Construction Employment Declined By 1,000 Jobs In March

Residential Construction and Public Works Sectors Drag Down Construction Employment Levels for First Time in 14 Months, Association Officials Call on Washington to Fund and Pass Needed Infrastructure Repairs

Photo credit: www.amsimaging.com

Construction declined by 1,000 in March but is still up by 282,000 compared to the prior year, as the sector's unemployment rate fell to 9.5 percent, according to an analysis by the Associated General Contractors of America. Association officials noted that declining demand for residential and public sector projects offset gains in other areas to contribute to the overall month job losses.

"After 14 months of steady job gains, construction employment suffered in March," said Ken Simonson, the association's chief economist. "Except for multifamily construction, home building remains weak and government officials just can't seem to find a way to pay for needed repairs to a host of aging facilities."

Construction employment totaled 6,344,000 in March, compared to 6,345,000 in February and 6,062,000 in March 2014, Simonson noted. Residential building and specialty trade contractors lost 2,800 jobs (-0.1 percent) since February but added 136,300 jobs (6.0 percent) over 12 months. Within the residential sector, however, results were split, with residential building contractors adding 3,700 jobs for the month while residential specialty trade contractors lost 6,500 jobs compared to February.

Nonresidential contractors—building, specialty trade, and heavy and civil engineering construction firms—hired a net of 1,100 workers for the month and 145,000 (3.8 percent) since March 2014. As with the residential sector, the nonresidential employment sector varied by segment. The nonresidential and specialty trade contractors and nonresidential building contractors added a combined 5,000 jobs for the month. But heavy and civil engineering contractors—who typically perform public sector projects like highway construction—lost 3,900 jobs since February.

The employment figures are consistent with February spending data released earlier this month which showed declining investments in residential and public sector construction projects offsetting growing demand for private, nonresidential construction. Simonson noted that the industry's recovery would continue to suffer if public sector investments continue to decline and the residential market remains weak.

"The threat of funding cuts for needed public infrastructure will continue to impact firms' ability to add more employees to the payroll," Simonson added.

Association officials urged Congress and the Obama administration to find a way to finance

and pass needed long-term infrastructure measures to address aging transportation, energy and water systems. They noted that the association recently launched a nationwide effort called #DriveBetterRoads designed to encourage elected officials to boost funding for aging highways and bridges, for example.

"Construction workers shouldn't have to lose their jobs because of Washington's inability to address our growing infrastructure needs," said Stephen E. Sandherr, the association's chief executive officer. "More significant, the overall economy shouldn't have to suffer from the negative impacts of greater traffic, poorer road conditions, unreliable power grids and unsafe drinking water."

SKANSKA

Sub-Bids Requested From Qualified D/S/LBE Subcontractors & Suppliers

Transbay Transit Center – Tenant Improvements
Transbay Joint Powers Authority/ Webcor Obayashi Joint Venture
Contract No.: Bid Build – 08-04-CMGC-000, pkg. no. TG16.0
DBE/SBE/LBE Goal: 19%
Subcontractor Quote Due Date: April 15, 2015 - 12:00PM

Skanska is interested in soliciting in Good Faith all subcontractors as well as certified D/L/SBE companies for this project. All interested subcontractors, please indicate all lower tier D/L/SBE participation offered on your quotation as it will be evaluated with your price. Please call if we can assist you in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies. Skanska will also review breaking out scope packages and adjusting schedules to help permit maximum participation.

Quotes requested for contractors, suppliers and service providers include, but are not limited to:

Subcontracting: Concrete masonry units, metal framing, drywall, building insulation, penetration fire-stopping, toilet accessories, miscellaneous metals for own work, bird deterrent, ballistic resistant panels, acoustic ceiling tiles, acoustic wall treatments, tile, tile carpeting, resilient base, painting, site paints, high performance coatings, doors, frames, hardware, low voltage wiring for own scope of work, interior architectural woodwork, countertops, prefabricated buildings, photo-luminescent exit accessories (PLEA), and final cleaning on complex projects.

Instructions for bidders: For information on plans and specs and/or receive an Invitation to Bid, please submit your information to lindsay.corotis@skanska.com. Plans and Specs are also available at several locations throughout California. For project documents, visit <http://transbaycenter.org/rfp/interiorsfinishes>. For any questions, contact Skanska at (510) 285-1885 or email to lindsay.corotis@skanska.com

Subcontracting Requirements:

Skanska's insurance requirements are Commercial General Liability (GL): \$1M ea. occ., \$1M personal injury, \$2M products & completed operations agg. and general agg.; \$1M Auto Liability; \$5M Excess/Umbrella and \$1M Workers Comp. Endorsements and waivers required are the Additional Insured End., Primary Wording End., and a Waiver of Subrogation (GL & WC). Other insurance requirements may be necessary per scope. Subcontractors may be required to furnish performance and payment bonds in the full amount of their subcontract by an admitted surety and subject to approval by Skanska. Skanska will pay bond premium up to 1%. Quotations must be valid for the same duration as specified by the Owner for contract award. Conditions or exceptions in Subcontractor's quote are expressly rejected unless accepted in writing.

There is a PLA agreement for this job. It can be found at:

<http://transbaycenter.org/tjpa/doing-business-with-the-tjpa/project-labor-agreement>. Skanska is signatory to the Laborers and Carpenters Unions. Subcontractors must provide weekly, one original and one copy of all certified payrolls, including non-performance and fringe benefit statements if required by law or by the Prime Contract. Subcontractor scope (including any conditions or exceptions) is required 24 hours prior to bid deadline to allow proper evaluation.
