Trump Team Compiles Infrastructure Priority List

By Daniel C. Vock

President Donald Trump's team has compiled a list of about 50 infrastructure projects nationwide, totaling at least \$137.5 billion, as the new White House tries to determine its investment priorities, according to documents obtained by McClatchy's Kansas City Star and The News Tribune. The documents, circulated within the congressional and business communities, offer a first glimpse at which projects around the country might get funding if Trump follows through on his campaign promise to renew America's crumbling highways, airports, dams and bridges. Among the projects could be a new terminal for the Kansas City airport, upgrades to Interstate 95 in North Carolina and the construction of a high-speed railway from Dallas to Houston. The document obtained by the Star proposes funding the projects as public-private partnerships, with half the money coming from private investment. RELATED: Editorial — Infrastructure bubbling to the top The Trump team put together the priority list of "Emergency & National Security Projects," a senior congressional aide said. It includes cost estimates and job impact numbers. It is not clear if that document is

a draft or a final version. The National Governors Association circulated a similar list as a spreadsheet among state officials in December, requesting further suggestions. All but two projects on both lists are the same. Some projects governors suggested — in California and Washington state in particular — do not yet appear on either list. The governors association has received 43 responses from states and territories so far, said Elena Waskey, a spokeswoman for the association.

"The total number of projects is more than 300," Waskey said. "We are working to convene information for as many states as possible that we will then forward to the administration." The White House did not respond to a request for comment. Among the projects listed is a \$10 billion proposal to replace the nation's radar-based air traffic control system with one called NextGen, based on satellites. The document estimates the project could create 2,300 direct jobs. Some states, such as Missouri, have more than one project listed, while others appear to have come up empty. Neither document lists any projects in Kansas, for example. The National Governors Association asked governors' offices last month for input on a preliminary list of infrastructure projects compiled by the Trump team, said Jaime Smith, a spokeswoman for Wash-

ington's Democratic Gov. Jay Inslee. "They seek examples of priority infrastructure projects that might be incorporated into a future infrastructure investment program," said the letter from the governors association, dated Dec. 16. "Specifically, the transition team is looking for three to five project suggestions from each state that they would vet for inclusion in a new program." RELATED: Transportation expert promotes P3s to fund infrastructure projects The letter said the vetting would be done by a bipartisan infrastructure commission overseeing investments. "The initial spend on these projects for 2017 is expected to be \$150 billion, and the transition team hopes that this type of project will be continued over the next two years," according to the letter. The letter also noted that any contributions governors made would not be binding, and that this was "just an initial information-gathering request."

"There will be a more formal process for states to submit information," the letter said, once the Trump administration was in office. "Projects will be chosen through a more formal process as well." RELATED: President of mayors group to Trump: 'We're ready to go' on investing in infrastructure It already

Trump Team Compiles Infrastructure Priority List

Continued from page 1

had the Seattle-Tacoma International Airport expansion on it, so Inslee sent a letter back to the association with five additional possibilities for federal investment. California Gov. Jerry Brown's office sent nine examples of big shovel-ready projects in California, including the Sacramento River Bank Protection Project and Bay Area Commuter and Freight Projects.

The projects have to meet specific criteria:

- A national security or public safety "emergency."
- "Shovel-ready" with at least 30% of initial design and engineering work complete.
- Direct job creator.
- Project with the potential for increased U.S. manufacturing.

The governors association's letter included a list of projects being vetted, with the request that

governors use it as a model for submissions. That preliminary list appears to be similar to the document obtained by McClatchy's Star, with two differences: The preliminary list includes the Alaska Pipeline & LNG Project instead of the Texas Central Railway and it lists the Fort Mojave Solar Project instead of the Howard Street Tunnel. Both the preliminary list and the more detailed document obtained by the Star includes a new terminal for Kansas City International Airport. It says the project would cost \$972 million and generate 1,000 jobs. Missouri Gov. Eric Greitens declined to comment. The Kansas City airport is one of three airport projects on the Trump team's document. The others are expansions of Lambert-St. Louis International Airport and Seattle-Tacoma International Airport.

Kiewit is seeking sub-quotes from Local Business Enterprise (LBE) firms; compliant with West Basin Municipal Water District's "Local Business Enterprise Policy Compliance" and all other business enterprises to perform as Subcontractors, Professional Service Firms, and Material Vendors/Suppliers.

**Project Owner: West Basin Municipal Water District
 Project Name: Hyperion Secondary Effluent
 Pump Station Improvements**

Project Location:

12000 Vista del Mar, Playa del Rey, CA 90293

Project Bid Date / Time: February 9, 2017 at 2:00p.m. PST

Project Description:

The Project contemplated consists of the following work at the Hyperion Water Reclamation Plant:

1. Construction of pump station wet well and equipment installation
2. Tie-ins to active hydraulic structures and large diameter pipelines
3. Construction of force main (portions of which are on LAD-WP Scattergood property)
4. Installation of force main ARVs (along force main in Los Angeles and El Segundo)
5. Construction of new electrical building and electrical upgrades
6. Installation of a procurement packaged secondary generator (Caterpillar)
7. Integration of improvements into District's distributed control system (DCS)

Kiewit is requesting quotes in the areas described, but not limited to:

Aggregate, demolition, shoring and underpinning, asphalt paving, curbs and gutter, ready mix supply, concrete reinforcing installation, masonry work, metals, welding services, metal deck, membrane roofing, flashing and sheet metal, sheet metal roofing, metal doors and frames, overhead door, paints and coating, supply and treatment pump, hydraulic gates & valve, cathodic protection, bolts and gaskets, hangers and support, valves and HVAC.

All responsive subcontractors must possess a valid California Contractor's license, be registered with the Department of Industrial Relations (DIR), and provide acceptable insurance. Responsible subcontractors and material contractors will be required to provide bonding for 100% of their contract value. Bond premium will be reimbursed by Kiewit. Subcontractors performing any on-site work must be signatory to the appropriate union labor agreements that govern its work. Plans and specifications are available for review at the address listed above or provided to you through Kiewit's electronic use of SmartBidNet by contacting Kiewit.

Kiewit intends to conduct itself in good faith with all LBEs and all other business enterprises regarding participation on this project. For further information, assistance or questions regarding the project, to discuss your specialty or scope of work, project schedule, requirements of the contract, licensing, insurance or bonding, equipment, supplies, materials, related assistance or services, please contact Mike Sippl.

SF DEPARTMENT OF CHILDREN, YOUTH AND THEIR FAMILIES

The annual citywide Summer Resource Fair is coming up on Saturday, March 11 from 10am to 2pm at the County Fair Building in Golden Gate Park. The Summer Resource Fair is a free, family-oriented event that showcases the multitude of summer programs and other opportunities for young people in and around San Francisco. This year the Department of Children, Youth, and Their Families will bring in 200 exhibitors from summer programs, camps, and classes for every age group, from toddlers to tweens to teenagers. The Recreation and Park Department will host their rock climbing wall, sports stations, and arts & crafts activities, the San Francisco Public Library will give away books, and there will be food trucks, entertainment, and more! Please visit www.dcyf.org for more information about the Summer Resource Fair, or call Emily Davis at 415-554-8991.
