

How General Contractors Benefit From Bid Management Software

[Article was originally posted on www.constructconnect.com]

By Kendall Jones,

General contractors find work in several ways: open bidding, negotiated contracts, submitting proposals, design-build contracts, etc. Regardless of the solicitation method, they all have one thing in common, the general contractor will need to subcontract out some, or all, of the work to trade contractors and other vendors.

Bid management is a time-consuming process. From prequalifying subcontractors to creating Invitations to Bid (ITBs) to providing each invited bidder has the information, plans, and specifications needed and ensuring adequate bid coverage, bid management can eat up a ton of time. Not to mention all the follow-ups calls, emails, and addenda between you and your subs throughout the entire process.

Keeping track of all the information flowing back and forth with all parties is about as easy as herding cats. This is why general contractors who use a bid management software can not only bring order out of chaos, but they also can get a leg up on their competition and come out the victor on bid day.

Here's a look at some of the benefits of using bid management software.

Streamline Your Bid Process

Creating and sending ITBs is tedious work. After you identify all the trades you'll need, you have to identify which subs work in the project area and are capable of doing the work. Email and the ability to host or share plans electronically has been a vast improvement over fax machines and shipping out plans or relying on plan rooms and reprographers for subs to access plans.

With bid management software, general contractors can quickly identify who they want to invite to bid, create ITBs, and share plans and specs with all their invited subs all at once is a huge time saver. Providing online access to each project's plans and specs

Improve Communications

The better the communication is on a project, the better the ability to effectively collaborate. Historically, construction projects have been a disjointed mess with the various, disparate trades working independently from each other. The need for stronger collaboration in construction, even during the preconstruction phases, is due to tighter schedules and budgets along with the increasing complexity of projects.

With bid management software, general contractors can easily share information and addenda with all their bidders. Some bid management soft-

ware allows general contractors to track which documents and files they've accessed and viewed, allowing them the ability to reach out and review plans and specs together with their subs to ensure a better understanding of the project and what is expected from each sub.

Ensure Bid Coverage

With bid management software, general contractors can easily track how many bids they have received for each trade and which subs have responded to their ITBs. In addition to being able to access their private network of subs, most bid management solution provides access to a larger network of trade contractors and vendors.

This allows general contractors to reach out to trade contractors who they might not be familiar with to invite to bid on their projects. Not only can this help to ensure proper bid coverage on a project, but it also will general contractors to build relationships and grow their network for future projects.

Stay Organized

Keeping on top of everything is critical to effective bid management. Being able to store and access all of your project data and documentation from a central location makes it easy to keep all of your bids organized. Being able to create notes for

Owner: Elsinore Valley Municipal Water District.
Project Name: Regional Water Reclamation Facility Upgrades; Work Order No. 75946
Location: 31315 Chaney Street, Lake Elsinore, CA 92530

Bid Date: August 23, 2019 at 2:00p.m.

Request for sub-quotes
DBE, MBE, WBE, SBE, SBRA, LSAF, HUBZone

Kiewit Infrastructure West Co. (Kiewit) is seeking sub-quotes from qualified Disadvantaged Business Enterprises (DBE) firms, including

Minority Business Enterprise (MBE), Women Business Enterprise (WBE), Small Business Enterprise (SBE), Small

Business in Rural Area (SBRA), Labor Surplus Area Firm (LSAF), Historically Underutilized Business (HUB) firms; and all other business enterprises to perform as Subcontractors and Material Vendors/Suppliers. DBEs must provide evidence of certification by one of the following agencies prior to bid opening: The US Environmental Protection Agency (USEPA), The Small Business Administration (SBA), California Department of Transportation (Caltrans), Tribal, State and Local governments, or an independent private certifying organization.

The Regional Water Reclamation Facility Upgrade Project includes construction includes Clarifier No. 6 and associated underdrain system; secondary equalization, off-spec, and stormwater ponds; filter effluent diversion structure, off spec water return pump station; operations building expansion and retaining wall. Other work includes utility water pump station improvements, Train B filter valve actuators replacement, polymer dilution/blending units replacement, and miscellaneous improvements upgrades and modifications to the existing Operations Building, including upgrades to the HVAC system, relocation of the microbiology lab, and modifications to office space, kitchen/breakroom upgrades, and security improvements, identified as a result of a comprehensive condition assessment.

