

Are the Benefits of Distributed Energy Resources Reaching Low-Income Communities?

By *Patty Durand*,

The electric utility has been evolving in recent years to be more customer focused. Smart meters, mobile apps, distributed energy resources (DERs) and smart home technology – to name just a few – are giving consumers unprecedented control of their home energy usage.

However, these programs and services of the “utility of the future” may not be reaching all customers. Low-income consumers, who are perhaps best suited to benefit from energy-saving programs and tech since they spend a larger percentage of their income on electricity, often report feeling distanced from their utility’s efforts.

As we found in our “Spotlight on Low-Income Consumers: Revisiting Their Needs and Wants” report, low-income consumers, by and large, don’t see their utility as a trusted partner to help solve their problems and often perceive a number of hurdles to engaging in energy-saving programs, including the upfront costs associated with some technologies and the lack of agency to make changes as renters.

Yet, despite this disconnect, there are some efforts underway to include low-income

consumers in the new energy programs and technologies, particularly renewable energy programs, which have a unique value proposition for this subset of customers.

Let’s take a look at two examples where renewable energy programs are being designed specifically for low-income consumers, one from a nonprofit institute in California and the other from an investor-owned utility in New York.

Working toward energy equity for all Californians

Based in Oakland, California, The Greenlining Institute is working to ensure that the benefits of DERs reach low-income communities and communities of color. According to Greenlining’s Energy Equity Director Stephanie Chen, low-income communities are disproportionately affected by fossil fuel generation and stand to benefit greatly from a transition to clean energy sources.

These benefits include not just lower monthly electric bills, but also better air quality, an influx of local jobs, more resilient homes and communities, and a sense of community pride that comes from producing clean, renewable energy directly in the community.

Greenlining is currently working on two projects in California that will deliver tangible benefits to low-income communities. The first is the Solar on Multifamily Affordable Housing (SO-MAH) program, which will roll out later this year and provide up to \$100 million annually over 10 years to install solar on rooftops and parking lots at affordable housing properties.

The bill that created this program also included provisions to promote local job growth and to ensure that renters – not just property owners – will realize benefits via savings on their monthly bills. In addition, the program provides renters with energy-efficiency retrofits, which can provide additional health and comfort benefits to the tenants. Some buildings will also have battery storage installed, which improves resilience.

The second major initiative for Greenlining is transportation electrification (TE), with an

California Sub-Bid Request Ads

Turner Construction Company
Request for Qualification (RFQ) and Invitation to Bid (ITB)
RFQ/Bid Period: August 6, 2018 – August 27, 2018

Turner Construction Company (Turner) is seeking qualified Subcontractors for the following Public Works project:

Skyline College
Bid No. 86735
Boiler Plant Project

Turner has been awarded this project for a new 1,500 GSF CMU boiler plant will be located within an existing parking lot at the South end of Skyline College campus. The boiler plant will replace the existing boiler plant located in Building 1 and will serve the whole campus. Construction is scheduled to start early 3rd quarter 2018 with completion in the middle of 2nd quarter 2019.

Only those Subcontractors who meet pre-qualification criteria and are deemed pre-qualified to perform work on their respective trades will be invited to submit a bid. Trade Subcontractors who are not pre-qualified will not be allowed to bid the project and their bids will be deemed non-responsive. Prequalification packages are encouraged to be submitted by August 13th 2018.

Turner is seeking RFQs and Bids for the following trade packages:

TRADE PACKAGE DESCRIPTION	EST. VALUE
<input type="checkbox"/> Selective Demo & Abatement	\$ 20,000
<input type="checkbox"/> Grading & Paving	\$40,000
<input type="checkbox"/> Site Utilities	\$ 200,000
<input type="checkbox"/> Site Concrete & Structural Concrete	\$160,000
<input type="checkbox"/> Masonry	\$125,000
<input type="checkbox"/> Structural Steel, Metal Decking & Misc Metals	\$75,000
<input type="checkbox"/> Roofing/Waterproofing	\$65,000
<input type="checkbox"/> Coiling Doors	\$15,000
<input type="checkbox"/> Painting	\$5,000

Prequalification: For information on how to Pre-Qualify with Turner, please contact Brittany Azevedo at 510.267.8231 or bazevedo@tcco.com.

