

It's time to reexamine your subcontractor qualification process

[Article was originally posted on <https://blog.buildingconnected.com>]

By *Justin Levine*,

There's a growing understanding among general contractors that picking the right subcontractors is crucial to keeping increasingly complex construction jobs on track. But with overextended subcontractors making schedule delays, manpower issues, and defaults more common — plus the threat of an economic recession looming — there's never been a better time to reexamine your subcontractor qualification process.

Here's why embracing a recurring, streamlined qualification process focused on risk mitigation (not just eradication) will better prepare your organization for challenges you're likely to face in the coming years.

Defaults are on the rise (and more common than you might think)

The construction industry continues to see growth in several spending categories, but more work for subcontractors naturally produces more contractual defaults. As one of our favorite anecdotes goes: today's subcontractor defaults don't happen from starvation — they happen from overeating. Otherwise put, most subcontractors aren't prepared to take on extreme growth, but they do so anyway, leading to overextension and under-capitalization. This is why continually getting timely, audited financial statements and using a standard-

ized financial assessment to evaluate subcontractors is a key step in the qualification process.

If you want more proof that addressing subcontractor default should be a top priority in today's construction industry, just take a look at the sharp rise of SDI (subcontractor default insurance) carriers available in the market. Until 2012, Zurich was the only insurer that offered SDI. However, with recent entrants to the market, there are now over a half-dozen carriers doing so, including newcomers like Berkshire Hathaway and market leader, AXA XL. The proof in the efficacy of SDI is already out there for general contractors, and according to Marsh, the market is also expanding into owner/general contractor combined programs. The first such project netted \$3 million in savings based on insurance premiums that were successfully avoided.

Now's the time to recession-proof your organization

2019 has seen some impressive month-over-month growth rates, with U.S. construction spending posting its biggest increase in 9 months this past March. At the same time, residential construction spending is beginning to make experts nervous. Economists predict growth will continue in construction spending, but at a slower rate than previous years. So while spending is at an all-time high, growth numbers are slowing down — a trend many experts interpret as a sign the market is headed towards a recession.

That's likely why the 2019 AGC/FMI Risk Management Survey focused on how general contractors can best recession-proof their organizations. The report argued that now, while spending is at an all-time high, is the perfect time to put a recession plan in place. One of the best ways to start is to establish a better qualification process that takes every possibility into account. While qualification can prevent crippling subcontractor defaults, it won't eradicate them completely. Therefore, a sophisticated approach is important to reduce the scale of default and help your organization recover more quickly.

It's all about risk mitigation — not risk eradication

Let's be clear: we know that sometimes you have to work with risky subcontractors, and not all defaults can be prevented. That's why it's important to have a qualification process in place that focuses on loss prevention and helps you proactively reduce the scale of defaults when subcontractor risks become realized. Analyzing and assessing the risk of subcontractors is a great start, but your qualification process needs to lead to the implementation of effective mitigation plans. TradeTapp makes that easy with automated workflows for product features to create, save, and track risk mitigation plans on all of your projects.

Even if at the beginning of a project a subcontractor looks safe, it's a good idea to put a plan

Subcontractor Qualification Process

Continued from page 1

in place to check in on them as the project progresses. They may have enough capital to take on the project, but what if they start another project midway through yours? Prequalification is necessary, but it's not sufficient. Sometimes even the best prequalification and in-process management can still leave a general contractor with a troubled subcontractor. To thoroughly manage risk, even a subcontractor that is qualified at the outset of a project must still be managed throughout it.

Wrap-up

Today more than ever, qualifying subcontractors is crucial for the preconstruction phase. A formalized financial assessment is no longer just a function of the biggest general contractors — it's being adopted across the entire industry. While spending continues to climb in 2019, a qualification process can help protect you from selecting over-extended subcontractors. At the same time, that qualification process you put in place to protect you today can be the first step in your recession-proof plan for the future.

nibbi

Project Name: Pier 70 E2 Structural Concrete

Location: San Francisco, California

Bid Date: Wednesday, June 5, 2019 @2pm

Pre-Bid Meeting: May 16, 2019 @8am

Location: Nibbi Office, 1000 Brannan Street, Suite 102

Labor Requirements: This project is subject to a Project Stabilization Agreement (Labor Agreement) and Prevailing wage provisions.

