

5 Ways to Keep Your Crew Safe During Roadway Projects

Photo by www.constructconnect.com

[Article was originally posted on www.constructconnect.com]

By *Chris Galloway*

Safety is always the number one priority in any construction project. Anyone that tells you differently hasn't been in the business long enough. In construction, a safe site is a happy and productive one. At the end of the day, ensuring everyone's safety will keep employee morale up, costs down, and ensure deadlines are met efficiently. It's best to think of safety as the umbrella that every other component of a job falls under. The principles of safety can be complex when you break them down, but there are ways to simplify the goal of a safe and friendly job site.

Create a Pervasive Culture of Safety

Safety isn't just a checkbox to tick off of a checklist tucked away in a Manager's office. It should be an ingrained component to your construction company's culture and ethos. The first step to ensuring safe working conditions is to create a company culture that puts safety first at all times and never forgets that goal no matter what is happening out in the field.

Creating a culture of safety can be as simple as holding regular safety seminars. Many companies hold these types of meeting twice a month. And while it's tough to get the team together in one room all on the same morning before the work-day starts, it's best if everyone attends in person. OSHA has many resources for putting together presentations on safety and will even provide small quizzes to go with each topic. Having your team listen to your presentation, take a quiz, and sign off on that quiz forces them to stay engaged and gives you a document to file away to show potential clients that you're serious about safety. Before you know it, you'll see how quickly everyone remembers their training and applies it in the field. And soon enough, you should see fewer accidents, large or small.

Provide the Proper Attire

As a company, it's your responsibility to provide the correct attire for your crew. With roadway projects, it's most important to outfit your team with high visibility gear. That includes vests, jackets, coveralls, rainwear, and harnesses. If you're unsure of what to invest in, you can enlist the help of the American National Standard

for High-Visibility Apparel (ANSI 107-1999), a federal agency founded in 1999 that focuses on preserving best practices and high standards for high-vis apparel. The program was founded due to the high rate of construction fatalities from car accidents. Since its creation, the number of workers killed on the roads has plummeted.

Not all high-vis gear is created equal. High visibility applications are diverse and contingent upon weather conditions, time-of-day, and many other factors. Do your research and outfit your team with the appropriate attire based on where they're working and the time of day. There is attire for daylight visibility as well as three separate classes of nighttime attire. Choose wisely and don't leave your time exposed.

Make Your Team Accountable

The biggest mistake you can make as a team is to cultivate an atmosphere where your team members are afraid to speak up or speak out. Culpability is one of the greatest assets to safety. If everyone knows their actions have clear and decisive consequences, then everyone will begin to think

AECOM

300 California Street • San Francisco, CA 94104

City and County of San Francisco Public Works RFQ for Joint Development Technical Advisory Services for the SFMTA Potrero Yard Modernization Project (SF Public Works Sourcing Event ID: 000002559)

Contact: To be considered for this team, please provide the following items by noon, **Monday, August 5:**

- (1) Letter of Interest
- (2) a copy of your current LBE/MBE/WBE/OBE certification
- (3) brief qualifications package
- (4) fee schedule.

All information should be provided electronically in MS Word or PDF format to Elaine Chan at elaine.chan@aecom.com. AECOM will also provide copies of the RFQ document upon request. Be advised that an AECOM representative will contact qualified respondents and request additional information regarding this solicitation. Thank you for your response.

Specialty: AECOM is committed to achieving the goals set forth for the City and County of San Francisco Public Works Request for Qualifications for Joint Development Technical Advisory Services

for the SFMTA Potrero Yard Modernization Project (SF Public Works Sourcing Event ID: 000002559). AECOM would welcome information from qualified subcontractors in the following professional service areas: Acoustical Engineering, Architectural, Surveying, Value/Quality Engineering, Fire Protection Engineer, Financial Services, Environmental Advisory Services, Construction Management.

To qualify as a subconsultant that will provide technical services described in the RFQ for this contract, firms must possess the following:

- Must be able to provide one or more of the above noted services, with experience in transit facilities and/or residential, commercial, and/or multi-use facilities in an urban environment
- Must have demonstrated experience with clients in the local San Francisco market
- Prior experience working with the City & County of San Francisco, including SF Public Works and SFMTA, is preferred
- Must have knowledge and understanding of City and County of San Francisco regulations, codes and laws
- Have key professional personnel who possess appropriate licenses, registration or certifications.

PROJECT: State Hwy Rte 10/60 Separation to Rte 10/111 Separation

Steel (Handrail, Gratings, Bridge Gussets, Plate Steel, etc.), Mobility Studies - Disabled, Monorail, Off-Site Transportation & Disposal, Oversight of Fuel Delivery, Painting and Coating (sub), Paper Supply, Pavement Markings (sub), Pest Control, Pile Driving, Piles (Steel, Concrete, CIDH), Pipe Supply (Concrete, CMP, PVC, HDPE), Pipeline/Drain Inspection/Cleaning, Plumbing, Portable Restrooms, Pre-Cast Concrete Supply (Box Culvert, Inlets, MH), Pumping (for Drainage), QA/QC, Rail/OTM Supply, Ready Mix, Reinforcing Steel (sub/supply), Repair Work Coaches/Locomotives, Safety Studies, Safety Gear (Gloves/Hard Hats), Sawcut/Demo (sub), Seats, Shoring Rental, Shrub and Tree Transplanting, Signage (supply), Signage (supply), Site Clearing, Site Concrete, Site Concrete, Site Demolition, Slope Protection & Erosion Control, Social Media Advertising/Marketing Consultant, Soils Testing, Steel Components, Street Plates (rental), Striping, Structural Steel (supply & erection), Support Activities for Rail Transportation, Survey, Temporary Facilities and Controls, Timber Supply, Track Geometry Testing, Traffic Control, Traffic Signs and Signals, Trash/Recycle Dumpster Services, Tree Trimming, Tunneling, Ultrasonic Inspection, Underground (Water/Sewer Lines), V-Ditch (sub), Vegetation Control, Waste Removal, Water Truck Operated, Welding, Welding Inspection, Wheels, Windows, Wood Tie Supplier.

PLANS & SPECIFICATIONS: Project Bid Documents may be obtained from the Project Owner or you may view them at BBII's office by appointment. For your convenience, you may also view and download plans by following this link maintained by BBII: <https://secure.smartinsight.co/#/PublicBidProject/458623>

Subcontractors and Suppliers are responsible for reading and acknowledging all Specifications and Addenda.

BONDING & INSURANCE: Subcontractors may be required to furnish performance and payment bonds in the full amount of their subcontract, by an admitted surety subject to approval by BBII. Bonding cost assistance is available. Subcontractors should expect to sign the standard BBII subcontract agreement and provide a waiver of subrogation. Please contact BBII at (720) 643-2292 for bonding and other types of assistance.

QUESTIONS: For questions regarding the bid, please contact Dominic Mascia at (720) 643-2292, fax: (877) 763-4002, email: ewr@balfourbeattyus.com, or in writing to: 5050 Business Center Drive, Suite 250, Fairfield, CA 94534.

Quotations must be valid for the same duration as specified by the Owner for contract award. Conditions or exceptions in Subcontractor's quote are expressly rejected unless accepted in writing. Subcontractor scope (including any conditions or exceptions) is required one week prior to bid deadline, to allow proper evaluation. To assist DBE Subcontractors and Suppliers, we will divide total scopes into smaller tasks or quantities, and if necessary adjust schedules to permit maximum participation by DBE firms. Subcontractors are required to indicate all lower-tier DBE participation offered on their quotation.

5 Ways to Keep Your Crew Safe During Roadway Projects

Continued from page 1

longer about every chance they take, or any corner they cut.

Let your team know that they're accountable for everything they do. Show them that every safety precaution they ignore will eventually come back to them and they'll need to answer to it. This might be a challenging way to manage your workforce but once you've established that you take a hard line on safety and accountability then everything else will fall into its place. You want to instill in your team that they need to do the right thing especially when no one's watching.

Practice UV Safety

Working as part of a road crew means having very little reprieve from the hot sun. And a cloudless sky will do everything it can to deplete your energy, burn your skin, and severely dehydrate you. It's no secret that there's a culture of "manning up" in the construction industry. All that translates to is systematic neglect of one's health. Heat-stroke is no joke, and it's only one danger caused by the sun.

