## Caltrans on Tight Schedule to Repair Bay Bridge Broken Bolts

**By Charles Piller, The Sacramento Bee**

California Department of Transportation officials are developing a work-around to secure vital seismic stabilization equipment after heavy-duty bolts broke on the new eastern span of the San Francisco-Oakland Bay Bridge, project manager Tony Anziano told the Metropolitan Transportation Commission Wednesday.

While the problem should not delay the opening of the bridge, slated for Labor Day weekend, Anziano said he expects the fix to take months to complete. "Time is absolutely tight," Anziano conceded after questions from a commissioner. "Everybody should acknowledge that there is risk" that the bridge opening might be delayed to ensure seismic safety.

Caltrans will replace at least 32 bolts, and perhaps many others, attached to "shear keys," units that allow controlled lateral movement of the bridge in the event of a large quake. The same type of bolts connected to bearings -- another seismic control device -- have not been found to be defective, but also are considered suspect, according to Caltrans. Overall, officials said they would assess 288 bolts.

Officials said it was too soon to know the cost of repairs, to identify where quality control failed or to place blame, but they attributed the problem to apparently defective steel contaminated by hydrogen during manufacturing. "Hydrogen embrittlement" can cause steel to crack or break.

The bolts, also referred to as rods, attach the four shear keys and four bearings between the easternmost pier of the new suspension span and the roadway above it. The devices were made by the Korean firm Hochang Machinery Industries, but the bolts themselves were made in the United States, according to Caltrans.

A primary challenge, Aziano told commissioners, involves the lack of access to rods for two shear keys located above the vertical sections of the pier. In at least those cases, a workaround -- possibly a collar attached to the base of the shear keys, will be used to replace or augment problem bolts.

"We have surmounted far greater engineering challenges than this one in getting this bridge constructed," said Steve Heminger, executive director of the Metropolitan Transportation Commission. "And I have no doubt that we will get through this one as well."

Bearings and shear keys are massive steel devices nearly 6 feet tall. The broken bolts are 3 inches in diameter and up to 24 feet long. At the center of the shear key, a circular joint joins the suspension span to the pier much like a trailer hitch allows a load to sway laterally with some independence, yet remain secured to a pickup truck.

Early this month the bolts were stressed, or placed under tension, to increase overall performance. Among 96 so far examined, 32 broken bolts were found about a week later.

Case Western Reserve University Professor Arthur Hucklebridge, an expert on seismic issues in bridge construction called the problem "extremely unusual" -- more so because the bolts snapped after, rather than during stressing.

"If the safety of the bridge is involved, we will investigate fully," said Sen. Mark DeSaulnier, D-Concord, chairman of the California Senate Transportation and Housing Committee.

# REQUESTS FOR BIDS & SUB-BIDS

**SKANSKA**
**SHIMMICK**  
CONSTRUCTION
**Stacy and  
Witbeck**
a Joint Venture
**Third Street Light Rail Program  
Phase 2 – Central Subway Stations, Surface, Track and Systems**
**Client: San Francisco MTA**
**Contract No.: 1300**
**SBE/DBE/LBE Goal: 20%**
**Bid Date: April 4, 2013 – 2:00PM**

Skanska-Shimmick-Stacy and Witbeck a Joint Venture is interested in soliciting in Good Faith all subcontractors as well as certified SBE, LBE and DBE companies for this project. Plans are ONLY available from the Owner. This contract is federally protected per Security Sensitive Information 49 CFR parts 15 and 1520 and the bid documents will ONLY be provided to qualified subcontractors/vendors from the SFMTA.

Go to <http://mission.sfgov.org/OCABidPublication/BidDetail.aspx?K=6021> to obtain a copy of the bid documents. You are required to (1) to certify that they are either qualified to bid on the contract or are qualified subcontractor and/or supplier; and (2) to sign a confidentiality agreement that will restrict the access, use and final disposition of the drawings and specifications. All bid documents and addenda will be made available through this website.

