

How a Cashless Society Would Harm the Poor

Sweetgreen, a salad food chain, went cashless at locations this year in California, Illinois, Maryland, Pennsylvania, Virginia and Washington, D.C. (Shutterstock)

By *Natalie Delgadillo*

By the end of the century, it's likely that huge swaths of the global economy will be cashless. It's already beginning to happen. The Department of Motor Vehicles in Louisiana ditched cash last year. Boston's transit agency plans to phase out the payment form. The entire country of India is considering such a move. And increasingly, fast-casual food chains across the U.S. are going cashless to remove the risk of robbery and the burden of slow cash transactions.

But there's one significant portion of the population that's getting left out of this transition: people who lack access to traditional financial services like bank accounts and credit cards.

Nationally, about 7.7 percent of people are "unbanked," meaning they don't have a bank account, according to a 2013 survey by the Federal Deposit Insurance Corporation (FDIC). Another 20 percent are "underbanked," meaning they might have a bank account but regularly use alternative financial services such as check cashing depots and payday lending. The majority of these groups are low-income earners who struggle to meet the minimum balance required to open checking and savings accounts.

Anti-poverty advocates and researchers say the move away from cash excludes an already underserved and disadvantaged population. The recent spike in cashless fast-casual restaurants, for example, limits the healthy food options available for the unbanked.

"For any business that's considering eliminating cash payments, it's important they consider what the consequences will be and who will pay those consequences," says Linnea Lassiter, a policy analyst at the D.C. Fiscal Policy Institute. "Are the marginal benefits to their business worth systematically excluding a segment of the population that's largely low-income people of color?"

About 54 percent of black households and 46 percent of Latino households are underbanked or unbanked, compared to only 19 percent of white households, says Lassiter.

"I don't think [these businesses] are intentionally trying to exclude poor people and people of color, but that's the impact," she says.

The phenomenon isn't yet widespread, but it does appear to be growing.

Sweetgreen, a salad food chain, went cashless at locations this year in California, Illinois, Maryland, Pennsylvania, Virginia and Washington,

D.C. Jetties, which serves salads and sandwiches throughout D.C., went cashless in 2015. Park Café in Baltimore also joined the trend. And many more restaurants across the country are considering it.

Some anti-poverty experts caution that concern about cashless businesses is misplaced. The real issue, they say, is with people's lack of access to traditional financial services in the first place.

"We're not for or against cashless transactions. Our biggest concern isn't cash or not-cash, it's banked or not-banked," says David Rothstein of the Cities for Financial Empowerment Fund (CFE Fund), a non-profit that aims to provide low- and moderate-income people with financial stability. "It's about being safe and secure in a changing economy and being nimble in the way you manage your money."

Rothstein points to the importance of city-run Bank On programs, which connect unbanked and underbanked people with safe, low-cost accounts. Some of these programs, which the CFE Fund helps to run, have been greatly successful. In San Francisco, for instance, Bank On has helped roughly 10,000

California Sub-Bid Request Ads

nibbi

Project Name: Mission Bay Block 3E – DIV 1-48
Location: San Francisco, California
Pre-Bid Mtg: August 3, 2017 @10:30am
Bid Date: August 17, 2017 @2:00 PM

Nibbi Brothers has been selected as the General Contractor for the Mission Bay Block 3E project in San Francisco. We are in receipt of the bid documents and are currently requesting bids from qualified subcontractors including those certified with the Office of Community Investment and Infrastructure (OCII) for DIV 1-48. The Office of Community Investment and Infrastructure (OCII) participation goal has been established for this project 50% SBE/LBE goal with first consideration for San Francisco-based MBEs, WBEs and SBEs located in zip code areas 94124, 94134 and 94107 followed by all areas in San Francisco. The Mission Bay Block 3E program goal is to provide a safe and healthy home for families and veterans. In addition, Nibbi Brothers is committed to supporting this goal by achieving a minimum of 5% Disable Veteran Business Enterprise (DVBE) participation. All bidders should visit <https://calprocure.ca.gov/pages/PublicSearch/supplier-search.aspx> to search for DVBE's and solicit their participation in some capacity with your specific scope of work. Your proposed DVBE participation in your bid will be evaluated along with the bid and scope inclusions. The project consists of new construction of 101 affordable housing units in San Francisco with a total of 123,701 gross square-feet. The 4-story type V over 1-story type I housing project is to provide a safe and healthy home to support spaces for families and veterans. The building is organized into three wings surrounding a large landscaped multi-use courtyard. The project will also include a main lobby, activity rooms, administrative offices, storage, bike parking and an on-grade parking garage with 25 spaces.

To obtain bid documents through Building Connected, please contact **Kristin Medwick**, Senior Precon and Estimating Coordinator, kristinm@nibbi.com.

For specific questions regarding this project please contact **Elizabeth Crockett**, Preconstruction Manager, elizabethc@nibbi.com.

How a Cashless Society Would Harm the Poor

Continued from page 1

unbanked residents a year open accounts since it started in 2006.

San Francisco's treasurer, José Cisneros, agrees that the focus for state and local governments should be on getting people access to bank accounts -- not on halting a seemingly inevitable transition away from paper money.

"Whether it's a cashless restaurant, a rideshare app where you need a smartphone and a debit card, car rentals ... this is already the way that businesses have gone," says Cisneros. "The reality is, in order to be successful, all of us really want to have a bank account."

Lassiter, for her part, thinks attention can and should be paid to both issues.

"I definitely think it's important for policymakers to create a more inclusive economy and partner with community-based organizations and Bank On programs," she says. "But also, I do think there needs to be a focus on restaurants and businesses that are going cashless because whether or not they intend to be exclusionary, they are."

Some businesses have already realized this and responded accordingly.

An Amsterdam Falafel in Boston briefly went cashless last year but quickly halted the experiment and has no plans to go cashless at any of their locations, says Arianne Bennett, president and CEO of the fast-casual chain.

"We sell a food that brings great flavors and fresh vegetables to folks of all economic levels," she wrote in an email to Governing. "It would be rude of us to assume that everyone has access to digital forms of payment."

Turner

Turner Construction Company, representing the County of Alameda as their Construction Manager at Risk (CMR), formally announces the upcoming bidding opportunity on the project listed below. Bidders are required to meet Project Stabilization/Community Benefit Agreement (PSCBA) requirements and make a good faith effort to meet Enhanced Construction Outreach Program (ECOP) goals. Prospective bidders are encouraged to visit the County of Alameda website for information on certification, ECOP, and PSCBA requirements.

Cherryland Community Center

Approximate Construction Value: Fifteen Million Dollars (\$15,000,000)
 Owner: County of Alameda

The project scope includes ground-up construction of an approximately 17, 500 square-foot multipurpose community center located on two adjoined lots (278 Hampton Road and 17482 Boston Road). The scope also includes improvements to the Meek Estate parking lot, located behind the Community Center site, at the end of Boston Road. This advertisement is for all trade packages associated with the project. The estimate construction start is September, 2017.

This advertisement is for all trades, including:
