

This Army Job Training Program Has a 93% Success Rate

[Article was originally posted on
www.military.com]

By Blake Stilwell,

There are a lot of programs for separating veterans looking for their first civilian job, but one Army program has the numbers to back up its success. For the soldiers who use it, the Army's Career Skills Program has seemingly mastered what it takes to put veterans in a new post-military career.

All soldiers are required to take a 5-day Transition Assistance Program (TAP) class before they separate. What is unique about the Career Skills Program is that it provides training opportunities for soldiers interested in critical in-demand career fields.

After completing mandatory TAP training and up to 180 days before separating, interested soldiers can find a CSP training program in their new, chosen career field and use a permissive temporary duty assignment to attend the program, if it's more than 50 miles from their permanent duty station.

Soldiers interested in a new job can catch apprenticeships, on-the-job training, job shadowing and

internships in some 210 different Career Skills Programs. Opportunities range from auto maintenance and repair to pipefitting and welding to solar energy technology.

And it doesn't have to have anything to do with the soldier's military occupational specialty.

"If someone drives trucks in the Army, but decides they never want to step foot in another commercial vehicle again, they can do a CSP on being a pipefitter, construction trade, or whatever they want to do," says Christine Traugott, assistant deputy for Child, Youth and School Services and Education in the Office of the Assistant Secretary of the Army for Manpower and Reserve Affairs.

The best part of all is that since 2015, the Army has been able to place 21,000 transitioning soldiers in new jobs with a stunning 93% success rate. In 2019 alone, 4,782 soldiers left the military fully trained for their new full-time job -- with no gap in employment.

That's a big deal in a COVID-19 job market world.

While the Army would prefer to retain its best talent, officials said, the next best thing is to make sure soldiers leaving the Army have a soft landing and become a good example of an Army veteran, a walking advertisement for how the Army can help individuals achieve their goals.

"We hope soldiers will be influencers in their communities," Traugott says. "They will talk to their kids, family and anybody else about their experience, how the Army prepared them for the life they have."

Companies like Ryder, ComStar and even Microsoft have CSP training programs for soldiers that can be paid for either through GI Bill funds or through Department of Labor grants in some locations. Every training program is different, so be sure to check out the Army's Career Skills Program website for the details about getting command authorization and to see what programs are available.

Project Name:

Groundwater Replenishment System Final Expansion Plant 2 Secondary Effluent Pipeline
Rehabilitation Project - Contract No. GWRS-2020-01

Location: 22212 Brookhurst Street, Huntington Beach, CA 92646

Bid Date: May 26, 2020 at 2:00p.m.

Request for DBE sub-quotes

Kiewit Infrastructure West Co. ("Kiewit") is seeking quotes from qualified Disadvantaged Business Enterprises (DBE), including Minority Business Enterprises (MBE), Woman Business Enterprises (WBE), Small Business Enterprises (SBE), Small Business in Rural Area (SBRA), Labor Surplus Area Firms (LSAF), Historically Underutilized Business (HUB) Zone Small Businesses and all other business enterprises to perform as subcontractors, material contractors, and suppliers. DBEs must provide evidence of certification by the U.S. Environmental Protection Agency (US EPA), the Small Business Administration (SBA), the CA DOT DBE Certification Program (CUCP), Tribal, State, and Local Governments, or Independent Private Organization Certifications.

The **GWRS Final Expansion Plant 2** project is to be expanded by 30 MGD to a total production capacity of 130 MGD. In order to provide enough influent to the AWTF to produce 130 MGD of product water, additional secondary effluent from the Orange County Sanitation District's (OCSD) Plant 2 must be conveyed to the AWTF to supplement secondary effluent received from Plant 1. The work includes rehabilitation of approximately 15,700 feet of an existing 66-inch reinforced concrete pipe (RCP) pipeline. The existing 66-inch RCP pipeline is located on the west side of the Santa Ana River at/near the outside toe of the levee and extends from just south of Garfield Avenue to OCSD's Plant 2 in Huntington Beach.