Quotes requested for supplies and services include, but are not limited to the following:

**Subcontracting:** AC Grinding/Cold Planing, AC Paving, Acoustical Finishes, Building Protection, Cathodic Protection, Ceramic Tiling, CIDH, Concrete Paving, Concrete Pumping, Dewatering, Dry Utility Installation, Electrical, Exterior Insulation, Fire Protection/Suppression/Sprinklers, Fireproofing/Firestopping, Glazing, Hazardous Material Abatement, Hot Tapping, HVAC/HVAC Instrumentation, Landscaping, Masonry, Masonry – Facing, Membrane Roofing, Metal Roofing, Minor Concrete, Nelson Studs, Plaster/Drywall/ Gypsum, Plumbing, Potholing, Railroad Track Work, Rebar Placement, Resilient/Linoleum Flooring/Carpeting, SEM Anchor Drilling, SEM Drilling and Grouting, Sewer Pipe Slip-Lining, Sheet Pile Driving, Shotcrete, Signage (Interior/Exterior), Specialty Signage, Steel Erection, Striping, Structural Demolition, Structural Steel Erection, SWPPP, Temporary Fencing, Terrazo, Traffic Control, Vapor Control, Video - Sewer Pipe, Wall Covering/Painting, Waterproofing, Wet Utility Installation Vendors: Acoustical Ceilings / Metal Ceilings, Aggregate / Rock / Sand Bedding, Asphalt Concrete, Baker Tank Rental, Coiling Doors, Elevators, Entrances and Storefronts, Escalators, Expansion Joints, K-Rail, Lockers, Metal Doors, Millwork, Misc Steel Fabrication, Partitions, PCMS Signs, Pipe Suppliers, Plumbing Fixtures, Precast architectural suppliers, Precast Utility Structures, Ready-Mix Concrete, Scaffolding, Shotcrete supplier, SIP Forms, Steel Decking, Steel sheet piles, Structural Steel, Temp Elevator Rental, Traffic Control Supplies, Water Filled Barriers.

**Services:** Geotechnical Monitoring, Janitorial, Office/Yard Rentals, Parking, QC/QA Testing, Sanitation, Security, Sound Monitoring, Staffing, Survey, Sweeping, Vibration Monitoring

**Trucking:** Flatbed Trucking, On-site Hauling, Material off haul

**Subcontracting Requirements:** Skanska's insurance requirements are Commercial General Liability (GL): \$1M ea. occ., \$1M personal injury, \$2M products & completed operations agg. and general agg.; \$1M Auto Liability; \$5M Excess/Umbrella and \$1M Workers Comp. Endorsements and waivers required are the Additional Insured End., Primary Wording End., and a Waiver of Subrogation (GL & WC); or higher limits required by contract. Other insurance requirements may be necessary per scope. Subcontractors may be required to furnish performance and payment bonds in the full amount of their subcontract by an admitted surety and subject to approval by Skanska. Skanska will pay bond premium up to 1%. Quotations must be valid for the same duration as specified by the Owner for contract award. Conditions or exceptions in Subcontractor's quote are expressly rejected unless accepted in writing. Skanska is signatory to the Operating Engineers, Laborers, Cement Masons, Carpenters Unions and Teamsters. Subcontractors must provide weekly, one original and one copy of all certified payrolls, including non-performance and fringe benefit statements if required by law or by the Prime Contract. Subcontractor scope (including any conditions or exceptions) is required 24 hours prior to bid deadline to allow proper evaluation. Please call if we can assist you in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies. SSS-WJV will also review breaking out scope packages and adjusting schedules to help permit maximum participation. Please follow five (5) day Bid Items Breakdown per Contract Specification; Proposals and Contract Forms, Schedule of Bid Prices, pdf pages 201-218 of 5,215.

## DPR CONSTRUCTION, INC.

### ADVERTISEMENT FOR SUBCONTRACTOR PREQUALIFICATION & BID

#### Radiation Shielding & Unistrut

Prequalification and sealed bids for a Lump Sum contract not to exceed the Maximum Acceptance Cost are requested only from prospective Subcontractors under the CM @ Risk Fixed Fee Cost Plus with GMP Contract awarded to DPR Construction, Inc. (CA License # 599846) for the following project:

**UCSF MEDICAL CENTER AT MISSION BAY**  
University of California San Francisco Medical Center,

San Francisco, California

Project No. 05-307 | DPR Project No. 08-28026-01

#### General Description of the Work:

Construction includes 42,000SF of Energy Center (EC), 212,000SF of OSHPD 3 Out-patient Building (OPB), and a 633,000SF, 289-bed, 6-story OSHPD 1 Hospital on a surrounding 14.5 acre site at UCSF Campus at Mission Bay.

