

3 Ways Preliminary Notices Build Better Relationships With the General Contractor

[Article was originally posted on www.constructconnect.com]

By Justin Gitelman,

If you work in construction, you're probably used to the long wait to get paid after completing a job. You wait patiently for payment from the general contractor (GC). You try calling, sending emails and invoice reminders. Nothing seems to get their attention, in fact, they seem annoyed that you keep asking. Then you ask yourself: Is there anything I could have done to establish a relationship earlier on in the project? In fact, there is: Sending a preliminary notice is one of the best ways you can improve communication and build a stronger relationship from the start.

One of the most common misconceptions about preliminary notices is that they worsen the relationship between the parties at the top of the payment chain and the subcontractors towards the bottom. However, that couldn't be further from the truth.

Vigilant subcontractors send preliminary notices whether or not there's a payment issue—and GCs, property owners, and lenders prefer it that way. Just look at the numbers from Levelset, who collects feedback from every recipient that they send notices to:

- 30% of recipients respond positively to preliminary notices.
- 56% provide a neutral response, considering preliminary notices a part of everyday business.
- Less than 2% say receiving a preliminary notice makes them feel like a sub distrusts them.

Sending preliminary notice isn't just about protecting your lien rights. There are numerous benefits to the practice.

How Do Preliminary Notices Build a Stronger Relationship?

Building a strong relationship with the GC is important for every subcontractor. A good relationship not only helps you get paid faster on the current project, but it can improve your prospects for future business. Here are 3 ways preliminary notices can help you build a better relationship with your general contractor.

1. Preliminary Notices Create a Professional First Impression

First and foremost, general contractors like to know they're working with professionals who know what they're doing. Contrary to popular belief, one of the GC's main concerns is making sure everyone gets paid without any unnecessary complications. Working with professionals means that work and payments are more likely to go smoothly. This is one of the reasons why GCs like to receive preliminary notices.

2. Preliminary Notices Reduce Risk for GCs

The parties at the top of the construction payment chain - the owner, lender, and GC - have a vested interest in ensuring that payments move smoothly. Nobody wants a mechanics lien to be filed. Liens require a lot of paperwork, slow the project down, and could cause them to lose the property entirely. Liens can increase the risk of double payments to sub-subcontractors, if the payments from the GC don't properly make their way down through their subs.

When the GC, property owner, or lender receives a preliminary notice, they now have more information about a sub who is on the job, the work that sub is doing, and who hired them. This gives them a head start in ensuring that payment is made to the right person for the right work, effectively avoiding a mechanics lien and the risk of double payment. That's their ultimate goal.

3. Preliminary Notices Improve Communication

Most of the construction disputes that contractors deal with are the result of poor communication. To avoid any confusion down the line, it's vitally important that you establish that strong line of communication at the very start of each project.

Considering the complexity of most construction projects, not everyone in accounts payable is aware of every contractor on the payroll. Preliminary notices bring everyone up to speed by making you more visible and helping you to stand out among that huge pile of paperwork. That transparency makes it easier to communicate with everyone on the job, ensuring that the project runs much smoother.

Preliminary notices help you accomplish this by informing the parties up the chain as to who you are, what work you're doing, and how much it's going to cost. Additionally, notices provide the opportunity for feedback early on in a project, allowing you to further avoid any roadblocks.

Take it from Albert, a contractor in Florida for more than 30 years. A few years ago, he visited the GC's accounts payable to inquire about payment on one project. He noticed two large piles

3 Ways Preliminary Notices Build Better Relationships With the General Contractor

Several tax breaks that are available in 2019 are set to expire soon. Businesses face a use-it-or-lose-it opportunity, suggesting that you act now if the tax breaks make sense for your company.

Work opportunity tax credit

If you're considering hiring a new employee, there's a federal tax incentive to hire a person who falls within a targeted group (defined by the tax law). This incentive is the work opportunity tax credit and it is scheduled to apply only to an eligible employee who begins work before January 1, 2020.

