

New Survey: Worldwide Construction Market to Grow 4% Annually to 2030

By Peter Reina

Under steady conditions, global construction output is set to grow, on average, by nearly 4% annually for the next 15 years—reaching, in constant 2014 dollars, \$17.5 trillion by 2030, says a new global forecast. Construction’s share of the worldwide economy will rise 2.3% to nearly 15%—fueled by an 85% rise in global spending, with nearly half that growth to occur in China, India and the U.S., it adds.

Those market assessments are the crux of the 452-page “Global Construction 2030” forecast (GC30), released in London on Nov. 10. While the long view seems rosy, the survey authors emphasize that near-term prospects are at the mercy of inevitable central-bank lending-rate hikes from today’s historically low levels.

The three key growth nations the report cites—along with Canada, Indonesia, Mexico, Nigeria and the U.K.—account for 70% of expected growth, say research firms Global Construction Perspectives and Oxford Economics, authors of the GC30 survey, which is the fourth in a series. More than one-third

of the \$210 trillion predicted in cumulative construction volume will be, by 2030, in emerging Asian economies (ENR 9/21 p. 6).

But the report also warns that an initial impetus for the growth could stall by nearly 1% a year in the medium term if the thrust of inflation leads to a hike in the U.S. Federal Reserve’s base rate—a scenario it refers to as “bond fright” (see chart, below). Two years ago, a jump in U.S. long-term bond yields, caused by the “mere mention of tightening of monetary policy” by then-Fed Chairman Ben Bernanke, resulted in significant capital flows from emerging markets to the developed world, the authors say. These hikes forced defensive interest-rate rises in India, Brazil, Turkey, Russia and elsewhere.

While rising borrowing costs tend to depress general economic output, the impact would be “considerably more pronounced on construction” because the sector relies heavily on debt, the forecasters say. In the U.K., 60% of contracting activity is debt-funded, compared to 40% for the rest of the economy, according to report’s data. The effect of rising interest rates on Indian construction output would be twice the impact on the country’s GDP.

Increasing oil prices represent a potential double whammy, possibly triggering a Fed rate rise and boosting construction costs. But a price hike would benefit oil-based economies such as Russia’s, in which construction activity was already on a slide. Its long-term economic prospects “are among the weakest in the emerging world,” says GC30, but construction likely would rebound with rising oil prices.

Even oil-rich Middle Eastern markets are flagging in the face of low oil prices. Cuts in infrastructure spending now are on the agenda in Saudi Arabia, where the fiscal deficit is forecast at 17.3% of GDP this year, says the report. Even so, it will remain the Middle East’s largest market. Qatar, with its huge gas reserves and preparations for the 2022 World Cup, is set to remain the world’s fastest-growing construction market to 2020, but output then will fall sharply, says GC30.

Construction growth across the Middle East-North

If you are interested in submitting a subcontractor bid for this project, please call us at 925-932-7900 or fax us your quote at 925-279-2269. PLEASE SUBMIT A COPY OF YOUR CURRENT CERTIFICATION WITH YOUR BID. Dealers/Suppliers and Brokers please confirm your designation code to us on or before the bid date. Please contact Chief Estimator Robert Rosas with any questions

Blois Construction Co., Inc.

3201 Sturgis Road • Oxnard, CA 93030
Phone: 805-656-1432 • 805-485-0338

REQUESTING BIDS FROM DBE/MBE/
WBE/OBE Subcontractors and Vendors

**Project: Civic Center Wastewater Treatment
Facility, Phase I, Pipelines & Pump Stations
Project, Malibu, CA**

Owner: City of Malibu

Bid Date: 12/03/2015 2:30pm

Blois Construction is bidding this project as a Prime Contractor and is requesting bids from the following trades and suppliers:

Survey, Slurry/Concrete, Cathodic Protection, Sand/Base/Rock - Aggregates, Traffic Control / Design, Asphalt, Striping, Pipe and Fittings, Paving, SWPP Material, Saw Cutting - Asphalt Concrete demolition, Trucking, SWPPP Design and Implementation, Shoring, Dewatering and Filtration, Trenchless Pipe installation, Auguring Up to 8' Diameter

Please send scope letters 5 days prior to bid date and quotes 4 days prior to bid date to allow time for proper negotiations. Please include any certification documents you may have. Selected Subcontractors are required to take Affirmative Action steps to reach out to lower-tier subcontractors as outlined in contract documents. Blois is signatory to the Laborers and Operating Engineers. Items can be broken down and delivery schedules can be accommodated to allow for maximum participation. Blois will assist with bonding, insurance, lines of credit, materials and supplies if requested.

