

SBA celebrates 66 years of powering the American Dream

[Article was originally posted on www.sba.gov]

By *Chris Pilkerton*,

Mehdi Zarhloul moved to the United States from Morocco at age 16 with just \$30 in his pocket and a passion for hard work and good food. Ever since he got his first job as busboy, he knew that someday he would open a restaurant of his own.

In 2006, he opened a fast-casual restaurant inspired by the flavors of the Mediterranean called Crazy Pita. In 2013, low-interest loans guaranteed by the U.S. Small Business Administration enabled him to open a second and then a third restaurant. The investment also helped him modernize his restaurants, raise awareness of his brand and create jobs for his community. He's now envisioning an expansion into franchising that would make Crazy Pita a national chain.

As Acting Administrator of the SBA, I'm constantly inspired by stories like this one.

America's 30 million small businesses truly are the engines of our economy, creating jobs and making our neighborhoods vibrant places to live and work. This week, the SBA celebrates 66 years of helping entrepreneurs like Mr. Zarhloul start, grow and succeed in businesses of their own.

President Dwight D. Eisenhower signed the Small Business Act on July 30, 1953, creating the SBA. For the past 66 years, the Agency has linked entrepreneurs to the funding, counseling and mentorship they need to succeed. It has also connected small businesses to opportunities for government contracts, including this year's record of over \$120 billion worth of federal contracts. And of course the Agency is also committed to providing low-interest loans to people affected by declared disasters.

As we mark SBA's birthday, we celebrate all of the entrepreneurs and small businesses that have gotten SBA assistance – from up-and-comers like Crazy Pita to those

that have grown into household names like Chobani and Alex & Ani.

Small businesses are the innovators and job creators of our communities – they employ half our nation's workforce and create two out of every three net new jobs in the private sector. They are also the glue that holds communities together. They give neighborhoods their character, sponsor the Little League teams and place ads in the high school yearbooks. And in times of trouble or tragedy, it's often the small businesses that step up to meet the needs of their neighbors. In the words of SBA's 2019 Phoenix Award for Outstanding Contributions to Disaster Recovery by a Public Official recipient Linda Parks in describing her experience in Thousand Oaks, California, "it was the worst of times, but the best of people."

When I visited Mehdi Zarhloul's restaurant a few weeks ago, he told me about a young boy named Josh Stevens who often came to the restaurant with his family. Josh would hold the door for customers and help them carry food just because he wanted to "be kind." Sadly, Josh passed away, and Mr. Zarhloul assisted in the development of a foundation to promote random acts of kindness like Josh did, especially among kids. This movement ultimately resulted in a local elementary school being named after Josh Stevens. His memory and legacy will live on in his community forever, in part because of his impact on a small business owner.

As today's small businesses succeed, I hope they will inspire the entrepreneurs of tomorrow and continue to reflect the agency's mission and long legacy of powering the American Dream.

California Sub-Bid Request Ads

Balfour Beatty

Project Description: Sterling Natural Resource Center (SNRC)
Project Location: Highland, CA
Owner: East Valley Water District

Bid Date:

Proposals For Construction Services: Friday August 30, 2019 at 2:00pm

Letters of Interest from Subcontractors and Suppliers: Friday August 16, 2019 at 2:00pm

Balfour Beatty Infrastructure, Inc. is the Prime Contractor on this project. We are soliciting proposals for a **Gravity Sewer Pipeline Subcontractor** at this time. All qualified Pipeline Subcontractors are encouraged to **submit your intent to bid** at this time. This is a \$150M progressive design-build project and subcontractor scopes will be determined during the design phase of the project based on the General/Special Provisions, and the Project Definition and Reference Documents provided. Additional Subcontract Scopes will be advertised at a later date as scopes and quantities can be defined. This project is funded by the California State Revolving Fund (CASRF) and as such Balfour Beatty is seeking interested Disadvantaged Business Enterprises (DBE) as defined by the CASRF Guidelines (including MBE, SBE, SBRA, LSAF & HUB). Prospective bidders must be certified by SBA, CDOT, or USEPA at the time of bid opening. This project is also to include implementation of American Iron and Steel (AIS) provisions of P.L. 113-76, Consolidated Appropriations Act, 2014. Balfour Beatty is a Union Contractor and Subcontractors must abide by the terms and conditions of the applicable contract documents.

SUBCONTRACTOR INTEREST IS SOUGHT FOR THE FOLLOWING TRADE(S)

Collection Sewer Subcontractor

PLANS & SPECIFICATIONS: Project Proposal Documents may be viewed and downloaded plans by following this link maintained by Balfour Beatty:

<https://secure.smartinsight.co/#/PublicBidProject/411236>

Subcontractors and Suppliers are responsible for reading and acknowledging all Specifications and Addendas.

BONDING & INSURANCE: Subcontractors will be required to furnish performance and payment bonds in the full amount of their subcontract, by an admitted surety subject to approval by BBII. Bonding cost assistance is available. Subcontractors should expect to sign the standard Balfour Beatty subcontract agreement and provide a waiver of subrogation. Please contact Balfour Beatty at (707) 427-8900 for bonding and other types of assistance.

QUESTIONS: For questions regarding the bid, please contact Carla Becker.