Project Schedule: August 2019 – July 2021

Nibbi Brothers has been selected as the General Contractor for the Pier 70 Building E2 project in San Francisco, CA. We are in receipt of the 50%CD Set and are currently requesting bid proposals from subcontractors and suppliers including those certified with the San Francisco Contract Monitoring Department (CMD) as local business enterprises (LBE's) for Structural Concrete. Subcontractors received an email notification via BuildingConnected to activate and/or access your account online in order to download associated files and confirm your bidding status.

Please note that All Subcontractors will be required to comply with the following requirements by the Port of San Francisco:

- 17% Local Business Enterprise (LBE) goal.
- The Project is subject to MBE/WBE/VBE participation goals in accordance with the Developer's Diversity Program with a goal of 10% participation.
- 30% of total construction hours performed by SF residents.
 - Consistent with Local Hire Program.
 - Contractor agrees to work with the Office of Economic and Workforce Development (OEWD) and local partner Young Community Developers (YCD).
- 50% new hires for employment opportunities in the construction trades and any Entry-level Position.
 - Contractor agrees to work in Good Faith with the Office of Economic and Workforce Development (OEWD).
- Pier 70 desires to engage contracting teams that reflect the diversity of our City and include participation of both businesses and residents from the City's most disadvantaged communities including, but not limited to, the neighborhoods in the 94107, 94124, and 94134 zip codes.

Project Description: The project consists of new construction of Type III-A fully sprinkler construction for 5 stories of R-2 residential over 2 story Type IA above grade group R-2 residential, Group M Retail and A-2 Restaurant in San Francisco with a total of 244,502 gross square feet. Includes one floor of below grade parking for 105 automobiles, retail space at ground floor, and 7 Story residential building containing 275 dwelling units.

Bid Documents: In order to gain access to the following bid documents, please contact Kristin Medwick, Senior Precon & Estimating Coordinator via email, kristinm@nibbi.com. For specific questions regarding this project, please contact Kieran Daly, Nibbi Project Manager via email, kierandnibbi.com. Please make sure to copy Nathan and Edwin at Brookfield Properties, Nathan.Arnold@brookfieldpropertiesdevelopment.com, Edwin.Burk@brookfieldpropertiesdevelopment.com.

Sixty-Seven Percent Of Nation's Road Contractors Experienced Vehicle Crashes At Work Sites, Putting Motorists' And Workers' Lives At Risk

Sixty-seven percent of highway contractors report that motor vehicles had crashed into their construction work zones during the past year, according to the results of a new highway work zone study conducted by the Associated General Contractors of America. In response, association officials have launched a new radio and media campaign urging drivers to slow down and remain alert in highway work zones.

"There are simply too many cars crashing into too many work zones, putting too many lives at risk," said Brian Turmail, the association's national spokesman. "That is why we are launching a nationwide outreach effort designed to better educate motorists about the need to drive with care in highway work zones."

Turmail said that 70 percent of contractors reported work zone crashes on their projects in which motor vehicle operators or passengers were injured. In addition, 28 percent of those crashes involved a driver or passenger fatality. Highway work zone crashes also pose a significant risk for

construction workers, Turmail noted. He said that 28 percent of work zone crashes injure workers and 8 percent of those crashes kill them.

In response, the construction association announced the launch of the new safety education campaign. Association officials noted that 73 percent of contractors report that the risk of highway work zone crashes is greater now than it was a decade ago. Turmail noted the increased risk was "unacceptable."

Association officials are launching the nationwide outreach campaign to try to improve highway work zone safety for workers and motorists alike. As part of the new effort, association officials will be talking to radio stations around the country about what drivers should do while passing through construction sites. The association will also use social media to urge drivers to be more careful and alert in highway work zones.

The association is also working with construction equipment and technology firms to develop

systems to better alert workers when vehicles come too close to job sites. And the association's chapters will continue to work with local and state police and state departments of transportation to ensure adequate highway work zone protections are in place.

"When you see construction signs and orange barrels, obey the posted speed limit, keep your eyes on the road and get off the phone," the association spokesman said. "No amount of saved time, and certainly no social media post or text, is worth the safety of you, your passengers or the men and women working on our roads."

The work zone safety study was based on a nationwide survey of highway construction firms the association conducted this April and May. Nearly 400 contractors completed the survey. Click here to view the national, state and regional highway construction zone survey results.