The targeted groups are:

1. Member of a family receiving Temporary Assistance for Needy Families (TANF)
2. Qualified veteran (there are 5 subcategories)
3. Qualified ex-felon
4. Designed community resident
5. Vocational rehabilitation referral
6. Summer youth employee
7. Recipient of SNAP benefits (food stamps)
8. SSI recipient
9. Long-term family assistance recipient
10. Long-term unemployed

There are 10 targeted groups and the amount of the credit varies with the group, and in some cases, the term of employment. The basic credit is 40% of first year wages up to \$6,000, for a top credit of \$2,400, if the employee works at least 400 hours. But the credit for a veteran with service-connected disability who is employed for at least 6 months is 40% of wages up to \$24,000, for a top credit of \$9,600.

In order to prove that an employee falls within a targeted group, an employer must submit IRS Form 8850 to the state workforce agency within 28 days of the first day of employment. (Most but not all states permit the form to be filed electronically.) The employee must sign the form. If the employer fails to timely submit the form, no credit can be claimed even if the employee is within a targeted group.

Note: Some states have their own work opportunity programs, so check with the state's revenue, finance, or tax department.

Paid family and medical leave tax credit

While employers with 50 or more employees are required by the Family and Medical Leave Act to provide up to 12 weeks

of unpaid time off for certain family matters, there's no federal law that employees must receive payments during this period of time off. But employers that choose to provide paid leave and are not required by state or local law to do so may qualify for a federal tax credit. There must be a written policy in place providing at least two weeks of paid family and medical leave to all qualifying employees and the amount paid is not less than 50% of the normal wages. Qualifying employees in 2019 are those who earned no more than \$72,000 in 2018.

The amount of the credit, which is figured on IRS Form 8994, is a minimum of 12.5% of the paid leave amount. It is increased to a maximum of 25% of such paid leave amount.

The credit, which was introduced in 2018, is set to expire at the end of 2019 unless Congress extends it.

Tax credit for certain plug-in electric powered vehicles

To encourage clean-fuel vehicles, there's a federal tax credit for electric powered 4-wheel vehicles of up to \$7,500. However, once the manufacturer has sold 200,000 such vehicles, the credit phases out. Two manufacturers—Tesla and GM—have surpassed this sales threshold, so purchasing one of these vehicles now produces a reduced credit as follows:

Vehicle placed in service in:	Tesla vehicles	GM vehicles
Fourth quarter of 2019	\$1,875	\$1,875
First quarter of 2020	0	\$1,875
Second quarter of 2020	0	0

The credit continues to apply to plug-in electric vehicles from other manufacturers until they cross the sales threshold as well. The credit is figured on IRS Form 8936. If the vehicle is purchased for business, the tax credit is part of the general business credit and subject to the applicable limitation.

Final thought

Businesses that can benefit from these tax credits should consider taking advantage of them while they are available. Who knows what the future may bring?

Sourcing Event 0000002481

SAN FRANCISCO COUNTY JAIL #2

KITCHEN RENOVATION

(PW SF CNTY JAIL NO.2 KTCH RENO)

Sealed bids will be received at 1155 Market Street, 4th Floor, San Francisco, California 94103 until **2:30:00 p.m. on December 11, 2019**, after which they will be publicly opened and read. Digital files of Bid Documents, Plan Holders Lists, and Addenda may be downloaded at no cost from the Public Works Electronic Bid Documents Download site at www.sfpublishworks.org/biddocs. Please visit the Contracts, Bids and Payments webpage at www.sfpublishworks.org for more information (click on Resources > Contractor Resources). Notices regarding Addenda and other bid changes will be distributed by email to Plan Holders.

The work to be done is the renovation of the existing kitchen on the 3rd Floor of County Jail #2. Main components of the renovation work involves a new freezer and refurbishing of the existing refrigerated boxes. New ceiling, new flooring and new wall protection. Work includes ancillary work on the 2nd floor and a new refrigeration unit on the roof. Work involves significant restrictions to access and some restrictions to working hours. For more information, contact the Project Manager, **Ivan Romero** at 415-557-4763.

On July 1, 2014, the registration program under section 1725.5 of the California Labor Code went into effect. The program requires that all contractors and subcontractors who bid or work on a public works project register and pay an annual fee to the California Department of Industrial Relations ("DIR").

No contractor or subcontractor may be listed in a bid or awarded a contract for a public works project unless registered with the DIR as required by Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].

This Project shall incorporate the required partnering elements for **Partnering Level 2**. Refer to Section 01 31 33 for more details.

Pursuant to San Francisco Administrative Code ("Administrative Code") Section 6.25 and Chapter 25 of the Environment Code, "Clean Construction" is required

for the performance of all work.

This Contract is subject to the requirements of Administrative Code Chapter 12X, which prohibits the City from entering into any Contract with a Contractor that has its United States headquarters in a state with laws that perpetuate discrimination against LGBT populations ("Covered State") or where any or all of the work on the contract will be performed in any of those states. A list of states on the Covered State List can be found at: <https://oag.ca.gov/ab1887>.

The Specifications include liquidated damages. Contract will be on a Lump Sum Bid Items basis. Progressive payments will be made.

The Contract will be awarded to the lowest responsible responsive bidder.

A bid may be rejected if the City determines that any of the bid item prices are materially unbalanced to the potential detriment of the City.

Bid discounts may be applied as per Administrative Code Chapter 14B. LBE Subcontracting Participation Requirement is 20%. Call Finbarr Jewell 415-558-4080 for details. In accordance with Administrative Code Chapter 14B requirements, all bidders shall submit documented good faith efforts with their bids, except those who exceed the above stated LBE Subcontracting Participation Requirement by 35%. Bidders must achieve 80 out of 100 points to be deemed responsive. Bidders will receive 15 points for attending the pre-bid conference, if scheduled. Refer to CMD Form 2B.

A pre-bid conference will be held on **November 19, 2019 from 2pm to 4pm** at 425 7th Street, Entry Lobby Conference Room. **Attendance at the pre-bid conference is highly encouraged.** Pre-bid conference will include a tour of the project area plus associated logistical areas. For all bidders and/or their representatives who plan to attend, the following information shall be submitted to Captain John Ramirez at john.ramirez@sfgov.org no less than **3 business days** in advance of the pre-bid conference for a security clearance check:

Full Name

Company represented

Date of Birth

Phone #

California Driver's License # or other government issued ID#

Despite a security clearance, attendees must still present their ID to enter the facility for the pre-bid conference.

If determined by the City, a second pre-bid conference may be held at the same location. City will post confirmation of a second pre-bid conference on the City's website. The same requirements for the security clearance check would apply. If a second pre-bid conference

is held, attendees at the first pre-bid conference need not attend.

For information on the City's Surety Bond Program, call 415-986-3999 or bond@imwis.com.

A corporate surety bond or certified check for ten percent (10%) of the amount bid must accompany each bid. Administrative Code Section 6.22(a) requires all construction greater than \$25,000 to include performance and payment bonds for 100% of the contract award.

Class "B" license required to bid.

In accordance with Administrative Code Chapter 6, no bid is accepted and no contract in excess of \$600,000 is awarded by the City and County of San Francisco until such time as the Mayor or the Mayor's designee approves the contract for award, and the Director of Public Works then issues an order of award. Pursuant to Charter Section 3.105, all contract awards are subject to certification by the Controller as to the availability of funds.

Minimum wage rates for this project must comply with the current General Prevailing Wage as determined by the State Department of Industrial Relations. Minimum wage rates other than applicable to General Prevailing Wage must comply with Administrative Code Chapter 12P, Minimum Compensation Ordinance.

This Project is subject to the requirements of the San Francisco Local Hiring Policy for Construction ("Policy") as set forth in Administrative Code Section 6.22(g). Bidders are hereby advised that the requirements of the Policy will be incorporated as a material term of any contract awarded for the Project. Refer to Section 00 73 30 of the Project Manual for more information.

Bidders are hereby advised that the Contractor to whom the Contract is awarded must be certified by the Contract Monitoring Division as being in compliance with the Equal Benefits Provisions of Chapter 12B of the Administrative Code within two weeks after notification of award.

If a bidder objects on any ground to any bid specification or legal requirement imposed by this Advertisement for Bids, the bidder shall, no later than the 10th working day prior to the date of Bid opening, provide written notice to the Contract Administration Division, San Francisco Public Works, setting forth with specificity the grounds for the objection.

Right reserved to reject any or all bids and waive any minor irregularities.

3 Ways Preliminary Notices Build Better Relationships With the General Contractor

Continued from page 1

of invoices on the manager's desk, and asked her about them.

"This stack here is invoices from subs that have also sent me preliminary notices," she said. "And this stack is invoices from companies that did not send a preliminary notice. We pay these invoices (from companies who have sent in notices) first. And we pay these invoices (the ones from companies who didn't send notices) when we get around to it."

Build Better Relationships by Sending Preliminary Notice Every Time

Building a strong subcontractor-general contractor relationship isn't a "set it and forget it" action. Subcontractors should take steps before, during, and after a project to establish a relationship with their GC. It's an ongoing process that requires open communication and transparent action.

Sending preliminary notice is an early step in the process of building a good relationship. They actually improve relations up and down the pay-

ment chain by creating a good first impression, reducing risk, and improving communication for everyone on a project. As an added bonus, it can help you get paid faster.

Subcontractors should make submitting preliminary notices a routine for every project they undertake, whether or not their state requires notice in order to protect lien rights.

The SFMTA is conducting a survey to better understand perceptions of sharing rides in San Francisco. To connect San Franciscans safely, equitably, and sustainably to their communities, we must make more efficient use of our street infrastructure. Increasing vehicle occupancy through shared rides, either in carpools or shared ride-matching apps, is one way to more efficiently utilize our existing street space. We are trying to identify priorities for San Francisco residents and the barriers they face when considering using shared ride options through this survey.

Take the survey at sfmta.com/projects/shared-rides-pilot. Child support matters can be complicated, stressful, and confusing. The Department of Child Support Services helps parents understand the process so they know their rights and options for making and receiving support payments. Mandatory pre-bid site visit will be held on **Thursday, December 12, 2019 at 3:00 p.m.** located at: **Front Entrance of Emerson Site.** Bidders not attending the site visit will be disqualified.

Bids must be accompanied by a bidder's bond, cashier's check, or certified check for at least ten percent (10%) of the amount of the base bid and made payable to the Owner, as detailed in the Contract Documents.

Pursuant to the Contract Documents, the successful bidder will be required to furnish a Payment (Labor and Material) Bond in the amount of one hundred percent (100%) of the Contract Sum, and a Faithful Performance Bond in the amount of one hundred percent (100%) of the Contract Sum.

The successful bidder will be allowed to substitute securities or establish an escrow in lieu of retainage, pursuant to Public Contract Code Section 22300, and as described in the Agreement Between Owner and Contractor and General Conditions.

The Owner will not consider or accept any bids from contractors who are not licensed to do business in the State of California, in accordance with the California Public Contract Code, providing for the licensing of contractors. In accordance with Section 3300 of said Code, the bidder shall have a **Class A-General Engineering and/or B-General Building, C10 – Electrical Contractor License** and shall maintain that license in good standing through Completion of the Contract and all applicable warranty periods. For all projects over Twenty-Five Thousand Dollar (\$25,000), the bidder shall state the public works contractor registration number on the Designation of Subcontractors form for each subcontractor performing more than one-half of one percent (0.5%) of the bidder's total bid.

The Director of Industrial Relations of the State of California, in the manner provided by law, has ascertained the general prevailing rate of per diem wages and rate for legal holidays and overtime work. The Contractor must pay for any labor therein described or classified in an amount not less than the rates specified. Copies of the required rates are on file at the Owner's business office and are available on request.