Kiewit is requesting quotes for various areas of work listed in, but not limited to, the scopes of work below:

Aggregates • utility material • dewatering • ductile iron pipe • reinforced concrete pipe • plastic pipe • asphalt paving • curbs and gutter • fences/gates/guardrails • landscaping contractors • ready mix supply • concrete reinforcing installation • concrete pumping • concrete rehabilitation • masonry work • metals • finish carpentry • building insulation • membrane roofing • flashing and sheet metal • metal doors and frames • windows • flooring • painting and coating • specialties • fire protection specialties • pre-engineered structure • plumbing fixtures and equipment • HVAC

Firms interested in receiving a bid package for this project must contact us at the e-mail address noted. Responding firms will be issued an "Invitation to Bid" through Kiewit's electronic use of SmartBid system (at no cost to bidder) with project information and bid instructions. Plans and specifications will be also be available for review at the address listed below if requested.

This is a public works project and is subject to prevailing wage rates. Project is also financed in part by the California State Revolving Fund, but not limited to the AIS Provisions, DBE Program requirements, California Labor Code and the Davis-Bacon Act.

Responsive bidders must possess a valid California Contractor's license (as appropriate) and provide acceptable insurance. Responsible subcontractors and material contractors will be required to provide bonding for 100% of their contract value. Kiewit will reimburse bond premiums. Firms performing any onsite work must be signatory to the appropriate union labor agreements.

"Kiewit Infrastructure West Co. is an Equal Opportunity Employer. Employment decisions are made without regard to race, color, religion, national or ethnic origin, sex, sexual orientation, gender identity or expression, age, disability, protected veteran status or other characteristics protected by law."

Bid Management Software

Continued from page 1

each sub, track responses, and generate call logs allows you to quickly keep track of all communications.

With bid management software, general contractors can keep all of their subcontractor contact info up-to-date and easily filter through information and contact lists to find what they need when they need it.

Prequalify Subcontractors

Making informed decisions is critical when it comes to selecting which subcontractors to work with. To mitigate the risks of safety issues, schedule delays, and subcontractor default, general contractors should always vet and prequalify trade contractors before inviting them to bid on projects.

Most bid management tools allow general contractors to prequalify trade contractors using customized forms or industry-standard ConsensusDocs preconstruction forms. General contractors can then assess the risk factors of each individual trade contractor based on their safety records, financials, bonding capacities, current workload, past work experience, etc.

Ready to see for yourself the benefits of bid management software and how to simplify preconstruction? Regardless of your needs, ConstructConnect has a solution.

U.S. EPA honors Berkeley teacher with environmental education award

The U.S. Environmental Protection Agency today announced that Jacqueline Omania, a teacher at Oxford Elementary School in Berkeley, Calif., is one of 11 winners to receive the Presidential Innovation Award for Environmental Educators (PIAEE). The PIAEE awards recognize innovative educators who bring environmental education into their classrooms through hands-on, experiential approaches.

"Ms. Omania's dedication to her students has rippled throughout the community as her students reach out to their peers and families to share what they have learned," said **EPA Pacific Southwest Regional Administrator Mike Stoker**. "She has gone above and beyond in her teaching career to better her student's understanding of our natural world and conservation of its precious resources."

Ms. Omania has helped her students think critically about how they generate waste in their daily lives and ways to reduce it. She created the Plastic-Free Planet curriculum and leads an Heirs to Our Oceans chapter for students that meets weekly during lunch and provides a space for students to connect, practice public speaking and plan action projects both at school and in the greater community.

"I am so honored to receive this award. I dedicate it to my students who inspire me daily with their persistence and passion to work together to solve the complex environmental challenges of our times," said **3rd grade Oxford Elementary**

School teacher Jacqueline Omania.

After learning about the ways landfill waste affects our environment, Ms. Omania's class decided to challenge themselves to adopt a zero-waste classroom philosophy. After changing many personal habits and classroom practices, the students were able to reduce the waste they generated during the school year to one quart-sized jar. These efforts saved nearly two dumpsters' worth of landfill waste and more than 4,000 disposable plastic utensils. Her class was also involved in helping the City of Berkeley pass its Disposable-Free Dining Ordinance by collecting signatures and speaking at various venues about the problems of plastic pollution and their vision of a zero-waste city.