Email: cbecker@balfourbeattyus.com or in writing to: PO Box 1786, San Bernardino, CA 92402

Proposals must be valid for the same duration as specified by the Owner for contract award. Conditions or exceptions in Subcontractor's quote are expressly rejected unless accepted in writing. Subcontractor scope (including any conditions or exceptions) is required one week prior to bid deadline, to allow proper evaluation. To assist DBE Subcontractors and Suppliers, we will divide total scopes into smaller tasks or quantities, and if necessary adjust schedules to permit maximum participation by DBE firms. Subcontractors are required to indicate all lower-tier DBE participation offered on their quotation.

PLEASE RESPOND TO THIS INVITATION TO BID AS SOON AS POSSIBLE BY EMAIL

The 5 most expensive sports stadiums in the U.S.

[Article was originally posted on www.constructconnect.com]

By Tony Faccenda,

The overall U.S. sports market was worth over \$71.1 billion in 2018. By the end of 2022, it's expected to reach \$80.2 billion, according to a report from PricewaterhouseCoopers. As the sports

industry is continuing to grow, expansion teams are being added to the National Hockey League (NHL), National Football League (NFL) teams are moving cities, and a lot of exciting construction projects are in the works for new stadiums.

Gate revenue accounted for \$19.3 billion of the sports market in 2018. To keep fans coming and

to make the experience as enjoyable as possible, teams have been shelling out billions of dollars to build new stadiums. Here are five of the most expensive sports stadiums in the U.S.

SOURCE:

<https://blog.buildingconnected.com/the-5-most-expensive-sports-stadiums-in-the-u-s/>

1. Los Angeles Stadium

Team: Los Angeles Rams, Los Angeles Chargers

Cost: \$4.9 billion

Opened: 2020

Key features:

- The Super Bowl is set to come to the venue in 2022, it's lined-up to host the 2028 Olympics, and it's the most likely candidate to host the 2026 World Cup Final if the United States, Mexico, and Canada's bid to co-host is approved.
- The most noticeable design feature of the stadium is its expansive, transparent roof that will cover not only the entire playing field and seating bowl but also an adjacent pedestrian plaza and a proposed 6,000-seat theater capable of hosting high-profile events like the Academy Awards.
- Cutting-edge technologies will be integrated throughout the building, including an Oculus video board. With more than 60,000 linear feet of screen, the Oculus is the world's largest sporting event digital display.

2. Yankee Stadium

Team: New York Yankees

Cost: \$2.3 billion

Opened: 2009

Key features:

- Designed by the architectural firm Populous, the stadium's exterior is made of 11,000 pieces of Indiana limestone, granite, and pre-cast concrete. Each entrance features the stadium's name V-cut and gold-leaf lettered above the gate.
- New Yankee Stadium features 50,287 seats and was built to resemble the original Yankee Stadium. Its exterior is modeled to look like the 1923 Yankee Stadium, and its interior is designed to look like the stadium post-renovation in 1976.
- The stadium includes a "Great Hall" between the interior and exteriors that includes a seven-story ceiling, over 31,000 square feet of retail space, and 20 banners of past and present Yankees players.

3. Las Vegas Raiders Stadium

Team: Las Vegas Raiders (currently the Oakland Raiders)

Cost: \$1.8 billion

Opened: 2020

Key features:

- The translucent stadium components will make the stadium appear black during the day, but lights inside the stadium will be visible from outside at night.
- The natural-grass field will grow outdoors on a 4-foot-high tray that will be wheeled inside on game day. An artificial-turf field will rest atop the concrete stadium floor.
- The north end of the stadium will have 80-by-120-foot lanai doors that open to a view of the Las Vegas Strip.

The 5 most expensive sports stadiums in the U.S.

Continued from page 5

4. Mercedes-Benz Stadium

Team: Atlanta Falcons, Atlanta United FC

Cost: \$1.6 billion

Opened: 2017

Key features:

- Designed by HOK, Mercedes-Benz Stadium features a Roman Pantheon inspired retractable roof with eight-panels that resemble a pinwheel and a glass wall that opens to allow fresh air. It's one of five NFL stadiums with a retractable roof.
- At 62,350 square feet, the stadium holds the record for the world's largest video board. It's three times as large as the second biggest video board at EverBank Field in Jacksonville and lines the entire opening of the stadium's roof.
- The stadium includes more than 180 pieces of commissioned art, including words by Nari Ward, Hank Willis Thomas, and Steven and William Ladd. The centerpiece is a 73,000 pound, four-story tall stainless steel sculpture by Gábor Miklós Szóke titled, "The Atlanta Falcon."

5. MetLife Stadium

Team: New York Giants, New York Jets

Cost: \$1.6 billion

Opened: 2010

Key features:

- Designed by 360 Architecture, EwingCole, Rockwell Group, and Bruce Mau Design, Inc., MetLife Stadium was built to embody the personalities of both teams. The Giants wanted a traditional look with exposed steel and rustic stone, and the Jets wanted a modern design with metal and glass.
- MetLife Stadium has four locker rooms — one for each home team and one for visiting team. The stadium can be reconfigured for the Giants or Jets in a matter of hours, and the interior lighting can switch colors depending on who's playing.
- DLR Group partnered with ERG Energy to install 1,350 building integrated photovoltaic (BIPV) solar panels. The excess power from the panels can be used by the stadium or go back into the grid.
