Improving Economic Opportunity for Women and Working Families

President Barack Obama delivers remarks on the economy at the West Campus of Valencia College in Orlando, Fla., March 20, 2014. (Official White House Photo by Lawrence Jackson)

This afternoon, President Obama traveled to Orlando to talk about improving economic opportunity for America's women and working families.

Speaking at Valencia College, where more than half of the students (56 percent) are women, the President explained that women face "particular challenges" in our economy:

Women make up about half of our workforce. ... In fact, for more than two decades, women have earned over half of the higher education degrees awarded in this country. So that means soon, for the first time, America's highly educated workforce will be made up of more women than men.

But the thing is, our economy hasn't caught up to that reality yet. So we've got too many women who work hard to support themselves and their families, including the 20 percent of

women enrolled in college who are trying to raise kids while earning a degree, and they're facing unfair choices or outdated workplace policies that are holding them back. That has to change — because it holds all of us back.

President Obama made clear that we need "a women's economic agenda that grows our economy for everybody," and that starts with ensuring that America's women get equal pay for equal work. On average, women today earn just 77 cents for every dollar that a man earns. "And that's wrong," the President said. "This isn't 1958, it's 2014."

he President added that the Administration will host a series of roundtable discussions across the country to hear stories about issues such as workplace flexibility and leadership opportunities for women, leading up to this summer's White House Summit on Working Families.

He ended his remarks by discussing how the Affordable Care Act — which turns 4 years old on Sunday — is benefiting millions of American women. The law prohibits insurers from charging women more than men for coverage simply for being women, and has given tens of millions of women access to free preventive care like mammograms and contraceptives, in addition to numerous other benefits.

If you don't have health insurance yet, visit Health-Care.gov and sign up today — the deadline for getting enrolled in coverage for 2014 is March 31.

Sixth Street Viaduct Replacement Project City of Los Angeles

Department of Public Works

DBE Goal: 23.95%

Subcontractors scope due on or before
March 25, 2014 – 1:00PM

The City of Los Angeles is replacing the existing Sixth Street Viaduct over the Los Angeles River and U.S. 101. The 3,500-foot long Viaduct was constructed in 1932, but in the last 80 years concrete elements of the Viaduct have cracked and deteriorated as a result of an internal chemical reaction known as ASR. Skanska-Stacy and Witbeck a Joint Venture (SSW) will construct a Viaduct replacement to current standards utilizing a unique design by HNTB. SSW was selected as the CM/GC for the project.

SSW is interested in soliciting in Good Faith all qualified contractors, including certified Disadvantaged Business Enterprises (DBEs), for subcontract opportunities tied to early work on the project. The early work specifically includes enhancements at several street intersections surrounding the Sixth Street Viaduct to accommodate traffic detours that will occur during the construction period.

All interested contractors are encouraged to view plans and specifications for the early work and to consider submitting bids/quotes to SSW for all, or distinct elements of, the early work scope. SSW will consider breaking out scope packages and adjusting schedules to help permit maximum DBE participation. Plans and specifications are available for review at SSW's main office in Riverside or by download through the internet.

You can request a link to access the download, or to visit the Riverside office plan room, by emailing your contact information to RSVP4SSW@JHCAgency.com.

Quotes requested for contractors, suppliers and service providers include, but are not limited to:

Security services, quality control testing, surveying, traffic control, demolition, concrete forming, concrete supply, pumping, placing and finishing, trench covers, signage, electrical and traffic signal, earthwork, tree planting and removal, asphalt paving, concrete paving, pavement marking, tactile warning tile, detectable warning tile, traffic barriers, chain link fence/gates, utility relocation, construction area signs, temp fencing, cold plane, storm water pollution prevention, iron workers and electricians.

Key Subcontracting Requirements:

- Insurance:
 - ✓ Commercial General Liability (GL): \$1M each occurrence
 - ✓ Commercial Auto Liability: \$1M
 - ✓ Workers Compensation: \$1M
- Performance / Payment Bonds:
 - ✓ Full subcontract amount (SSW will pay bond premium up to 2%)
- Tradesworkers:
 - ✓ SSW is signatory to the Operating Engineers, Laborers, Cement Masons, Carpenters & Teamsters.
 - ✓ Weekly Certified Payroll required.

Please call if we can assist you in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies.
