

4 Benefits of Using Takeoff Software

[Article was originally posted on
www.constructconnect.com]

By *Ida May Barlow*,

Are you still performing your takeoffs manually? If so, you probably spend more time shuffling through papers and plans than putting together your estimate and chances are you aren't alone. According to McKinsey Global Institute's Industry Digitization Index, the construction industry is one of the least digitized, beating out agriculture to avoid being at the bottom of the list.

In the past, construction firms that were first to adopt and implement new technology were simply reaping the benefits of the competitive advantages over those that weren't. Construction tech is advancing at a rate now that companies that continue to refuse to adopt tech are going to go the way of the dodo.

Getting buy-in from to adopt new tech can be challenging, from getting budget approval to getting end users to embrace usage rather than reverting to the old ways of doing things. Digital takeoff software is a great solution to ease into tech adoption. You'll see a measurable return on investment as your estimators streamline their estimating process and deliver more accurate estimates and bids in a fraction of the time it would take to perform them manually.

Here's a look at some of the benefits that your estimators, and your company, will have from using takeoff software.

Improves Productivity & Efficiency

Performing digital takeoffs is a reliable, repeatable process to quickly measure quantities, areas, and linear distances. Most takeoff software allows you to customize and create conditions and digitizations that you frequently use to improve the productivity and efficiency of your estimating team. Using similar procedures already loaded into the software allows for a quick, painless, and consistent process.

Performing manual takeoffs can be a long and tedious process. Reducing the time it takes to finish your takeoffs will allow more time to focus on getting your job costs and estimates right which will result in better bids and free your estimating team up to potentially take on more work.

Enable Better Collaboration

One of the major benefits of many takeoff solutions is the ability to have multiple users working on the same project at the same time. Being able to collaborate and communicate in real time with other team members while performing takeoffs can lead to better estimates and bids.

Collaborating on your projects can be a simple process when you use the right software. Being able to integrate your takeoff software with other solutions like job cost tracking, estimating, and project management software will help keep your entire team organized and working for the same data sets.

Deliver Accurate Bids

Your bids are only as good as your estimates and your estimates are only as good as your takeoffs. Manual takeoffs are prone to a number of human errors from not factoring in the scale of the plans, to missing or outdated plan sheets, to miscalculations.

With digital takeoff solutions, you can easily organize and manage plan sheets and addenda, ensuring nothing gets left out. Easily set the scale of the plans and create digital takeoffs to automatically get accurate measurements for volume, surface areas, height, perimeters, and more. No more worrying whether your measurements or conversions were off. Getting precise takeoff quantities will lead to more accurate estimates and more profitable bids.

Get a Competitive Advantage

Takeoff software gives you the capabilities and tools necessary to finish your bid faster than you could by doing it by hand. Get a leg up on your competitors by being able to complete fast and accurate bids. By completing takeoffs faster, you can build in more time to review and double check your estimates and bids. Get your estimating team in the habit of completing your bids ahead of schedule rather than scrambling around at the last minute to get everything submitted on time.

Small Business Facts

SPOTLIGHT ON MINORITY-OWNED EMPLOYER BUSINESSES

May 2019, Nora Esposito, Research Fellow

At A Glance

According to the Census Bureau's latest Annual Survey of Entrepreneurs (2016), there are 1,054,575 minority-owned businesses with employees in the United States. Overall, 20 percent of all employer businesses were at least 51 percent owned by minority entrepreneurs, employing 8.7 million workers at a total annual payroll of \$280 billion and amassing \$1.3 trillion in total annual receipts. On average, a minority-owned firm had \$1.2 million in annual sales and employed eight workers. Small businesses constitute the majority of these firms with 99.9 percent of minority-owned employer businesses having fewer than 500 employees.

The Minority Business Owner

From 2014 to 2016, the overall number of minority-owned employer businesses rose 11 percent, while the non-minority figure rose 1 percent. Chart 1 shows the percent change in the number of employer businesses owned by different minority groups with Hispanic-owned businesses leading in 13 percent growth.

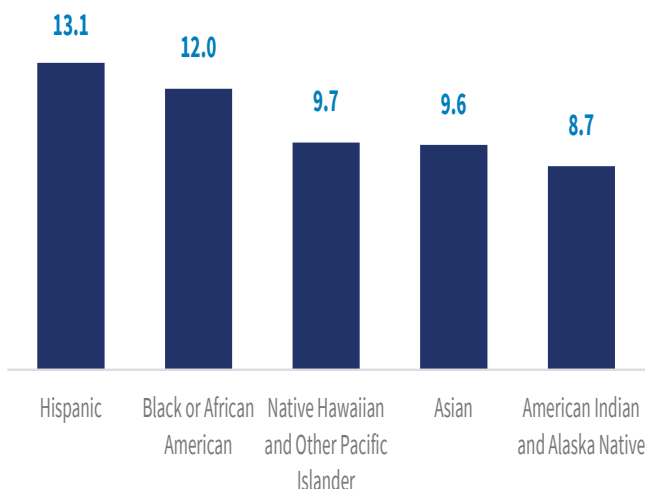

In 2016 there were 555,000 employer businesses with an Asian owner, the highest number of any minority category. Out of all racial and ethnic groups, Black or African American-owned employer firms had the greatest share of female owners, at 39 percent. American Indian and Alaska Native employer firms had the highest share of veteran-owners across all racial and ethnic groups, at 13 percent. Native Hawaiian and Other Pacific Islander firms had the youngest owners, as 12 percent of employer firm owners were under the age of 35.