For questions regarding the project, contact Dave Mirones at 805.656.1432 Ext 22, FAX 805.485.0338 or email DaveMirones@bloisconstruction.com. If interested in bidding this project, Blois Construction is willing to assist all qualified subcontractors/suppliers in obtaining bonding, required insurance, materials, supplies or lines of credit if requested. Blois Construction is signatory to the Laborers and Operating Engineers.

Plans can be obtained by calling Dave Mirones at Blois Construction, Phone 805-656-1432, Ext 22, or email DaveMirones@bloisconstruction.com for assistance.

Blois Construction is committed to working with qualified DBE/MBE/WBE/OBE subcontractors and suppliers who respond. Please include any certification you may have when submitting bids. Self Certification is not acceptable.

Worldwide Construction Market to Grow 4% Annually to 2030

Continued from page 1

Africa region is set at half of the past decade's levels, the forecasters predict, although they estimate \$11.5 trillion in regional spending in the next 15 years. The sub-Saharan market is forecast to grow 120% by 2030, driven substantially by urbanization. Nigeria, set for a 160% rise in construction spending, is on course to become the world's fifth most populous nation by 2030.

Among developed countries, Australia is suffering most from reduced oil and commodities prices, says the report. Its weakened currency will support some aspects of construction, but the survey authors do not expect infrastructure spending to regain its 2012 peak until 2030.

U.S. Market Growth To Exceed China

But the reports authors are more optimistic about the U.S., ranking it as "the fastest-growing developed-country market," says Graham Robinson, executive director of Global Construction Perspectives. After shrinking by one-third between 2005 and 2010, it began to recover in 2012 and is set to exceed 5% a year to 2018, before easing off again. Investment in building construction will exceed infrastructure spending, he points out. Southern states will support faster construction growth rates than the U.S. as a whole, while the New York area will be the fastest-growing region, says GC30. One-fifth of all U.S. construction spending—about \$500 billion by 2030—will be in the New York

City, Houston, Los Angeles and Chicago metro areas.

Globally, U.S. construction expansion over the next 15 years will exceed that of China, which is experiencing a relative slump, with just 2.2% growth forecast for 2016. Chinese construction growth to 2020 is forecast at under one-third of the previous decade's annual average. In the 10 years to 2030, forecasted growth is about 5%, leaving China with nearly a quarter of global construction output at the end of the period. Chinese infrastructure growth is forecast at 4% a year—faster than housing but slower than non-residential construction.

To take up construction capacity, China is set to boost its global activity, notes GC30. This activity includes bidding for work in new markets, such as the U.K., and creating opportunity with big foreign investments, including the grandiose maritime-and-highway Silk route through Asia, Africa and Europe. That route could involve some 900 projects, for which China Development Bank reportedly has promised \$890 billion, says GC30.

Enhancing prospects for foreign firms in China is a resurgence in public-private partnerships. Restrictions in local government borrowing, triggered by the sector's ballooning debt, has led to renewed interest in P3s in the past 12 months, say lawyers from London-based Pinsent Masons in the GC30 report. New standard contract forms and other rule changes could boost P3s—an approach adopted in China 30 years ago but moving sluggishly, the attor-

neys add. The government late last year announced 30 projects in the energy, transportation, water and environmental-protection sectors, valued at \$29.3 billion total.

India is powering ahead at twice China's rate to 2020 and is set to become the third-largest market soon after, predicted at \$1.5 trillion in 2030. Indonesia is forecast to overtake Japan, to rank fourth; GC30 groups it with Vietnam and Myanmar as the new "ASEAN Tigers," whose annual construction markets are set to grow more than 6% to 2030, when they will total more than \$1 trillion. In Latin America, Mexico will overtake Brazil, which faces a "lost decade" due to stagnant construction demand. Colombia's market is forecast to grow 2.5 times faster than Brazil's.

With its aging population, Europe is not expected to see its construction market returning to pre-crisis levels until 2025—with annual growth averaging 1.6% to 2030, says GC30, although figures do not reflect the impacts of the recent migrant influx, particularly in Germany. It is set to have the continent's largest market but one growing more slowly than Japan's. By the forecast period's end, Germany is set to be the eighth-largest global market, down from fifth. Overtaking it is the U.K., which is forecast to become the world's sixth-largest market by 2030, pushing Canada to seventh place by around 2025.

Kiewit Infrastructure West Co. (Kiewit)

Kiewit is seeking sub-quotes from Disadvantaged Business Enterprises (DBE), including Minority Business Enterprises (MBE); Women Business Enterprises (WBE); Small Business Enterprises (SBE); Small Business in a Rural Area (SBRA); Labor Surplus Area Firms (LSAF); Historically Underutilized Business (HUB) firms; and all other business enterprises to perform as Subcontractors and Material Vendors/Suppliers. DBE's must be certified by one of the following agencies prior to bid opening: Caltrans (State Department of Transportation); Small Business Administration (SBA); Tribal, State and Local governments; U.S. Environmental Protection Agency (USEPA); or an independent certifying organization.

Project Owner: Chino Basin Desalter Authority

Project Name: Chino 1 Reliability Project

Project Location: 6905 Kimball Avenue, Chino, CA 91708

Project Bid Date: December 1, 2015 at 2:00pm PST

Project Description:

The work consists of construction of an expansion of the existing Chino I Desalter, including: (1) A new building built on to the existing Chino I Desalter facility; (2) A new reverse osmosis train that will be tied into the existing feed water, permeate, concentrate, and CIP piping manifolds; (3) Modification of the existing sulfuric acid chemical system by replacing two existing metering pumps and furnish and install two metering pumps with appurtenances and discharge piping; (4) A trench overflow is to be constructed and connected below the air gap that conveys water to the brine line; (5) All existing and new asphalt surfaces are to be slurry sealed; (6) Coating of the exterior of the existing process building to match the new process building exterior coating system; (7) Coating of all existing trenches.

Kiewit is requesting quotes in the areas described, but not limited to:

Concrete Formwork, AC Paving, Structural Steel, Painting and Coatings, Piping Supply, HVAC and Electrical/Instrumentation

All responsive Subcontractors must possess a valid California Contractor's license and provide acceptable insurance. Responsible bidders will be expected to provide bonding for 100% of their contract value. Bond premium will be reimbursed by Kiewit. Firms performing on-site work must be signatory to the appropriate union labor agreements that govern their work. Subcontractors, Consultants, Professional Service Firms, and Material Vendors/Suppliers must be able to accept all terms and conditions of the project under its resultant agreement.

Kiewit intends to conduct itself in good faith with all DBEs and all other business enterprises regarding participation on this project. For further information or questions regarding this project, to discuss your specialty or scope of work, the requirements of the contract, licensing, project scheduling, insurance or bonding, please contact our staff listed below. AECOM • MSS • TELACU, A Joint Venture

REQUEST FOR BIDS & NOTICE OF INTEREST

AECOM • MSS • TELACU, A Joint Venture, is bidding on the following project as a Prime Contractor:

**Document Control, Project Control and Support Services
Mira Loma Women's Detention Center (RFP No. AED7740000)**

Bid Date: 12-3-15

AECOM • MSS • TELACU, A Joint Venture, is seeking qualified Community Business Enterprises certified by Los Angeles County with expertise in document controls, project controls, and support services for the design-build delivery of the Mira Loma Women's Detention Center in Lancaster, CA. We would welcome information from qualified firms with expertise in the following professional service areas:

- | | |
|---|--|
| 1) Document Control | 6) Planning and development of post-occupancy maintenance schedule |
| 2) Scheduling | 7) Management/documentation for Equipment Procurement, Planning, and/or Installation |
| 3) Estimating | 8) Safety |
| 4) Cost Control | 9) Community outreach and local worker hiring support |
| 5) Management of user-occupancy planning and intermittent move/transition | |

This proposal is in alignment with the County of Los Angeles' CBE Program and certified CBEs are encouraged to respond. The RFP may be provided to interested firms, if needed. In addition, the AECOM • MSS • TELACU, A Joint Venture can provide assistance to firms in obtaining bonds, lines of credit and insurance required by the contract documents.

According to the RFP requirements, any firm selected shall be exclusively committed to the AECOM • MSS • TELACU, A Joint Venture team, and cannot be included in any other proposal for the Los Angeles County Mira Loma Women's Detention Center or Consolidated Correctional Treatment Facility.

Interested firms should email (preferred) preliminary qualifications (one page firm overview, key staff information, a relevant project list) and SBE/CBE certifications for review to SBE@SBEInc.com or fax to the Small Business Exchange at 415.778.6255, by 5:00 PM, Friday, November 20, 2015.
