

## A School Construction Mess Proves Money Doesn't Solve Everything

Despite \$1 billion worth of investment, San Diego's school buildings are still in disrepair.

Taxpayers in California's second-largest city aren't getting the shiny new school buildings they were promised. (Shutterstock)

By Alan Greenblatt

Twice in the past eight years, San Diego school officials have convinced voters to support big bond measures to pay for construction. They have raised a total of \$5 billion that way, and have already spent \$1 billion. Despite all this, the school district's buildings are now in worse shape overall than when they started.

A report by the district's Independent Citizens' Oversight Committee uses a standard measure called the facility condition index. It calculates how much would have to be spent to replace, repair or renovate buildings, compared to the cost of new construction. An index score under 5 percent is good; above 10 percent is poor. The latest report showed San Diego at 22.7 percent -- up from 18 percent in 2012, when the most recent bond measure passed, and much higher than the 15 percent score when voters approved the first measure back in 2008.

School district officials have sought to play down the findings, saying essentially that they found more wear and tear because they started looking harder. But the same consultant per-

formed each of the recent assessments, and the district has yet to show why the different sets of data shouldn't be viewed as apples and apples. So why are buildings apparently in worse shape, despite pretty significant spending?

It's because maintenance isn't sexy. The district has simply devoted a lot more money to new initiatives than upkeep. "San Diego Unified has spent large swaths of bond money on things like wireless Internet and iPads," reports the Voice of San Diego. It has also taken some of the bond money targeted for construction and used it for operations.

Meanwhile, some actual construction projects, such as new stadiums, haven't done anything to strengthen or repair existing buildings.

That's not just San Diego's problem. Schools throughout the state seem to do a bad job assessing their maintenance needs. A recent study from the University of California, Berkeley, found that 62 percent of state districts are inadequate on upkeep. "Building is sexy, maintaining is not," says Jeffrey Vincent, the study's author.

Vincent notes that there's no broadly recognized standard in the state for assessing school

buildings. Some districts, such as Los Angeles, do sophisticated analyses annually. Others seem to play it by ear. Not knowing what the needs are, it's impossible for them to target funding where it would do the most good.

That is something California voters might want to ponder as they consider a \$9 billion statewide school construction bond that's on the November ballot.

Contact Aaron Mountjoy at

[aaron.mountjoy@kiewit.com](mailto:aaron.mountjoy@kiewit.com)

Kiewit Infrastructure West Co. (Kiewit) is seeking sub-quotes from Disadvantaged Business Enterprises (DBE) firms, including Minority Business Enterprise (MBE), Women Business Enterprise (WBE), Small Business Enterprise (SBE), Small Business in Rural Area (SBRA), Labor Surplus Area Firm (LSAF), Historically Underutilized Business (HUB) firms; and all other business enterprises to perform as Subcontractors and Material Vendors/Suppliers. DBEs must be certified by one of the following agencies prior to bid opening: The US Environmental Protection Agency (USEPA), The Small Business Administration (SBA), California Department of Transportation (Caltrans) with U.S. citizenship, Tribal, State and Local governments, or an independent private certifying organization.

**Project Owner: County Sanitation District No. 2 of  
Los Angeles County**

**Project Name: San Jose Creek Water Reclamation Plant  
Flow Equalization Facilities Phase I**

**Project Location: 1955 Workman Mill Road,  
Whittier, CA 90601**

**Project Bid Date / Time: August 4, 2016 at 2:00 pm PST**

**Project Description:**

The work includes, but is not necessarily limited to, the following: excavation; shoring; dewatering; backfill; disposal of excess excavation material and/or importation of fill and backfill material; installation of tiedown anchors; construction of new reinforced concrete structures including two (2) 4-million gallon below grade tanks, miscellaneous structures, and furnishing and installing mechanical equipment, piping, valves, and instrumentation; electrical work; yard piping; grading; paving; landscaping; modification, removal, and/or relocation of existing facilities; and all other appurtenant work as shown on Drawing No. J.O.-g-1261 and as specified in these Special Provisions (Doc# 3232010) and the Standard Specifications.

Kiewit is requesting quotes in the areas described, but not limited to:

**Aggregate, geosynthetic, dewatering, shoring and underpinning, piles & caissons, soil nail wall, ductile iron pipe, asphalt paving, curbs and gutter, landscaping, ready mix supply, concrete reinforcing installation, masonry work, metal deck, membrane roofing, flashing and sheet metal, metal door and frames, windows, painting and coating, equipment, water supply & treatment equipment, supply and treatment pump, sewage and sludge pump, sludge handling & treatment equipment, trucking filter equipment, sludge digestion equipment, bolts and gaskets, hangers and support, valves, plumbing fixtures and equipment, HVAC, fiberglass-reinforced plastic process pipe, testing, adjusting, balancing, electrical work**

All responsive subcontractors must possess a valid California Contractor's license and provide acceptable insurance. Responsible subcontractors and material contractors will be required to provide bonding for 100% of their contract value. Bond premium will be reimbursed by Kiewit. Subcontractors performing any on-site work must be signatory to the appropriate union labor agreements that govern its work. Plans and specifications are available for viewing at our address listed above and provided to you through Kiewit's electronic use of SmartBidNet by contacting us.

Kiewit intends to conduct itself in good faith with all DBEs and all other business enterprises regarding participation on this project. For information, assistance or questions regarding the project, project schedule, requirements of the contract, licensing, insurance or bonding, equipment, supplies, materials, related assistance or services, please contact Aaron Mountjoy.