Instill UV safety into your team. Provide them with breathable attire that is naturally UV-blocking. Most of all, provide them with plenty of high SPF sunscreen and encourage them to use it and reapply it periodically throughout the day. At best, the sun will give you a wicked sunburn. At its worst, high doses of UV radiation from the sun is a well-known cause

of melanoma, which is a vicious and lethal form of cancer that no one wants.

Every job site should also have a constant supply of fresh, cold water. Because your team is out in the sun all day, they run a much higher risk of suffering from dehydration, which is something not even regular consumption of water can prevent on the hottest days. With that in mind, encourage your team to bring with them, or even provide for them, packets of electrolyte mix that they can mix into their water. Electrolytes will hydrate you much faster and much more efficiently than just plain water.

Work Smarter, Not Harder

Robots are far away from replacing the manpower and human intuition that your team provides on a day-to-day basis. But there is plenty that a machine can do to streamline your projects and give your workers a reprieve from hard labor.

For instance, LiDAR is coming into wide use as a supplement to a conventional survey crew. Today, you can use vehicle-mounted 3D scanning technology to survey terrain from the comfort of a truck. This keeps your crew off the roads, out of the sun, and gives them more time to work on the finer details of a job. Many companies are even investing in drone technology, which can survey land, provide extremely detailed aerial mapping, and geospatial measurement all on its own. Investing in technology comes with a learn-

ing curve and it's not cheap, but it's one of those long-term investments that pays for itself in the long run.

Make Safety Part of Everything You Do

Every decision you make on a job site, especially on the roadway, should ask the question "does this increase or lessen the integrity of our safety?" If you're constantly asking this question, then you're already well on the way to sustaining a safe work environment. In the case of roadway construction, it's that much more important to do everything you can to ensure the safety of your team because there are so many other factors you can't easily control.

But most of all, don't shy away from making long-term investments that will take some of the load off your crew. Working smarter is never a bad thing—it frees you up for more challenging tasks. And every decision that takes your team off the side of the road and lets them recharge should be seen as an achievement in your efforts to run a safe and thoughtful construction company.

Chris Galloway is the owner of US Hammer Jackhammers and Postdrivers. He's been a contractor his whole life, owns a rental equipment company and runs it all out of Woodland, California.

SMALL **BUSINESS** EXCHANGE

Public Legal Notices

OAKLAND UNIFIED SCHOOL DISTRICT

DOCUMENT 00 11 12 CUPCCAA - NOTICE TO BIDDERS

Notice is hereby given that the Oakland Unified School District (hereinafter referred to as "Owner") will receive sealed bids prior to the date and time stated for the Bid Opening for the award of a contract to construct the:

Roosevelt Middle School – Sewer Repair Project 1926 E. 19th Street, Oakland, CA 94606 Project No. 19125

Project consists of:

Replace approximately 523ft of 6' inch sewer from main building of the school to the City Street, back fill and compact all trenches, replace all concrete and asphalt affected by pipe replacement. Remove all construction related debris from job site to discard.

Engineer's Estimate: **\$200,000**

Project Manager for this project is **Kenneth Watts**, he can be reached at **(510) 277-6759**.

This Contract IS subject to prequalification pursuant to Public Contract Code section 20111.6.

The Prequalification package can be found by going to the OUSD home page: ousd.org > Offices and Programs > Facilities Planning & Management Department > For Contractors and Developers > Bids and Requests for Proposals > Packages are towards the Bottom of page.

This Contract is subject to the District's Project Labor Agreement

The full version of OUSD's latest Project Labor Agreement can be found by going to the OUSD home page: ousd.org > Offices and Programs > Facilities Planning & Management Department > For Contractors and Developers > Bids and Requests for Proposals > Bid Information > 2016 PLA – Project Labor Agreement.

Public works projects shall be subject to compliance monitoring and enforcement by the Department of Industrial Relations. For all projects over Twenty-Five Thousand Dollars (\$25,000), a contractor or subcontractor shall not be qualified to submit a bid or to be listed in a bid proposal subject to the requirements of Public Contract Code section 4104 unless currently registered and qualified under Labor Code section 1725.5 to perform public work as defined by Division 2, Part 7, Chapter 1 (§§1720 et seq.) of the Labor Code. For all projects over Twenty-Five Thousand Dollars (\$25,000), a contractor or subcontractor shall not be qualified to enter into, or engage in the performance of, any contract of public work (as defined by Division 2, Part 7, Chapter 1 (§§1720 et seq.) of the Labor Code) unless currently registered and qualified under Labor Code section 1725.5 to perform public work and proof of registration is provided.

