American Planning Association Designates San Francisco's Chinatown a Top 10 Great Neighborhood for 2013

Neighborhood Noted for Culture, Architecture, Community Activism

The American Planning Association (APA) today announced the designation of San Francisco's Chinatown as one of 10 Great Neighborhoods for 2013. Each year during National Community Planning Month, APA's Great Places in America program names 30 exemplary neighborhoods, streets and public spaces to highlight the role planning and planners play in adding value to communities, including fostering economic growth and jobs.

APA singled out Chinatown for its historic role as a cultural capital, storied "Oriental" architecture, community activism, rebuilding after San Francisco's 1906 earthquake, and planning efforts protecting the neighborhood's character and identity.

"Our city's historic, culturally diverse and economically thriving neighborhoods like Chinatown make San

Francisco

a world-

class des-

tination to

live, work

and visit,"

said San

Francisco Mayor

Ed Lee. "And,

through San

Francisco's

'Invest In

Neighborhoods

Initiative,' we will

continue to ensure

this neighborhood and

our commercial corridors

citywide continue to succeed

through dedicated and customized

services for our city's residents and

visitors alike," he said.

"I am honored," Mayor Lee continued, "that the American Planning Association has recognized San Francisco's Chinatown, the largest and oldest Chinatown in our nation, as one of 10 Great Neighborhoods for 2013."

"Chinatown is an authentic, ethnic community that has successfully maintained its cultural heritage and tourist appeal despite natural disasters, prejudice, and incompatible development proposals," said APA Chief Executive Officer Paul Farmer, FAICP. "Residents' understanding and appreciation of how a neighborhood and its special qualities enhance community aesthetics and individual lifestyles has led Chinatown to evolve into a remarkable community that is unique not only in the U.S., but also the world," he added.

The most populated neighborhood west of New York City and oldest Chinese community in the U.S., Chinatown is known for its bustling sidewalks, housing affordability, sustainable character, and colorful and ornate architecture. Residents strategically and quickly rebuilt in an oriental style after the 1906 earthquake and fire to draw tourists and thwart a proposal to move the leveled neighborhood elsewhere. Contributing to Chinatown's sustainability is its housing, 40 percent is single-room occupancy, and low percentage of households owning a car -- less than 20 percent.

"We are grateful to APA for recognizing one of our great neighborhoods, and the value of good planning to make great places. We are committed to preserving the cultural heritage of Chinatown while improving the neighborhood's physical character to best serve its 15,000 residents and the millions of tourists that visit annually," said John Rahaim, Planning Director for the City and County of San Francisco.

APA's Great Neighborhoods, Great Streets and Great Public Spaces feature unique and authentic characteristics that have evolved from years of thoughtful and deliberate planning by residents, community leaders and planners. The 2013 Great Places have many things Americans say are important to their "ideal community" including locally owned businesses, transit, neighborhood parks, and sidewalks. They illustrate how the foresight of planning fosters communities of lasting value.

Prequalified General Building Contractors and Designated Subcontractor will be required to have the following California contractor's license(s):

General Building Contractor: B
Designated Subcontractor: C10 Electrical

GENERAL DESCRIPTION OF WORK

Replace 1950's era electrical panel "A" in the basement of UCSF Medical Center Moffitt Hospital; build new electrical closet for new panel. Project area is

adjacent or near to the Hospital Pharmacy, Material Services and Sterile Processing Department. The project also includes replacement of various other sub-panels and motor control centers on various floors in Moffitt Hospital. The estimated construction cost range for the project is between \$950,000 and \$1,100,000.

PREQUALIFICATION SCHEDULE

Prequalification documents will be available beginning **Tuesday October 7, 2013 at 10 AM** by request via email containing the company name, contact person, address, phone and fax number to the following: contractservices@ucsfmedctr.org

Please reference Project No. 11-635 and the license classification package requested (B or C10) in the subject line. Potential bidders desiring to be prequalified under more than one "pool" must submit separate prequalification documents for EACH license classification.

The completed Prequalification questionnaire and associated documents will be received at the office of UCSF Medical Center, Office of Design and Construction, Contracts Unit, 3333 California Street, Suite 115, San Francisco, CA 94118, (415) 885-7257 and are due by **2:00 PM, Tuesday October 29, 2013**. The University will not accept completed prequalification questionnaires via FAX, and all prequalification questionnaires submitted must be sent so that they are received by the University on or before, **2:00 PM, Tuesday October 29, 2013**.

Any person or entity not satisfied with the outcome of the prequalification must file a writ challenging the outcome within 10 calendar days from the date of the

University's written notice regarding prequalification determination. Any assertion that the outcome of the prequalification process was improper will not be a ground for a bid protest. However, the University reserves the right to accept late submissions and to request, receive, and evaluate supplemental information after the above time and date at its sole determination.

The dates, times, and location set for receiving and opening of bids will be set forth in the "Announcement Prequalified Bidders and Advertisement for Bids."

The University reserves the right to reject any or all responses to Prequalification Questionnaires and to waive non-material irregularities in any response received.

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each Bidder may be required to show evidence of its equal employment opportunity policy. The successful Bidder and its subcontractors will be required to follow the nondiscrimination requirements set forth in the Bidding Documents and to pay prevailing wage at the location of the work.

The work described in the contract is a public work subject to section 1771 of the California Labor Code.
