

Kiewit Seeks Millions in Interest After Court Victory on L.A. Power Project

A big jury award leads to a big contested interest payment

The Scattergood project

By Scott Van Voorhis,

Kiewit Corp. is seeking millions in interest payments on the heels of its \$45-million federal court victory in a dispute with Los Angeles officials over delays to a major power plant project.

Kiewit contends it is owed anywhere from \$9.7 million to more than \$11 million in interest on the tens of millions of dollars in additional work it says it performed on a new city-owned power plant but was never paid for after the project's completion in late 2015, according to filings by Kiewit in U.S. District Court for the Central District of California.

The chief legal counsel for Los Angeles, Michael Feuer, is disputing Kiewit's claims for millions in interest payments, with city officials saying they are weighing whether to appeal the \$45-million judgement in favor of the contractor.

Kiewit claimed it had rung up the extra work and costs after it was forced to deal with delays and equipment repairs when a shipment of power plant components from Korea was damaged by a storm at sea.

But the city argued in federal court that it, not Kiewit, was the victim, with the Los Angeles Dept. of Water and Power (LADWP) forced to deal with the fallout from delays to the crucial power plant project. Kiewit was already behind schedule before the storm the giant contractor blamed for its delays and additional costs occurred, the city contends in court filings.

"We are disappointed with the decision reached in this case and will evaluate our legal options in the coming days," read a statement by LADWP officials.

While a federal Jury on June 6th mostly sided with Kiewit, it did award the city a \$1-million counterclaim that the contractor failed to meet the terms of the contract.

"We are also encouraged by the fact that the jury found Kiewit unfairly interfered with DWP's rights to receive the benefits of the contract and awarded damages to DWP as well," LADWP officials stated.

Separately, city officials sued General Electric, which made the power plant equipment, winning \$19 million in a settlement with the company. That money will help defray the cost of the additional \$45 million the city is now on the hook to pay Kiewit on the \$441-million contract.

"GE generally does not comment on litigation, but we are pleased that we've resolved this matter," the company said in a statement.

Kiewit inked the contract in April 2013 to build the Scattergood 3 Repowering Project for LA's water and power department, taking an older steam turbine out of service and replacing it with a modern and more environmentally friendly system. LADWP entered into a separate agreement with General Electric to provide the plant's equipment.

The project, which broke ground in August 2013, included the design and construction of a combined cycle plant and power units that use a heat recovery steam generator, or HRSG, to produce additional power by recycling the exhaust heat of the combustion turbine. The project also included the design and construction of simple cycle or "peaking" units, which include a combustion turbine but no HRSG.

Kiewit had prepared the construction site for the arrival of the HRSG modules, with cranes ready to lower them in place, when disaster struck on April 21, 2014.

Stack Lost in Storm at Sea

A cargo ship carrying the equipment from Korea to California got caught in a "severe storm" in the Pacific, with both HRSGs damaged and the stack on which they were to be positioned lost at sea.

Kiewit Seeks Millions in Interest After Court Victory on L.A. Power Project

Continued from page 1

When the cargo ship finally arrived in Long Beach after an emergency pit stop in Hawaii, Kiewit repaired eight different HRSG modules, while two were so badly damaged they had to be refabricated in Korea. Deliveries of a steam engine turbine and combustion turbine were also delayed, according to court filings.

At the direction of LADWP officials, Kiewit says it accelerated and resequenced its construction plans, with substantial completion of the project by Dec. 27, 2015, and some parts completed earlier than that.

But LADWP officials continued to order changes, keeping Kiewit on the site and delaying final completion, the company contends in its court filings.

When Kiewit submitted an invoice for the additional costs triggered by the additional work and delays, LADWP officials refused to pay.

"Kiewit Power Constructors Co. is very pleased with this favorable decision by the jury, which validates our claims regarding payment for additional work our company performed on the Scattergood Unit 3 Repowering Project," said Bob Kula, vice president of corporate communications, in a statement.

But LADWP officials offered a much different take on the reasons for the project's delay in a counterclaim filed in federal court.

The storm at sea and damaged equipment that Kiewit cited as presenting major challenges to the project's original construction plan "should not reasonably have resulted in delays in Kiewit's work," according to the city's counterclaim.

Kiewit also failed to "follow the contractually mandated procedures in seeking an extension of time or extra compensation."

City officials argued, unsuccessfully, that Kiewit owed the city more than \$29 million in liquidated damages based on delays to the project. Instead, city officials were awarded \$1 million based on their allegations the company had violated contract terms.

Even so, the \$45-million penalty will not have an impact on water and power rates in Los Angeles, LADWP officials said in a statement, pointing to the \$19 million recovered from GE.

"Any amount ultimately due from this case is within the project contingency amount and will not impact ratepayers," the department stated.

INVITATION TO BID

SAN JUAN USD DEL PASO MANOR NEW ELEMENTARY SCHOOL

McCarthy Building Companies, Inc. is requesting quotes from all certified DVBE subcontractors
Bids will be accepted on or before August 21st, 2018 at 2PM.