CITY & COUNTY OF SAN FRANCISCO DEPARTMENT OF PUBLIC WORKS

Sourcing Event ID No. 0000002148
Contract ID No. 1000013711

SHOREVIEW PARK RENOVATION

FEDERAL PROJECT FUNDED BY COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG)

Sealed bids will be received at 1155 Market Street, 4th Floor, San Francisco, California 94103 until **2:30:00 P.M. on June 12, 2019**, after which they will be publicly opened and read. Digital files of Bid Documents, Plan Holders Lists, and Addenda may be downloaded at no cost from the Public Works Electronic Bid Documents Download site at www.sfpublishworks.org/biddocs. Please visit the Contracts, Bid Opportunities and Payments webpage at www.sfpublishworks.org for more information. Notices regarding Addenda and other bid changes will be distributed by email to Plan Holders.

The work to be done under this contract consists of renovation of an existing park along Lillian Ct between Rosie Lee Lane and Beatrice Lane in San Francisco. The scope of work includes environmental /hazmat soil management, site demolition, tree removal, grading and drainage, concrete paving, concrete walls, pedestrian scale lighting, electrical work, structural footings, plumbing and connections, synthetic turf playground surfacing, trellis structure; landscape planting, site furnishings, irrigation system and utilities, play equipment, and adult exercise equipment. The time allowed for completion is 210 consecutive calendar days. The Architect's estimate is approximately \$1,100,000. For more information, contact the Project Manager, **Paulina Araica** at 415-581-2558.

On July 1, 2014, the registration program under section 1725.5 of the California Labor Code went into effect. The program requires that all contractors and subcontractors who bid or work on a public works project register and pay an annual fee to the California Department of Industrial Relations ("DIR").

No contractor or subcontractor may be listed in a bid or awarded a contract for a public works project unless registered with the DIR as required by Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].

This Project shall incorporate the required partnering elements for **Partnering Level 1**. Refer to Section 01 31 33 for more details.

Pursuant to San Francisco Administrative Code (SFAC) Section 6.25, "Clean Construction" is required for the performance of all work.

The Specifications include liquidated damages. Contract will be on a Lump Sum Bid Items With Unit Prices basis. Progressive payments will be made.

This Contract is subject to the requirements of Administrative Code Chapter 12X, which prohibits the City from entering into any Contract with a Contractor that has its United States headquarters in a state ("Covered State") with laws that perpetuate discrimination against LGBT populations or where any or all of the work on the contract will be performed in any of those states. A list of states on the Covered State List can be found at: <https://oag.ca.gov/ab1887>.

The Specifications include liquidated damages. Contract will be on a Unit Price basis. Progressive payments will be made.

Bidders are advised that this is a federal-aid project subject to equal employment opportunity provisions and Small Business Enterprise (SBE) program. The SBE participation goal is **20%**. Bidder shall perform good faith efforts steps if Bidder cannot meet this goal. Chapter 14B 10% Bid Discount is not applicable to this Contract. Call Ian Fernando at 415-581-2307 for details.

A pre-bid conference will be held on **May 29, 2019 at 1:30 p.m. at 30 Van Ness Ave, 5th Floor, Main Conference Room.**

A corporate surety bond or certified check for ten percent (10%) of the amount bid must accompany each bid. SFAC Sec.

6.22(A) requires all construction contracts awarded by the City and County of San Francisco to include performance and payment bonds for 100% of the contract award.

Class "A" license required at time of award.

In accordance with Administrative Code Chapter 6, no bid is accepted and no contract in excess of \$600,000 is awarded by the City and County of San Francisco until such time as the Mayor or the Mayor's designee approves the contract for award, and the Director of Public Works then issues an order of award. Pursuant to Charter Section 3.105, all contract awards are subject to certification by the Controller as to the availability of funds.

Minimum wage rates for this project must comply with the current General Prevailing Wage as determined by the State Department of Industrial Relations and the Federal General Prevailing Wage Determinations of the Secretary of Labor under the Copeland Act. Minimum wage rates other than applicable to General Prevailing Wage must comply with SFAC Chapter 12P, Minimum Compensation Ordinance.

Bidders are hereby advised that the Contractor to whom the Contract is awarded must be certified by the Contract Monitoring Division as being in compliance with the Equal Benefits Provisions of Chapter 12B of the Administrative Code within two weeks after notification of award.

If a bidder objects on any ground to any bid specification or legal requirement imposed by this Advertisement for Bids, the bidder shall, no later than the 10th working day prior to the date of Bid opening, provide written notice to the Contract Administration Division, San Francisco Public Works, setting forth with specificity the grounds for the objection.