Kiewit is requesting quotes for various areas of work including but not limited to: Land surveying, asbestos abatement, lead abatement, trucking and hauling, dewatering, shoring and underpinning, tunneling, boring and jacking, driven pile, directional drilling, cathodic protection, CCTV inspection, CIPP, FRP/HDPE slip lining, steel casing slip lining, asphalt paving, curbs and gutter, mechanical insulation and fiberglass reinforced plastic process pipe.

Firms interested in providing a sub-quote for this project must contact Kiewit and responding firms will be issued an "Invitation to Bid" through Kiewit's electronic use of SmartBid system (at no cost to bidder) with project information and bid instructions. Plans and specifications are also available for review at Kiewit's office.

This is a public works project and is subject to state prevailing wage rates. The Project is financed in part by the Clean Water State Revolving Fund (CWSRF) administered by the EPA and is therefore subject to the American Iron and Steel ("AIS") Provisions, DBE Program requirements and the Davis-Bacon Related Acts.

Responsive bidders must possess a valid California Contractor's license (as appropriate) and provide acceptable insurance. Responsible subcontractors and material contractors may be required to provide bonding for 100% of their contract value. Kiewit will reimburse bond premiums. Kiewit is signatory to collective bargaining agreements with the carpenters, laborers, cement masons, ironworkers, operating engineers and teamsters. Kiewit will consider quotes from any and all bidders who demonstrate an ability to foster and maintain labor harmony on the Project.

Kiewit intends to conduct itself in good faith with all DBEs regarding participation on this project. For further information regarding this project, insurance, bonding, related assistance with equipment, supplies, and materials, or the project schedule, please contact our Lead Estimator.

Kiewit Infrastructure West Co. is an Equal Opportunity Employer. Employment decisions are made without regard to race, color, religion, national or ethnic origin, sex, sexual orientation, gender identity or expression, age, disability, protected veteran status or other characteristics protected by law.

California Sub-Bid Request Ads

nibbi

Project Name: 4840 Mission Street
Location: San Francisco, CA
Pre-Bid Call: May 6, 2020 @10:00am
Bid Date: May, 20, 2020 @2:00pm
Labor Reqs: Prevailing Wage
Project Schedule: Est. Start: Feb/March 2021

Nibbi Brothers has been selected as the General Contractor for the 4840 Mission Street project in San Francisco. We are in receipt of the 100% DD Set and are currently requesting bid proposals from qualified subcontractors including those certified as SBE's for Demolition and abatement. The Contract Monitoring Division (CMD) has set the SBE participation goal for this project at 20%. We strongly encourage SBEs to bid and participate on this project. For more information about the San Francisco SBE program as it relates to this solicitation please contact Mr. Romulus Asenloo at the City and County of San Francisco Contract Monitoring Division via email or by phone, Romulus.asenloo@sfgov.org / (415) 581-2310. 4840 Mission Street will be one of the first major developments in the Excelsior District in nearly 25 years. This unique mixed-use development will extend from Mission Street, the Excelsior's commercial "Main Street," through to Alemany Boulevard, a major residential boulevard. The plus/minus 1.5 acre project site is currently occupied by the Valenti Marini Perata Funeral home. This large site provides a unique opportunity to establish a mixed-use, affordable housing development that includes quality public spaces, commercial spaces as well as providing a new home for the community based Mission Neighborhood Health Clinic. The overall development site is plus/minus acres and includes up to 137 below market rate affordable rental units over a new plus/minus 10,000 square foot Clinic and a plus/minus 6,000 square commercial space. 100% of the units are affordable. The development includes 39 residential parking stalls that are not visible from the street that are located partially below grade and accessed from Alemany Blvd at the lowest end of the site. Mission Street, being the high quality transit corridor, supports the proposal for providing minimal parking for the affordable housing, prioritizing residents who do not own or require individual vehicles, as San Francisco's transit first policy.

For any questions on accessing this bidding software, please contact Kristin Medwick, Sr. Precon & Estimating Coordinator via email, kristin@nibbi.com.
