

\$1 Billion Alameda Point Site A to Break Ground in Alameda, CA

The \$500-million first phase of Alameda Point Site A is set to break ground (photo - Alameda Point Partners)

By Greg Aragon,

The City of Alameda and its private partner, Alameda Point Partners (APP), LLC, on May 23 will break ground on phase one of the \$1 billion mixed-use, transit-oriented waterfront development at the gateway to Alameda Point, called Site A. The 68-acre Site A development is located on the site of the former Naval Air Station Alameda, which closed nearly 25 years ago.

“The redevelopment of the former air station into a \$1 billion mixed-use transit-oriented development is truly significant and complex,” says Bruce Dorfman, senior managing director of Trammell Crow Residential TCR’s Northern California division. “There were a number of issues associated with the site including tidelands, wildlife refuge buffer requirements, soil and groundwater remediation, aging infrastructure, and sea level rise.”

Dorfman says given the scale of the project, “there was extensive community input and demand for considerable community benefits. Additionally, economic cycles were a challenge – two prior proposals to develop Alameda Point were derailed by the recessions related to the ‘dot com’ bust and the ‘mortgage meltdown,’ so we are very excited to get shovels in the ground.”

Eden Housing will develop a total of 130 affordable housing units in phase one on Block 8, a two-acre parcel. The homes will be targeted at extremely low, very-low, low, and moderate-income households, which will be constructed in two buildings. One will be a “family” building with 70 units, while the second will be a building for seniors with 60 units. KTG Architecture + Planning is the designer of both buildings.

On Block 11, TCR will be developing a 220-unit market rate apartment community that will be highly amenitized with larger units offering views of the City and the Bay. “The Alexan Pan Am site is truly one of the best in the Bay Area – with its views, proximity to the new ferry, and central location in this new community, Alexan will be one of the most desirable rental properties in the East Bay, a draw to local residents who are presently living in older properties but are looking for a newer and higher quality housing option,” says Stephanie Hill, vice president - development, Trammell Crow Residential’s Northern California division. “This will help to reduce rent pressure for older apartments.”

The Alexan Pan Am will include 15,000 sq-ft of neighborhood-serving retail and

commercial space and is expected to break ground in late 2018. BAR Architects is the project’s designer. The general contractor is a venture between Maple Norcal Construction and Suffolk Construction.

In Block 9, Cypress Equity Investors is proposing to build 200 residential units that offer “affordability-by-design” to be appealing to moderate-income households. The new development would include approximately 10,000 sq-ft of retail/commercial space. The project’s designer is PYATOK.

In Block 6, Trumark Homes plans to build 63 townhomes, says Hill. KTG Architecture + Planning is the project’s designer. Block 7 is currently optioned by Trumark Homes for 60 townhomes. The concept design architect was Kwan Henmi Architecture/Planning, which is now DLR Group|KwanHenmi. KTG Architecture + Planning is the executive architect.

An Equal Opportunity Employer

California Sub-Bid Request Ads

HDR specializes in engineering, architecture, environmental and construction services with nearly 10,000 professionals working in over 200 locations around the world. We focus on providing our clients innovative solutions that bring a high return on their investment and that withstand the test of time. We recognize that small and socioeconomic business partners are integral to our own success as a thriving business. Our approach to teaming with small businesses goes beyond just meeting minimum requirements. With a corporate policy of affording every practicable opportunity for the small business community to participate in our contracts, we seek out firms that bring honed specialty services and firms that add bench strength to our local delivery philosophy. As we embark on new partnerships, we are invested in building trusted relationships that result in project success.

HDR is pursuing a **wastewater design-build project in Southern California**. We are seeking SBE/MBE/MWBE/WBE firms interested in subcontracting opportunities that provide one or more of the following services:

- Geotechnical subsurface investigations
- Surveying services required for design
- Hazardous materials investigation study
- Subsurface utilities and buried structure investigations
- Materials Testing
- Surveying
- Excavation
- Shoring and sheeting
- Dewatering
- Bypass pumping
- Pile construction
- Reinforcing steel supply and placement
- Trucking
- Electrical and instrumentation and control construction
- Building construction
- Miscellaneous metals (not embedded)
- Odor control
- HVAC
- Coatings
- Paving and site improvements

Respond by June 13, 2018

An Equal Opportunity Employer

\$1 Billion Alameda Point Site A

Continued from page 1

Completion of the new infrastructure for the \$500-million phase one of Site A is expected within the next two years, with vertical construction commencing by year end, says Dorfman. The first residential units are projected to be completed in the second half of 2019. The general contractor for the infrastructure is DeSilva Gates Construction.

APP is scheduled to move forward with the transfer of approximately 20 acres from the City in 2019 for the project's second phase, Dorfman says. "The timing of the third phase, which is slated to include a hotel plus additional commercial space, will be a function of the Navy's completion of its remediation activities before the remaining portion of Site A is turned over to APP," says Dorfman.

Alameda Point Partners (APP) is a joint venture led by managing partner Trammell Crow Residential (TCR), a division of Dallas-based Crow Holdings, and also includes commercial developer srmERNST Development Partners, affordable non-profit housing developer Eden Housing, retail landlord Madison Marquette, and financial partner Cypress Equity Investments.