Industry and Geographic Diversity

Minority-owned businesses are active in a wide range of sectors and areas. In 2016, the industries with the largest number of workers employed by a minority-owned business were the accommodation and food services with 2.4 million employees, health care and social assistance with 1.4 million employees, and retail trade with 863,000 employees. Chart 2 shows the percentage of businesses owned by minority entrepreneurs in each state. States with the highest share of minority-owned businesses were Hawaii with 61 percent, California with 36 percent, Texas with 30 percent, and New Mexico with 27 percent.

**There are 8 million minority-owned businesses total when including businesses without employees (or nonemployers) according to the latest government data. The U.S. Census Bureau's Annual Survey of Entrepreneurs is focused on employer businesses only. For information on both employer and nonemployer minority-owned businesses, see the Office of Advocacy publication "[Minority Business Ownership: Data from the 2012 SBO.](#)"*

Guy F. Atkinson is a union contractor and an Equal Opportunity Employer. Atkinson is signatory to the Carpenters, Cement Masons, Laborers and Operating Engineers Unions. 100% Performance & Payment Bonds from an approved surety company will be required for subcontractors with contract value greater than \$100,000. Atkinson will pay the cost of bonds up to 2.0%. We will assist in obtaining necessary equipment, supplies, materials or related services. We will split items of work (see project specs for full list of bid items) and provide assistance in obtaining bonding, lines of credit and insurance where needed. Prices must stay firm through subcontract and purchase order execution. Subcontractors will be expected to sign Atkinson's standard subcontract and to comply with our company's standard insurance requirements which include a waiver of subrogation. Please provide your contractor's license #, DBE cert # and DIR # with your quote. Atkinson requests that subs and vendors register and prequalify in our online system at <https://www.atknextranet.com> prior to bidding.

REQUEST FOR QUALIFIED AND CERTIFIED SBE SUBCONTRACTORS AND SUPPLIERS FOR:

**SAN FRANCISCO BAY AREA RAPID TRANSIT
CONTRACT NO. 09DJ-160 TBT CP ANODE SLED
AND CABLE REPLACEMENT PROJECT
PROJECT BID DATE: JUNE 25, 2019 AT 2 P.M.**

Quotes are requested for various items of work including but not limited to:

Aggregate, Diving, Engineering (Naval Architect), Electrical, Fuel Systems – Diesel, Inspection, Landfill, Towing, Trucking, Underwater Surveyor.

Project Description: The Work, in general, consists of providing all labor, materials, hardware, tools, barges, Global Positioning System (GPS) navigation, diving and underwater safety systems and other equipment necessary to replace existing anode cable through the Trans-Bay Tube (TBT) and anode sleds located underwater in the San Francisco Bay with District-Furnished Material (DFM) and Contractor-Furnished Materials (CFM). The Contractor shall replace existing equipment to provide functional Cathodic Protection (CP) system for BART's TBT in the San Francisco Bay, as indicated.

Manson construction is willing to break out items of work into economically feasible units to encourage SBE participation. 100 % payment and performance bonds are required but can be waived with prior approval for special cases. Manson will pay bond premium up to 1.5%.

This Contract has a labor agreement wherein Manson is signatory to Piledrivers and Operators, and is subject to the "Buy America" requirements of 49 USC 5323(j), and applicable regulations in 49 CFR Part 661. Current insurance and workers compensation coverage including USL&H and waiver of subrogation is required.

All subcontractors, suppliers, consultants and other third parties interested in this high security project MUST submit a request for a Third Party Non-Disclosure Agreement (Third Party NDA) in order to be eligible to review the drawings and specifications. The Third Party NDA may be obtained by downloading from BART's website (link shown below- the NDA form is attached under Contract 09DJ-160 (<https://www.bart.gov/about/business/procurement/contractsout>)). Note, BART anticipates that within 14 Days after receipt of the NDA, 3rd parties will be notified about the results of their clearance. Companies need to follow the instructions on the Third Party NDA and submit to BART's District Secretary's Office (mailing address is shown on the NDA). PLEASE DO NOT SEND THE FORM TO MANSON CONSTRUCTION CO.

The following must be submitted with Quote by COB 6/23/19: Firms must possess & provide current contractor's license # & DIR registration # on the quote. SBE means a small business concern certified as an SBE by the District or DBE certified under the CUCP. Further, the firm shall meet the SBA size standard for the specific NAICS code they are certified for. Provide the SBE/DBE #. Quotes must be valid for 120 days.

For scope clarifications, to view plans and specifications, or to submit quotes contact Chris Schaeffer at cschaeffer@mansonconstruction.com or 510-232-6319 ext. 2380. YOU MUST BE SSI CLEARED BEFORE YOU CAN VIEW CONTRACT DOCUMENTS. For questions regarding the Third Party NDA, you can also contact Kelly Duncan, kduncan@mansonconstruction.com.
