Millennials' Investment Strategy Could Be a Boon for Government

Their drive to make a meaningful impact could provide the public sector a new pool of investors.

Students at Lesley University in Massachusetts urging their school to end its investment in fossil fuels. (FlickrCC/Peter Bowden)

By Justin Marlowe

Forty-five years ago, two novice Washington Post reporters unraveled the biggest political scandal in a generation. As depicted in the thriller *All the President's Men*, a shadowy informant known only as Deep Throat -- 30 years later revealed to be longtime civil servant Mark Felt -- kept the young Bob Woodward and Carl Bernstein in the game by instructing them to "follow the money."

Today, Deep Throat might instead say, "Follow the millennials." That's because JP Morgan estimates Americans ages 25 to 35 will invest a trillion dollars over the next five years. In the coming three decades baby boomers will turn over \$30 trillion in assets to their millennial children and grandchildren, according to an Accenture-CNBC study. And that's just in the U.S.

Even more noteworthy is just how differently millennials think about investing. A survey by Standard Life Investments showed that 65 percent of millennials care more about social and environmental issues than they care about in-

vestment returns. That's compared to less than half of 35- to 44-year-olds and less than one-third of those over 45. Given these trends, it should be no surprise that today every 1 in 5 dollars under professional management is allocated based on the principles of socially responsible investing, according to the Forum for Sustainable and Responsible Investment. "Doing well while doing good" is quickly becoming a mainstream investment strategy.

State and local finance managers have good reason to worry about this trend. Municipal bonds don't offer enticing returns compared to stocks and other investments. But perhaps more pertinent, sewers, roads and tunnels don't have the same exotic appeal as microloans to Indonesian coffee farmers. And Congress is talking openly about ending municipal bonds' cherished federal tax exemption. That last change would make infrastructure projects even more difficult to finance.

But some of the early signs show that "impact investing" is a wave that states and localities can in fact surf. Consider this example. Seattle Northwest Asset Management (SNWAM), a national leader in impact investing, maintains a "gender equity

portfolio" product that's popular with its retail clients. Many impact investors want their money to support organizations that offer equal pay for equal work, family-friendly work environments and other policies designed to promote greater gender equity.

One of the bonds issued under the portfolio is from the Oregon Housing and Community Services Department (OHCS). In Oregon, 40 percent of single mothers live below the poverty level. It follows then that investments in affordable housing and other OHCS programs deliver outsized benefits to women. The investment is made more attractive by the fact that the OHCS director and a majority of its governing body are female. Most for-profit entities can't come close to that kind of impact on gender equity, and most nonprofits that do aren't open for investment.

That's just one of the many opportunities SNWAM and other advisers offer their impact investor clients.

PROJECT NAME

Fire Station 35, Pier 22.5, SF, CA.

BID DATE: Friday May 12, 2017 at 3:00 p.m.

EMAIL TO: Bill Krill Bkrill@swinerton.com

Swinerton Builders is requesting quotations from ALL subs.

15% LBE Participation required, must be Certified by City of San Francisco.

Building Construction Estimate is \$16m.

SCOPE OF WORK:

To protect against sea-level rise and earthquakes, the City of San Francisco plans to procure a new approximately 16,034 gsf Fire Station on top of a floating barge at piers 22.5/24 (just north of the Bay Bridge) in San Francisco. This is a complete design-build project which is on Port of San Francisco land and will be managed by the San Francisco Department of Public Works (with LBE requirements) with funding thru the Emergency Safety and Emergency Response (ESER) Bond passed in 2014. SFDPW plans to issue a Notice-to-Proceed by 8/01/17 to the Design-Builder with start of construction no later than 12/01/18. Project consists of a new steel barge with vehicle and pedestrian access ramps, and will provide berthing for three Fire Boats, smallcraft storage and launching, dive equipment and boat, ambulance access and living quarters for Fire crews and officers.

