

Two Key U.S. Jobs Indicators for Better Economic Health

The metric on the count of individuals continuing to receive unemployment insurance is a week behind the initial jobless claims number. For the week ending November 14, ongoing claims were 6.1 million, an improvement from the previous week's 6.4 million. Prior to COVID, though, the figure was consistently below 2.0 million. The ongoing claims number was at its highest, 24.9 million, on May 9th of this year, 2020.

[Article was originally posted on www.constructconnect.com]

By Alex Carrick,

After dropping to 711,000 for the week ending November 7, the U.S. initial jobless claims number has been heading back up again for two periods in a row. For November 14, it was 748,000 and most recently, for November 21, it was 778,000.

There are two key jobs metrics that will reassure everyone the economy has been restored to a more even keel. The first is the 'claw-back' ratio—i.e., the percentage of the enormous total jobs contraction from February to April (due to the onset of the coronavirus crisis) that has been

won back since. That figure currently sits at only 50.9%; in other words, half.

The jobs recovery ratio needs to reach at least 90% before there can be a huge sigh of relief.

The second important benchmark number is initial jobless claims. That count is presently going in the wrong direction. For November 7, it hit a recent low of 711,000. But then for November 14, it stepped back up to 748,000, and for November 21, it climbed another rung to 778,000.

As 2020 winds down, the worst wave yet of coronavirus infections is staggering the economy and setting back reopening plans.

It was not cheery news to read the other day that Disney Corp. is planning 4,000 additional lay-

offs beyond the 28,000 previously announced, mainly at its theme parks, in the first half of the company's current fiscal year beginning in October. Disney employs more than 220,000 people worldwide.

Ideally, as an indication of better health all around, initial jobless claims should be 400,000 or less. The sky will be that much clearer when they descend below 300,000.

Clearly, there's a considerable distance still to be traversed along the road to fuller recovery.

Pair of California Colleges Tags DLR for Performing Arts Projects

[Article was originally posted on <http://schoolconstructionnews.com>]

DLR Group was recently selected to provide design services for two higher education campuses in Southern California. The two replacement projects include new performing arts facilities at Crafton Hills College in Yucaipa, and El Camino College in Torrance.

DLR Group's design for a new performing arts center at Crafton Hills College will provide a modern venue for educational spaces, as well as a state-of-the-art auditorium and stage facility to better meet the needs of students and the surrounding community. The auditorium will include a lobby and outdoor terrace, a 300-seat auditorium with an orchestra pit, black box theater, and backstage facilities such as dressing rooms, green room, offices, storage, wood shop, and costume shop. The complex will be equipped with next-generation theater technology and acoustics and serve a variety of events for music and student performances.

The project will target LEED Gold Certification and net-zero energy use to become an innovative case study for sustainability in the arts. Crafton Hills College is part of the San Bernardino Community College District.

At El Camino College, DLR Group's design for a new music and theater building will continue the strong tradition of the arts on campus by creating new opportunities for collaboration and growth in the program. Currently more than 65 years old, the existing music building is limited in the technology, systems, and infrastructure to support modern music and theatre instructional programs.

DLR Group is designing a transformative new facility that provides students with the latest amenities and technology for music and theater needs, while also creating an upgraded audience experience for members of the community. The facility will house a proscenium theater, recital hall, black box studio theater, and an array of performance support, student collaboration spaces, and practice rooms. The design will embrace the campus master plan by providing students with connections to outdoor spaces, informal gathering areas, and create new transparency to arts education by exposing the practice and rehearsal spaces to the campus and community. A common outdoor courtyard will serve as a gathering spot for students and an informal outdoor performance stage to showcase the talent of the program to the broader campus. The new building will be a leader in sustainability by capturing daylighting and views and responding directly to user wellness,

while minimizing energy use as an example project on campus.

"DLR Group delivers award-winning performing arts designs that meet the specific needs of each institution and user group," said DLR Group Principal Leigh Anne Jones, AIA. "We are thrilled to partner with Crafton Hills College and El Camino College to enhance their facilities and enrich the experience for performing arts and music students for many generations to come."

Construction on the Crafton Hills College project is scheduled to begin May 2022 with an estimated completion date of March 2024. It is funded through state and local monies, including the voter approved Measure CC.

The El Camino project is scheduled to begin construction in August 2022 with an estimated completion date of August 2024. It is funded through state and local monies, including the voter approved Measure E. The cost of these projects has not yet been disclosed.

Behind the Build: Interview with Jeff Campbell, Building Solutions Manager, Burns & McDonnell

[Article was originally posted on [Autodesk Construction Cloud Blog](https://www.autodesk.com/blogs/constructionblog). [constructionblog.autodesk.com](https://www.autodesk.com/blogs/constructionblog)]

By *Alyssa Jaber*,

What does it take to connect construction and design? How can we move forward as an industry to bring them together and best use our resources to deliver better results for our customers? These are the questions many of us are asking ourselves and our teams as we work to enhance our workflows and operations.

We were fortunate enough to ask Jeff Campbell, Building Solutions Manager for Burns & McDonnell, the same questions. He shared his diligent journey to connecting design and construction below. Read his story to get insightful ideas about the future of connected construction.

Tell me a little bit about Burns & McDonnell and what they specialize in.

Burns & McDonnell is a family of companies bringing together 7,600 engineers, construction professionals, architects, planners, technologists, and scientists. With an integrated construction and

design mindset, we offer full-service capabilities across more than 55 offices, globally. Founded in 1898, we are a 100% employee-owned company and proud to be on Fortune's 2020 list of 100 Best Companies to Work For.

Burns & McDonnell serves a wide range of clients and projects in the Aviation; Chemicals, Oil & Gas; Commercial, Retail & Institutional; Environmental; Government, Military & Municipal; Manufacturing & Industrial; Power; Telecommunications; Transportation and Water sectors.

Walk me through your career and what led you to become the Building Solutions Manager at Burns & McDonnell.

I've been at Burns & McDonnell for 15 years. Prior to that, I was a university professor and taught in the Design & Graphics Department for the University of Central Missouri. Burns & McDonnell had an opening in what was then called the CAD Support Group. The group was comprised of seven individuals that provided the implementation and support for just under 2,000 employees at the time

As our team expanded with the growth of the company, so did our roles. I moved into a Senior Applications Specialist role, and helped our businesses implement BIM technology into our environments. We started with products like AutoCAD Architecture and AutoCAD MEP. I was assigned full-time to a large project that consisted of 55 buildings on a 35-acre shared basement. My primary role on that project was to provide direct support to the team and help with technology driven processes on the project.

After the project finished, I became heavily involved with the implementation of Revit and eventually took on the role of Building Solutions Manager. It's grown ever since. Now, I support all of our BIM initiatives across the majority of our businesses, especially if they're using Autodesk products. I'm proud I've been able to work with our business in order to implement and advance the use of BIM and construction technology in order to make sure our projects are successful.

REQUEST FOR DBE
SUBCONTRACTORS AND SUPPLIERS FOR:
Contra Costa County Public Works Dept.
255 Glacier Drive, Martinez, CA

Hayward Maintenance Complex (Phase 2)
Civil Grading
San Francisco Bay Area Rapid Transit District
Contract No. 01RQ-202

REVISED BID DATE: December 22, 2020 @ 2:00 PM

We are soliciting quotes for (including but not limited to): Building Facilities Demolition, Trucking, Temporary and Permanent Erosion Control Measures, QC/QA Testing, RWP Training, Watchperson, Clearing & Grubbing, Sewer Pipe, Sanitary Sewer Manholes, Underground, Storm Drain Manhole, Drainage Inlet, Structural Retaining Wall, Structure Excavation, Structure Backfill, Sheet Pile Wall, Fencing, Gates, Chain Link Barrier, Overcrossing Abutment Rebar, Overcrossing Abutment Concrete, Overcrossing Column and Drilled Concrete Shaft Rebar, Overcrossing Column Concrete, Drilled Concrete Shaft Permanent Casing, Drilled Concrete Shaft, Minor Concrete, Hazardous Materials/Waste Disposal, Minor Concrete-Type B4 Curb, Structure Concrete, Structural Steel, Painting, Anti-Graffiti Coatings, Shoring, Jacking & Boring, Asphalt Emulsion Sealer, Pavement Markings, and Construction Materials

Jean Sicard (510-809-3411 jsicard@ocjones.com) is the estimator on this project and he is available to provide assistance or answer questions regarding the project scope of work including bid requirements, break out of bid items, plan or spec interpretation, bonding or insurance requirements, and other bid assistance. There is a Major Projects Project Stabilization Agreement in place for this project. This contract is subject to "Buy America" requirements. Plans and specs are available to review at our Berkeley office, or can be sent out via Building Connected. PDF format quotes should be emailed to the estimator or faxed to 510-526-0990 prior to 12:00 PM on the date of the bid. Quotes from DBE Subcontractors, Suppliers and Truckers are highly encouraged. OCJ is willing to breakout any portion of work to encourage DBE participation. Subcontractors must possess a current DIR, Contractors License, and insurance and workers compensation coverage including waiver of subrogation. OCJ may require Performance and Payment bonds on subcontracts. OCJ will pay the bond premium up to 2% of the contract value. Please contact OCJ for any assistance required by your firm in obtaining bonding or insurance. The US Small Business Administration may also assist you in obtaining bonding - please see the following site for information: <http://www.sba.gov/content/contractors>. Visit the California Access to Capital Program Financing Solutions website for additional resources for your small business - http://www.calbiz-finance.org/cal_cert_biz_program.html. OCJ is available to help obtain necessary equipment, material and/or supplies. All subcontractors are required to execute OC Jones' standard subcontract agreement, comply with all insurance requirements, and name OCJ as additional insured. Copies of our agreement and insurance requirements are available upon request. OCJ is a Union contractor, and we are signatory to the Operating Engineers, Laborers, Teamsters, and Carpenters. OCJ is an Equal Opportunity Employer.

Behind the Build: Interview with Jeff Campbell, Building Solutions Manager, Burns & McDonnell

Continued from page 5

What are the biggest challenges you face in your role? How does technology help you overcome those challenges?

One of the biggest challenges I have in my role is facilitating a clean handoff between design and construction. Technology helps us implement that seamless transfer of data and creates a single source of truth to aid in that communication between our design and our construction teams.

Speaking of connecting design and construction, what does connected construction mean to you?

What connected construction means to me is the seamless integration between design and construction. In a perfect world, there should be no differentiation between the teams.

With design-build/EPC jobs being the way they are, we need close communication to understand when the data should be ready and what's needed on the construction side. To achieve this, the design side must also be willing to adjust their practices in order to meet construction's needs.

At Burns & McDonnell, we use BIM 360, BuildingConnected, PlanGrid, and Assemble. BIM 360 is the hub of everything we do. It's

our common data environment, so we can leverage that system to bring the data from all of the platforms together in order to provide a single source of truth. Right now, we're using Assemble for example to track construction indicators on quantities on a large water project. It helps us to make sure design moves forward and helps us keep an eye on costs, KPIs, and other important metrics.

Granite is an Equal Opportunity Employer and will work with any interested subcontractor to identify opportunities to break items into economically feasible packages. We welcome quotes from qualified Minority Business Enterprise (MBE), Women Business Enterprises (WBE), Small Business Enterprises (SBE), Disadvantaged Businesses and other entities defined as socially and/or economically disadvantaged.

Assistance in obtaining bonding, insurance, equipment, materials and/or supplies is available upon request. Additionally, please contact us if you require any technical assistance. Quotations must be valid for same duration as specified by Owner for contract award. Granite intends to work cooperatively with all qualified firms seeking work on this project.

Plans and specifications can be accessed at no cost:

On the Caltrans Website at <http://ppmoe.dot.ca.gov/des/oe/weekly-ads/specs-ntb.php?c=12-0M82U4>. Additionally, plans and specifications can be viewed at our office located at: 5860 El Camino Real, Suite 200, Carlsbad, CA 92008. Please call to make an appointment.

This project has a 14% DBE goal. In addition to request for participation from Certified DBE subcontractors and suppliers, Granite request Non-DBE subcontractors to provide lower-tier DBE subcontractor and/or supplier participation. Bidders are encouraged to indicate lower-tier DBE participation, as it will be evaluated as part of their quote.

Please include your Contractor License Number and DIR Registration Number on your quote

Granite Construction Company is signatory to Operating Engineers, Laborers, Cement Masons and Carpenters unions. Granite may require 100% performance and payment bonds for the full amount of subcontract price. Granite Construction will assist with bonding costs for subcontractors. Additionally, The US Small Business Administration may also assist you in obtaining bonding, for more information please visit them at <http://www.sba.gov/content/contractors#>. Subcontractors must possess a current contractor's license, insurance and worker's compensation coverage meeting Granite's requirements and will be required to sign the standard Granite Subcontract Agreement. A copy of the insurance requirements and subcontract agreement are available upon request. The full agreement can be obtained by contacting Granite. Subcontractors must also be registered with a current DIR number.

REQUEST FOR STATEMENT OF QUALIFICATIONS AND FEE PROPOSALS (RFQ/P) SITE SURVEY SERVICES

For the Laurel Child Development Center located
at
3825 California Street, Oakland, CA 94619
And various Measure Y Bond Program School Sites
RFP issued December 9, 2020

The Oakland Unified School District ("District") is requesting proposals from experienced firms, partnerships, corporations, associations, persons or professional organizations ("Consultants") to provide site survey services associated with the construction of a new child development building and site improvements at the Laurel Child Development Center and to create a pre-qualified pool of surveyors for future Measure Y Bond Program school projects.

The District educates approximately 36,000 students at eighty-three (83) school sites located in the City of Oakland; in addition there are 13,300 students in Oakland public charter schools with 33 charter schools in District authorized facilities. Voters within the District have overwhelmingly supported the modernization and

reconstruction of the District's schools. The District is about to commence the capital program as a part of the Measure Y Bond ("Measure Y Program") passed in November 2020 and has ongoing need for assistance with the planning, pre-design, design and construction phases of work on major renovation/reconstruction of its elementary, secondary and high schools. Attached to this Request for Qualifications/Proposals ("RFQ/P") is the District's List of Bond Projects as reflected in the approved bond measure that highlights the scopes and estimated costs of Measure Y Program projects (see Attachment 1).

Interested firms are invited to submit a completed Statement of Qualifications ("SOQ") along with the Fee Schedule Proposal (collectively "RFQ/P Packet") as described below, with one (1) unbound wet-signed original, five (5) bound copies and a PDF version on a flash drive of requested materials to:

Oakland Unified School District
Tadashi Nakadegawa, Acting Deputy Chief
Department of Facilities Planning and Management
955 High Street, Oakland, CA 94601

Oral, telegraphic, facsimile or telephone RFQ/P Packets will not be accepted. RFQ/P Packets received after this date and time will not be accepted and returned unopened. The District reserves the right to waive any informalities or irregularities in the RFQ/P Packets. The District also reserves the right to reject any and all RFQ/P Packets.

Due to the circumstances caused by the Covid-19 pandemic, the District will accept electronic Proposals sent via email in lieu of hard copies. Proposals received by the District no later than 2:00 PM (Pacific Standard Time) on January 6, 2021 via email will be accepted.

If you have any questions regarding this RFQ/P and/or submitting proposal electronically, please email Kenya Chatman at kenya.chatman@ousd.org and cc: to Coland Jang at coland.jang@ousd.org.

LOCAL, SMALL LOCAL AND SMALL LOCAL RESIDENT BUSINESS ENTERPRISE

PROGRAM The Local Business Utilization Policy requires that there is a mandatory fifty percent (50%) LBU participation with a 25% or less Local Business (LBE) participation and a 25% or more Small Local or Small Local Resident Business (SLBE/SLRBE) participation for all capital program/construction-related contracts and professional services agreements. The full version of OUSD's latest Local, Small Local and Small Local Resident Business Enterprise Program can be found by going to the OUSD home page: ousd.org> Offices and Programs> Facilities Planning & Management Department> For Contractors and Developers> Bids and Requests for Proposals> Bid Information> 2014 Amendment to Local Business Participation Policy.

CITY & COUNTY OF SAN FRANCISCO DEPARTMENT OF PUBLIC WORKS

Contract No.: 1000015751
Sourcing Event ID No.: 000002757
PW SAFER TAYLOR ST
Safer Taylor Street

Bids shall be submitted online via ShareFile until 2:30:00 p.m. on January 13, 2021, after which the bid opening will be conducted live online via Microsoft Teams. Contract Administration will email the Microsoft Teams meeting information to all Plan Holders approximately 24 hours prior to Bid opening. Digital files of Bid Documents, Plan Holders Lists, and Addenda may be downloaded at no cost from the Public Works Electronic Bid Documents Download site at <https://bsm.sfdpw.org/ContractAdmin/Login.aspx>. Please visit the Contracts, Bids and Payments webpage at <https://stgint.sfdpw.org/Pages/Contract.aspx> for more information. Notices regarding Addenda and other bid changes will be distributed by email to Plan Holders.

The Work is located along Taylor Street from Turk Street to Ellis Street and at the intersection of Geary Street and Taylor Street in San Francisco, California, and consists of pavement renovation, curb ramp and bulb-out construction, sewer replacement, environmental, structural, subsidence, basement, electrical, traffic signal, street and pedestrian lighting, landscape, streetscape, traffic control, and all related work. The time allowed for completion is 720 consecutive calendar days. The Engineer's estimated cost is approximately \$10,500,000. For more information, contact the Project Manager, at 628-271-2446 or 415-290-8929 or Flora.Law@sfdpw.org.

On July 1, 2014, the registration program under section 1725.5 of the California Labor Code went into effect. The program requires that all contractors and subcontractors who bid or work on a public works project register and pay an annual fee to the California Department of Industrial Relations ("DIR").

No contractor or subcontractor may be listed in a bid or awarded a contract for a public works project unless registered with the DIR as required by Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].

This Project shall incorporate the required partnering elements for Partnering Level 3. Refer to Section 01 31 33 for more details.

Pursuant to San Francisco Administrative Code ("Administrative Code") Section 6.25 and Chapter 25 of the Environment Code, "Clean Construction" is required for the performance of all work.

This Contract is subject to the requirements of Administrative Code Chapter 12X, which prohibits contracting in states with laws that allow discrimination. The City is prohibited from entering into any Contract with a Contractor that has its United States headquarters in a state on the Covered State List or where any or all of the work on the contract will be performed in any of those states on the Covered State List. Administrative Code Chapter 12X and a list of states on the Covered State List can be found at: <http://sfgsa.org/chapter-12x-anti-lgbt-state-ban-list>.

The Specifications include liquidated damages. Contract will be on a Unit Price basis. Progressive payments will be made.

The Contract will be awarded to the lowest responsible responsive bidder.

A bid may be rejected if the City determines that any of the bid item prices are materially unbalanced to the potential detriment of the City.

Bid discounts may be applied as per Administrative Code Chapter 14B. LBE Subcontracting Participation Requirement is 25%. Contact Selormey Dziku at 415-939-9339 or Selormey.Dziku@sfdpw.org for details. In accordance with Administrative Code Chapter 14B requirements, all bidders shall submit documented good faith efforts with their bids, except those who exceed the above stated LBE Subcontracting Participation Requirement by 35%. Bidders must achieve 80 out of 100 points to be deemed responsive. Bidders will receive 15 points for attending the pre-bid conference, if scheduled. Refer to CMD Form 2B.

A pre-bid meeting will be held by conference call on Thursday, December 10, 2020 starting at 11:00 a.m.

Refer to Section 00 21 13 Appendix B for a guide to joining a Microsoft Teams meeting. Microsoft Teams meeting Join on your computer or mobile app Click here to join the meeting https://teams.microsoft.com/dl/launcher/launcher.html?url=%2F_%23%2F1%2Fmeetupjoin%2F19%3Ameeting_Yjk0OWQ0YzgtMGU4Ny00ZDM3LWJmZDgtZWYzYzU0M2E3OGUw%40thread_v2%2F0%3Fcontext%3D%257b%2522tid%2522%253a%25222d5c2cf-ce3e-443d-9a7fdcc0231f73f%2522%252c%2522oid%2522%253a%25225b76e256-e24f-4930-86c7-e905119fe732%2522%257d%26anon%3Dtrue&type=meetup-join&deeplinkId=fbfd1f4-1c07-4722-bd61-8cfc0f73b67&directDL=true&msLaunch=true&enableMobilePage=true&suppressPrompt=true&promptSuccess=true

Or call in (audio only) +1 415-906-4659, 938820359# United States, San Francisco Phone Conference ID: 938 820 359#

For information on the City's Contractor Development Program, call (415) 986-3999 or email bond@imwis.com.

A corporate surety bond or certified check for ten percent (10%) of the amount bid must accompany each bid. Administrative Code Section 6.22(a) requires all construction greater than \$25,000 to include performance and payment bonds for 100% of the contract award.

Class "A" license required to bid.

In accordance with Administrative Code Chapter 6, no bid is accepted and no contract in excess of Threshold is awarded by the City and County of San Francisco until such time as the Mayor or the Mayor's designee approves the contract for award, and the Director of Public Works then issues an order of award. Pursuant to Charter Section 3.105, all contract awards are subject to certification by the Controller as to the availability of funds.

Minimum wage rates for this project must comply with the current General Prevailing Wage as determined by the State Department of Industrial Relations. Minimum wage rates other than applicable to General Prevailing Wage must comply with Administrative Code Chapter 12P, Minimum Compensation Ordinance. In addition, the San Francisco Citywide Project Labor Agreement (PLA) became effective on July 14, 2020. This Contract is a Covered Project and Bidders are advised that the PLA is incorporated into the contract documents. More information about the PLA can be found at: <https://sfgov.org/olse/citywide-project-labor-agreement>.

This Project is subject to the requirements of the San Francisco Local Hiring Policy for Construction ("Policy") as set forth in Administrative Code Section 6.22(g). Bidders are hereby advised that the requirements of the Policy will be incorporated as a material term of any contract awarded for the Project. Refer to Section 00 73 30 of the Project Manual for more information.

Bidders are hereby advised that the Contractor to whom the Contract is awarded must be certified by the Contract Monitoring Division as being in compliance with the Equal Benefits Provisions of Chapter 12B of the Administrative Code within two weeks after notification of award.

If a bidder objects on any ground to any bid specification or legal requirement imposed by this Advertisement for Bids, the bidder shall, no later than the 10th working day prior to the date of Bid opening, provide written notice to the Contract Administration Division, San Francisco Public Works, setting forth with specificity the grounds for the objection.

Right reserved to reject any or all bids and waive any minor irregularities.
