

Kiewit Gets \$559 Million For Project NEON In Las Vegas

Winning bid beats runners up on cost and time for the 3.7 mile I-15 widening project that includes the downtown "spaghetti bowl" interchange

The Nevada Department of Transportation kicked off the largest construction project in state history earlier this month when it named Arizona-based Kiewit Infrastructure West Co. the design-build contractor for Project NEON, the 3.7-mile widening of Interstate 15 between Sahara Avenue and the "Spaghetti Bowl" interchange in downtown Las Vegas.

Project NEON includes several components that will result in both time savings and positive environmental impacts for drivers. It will connect the carpool lanes on U.S. Highway 95 to the I-15 express lanes with a flyover bridge. The project will also create direct access carpool ramps and a new interchange called "Neon Gateway."

Kiewit's winning bid of \$559.4 million had the highest technical score and lowest price: 5% below the runner-up, Neon Mobility Constructors, a joint-venture between Granite Construction Inc. and Skanska USA Civil West. Las Vegas Paving Corp. was second runner-up with a \$600 million bid, according to NDOT.

The project also includes plans to reconstruct the Charleston Boulevard interchange and extend Grand Central Parkway over the Union Pacific Railroad tracks.

NEON is something of a legacy project for Kiewit as the company actually constructed the original I-15 in 1968, according to NDOT Public Information

Officer Tony Illia. The company has completed 120 projects in Nevada since 1970.

"We've had a very successful, long-standing track record on infrastructure projects in Nevada and are both excited and eager to work on Project Neon," said Chris Koenig, project manager at Kiewit. "Our team has put an extensive amount of time and energy in creating an innovative approach that will accelerate the construction timeline and minimize the impact on the community. While this is an incredibly complex project, we are well-prepared and ready for the challenge." In addition to offering the lowest bid, Kiewit's proposal included a timeline that will see the job completed 300 days quicker than the competition's timeline. That equates to approximately \$80 million time savings for taxpayers, according to Illia.

Kiewit has put protocols in place in order to adhere to its timetable.

"Each phase of the project has been meticulously planned to optimize the construction schedule," said Koenig. "We devoted countless hours in phasing and staging the maintenance of traffic to efficiently sequence the work."

NDOT has included incentives in the contract to encourage early completion.

"Kiewit could earn up to \$20 million in early completion [bonuses]," said Illia. "But there are also penalties for going over."

If Kiewit overshoots its Project NEON timeline, NDOT can fine the company \$9,000 for every 10 minutes of freeway closures. The department can also fine Kiewit \$100,000 per day that it fails to meet substantial project completion, according to Illia.

If its timetable holds true, Kiewit will complete Project NEON in late 2019. The improvements made by the project will affect commuting times, driver safety and air quality.

"This is the busiest road in the state with over 300,000 travelers daily and 25,000 lane changes per hour," said Illia.

NDOT projects that the improvements will reduce travel delays by 28 percent, resulting in \$110 million in annual savings by improving productivity. The project will also have a positive effect on air quality by reducing vehicle idling time.

AECOM • MSS • TELACU, A Joint Venture

REQUEST FOR BIDS & NOTICE OF INTEREST

AECOM • MSS • TELACU, A Joint Venture, is bidding on the following project as a Prime Contractor:

**Document Control, Project Control and Support Services
Mira Loma Women's Detention Center (RFP No. AED7740000)**

Bid Date: 12-3-15

AECOM • MSS • TELACU, A Joint Venture, is seeking qualified Community Business Enterprises certified by Los Angeles County with expertise in document controls, project controls, and support services for the design-build delivery of the Mira Loma Women's Detention Center in Lancaster, CA. We would welcome information from qualified firms with expertise in the following professional service areas:

- | | |
|---|--|
| 1) Document Control | 6) Planning and development of post-occupancy maintenance schedule |
| 2) Scheduling | 7) Management/documentation for Equipment Procurement, Planning, and/or Installation |
| 3) Estimating | 8) Safety |
| 4) Cost Control | 9) Community outreach and local worker hiring support |
| 5) Management of user-occupancy planning and intermittent move/transition | |

This proposal is in alignment with the County of Los Angeles' CBE Program and certified CBEs are encouraged to respond. The RFP may be provided to interested firms, if needed. In addition, the AECOM • MSS • TELACU, A Joint Venture can provide assistance to firms in obtaining bonds, lines of credit and insurance required by the contract documents.

According to the RFP requirements, any firm selected shall be exclusively committed to the AECOM • MSS • TELACU, A Joint Venture team, and cannot be included in any other proposal for the Los Angeles County Mira Loma Women's Detention Center or Consolidated Correctional Treatment Facility.

Interested firms should email (preferred) preliminary qualifications (one page firm overview, key staff information, a relevant project list) and SBE/CBE certifications for review to SBE@SBEInc.com or fax to the Small Business Exchange at 415.778.6255, by 5:00 PM, Friday, November 20, 2015.

Project NEON In Las Vegas

Continued from page 1

In addition to improvements to carpool lane accessibility and road widening, Project NEON calls for landscape upgrades, new intelligent messaging signs and improved drainage.

NDOT also required all bidders to devise plans that will keep local streets open during construction.

Project NEON will create approximately 4,000 direct, indirect and induced local jobs in Nevada.

Kiewit has a 130-year successful track record building roads and recently completed two similar projects, the I-15 Corridor Reconstruction in Salt Lake City and the T-REX project in Denver.
