

4 Ways to Take Your Construction Business Paperless

[Article was originally posted on www.constructconnect.com]

By Kendall Jones,

As a construction professional, it's probably difficult to imagine no longer using paper in your daily activities. We're talking no more hard copies of plans and specs, invoices, contracts, time sheets, punch lists, contracts or bids.

In a paper-reliant industry like construction, going paperless may seem like a daunting task, but technology is rapidly making paper obsolete and the industry continues to head in that direction. Solutions currently available can make your company more efficient and productive while allowing for easier communication and collaboration.

Here's a look at some of the ways to put your firm on the path to going paperless:

Cloud Storage

If you've been in business for any length of time, you've probably got filing cabinets or file boxes full of project documents, invoices, timesheets, tax documents, etc. Maybe you even have offsite storage for all

your paperwork. With paper storage, your documents are susceptible to fire and flood damage as well as theft of confidential information.

A secure cloud storage solution is probably your best bet. Other options include onsite server storage or backing everything up on external hard drives. With a good document software solution, you can easily access any document or associated files with a few keystrokes on the computer rather than having to locate and sort through bulky files.

Plans & Specs

2D paper plans are good, but they pale in comparison when you look at all the additional information that can be provided with BIM models. Augmented reality, tablets, digital plan tables, SMART Boards and wearables like smart hard hats and Microsoft's HoloLens will make paper plans and specs obsolete one day. Why bother with 2D plans when you can immerse yourself in 3D images that provide you with exploded views detailing all the building components with additional information like cost, time and scheduling.

With digital plans the ability to always have instant access to the most up-to-date drawings becomes a reality, something paper plans will never be able to accomplish. Digital plans and BIM models allow for better project collaboration because all parties can view and either make or suggest changes as the drawings progress, making for a better end product.

Employee Timesheets

Keeping up with your employees' paper time sheets can be a real hassle. Not only do you have to make sure they've all been filled out and completed properly, you also have to get them safely back to the office so your HR or accounting personnel can get them entered and processed to pay your employees.

Mobile solutions allow you to schedule, monitor and make corrections to time cards without all the messy paperwork. Some mobile time clock solutions also allow you to integrate with your current payroll software which will save you time and money.

Project Management & Documentation

There are a slew of software solutions and mobile apps that have been developed for the construction industry to manage and document both your projects and your entire construction business. Paper processes such as daily logs, punch lists, requests for information, estimating and takeoffs can all be replaced with currently available software and mobile apps which you can easily access from a smartphone or tablet.

If you are considering the transition to a paperless firm the best advice is to start small. Eliminate one or two paper processes to begin with so you can measure the benefits and cost savings. Over time, you can gradually replace other paper-reliant processes at your own pace.

Balfour Beatty

Project Description: Sterling Natural Resource Center (SNRC)
Project Location: Highland, CA
Owner: East Valley Water District

Proposals for Construction Services Date: Thursday January 31, 2019 at 2:00pm
Letters of Interest from Subcontractors and Suppliers Date: Thursday January 17, 2019 at 2:00pm

Balfour Beatty Infrastructure, Inc. is proposing as a Prime Contractor on this project. We are looking for proposals for **Material Supply and Subcontractor Services** at this time. All other qualified Subcontractors and Suppliers are encouraged to **submit your intent to bid** at this time. This is a \$150M progressive design-build project and subcontractor scopes will be determined during the design phase of the project based on the General/Special Provisions, and the Project Definition and Reference Documents provided. Additional Subcontract Scopes will be advertised at a later date as scopes and quantities can be defined. This project is funded by the California State Revolving Fund (CASRF) and as such Balfour Beatty is seeking interested Disadvantaged Business Enterprises (DBE) as defined by the CASRF Guidelines (including MBE, SBE, SBRA, LSAF & HUB). Prospective bidders must be certified by SBA, CDOT, or USEPA at the time of bid opening. This project is also to include implementation of American Iron and Steel (AIS) provisions of P.L. 113-76, Consolidated Appropriations Act, 2014. Balfour Beatty is a Union Contractor and Subcontractors must abide by the terms and conditions of the applicable contract documents.

SUBCONTRACTORS SOUGHT FOR THE FOLLOWING TRADE(S):

Offsite Transportation & Disposal (Truckers) Vendors, Site Concrete, Ready Mix, Concrete Forms & Accessories, Reinforcing Steel and Landscaping (Planting & Irrigation), Plastic Pipe, Ductile Iron Pipe, SSTL Pipe, Process Valves, Mechanical Specialties, FRP Pipe and Building Plumbing.

PLANS & SPECIFICATIONS: Project Proposal Documents may be viewed and downloaded plans by following this link maintained by BBII:

<https://secure.smartinsight.co/#/PublicBidProject/411236>

Subcontractors and Suppliers are responsible for reading and acknowledging all Specifications and Addenda.

BONDING & INSURANCE: Subcontractors may be required to furnish performance and payment bonds in the full amount of their subcontract, by an admitted surety subject to approval by BBII. Bonding cost assistance is available. Subcontractors should expect to sign the standard BBII subcontract agreement and provide a waiver of subrogation. Please contact BBII at (707) 427-8900 for bonding and other types of assistance.

QUESTIONS: For questions regarding the bid, please contact Carla Becker.

Email: cbecker@balfourbeattyus.com or in writing to: 220 Technology Dr. Suite 220, Irvine CA. 92618

Proposals must be valid for the same duration as specified by the Owner for contract award. Conditions or exceptions in Subcontractor's quote are expressly rejected unless accepted in writing. Subcontractor scope (including any conditions or exceptions) is required **one week prior to bid deadline**, to allow proper evaluation. To assist DBE Subcontractors and Suppliers, we will divide total scopes into smaller tasks or quantities, and if necessary adjust schedules to permit maximum participation by DBE firms. Subcontractors are required to indicate all lower-tier DBE participation offered on their quotation.

What to Do about a Retirement Plan for Your Business?

- Traditional 401 (k)
- Defined benefit (pension) plans

Note: The ability of small businesses to offer retirement plans with less administrative cost and less regulatory and administrative complexity to them may soon be possible. Under a recent executive order, multiple employer plans for small businesses may be developed. More guidance on this from the IRS is expected next year.

Get a tax credit for setting up a plan

If you don't yet have a plan but set one up to cover at least one employee who is not an owner or spouse ("a non-highly compensated employee") and you don't have more than 100 employees, then you may be eligible for a tax credit for small employer pension plan startup costs. While the name of the credit implies it's for a pension plan, it can be used for a 401(k) or any other qualified retirement plan. The credit is 50 percent of startup costs up to a top credit of \$500. The credit can be claimed for the first three years of the plan. And you can even start to claim the credit in the year prior to the start of the plan.

Give notice of plan participation to employees

Generally, you must give notice to employees of their eligibility to participate in a plan. The time frame for the notice and the required content depends on the type of plan offered.

For example, in the case of a SIMPLE IRA, you must give each employee the following information before start of the election period (generally from November 2 through December 31 for a plan starting on the following January 1):

- The employee's opportunity to make or change a salary reduction choice.
- The employer's type of contribution (matching contribution, which is keyed to the employee contribution, or nonelective contribution, which is independent of any employee contribution).
- A description of the plan from the financial institution hosting it.
- A written notice that the employee's balance can be transferred without cost or penalty if the employee uses a designated financial institution.

Final thought

Business owners have many demands on their limited dollars: giving raises to employees, investing in new equipment, expanding to new locations, spending on marketing, and more. But retirement savings should become part of the budget for all businesses.

SOURCE:

<https://www.sba.gov/blogs/what-do-about-retirement-plan-your-business>

By Barbara Weltman,

According to the Census Bureau, Download Adobe Reader to read this link content only 45 percent of workers at companies with 1 to 49 employees had access to a retirement plan. This percentage jumped to 76 percent at companies with 50 to 99 employees, and to 90 percent for companies with 100 or more employees. What can small businesses do to improve their numbers and fall in line with larger employers?

Why you need a retirement plan

If you don't yet have a plan, you probably should think seriously about starting one. There are several big reasons:

- Owner's retirement savings. Small business owners may think that their business (through a sale) will be the nest egg for their retirement. Unfortunately, this can prove to be erroneous. Changes in the marketplace may undercut the value of a business. Or when it's time to retire, the economy may be unfavorable to a profitable sale.
- Employee retention. According to a Towers Watson survey several years ago*, (link is external) 35 percent of employees said retirement benefits were a key reason for taking a job, and 47 percent said retirement benefits were an important reason for staying on the job. In this tight job market, it's likely these statistics are even higher.
- Employee retirement savings. It's a reality that employees need to save for their own re-

irement. Employers can help by giving employees access to a qualified retirement plan, which enables them to save on a tax-advantaged basis. And employees may be eligible for a personal tax credit Download Adobe Reader to read this link content tied to their plan contributions.

- Employer tax breaks. Contributions on behalf of employees are fully tax deductible (up to set annual limits). What's more, employers may be eligible for a tax credit (explained later).

How to choose the best retirement plan option

As a small business, there are many retirement plans to choose from. The one best-suited to your situation depends in large part on what your company can afford. Some are funded entirely by employer contributions, some entirely by employee contributions, and some by a combination of both.

The IRS has a comparison of retirement plan options Download Adobe Reader to read this link content for small businesses. These include:

- IRA-based plans
 - Payroll deduction IRAs
 - SEPs
 - SIMPLE IRAs)
- Defined contribution plans
 - Profit-sharing
 - Safe harbor 401(k)
 - Automatic enrollment 401(k)

Community Input Needed for New Arts Initiatives
With the passage of Proposition E, the Restoration of Hotel Tax for Arts and Cultural Purposes, the San Francisco Arts Commission and Grants for the Arts will receive new funding to help support a variety of arts initiatives throughout the city! During the month of January, we will hold a series of public meetings as well as a town hall on Wednesday, February 6 at the Herbst Theater (401 Van Ness) at 5 p.m. To gather community feedback on how the new funds would best support the arts and culture sector in San Francisco. Information on how to get involved can be found at sfartscommission.org.