TRADES:

Structural steel, Metal decking, Concrete Rebar/ Place/ finish, CMU, Exterior Metal Panels, Traffic coating, Insulation, Waterproofing, Roofing, Drywall, DFH, Glazing, Paint, Ceramic Tile, Metal Lockers, Kitchen Appliances, Mecho-shades, Casework, Elevator, MEPS, AV, Telecom, Roll-up Doors, Site Utilities."

PLANS & SPECIFICATIONS:

Please email Joyce Pon jpon@swinerton.com to request access to the project documents.

WE REQUEST BIDS FROM ALL SUBS

Please submit your bid to BKrill@swinerton.com

Millennials' Investment Strategy Could Be a Boon for Government

Continued from page 1

New portfolios that cover concerns like climate change, environmental conservation, public education and so on are chock-full of other opportunities to invest in states and localities.

Social impact investing's movement from the fringe to the mainstream has a lot to do with the growth of "impact ratings" as well. Traditional credit rating agencies like Moody's, S&P and Fitch just tell investors the likelihood they'll get their money back, and their ratings are based on a government's financial health, tax base and economic outlook. But impact credit rating agencies tell investors whether an investment is consistent with their social impact objectives. HIP Investor Ratings of San Francisco is one of the largest of these agencies. Its ratings criteria focus on "health, wealth, earth, equality

and trust." Many social impact portfolios won't include a government's bonds without a four- or five-star HIP rating. Going forward, this means measurables like public school graduation rates, minority unemployment trends and Environmental Protection Agency water quality scores, among others, might be just as important as tax collections and reserve funds.

Fortunately, most states and localities are good impact investments. If they tell their story correctly, they'll have access to a new and robust pool of potential investors. And perhaps more important, they'll help enlighten a new generation to the essential, often unnoticed high-impact work they perform every day.

Long Island (Babylon), NY Sub-Bid Request Ad

SHEA McNally JV BIDDING OPPORTUNITY

MBE/WBE/DBE Certified with the following certifying authority:

A DBE is a Disadvantaged, Minority, or Woman Business Enterprise that has been certified by an entity from which EPA accepts certifications as described in 40 CFR 33.204-33.205 or certified by EPA. EPA accepts certifications from entities that meet or exceed EPA certification standards as described in 40 CFR 33.202.

Inviting qualified contractors, specifically MBE/WBE/DBE firms certified/eligible as listed above, to contact Shea McNally JV (Prime Contractor listed below) regarding subcontracting services and material supply opportunities in connection with the upcoming tunnel and shafts project.

The Work under this contract is located in Long Island (Babylon), New York. The Work consists of:

**Southwest Outfall Replacement, Capital Project No. 8108
Owner: County of Suffolk – Dept. of Public Works-Yaphank, NY
Capital Project No. 8108
BID DATE: June 8, 2017 at 11:00 AM**

Opportunities to participate exist in the following specific areas of soil and rock excavation, hauling, excavation support systems, underground blasting, structural steel, engineering, survey, instrumentation and monitoring services, materials testing, demolition and site preparation, environmental investigation, utility relocation, paving, fencing and gates, geotechnical and structural instrumentation, slurry wall, cased auger shaft construction, secant piles, cast-in-place concrete structures, reinforcing steel, ground stabilization, rock-bolts, steel dowels, shotcrete, concrete finishing, waterproofing, service utilities, grouting, mechanical equipment – hydraulic, sluice & weir gates, electrical services, pest control, IT services, security, waste disposal, cleaning services, and security services.

Any business seeking to participate as a MBE/WBE/DBE in the Contract that is not currently certified DBE by the EPA and the requirements set forth above should review **40 CFR 33.204-33.205 or certified by EPA** shown above to obtain current certification.

Shea McNally JV set up an FTP site where you can view all plans, specifications and addendums for your convenience. Please contact Steve Fiore at (909) 595-4397, Steven.Fiore@jfshea.com, to receive instructions on accessing the FTP Site.
