industrial Relations. Minimum wage rates other than applicable to General Prevailing Wage must comply with Administrative Code Chapter 12P, Minimum Compensation Ordinance.

This Project is subject to the requirements of the San Francisco Local Hiring Policy for Construction (“Policy”) as set forth in Administrative Code Section 6.22(g). Bidders are hereby advised that the requirements of the Policy will be incorporated as a material term of any contract awarded for the Project. Refer to Section 00 73 30 of the Project Manual for more information.

Bidders are hereby advised that the Contractor to whom the Contract is awarded must be certified by the Contract Monitoring Division as being in compliance with the Equal Benefits Provisions of Chapter 12B of the Administrative Code within two weeks after notification of award.

If a bidder objects on any ground to any bid specification or legal requirement imposed by this Advertisement for Bids, the bidder shall, no later than the 10th working day prior to the date of Bid opening, provide written notice to the Contract Administration Division, San Francisco Public Works, setting forth with specificity the grounds for the objection.

Right reserved to reject any or all bids and waive any minor irregularities.

The Geography of Innovation

Continued from page 1

December 2010 and granted between January 2002 and August 2014. Of the more than 35,000 total county subdivisions in the United States, slightly less than 11,000 generated one or more patents during this period; and just 1,645 were “continuously innovative,” producing at least one patent per year over the course of the study. These hyper-productive areas account for 95 percent of all patents while housing about half of the population (53 percent) and 61 percent of college grads.

The study presents two big takeaways for understanding the distribution of innovation between cities and suburbs.

The suburbs remain a source of considerable innovation

Lower density places account for the lion's share of patented innovations. More than 40 percent of patents come from places that had a density below 2,500 people per square mile – roughly the cut-off for urban-like density established by the urban economist Jed Kolko. And, nearly three-quarters of patents come from places that had density below 3,650 people per square mile in 2000, about the level of Palo Alto, California in the heart of Silicon Valley.

While the geography of patented innovations is highly clustered around major metros and mega-regions like the Northeast Corridor, the Bay Area, Southern California, the Texas Triangle, and Greater Chicago, a great deal of innovation occurs in lower density, more suburban locations. This is in line with my own research, which finds that the suburbs are home to roughly 45 percent of all venture capital-financed innovation areas.

Take a look at the maps below of patent activity in and around New York, San Francisco, Boston, and Chicago (the coloring is the same as in the national map above). In every case, while virtually all high density urban areas are marked as continuously innovative, so are most of the surrounding suburbs. In fact, suburban areas of continuous innovation outnumber urban areas by a considerable margin.

The study finds that although density has a positive effect on the probability of hosting permanent innovation activities, the optimum density for patenting appears to be about 3,500 people per square mile, roughly the density of Palo Alto, Austin or Raleigh.

But higher density places produce more unconventional innovations

That said, higher density, more urban places are the source of more unique or unconventional innovations. The researchers define unconventional patents as those which are outliers in the way they combine technology categories that are seldom seen together, as inferred by the overall universe of patent citations. Unconventional patents are more likely to come from smaller companies, university labs, or independent inventors than large, publicly-traded companies. And they are often the harbingers of revolutionary new technologies.

Mission Bay Development Group, LLC
is actively seeking General Contractors for the
upcoming **Mission Bay Blocks 29-32 and
Blocks 33-34 Public Improvements Scope 4**
(Illinois St) project.

Proposed scope of work for this project includes but is not limited to demolition, storm drain, sewer, low pressure water, reclaimed water, joint trench, rough and fine grading, concrete road base, asphalt wearing surface, concrete curb/gutter, concrete sidewalk, irrigation, landscape, and site furnishing work.

The project is subject to the Office of Community Investment and Infrastructure (OCII's) 50% SBE/LBE participation goal for construction subcontracting, suppliers and truckers with first consideration given in the following order: 1) SBEs located in the project area. 2) San Francisco-based SBEs/LBEs. 3) Non-San Francisco-based SBEs which should be used to satisfy the 50% SBE participation goal only if San Francisco-based SBEs are not available, qualified, or if their bids or fees are significantly higher.

To help satisfy the 50% SBE goal, Local Business Enterprises (LBEs) certified by the City and County of San Francisco will be recognized and count towards the overall SBE goal on this project.

To search for certified LBEs/SBEs, please use:
http://mission.sfgov.org/hrc_certification

The project manual and bid documents will be made available to each interested General Contractor. Please contact Cathy Serrano of Townsend Management, Inc., at cathy_serrano@tmi-cm.com or (415) 355-6644 to pick up a set at the Mission Bay Office, 410 China Basin Street, San Francisco, CA 94158.

A pre-bid conference will be held at the Construction Manager's Trailer at 410 China Basin Street, San Francisco, CA on Tuesday, August 1, 2017 at 10:00 AM. Contractors and subs are strongly encouraged to attend.

For additional information, please contact
Cathy Serrano at (415) 355-6644 or email
cathy_serrano@tmi-cm.com

300 Lakeside Drive, Suite 400 • Oakland, CA 94612

REQUEST FOR DBE SUBCONSULTANT INTEREST

AECOM is bidding on the following project as Prime Contractor:

Owner: Alameda County Public Works Agency
Request for Qualifications No. R0A20151021
Civil Engineering, Environmental, and Right of Way Professional Services for Federally Funded Projects

Proposal due date: Friday, September 1, 2017

AECOM is seeking qualifications from Disadvantaged Business Enterprise (DBE) companies for the following work:

- Pedestrian and bicycle design
- Potholing
- Utility relocation and undergrounding
- Air quality
- Noise/vibration
- Visual impact
- Archaeology
- Hazardous materials
- Paleontology
- Floodplain and water quality
- Public outreach and Communication
- Traffic signal and Electrical design
- Surveying and Mapping
- Real Estate & Right of Way Acquisition
- Landscape/Irrigation Design & Aesthetics
- Drainage and Storm Water Quality
- Bridge Structures design independent check

Experience providing similar services to the Alameda County Public Works Agency is preferred. This Statement of Qualifications is in alignment with the Alameda County Public Works Agency DBE Program requirements and certified DBEs are encouraged to respond.

Interested businesses should email a brief overview of Alameda County Public Works Agency or similar experience, along with DBE documentation by Friday, August 25, 2017, to **TJ Koski** at tj.koski@aecom.com, or by Phone 916.266.4916 or Fax 916.414.5850.

Assistance is available in obtaining any necessary bonding; lines of credit or insurance; information related to the requirements for the work; and necessary equipment, supplies materials, or related services.