- Via "BuildingConnected" <https://app.buildingconnected.com>
- by email to Jason Dreier jdreier@McCarthy.com
- or Delivered to McCarthy Building Companies, 3721 Douglas Blvd., #180 Roseville, CA 95661

Project Description:

This project is a public works project. The project generally consists of 49,000 SF: Construction of a new Administration Building, Multi-Purpose/Administrative Building, and two Classroom Buildings, concurrent with modifications to the existing Site and Utilities. The existing school campus will be abated and demolished. The project will include all scopes of work typical of a new school construction project replacing an existing school campus including, but not limited to; demolition, abatement, concrete, reinforcing, structural steel, miscellaneous metals, rough carpentry, glazing, fiber cement panels, waterproofing, sealants, tile, flooring, wood paneling, acoustical ceiling, kitchen equipment, mechanical, electrical, plumbing, and fire protection. **McCarthy is seeking bids from qualified DVBE contractors.** This project is subject to the regulations set forth by AB 566.

Request for Clarification: Deadline for the Request for Clarification is August 3rd, 2018 by 1:00PM. Request shall be sent to Jason Dreier via email at jdreier@McCarthy.com.

100% Performance and Payment Bonds will be required from an approved surety for contracts over \$200,000 or enrollment into McCarthy's Contractors Controlled Insurance Program (CDI).

Subcontractors will be enrolled into the RCCIP, but the program does not cover all exposures. Subcontractors are still obligated to provide evidence of the applicable insurance policies for items the RCCIP does not cover, such as: Auto Collision & Liability, Professional Liability, Pollution Liability, Property/Equipment and Off-site Operations.

Mladen Buntich will be bidding the 3rd Street Interceptor Rehabilitation- Phase 2. This project bids on 8-22-2018

Please have your scope of work to us by Friday August 17th, 2018 Close of Business so that we can review your inclusions/exclusions/proposed work.

We are looking for subcontractors to perform the saw cutting, demolition, asphalt, asphalt installation, traffic control, rebar, concrete structures, and striping on this project.

We will need the following: This project includes rehabilitating approximately 4,700 lineal feet of sanitary sewer pipes (105" diameter) and 5 large manholes, which are part of the District's sewer interceptor system. Rehabilitation shall be performed using fiberglass-reinforced polymer mortar pipe (FRPM) with annular space grouting for sewer pipes and PVC liner system for manholes.

Work includes, but is not limited to, installing temporary traffic controls, sheet piling, and sewer bypass. Value of this project is 12 million.

Location- Oakland California The plans and specs are too large to email but can be easily downloaded from the website below.

<https://construction-bids.ebmud.com/SpecMain.aspx?SpecGN=7123&BidMode=Current>

In addition to the plans and specifications Mladen Buntich Construction Company Inc will require the following: Bonds- Subcontractor Bonds will be required on contracts over \$50,000 and we will need a separate cost for this on your proposal. Acceptance of Plans and Specs- Confirmation you proposed product/scope of work meets the plans and specifications with no exclusions. Schedule- A narrative will be required for your scope of work with no duration over 20 working days(except procurement) Procurement- We will need to know procurement durations on any item over 20 working days. Testing- Confirmation you have the third party testing included in your proposal if the Owner/Municipality does not have it.

Permits- Confirmation permit fees are covered We look forward to your response.

Request for Proposals

Upper Llagas Creek Flood Protection Project Phase 2 Construction Management Services

Topic: Upper Llagas Creek Flood Protection Project Phase 2 Construction Management Services

Who: Santa Clara Valley Water District (District) is the water resource management agency meeting watershed stewardship needs of and providing wholesale water reliability to Santa Clara County's more than 1.9 million residents.

The Santa Clara Valley Water District is soliciting proposals from a qualified consultant to perform construction management services for Phase 2 of the Upper Llagas Creek Flood Protection Project. The successful consultant will provide construction management services, including written review comments of final construction documents clearly identifying potential constructability issues to the District prior to the advertisement for construction of the Upper Llagas Creek Flood Protection Project - Phase 2.

The full RFP can be viewed at <http://cas.valleywater.org>. Please submit your proposals electronically to the District's Contract Administration System (CAS) by the date and time specified in the RFP Schedule. Prior to submitting proposals, all firms must be registered in CAS. This can be achieved by going to the web address noted above and following the instructions to create an account. When in the creation process, select the expertise code "CM10" Construction Management and add contact information as necessary.

Contact: If you need assistance with creating a CAS account, please call (408) 630-2992, or e-mail questions to ContractAdministration@valleywater.org.

In addition to submitting proposals electronically through the District's web portal, hard copies of the proposal must be received by the proposal due date and time specified in the RFP Schedule. Please refer to the RFP for detailed hardcopy delivery instructions.

General questions regarding this solicitation will be accepted by email to Helen Hoang at hhoang@valleywater.org. Questions must be submitted no later than the date specified in the RFP Schedule.