1. Contract Documents will be available on or after **Wednesday, August 14, 2019**, for review at **East Bay Blue Print, located at 1745 14th Avenue, Oakland, CA 94606**. All requests should be addressed Attention: Sandy Petty. Plans can be ordered by:

Ph: 510-261-2990 Fax: 510-261-6077

Email: ebbp@eastbayblueprint.com,

Attn: Sandy. Online using the Plan Command System at www.eastbayblueprint.com or plans can be delivered to a place of business, at requester's own expense. Payment for plan sets must be made with East Bay Blue Print and are **NON-REFUNDABLE**

In addition, Contract Documents are available for bidders' review at the following builders' exchanges:

Builder's Exchange of Alameda County
McGraw Hill Construction Data
San Francisco Builder's Exchange
Reed Construction Market Data
Contra Costa Builder's Exchange
Marin Builder's Exchange

The Contract Time shall be **Nineteen (19)** calendar days, and liquidated damages for delay shall accrue. See Article III of the Agreement for details.

Bids must be sealed and filed in the Business Office of the Owner at:

**Front Desk
Facilities Planning & Management
955 High Street, Oakland, CA 94601**

on **Wednesday, September 4, 2019 until 2:00 p.m.** on the clock designated by the Owner or its representative as the bid clock, after which time the bids shall be opened. No bid will be accepted by the Owner after this time. Facsimile (FAX) copies of the bid will not be accepted.

Mandatory pre-bid site visit will be held on **Wednesday, August 21, 2019 at 10:00 a.m.** located at: **Front Entrance of Roosevelt Middle School**. Bidders not attending the **site visit** will be disqualified.

Bids must be accompanied by a bidder's bond, cashier's check, or certified check for at least ten percent (10%) of the amount of the base bid and made payable to the Owner, as detailed in the Contract Documents.

Pursuant to the Contract Documents, the successful bidder will be required to furnish a Payment (Labor and Material) Bond in the amount of one hundred percent (100%) of the Contract Sum, and a Faithful Performance Bond in the amount of one hundred percent (100%) of the Contract Sum.

The successful bidder will be allowed to substitute securities or establish an escrow in lieu of retainage, pursuant to Public Contract Code Section 22300, and as described in the Agreement Between Owner and Contractor and General Conditions.

The Owner will not consider or accept any bids from contractors who are not licensed to do business in the State of California, in accordance with the California Public Contract Code, providing for the licensing of contractors. In accordance with Section 3300 of said Code, the bidder shall have a **Class "C-42" – Sanitation System and Class "A" – General Engineering Contractor license** and shall maintain that license in good standing through Completion of the Contract and all applicable warranty periods. For all projects over Twenty-Five Thousand Dollar (\$25,000), the bidder shall state the public works contractor registration number on the Designation of Subcontractors form for each subcontractor performing more than one-half of one percent (0.5%) of the bidder's total bid.

The Director of Industrial Relations of the State of California, in the manner provided by law, has ascertained the general prevailing rate of per diem wages and rate for legal holidays and overtime work. The Contractor must pay for any labor therein described or classified in an amount not less than the rates specified. Copies of the required rates are on file at the Owner's business office and are available on request.

SAN FRANCISCO BAY AREA RAPID TRANSIT DISTRICT

PUBLIC NOTICE: BAY AREA RAPID TRANSIT DISTRICT

The San Francisco Bay Area Rapid Transit District (District) has updated its proposed Triennial Disadvantaged Business Enterprise (DBE) goal for Federal Transit Administration (FTA) assisted projects during fiscal years 2020 through 2022 (October 1, 2019 - September 30, 2022).

The District will achieve its DBE goal using race and gender-conscious measures, as well as race and gender-neutral measures. The District proposes an overall goal of 16% for FFY 2020-2022 for FTA-assisted projects, of which 10% is race-conscious and 6% is race-neutral.

If you would like to provide comment on the District's proposed Triennial DBE goal, please send your comments to Office of Civil Rights Program Manager Joseph Towner:
