Sales Tax Requirements for Your E-Business

Whether your operations are in one location or multiple states, sales taxes are something you are dealing with already on some level. However, if you are also selling online you may not realize the scope of responsibilities your company already has in this regard – or those it may be taking on in the near future.

How Nexus is Determined

If you are selling within the state in which you are licensed (this is your nexus), then you already have a sales tax identification and are collecting, reporting and remitting taxes collected from your customers. You will want to update any changes in your company information to avoid potential duplication from the tax office. If you relocate to another state be sure to complete the deregistration process, or it could become an administrative nightmare.

On the other hand, if your nexus hasn't changed but you are selling online to remote consumers, you may also be responsible for collecting taxes for other states. Though nexus is technically defined as a "tangible" physical presence, a particular state may narrow the line further. If you have salespeople or employees working in any other state – or you are housing inventory or leasing property outside your own nexus – then you may need to register and collect sales taxes there as well.

Location, Location, Location

If you're selling within your own nexus, a tax tables booklet may be sufficient – but then again, maybe not. Sales and use taxes are charged according to physical locations, not just zip codes – and even zip+4 codes are not always accurate. Keep in mind that zip codes can change randomly and are only assigned to addresses deliverable by the U.S. Post Office.

Aside from state and county lines there are city borders, special use districts, transit districts, and more. Tax rates can vary within these areas, even though the zip code is the same for them all! There are also tax exemptions of some products and organizations to consider, as well as sales tax variations within certain industries; software, food, digital goods, services and medical equipment to name a few.

The Best Attempt at Getting It Right

In 2000 Congress adopted the Streamlined Sales Tax Project, allowing voluntary registration and attempting to reduce the bookkeeping and expenses a company would incur from the collection of state and local sales taxes. Its registration is handled with the SSUTA (Streamlined Sales and Use Tax Agreement). Another function of the SSTP is to certify sales tax administration software for use in businesses. There are 2 types of software, CSP and CAS; both having unique benefits.

1. Certified Service Provider (CSP)

CSP software determines which products and services are taxable, and at what rate; it can integrate with your accounting system and shopping cart, file the tax return and pay the sales taxes on your behalf. Each CSP company is certified by, and under contract with, the SSTP's governing board to provide these administrative tax services.

2. Certified Automated System (CAS)

This system is used by a business that prefers to have its sales tax functions remain inside of its own firewall. Per the SSUTA, it must "calculate the taxes, determine the amount to remit to the appropriate state, and maintain a record of the transaction." The CAS can also integrate with your accounting application. If you use this system, your business remains responsible for the proper filing of returns and timely remitting of the collected taxes.

Though there are two new bills in front of Congress that could alter the SSTP, it currently is the "gold standard" for at least the 25 states that have joined its ranks thus far. The political sparring of 2011's Main Street Fairness Act and Marketplace Equity Act may continue indefinitely – meanwhile the SSTP is your best bet for accurate compliance.

Author Cherrell Tarantino writes for AccurateTax.com, an SST certified service provider of software for sales tax and experts on internet sales tax compliance.

REQUEST FOR SUB-QUOTES

Project: I-405 Sepulveda Pass Widening Project, Contract No. C0882
Owner: Los Angeles County Metropolitan Transportation Authority (LACMTA)
Steep Slope B-Drains / CIP Walls
Notice of Interest Requested by May 11, 2012

Kiewit Infrastructure Group is the design-builder for the I-405 Sepulveda Pass Widening Project and is seeking sub bids and quotes from Disadvantaged Business Enterprises (DBE). Opportunities for subcontractors, professional services and material and/or equipment suppliers will occur throughout the life of the project. Requests for sub-bids and quotes (RFQ) will be ongoing as needed. All DBE's must be certified by the California Unified Certification Program (CUCP). Currently, Kiewit is requesting your notice of interest to provide a sub-quote to furnish and install Steep Slope B-Drains and CIP Walls.

Contact us with your Notice of Interest to provide a sub-quote no later than
May 11, 2012 to receive a Bid package.

All responsive subcontractors must possess acceptable insurance and a valid California Contractor's License. Subcontractors performing any onsite work must be signatory to the appropriate union labor agreements. Subcontractors will be expected to provide 100% bonding and bond premiums will be reimbursed by Kiewit. All agreements issued on behalf of this project with a value of \$100,000 or greater must satisfy the LACMTA Prequalification Application requirements.

Kiewit intends to conduct itself in good faith with all DBEs and all other business enterprises regarding participation on this project. For further information or questions regarding this opportunity and to receive a Bid package, or to discuss this design-build project, requirements of the contract, licensing, project scheduling, insurance or bonding, please contact our project office.

Kiewit Infrastructure West Co.

PUBLIC LEGAL ADVERTISEMENTS

DPR CONSTRUCTION, INC.

RE-ADVERTISEMENT FOR SUBCONTRACTOR PREQUALIFICATION INTERIOR GLASS & GLAZING

Subject to conditions prescribed by the University of California, San Francisco Medical Center and DPR Construction, Inc. (CA License #599846), responses to the prequalification documents for a BEST VALUE LUMP SUM contract not to exceed the Maximum Acceptance Cost are sought from prospective subcontractors under the CM@Risk Fixed Fee Cost Plus with GMP Contract awarded to DPR Construction, Inc. for the following project:

UCSF MEDICAL CENTER AT MISSION BAY
University of California San Francisco Medical Center,
San Francisco, California
Project No. 05-307 |
DPR Project No. 08-28026-01
Bid Package 8DA-HOE
Interior Glass & Glazing

PREQUALIFICATION OF PROSPECTIVE BIDDERS

The University and DPR have determined that bidders who submit bids on this project must be prequalified. Prequalified bidders will be required to have the following California contractor's license: **Glazing - C17**

GENERAL DESCRIPTION OF WORK

Construction includes 42,000SF of Energy Center (EC), 212,000SF of OSHPD 3 Outpatient Building (OPB), and a 633,000SF, 289-bed, 6-story OSHPD 1 Hospital on a surrounding 14.5 acre site at UCSF Campus at Mission Bay.

Furnish and Install all interior glass & glazing to meet code and project requirements for the Hospital, Outpatient Building & Energy Center.

The Maximum Acceptance Cost: \$3,806,000

PREQUALIFICATION SCHEDULE

All interested subcontractors **MUST** attend a mandatory Pre-Bid Meeting in order to prequalify and to submit a bid. The mandatory Pre-Bid Meeting is on Tuesday, May 8, 2012 at 10AM at UCSF MC ICDC at 601 16th Street, San Francisco, CA 94158. **Subcontractors that have previously been prequalified for this scope of work will still need to attend the pre-bid meeting and resubmit Prequalification Forms.**

Subcontractors attending the Pre-bid Meeting will receive prequalification documents.

On **Tuesday, May 15, 2012, 5 PM**, the completed Prequalification questionnaire and associated documents will be received at the UCSF MC ICDC at 601 16th Street, San Francisco, CA 94158. The University will not accept completed prequalification questionnaires via FAX, and all prequalification questionnaires submitted must be sent so that they are received on or before, 5 PM on **May 15, 2012**.

Any prospective bidder found to be not prequalified as a result of the bidder's answers to this Prequalification Questionnaire will receive written response from the University Facility explaining the Facility's decision. If the bidder can refute some of the facts upon which the decision was based, the bidder can request a hearing at the Facility to appeal the decision. The decision of the Facility is final and not appeal-

able within the University of California.

The dates, times, and location set for receiving and opening of bids will be set forth in the Advertisement for Bids. The lowest responsible bidder will be selected on the basis of the best value to the University.

The objective criteria and methodology used to determine Best Value will be described in the Bidding Documents. The best value to the University is the selection resulting in the best combination of price and qualifications.

The University reserves the right to reject any or all responses to Prequalification Questionnaires and to waive non-material irregularities in any response received.

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each Bidder may be required to show evidence of its equal employment opportunity policy. The successful Bidder and its subcontractors will be required to follow the nondiscrimination requirements set forth in the Bidding Documents and to pay prevailing wage at the location of the work.

The work described in the contract is a public work subject to section 1771 of the California Labor Code.

Information submitted by the bidder shall not be open to public inspection to the extent that information is exempt from disclosure under the California Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7 of the Title of the Government Code).