Two teachers in EPA's Pacific Southwest Region received an honorable mention in this year's awards: Kelly Porter of Edison High School in Huntington Beach, Calif., and Rachna Nath of Arizona College Preparatory's Erie Campus in Chandler, Ariz.

From across the country, 19 educators and 200 students were recognized for their remarkable efforts that promote environmental education and stewardship. Eleven educators received the Presidential Innovation Award for Environmental Educators, and eight educators were recognized with an honorable mention distinction. Additionally, the 200 student award recipients – who worked as a team or individually on 17 projects – received

the President's Environmental Youth Award. Altogether, EPA received 162 project applications from 26 states.

Established by the 1990 National Environmental Education Act, PIAEE supports, encourages and nationally honors outstanding kindergarten through high school educators who integrate environmental and place-based, experiential learning into school curricula and school facility management across the country. Under the act, the White House CEQ assists EPA in administering the awards program.

The PIAEE program seeks to recognize, support and bring public attention to the outstanding environmental projects performed by these innovative teachers who go beyond textbook instruction to incorporate methods and materials that utilize creative experiences and enrich student learning. The program recognizes up to 20 elementary and secondary (K-12) education teachers, school administrators, and their local education agencies and provides funding to help support those educators in their environmental education work.

For a list of past PIAEE winners, visit: <https://www.epa.gov/education/presidential-innovation-award-environmental-educators-piaee-winners>

For information on environmental education at EPA, visit: www.epa.gov/education

Public Legal Notices

SAN FRANCISCO BAY AREA RAPID TRANSIT DISTRICT

PUBLIC NOTICE: BAY AREA RAPID TRANSIT DISTRICT

The San Francisco Bay Area Rapid Transit District (District) has updated its proposed Triennial Disadvantaged Business Enterprise (DBE) goal for Federal Transit Administration (FTA) assisted projects during fiscal years 2020 through 2022 (October 1, 2019 - September 30, 2022).

The District will achieve its DBE goal using race and gender-conscious measures, as well as race and gender-neutral measures. The District proposes an overall goal of 16% for FFY 2020-2022 for FTA-assisted projects, of which 10% is race-conscious and 6% is race-neutral.

If you would like to provide comment on the District's proposed Triennial DBE goal, please send your comments to Office of Civil Rights Program Manager Joseph Towner: Email: JTowner@bart.gov

Fax: (510) 464-7585

Mail: 300 Lakeside Drive, 16th Floor, Oakland, CA 94612

SMALL BUSINESS EXCHANGE

You are invited to attend our
2019 Business Open House

August 6, 2019 ■ 4: 00 p.m.-6:00 p.m.

Valley Water Headquarters ■ Boardroom

Learn about consultant contract and procurement opportunities available through the Santa Clara Valley Water District, now known as Valley Water, at the 2019 Business Open House.

Valley Water's proposed net expenditure budget for Fiscal Year 2019-20 is approximately \$528.9 million. The Open House provides a forum to network with other firms and the Valley Water Board of Directors, management, and staff.

Managers and staff from our Capital, Consultant Contracts, Information Technology, Purchasing, Operations, Watershed, and Water Utility units will be present to provide information and answer questions about upcoming projects and business opportunities.

There is no cost to participate in this event, but space is limited and registration in advance is recommended.

To register please visit the registration page at:
<https://www.valleywater.org/business-open-house>

At our discretion, 100% Payment and 100% Performance bonds may be required as a subcontract condition. This will be a PREVAILING WAGE JOB. DGC is an Equal Opportunity/Affirmative Action Employer.

Small Business Exchange

The Sub-Bid Request Specialist

It takes a sharp pencil and qualified, competitive sub-contractors, vendors, and suppliers to win the bid and achieve the diversity goals.

Look no further. We have them all in our database

Need construction contractors and suppliers familiar with public contracting, bondable, certified by cities, states and federal entities, and willing to work in one or many locations?
We have that, too.

Want to reach them by industry-specific codes (NAIC/SIC/UNSPSC)?
We can do that, too

The next time you're bidding project where time and accuracy are of the essence, call us.
We'll make it happen.

We are on the move to make your business better.

Call 1-800-800-8534