Prevailing Wage: Pursuant to Labor Code Sections 1726-1861, et seq., including without limitation Labor Code Sections 1813 & 1776. Minimum wage rate for this project must comply with the current Highest General Prevailing Wage as determined by the State Department of Industrial Relations.

This is a Labor Agreement Project: This project is subject to the terms of the Program Stabilization Agreement (PLA) executed between the San Mateo County Community College District and the San Mateo County Buildings and Trades Council. Copies of the PLA are available on the District's Web at: <http://www.smccd.edu/facilities/community/>.

Plans and Specifications: Plans, Specifications, Requirements, and other job documents will be available August 6, 2018. Please go to <https://www.dropbox.com/sh/xmr2soerjpxvqd/AACQOyac4MPiVUwQSO03R3qa?dl=0> to access the documents.

Requests for Information: Pre-Bid Requests for Information (RFIs) are due Monday, August 13th at 2:00 p.m.

Emailed, faxed, or hand delivered bids are due no later than 2:00 p.m., MONDAY, August 27, 2018.

Kiewit Infrastructure West Co. (Kiewit) is seeking sub-quotes from Small Business from SCOOP Network; Small Disadvantaged Business, or a HUB zone business by the U.S. Small Business Administration; or business certified by the U.S. federal government's System of Award Management; or certified as a Disadvantaged Business Enterprise by Caltrans' or by the one of the signatory agencies within the California Unified Certification Program; or Metropolitan Water District of California's Regional/ Small Business Program; or certified by the City of San Diego's Small Local Business Enterprise and Emerging Local Business Enterprise Program; or certified as a Small Business or as a Disabled Veteran Business Enterprise by the California State Department of General Services.

Project Owner: San Diego County Water Authority

Project Name: San Diego 28 Flow Control and Alvarado Hydroelectric Facilities, Specification 647

Project Location: 5510 Kiowa Drive, San Diego, CA 92120

Project Bid Date / Time: August 30, 2018 at 2 pm PST.

Project Description:

In general, the Work to be completed under this Contract consists of the following principal elements: demolition of the interior of the existing hydroelectric facility, demolition of the existing flow control facility downstream isolation valve vault, demolition of the existing flow control facility, and modifications to the existing turnout valve vault; abandonment and removal of pipelines; procurement and installation of 48-inch and 42-inch cement mortar lined, tape coated and cement mortar coated or epoxy coated steel piping, a horizontal Francis turbine, generator and exciter, switchgear, valves, flowmeter, and appurtenances; connections to Pipeline 4 and coordination with City of San Diego and the Water Authority for shutdowns and connection work; construction of concrete vaults, stairs, and structural and architectural modifications to the existing Alvarado Hydroelectric Facility; installation of cathodic protection, plumbing, HVAC, electrical and instrumentation; site improvements including construction of storm drain pipe and structures, asphalt paving, and berms; earthwork, excavation, erosion and water control, pipe bedding, backfill, compaction, pipe materials, pipe supports, pipe welding, removal of existing pipe, pipe penetrations, coating and paint, testing and startup, site restoration and all other appurtenant work as required by the Contract Documents.

Kiewit is requesting quotes in the areas described, but not limited to: **Demolition, shoring and underpinning, utilities cathodic protection, asphalt paving, ready mix supplies, concrete reinforcing installation, concrete drilling and saw cutting, masonry work, metals, welding services, steel pipe (fabricated only), metal doors and frames, overhead doors, windows, plaster and gypsum board (acoustical treatment), painting and coating, louvers and vents, turbine equipment (hydroelectric), water supply and treatment equipment, supply and treatment pump, cathodic protection, measurement and control instrumentation, bolts and gaskets, hangers and support, valves, pipes and tubes, heating, ventilating and air conditioning (HVAC), electrical work and generator assemblies.**

All responsive subcontractors must possess a valid California Contractor's license and provide acceptable insurance. Responsible subcontractors and material contractors will be required to provide bonding for 100% of their contract value. Bond premium will be reimbursed by Kiewit. Plans and specifications are available at the address listed above or provided to you through Kiewit's electronic use of SmartBidNet by contacting Kiewit.

Kiewit intends to conduct itself in good faith with all Small Businesses and all other business enterprises regarding participation on this project. For further information, assistance or questions regarding the project, to discuss your specialty or scope of work, project schedule, requirements of the contract, licensing, insurance or bonding, equipment, supplies, materials, related assistance or services, please contact the Lead Estimator listed above.

Construction employment rises in 45 states and D.C.

From July 2017 to July 2018 while 29 states and D.C. add construction jobs for the month

Texas and Nevada Have Biggest Annual Job Increases While New Jersey and South Carolina Trail; Texas, New Hampshire and New Mexico Have Largest Monthly Gains as Mississippi and Utah Lag

Forty-five states and the District of Columbia added construction jobs between July 2017 and July 2018, while 29 states and D.C. added construction jobs between June and July, according to an analysis by the Associated General Contractors of America of Labor Department data released today. Association officials cautioned that continued job gains may depend on swiftly implementing new training and education legislation to equip students and workers to enter the industry.

"Construction job gains over the past year were more widespread across the country than at any time since the beginning of 2016," said chief economist Ken Simonson. "These results show that contractors are still optimistic about future construction activity. But it will be hard to sustain the increases unless more students learn of these opportunities and receive appropriate training."

Texas added the most construction jobs during the past year (57,600 jobs, 8.1 percent). Other states adding a large number of new construction jobs for the past 12 months include California (38,500 jobs, 4.7 percent), Florida (38,200 jobs, 7.5 percent), Georgia (18,300 jobs, 10.1 percent) and Arizona (14,600 jobs, 10.0 percent). Nevada added the highest percentage of new construction jobs during the past year (10.9 percent, 9,100 jobs), followed by Georgia, Arizona, New Hampshire (9.8 percent, 2,600 jobs) and Oregon (9.1 percent, 8,900 jobs). Construction employment reached a record high in Massachusetts, Oregon and Texas.

Only five states shed construction jobs between July 2017 and 2018. The largest and steepest percentage losses occurred in New Jersey (-6,000 jobs, -3.9 percent), followed by South Carolina (-2,300 jobs, -2.3 percent), Missouri (-1,200 jobs, -1.0 percent), Kentucky (-800 jobs, -1.0 percent) and Oklahoma (-700 jobs, -0.9 percent).

Texas had the largest one-month job gain (10,500 jobs, 1.4 percent) among the 29 states and D.C. that added construction jobs between June and July, followed by Florida (4,500 jobs, 0.8 percent), Ohio (2,200 jobs, 1.0 percent) and Indiana (2,000 jobs, 1.4 percent). The states that added the highest percentage of construction jobs for the month, 2.1 percent, were New Mexico (1,000 jobs) and New Hampshire (600 jobs).

WIFIA Water Infrastructure loans receive record number of Letters of Interest

More than \$9.1 billion in collective loan requests for 2018 Water Infrastructure Finance and Innovation Act Program funding

The U.S. Environmental Protection Agency (EPA) received 62 letters of interest (LOIs) collectively requesting \$9.1 billion in loans from a wide range of prospective borrowers in response to the Water Infrastructure Finance and Innovation Act (WIFIA) program's 2018 Notice of Funding Availability.

"The more than \$9 billion in WIFIA loans requested is nearly double our lending capacity for 2018, demonstrating the critical need for investment in our nation's water infrastructure and strong support for EPA's Water Infrastructure Finance and Innovation Act program," said EPA Office of Water Assistant Administrator David Ross. "EPA looks forward to reviewing the letters of interest we received as we advance the President's infrastructure agenda and help communities better protect public health and water quality."

EPA received LOIs from prospective borrowers located in 24 states, the District of Columbia, and Guam for a wide variety of projects, including wastewater, drinking water, water recycling, desalination, stormwater management, and combined approaches. More than half of the LOIs addressed one or both of EPA's 2018 WIFIA Notice of Funding Availability (NOFA) priorities: reducing exposure to lead and other contaminants in drinking water systems and updating aging infrastructure. While the majority of prospective borrowers are municipal government agencies, other prospective borrowers include small communities, public-private partnerships, corporations, and a tribe. See the full list of letters of interest submitted.

In April 2018, EPA announced the availability of additional WIFIA funding that could provide as much as \$5.5 billion in loans. Leveraging private capital and other funding sources, these projects could support \$11 billion in water infrastructure investment and create up to 170,000 jobs. Prospective borrowers responding to the 2018 NOFA were required to submit a letter of interest by July 31, 2018. EPA is currently evaluating the submitted letters of interest for project eligibility, credit worthiness, engineering feasibility, and alignment with WIFIA's statutory and regulatory criteria. Through this competitive process, EPA selects projects it intends to finance and invites them to submit a formal application this fall.

Construction employment rises in 45 states and D.C.

Continued from page 8

From June to July, construction employment declined in 17 states and was unchanged in four: Alaska, North Dakota, Tennessee and Vermont. California lost the most construction jobs in July (-1,700, -0.2 percent), followed by Pennsylvania (-1,600 jobs, -0.6 percent), Mississippi (-1,600 jobs, -3.1 percent) and Utah (1,400 jobs, -1.4 percent). Mississippi lost the highest percentage of construction jobs for the month, followed by Utah, Maine (-1.0 percent, -300 jobs), Alabama (-0.9 percent, -800 jobs) and Oklahoma (-0.9 percent, -700 jobs).

Association officials said that despite the employment increases in most states, end-of-month job openings keep rising, indicating the difficulty contractors face in finding workers with

appropriate skills. They urged federal agencies and state and local officials to swiftly implement the newly enacted federal career and technical education bill that increases funding and makes it easier for education officials to craft construction-focused education programs.

"Contractors stand ready to help prepare more workers for rewarding construction careers," said Stephen E. Sandherr, the association's chief executive officer. "School districts, community colleges and other agencies need to do their part to inform and prepare students and young adults to pursue high-paying careers in the field."

Are the Benefits of Distributed Energy Resources Reaching Low-Income Communities?

Continued from page 1

emphasis on ensuring that TE benefits the communities that need it most. According to Chen, about 40 percent of California's greenhouse gas emissions are due to its transportation sector, and these pollutants disproportionately affect low-income communities and people of color, since these communities are more likely located near to major highways, ports and airports. For these communities, there are clear environmental and public health benefits from widespread TE. In addition, EV charging during the day can help tame the duck curve, ensuring that Californians get the most benefits from their investments in solar generation.

Greenlining's TE strategy for California includes additional financial incentives for purchasing electric vehicles (EVs) for low- and moderate-income families, affordable financing provisions for these consumers, accessible EV charging for low-income communities and expanded car-sharing programs.

One of the most exciting initiatives, according to Chen, is electrified public transit. The batteries from large buses can be scheduled to power the grid when not in use, which can bring in additional revenue for the transit agencies. This, in turn, can allow these agencies to purchase more buses and improve services for the community.

Con Edison testing solar for historically underserved markets

In New York, the Reforming the Energy Vision (REV) initiative has been driving Con Edison to expand the use of DERs throughout New York City and Westchester County, and one part of these efforts is the Shared Solar Program, which aims to open participation in renewables to historically underserved markets, notably renters and low-income consumers.

While residential solar has expanded considerably in Con Edison's service territory in the past several years, solar developers have not focused on low-income consumers since they see a lot of risk with credit scores and payment behavior. However, REV has enabled Con Edison, which is usually not allowed to own generation, to own and operate solar generation if there were customers whose needs were not being met by developers.

Con Edison presented their case to own and operate community solar to the New York Public

California Sub-Bid Request Ads

Sukut Construction seeks quotes from City of San Diego certified & qualified SLBE-ELBE Subcontractors, Suppliers, and Service Providers for the following (but not limited to) work:

Asphalt Paving, CCTV, Coldmill & Grinding, Erosion Control, SWPPP, Landscaping, Striping & Signage, Welding, Aggregate, Asphalt, Concrete, Pipeline Materials, Steel Pipe

**OTAY RANCH VILLAGE 8 WEST
City of San Diego Otay 2nd Pipeline Relocation**

Chula Vista, CA

Otay Land Company, LLC

BID DATE August 30, 2018 @ 2:30 p.m.

Sub & Vendor Bids Due Prior

Sukut Construction, LLC

4010 W. Chandler Avenue, Santa Ana, CA 92704

Contact: Rick Welshiemer

Phone: (714) 540-5351 • Fax: (714) 545-2003 • Email: estimating@sukut.com

Plans/specs are available for viewing at our office by appointment, or via Sukut FTP at no cost. Subcontractors must be prepared to furnish 100% performance and payment bonds and possess current Contractor's License, DIR registration, insurance and workers' comp coverage. Sukut Construction will assist qualified subcontractors in obtaining necessary equipment, supplies, or materials, bonds, insurance, and/or lines of credit. Subcontractors/Vendors will be required to sign Sukut's Standard Subcontract/Purchase Order. Copies are available for examination. Please contact Sukut Construction for assistance in responding to this solicitation.

Sukut Construction's listing of a Subcontractor in its bid to the agency is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with Subcontractor's price quotes. Quotations must be valid for the same duration as specified by Owner for contract award.

Are the Benefits of Distributed Energy Resources Reaching Low-Income Communities?

■ Continued from page 9

Background

Established by the Water Infrastructure Finance and Innovation Act of 2014, the WIFIA program is a new federal loan and guarantee program at EPA that aims to accelerate investment in the nation's water infrastructure by providing long-term, low-cost supplemental credit assistance for regionally and nationally significant projects.

EPA is currently processing applications from the 2017 WIFIA NOFA. To date, EPA has issued over \$1 billion in WIFIA credit assistance through loans to King County (Washington), the City of Omaha (Nebraska), the San Francisco Public Utilities Commission (California), and the Orange County Water District (California).

According to EPA's estimate of national drinking water and wastewater needs, over \$743 billion is needed for water infrastructure improvements. EPA's WIFIA program plays an important part in fulfilling this need and in the President's Infrastructure Plan, which calls for expanding project eligibility.

Are the Benefits of Distributed Energy Resources Reaching Low-Income Communities?

■ Continued from page 11

Service Commission, and the program was approved in August 2017. Con Edison was enabled to spend \$9 million in capital funds to add solar arrays to Con Edison-owned rooftops and facilities to deliver renewable energy to low-income customers.

The Share Solar Program expects to serve about 1,000 customers in the low-income electric program, and the customers who enroll will receive an additional bill credit from the solar on top of the credits they're already receiving from the low-income program, which is about \$10-20 on each month's bill.

Since the initial Shared Solar Program will only reach a fraction of Con Edison's low-income customers, Con Edison is focusing on community-based outreach to customers that live near the shared solar sites, those that pass the solar panels on their way to work, schools or the grocery and can see the con-

nection between these renewable resources in their neighborhood and the credit on their bills.

A major aim of the program is to better understand low-income consumers and their interest in renewables, so that other solar industry players can be educated on the opportunities for serving this subset of consumers. It's also important to note that the Shared Solar Program is only one of several programs under REV that aim to bring the benefits of renewables to low- and moderate-income customers.

The Shared Solar Program implementation plan was filed on November 30, 2017, and bids for the solar installations were received in March of this year. Operational solar is expected by the middle of next year, so it will be interesting to see the results of the program toward the end of the decade.

Conclusion

Lower-income consumers are an important group of customers for every electric utility; however, there are challenges that make this group hard to reach. For example, low-income consumers are typically less interested in new energy technologies, and they don't often see their utility as a trusted partner to help solve their problems.

These hurdles can be overcome, however, as evidenced by the programs noted above and other successful, innovative programs throughout the country. As these programs in California and New York mature, it will be interesting to watch and see whether they succeed in engaging low-income customers. After all, the benefits of the smart energy future should be accessible to all – not only those who can afford it.

Public Legal Notices

CITY & COUNTY OF SAN FRANCISCO
DEPARTMENT OF PUBLIC WORKS

**Contract No. 1000010915
DAVIES SYMPHONY HALL
ELEVATOR MODERNIZATION**

Sealed bids will be received at 1155 Market Street, 4th Floor, San Francisco, California 94103 until **2:30:00 p.m. on September 12, 2018**, after which they will be publicly opened and read. Digital files of Bid Documents, Plan Holders Lists, and Addenda may be downloaded at no cost from the Public Works Electronic Bid Documents Download site at www.sf-publicworks.org/biddocs. Please visit the Contracts, Bids and Payments webpage at www.sfpublishworks.org for more information (click on Resources > Contractor Resources). Notices regarding Addenda and other bid changes will be distributed by email to Plan Holders.