**The following bid packages are currently being solicited:** Subcontractors bidding for the following bid packages must be prequalified and will be required to have the California current and active contractor's license for their specific trade(s) as listed below at the time of submission of the Bid.

BP #	Description	Maximum Acceptance Cost	License Class
1. <b>13D-HO Radiation Shielding</b>	Furnish and Install all Radiation Shielding to meet code and project requirements for the Hospital.	\$1,247,000	D20 – Lead Burning and Fabrication or D64 – Non-Specialized Contractor or B – General Contractor
2. <b>5D-HO Unistrut</b>	Furnish and install all Unistrut to meet code and project requirements for the Hospital.	\$298,000	B – General Contractor

All interested subcontractors **MUST attend a mandatory Pre-Bid Meeting in order to submit a bid.**

Documents, Mandatory Pre-Bid Meeting & Due Dates:

1. **The mandatory Pre-Bid Meeting for 13D-HO Radiation Shielding & 5D-HO Unistrut is on Tuesday, April 2, 2013 at 10:30AM at UCSF MC ICDC at 601 16th Street, San Francisco, CA 94158.** Subcontractors must attend the pre-bid meeting in person or via video conference call. Conference call information is as follows: Call in number: 1-888-298-1692. Room number: 8263908. Please contact Chris Relf for additional details regarding the video conference. Ph: 415-241-4411

2. Subcontractors attending the Pre-Bid Meeting will receive Prequalification Forms. After subcontractors have been notified that they are prequalified, approximately the week of April 15th, they will receive the Bid Form, Instruction to Bidders and Bidding Documents, as well as DVD-R of the current set of Plans & Specifications. **Final list of prequalified bidders will be posted upon completion of evaluation process on the following website: <http://transfer.bps.com/ucsf>.**

3. Prequalified Subcontractors will have to complete two (2) separate submittals – the 1st is the Prequalification, the 2nd is the Bid. The bid package is to be submitted per the instructions set forth in the Instructions to Bidders addressed attn. to: Lanisha Miller, DPR Construction, Inc., 601 16th Street, San Francisco, CA 94158.

4. **For the bid package listed above, the completed Prequalification Form and associated documents are due Tuesday, April 9th 2013. The sealed bids must be received on or before 3PM, Thursday, May 23rd 2013 and will be opened promptly thereafter at UCSF MC ICDC, 6016th Street, San Francisco CA 94158.**

5. Any person or entity not satisfied with the outcome of the prequalification must file a writ challenging the outcome within 10 calendar days from the date of DPR's written notice regarding prequalification determination. Any assertion that the outcome of the prequalification process was improper will not be a ground for a bid protest. However, the University reserves the right to accept late submissions and to request, receive, and evaluate supplemental information after the above time and date at its sole determination.

6. The University reserves the right to reject any or all responses to Prequalification Forms and to waive non-material irregularities in any response received.

7. All information submitted for prequalification evaluation will be considered official information acquired in confidence, and the University will maintain its confidentiality to the extent permitted by law.

If no responsive and responsible bids are received in response to this solicitation, the University after consultation with DPR Construction may establish a new Bid Deadline no earlier than 24 hours from the prior Bid Deadline if no material changes are made to the bidding documents and no earlier than 72 hours if material changes are made. In such event DPR Construction will, at a minimum, notify all persons or entities known by DPR Construction to have received a complete set of Bidding Documents and who has provided a street address or facsimile number for receipt of any written pre-bid communications.

The deadline for receipt of requests for products, materials or equipment specified by name may be required prior to the Bid Deadline. The Bidding Documents should be reviewed for further details.

Every effort will be made to ensure that all persons shall have equal access to contracts and other business opportunities with the University within the limits imposed by law or University's policy. Each Bidder may be required to show evidence of its equal employment opportunity policy. The successful Bidder and its subcontractors will be required to follow the nondiscrimination requirements set forth in the Bidding Documents and to pay prevailing wage at the location of the work.

The work described in the contract is a public work subject to section 1771 of the California Labor Code.