Right reserved to reject any or all bids and waive any minor irregularities.

– Plumbing & Cleaning Project
960 10th Street, Oakland, CA 94607**

2. The Project consists of:

Scope of work includes repairs to sewer mainline is broken in several areas causing backup to main buildings; excavate to sewer main line from connections at main building throughout several areas on school yard and up to manhole; replace approximately 875ft of 6" sewer main from main school building, to City Street; backfill and compact all trenches, replace all concrete and asphalt affected by pip replacement; remove all construction related debris from job site to discard.

3. Engineer's Estimate: **\$234,960**

4. Project Manager for this project is **Kenny Watts**, he can be reached at **(510) 277-6759**.

5. To bid on this Project, the Bidder is required to possess one or more of the following State of California contractors' license(s):

**A-General Engineering,
C42 Sanitation System Contractor**

The Bidder's license(s) must remain active and in good standing throughout the term of the Contract.

6. To bid on this Project, the Bidder is required to be registered as a public works contractor with the Department of Industrial Relations pursuant to the Labor Code. The Bidder's registration must remain active throughout the term of the Contract.

7. Contract Documents will be available on or after **Friday, May 24, 2019**, for review at **East Bay Blue Print, located at 1745 14th Avenue, Oakland, CA 94606**. All requests should be addressed Attention: Sandy Petty. Plans can be ordered by:

Ph: 510-261-2990

Fax: 510-261-6077

Email: ebbp@eastbayblueprint.com,

Attn: Sandy. Online using the Plan Command System at www.eastbayblueprint.com or plans can be delivered to a place of business, at requester's own expense. Payment for plan sets must be made with East Bay Blue Print and are **NON-RE-FUNDABLE**

In addition, Contract Documents are available for bidders' review at the following builders' exchanges:

Builder's Exchange of Alameda County
McGraw Hill Construction Data
San Francisco Builder's Exchange
Reed Construction Market Data
Contra Costa Builder's Exchange
Marin Builder's Exchange

8. Sealed bids will be received until **2:30 p.m., on Thursday, June 6, 2019**, at the District Office, located at **955 High Street, Front Desk, Oakland, California**, at or after which time the bids will be opened and publicly read aloud. Any bid that is submitted after this time shall be non-responsive and returned to the bidder. Any claim by a bidder of error in its bid must be made in compliance with section 5100 et seq. of the Public Contract Code.

9. Pursuant to Public Contract Code section 20111.5, and the District's Prequalification for Prospective Certified Local/Small Local Resident bidders, only prequalified bidders will be eligible to submit a bid for this Project. Any bid submitted by a bidder who is not prequalified shall be non-responsive and returned unopened to the bidder.

10. All bids shall be on the form provided by the District. Each bid must conform and be responsive to all pertinent Contract Documents, including, but not limited to, the Instructions to Bidders.

11. A bid bond by an admitted surety insurer on the form provided by the District, cash, or a cashier's check or a certified check, drawn to the order of the Oakland Unified School District, in the amount of ten percent (10%) of the total bid price, shall accompany the Bid Form and Proposal, as a guarantee that the Bidder will, within seven (7) calendar days after the date of the Notice of Award, enter into a contract with the District for the performance of the services as stipulated in the bid.

12. A **mandatory**/voluntary pre-bid conference and site visit will be held on **Thursday, May 30, 2019 at 10:00 a.m. at Front Entrance of Martin Luther King Jr.** All participants are required to sign in at the front Entrance of the Building. The site visit is expected to take approximately [1] hour. Failure to attend or tardiness will render bid ineligible.

13. The successful Bidder shall be required to furnish a 100% Performance Bond and a 100% Payment Bond if it is awarded the Contract for the Work.

14. The successful Bidder may substitute securities for any monies withheld by the District to ensure performance under the Contract, in accordance with the provisions of section 22300 of the Public Contract Code.

15. The successful bidder will be required to certify that it either meets the Disabled Veteran Business Enterprise ("DVBE") goal of three percent (3%) participation or made a good faith effort to solicit DVBE participation in this Contract if it is awarded the Contract for the Work.

16. The Contractor and all Subcontractors under the Contractor shall pay all workers on all Work performed pursuant to this Contract not less than the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work as determined by the Director of the Department of Industrial Relations, State of California, for the type of work performed and the locality in which the work is to be performed within the boundaries of the District, pursuant to section 1770 et seq. of the California Labor Code. Prevailing wage rates are also available from the District or on the Internet at: <http://www.dir.ca.gov>.

17. This Project is subject to labor compliance monitoring and enforcement by the Department of Industrial Relations pursuant to Labor Code section 1771.4 and subject to the requirements of Title 8 of the California Code of Regulations. The Contractor and all Subcontractors under the Contractor shall furnish electronic certified payroll records directly to the Labor Commissioner weekly and within ten (10) days of any request by the District or the Labor Commissioner. The successful Bidder shall comply with all requirements of Division 2, Part 7, Chapter 1, Articles 1-5 of the Labor Code.

18. The District has entered into a Project Labor Agreement that is applicable to this Project. For questions or assistance concerning the Project Labor Agreement, **contact Maribel Alejandro, (510) 835-7603 X 21, Davillier-Sloan, Inc. 1630 12th Street, Oakland, California, 94607**.

19. The District shall award the Contract, if it awards it at all, to the lowest responsive responsible bidder based on:

A. The base bid amount only.

20. The Board reserves the right to reject any and all bids and/or waive any irregularity in any bid received. If the District awards the Contract, the security of unsuccessful bidder(s) shall be returned within sixty (60) days from the time the award is made. Unless otherwise required by law, no bidder may withdraw its bid for ninety (90) days after the date of the bid opening.

OFFICE OF COMMUNITY INVESTMENT AND INFRASTRUCTURE (OCII)

REQUEST FOR PROPOSALS - PARKS MAINTENANCE AND PROPERTY MANAGEMENT

The Office of Community Investment and Infrastructure has released a Request for Proposals for landscape maintenance, janitorial and property management services for public parks and streetscapes at Phase 1 of the Hunters Point Shipyard and the Shipyard Site Office building at 451 Galvez Avenue. Local small businesses and teams including local small businesses are highly encouraged to submit proposals. A mandatory pre-submission meeting will be held on Wednesday, June 12th at 10 a.m. at the Shipyard Site Office building at 451 Galvez Avenue, San Francisco, CA 94124. The Request for Proposals can be downloaded at sfocii.org/rfp

Request for Proposal

On-Call Construction Scheduling Services

Topic: On-Call Construction Scheduling Services

Who: The Santa Clara Valley Water District (Valley Water) is the water resource management agency meeting watershed stewardship needs of Santa Clara County and providing wholesale water reliability to its 2 million residents.

What: Valley Water is soliciting proposals from consultants to perform on-call services for general and specialized engineering services outlined below relating to flood protection, water utility capital, and facilities improvement construction projects.

- Provide an independent review and assessment of projects' construction baseline and progress schedules, recovery schedules and contractor submittals.
- Assist the Valley Water in analyzing responsibility for construction schedule delays in the project.
- Provide an independent review and assessment of claims and disputes submitted by Valley Water contractors regarding any construction activity on the project.

Please submit your proposals electronically to Valley Water's Contract Administration System (CAS) by the date and time specified in the RFP Schedule. Prior to submitting proposals, all firms must be registered in CAS. This can be achieved by going to the web address noted above and following the instructions to create an account. When in the creation process, select the expertise code "CM10" Construction Management and add contact information as necessary. The full Request for Proposal (RFP) can be viewed at <http://cas.valleywater.org>.

Contact: If you need assistance with creating a CAS account, please call (408) 630-2992, or e-mail questions to ContractAdministration@valleywater.org.

In addition to submitting proposals electronically through Valley Water's web portal, hard copies of the proposal must be received by the proposal due date and time specified in the RFP Schedule. Please refer to the RFP for detailed hardcopy delivery instructions.

General questions regarding this solicitation will be accepted by email to **Hortencia Gonzalez-Palencia** at HGonzalez@valleywater.org. Questions must be submitted no later than the date specified in the RFP Schedule.

California Sub-Bid Request Ads

Requests quotes from qualified and certified DVBE and DBE Subcontractors/Suppliers/Vendors for the following (but not limited to) work:

Subcontractors

Quality Control (CQCP), Erosion Control, SWPPP, Street Light Removal, Fence & Gates, Asphalt Paving, Striping, Hydroseeding, Clearing & Grubbing, Rebar

Suppliers/Vendors

Concrete, Aggregates, Reinforced Concrete Pipe (RCP), Corrugated Metal Pipe Riser (CMP)