The Work is to be done under this contract consists of three elevator modernizations at 201 Van Ness Avenue, San Francisco, California, all as shown on the drawings and as specified in these Specifications. The time allowed for completion is 812 consecutive calendar days. The Engineer's estimate is approximately \$1,400,000. For more information, contact the Project Manager, **Matt Jasmin** at 415-557-4775.

On July 1, 2014, the registration program under section 1725.5 of the California Labor Code went into effect. The program requires that all contractors and subcontractors who bid or work on a public works project register and pay an annual fee to the California Department of Industrial Relations ("DIR").

No contractor or subcontractor may be listed in a bid or awarded a contract for a public works project unless registered with the DIR as required by Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].

This Project shall incorporate the required partnering elements for **Partnering Level**

1. Refer to Section 01 31 33 for more details.

Pursuant to San Francisco Administrative Code ("Administrative Code") Section 6.25 and Chapter 25 of the Environment Code, "Clean Construction" is required for the performance of all work.

This Contract is subject to the requirements of Administrative Code Chapter 12X, which prohibits the City from entering into any Contract with a Contractor that has its United States headquarters in a state with laws that perpetuate discrimination against LGBT populations ("Covered State") or where any or all of the work on the contract will be performed in any of those states. A list of states on the Covered State List can be found at: <https://oag.ca.gov/ab1887>.

The Specifications include liquidated damages. Contract will be on a Lump Sum Bid Items With Unit Prices basis. Progressive payments will be made.

The Contract will be awarded to the lowest responsible responsive bidder.

A bid may be rejected if the City determines that any of the bid item prices are materially unbalanced to the potential detriment of the City.

Bid discounts may be applied as per Administrative Code Chapter 14B. The LBE Subcontracting Participation Requirement and Good Faith Efforts are not required for this contract. Other CMD requirements shall apply. Call Selormey Dzikunu at 415-554-8369 for details.

A pre-bid conference will be held on **August 22, 2018 at 9:00 a.m.** at 300 Hayes Street, San Francisco, CA 94102.

For information on the City's Surety Bond Program, call Jennifer Elmore at (415) 217-6578.

A corporate surety bond or certified check for ten percent (10%) of the amount bid must accompany each bid. Administrative Code Section 6.22(a) requires all construction greater than \$25,000 to include performance and payment bonds for 100% of the contract award.

Class "B" or "C-11" license required to bid.

In accordance with Administrative Code Chapter 6, no bid is accepted and no contract in excess of \$600,000 is awarded by the City and County of San Francisco until such time as the Mayor or the Mayor's designee approves the contract for award, and the Director of Public Works then issues an order of award. Pursuant to Charter Section 3.105, all contract awards are subject to certification by the Controller as to the availability of funds.

Minimum wage rates for this project must comply with the current General Prevailing Wage as determined by the State Department of Industrial Relations. Minimum wage rates other than applicable to General Prevailing Wage must comply with Administrative Code Chapter 12P, Minimum Compensation Ordinance.

This Project is subject to the requirements of the San Francisco Local Hiring Policy for Construction ("Policy") as set forth in Administrative Code Section 6.22(g). Bidders are hereby advised that the requirements of the Policy will be incorporated as a material term of any contract awarded for the Project. Refer to Section 00 73 30 of the Project Manual for more information.

Bidders are hereby advised that the Contractor to whom the Contract is awarded must be certified by the Contract Monitoring Division as being in compliance with the Equal Benefits Provisions of Chapter 12B of the Administrative Code within two weeks after notification of award.

If a bidder objects on any ground to any bid specification or legal requirement imposed by this Advertisement for Bids, the bidder shall, no later than the 10th working day prior to the date of Bid opening, provide written notice to the Contract Administration Division, San Francisco Public Works, setting forth with specificity the grounds for the objection.

Right reserved to reject any or all bids and waive any minor irregularities.
